FRESNO, MODESTO, STANISLAUS AND CENTRAL CALIFORNIA.

STREET IMPROVEMENT—Cost not stated. Bakersfield, Kern Co., Cal. Engineer, City Engineer, Bakersfield. Owners, City of Bakersfield. The City Council has adopted plans and specifications for the paving of the alley between 18th and 19th streets, from G to Spruce street. Bids for the work will soon be called for.

STREET IMPROVEMENTS—Cost not stated. Fresno, Fresno Co., Cal. Engineer, City Engineer, Fresno. Owners, City of Fresno. The City Trustees at their last meeting took up the matter of street iimprovement and approved plans and specifications for the following work: Paving of Calaveras street, from H to Divisadero street, and O street, from Butler to Divisadero. For the grading, curbing and placing culverts on Grant avenue, from First to Ninth street; Madison avenue, from Fresno to Ninth, and the curbing and guttering of Mariposa from F to G streets. Bids on these projects will be called for shortly.

STORM SEWERS—Cost not stated. Fresno, Fresno Co., Cal. Engineer, City Engineer, Fresno. Owners, City of Fresno. The City Trustees adopted plans and specifications and bids have been ordered received for the construction of the storm sewer system in this city. On recommendation of Engineer Cronkite, the Board decided to advertise for bids for the construction of the storm sewer in Inyo strreet, between Van Ness and L streets, these bids to be called immediately. Bids for the work close March 16th at 8 p. m. Plans and further information may be had from the City Clerk.

STREET IMPROVEMENT—Cost as follows. Modesto, Stanislaus Co., Cal. Engineer, City Engineer, Modesto. Owners, City of Modesto. The City council has awarded contracts for the improvement of L street, from 9th to 10th street; 11th street, from K to L, and 13th street, from K to L, to the Central California Paving Co., 12 Schafer Bldg., Modesto, on his bid of Grading, 1½c per square foot; paving, 13½c per square foot; cement concrete gutters, 16c per square foot; cement concrete curb, 41c per lineal foot.

ROAD TRACTORS—Cost not stated. Bakersfield, Kern Co., Cal. Engineer, County Surveyor, Bakersfield. Owners, Kern County. Two bids were received by the County Supervisors for furnishing the county with a road tractor, these being the Holt Manufacturing Co., of Stockton, and the C. L. Best Gas Traction Co., of San Leandro. Both bids were referred to the Contract Committee for report.

ELECTROLIER SYSTEM EXTENSION—Cost not stated. Fresno, Fresno Co., Cal. Engineer, City Engineer, Fresno. Owners, City of Fresno. A petition will be presented to the City Council within the next few days asking that the electrolier system on Van Ness avenue be extended from Kern street to California avenue, the cost of the work to be paid by the property owners.

HIGHWAY IMPROVEMENT — Cost not stated. Fresno, Fresno Co., Cal. Engineer, County Surveyor, Fresno. Owners, Fresno County. Plans for the improvement of the county road from Sanger to Hume by the elimination of

the heavy grades and the construction of a new road six miles in length, from Millwood to connect with the state road at Cherry Point, have been approved by the directors of the Commercial Club, and the managing director was instructed to prepare resolutions and submit them in person to the Supervisors.

RESIDENCE—1 story and base, frame, $1,800. Fresno, Fresno Co., Cal. Architect, none. Owner, F. C. Wilson, 2321 Hills street, Fresno. Location, Alta Vista Tract. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

WAREHOUSE—1 story, brick, $5,000. Fresno, Fresno Co., Cal. Architects, Coates & Traver, Rowell Bldg., Fresno. Owners, Pacific Gas and Electric Co. Location, F street near Fresno. Besides the warehouse plans provide for a garage. Plans are complete and figures being taken.

VAULT WORK—Cost as follows. Bakersfield, Kern Co., Cal. Architect, Orville L. Clark, Bakersfield. Owners, Kern County. Only one bid was received by the Kern County Supervisors for the construction of a vault in the County Clerk's office and this was rejected as being too high. New bids have been ordered called. The bid was that of Currie & Dulgar of Fresno for $1,435. The new bids will close April 3rd at 10 a. m. Plans may be had from the architect.

HOSPITAL—2 story and base, reinforced concrete, $50,000. Fresno, Fresno Co., Cal. Architects, Glass & Butner, Rowell Bldg., Fresno. Revised plans are being prepared for the new buildings to be erected at the County Hospital. Construction will now be made fireproof. Further mention will be made of the work when plans are completed.

SACRAMENTO, STOCKTON AND NORTHERN CALIFORNIA.

HIGHWAY IMPROVEMENT — Cost not stated. Stockton, San Joaquin Co., Cal. Engineer, County Surveyor, Stockton. Owners, San Joaquin Co. The San Joaquin County Supervisors have approved plans and specifications for improving the Mariposa road from Sanquinetti's corner to the crossing of the Santa Fe Railroad. Bids will be called for on April 3rd. Plans may be had from the County Clerk at Stockton.

BRIDGE—Steel and reinforced concrete. Cost as follows. Yuba City, Sutter Co., Cal. Engineer, County Surveyor, Yuba City. Owners, Sutter County. Property owners and residents of Nicolaus appeared before the Sutter County Supervisors at their last session and asked the construction of a bridge across the Feather River at Nicolaus. The bridge planned will be of reinforced concrete construction and is estimated to cost $120,000. The petitioners ask that construction be started immediately and that the funds be raised by means of a direct tax.

BRIDGE REPAIRS—Cost not stated. Sacramento, Cal. Engineer, County Surveyor, Sacramento. Owners, Sacramento County. Jenkins & Wells, 3530 Y street, Sacramento, presented the only bid to the Sacramento Supervisors for the proposed work on the Georgiana Slough bridge at Walnut Grove The bid was not opened It is probable that action on the bid will be taken at the next meeting.

BRIDGES—Steel. Cost not stated. Stockton, San Joaquin Co., Cal. Engineer, County Surveyor, Stockton. Owners, San Joaquin County. The San Joaquin County Supervisors have instructed the County Surveyor to prepare the necessary plans and specifications for the construction of steel bridges to span the diverting canal. Plans will be rushed to completion so that early action may be taken in calling for bids on the work..

COMFORT STATIONS — Concrete. Cost not stated. Sacramento, Cal. Architect's name not given. Owners, Sacramento Park Commission. The Park Board has empowered Director Mrs. J. J. C. Fitzgerald to have plans and specifications prepared for comfort stations to be erected at Winn and Marshall Parks.

STREET IMPROVEMENTS—Cost as follows. Stockton, San Joaquin Co., Cal. Engineer, City Engineer, Stockton. Owners, City of Stockton. At the last meeting of the City Council, plans and specifications for the improvement of certain streets in Fair Oaks Addition were adopted. The work to be includes grading, gutter and curb work. The City Engineer's estimate for the work was $42,062.36.

STREET IMPROVEMENT—Cost not stated. Sacramento, Cal. Engineer, City Engineer, Sacramento. Owners, City of Sacramento. No bids were received by the Sacramento County Supervisors for road work on Marconi avenue, from Ben Ali to the Sacramento Country Club, or on the Grant Line road from the Central California Traction Company's track at Sheldon to Lindsay place. It is probable that another call for bids will be issued

RECLAMATION WORK — Cost not stated. Marysville, Yuba Co., Cal. Engineer, County Surveyor, Marysville.

Owners, Yuba County. The County Supervisors at their last meeting directed County Surveyor [illegible] to take the necessary steps providing for the drainage of the Yuba Horse district north of Marysville. It is the intention of the Supervisors to carry all destructive surface water into the Nigger Jack Slough by means of a system of canals. Good [illegible] system would benefit [illegible] acres, comprising [illegible] extending from the Ten-mile House to the Bryden ranch, a distance of approximately ten miles. The [illegible] miles wide.

RESIDENCE [illegible] and base, frame, $1,500. Sacramento, Cal. Architect, none. Owner, O. J. Henley, 1621 13th street, Sacramento. Location, 1408 V street. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

JAIL ALTERATION Class A construcion. Cost not stated. Sacramento, Cal. Archtect, none. Owners, Sacramento County. Bids will be opened on March 23rd at 2 p. m for miscellaneous alterations to the County Jail. Plans can be secured from the County Clerk.

DETENTION HOME story and base, brick, $25,000. Stockton, San Joaquin Co., Cal. Architect, Joseph Losekann, San Joaquin Bldg., Stockton. Owners, San Joaquin County. Location, East street, covering an area of 72 by 72 feet. Plans complete and figures being taken. Bids will be opened on April 3rd.

OFFICES ADDITION AND ALTERATION—5 story, Class A construction, $75,000 to $100,000. Sacramento, Cal. Architects, Woollett & Woollett, Highland Place and Ridge Road, Berkeley. Owners, Physicians' Bldg. Location, 10th and K streets. Plans are being prepared.

HYDRO-ELECTRIC PLANT — $17,000,0000. Oroville, Butte Co., Cal. Engineer, Ham, 14 Montgomery strreet, S. F. Owners, Great Western Power Co. Division Superintendent T. J. Dillon of the Great Western Power Co., is the authority for the statement that the Great Western Power Co. will erect the largest hydro-electric plant in the world at a point about 21 miles above their present plant at Big Bend on the North Fork of the Feather River in Plumas County. The main building will be 60 feet long and 86 feet high. Ten sets of 10,000 K. W. generators will be installed, which will have a capacity of 100,000 K. W. Construction will be started at once and will require two years to complete and has been estimated to cost $17,000,000.

ROAD CONSTRUCTION—Cost as follows. Yreka, Siskiyou Co., Cal. Engineer, County Surveyor, Yreka. Owners, Siskiyou County. Owing to the snow lying on the mountain sides, thereby preventing prospective bidders on the Forest House Mountain road from making estimates of the amount of earth and rock to be removed only one bid was received by the Supervisors. It was in the amount of $19,598.-34, which was considered excessive, and was rejected. The Board immediately called for new bids to be opened April 2nd, at which time they expect to let the contract for this four miles of hard surface road over Forest House Mountain on the Scott Valley side.

Contract Awarded.

SIDEWALK CONSTRUCTION — Cost not stated. Woodland, Cal. Engineer, City Engineer, Woodland Owners, City of Woodland. The City Trustees have awarded a contract to John Campbell, 713 North street Woodland, for constructing concrete sidewalks 5 feet wide on portions of the following streets: First street, 5th street, Lincoln avenue, 3rd street, Pendegast Bartlett avenue, 4th street, Clover street, North street and Oak avenue.

HIGHWAY CONSTRUCTION—Cost as follows. Stockton, San Joaquin Co., Cal. Engineer, County Surveyor, Stockton. Owners, San Joaquin County. Two bids were received by the San Joaquin County Supervisors for converting the New Hope Landing road into an oil macadam highway, and the contract was awarded to Moreing Bros., Commercial Savings Bank Bldg., Stockton, at $13,731.35. The only other bidder was M. Blumenkranz at $14,219.50.

SEWER PUMPING PLANTS—$2,950. Stockton, San Joaquin Co., Cal. Engineer, City Engineer, Stockton. Owners, City of Stockton. Contractors, Electric and Machine Equipment Co., 124 North Eldorado street, Stockton. Contract price, $2,950 and an engine now owned by the city.

STREET IMPROVEMENT—$1,606.82. Stockton, San Joaquin Co., Cal. Engineer, City Engineer, Stockton. Owners, City of Stockton. Contractors, Heafey & Tobin, Stockton. Contract price, $1,606.82.

San Francisco Bridge Co.	372,700

IMPARTIAL SERVICE TO AMERICAN EXPORTERS.

The Department of Commerce cautions American firms embarking in the export trade against misrepresentations by companies formed for the purpose of acting as exporters' agents. These agencies claim to have the organization and facilities to place and develop American business in foreign lands with the least amount of trouble and the most profit to the American manufacturer.

The occasion of the Commerce Department's warning is the advertising publicity given to the organization of some of these export agencies, in which the inference seems to be conveyed that they are in particularly close touch with the foreign trade developing system of the Commerce Department. The department announces that its services are rendered impartially to all reputable American firms, companies, and individuals.

Any statements of a firm that "The Department of Commerce is extending all the help in its power," or declarations of a similar nature, mean merely that the firm may get the same aid and co-operation from the department as any other American exporter. The department goes further and advises American manufacturers to investigate carefully the financial status and organization of firms for foreign trade which aspire to handle their business.

Serious damage has been done to the good name of American trade in foreign countries by dishonest practices which would not be tolerated in our domestic trade, and by export companies which through their ignorance, their own financial weakness, or their lack of suitable organization at home and co-operation abroad, can not be expected to succeed.

No manufacturer should be led to believe that he may expect permanent success in foreign trade unless he satisfies his customers and acquires a high reputation for honest and serviceable wares. If the trade is direct, this rests with himself, but if it is conducted through an export concern it is of vital importance to the manufacturer that he assure himself of the solidity, standing, business ethics, and capacity of his agents or representatives, who, in a sense, become the custodians of the manufacturer's most valuable asset—his reputation.

anese newspapers predict an output of well toward 12,000,000 barrels within two years. The Hongkong industry is in better shape than it has been, although the business is more restricted. Cement from the United States will have no part in the trade so long as present freight rates obtain.—Report of Consul General Geo. E. Anderson.

NEW IDEAS IN SCHOOL CONSTRUCTION.

Shortly a new type of school building must appear in every industrial center especially adapted to the various occupations and equipped therefor. The expense is much less than for high schools. They should be placed near high schools or other common schools so that children in the regular schools who are about to enter employment can easily prepare themselves by going for part of the time to the industrial school. This training will largely supersede that meaningless, ineffective stuff which we have called manual training, says H. G. Miles, in American Industries.

Into a school located close by elementary and high schools where manual training is taught, the working children of the city can come for one or two half days each week to be taught the occupation they elect, and manual training pupils can get the manual instruction they ought to have, which is very different from what most of them now get. Instruction can be specialized to any extent that the situation warrants and for any number of pupils, particularly when the central vocational school's equipment is supplemented by class instruction in shops.

Into this school many concrete or hand-minded children can come at fourteen or later for regular all-year instruction, eight hours daily five and one-half days a week, fifty weeks a year, and thereby secure 2,200 hours of instruction per year as against 950 hours in the ordinary high school. This will give them more schooling in two years than does a high school in four. And it gives them a trade besides, so that at sixteen they go into the occupations masters of themselves and well along in the pathway to success and good incomes. Precisely this is being done now in various cities. The pupil hour cost is approximately midway between the elementary school cost and the high school cost. .

These schools are complementary to the present academic schools. They can carry instruction to the highest point circumstances warrant and for all ages, the older workers coming mostly for evening instruction. By them and not otherwise will our great democracy become educated efficient, broadly intelligent and happily co-operative.

This is not a theory—it is a statement of facts, of things now accomplished in Europe generally, and in several places in the United States.

ELECTRICAL UTILIZATION SAFETY ORDERS.

The Industrial Accident Commission has called Public Hearings to consider proposed revisions to Electrical Utilization Safety Orders Nos. 703 and 737. The first Hearing will be held in Room 407, 525 Market Street, San Francisco, on Friday, March 9, 1917, at 10 A. M. The second Hearing will be held in Room 405, Union League Building, Second and Hill Streets, Los Angeles, on Monday, March 12, 1917, at 10 A M.

Those interested in the questions to be discussed are especially invited to be present at either, or both, of these Public Hearings.

The proposed changes concern the size of wires for different capacities of automatic cutouts, and contain provisions for the disconnection of fusible cutouts before handling. Special requirements are stipulated which will necessitate the enclosing of fuses and interlocking of switch cabinet covers in relation to switch handles where fused switches of the externally-operated type are used.

STATE CORPORATION DEPARTMENT

SACRAMENTO, Cal.—Stockton Sugar Company, Inc., has been permitted by Commissioner of Corporations H. L. Carnahan to sell 100 shares at par, $100 per share, net to the company. The proceeds are to be used for preliminary work incident to the establishment of a large beet sugar refining enterprise near Stockton.

Indian Hill Citrus Association, North Pomona, Cal., is permitted to sell 60,815½ shares at a price not less than par, $1 per share, net to the company.

Elks Hall Association of Chico has been permitted to sell 456 shares at

par, $25 per share, net to the company.

Western Hotel Company, Marysville, Cal., has been permitted to sell 1000 shares of preferred at $95 per share, to net the company not less than 95% of the selling price. The proceeds are to be used for the purpose of reducing liabilities and improving the hotel building at an estimated cost of approximately $20,000.

Ostrander-Race Hardware Company, Lindsay, has been permitted to issue 24 shares as a stock dividend.

STATE WATER COMMISSION.

The first report of the State Water Commission, which is just from the hands of the printer, covers a period from March 1915 to December 1916, a little less than two years. Among many other things, it shows that agriculture tops the list for use of water by the overwhelming percentage of 93 per cent of the total amount applied for. Power represented 5 per cent, mining 1 7-10 per cent and municipal supply 3-10 per cent. The following are the amount applied for for all purposes, given in the units of second feet, which should be multiplied by 40 to give the equivalent in miner's inches: Agriculture, 91,360 second feet; power, 4892 second feet; mining, 1624 second feet; municipal supply, 257 second feet.

The total number of separate applications for permission to use water was 531, divided as follows: Agriculture 435; mining, 55; power, 34; municipal, 7.

There were 192 permits granted as follows: For agriculture, 162; for mining, 23; for power, 7. The remainder, with the exception of some few which were withdrawn or rejected, are now before the Commission in various stages of action.

There is an interesting map accompanying the report which shows at a glance, the location of every application. While nearly every county of the state is represented, the scenes of greatest activity may be roughly located in four sections, namely: Los Angeles and San Bernardino counties in the southern part of the State; Kern, eastern Fresno, Inyo and Mono counties in the southeastern part; Yuba, Sutter, Butte, Colusa and Glenn counties, comprising the rice-area, in the Sacramento valley; and Modoc and Lassen counties in North-eastern California. Several other counties had large individual applications and in many counties not showing much of a record, the uses of water has been developed to a large degree at prior periods.

The report contains interesting chapters on the following subjects, among others: "Earlier Efforts in Water Legislation;" "Water Rights in California;" "Water Supply of California;" "The Duty of Water;" "Ground Waters and Their Relation to Surface Waters;" "Interstate Water Rights;" "Influence of Tide on Appropriations of Water;" "Water Spreading."

The report also contains a list of the principal private irrigation enterprises of the state and of all of the irrigation districts. A chapter of interest is that describing just how the Commission acts on an application from the time it enters the office until it is disposed of, with useful information to prospective applicants, to assist them in preparing their applications. A feature which will be sought by many is a complete tabulation of every application presented to the Commission since its organization, giving all the data in regard to each one, the list being arranged by counties for easy reference.

In the matter of interstate water rights, the Commission holds for a policy that will allow adjoining states to use the waters of each for mutual benefit without respect to the imaginary boundary lines. In this connection, the report cites the great benefits California has received from the development of its sister state of Nevada, from the time of the Comstock days until the present time.

For the first time is published a report on the investigations of the duty of water in the cultivation of rice, in co-operation with the U. S. Department of Agriculture, the work having been done during the past summer. How important is this matter may be indicated by the statement that has been made in agricultural circles, that if rice production continues to increase, it will soon be running wheat a close race as the second cereal crop of the state, barley being the first. In 1912 there were only 1400 acres devoted to rice culture and in this year (1916) there were approximately 70,000 acres. The report shows the study of 18 separate rice-fields. Ten different soil types were represented. The depth of the ground water played an important part in the use of water in irrigation. Where the water-table was about one foot below the surface, as near Biggs, the amount applied was much less than in fields near Willows and Marysville, where the water-table was from 3 to 12 feet below the surface. Rice growers differ as to methods of irrigation. Some claim that it is necessary to keep water constantly running through the rice to prevent stagnation, while others that just enough water need be appiled to take care of evaporation and maintain a uniform depth over the field.

The minimum amount applied to any field was 4.27 acre feet per acre on a field of Stockton clay-adobe near Biggs and the maximum net amount used was 14.83 acre feet per acre on Willows loam and clay-abode near Willows. The average depth applied to the 18 fields was 8.23 feet and the cost per acre for irrigation varied from $7 to $10. The Wateribune was the most extensively planted variety. The total irrigation season was from 155 to 189 days, although one variety of Japanese rice required but 117 days to mature.

A striking feature of the rice industry is that consideable land, known as "goose-land," and which had been utilized only for scanty pasture, was this year planted to rice.

The report also publishes the amendments which the Commission is asking the legislature to enact, in order to strengthen the original law. Copies of the book may be had on application to the Commission.

THE CONCRETE SHIP.

It would be too much to say that the concrete ship has "arrived," but it is perhaps not too much to say that it is in sight. The ofling is not without its perils for such a vessel, and it may be some time yet before the ship is safely berthed, but the possibility is there.

When the late Monsieur Hennebique began to give practical shape to the old idea of combining concrete with iron reinforcements embedded in it, there were many who believed the proposition would fail. Since then the world has seen the almost complete realization of Hennebique's dream. An immense variety of works, small and great, and of the most varied character, from a simple watertank to lofty warehouses and great bridges, have been completed in reinforced concrete. It may be that there has not yet elapsed sufficient time to determine the question of permanence, particularly in the case of structures more or less submerged in water. Indeed, there are anxieties in competent quarters in regard to some existing structures, and it will perhaps be necessary to exercise a large measure of faith concerning them for some time to come. The possibility of corrosion of the embedded steel has still to be taken into account. Nevertheless, given proper care in the selection of materials and in the preparation of the concrete and the use of reasonable factors of safety, ferro-concrete is probably admissible as a material to take the place of steel in the construction of ships. There are now innumerable concrete tanks successfully keeping water in; and, after all, the skin of a ship is essentially a tank the purpose of which is to keep water out.

Anyway, not to mention a concrete barge of 200 tons capacity which has been doing useful work on the Manchester Ship Canal for some years and another on the Seine, a vessel of 1,000 tons has been successfully built of ferro-concrete and launched in Norway. This will unquestionably be followed by larger ships, and we shall, therefore, presently see whether a material which appears to be standing satisfactorily the viabrations set up by great rolling loads on bridges will stand equally well the peculiar and continuous vibration and the shocks to which an ocean-going vessel is exposed.

It is obvious that if this singular material can be successfully used for large ships, steel and iron must meet a most formidable competitor in a new connection. The dead-weight of a ferro-concrete ship of a given capacity must exceed that of a steel ship of equal capacity, though not, perhaps, by so much as one would imagine. Something extra in the way of working costs will, therefore, be involved. On the other hand, the ferro-concrete ship will be cheaper to build; it will be constructed in less time than a steel ship, and will not be affected by corrosion. It will thus be more durable, assuming (no doubt a large assumption) that it will resist percolation, vibration, and shock to the necessary extent.—Exchange.

Samples of marble forwarded from Guatemala City, Guatemala, by Consul Samuel C. Reat may be inspected at the Bureau of Foreign and Domestic Commerce, Customhouse, San Francisco. Refer to file No. 82002.

RELIEF FOR CONTRACTOR.

SACRAMENTO, Cal.—Major John J. Conlon, a former contractor of San Francisco, who has appealed to many legislatures in an effort to have passed an act permitting him to sue the city and county for payment of street work completed thirty years ago, has been favored by the senate municipal corporations committee. At the request of Senator W. S. Scott, the committee recommended that the bill be passed. Major Conlon has sought for years to bring suit for the recovery of $60,000 and the legislature generally has granted him that right, but his bills never have been enacted into law.

THE TEN DEMANDMENTS.

No. 1—Do not owe me any time, and I am sure to catch you in the end.

No. 2—Watch your work, not the clock. A long day's work makes a long day short, and a short day makes my face long.

No. 3—Give me more than I expect, and I will give you more than you expect. I can afford to increase your pay, if you increase my profits.

No. 4—You owe more to yourself. You cannot afford to owe any body else. Keep out of temptation, or keep out of my shop.

No.—Dishonesty is never an accident. Good men like good women never see temptation when they meet it.

No. 6—Mind your own business, and in time you will have a business of your own to mind.

No. 7—Do not do anything here which hurts your self-respect. An employee who is willing to steal for me, is willing to steal from me.

No. 8—It is none of my business what you do at night. But if dissipation affects what you do the next day, and you do half as much I demand you will last half as long as you hope to last.

No. 9—Do not tell me what I like to hear, but what I want to hear.

No. 10—Do not kick if I kick. If you are worth while correcting, you are worth while keeping. I do not waste time cutting specks out of rotten apples.

NOVEL SCHOOL VENTILATION SCHEME.

W. A. Conrad, Superintendent Coloma, Michigan, schools, says with regard to school ventilation:

At this time when so much is being said and written with the purpose of awakening the public to a realization of the importance of fresh air in the school room as a defense against tuberculosis, it may be worth while to tell how we do it in our schools at Coloma, Michigan. Our buildings is steam-heated and did not have sufficient ventilation without the use of the open window with its attending drafts. Our problem was to secure a change of air without the drafts. We took our hint from the burlap ventilators on poultry-houses. Our pupils have the same rights to good air as the fowls, so we acted accordingly. We had our janitor get some strip lumber such as is used in making window screens. Out of this he made frames to fit the upper half of the school room window and covered them with a high grade of common muslin securely tacked. These were fastened outside the upper sash just as an ordinary wire screen would be.

In the morning after the rooms are warmed the upper sash can be lowered and an interchange of air takes place without the detrimental drafts. Neither snow nor rain have caused any difficulty so far.

Last spring we were visited by a Red Cross nurse who was at that time touring the country investigating the sanitary conditions of the schools. She was profuse in her praise of the fresh, wholesome air condition of the schoolrooms and of the alert, rosy-cheeked student body resulting therefrom.

LOW FIRE LOSS ON NATIONAL FORESTS IN 1916.

WASHINGTON, D. C.—A loss to the Government of $162,385 in timber, forage and young growth was caused by fires on the National Forests in 1916, according to statistics compiled by the Forest Service. Although there was more than the average number of fires, the loss is the smallest that has been sustained from fires since the National Forests were established. A favorable season in the regions where the most severe damage is usually sustained is given as the chief reason for the relatively small loss.

A total of 299,377 acres of Government land was burned over. In addition to this, the fires covered 123,160 acres of privately owned land in the National Forests where timber valued at $36,214 was consumed. About 44 per cent of the total area burned was located in the National Forests of Arkansas and Florida.

Of the 5,655 fires which occurred, 4,133, or 73 per cent, were confined to areas of less than 10 acres. Many of these small fires, according to the Forest Service, might have developed into serious conflagrations had they not been extiguished in their incipiency.

The average cost of fighting each fire was approximately half that of former years. Lightning was the chief cause of the fires and was responsible for 23 per cent of all those which occurred. The causes of 18 per cent were unknown, while careless campers started 17 per cent. There was a slight increase in the fires of incendiary origin, as well as those started by sparks from locomotives. With the exception of those caused by lightning, all the fires were due to human agencies. One fire in Idaho which burned 600,000 feet of timber was caused by the carelessness of a ten-year-old boy.

The season was one of particular severity in the southwest, as well as parts of Colorado and Wyoming, where local weather conditions created at times a grave situation. In Washington heavy loss was caused by fires which started in inaccessible places and which the rangers were unable to reach for several days because of the lack of trails.

PLANS BIG RIVER DAMS.

LOS ANGELES, Cal.—Plans for construction of three dams in Colorado river near the mouth of Diamond canyon, to furnish cheap electric power for railroad, mining and other industrial work in Arizona, Nevada and Utah have been completed, according to word from Arizona points. J. B. Girand, local engineer, who originated the plan, states that New York construction engineers are now investigating the proposition, by which it is stated 1,000,000 horsepower can be developed.

At Diamond canyon the Colorado is very narrow, flowing between walls 1500 feet high.

GOVERNMENT PUBLICATIONS FOR SALE.

The following were among the publications received in stock for sale by the Superintendent of Documents at Washington during the week ended February 17:

Durability of Stucco and Plaster Construction (Standards Bureau Technologic Papers 70.)—Progress report containing results of investigations up to April, 1916, by the bureau in cooperation with advisory committee composed of practical plasterers, representatives from Government offices, engineering societies, and industrial associations. Price, 15 cents.

Financial Development in South American Countries (Foreign and Domestic Commerce Bureau Special Agents Series 103; reprint).—Describes financial conditions in Argentina, Brazil, Bolivia, Chile, Peru and Uruguay, immediately preceding and just after the outbreak of the European war. Price, 5 cents.

United States Government Specification for Portland Cement (Standards Buerau Circular 33, 3d er.).—Formulas and rules for the manufacture and testing of Portland cement adopted as the results of a conference between experts, scientists in the Government departments, and members of scientific societies. Price, 10 cents.

Pending Legislation.

Report on Same by Committee from the General Contractor's Association.

The following report is worthy of the serious attention of every man engaged in the Building Business:

To the Members of the General Contractors Association:

Your committee appointed to investigate and report on the measures pending before the State Legislature now in session of particular interest to those engaged in the building business, with the purpose of assisting you individually in urging the passage of such measures as seem to be in the interest of the public welfare and the defeat of those which do not, respectfully offers the following concise statement of the object or effect of each bill, together with such brief comment as has been thought would be helpful:

The name of the committee that has the bill in charge is given under the number.

1. The following measures are deemed extremely injurious to the public welfare and especially to the interests of employers:

A. B. 1126 (Judiciary)—

(Wishard, Los Angeles) is entitled "An Act Providing for Public Safety in Buildings, etc.," but is in fact a new **Architects' License Law** and would prohibit the construction of any building (except a dwelling for a single family) or doing any work thereon unless same be designed, specified and performed by or under the direction of a certificated architect (amended bill includes structural engineers). **All architects (and structural engineers) now practicing in the State are to be certificated without examination and therefore without regard to their ability or disposition to design and supervise safe buildings**

The bill claims to accomplish the impossible; that is, to make buildings safe by examining the designer.. It is the **building itself and its plans and specifications that should be examined in behalf of the public, regardless of who designs or superintends the building.**

The bill belies its title, involves an ulterior purpose not in the public interest, implies an unsafe condition in existing buildings designed by others than certificated architects, which is contrary to fact, would place unwarranted and injurious restrictions on many concerns that are equipped and prefer to do their own designing and supervising, and is not worthy to take up the time and attention of our legislators.

S. B. 1035 (Lab. and Cap.)—

(By Flaherty) is an **anti-injunction bill,** and requires that "no restraining order shall be granted by any court in any case involving or growing out of a dispute concerning terms or conditions of employment, unless necessary to prevent irreparable injury to property.

S. B. 626 (Judiciary)

(By Brown) is another **anti-injunction measure** under an innocent-appearing title. After enumerating seven kinds of combinations as unlawful and authorizing injunctions against the same, it exempts labor organizations and specifically **legalizes striking, boycotting and picketing.**

A. B. 13 (by Farmer), **A. B. 709** (by Argabright), **S. B. 56** (by Scott), (Judiciary)

Are similar to each other and require a bond on all public work to protect labor, material and supply claims and give claimant 90 days after completion of contract to file claim and six months thereafter to commence suit.

The most objectionable feature of these bills is in the unnecessary length of time allowed claimants both for filing claims and for commencing suit. Inasmuch as county, city and state auditors will not, in general, accept security under bond as sufficient, but insist on withholding the contractor's money until all claims are satisfied, it is only fair that creditors be required to file their claims promptly and that they do not delay enforcing them. **The lien law allows 30 days to file claims and 90 days to commence action, and a similar arrangement should suffice on public work.**

2. The following measures are of great importance to the public welfare and should be strongly endorsed for enactment:

Public Investigation and Peaceful Mediation of Industrial Disputes.

A. B. 538 (Pub. Utilities)—

(By Goetting, S. F.) provides that both parties to an industrial dispute in a public utility (railroads, gas and electric companies, etc.) shall before ordering a strike or a lockout, submit statements of their differences to the Railroad Commission, which shall appoint a board of mediation to investigate and endeavor to settle the dispute, thirty days being allowed for this work, during which time work shall proceed under the old conditions, both parties being left free to act independently thereafter, without being bound by the decision of the Board.

There are three sides to every question concerning the operation of public utilities—the employer, the employee and the public, and the greatest of these is the public. It is unfair to the public to suspend service without warning while employer and workers quarrel. Moreover, the worst possible time to act is in the heat of passion. This bill calls for deliberation, publicity and sane reasoning, at the same time insuring independence of action on the part of both employee and employer.

S. B. 695 (Judiciary)—

(By Ballard) Act is the **anti-boycott bill** and would make it unlawful to conspire combine or enter into any agreement for the purpose of preventing any other person from carrying on any lawful business.

The passage of this bill is essential to the preservation of the personal freedom of our citizens and the perpetuation of free American institutions in a spirit of mutual tolerance and respect.

In the Interests of Young America.

S. B. 736 (Lab. and Cap.)—

(By Rominger) would forbid restrictions on the number of apprentices permitted in any trade.

This bill is necessitated by the attitude of some organized interests, in defiance of fair play and the spirit of America, reserving for their limited membership the exclusive privilege of working in certain trades, thus preventing the young men and women graduates of our trade schools from earning wages at the trades they have learned.

3. Senate Bills 815 to 829, inclusive, introduced by Senator Luce at the request of the Industrial Accident Commission, are intended to improve the law in the interest of all concerned and appear unobjectionable.

S. B. 815 (Insurance)—

(By Luce) is an effort to insure the solvency of insurance carriers and contains provision that a guaranty fund shall be established and maintained by the entire body of insurance carriers to insure beneficiaries against loss on account of insolvent or defaulting carriers.

S. B. 816 (Judiciary)—

(By Luce) amends the law relating to the handling of explosives.

S. B. 817 (Pub Utilities)—

(By Luce) provides for co-operation between Railroad Commission and Industrial Accident Commission with respect to safety orders affecting public utilities.

S. B. 818 (Judiciary)—

(By Luce) amending the Compensation Law, reduces waiting period to 10 days; permits employee to object to the physician assigned to him and to choose from three others selected by employer; removes the 90 day limit on medical and surgical treatment, leaving same to discretion of the Commission; doubles compensation in cases of serious misconduct of employer, but denies the employee the right to sue the employer in a court of law; extends the act to cover farm labor, leaving only domestic servants exempt, and makes certain minor changes in procedure, the object being to bring the act under Section 17½ of the Constitution, granting the Legislature full police power.

S. B. 820—

(By Luce) provides for inspection and control by Industrial Accident Commission in connection with operation of steam boilers.

S. B. 821 to 826—

Inclusive, repeal statutes controlling scaffolding, hoisting, signal, temporary floors, elevators, etc., thus leaving these matters to the judgment of the safety department of the Industrial Accident Commission.

S. B. 827 (Lab. and Cap.)—

(By Luce) requires a permit from Industrial Accident Commission for operation of power elevators in places of employment, provides for annual and semi-annual inspection and authorizes a fee of $1.00 per elevator per year.

S. B. 828 (Lab. and Cap.)—

(By Luce) invalidates any association, partnership or "station gang" agreement for performance of manual labor unless approved by Labor Commissioner, who shall see that it provides for not less than $2.50 per day net, protection against overcharges for material and for proper sanitation.

S. B. 829 (Insurance)—

(By Luce) augments the control of the Insurance Commissioner over insurance carriers.

S. C. A. 30—

(By Luce) is designed to validate and perpetuate the Workmen's Compensation Act.

4. The bills abstracted below are grouped in general by subject which necessarily involves mixing the good, bad and indifferent. Comment is offered where deemed necessary.

S. C. A. 26 (Const. Amdts.)—

(By Kehoe) authorizes legislation to establish health insurance.

A. C. A. 19 (by Harris), **A. B. 9** (by Collins), (Lab. and Cap.)—

Would prohibit charging a fee for assisting a person in obtaining employment.

A. B. 975 (Lab. and Cap.)—

(By Carlson) would require that all employment-agency fees be paid by the employer and that no applicant shall be sent to a job without an order from the employer.

A. B. 704 (Lab. and Cap.)—

Requires state officials to patronize state employment bureaus.

S. B. 111 (Lab. and Cap.)—

(By Duncan) would make Justices of the Peace in townships of less than 15,000 population employment agents, to receive fee of 10c per day from the employer for each day the employee works.

A. B. 705 (Lab. and Cap.)—

Provides a general superintendent of employment bureaus under the Commissioner of Labor at $3,000.00 per annum.—Just another job for the faithful.

All this legislation with respect to employment bureaus appears to serve no good public purpose but appears to be class legislation only slightly veiled, having as its real purpose the increased domination of labor by organized politicians.

S. B. 254 (Pub. Health)—

(By McDonald) requires dust-proof containers (paper or paper-lined bags) for cement.

A. B. 256 (Lab. and Cap.)—

(By Collins) would establish minimum wage of $3.00 per day for all labor controlled by the State, and make such a provision a necessary part of any legal contract.

A. B. 74 (Lab. and Cap.)—

(By Mouser) would make monthly pay-day mandatory instead of optional with the employee, as the present law provides.

A. B. 172 (Lab. and Cap.)—

(By Morris, S. F.) is a general Sunday closing law, enforcible by Labor Commissioner, exempting drug stores, saloons, hotels, restaurants, libraries, amusement resorts, public utilities, newspapers, and persons that worship and suspend business on another day.

A. B. 800 (by Prendergast, S. F.) is similar to A. B. 172, but would close saloons on Sunday.

S. B. 437 (Lab. and Cap.) -

(By Lyon) provides that wages on private work shall be paid in money or in some form easily and promptly convertible into money without discount.

A. B. 250 (Lab. and Cap.)—

(By Williams, Tuolumne) provides for payment of practically all wages in cash. S. B. 437 above, is preferable, and more reasonable than this.

A. B. 534 (Lab. and Cap.)—

(By Williams) prohibits the discharge of an employee for refusal to patronize the employer's boarding house. This bill might interfere seriously with control and protecton of workers. Workers can be and are protected against imposition by other measures such as the Immigration and Housing Act. An employer should have the right to prescribe conditions of employment when not injurious to the employee.

A. B. 994 (Insurance)—

(By Harris) applies to farm labor and domestic servants and forbids an employer to designate where an employee shall seek hospital service or insurance.—It is difficult to see what good purpose this bill can serve.

S. B. 954 (Lab. and Cap.)—

(By Scott) requires all State employees on a per diem basis shall be paid for legal holidays at same rate.—This something-for-nothing measure would fail of its purpose, for employers would naturally discharge such employees the day before each holiday and re-engage such as they wanted the day after.

S. B. 513 (Lab. and Cap.)—

(By Lyon) authorizes Industrial Welfare Commission to call and supervise wage conferences of employers and employees in equal numbers in any industry, the members of such conference to receive $5.00 per day and expenses; findings of such conference to be publicly posted by each County Recorder for 10 days.—This bill is limited in scope and otherwise inferior to A. B. 538 and should give way to it.

A. B. 1025 (Lab. and Cap.)—

(By Gebhardt) forbids compelling or coercing any employee to purchase anything of value from the employer.

S. B. 1015 (Lab. and Cap.)—

(By Lyon) principally prohibits operating powder works within one mile of railroad and street car line and would put several long-established concerns out of business for no good reason.

A. B. 211 (Lab. and Cap.)—

(By Harris) makes wages of a discharged employee due immediately and of one who quits due within five days thereafter; provides for a semi-monthly payday, except for farm hands, and domestics and those working for employers of three or less persons, in which cases 30-day intervals are allowed; wages to accumulate until paid, or for 30 days thereafter as a penalty.

A. B. 285 (Lab. and Cap.)—

(By Ryan) provides semi-monthly paydays for public employees paid at a per diem rate.

S. B. 367. (Lab and Cap.)—

(By Flaherty) regulates factories employing females in regard to heating, lighting and sanitary accessories.

A. B. 76 (Lab. and Cap.)—

(By Mouser) amends Compensation Law by reducing waiting period which compensation is not payable from two weeks to one week.

A. B. 588 (Lab. and Cap.)—

(By Kylberg, Merced) amends Compensation Law by granting employee the option of choosing his own physician and surgical appliances to be paid for by employer.

S. B. 865 (Judiciary)—

(By Canepa) amends the Compensation Law by placing the matter of medical and surgical services and supplies entirely in the hands of the employee to select at expense of employer.

S. B. 151 (Judiciary)—

(By Shearer, Yreka) amends the Compensation Law by permitting the employee both to seek compensation under the Act and to bring suit for damages against employer on account of the same injury, which the present law expressly prohibits.

S. B. 652 (Insurance)—

(By Flaherty) would allow employee to choose his own doctor.

S. B. 784 (Insurance)—

(By Purkitt) taxes State Insurance Fund 2% on gross premiums.

A. B. 594 (Lab. and Cap.)—

(By Harris Bakersfield) limits hours of employment in occupations operating over 21 hours per day to 8 in 24 excluding meal times.

A. B. 726 (by Gelder), **S. B. 174** (by Lyon), (Lab. and Cap.)—

Provides for a straight 8-hour day, except in fruit and vegetable industry and graduate nurses.

S. B. 183 (Lab. and Cap.)—

(By McDonald) similar to S. B. 174, but does not exempt canneries.

S. B. 176 (Lab. and Cap.)—

(By Flaherty, S. F.) establishes 8-hour day for State employees.—Statutory limitations of this kind may be embarrassing and are unnecessary under prevailing conditions.

A. B. 927 (Lab. and Cap.)—

(By Brown Santa Clara) provides three hours for meals in every 24 without docking salary, for municipal employees who work more than 120 hours per calendar week.

A. B. 350 (Lab. and Cap.)—

(By Baldwin) limits working time of domestics to 10 hours per day and 60 hours per week, distributed, in case of females, to suit convenience of employer.—Such legislation is unnecessary, for domestics largely dictate their own terms in any event.

A. B. 661 (Pub. Utilities)—

(By Gebhardt, Sacramento) requires public utility corporations to furnish service letters on request to employees leaving service.

S. B. 182 (by McDonald, S. F.), **A. B. 662** (by Gebhardt, Sacramento) (Lab. and Cap.)—

Requires employer to pay costs of bonds and photographs when required of employees or applicants.

A. B. 807 (Lab. and Cap.)—

(By Satterwhite) permits employment of minors over 14 years old on authority of superintendent of schools that such minors have completed grammar school and are physically fit; also on affidavit of parents, foster parents or guardians that such minor is over 14 and that such action is the last recourse available for the maintenance of the family.

A. B. 1262 (Lab. and Cap.)—

(By Hewes, S. F.) prohibits employment of minors under 15 years old except by special permission of Labor Commissioner during school vacations; prohibits minors under 16 years old working at dangerous or injurious occupations, prohibits minors under 18 years old working over 8 hours per day; prohibits persons under 21 years old working as messengers in cities of 1st to 3rd classes between 9:00 p. m. and 6 a. m.; prohibits boys under 14 and girls under 18 from selling newspapers or other street occupation; prohibits sweat-shop work. It permits domestic and farm labor out of school hours and provides for physical examination of minors; all under the Labor Bureau.

A. B. 1240 (Prison and Ref.)—

(By Lyons L. A.) prohibits offering for sale prison-made wearing apparel unless same be marked.—Why should the prisoner be discriminated against.

A. B. 1250 (Judiciary)—

(By Watson, L. A.) prohibits cashing a check for wages in any retail liquor store.

S. B. 13 (Lab. and Cap.)—

(By McDonald, S. F.) prohibits employment of minors under 18 years old as drivers of freight or passenger vehicles.

S. B. 101 (Lab. and Cap.)—

(By Lyon) prohibits employment of boy under 14 and girl under 18 at any street or public occupation.

S. B. 434 (Lab. and Cap.)—

(By Lyon) provides large increase in deputies and assistants and increases of salary and general expense in office of Labor Commissioner.

S. B. 930 (Lab. and Cap.)—

(By Lyon) is another bill to similar effect.

S. B. 435 (Lab. and Cap.)—

(By Lyon) makes necessary to the validity of every contract for public work a provision for a weekly pay-day and prescribing a penalty of $10.00 for every day of delinquency in payment.—Laborers on public work are amply protected already. This method would only open up another source to the shyster lawyer.

S. B. 436 (Lab. and Cap.)—

(By Lyon) makes similar requirement as to an 8-hour day provision.

S. B. 438 (Lab. and Cap.)—

(By Lyon) prohibits employer from demanding or receiving as a condition of employment any gratuity or portion of any tips from an employee.

S. B. 439 (Lab. and Cap.)—

(By Lyon) regulates factories; requires 500 cubic feet air space for each employee, fresh air four times per hour, adequate heat without humidity, [illegible] appointment. [illegible] to be [illegible] of Industrial [illegible] and Housing.

S. B. 518 (Lab. and Cap.)—

(By Canepa) prohibits interference by any manufacturer or his agent with the business or social affairs of the employee outside the [illegible] employment.

S. B. 844 (Prison and Reform)—

(By McDonald) confines prison labor to limit of prison grounds. This would hinder modern prison reform.

S. B. 950 (Health and Quarantine)—

(By Scott) provides for licensing plumbers, both master and journeymen, under direction of the State Board of Health and an annual license fee of $2.00.—A proper reason for this measure is not apparent.

The foregoing is the result of your committee's work and is believed to be free from error in so far as it goes, but is not offered as complete nor conclusive. The success of democratic government is dependent on the individual intelligent interest of the people. Each class is inherently selfish in its interests, and each therefore needs to be on the lookout that another does not put something over to his disadvantage. In view of these plain facts it is important that every citizen act promptly, without personal or class prejudice, but emphatically, as his judgment dictates.

Every interested citizen is urged to write a personal letter to the committee to which these bills have been referred, to the Governor and to personal acquaintances among the legislators, requesting proper action on the important measures, accompanied by a copy of this report or by such special argument as may properly express the individual's views.

Respectfully submitted,
SPECIAL LEGISLATION COMMITTEE,
By E. T. Thurston Chairman.

VALLEJO, Cal.—A brick church, costing between $18,000 and $20,000, exclusive of furnishings, will be erected at once by the Methodists and will occupy the site of the present house of worship on Virginia street. All preliminary details have been settled and the successful financing of the undertaking seems assured.

VALLEJO, Cal. — Robert Fowler, noted aviator, was in Vallejo last week conferring with the Chamber of Commerce and Mayor James Roney regarding a site for an aeroplane factory which he is to establish on this coast to take the place of the one now operated by him on Long Island.

Will contain stores on the fifirst floor and a number of two and three room suites above. Plans being revised.

OAKLAND, CAL.—Apartment house, 3 story and base, brick and steel, $75,000. Architect, M. I. Diggs, Syndicate Bldg., Oakland. Owners, United Home Builders, 1529 Broadway, Oakland. Location, west Oak north 14th. Will contain 90 rooms arranged in suites of two and three rooms. Plans complete and segregated figures being taken.

Contract Awarded.

MARYSVILLE, YUBA CO., CAL.—Apartment house and stores, 2 story and base, brick, $16,000. Architects, Milwain Bros., Albany Block, Oakland. Owners, Ewell, Moors & Aaron, Marysville. Contractor, I. C. Evans, Marysville. Contract price, $16,000.

BONDS.

SAN LUIS OBISPO, SAN LUIS OBISPO CO., CAL.—An election has been called for April 2nd to vote bonds as follows: $21,000 for the purchase of a sewer farm and making improvements to same and $10,000 for additions to the present sewer system.

DOUGLAS, ARIZ.—April 17th is the date set to vote bonds of $166,000 for the extension of the present sewer system. On the same date the voters will decide on the issuance of $10,000 in bonds for the paving of streets around the city park.

ALHAMBRA, CONTRA COSTA CO., CAL.—An election will be held in the Alhambra School District April 7th to vote bonds of $12,000 to provide for the construction of a new school building.

BURBANK, SANTA CLARA CO., CAL.—Bids for the purchase of the $10,000 issue of bonds of the Burbank School District are being taken by the County Clerk. The proceeds of the sale will finance the construction of a new school.

LOS ANGELES, CAL.—The Moreland Motor Truck Co. has secured a 25-acre tract at the outskirts of Burbank on which to erect a large manufacturing plant. The Moreland interests agree to expend not less than $200,000 on their projected plant and its equipment within a period of two years, and to have a $100,000 unit employing a minimum of 150 men, completed and in operation within a year.

SUNNYVALE, SANTA CLARA CO., CAL.—The proposition to bond the town for $12,000 to purchase a site and erect a new city hall was defeated at an election held last week.

ANDERSON, SHASTA CO., CAL.—The Anderson-Cottonwood Irrigation District has decided to call a bond election for $575,000 with which to complete work on the system now under construction.

SANTA ROSA, SONOMA CO., CAL.—The State Board of Control has purchased the $29,000 bond issue of the Cloverdale School District. Plans for the building have been prepared and bids will be called for shortly.

BRIDGES AND DAMS.

HOLLISTER, SAN BENITO CO., CAL.—Bridge surfacing. Cost not stated. Engineer, County Surveyor, Hollister. Owners, San Benito County. The San Benito County Supervisors have accepted the plans and specifications prepared by County Engineer W. A. Winn for surfacing the Bird Creek bridge over the San Benito River, the Tres Pinos Creek bridge over the Tres Pino Creek and the Pacheco Pass bridge over Pacheco Creek. The Clerk was instructed to advertise for bids to close April 2nd at 10 a. m. Plans and further information may be had from the County Clerk.

STOCKTON, SAN JOAQUIN CO., CAL.—Siphon, reinforced concrete, $4,059.92. Engineer, City Engineer, Stockton. Owners, City of Stockton. Plans have been approved by the City Council and bids will be called for immediately for placing a 20-inch iron siphon across the Smith Canal. Bids received for this work opened recently were rejected as being too high.

CHEHALIS, WASH.—Bridges, reinforced concrete. Cost not stated. Engineer, County Surveyor, Chehalis. Owners, Lewis County. Bids will be received by the Lewis County Commissioners, Bertha Gage, County Auditor, Chehalis, Wash., until April 2nd, for the construction of two bridges, one a 90-foot, reinforced concrete span over the Skookumchuck River near Centralia, and the other a 100-foot steel span on tubular piers near Forest, Wash. Plans may be had of County Engineer, J. D. Neville.

SAN FRANCISCO. Piers, docks, etc. Cost is follows. Engineer, Chief Engineer White, Ferry Bldg., S. F. owners, State of California. Three sets of bids were received at Thursday's meeting of the State Harbor Commission for furnishing and installing steel rolling doors on Pier No. 29. C. Jorgensen & Co., Crossley Bldg., S. F. presented the low bid at $11,925. The bids were taken under advisement for one week. The following is a complete list of the bids received: Kinnear Manufacturing Co., $12,287; U. S. Metal Products Co., $13,925; C. Jorgensen & Co., $11,925.

REDWOOD CITY, SAN MATEO CO., CAL.—Culvert, reinforced concrete. Cost not stated. Engineer, County Surveyor, Redwood City. Owners, San Mateo County. The San Mateo County Supervisors at their last meeting returned all bids received for the construction of a concrete culvert on Cascade Creek in the Fifth Road District, as it was found that there was not sufficient money in the funds to cover the cost of the work. The bids were not opened.

RIO VISTA, SOLANO CO., CAL. Bridge, steel and reinforced concrete, $150,000. Engineers, Strauss Basculo Bridge Co., Chicago, Ill. Owners, Sacramento and Solano Counties. Word has been received here that plans and specifications for the proposed bridge across the Sacramento River at Rio Vista have received the approval of the War Department, which issued a permit for its construction. The structure is to be constructed jointly by Sacramento and Solano Counties. Plans provide for a structure of the basculo type.

CHURCHES.

SAN FRANCISCO—Church and parsonage, 2 story, reinforced concrete, $50,000. Architect, Smith O'Brien, Humboldt Bank Bldg., S. F. Owners, St. Edward's Parish. Location, California between Walnut and Laurel. Will contain main auditorium, Sunday school rooms and social rooms. Plans are being prepared.

VALLEJO, SOLANO CO., CAL. Church, 1 story and base, brick or reinforced concrete, $20,000. Architect, L. M. Turton, Napa. Owners, Vallejo Methodist Church. Location, Virginia street. Will contain auditorium, Sunday school rooms and social halls. Plans are being prepared.

COURT HOUSES.

STOCKTON, SAN JOAQUIN CO., CAL.—Court house alteration. Class C construction. Cost not stated. Architect, Franklin E. Warner, Stockton. Owners, San Joaquin County. Bids will be opened on April 3rd at 10 a. m. for converting the west entrance lobby of the San Joaquin County court house into a court room for the Justice of Peace of Stockton Township.

FACTORIES AND WAREHOUSES.

SAN FRANCISCO — Warehouse, 1 story, frame, $6,000. Engineer, Edward L. Soule, Rialto Bldg., S. F. Owner, Edward L. Soule. Location, southwest Division and Potrero avenue, covering an area of 107 by 200 feet. Plans complete and work to be done by Day Labor.

SOUTH SAN FRANCISCO, SAN MATEO CO., CAL. Factory group. Construction not determined. Cost not stated. Architect not selected. Owners, Steiger Terra Cotta Works, Mills Bldg., S. F. Mr. Dennison, of the Steiger Terra Cotta Co., states that while the matter of rebuilding the plant recently destroyed by fire at South San Francisco has not been fully determined upon such a step is being considered. A number of large terra cotta contracts had been completed and were ready for shipment when the plant was destroyed. Mr. Dennison states that these contracts have been turned over to other companies and that the materials will be delivered as soon as possible. Definite announcement as to rebuilding the plant will be made within two weeks.

SOUTH SAN FRANCISCO, SAN MATEO CO., CAL.—Factory addition, steel and corrugated iron. Cost not stated. Architect, none. Owners, Schaw-Batcher Co., 356 Market street, S. F. It has been announced that the Schaw-Batcher Co. would not rebuild its Sacramento plant destroyed by fire some time ago. Another building and perhaps two will be erected at the South San Francisco plant of the company which will care for the business formerly done at Sacramento. Construction will be of steel and corrugated iron.

STOCKTON, SAN JOAQUIN CO., CAL.—Factory, 2 story and base, brick, $30,000. Architect's name not given. Owners, Benham Ice Cream Co., H and Tuolumne streets, Fresno. Location, Oak and Aurora streets, covering an area of 60 by 120 feet. Plans complete and construction to be started at once.

REEDLEY, FRESNO CO., CAL.—Factory, 2 story and base, brick, $25,000. Architects, Glass & Butner, Rowell Bldg., Fresno. Owners, California Peach Growers' Association. Will cover an area of 140 by 90 feet. Plans complete and work being figured.

PORTLAND, ORE.—Factory, 3 story and base, reinforced concrete. Cost not stated. Architect, F. Manson White, Chamber of Commerce Bldg., Portland. Owners, Frei Pickle Works. Will cover an area of 75 by 140 feet. Plans complete and figures being taken.

SELAH, WASH.—Storage plant, 3 story and base, reinforced concrete. Cost not stated. Architect, J. C. Corbin, American Bank Bldg., Seattle. Owners, Selah Fruit and Cold Storage Co. Will cover an area of 100 by 120 feet. Plans complete and figures being taken.

FIRE HOUSES AND JAILS

SEALED PROPOSALS.

PROPOSALS FOR INDIAN SUPPLIES.

INDIAN SUPPLIES—Department of the Interior, Office of Indian Affairs, Washington, D. C.—Sealed proposals plainly marked on the outside of the sealed envelope "Proposals for Indian Supplies" and addressed to the commissioner of Indian Affairs, No. 508 Howard street, San Francisco, Cal., will be received until **1 o'clock p. m. of Monday, April 2, 1917,** and then opened, for furnishing the Indian Service with groceries, furniture, paints, oils, harness, leather, agricultural implements, stoves, tinware, hardware, glassware, etc. Schedules giving all necessary information for bidders will be furnished upon application to the Indian Office, Washington, D. C., and the U. S. Indian warehouses at Chicago, St. Louis and San Francisco. The department reserves the right to reject any and all bids or any part of any bid. CATO SELLS, commissioner.

PROPOSALS FOR EXCAVATING.

EXCAVATION—Department of the Interior, U. S. Reclamation Service, Washington, D. C. Sealed proposals will be received at the office of the United States Reclamation Service, St Ignatius, Mont., until **2 o'clock p. m. April 5, 1917,** and will then be opened, for the construction of laterals on the Flathead project, Montana, involving about 285,000 cubic yards of excavation. The work is in two divisions, one located from 18 to 25 miles north of Perma, Mont., and the other from 9 to 15 miles northeast of Dixon, Mont., both towns being stations on the Northern Pacific Railway. For particulars address the United States Reclamation Service, Washington, D. C.; Denver, Colo., or St. Ignatius, Mont. A. P. DAVIS, chief engineer.

PROPOSALS FOR RECLAMATION WORK.

RECLAMATION WORK—Department of the Interior, U. S. Reclamation Service, Washington, D. C.—Sealed proposals for the construction of canals and structures on the Sun River project, Montana, involving about 71,000 cubic yards of excavation, 480 cubic yards of reinforced concrete, the laying of 3,300 linear feet of concrete pipe and the placing in wooden structures of about 70,000 feet, b. m., of lumber will be received at the office of the United States Reclamation Service at Fort Shaw, Mont., until **2 o'clock p. m. March 29, 1917,** and will at that hour be opened. The work is situated about 30 miles northwest of Great Falls, Mont., between the towns of Bole, Sloan and Cordova on the Choteau branch of the G. N. Railway and Fairfield and Ashuelet on the Choteau branch of the C. M. & St. P. Railway. For particulars address the United States Reclamation Service, Washington, D. C.; Denver, Colo., or Fort Shaw, Mont. A. P. DAVIS, chief engineer.

NOTICE TO CONTRACTORS.

TREASURY DEPARTMENT, Supervising Architect's Office, Washington, D. C., March 9, 1917.—SEALED PROPOSALS will be opened in this office **at 3 P. M., April 20, 1917,** for the construction of the United States Post Office and Courthouse at Las Cruces, New Mexico. Drawings and specifications may be obtained from the custodian of the site at Las Cruces, New Mexico, or at this office, in the discretion of the Supervising Architect. JAS. A. WETMORE, Acting Supervising Architect. (*)

NOTICE TO CONTRACTORS.

OFFICE CONSTRUCTING QUARTERMASTER, Fort Mason, Cal. — SEALED PROPOSALS, in triplicate, for improvements to Water Supply System, Presidio of San Francisco, will be received here **until 11 A. M., April 7, 1317,** and then opened. Further information on application. (*)

PROPOSALS FOR BUILDING.

BUILDING, ETC.—Sealed proposals indorsed "Proposals for Magazine Buildings, Puget Sound," will be received at the bureau of yards and docks, Navy Department, Washington, D. C., until **11 o'clock a. m. March 26, 1917,** and then and there publicly opened, for one guardhouse built entirely of wood frame construction, with plastered interior walls and ceilings, and plumbing, heating and lighting system, two filling houses of wood frame construction and having the exterior surfaces covered with galvanized corrugated steel and a brick extension to building No. 18 at the naval magazine, Puget Sound, Wash. Drawings and specifications can be obtained on application to the bureau or to the commandant of the navy yard named. F. R. HARRIS, chief of bureau.

WASHINGTON, Yolo Co., Cal.—The people of this town are elated over the information given out at a meeting of the Improvement Club that surveys have been ordered by the P[illegible] & Electric Company to place [illegible] throughout the community.

It is expected that the company will have to lay a main under the Sacramento River to a point in back of the levee on this side.

LEWISTON, Trinity Co., Cal.—The Trinity Star Dredging Company which has acquired the Paulsen Ranch and other land adjoining for dredging purposes, has let to Patrick Ryan of Patrick Ryan of Weaverville the contract for sawing the lumber for building the first dredger of Weaverville. The first contract calls for 200,000 feet of lumber.

OROVILLE, Butte Co., Cal.—Announcement is made here that the United States Exploration Company will construct a big mill and power plant at its mine in Granite Basin this Summer.

It is reported the miners struck a rich vein of quartz at a depth of 300 feet.

STIRLING CITY, Butte Co., Cal.—F. M. Thatcher and associates are busily engaged in making preparations to start logging and begin the cutting of timber at an early date. A large crew of men is on the ground waiting to go to work on the property of the Diamond Match Company at Stirling.

WILLOWS, Glenn Co., Cal.—Willows will have its new postoffiec building by May of next year, according to a letter received by Postmaster I. J. Proulx. The letter is a copy of that sent to the contractors, Welch Bros. & Hannaman of Kalispel, Mont., from the post office department. The contractors are allowed fourteen months to complete the building from the date of their acceptance of the contract.

CLOVERDALE, Cal.—The State Board of Control was the successful bidder for the $29,000 bond issue for the Cloverdale grammar school. The Board of Supervisors, after taking into consideration all bids received, fourteen in number, awarded the sale of the bonds to the state board at par, and a premium of $2,221.40. This bid was but $46 greater than that offered by the Santa Rosa Union Savings Bank, whose bid was $2.172.50 above par.

KLAMATH FALLS, Ore.—At the special meeting of the City Council a resolution was unanimously adopted accepting the bid of J. W. Siemens, President of the First State and Savings Bank of this city, of par and accrued interest, for the six municipal railway warrants for $50,000 each, the issuance of which was authorized recently by the final passage of the ordinance introduced and passed to its third reading on March 5th.

An ordinance providing for the issuance of $300,000 worth of funding bonds to take up the six warrants was also introduced and passed to its third reading. It will probably be finally passed at the regular meeting of the Council next Monday night. The sale of these bonds will enable the city to contract for the actual construction of the Klamath Falls municipal railway, extending twenty miles east to Dairy Station.

SAN JOSE AND THE SANTA CLARA VALLEY.

BRIDGE SURFACING — Cost not stated. Hollister, San Benito Co., Cal. Engineer, County Surveyor, Hollister. Owners, San Benito County. The San Benito County Supervisors have accepted the plans and specifications prepared by County Engineer W. A. Winn for surfacing the Bird Creek bridge over the Tres Pino Creek and the Pacheco bridge aver the Pacheco Creek. The Clerk was instructed to advertise for bids to close April 2nd at 10 a. m. Plans and further information may be had from the County Clerk.

RESIDENCE — 2 story and base, frame, $25,000. Palo Alto, Santa Clara Co., Cal. Architects, J. E. Krafft & Sons Phelan Bldg., S. F. Owner, Mrs. Howard. Location, University Campus. Will contain twelve rooms, four baths and conservatory. Separate garage. Plans complete and figures being taken.

FACTORY GROUP—Construction not determined. Cost not stated. South San Francisco, San Mateo Co., Cal. Architect not selected. Owners, Steiger Terra Cotta Works, Mills Bldg., S. F. Mr. Dennison, of the Steiger Terra Cotta Co., states that while the matter of rebuilding the plant recently destroyed by fire at South San Francisco has not been fully determined upon such a step is being considerred. A number of large terra cotta contracts had been completed and were ready for shipment when the plant was destroyed. Mr. Dennison states that these contracts have been turned over to other companies and that the materials will be delivered as soon as possible. Definite announcement as to rebuilding the plant will be made within two weeks.

CULVERT — Reinforced concrete. Cost not stated. Redwood City, San Mateo Co., Cal. Engineer, County Surveyor, Redwood City. Owners, San Mateo County. The San Mateo County Supervisors at their last meeting returned all bids received for the construction of a concrete culvert on Cascade Creek in the Fifth Road District, as it was found that that there was not sufficient money in the funds to cover the cost of the work. The bids were not opened.

[redacted] Architect, formerly connected with [redacted] San Francisco, San Mateo [redacted] Architect, [redacted] Co. 126 Market [redacted] been announced that the [redacted] Co. would not rebuild its [redacted] to plant, destroyed by fire [redacted] ago. Another building and [redacted] two will be erected at the South San Francisco plant of the company, which will care for the business formerly done at Sacramento. Construction will be of steel and corrugated iron.

FRESNO, MODESTO, STANISLAUS AND CENTRAL CALIFORNIA.

STREET PAVING, ETC.—Cost not stated. Merced, Merced Co., Cal. Engineer, City Engineer, Merced. Owners, City of Merced. The City Trustees have ordered bids for paving work to be called, the same to close on April 2nd at 8 p. m. The streets and alleys to be paved are as follows: Streets O, from 16th to 22nd; Alameda or K, from 19th to 24th; J, from 19th to 21st, 22nd from M to O. Alleys 16th, 17th and 18th, from J to O; 19th, from K to O; 20th, from I to O; 21st, from G to O; 22nd, from K to N. Plans and further information may be had from the City Clerk.

ELECTROLIER SYSTEM—Cost not stated. Lemoore, Kings Co., Cal. Engineer, City Engineer, Lemoore. Owners, City of Lemoore. The City Trustees are considering the installation of an electrolier system. It is planned to have the system run the full length of D street, which will include that portion of the Sierra-to-the-Sea highway within the Lemoore city limits.

STORM WATER SEWERS—Cost not stated. Fresno, Fresno Co., Cal. Engineer, City Engineer, Fresno. Owners, City of Fresno. Bids will be opened on April 2nd at 5 p. m. for the construction of a storm sewer system for the city of Fresno, excepting therefrom that portion of said sewer between the northeast line of Van Ness avenue and the intersection of the center line of Inyo street with the center line of L street, and from said intersection of the center line of Inyo street with the center line of L street to the northwest line of Inyo street, together with the manhole situate at the said intersection of said center line of L street, and for furnishing the labor and materials therefor.

STREET IMPROVEMENTS — Cost as follows. Bakersfield, Kern Co., Cal. Engineer, City Engineer, Bakersfield. Owners, City of Bakersfield. Bids for paving alley in block 423-D, between Truxtun avenue and 17th street, between C and D streets, have been opened by the City Council and the bid of Thompson Bros., 1512 H street, Fresno, was accepted. The contract was awarded at a rate of 14.5c per square foot for grading and paving; 17.5c per square foot for concrete gutter, and 35c per linear foot for 14-inch concrete curb.

STREET IMPROVEMENT—Cost as follows. Sanger Fresno Co., Cal. Engineer, City Engineer, Sanger. Owners, City of Sanger. Kauffiled & Tompkins were the successful bidders for the improvement of 10 blocks of streets in Sanger. The price was 3c per square foot for the grading, oiling and laying of the sidewalk approaches and 32c per linear foot for the curbing.

STREET PAVING—Cost not stated. Bakersfield, Kern Co., Cal. Engineer, City Engineer, Bakersfield. Owners, City of Bakersfield. At the last meeting of the City Council, the City Clerk was instructed to advertise for bids on [illegible] opened at the meeting of the Council to be held March [illegible].

Mar. 9, 1917—E LAURIDSEN at Station 181 plus 17, Fresno. S P R R Company as to improvements on leased property .....

SACRAMENTO STOCKTON AND NORTHERN CALIFORNIA.

SIPHON — Reinforced concrete, $4,059.92. Stockton, San Joaquin Co., Cal. Engineer, City Engineer Stockton. Owners, City of Stockton. Plans have been approved by the City Council and bids will be called for immediately for placing a 20-inch iron siphon across the Smith Canal. Bids received for this work opened recently were rejected as being too high.

HIGHWAY CONSTRUCTION — Cost not stated. Stockton, San Joaquin Co., Cal. Engineer, County Surveyor, Stockton. Owners, San Joaquin County. Bids will be opened on April 3rd at 10 a. m. for improvement work on the Farmington road, from its intersection with the Mariposa road east to the Santa Fee Raiload crossing, a distance of approximately 3,412 feet.

OUTFALL SEWERS—Cost as follows. Stockton, San Joaquin Co., Cal. Engineer, City Engineer, Stockton. Owners, City of Stockton. At a cost of about $56,621.99 big outfall sewers are to be laid by this city. Plans and specifications were introduced by the City Council for the work at their last session. They provide for 13,020 feet of 36-inch redwood stave sewer pipe and 4,614 feet of vitrified sewer pipe. There will be an outfall sewer extending to the river from the north side of the city and one from the south side. Three and a half miles of sewer pipe will be laid in this work. Bids will be called for shortly.

ROAD IMPROVEMENT—Cost not stated. Sacramento, Cal. Engineer, County Surveyor, Stockton. Owners, San Joaquin County. County Surveyor Drury Butler presented plans and specifications for improvements of the Winding Way road, which covers a distance of 1.2 miles. Bids will be asked for the work and it will be started as soon as the rainy season passes.

FLATS—2 story and base, frame, $3,000. Sacramento, Cal. Architect, none. Owner, Max Smith, 1116 4th street, Sacramento. Location, 2000 6th street. Will contain two flats of five rooms and bath. Plans complete and work to be done by Day Labor.

JAIL ALTERATIONS—Class C construction. Cost not stated. Stockton, San Joaquin Co., Cal. Architects, Sala & Mayo, Stockton. Owners, San Joaquin County. Bids will be opened on April 3rd at 10 a. m. for remodeling and making certain alterations in the San Joaquin County Jail.

COURT HOUSE ALTERATION — Class C construction. Cost not stated. Stockton, San Joaquin Co., Cal. Architect, Franklin E. Warner, Stockton. Owners, San Joaquin County. Bids will be opened on April 3rd at 10 a. m. for converting the west entrance lobby of the San Joaquin County Court House into a court room for the Justice of Peace of Stockton Township.

FACTORY—2 story and base, brick, $30,000. Stockton, San Joaquin Co., Cal. Architect's name not given. Owners, Benham Ice Cream Co., H and Tuolumne streets, Fresno. Location, Oak and Aurora streets, covering an area of 60 by 120 feet. Plans complete and construction to be started at once.

HOSPITAL—2 story and base, reinforced concrete, $35,000. Chico, Butte Co., Cal. Architect, A. B. Bryan, Chico. Owners, Sisters Hospital. Will contain private rooms, wards, operating rooms and office. Plans are being prepared.

LODGE HALL—4 story and base. Class A construction, $30,000. Sacramento Cal. Architect, R. A. Herold, Forum Bldg., Sacramento. Owners, Sacramento Masonic Hall Association. Location, 12th and J streets. Bids opened for the general construction show the Mathews Construction Co., Sacramento, low at $174,877. A complete list of these bids will be found under the heading of Bids Opened in this issue.

IRRIGATION PIPE—Cost not stated. Stockton, San Joaquin Co., Cal. Engineer, County Surveyor, Stockton. Owners, San Joaquin County. At the last meeting of the San Joaquin County Supervisors the purchasing agent was authorized to buy 6,200 feet of concrete irrigating pipe for additional acreage at the County Hospital.

SCHOOLS 1 and 2 story, frame and hollow tile, $30,000. Placerville, El Dorado Co., Cal. Architect, N. W. Sexton, Merchants' National Bank Bldg., S. F. Owners, Town of Placerville. E. E. Etherton, S. F., submitted the lowest bid for this work at $37,800. A contract will probably be awarded. A complete list of the bids received will be found under the heading of Bids Opened in this issue.

Contract Awarded.

AMADOR WILL PAY FOR HIGHWAY SURVEY.

JACKSON, Amador Co., Cal.—The Supervisors have passed a resolution to the effect that the expense of surveying the State Highway lateral from Herold to Jackson be paid out of the $5,000 set aside by the county to repair and construct the road.

Since the money was set aside the road has been designated as a State Highway lateral and the county contractors have been taken off the job.

AUTHORIZATION FOR LOAN TO COLOMBIAN GOVERNMENT.

The Congress of Colombia has authorized the Government to contract a loan for a sum not to exceed $15,000,000 gold, to be used for the sanitation of Colombian seaports and for other public works of an urgent nature. This authorization, as published in the Diario Oficail of December 23, provides for the security of the loan by the proceeds of the national salt works, and by other revenues not already assigned to other purposes. The terms of interest and amortization are to be arranged by the Government, but the privilege of liquidating the loan at any time is reserved. Provision is made for the appointment of a fiscal commission of three members elected by the House of Representatives. The members of this commission will not draw salary, unless they should be sent by the Government to a foreign country in connection with the negotiations for a loan.

CITY BIDS OPENED.

Western Motor Draying Company Low for Extension of Municipal Railroad to Sixteenth and Church Streets.

ADDITIONAL BIDS FOR SACRAMENTO TEMPLE.

Bids for General Construction of Masonic Temple Show Mathews Construction Company Low.

SACRAMENTO, Cal., March 13th, 1917.—A number of bids were received by the Building Committee of the Sacramento Masonic Temple Association at their meeting today for the general construction of the four-story Class "A" building to be erected at the corner of 12th and J streets.

Mathews Construction Co., Sacramento, presented the lowest figure at $174,874. Bids were opened on February 25th for the structural steel work on the same building and showed Palm Iron & Bridge Works of Sacramento low at $65,147. Bids were also opened on the same date for the concrete piling. The Ross Construction Co., also of Sacramento, presented the low figure for this work at $6,590. All bids have been taken under advisement.

Plans were prepared by Architect R. A. Herold, Forum Bldg., Sacramento. Following is a complete list of the bids received for the general construction:

General Construction.

Mathews Constr. Co., Sacramento $174,877
Howard S. Williams, S. F..... 184,300
Murcell & Co., Sacramento..... 185,984
Lindgren & Co., S. F..... 188,800
Palmer & Peterson, S. F..... 189,800
McGillvray Constr. Co., Sacramento 190,000
Tiechert & Ambrose, Sacramento 190,970
Siller Bros., Sacramento..... 195,000
W. C. Keating, Sacramento.... 204,000
Harvey A. Klyce, S. F..... 214,100

BIDS OPENED FOR TWO PLACERVILLE SCHOOLS.

Bids For Uppertown and Lowertown Schools Designed by Architect N. W Sexton Taken Under Advisement.

PLACERVILLE, El Dorado Co., Cal., March 15th, 1917.—Bids were opened at 7:30 tonight by the Board of Education for the construction of two new school buildings, designed by Architect N. W Sexton, Merchants National Bank Bldg., San Francisco. Construction will be of hollow tile and frame and plaster. A complete list of the bids received follows:

Placerville Schools.

E. E. Etherton, San Francisco, Uppertown School, $6,500. Both, $37,800.

T. A. McDougall, Lowertown School, $44,250 Uppertown, $6,[illegible]

Tiechert & Ambrose. Both buildings, $39,688 (Probably bid meant for Lowertown School.)

T. Cote, Lowertown School [illegible] construction, $36,665.90.

Heating.

Thomas J. Kennedy, Martinez $[illegible] oil, $3,151.

John J. Collins $[illegible] oil $[illegible]

Electric Work.

[illegible] Charles Plackey [illegible] $600. Uppertown School $[illegible]

Roofing.

H. W. Johns-Manville Co. Lowertown School, $1,276.

All bids were taken under [illegible]

LIMA WATER SYSTEM.

[Commercial Attache Wm. F. Montavon, Lima, Peru.]

In his annual report for 1916, the Alcalde of Lima treats with much detail of the necessity for the immediate improvement in the sanitary conditions of this city. He gives special importance to the problems of street paving and of water supply.

At its session of October 4, 1916, the Municipal Board of Lima adopted a resolution submitting to the National Congress of Peru a bill requesting authorization to contract a bonded indebtedness of $2,000,000, providing that the interest and sinking fund should not exceed 8 and 2 per cent, respectively, the purpose of this loan being to establish a new water system in Lima.

ALTURAS, Modoc Co., Cal.—Information has been received here that Western Pacific interests plan to purchase the Nevada-California-Oregon Railroad from Hackstaff, California, to Reno, Nevada.

The general offices and railroad shops of the latter line, it is planned, will be moved here.

NEW WATERWORKS FOR PERUVIAN CITIES.

The Peruvian cities of Ica, Pisco, and Chincha Alta are to have new waterworks systems, in accordance with a recent law promulgated in El Peruano. To finance this plan, an additional duty of 2 per cent is to be levied on all merchandise imported through the customhouse of Pisco, with the exception of imports in transit to the interior departments of Huancavelica, Ayacucho, and Apurimac. From the proceeds of this surtax, which will be imposed only until the completion of the project, 1½ per cent is to go to the city of Ica and one-half per cent to Pisco, and after the installation in both these cities is completed the entire proceeds will go to the city of Chincha Alta. The executive will call for bids on the installation of a waterworks system at Ica, and may negotiate a loan for the amount necessary, the interest and amortization of the loan to be met by an appropriation in the departmental budget of Ica, the customs surtax of 1½ per cent and the water tax paid by consumers. Estimates of the expense of installing water and sewer service in these cities

will be made by order of the executive. On the amortization of the loans the installations will become the property of the respective municipal councils.

PRACTICE IN AMERICAN CONSULAR COURTS IN CHINA.

[Inquiries have been received by the State Department of the United States regarding the proper method of procedure in China in controversies over commercial matters between American citizens and the people of that country. The reply of the State Department here presented gives a list of the American consular courts in China and the provisions of law governing such courts.]

Consuls of the United States are stationed in the following places in China: Amoy, Antung, Canton, Changsha, Chefoo, Chungking, Foochow, Hankow, Harbin, Mukden, Hanking, Shanghai, Swatow, and Tientsin. These consuls have jurisdiction in civil cases in which American citizens are defendants where the sum or value of the property involved in the controversy does not exceed $500 United States money. The United States Court for China, with headquarters at Shanghai, has exclusive jurisdiction in all civil cases in which American citizens are defendants except as above indicated (act of Congress June 30, 1916, creating the United States Court for China). This court holds sessions annually at Tientsin, Hankow, and Canton, and has authority to hold special sessions at any open city where such sitting seems advisable.

Provisions in Treaty with China.

The disposition of controversies arising in China between citizens of the United States and Chinese persons is provided for in Article IV of the treaty of 1880 between the United States and China as to commercial intercourse and judicial procedure, wherein "it is agreed between the Governments of the United States and China that such cases shall be tried by the proper official of the nationality of the defendant." This article also contains the following provisions.

The properly authorized officer of the plaintiff's nationality shall be freely permitted to attend the trial and shall be treated with the courtesy due to his position. He shall be granted all proper facilities for watching the proceedings in the interest of justice. If he so desires he shall have the right to present examine, and to cross-examine witnesses. If he is dissatisfied with the proceedings he shall be permitted to protest against them in detail. The law administered will be the law of the nationality of the officer trying the case.

In the foreign settlement at Shanghai there is established, for the decision of civil and commercial suits between the Chinese residents within the settlement, and also between Chinese and foreign residents in cases where Chinese are defendants, a "mixed court," presided over by an officer having the rank of subprefect, who decides, in cases in which Chinese are defendants, in accordance with Chinese law. By the rules of the court it is provided that in cases in which a foreigner is concerned a consul or his deputy shall sit with the subperfect on trial, and that suits between natives and foreigners shall be decided equitably and impartially and in accordance with the treaties. This so-called "mixed court" at Shanghai is simply a permanent court of the sort that may be constituted as provided by treaty in any city open to foreign trade.

AMERICAN ENTERPRISES IN THE ORIENT.

[Extract from Shanghai Times, forwarded by Consul General Thomas Sammons, Shanghai, China.]

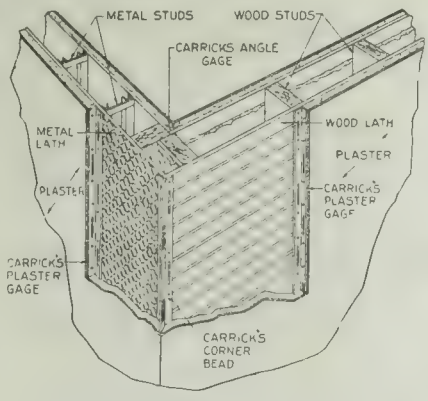
A significant step has been taken during the past two years in establishing here and in the heart of China well-equipped branches of American concerns, and we may look forward, on the conclusion of peace, to far keener competition in the Orient than was ever experienced before. The American business man has certainly awakened to a realization of what China and the Chinese have to offer. We welcome the establishment of American business houses, and the advent of keen pioneers who come along to prospect the land, for the country is so vast and so undeveloped as to be able to absorb and accommodate all the capital and energy that the western nations as well as Japan can consecrate to China's development.

TO CALL COMPETITIVE PLANS FOR FIRE HOUSE.

FRESNO, Fresno Co., Cal.—On recommendation of Mayor Snow the Fresno City Trustees passed a resolution calling for competitive plans and specifications for the construction of a modern two-story fire house to replace the old fire house on Van Ness avenue near Mono street. The building will cost about $15,000, which amount is available.

MAGNESITE IN 1915.

The annual statement on Magnesite in 1915 is now available for distribution by the United States Geological Survey, Department of the Interior.



The Carrick Plaster-Gage.

Something New.

Carrick's Plaster-gage. Something new; True Plaster surfaces at last. No more skim coats of plastering.

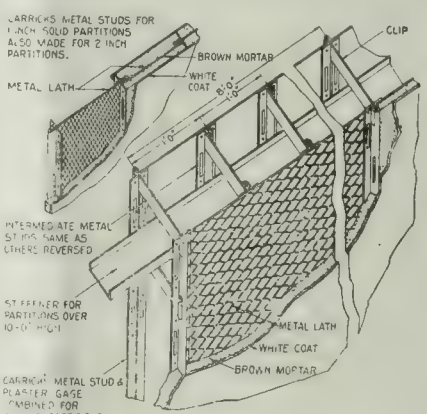
The gage is a simple L shaped strip of metal secured to the lathing. The mortar must be of thickness sufficient to cover the gage.

The unsightly, uneven, and wavy walls and ceilings absolutely corrected by this simple device insuring a full thickness of brown mortar and a true finishing surface.

FOR DEAFENING it is indispensable as you are absolutely sure of a full coat of mortar, which is the real deafener.

This gage will also act as a stop where plastering has a tendency to crack, it can be used on any kind of wood or metal lath. Concrete, brick or tile walls can also be made to give any desired thickness of plastering.

Where this gage is used it is entirely unnecessary to have any three coat work on wood lath (as is customary in fine residences, etc.) thus saving one coat of brown mortar, it insures a full thickness of mortar, true aid straight surfaces, and a neat flush finish, especially against marble and tile work. It can be used around door and window openings where narrow casings are desired, to base, chair rails, etc., thus eliminating the wood grounds which have to be removed when coming in contact with marble or tile, causing unnecessary breakage to plastering and additional cost to repair.



The Architect and Owner can always feel assured that they are getting value received when this strip is used, because it will compel every plasterer to give the specified thickness of plastering throughout the work, as the gage strip stands out prominently unless the brown mortar is flush with its outer edge. The finish coat is applied in the usual manner, thus concealing the gage strip.

This gage should be specified throughout the walls and ceilings about four feet centres.

This gage has been used on many buildings and is endorsed by many

LEADING ARCHITECTS.

They also manufacture an angle gage which eliminates the unsightly cracking of angles caused by shrinkage, also a metal corner bead which gives a sharp, true, well protected corner.

Their sheet iron stud for hollow or solid partitions is the lightest and most rigid stud on the market, it weighing but one-third as much as any other metal stud. It is so constructed that it forms a plaster gage as well. This stud is also used for 1" and 2" solid partitions and has a great advantage where only a limited space is available, such as closets, toilets, etc.

For any further information, phone or drop a line to 175 Jessie Street. Tel. Douglas 387.

The Sarsi Studios

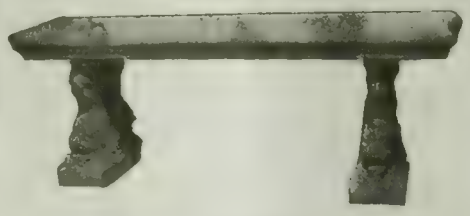
A Conservatory Erected By Us In One Of The Mansions In Alameda County.

The Sarsi Studios, formerly on Oak Street, San Francisco, is now located at 361-363 Golden Gate Avenue, where a most comprehensive and instructive display room and studio has been installed.

Here will be found examples of antique and modern mantels in caen stone and artificial stone in endless variety as well as an endless display of garden furniture.

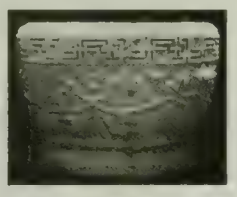
The various schools of design in mantels are displayed with appropriate setting, each mantel being in a room of its own. Here the Architect and the Owner can readily see the finished article as it will appear when fully installed.

The products of the Sarsi Studios will be found in many of the finer homes in California, and Builders have found that a Sarsi Studio Mantel is a distinct asset for the home; often being the means of selling the home for those who build to sell.



Mr. Sarsi has devoted a life time to his art, having studied abroad in the finest schools of Europe. There at the feet of the Masters of the ages he has drawn his inspiration. His service, experience, advice and art are at the disposal of those who seek for the finest in these lines.

Examples of Mr. Sarsis' decorative products will be found in most of the homes and grounds of our finest residences, and restricted residence tracts. Work has just been completed on four lions which are to guard the approaches to the Modesto Bridge now nearing completion of which Leonard and Day were the Engineers.



A visit to these studios is well worth the time of our Architects and Owners. The illustrations on these pages, give but a hint of what may be seen at Mr. Sarsi's Studios.

Building Operations For February, 1917.

The expected has happened. For the first time in twenty-one months, the monthly statement of building operations shows a decrease as compared with the corresponding month of the previous year. In July, 1915, building operations were 15 per cent below those of July, 1914, the latter month being that immediately preceding the outbreak of the European war. Each succeeding month, since July, 1915, has shown the comparative gain. It was very slender, once or twice, merely a thin edge, but the showing was always on the right side. Now comes the occasion for using red ink in striking the balance.

The building permits, issued in 109 principal cities for February, 1917, according to official figures, received by the California Development Board, Daily Pacific Builder and American Contractor, Chicago, total $51,998,919, compared with $53,919,905 for February, 1916.

The losses are by no means uniform—only 57 lose in the comparison, 52, or nearly one-half, gaining in volume over a year ago. There is a bright side to the statement. It is generally agreed that considerable construction work is being held up on account of the high price of material and also on account of the difficulty of procuring early deliveries of steel and some other forms of material. This large latent volume of work will doubtless come into view with a change in the conditions noted. The detailed statement for February is as follows:

Cities	Feb., 1917 Cost.	Feb., 1916 Cost.
Akron	$ 965,560	$ 435,775

Architects Bill Is Now In Committee.

Bill Proposing Changes in Present License Law for Architects Under Consideration.

The following skeleton form of the new proposed Architects' License Law, now under advisement in the Judiciary Committee of the State Legislature, is published in as much as the present bill is an amended one and has, as yet, not been printed by the State.

This outline was obtained from Mr. E. T. Thurston, Construction Engineer, who represented the General Contractors' Association at the Committee meeting.

OUTLINE OF PROPOSED NEW ARCHITECTS' LICENSE LAW (A. B. 1126) ENTITLED

"An Act Providing for Public Safety in Buildings Within the State of California by Regulating the Construction, Alteration and Repair of Same, and to Provide Penalities for Violation Thereof."

SECTION 1

Provides for a new **State Board of Architecture** of seven members composed of

4 certificated architects.
2 structural engineers.
1 professor of engineering.

SECTION 2

Meetings, duties and powers.

SECTION 3

Compensation (none) and expenses.

SECTION 4

Defines "structural engineer" as "a person who has been engaged in the study of mathematics, strength of materials and allied subjects as applied to the computation of the stresses and strains in the structural features of a building and who is qualified thereby and by practical experience to design specify, and superintend or supervise such structural features of the buildings, which by this act are required to be designed and specified and superintended or supervised by a person holding a certificate thereunder, and who is engaged in such operations as a vocation."

SECTION 5

Prohibits the construction or structural alteration of buildings unless "designed, specified and supervised or superintended" by a person certificated hereunder as "architect" or "to design and superintend the construction of buildings" and who has identified each and all of the drawings and specifications or reproductions thereof and in connection with such work by his signature thereon;" or, if the drawings and specifications have been made by a non-resident of the State, unless a person certificated hereunder shall assume responsibility for the same by signature as above provided and by "direct supervision or direct control over the superintendence or supervision of the building work."

Exceptions—A dwelling for a single family, a frame dwelling or lodging house of not over two stories and temporary structures not involving the assemblage of human beings therein.

Restricts the use of the term "architect" (not including "landscape architect") to persons certificated hereunder; and prescribes maximum penalties of $500.00 fine or six months imprisonment or both.

SECTION 6

Qualifications for Examination—Candidates for examination for a certificate "to design and superintend the construction of buildings" must, in independent practice or in the employment of a person so engaged, have been continuously engaged in designing, specifying and supervising, the erection of buildings for a period of not less than five years. Examination fee $50.00.

Candidates for examination for a certificate as "architect" shall, in addition to the above qualifications, have had class work in architecture for a period of at least twenty-four months. Examination fee $25.00 or additional.

Exemptions—Structural engineers in good standing actively engaged in independent practice, will be granted a certificate "to design and construct buildings" without examination, provided application be made within six months after act goes into effect.

All architects certificated under the present law will be granted certificates as "architect" under this act on application without examination.

Examinations—The applicant for a certificate "to design and construct buildings" must pass,

(a)—A comprehensive examination "to insure that the applicant has a solid theoretical understanding and a working knowledge of the principles and mathematics involved in the computing of all stresses and strains in the mechanics of building operations."

(b)—An examination in theory and practice of sanitation of buildings and ability to design plumbing systems.

(c)—An examination in the theory and practice of heating and ventilating of buildings.

(d)—An examination in stereometry.

(e)—An examination in practical electricity.

(f)—An examination in fire protection of buildings.

(g)—An examination in specification work.

(h)—An examination as to general education and knowledge of architectural terms.

An applicant for a certificate as "architect" must in addition be examined in the following:

(i) Elements of architecture.
(j) Architectural design.
(k) History of architecture.
(l) Free hand drawing.
(m) History of ornament.
(n) Shades and shadows, and use of color.

SECTION 8

Annual license fee is fixed at $5.00 and causes for revocation specified.

SECTION 9

Safeguard act against possible decision that portions are unconstitutional.

SECTION 10

Repeals the present law entitled "An Act to Regulate the Practice of Architecture."

HOME INDUSTRY LEAGUE SEEKS INJUNCTION AGAINST CITY.

Enthusiastic approval of a proposal to get out an injunction against the city officials of San Francisco was given at a largely-attended meeting of the Home Industry League of California at their last weekly luncheon at the Palace Hotel. The injunction would prevent the mayor and supervisors from paying out the city's money to the White Automobile Co., for five passenger auto busses (for the city's street railway extension system), the contract for which has just been awarded to this Eastern concern by the bureau of Public Works of San Francisco.

Executive Secretary Thorburn reported to the meeting that the contract was given to the Eastern firm although three local companies had submitted bids that were much lower than the White Co., and that the total figures of the Eastern firm were nearly $10,000 higher than the highest of the California firms.

Mr. A. C. Rulofson, chairman of the Executive Committee of the League, and many other business men denounced the action of the city officials in spirited terms, after which it was decided to engage an attorney to secure an injunction to prevent the payment of the money to the White Company, and to carry the matter even so far as the Supreme Court.

Bunco People Exposed.

Starting details of the manner in which an army of bunco men and women succeed in "working" the charitably-inclined of San Francisco were also told to the members of the Home Industry League by R. D. Quinlan, manager of the Sperry Flour Co., and H. J. Maginnity, Secretary of the Charities Investigation Committee of the Chamber of Commerce. Quinlan told of his firm receiving letters from over 500 people the past few weeks demanding 10-lb. sacks of flour that had been promised them as premiums when they subscribed for two well-known magazines through house to house solicitors, of whom the flour people insist they never heard. Maginnity described the vast sums which fakers collect from all manner of business men—running up to $300,000 a year in San Francisco alone—the fakers represent themselves to be authorized by the army and navy authorities—and charitable organizations to collect money for "advertising" in programs and for "tickets," little or no part of which money ever reaches the people whom the fakers claim to be soliciting for.

ADVANCE CONSTRUCTION NEWS.

Classified According to Character of Work.

APARTMENT HOUSES.

SAN FRANCISCO—Apartment house, 5 story and base. Class C construction, $85,000. Architects, Falch & Knoll, Hearst Bldg., S. F. Owner, Antone Rulfs. BONDS.

SAN JOSE, Santa Clara Co., Cal.—Santa Clara County defeated both propositions on the ballot for the $1,500,000 good roads bonds by a vote of about two to one. Proposition No. 1, providing that the county should incur a debt of $1,450,000 for constructing roads, bridges and highways, was defeated by a little less than a two-to-one vote. Proposition No. 2, providing for the issuance of $50,000 county bonds for the purpose of acquiring lands and providing public parks and pleasure grounds received a vote of 4634 for and 10,449 against.

YREKA, Siskiyou Co., Cal.—An election will be held March 31st in the Siskiyou High school district to vote bonds of $70,000 with which to purchase five high school lots and for the construction of six high school buildings.

LEWISTON, Ida.—An election has been called for April 10 in Clearwater district to vote on bond issue of $130,000 for construction of highway system.

OROVILLE, Butte Co., Cal.—The $80,000 school bond election carried last week. The issue will be advertised for sale within the next few weeks and the proceeds will finance the erection of a new school building.

PROVO, Utah.—An election has been called for April 17th to vote bonds of $750,000 for the construction of a highway system, comprising 43 or more miles of concrete roads.

BLYTHE, Riverside Co., Cal.—A special election will be held in the Palo Verde Valley Union High School District on March 30, to vote bonds in the sum of $43,000 for the purchase of a site and the erection of a high school building at Blythe.

MODESTO, Stanislaus Co., Cal.—Two items have been added to city bond issue that is to be voted upon on April 10, bringing the total amount to $100,000; comprising $40,000 for street improvement, $30,000 for storm sewers, $15,000 for sanitary sewers, $10,000 for

swimming pool and $5000 for water-mains.

SOUTH PASADENA, LOS ANGELES CO., CAL.—Bonds of $118,000 for school improvements in the South Pasadena city school district have been defeated.

CALEXICO, IMPERIAL CO., CAL.—Election to vote bonds of $16,000 to finance a new school building will be held April 6th. Joel Coffman, L. S. Neagle and Mrs. Jennie Buck are the school trustees.

FLAGSTAFF, ARIZ.—The Elks Lodge of this city contemplate the erection of a $25,000 building.

CHULA VISTA, SAN DIEGO CO., CAL.—An election will be held shortly to vote bonds of $82,500 for paving the principal streets and to jointly construct a highway between here and National City.

TACOMA, WASH.—Preparations are being made to call an election to vote bonds of $4,500,000 with which to purchase the Hebb Power site for $1,000,000 and the expenditure of $3,500,000 to develop it to its full capacity of 100,000 H. P.

EL CENTRO, IMPERIAL CO., CAL.—An election will be called next month to vote bonds of $2,500,000 to carry out work on the Imperial Irrigation District.

DOUGLAS, ARIZ.—April 17th is the date set to decide the question of issuing and selling bonds of $20,000 to finance a new city hall addition, new jail building and fire station.

FLORENCE, ARIZ.—Bids are being received by J. G. Bogard, City Clerk, for the purchase of bonds of $50 000 with which to finance the construction of a water works and electric lighting system.

RED BLUFF, TEHAMA CO., CAL.—Superior Judge John F. Ellison has been named chairman of a permanent Chamber of Commerce committee to superintend the campaign for a $200,000 bond issue with which to erect a new county court house.

SPOKANE, WASH.—Bonds of $260,000 have been voted for schools.

MESA, ARIZ.—The City Council has voted to hold an election to decide whether the city shall purchase the Southside Gas and Electric Co.'s plant at a cost of $113,000.

CLIFTON, ARIZ.—The bond issue of $166,000 for construction of street improvement, bridges and retaining walls has been sold.

BURLEY, IDAHO—Bonds of $12,000 have been sold. The proceeds will be used to purchase road machinery.

HANFORD, KINGS CO., CAL.—The Hanford Promotion Association has decided to ask the Board of Trustees to call a bond election to vote funds for the construction of a municipal auditorium and the purchase of a site. A committee has been appointed to take the matter up with the trustees.

SACRAMENTO, CAL.—Clubs and citizens are urging the Sacramento officials to call an election to vote bonds of $2,150,000 for the construction and reconstruction of fifteen school buildings.

CLOVIS, FRESNO CO., CAL.—On April 10th the voters will decide on the issuance of bonds of $60,000 for a new high school and on April 14th to vote an issue of $25,000 for a new grammar school.

PORTLAND, ORE.—The Commission of Public Docks will ask the voters of Portland for the authorization of a $3,000,000 bond issue, with which to build a public bulk grain elevator system. The proposed measure will be submitted to the people at the June 4 election.

RIVERSIDE, RIVERSIDE CO., CAL.—A bond issue for $30,000 will be held shortly to finance construction of a Carnegie Library. The city will put up $30,000 if an appropriation of $35,000 can be had from the Carnegie Foundation.

DENAIR, STANISLAUS CO., CAL.—Bonds of $28,000 to provide for the erection of a new school building are being advertised for sale by County Clerk H. Benson.

BRIDGES AND DAMS.

COTTONWOOD, SHASTA CO., CAL.—Bridge, reinforced concrete. Cost not stated. Engineers, State Highway Commission, Forum Bldg., Sacramento. Owners, State of California. T. A. Bedford, division engineer of the Highway Commission, reports the preparation of plans and specifications by the Highway Commission for the construction of a bridge across Cottonwood Creek at the town of Cottonwood, Shasta County. Bids will be called for shortly.

COLUSA, COLUSA CO., CAL.—Bridge, reinforced concrete and steel, $20,000. Engineer, County Surveyor, Colusa. Owners, Colusa County. The Board of Supervisors and grand jury committee on bridges and highway have agreed that the expenditure of $20,000 is necessary on the bridge between Colusa and Williams some four miles from the city, in order to make it comply with the requirements of the State Highway Commission, which has already accepted the plans of Engineer Easterly.

VISALIA, TULARE CO., CAL.—Bridges, steel and reinforced concrete. Cost not stated. Engineer, County Surveyor Byron O. Lovelace is preparing plans for ten bridges to be constructed along the line of the State highway between Octol and Tipton. They will be of steel and concrete construction and of the following lengths: No. 8, 96 feet; No. 9, 140 feet; No. 10, 40 feet; No. 11, 60 feet; No. 12, 32 feet; No. 13, 60 feet; No. 14, 30 feet; No. 15, 160 feet; No. 16, 80 feet. One of these structures will be constructed across the slough on the east line of section 10, township 21, range 26, 60 feet in length. Bids on the work will be called about the middle of April.

SAN JOSE, SANTA CLARA CO., ACL. Bridge, reinforced concrete. Cost not stated. Engineer, County Surveyor, San Jose. Owners, Santa Clara County. The County Supervisors have instructed the County Engineer to prepare plans and specifications for a reinforced concrete bridge on Ross road over Ross Creek in Supervisor District No. 4.

F., glass and glazing. Schneider, Chappell & Jones, 615 J street, Sacramento, painting and decorating.

HOSPITALS

ROSEBURG, ORE.—Hospital, 3 story and base, brick, $22,500. Architect, Lewis Thompson, Central Bldg., Portland. Owners, State of Oregon. Location, Soldiers' Home. Will cover an area of 50 by 100 feet. Plans being prepared.

HOTELS.

EUREKA, HUMBOLDT CO., CAL.—Hotel and stores, 4 story and base, reinforced concrete. Cost not stated. Architect's name not given. Owners, Roy Carruthers, Palace Hotel, S. F., et al. Location, 5th and G streets, covering an area of 110 by 120 feet. Will contain several stores and 90 rooms. Plans being prepared. Construction to be under the direction of Lindgren Co., Monadnock Bldg., S. F.

TORRANCE, LOS ANGELES CO., CAL.—Hotel, 3 story [illegible] brick. Cost not stated. Architects, J. M. Cooper and W. Dougloss Lee, Marsh-Strong Bldg., L. A. Owner, Mrs. Henderson. Will contain an area of 110 by 48 feet and contain 60 rooms. Plans are being prepared.

Contract Awarded.

SANTA BARBARA, SANTA BARBARA CO., CAL.—[illegible] base, brick. Cost not stated. Architect, J. Corbley Pool, Bothin Bldg., L. A. Owner, Mrs. C. A. Meinecke. Con-

Gaetor, Samuel Hunter, Santa Barbara. Contract price not stated.

LOS ANGELES, CAL. Hotel, 1 story and base, brick and steel, $34,609. Architect, Charles E. Shattuck, Mason Bldg., L. A. Owner, A. L. Phillips. Contractor, Frank R. May, Builders' Exchange, L. A. Contract price, $34,609.

IRRIGATION PROJECTS.

J. G. Ruddle of Snelling has applied to the State Water Commission for permission to appropriate 20 cubic feet per second of the waters of the Merced River in that county for irrigation and stock purposes. By a low diverting canal, the full width of the river, the applicant proposes to carry the water into the canal, to be known as the Ruddle Canal, six and a half miles in length. Two 12-inch pumps operated by 100 horsepower motors will lift the water 56 feet to a point from which it will be carried by gravity, except in a few places where there are high spots, where small auxiliary pumping plants will be used. It is intended to irrigate 1,960 acres, and the estimated cost is given in the application as $10,000.

Jessie B. Holly of San Francisco has applied to the State Water Commission for permission to appropriate 20 cubic feet per second of the waters of Dog Creek, tributary to the Truckee River in Sierra County, near the Nevada line, for the purpose of a municipal supply for Reno, in that State. The following proposed specifications are given in the application: A dam 100 feet high, 60 feet long at top and 45 feet bottom, hydraulic fill; pipe line 14 miles long; reservoir to have a storage capacity of 20,000 acre feet; estimated cost, $210,000. The present population of Reno is given as 14,000.

W. P. Boone of Berkeley has applied to the State Water Commission for permission to appropriate 20,000 cubic feet per second of the waters of Kings River in Fresno County for the purpose of irrigating lands in Fresno, Tulare and Kings Counties. It is proposed to organize a district to be known as the Kings River Conservation District. The application specifies a dam 300 to 315 feet high, 1200 feet long on top and 215 feet long at bottom of concrete construction, forming a reservoir with a storage capacity of 600,000 acre feet. The project proposes the irrigation of 1,200,000 acres, and the estimated cost is given as $9,000,000.

W. B. Baker of Los Angeles and F. H. Merrell of South Pasadena have applied to the State Water Commission for permission to appropriate all of the unappropriated waters of Tahquitt Creek, Andreas Canyon Creek, Murray Canyon Creek, West Fork of Palm Canyon Creek, Main Fork of Palm Canyon Creek, Dead Indian Creek, Deep Canyon Creek, all in Riverside County for proposed irrigation purposes. The application states that this application is supplementary to three previous applications, by which it is intended to assemble the waters of several streams and watersheds and conduct them to lands in the Coachilla Valley.

SAN DIEGO, SAN DIEGO CO., CAL. —Irrigation. Cost not stated. Engineer, County Surveyor, San Diego. Owners, San Diego County. Until 11 a. m. April 2nd, bids will be received by the Board of Supervisors for constructing an irrigation system and pipe line, consisting of cement pipe line, standpipes, valves, gates, etc., on portion of Pueblo lot No. 1118. Separate bids will also be received at the same time for the construction and installation of a pumping plant on portion of Pueblo lot 1105, to consist of pump house, motor, pump and connections to discharge pipes and wells. Plans and specifications are on file at the office of the Board. Certified check for 5 per cent. J. T. Butler, County Clerk.

YUMA, ARIZ. — Irrigation pumps, etc. Cost not stated. Engineer, U. S. Reclamation Service, Denver, Colo. Owners, United States Government. Sealed proposals for furnishing pumping machinery for the Yuma Valley drainage plant, Yuma project Arizona, will be received at the office of the United States Reclamation Service, Denver, Colo., until 2 o'clock p. m. April 18, 1917, and will then be opened. The work is located near Yuma, Ariz. For particulars address the United States Reclamation Service, Washington, D. C., or Denver, Colo. A. P. Davis, chief engineer.

CHOWCHILLA, MADERA CO., CAL. —Irrigation. Cost not stated. Engineer's name not given. Owners, Swift & Co., Chicago. Louis F. Swift, president of Swift & Co., of Chicago, and associates have purchased the 42,000 acres in the Chowchilla ranch for a reported consideration of $2,000,000 and will immediately start work on extending the irrigation system. Additional wells and pumps will be installed. Chas H. Kendrick, president of Kendrick & Co., 742 Market street, S. F., negotiated the deal.

LIBRARIES.

SAN FRANCISCO—Library, 1 story and base, brick and concrete, $40,000. Architects, Coxhead & Coxhead. Hearst Bldg., S. F. Owners, City and County of San Francisco. C. E. McMullen, 110 Jessie street, presented the lowest bid for the general construction and will probably be awarded the contract. A complete list of the bids received will be found under the heading of Bids Opened in this issue.

POWER PLANTS.

McKITTRICK, KERN CO., CAL.—Gas plant, etc. Cost not stated. Engineer's name not given. Owner's Pacific Gas and Fuel Co. The Pacific Gas and Fuel Co. has secured a franchise to construct gas mains in the streets of McKittrick. The same company has also made application for franchises at Taft, Reward and Belridge. According to Murray Bourne, a Fresno attorney, who represented the corporation, about $300,000 will be expended in the construction of pipe lines, compressor stations, etc., in this territory.

SUNNYVALE, SANTA CLARA CO., CAL.—Pipe. Cost not stated. Engineer, City Engineer, Sunnyvale. Owners, City of Sunnyvale. All bids received by the Town Trustees for furnishing pipe to be used in connection with the municipal plant have been rejected. The pipe will be purchased in the open market.

GRAND CANYON ARIZ. — Hydroelectric plant. Cost not stated. Engineer, J. B. Girard Phoenix. Owners' names not given. Work of constructing three concrete dams and hydroelectric plants in the Grand Canyon will be commenced in the near future, according to J. B. Girard. The first dam will be constructed about 21 miles north of Peach Springs, at a point where the walls of the Canyon rise 1500 feet above the stream. It will be necessary to construct a spur track from the Santa Fe at Peach Springs to the site, or to construct a highway to allow the use of motor trucks. Power generated by this plant when completed, will be used in constructing the other two. The Clark Engineering Co., of New York City, has a man on the site checking up plans and making estimates.

Contract Awarded.

REDWOOD CITY, SAN MATEO CO., CAL.—Pipe, $1,372. Engineer, City Engineer, Redwood City. Owners, Redwood City. Contractors, American Cast Iron Pipe Co., Balboa Bldg., S. F. Contract price, $1,372.

RAILROAD CONSTRUCTION AND EQUIPMENT

Contract Awarded.

SAN FRANCISCO—Municipal railroad construction, etc. Cost as follows. Engineer City Engineer, S. F. Owners, City and County of San Francisco. Bids will be opened on March 30th at 10:30 a. m. for constructing a 20-inch cast iron siphon crossing Smith Canal, with a special manhole at each end and 93.3 feet of 24-inch, vitrified, salt-glazed, ironstone sewer pipe.

STOCKTON, SAN JOAQUIN CO., CAL. Street improvements. Cost as follows. Engineer, City Engineer, Stockton. Owners, City of Stockton. The City Council at its last meeting opened bids for street work in McCloud's addition in North Stockton, and action on awarding the contract was laid over as all bids were considered too high. The bids received wer as follows: Federal Construction Co., Sharon Bldg., San Francisco $45,796.31; Pahl & Caldwell, Stockton, $44,102.68; Clark & Henery, Stockton, $40,238.83; M. A. Greely, San Francisco, $39.962.89. The City Engineer's estimate for the work was $38,-227.99. Greely, the lowest bidder is a member of the firm of Ehrhart & Greely of San Francisco.

EUREKA, HUMBOLDT CO., CAL. Road Construction. Cost not stated. Engineer, County Surveyor, Eureka. Owners, Humboldt County. Bids will be opened on April 10th at 2 p. m. for the construction of four miles of the Lord-Ellis road near Blue Lake in Road District No. 3.

RICHVALE, BUTTE CO., CAL.—Culverts and crushed rock, etc. Cost not stated. Engineer's name not given. Owners, Drainage District No. 100, Richvale. Bids will be opened on April 10th at 7:30 p. m. for the construction of concrete culverts and for furnishing cement and broken rock or gravel for drainage district No. 100 of Butte County. For the construction of concrete culverts, including the furnishing of reinforcing steel; also sealed proposals for furnishing cement and broken rock or gravel to the said district. The work to be done under said proposals constitutes only a part of the drainage work planned for the district. The estimated amount of concrete work is 700 yards, of cement wanted is 2000 barrels, of broken stone is 2,000 cubic yards.

SACRAMENTO, CAL.—Cement, rock and sand. Cost as follows. Engineer, County Surveyor, Sacramento. Owners, Sacramento County. Bids for furnishing 175,000 barrels of cement and a large quantity of sand for use in constructing the Sacramento County highway system have been rejected. It is the intention of the Supervisors to purchase these materials in the open market. A contract for 100,000 tons of crushed rock was awarded to the Natomas Consolidated Co., of Oroville, on their bid of 55 cents per ton, F. O. B., Oroville or Fairoaks. The Contra Costa Construction Co., of Berkeley, was awarded the contract for unloading the materials on their bid of 14 cents per ton.

VISALIA, TULARE CO., CAL.—Comfort station, brick. Cost not stated. Engineer, County Surveyor, Visalia. Owners, Tulare County. Bids will be received by the Board of Supervisors up to 2 p. m. of April 3rd for the construction of a brick comfort station in Mooney Park (Tulare County Park), in accordance with plans and specifications on file at the office of the Board. Certified check for 10 per cent required. Geo. H. Prestidge is Clerk of the Board.

MODESTO, STANISLAUS CO., CAL.—Highway construction. Cost not stated. Engineer County Surveyor, Modesto. Owners, Stanislaus County. For the construction of approximately 3.81 miles of cement concrete road, 16 feet in width, beginning at the end of East Main street in the city of Turlock and running thence northerly and easterly to the east line of the town of Denair; also approximately 2.208 miles of cement concrete road 16 feet in width, beginning at the south line of the city of Turlock and running thence southerly to the county line between the counties of Stanislaus and Merced; thus making a total length of approximately 6.018 miles, said roads being known as the Denair and Irwin City Roads. Also for bids for the construction of approximately 2,882 miles of cement concrete road 16 feet wide, beginning at the T. I. D. main canal southeast of Hickman and running in a northwesterly direction to a pont intersecting the section line between M. D. B. M., also approximately 8.222 miles of cement concrete road, a part of which is 12 feet wide and remainder 16 feet in width, beginning at the S. P. R. R. at Waterford and running thence in an easterly direction to the Roberts Ferry bridge; thus making a total of approximately 11.104 miles, said roads being known as the Hickman-Thalheim and Waterford (section C) roads. Also bids for the construction of approximately 9.876 miles of cement concrete road 16 feet in width on the Newman-Westley road (section B), beginning at a point about midway between Crows Landing and Patterson, running in a northwesterly direction to the north line of the townsite of Westley.

WASCO KERN CO., CAL.—Lighting system. Cost not stated. Engineer, City Engineer, Wasco. Owners, City of Wasco. By a vote of 86 to 12 the people of Wasco adopted the proposed lighting system for the thriving city and vicinity. According to the plans the cost of the proposed system will be decided upon by the residents who will be levied upon as per the appraised property value.

FRESNO, FRESNO CO., CAL.—Street improvements. Cost not stated. Engineer, City Engineer, Fresno. Owners, City of Fresno. Bids will be received by the City Clerk shortly for improving Calaveras street, from H street to Daviadero street, by grading, curbing and guttering, with 1½-inch bitulithic surfacing on 4-inch cement concrete base, and the construction of corrugated iron culverts. Plans and specifications are on file at the office of the City Engineer.

MODESTO, STANISLAUS CO., CAL.—Highway improvement. Cost not stated. Engineer, County Surveyor, Modesto. Owners, Stanislaus County. All bids for construction of highway from Denair to Irwin City, 6.018 miles, have been rejected because too high, and new bids will be received until April 10th by Hugh Benson, County Clerk.

BAKERSFIELD, KERN CO., CAL.—Sidewalks, etc. Cost not stated. Engineer, none. Owners, City of Bakersfield. Bids will be opened on April 15th at 9 a. m. for the furnishing of all materials and labor necessary to grade, fill, plane and complete all sidewalk and curb for the entire length of the south side of the Bryant School property, or block 196.

SANTA ROSA, SONOMA CO., CAL.—Cement. Cost not stated. Engineer, City Engineer Santa Rosa. Owners, City of Santa Rosa. The City Council has rejected all bids received for furnishing 150 barrels of cement for use in street work and new bids have been ordered received.

VALLEJO, SOLANO CO., CAL.—Street miprovements. Cost not stated Engineer, City Engineer, Vallejo. Owners, City of Vallejo. Steps are being taken by the City Engineer for improvement work proposed by the members of the Eastern Park Improvement Club. The engineer's map for the work calls for a 16-foot paved roadway on each side of an 8-foot parking space, and 20-foot sidewalks in Monterey street, between Capitol and Kentucky streets; Florida street, between

Alameda and Colusa street, and Kentucky street, between Alameda and Monterey.

SANTA BARBARA, SANTA BARBARA CO., CAL. Street improvements. Cost not stated. Engineer, City Engineer, Santa Barbara. Owners, City of Santa Barbara. Bids will be received by the City Clerk up to 2 p. m. of April 5th for improving portions of Canyon Perdido street and San Andres street, by grading and paving with 2-inch asphalt on 4-inch concrete base, and by constructing concrete curb and gutters, stone curbs, vitrified pipe sanitary sewer, five manholes, thirteen catchbasins, etc., all in accordance with plans and specifications on file at the office of the City Engineer. Certified check or bond for 10 per cent required. A. Christine Hall is the City Clerk.

LOS ANGELES CAL.—Sewer construction. Cost as follows. Engineer, City Engineer, L. A. Owners, City of Los Angeles. Lea Miletich was the lowest bidder at $16,900 for the construction of a sewer in Topaz street, from Huntington Drive to Galena street, and in portions of other streets. The other bids were: Mike Chutuk, $17,818; B. Z. Wucetich, $21,450; B. Zaich, $23,333.

RIVERSIDE, RIVERSIDE CO., CAL.—Highway improvements. Cost not stated. Engineer, County Surveyor, Riverside. Owners, Riverside County. Bids will be opened on April 4th at 10 a. m. for the improvement of a portion of the roads of Coral Reef Permanent Road Division. Said improvements consisting in part of grading, surfacing with gravel and oiling, approximately 4½ miles of roadway, grading and brushing 20¼ miles of roadway, and clearing and grading 6½ miles of roadway.

UPLAND, SAN BERNARDINO CO., CAL.—Sewer system, $50,000. Engineers, Olmstead & Gillelen, Hollingsworth Bldg., L. A. Owners, City of Upland. The system will require about 17,000 feet of outfall sewer, which will be built by bond issue. The lateral sanitary sewer system will be constructed under the provisions of the Vrooman Act.

SEAL BEACH, LOS ANGELES CO., CAL.—Sewer construction. Cost as follows. Engineers, Olmstead & Gillelen, Hollingsworth Bldg., L. A. Owners, City of Seal Beach. John Sutalo, 476 Bell street, L. A., was the lowest bidder at $33,619 for constructing the sewer system. Alternate bids were taken on both vitrified and concrete pipe, the price bid being the same. The next lowest bid was submitted by J. Chutuk for $34,382.58.

VENTURA, VENTURA CO., CAL.—Highway construction. Cost as follows. Engineer, County Surveyor, Ventura. Owners, Ventura County. The Brasher-Burns Co., Van Nuys Bldg., L. A., was the lowest bidder at $31,601.66 for improving Division 3, Fillmore to Pinu road, consisting of 7.54 miles of 4-inch concrete paving 16 feet wide, and constructing concrete and metal pipe culverts. The bid was taken under advisement for one week.

The Sarsi Studios

359-361-363 GOLDEN GATE AVE., S. F. Phone Market 2970

A Conservatory Erected By Us In One Of The Mansions In Alameda County.

The Sarsi Studios, formerly on Oak Street, San Francisco, is now located at 361-363 Golden Gate Avenue, where a most comprehensive and instructive display room and studio has been installed.

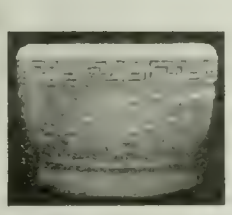
Here will be found examples of antique and modern mantels in caen stone and artificial stone in endless variety as well as an endless display of garden furniture.

The various schools of design in mantels are displayed with appropriate setting, each mantel being in a room of its own. Here the Architect and the Owner can readily see the finished article as it will appear when fully installed.

The products of the Sarsi Studios will be found in many of the finer homes in California, and Builders have found that a Sarsi Studio Mantel is a distinct asset for the home; often being the means of selling the home for those who build to sell.

Mr. Sarsi has devoted a life time to his art, having studied abroad in the finest schools of Europe. There at the feet of the Masters of the ages he has drawn his inspiration. His service, experience, advice and art are at the disposal of those who seek for the finest in these lines.

Examples of Mr. Sarsis' decorative products will be found in most of the homes and grounds of our finest residences, and restricted residence tracts. Work has just been completed on four lions which are to guard the approaches to the Modesto Bridge now nearing completion of which Leonard and Day were the Engineers.



A visit to these studios is well worth the time of our Architects and Owners. The illustrations on these pages, give but a hint of what may be seen at Mr. Sarsi's Studios.

FRESNO, MODESTO, STANISLAUS AND CENTRAL CALIFORNIA.

COMFORT STATION. Brick Cost not stated. Visalia, Tulare Co. Cal. Engineer, County Surveyor, Visalia. Owners, Tulare County. Bids will be received by the Board of Supervisors up to 2 p. m. of April 3, for the construction of a brick comfort station in Mooney Park (Tulare County Park), in accordance with plans and specifications on file at the office of the Board. Certified check for 10 per cent required. Geo. H. Prestidge is Clerk of the Board.

HIGHWAY CONSTRUCTION Cost not stated. Modesto, Stanislaus Co. Cal. Owners, Stanislaus County. For the construction of approximately 3.61 miles of cement concrete road 16 feet in width, beginning at the end of East Main street in the city of Turlock and running thence northerly and easterly to the east line of the town of Denair also approximately 2.208 miles of cement concrete road 16 feet in width beginning at the south line of the city of Turlock and running thence southerly to the county line between the counties of Stanislaus and Merced thus making a total length of approximately 6.018 miles; said roads being known as the Denair and Irwin City roads. Also for bids for the construction of approximately 2.882 miles of cement concrete road 16 feet wide, beginning at the T. I. D. main canal southeast of Hickman and running in a northwest direction to a point intersecting the section line between M. D. B. M.. Also approximately 8.222 miles of cement concrete road, a part of which is 12 feet wide and remainder 16 feet in width, beginning at the S. P. R. R. at Waterford and running thence in an easterly direction to the Roberts Ferry bridge; thus making a total of approximately 11.104 miles, said roads being known as the Hickman-Thalheim and Waterford (section C) roads. Also bids for the construction of approximately 9.876 miles of cement concrete road 16 feet wide on the Newman-Westley road (section B), beginning at a point about midway between Crows Landing and Patterson, running in a northwesterly direction to the north line of the townsite of Westley.

LIGHTING SYSTEM—Cost not stated. Wasco, Kern Co., Cal. Engineer, City Engineer, Wasco. Owners, City of Wasco. By a vote of 86 to 12, the people of Wasco adopted the proposed lighting system for the thriving city and the vicinity. According to the plans the cost of the proposed system will be decided upon by the residents who will be levied upon as per the appraised property value.

STREET IMPROVEMENTS — Cost not stated. Fresno, Fresno Co., Cal. Engineer, City Engineer, Fresno. Owners, City of Fresno. Bids will be received by the City Clerk shortly for improving Calaveras street, from H street to Devisadero street by grading, curbing and guttering, with 1½-inch bitulithic surfacing on 4-inch cement concrete base, and the construction of corrugated iron culverts. Plans and specifications are on file at the office of the City Engineer.

HIGHWAY IMPROVEMENT — Cost not stated. Modesto, Stanislaus Co., Cal. Engineer, County Surveyor, Modesto. Owners, Stanislaus County. All bids for construction of highway from Denair to Irwin City, $6.018 miles, have been rejected because too high, and new bids will be received until April 10th by Hugh Benson, County Clerk.

SIDEWALKS, ETC.—Cost not stated. Bakersfield, Kern Co., Cal. Engineer, none. Owners, City of Bakersfield. Bids will be opened on April 12th at 9 a. m. for the furnishing of all materials and labor necessary to grade, fill, plane and complete all sidewalk and curb for the entire length of the south side of the Bryant School property, or block 196.

STREET IMPROVEMENTS—Cost as follows. Modesto, Stanislaus Co., Cal. Engineer, City Engineer, Modesto Owners, City of Modesto. Contract for the improvement of 18th street has been awarded to Central California Paving Co. Security Bldg., Modesto, at 1½ cents per square foot for grading, 13½ cents per square foot for paving, 85 cents per lineal foot for concrete gutters, and 14 cents per foot for concrete curbs.

RESIDENCE — 2 story and base, frame, $15,000. Fresno, Fresno Co., Cal. Architects, Glass & Butner, Rowell Bldg., Fresno. Owner, B. F. Shepherd. Location, Ventura Vista Tract. Will contain eleven rooms, three baths and sleeping porches. Separate garage. plans being prepared.

BANK AND OFFICES—8 story and base. Class A construction, $300,000. Fresno, Fresno Co., Cal. Architect, R. F. Felchin, Rowell Bldg., Fresno. Owners, Bank of Italy. Location, Tulare and J streets, covering an area of 50 by 100 feet. Will contain the bank on the first and basement floors, and a number of offices above. Plans are being prepared.

BRIDGES—Steel and reinforced concrete. Cost not stated. Visalia, Tulare Co., Cal. Engineer, County Surveyor, Visalia. Ownsre. Tulare County. County Surveyor Byron O. Lovelace is preparing plans for ten bridges to be constructed along the line of the State highway between Octol and Tipton. They will be of steel and concrete construction and of the following lengths: No. 8, 96 feet; No. 9, 140 feet No. 10, 40 feet; No. 11, 60 feet; No. 12, 32 feet; No. 13, 60 feet; No. 14, 30 feet; No. 15, 160 feet; No. 16, 80 feet. One of these structures will be constructed across the slough on the east line of section 10, township 21, range 26, 60 feet in length. Bids on the work will be called about the middle of April.

IRRIGATION — Cost not stated. Chowchilla, Madera Co., Cal. Engineer's name not given. Owners, Swift & Co., Chicago. Louis F. Swift, president of Swift & Co., of Chicago, and associates, have purchased the 42,000 acres in the Chowchilla ranch for a reported consideration of $2,000,000 and will immediately start work on extending the irrigation system. Additional wells and pumps will be installed. Chas. H. Kendrick, president of Kendrick & Co., 742 Market street, S. F., negotiated the deal.

GAS PLANT, ETC.—Cost not stated. McKittrick, Kern Co., Cal. Engineer's name not given. Owners, Pacific Gas and Fuel Co. The Pacific Gas and Fuel Co. has secured a franchise to construct gas mains in the streets of McKittrick. The same company has also made application for franchises at Taft, Reward and Belridge. According to Murray Bourne, a Fresno attorney, who represented the corporation, about $300,000 will be expended in the construction of pipe lines, compressor stations, etc., in this territory.

Contract Awarded.

BRIDGE. Steel and concrete, $8,994 Modesto, Stanislaus Co., Cal. Engineer, County Surveyor, Modesto. Owners, Stanislaus County. Contractors, W. D. Voorheis & Son, Stockton. Contract price, $8,994.

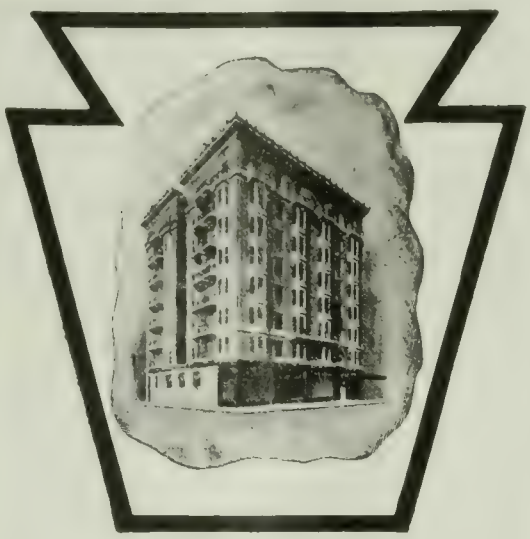
A., was awarded the contract at about $340,000 for improving streets at Douglas, the work involving about 140,000 square yards of paving. The unit prices were $2.50 per square yard for concrete paving, $1.70 per square yard for concrete base foot for sidewalk, 44 cents per linear foot for rsidewalk, 44 cents per linear foot for curb, 25 cents per square foot for gutter, $12 per foot for culverts.



IRRIGATION PUMPS, ETC.—Cost not stated. Yuma, Ariz. Engineer, U. S. Reclamation Service, Denver, Colo. Owners, United States Government. Sealed proposals for furnishing pumping machinery for the Yuma Valley drainage plant, Yuma project, Arizona, will be received at the office of the United States Reclamation Service, Denver, Colo., until 2 o'clock p. m. April 18, 1917, and will then be opened. The work is located near Yuma, Ariz. For particulars address the United States Reclamation Service, Washington, D. C., or Denver, Colo. A. P. Davis, chief engineer.

HYDRO-ELECTRIC PLANT — Cost not stated. Grand Canyon, Ariz. Engineer, J. B. Girard, Phoenix. Owners' names not given. Work of constructing three concrete dams and hydro-electric plants in the Grand Canyon will be commenced in the near future, according to J. B. Girard. The first dam will be constructed about 21 miles north of Peach Springs, at a point [illegible] the walls of the canyon are [illegible] feet above the stream. It will be necessary to construct a spur track from the Santa Fe at Peach Springs to the site, or to construct a highway to allow the use of motor trucks. Power generated by this plant when completed will be used in connection

RECEIVE FIGURES FOR COLUSA SCHOOL.

J. S. Hannah Presents Low Figure for General Construction Bids Being Considered by Board.

(By Special Wire)

COLUSA, Colusa Co., Cal., March 21, 1917.—A number of bids were received by the Colusa Board of Education today for the construction of the two-story Class "C" school building designed by Architect W. H. Weeks, 75 Post street, San Francisco. J. S. Hannah, Williams Bldg., San Francisco, presented the low bid at $80,732 with an alternate of $76,150 for the general construction. This bid together with bids for plumbing and heating were taken under consideration by the Board. Following is a complete list of the bids received:

The alternate proposition under the general construction provided for the ommission of one wing and an arcade.

General Construction.

Bidder	Prop 1	Prop. 2
R. W. Littlefield, Okd	$87,100	$83,560
W. W. Campbell, Sac	94,800	87,300
Robert Trost, S. F.	89,983	84,290
Christiansen & Sons, Okd	84,500	80,942
J. S. Hannah, S. F. (low)	80,732	76,150
Howard S. Williams, S. F.	90,950	86,450
Stockholm & Allyn, S. F.	96,977	91,630
Carnahan&Mulford, S. F.	96,516	91,816
Anderson&Ringrose, S. F.	96,825	91,300
A. R. Wagner, S. F.	85,260	79,970
Harvey A. Klyce, S. F.	86,674	82,797
Thurston & Co., S. F.	84,985	83,085

City Bids Opened.

Bids Received by San Francisco Board of Public Works for School Improvements, Etc.

Bids were opened yesterday by the San Francisco Board of Public Works for the general construction of lavatories in the Francis Scott Key School and for the plumbing work on the same; for fire escapes for the Hawthorne and Francis Scott Key Schools; for a concrete sump at the Commercial street pumping station and for plates, rail braces, etc., for the Municipal Railway.

No bids were received for the improvement of Carolina street, between 22nd and 23rd streets. New bids for this work will probably be called. Following is a complete list of the bids received:

General Construction Lavatories, Francis Scott Key School.

A. Ahlbach	$2,850
L. Henckenroth	2,477
A. H. McKenzie	2,528

Plumbing, Lavatories, Francis Scott Key School.

F. W. Snook & Son	$3,896
Alex. Coleman	3,332
Burnham Plumbing Co.	3,700
D. Williamson	3,275
A. Lettich	3,383
J. H. Pinkerton	3,444
Scott Co.	3,776
Ahlbach & Mayer	3,400

Fire Escapes.

	Hawthorne School	F. S. Key School
G. G. Iron Wks.	$2439	$2498

...tra Costa Constr. Co.	1880
W. Govill	1950
R. Eaton	1475
Tibbitts Pacific Co.	1861

The following firms submitted bids for tie plates, rail braces, spikes, etc., for the Municipal Railway:

Paynes Bolt Works.
U. S. Steel Products Co.
Eccles & Smith
Judson Mfg. Company.
International Iron & Steel Co.

Bids were submitted by each firm for various parts of the work and the low bidder could not be determined at the time of going to press.

Two bids were received by the San Francisco Board of Public Works for furnishing linoleum for the Pathological Building of the San Francisco Hospital.

	Prop. 1	Prop. 2
C. N. & E. Walter	$1,536.15	$1,674.95
W. & J. Sloane	1,072.50	.....

FIGURES RECEIVED FOR BRANCH LIBRARY.

Building Designed By Architects Coxhead & Coxhead to be Erected at Green and Octavia.

A number of bids were received by the City Library Trustees at their meeting Friday afternoon for the construction of the branch library to be erected at the southwest corner of Green and Octavia streets. C. E. McMullin, 110 Jessie street, presented the lowest bid for the general construction at $22,188. Plans for the building were prepared by Architects Coxhead & Coxhead, Hearst Bldg. Bids were taken under advisement. Following is a complete list of the bids received:

General Construction.

C. L. Wold & Co.	$27,279
W. D. Henderson	28,880
F. L. Hansen	26,330

HEALTH ITEM.

At Tremeloo, Belgium, 75 years ago, Joseph DeVeuster, better known as Father Damien, was born. He was educated for a business carerer, but when he was eighteen years old he entered holy orders, and fifteen years later, in October, 1863, went to Honolulu as a missionary in the stead of his brother. In 1864 he was ordained a priest, and during the nine years that followed he was frequently struck in his parochial work with the pitiful condition of the Hawaiian lepers. In 1873, he volunteered to take up his residence on the Island of Molokai, to which at that time all lepers were deported, and there he remained until his death on April 15, 1889. He gave evidence in 1885 of having contracted leprosy from the unfortunates committed to his care, but he continued his labors.

Leprosy is a contagious, infectious disease, which is believed to be directly communicable from one person to another person. It is believed to be caused by a microscopic vegetable parasite shaped somewhat like a small curved stick. This bacillus was discovered by Hansen in 1874. In man the disease appears in several different forms, attacking almost any organ in the body, destroying any or all of the senses, and finally producing death. There is a disease among rats which closely simulates human leprosy, and the bacillus which causes it resembles that found in human leprosy.

It is not definitely known just how the leprosy bacillus enters the body. It may be through wounds of the skin or the lining membrane of the nose and throat, and possibly it may be taken into the body with food. It is pretty definitely proven that no particular article of diet, such as fish, causes the disease. It has been thought that some insect may act as the agent which transfers the germs from sick people to well people. This is not proven.

Whatever the exact mechanism in the transference of the leprosy bacillus, practical evidence shows that the disease is spread mainly by direct contact, and is most prevalent where people are dirty and overcrowded. There is no evidence that leprosy is hereditary.

Practical experience has shown that segregation is the only practical means of controlling the disease. A bill appropriating $250,000 for the purpose of establishing a national home for lepers passed the House of Representatives on May 4, 1916, and was passed by the Senate on January 25, 1917. This provides a national institution for the care and treatment of the unfortunates afflicted with this gruesome disease and solves the problem of preventing its spread in the United States.

TUBERCULOSIS DEATH RATE TAKES A BIG DROP.

For many years California has had one of the highest, if not the very highest, tuberculosis death rate of any state in the Union, with the possible exception of some southern states having high colored populations. Dr. W. A. Sawyer, Secretary of the California State Board of Health, says that the tremendous drop in the California death rate for this disease during 1916, however, gives hope that California may soon wipe this unenviable record. The tuberculosis death rate in California dropped from 194.5 per hundred thousand population in 1915 to 173.5 per hundred thousand population in 1916. This means that there were 5284 deaths in 1916, against 5551 such deaths in 1915.

Not only were there fewer tuberculosis deaths in the rural districts of the state, but the reductions in the large cities were marked. The tuberculosis death rate dropped 4.0 per cent in Los Angeles city and 7.3 per cent in San Francisco. This means that there were forty-one fewer tuberculosis deaths in Los Angeles and fifty-one fewer tuberculosis deaths in San Francisco during the past year.

There is no one factor that is alone responsible for this great reduction. The removal of active cases of tuberculosis, the provision of public clinics, the education of the people, the general betterment of living conditions, and the advance in standards of living have all played their parts in bringing about this remarkable record. This gives encouragement to the people who are engaged in warfare against the great white plague; it shows that in spite of the large number of tuberculosis cases imported into California every year, the control of the disease is possible.

EASTERN ENGINEER WANTS LOCAL JOB.

OAKLAND, Cal.—The City Council has received an application from B. S. Cresson J.r. former chief engineer of the State Board of Commerce and Navigation of New Jersey, for employment in connection with the development of the Municipal Harbor. The matter has been referred to the port commission. Mr. Cresson is at present a consulting engineer in New York City

ASK FOR ENGINEERING BRIDGE WORK.

OAKLAND, Cal.—The Watson-Davis-Miller Company, bridge builders, represented by Harlan D. Miller has presented to the Board of Supervisors a formal application to perform the engineering work on the proposed bridge across the Oakland harbor at Webster street. The application was filed with several others from bridge and engineering concerns.

PACKING-HOUSE DOCK FOR COLOMBIAN PORT.

The Government of Colombia has made a contract for the construction of a packing-house dock in the Gulf of Morrosquillo to be used exclusively in connection with the meat industry on the Atlantic coast of Colombia. This contract, made with Evaristo Rivas Groot and published in the Diario Oficial, is not an exclusive one, for the Government reserves the right to make similar contracts with other parties. The contractor agrees to construct the dock at his own expense, beginning the work within one year and completing it two years later, when he must submit his schedule of dock charges to the Government for approval. The contract is transferable with all its obligations.

WHAT OF SOUTH AMERICAN TRADE IN EVENT OF WAR?

What will be the effect upon reciprocal trade between the United States and the Latin American republics of a state of war between this country and Germany is a question that is much in the minds of manufacturers and exporters and importers. It is now generally conceded that war will come, and the flourishing trade that has been promoted particularly since the European war began is thought to be in a precarious situation. Financial America is authority for the statement that well informed persons in New York do not hesitate to declare that the revolution in Cuba and the minor revolts in Peru and Colombia are due to German activities. They also look for trouble with Mexico, in the event of this country entering the war, and further state that internal trouble will probably crop out in Nicaragua, Chile and Brazil and possibly in other Latin American countries, as the result of German intrigue.

Whether trade would be seriously jeopardized from this cause would depend upon the ability of the existing governments to put down these disturbances, and, according to one authority, the Monroe Doctrine will probably play a part should revolutions, fostered by Germany, grow to any great proportion. Despite large German population and the free expenditure of German money, the larger Latin American countries will be able to cope with the situation without outside aid, it is believed, but the smaller republics, as already indicated in the case of Peru, which has been out-and-out pro-Ally since the war, will have considerable difficulty in combatting the combination of trained German reservists and unlimited German gold. On the whole, it is believed, however, that internal disorders will be of only short duration.

The entrance of this country into the war may directly affect trade between the two sections to a certain extent, and, in the long run, according to authorities, advantageously. Probably the most important consideration in connection with this development is that virtually all the vessels carrying this trade are under American registry. That some of thes ships will be commandeered by the United States Government in case of war appears probable but there is little likelihood that a tie-up would result. In fact, shipbuilding activity in this country indicates that any gaps made immediately after a war declaration would soon be filled.

Moreover, this point of possible shortage of shipping accentuates the matter, which received so much attention following the outbreak of the European war, of not only Latin American dependence, with Europe cut off, upon this country's trade and [illegible] but of this country's dependence upon Latin American products. Furthermore, this fact practically insures the continuance of this trade, and, with the fresh realization of the mutual advantage gained, authorities look for a bigger and more solid trade in the future.

They believe that the outlook is for a much better understanding between the two sections. In some quarters, it is stated that this might be termed the entrance of a new stage in the development of trade relations between the United States and Latin America, and business men are urged to extend their efforts so far as possible, in dealings with the countries to the south.

The trouble in Peru at the present time is considered doubly unfortunate in view of the fact that the country, after considerable difficulty, had managed to rehabilitate its finances and strengthen its credit so that a loan here probably could have been floated in a short time.

TUNGSTEN DEPOSITS OF INYO COUNTY, CALIFORNIA.

The notable tungsten deposits near Bishop, the principal town of Owens Valley, Cal., are described in a report just issued by the United States Geological Survey, Department of the Interior. These deposits are mined in Deep Canyon, which traverses an isolated group of hills at the base of the Sierra Nevada. Similar groups of hills farther south in Owens Valley are known by distinctive names, such as the Alabama Hills, and the name Tungsten Hills has been suggested for the group in which the principal tungsten deposits have been found. The hills reach an altitude of 6,000 feet, or about 1,500 feet above the floor of Owens Valley, but they are dwarfed into insignificance by the mighty range behind them, which towers to 13,000 feet.

Tungsten ore was first found in place in August, 1913, on the Jackrabbit claim, near the present center of mining activity. Three partners, who were mining placer gold in Deep Canyon, found that the concentrates they obtained were difficult to clean because the gold was invariably accompanied by a heavy white metal. This troublesome material proved to be scheelite, one of the chief ore minerals of tungsten, and when its identity and value became known search for it was soon begun. It is reported that after all the quartz float in the area adjoining Deep Canyon had been broken open in vain during a search that covered 18 months, the scheelite was finally found [illegible] rock matrix by J. C. Powning [illegible] which out hunters recognized the [illegible]

of garnet rock on which he had just shot a rabbit, an incident to which the discovery claim owes its name. At this place the scheelite is embedded in the blackish garnet rock in particles somewhat larger than those commonly found in the ore bodies of the district, but it is neither so prominent nor so obviously recognizable that it would have been found had it not been the special object of search. The discovery that the scheelite occurs in the garnet rock, however, made prospecting for tungsten very simple. The blackish garnet masses on the bare hills contrast notably with the prevailing gray and reddish granite and are therefore easily recognized. They were soon staked and were then tested for tungsten, and in this way ore was found in many places. As a rule this scheelite is so inconspicuous that the largest ore body, although it crops out prominently, was at first unfavorably reported on by competent engineers, because they were unable to ascertain its trend and consequently its width and length.

The deposits, although found in 1913, remained practically unknown until the spring of 1916, when their exploitation was energetically begun. By midsummer two mills, having a total daily capacity of 400 tons, had been completed and were in active operation.

The ore consists of scheelite, garnet, epidote, quartz, and other minerals. The country rock is prevailingly granitic, but it includes isolated masses of limestone which became mineralized soon after the magma that now forms the granitic rock was intruded into them. The metallic vapors then given off from this magma altered the limestones to masses of garnet-carrying subordinate scheelite, and these altered rocks are the tungsten deposits now under exploitation. The ore bodies that are now mined are from 20 to 60 feet wide and from 150 to 260 feet long. The ore carries from 1.5 to 2 per cent of tungsten trioxide. The area in which scheelite-bearing deposits have been found forms a belt about 20 miles long, but the prospecting now going on will doubtless extend the dimensions of the field.

These deposits, like those discovered in recent years in Humboldt County, Nev., are of the contact-metamorphic class, a well-known source of copper and iron but until lately not widely recognized as a possible source of tungsten.

The report, which is entitled "Tungste Deposits of Northwestern Inyo County, Cal.," by Adolph Knopf, is issued as Bulletin 640-L, and can be had free on application to the Director, U. S. Geological Survey, Washington, D. C.

THE SARSI STUDIOS.

The Sarsi Studios, formerly on Oak Street, San Francisco, is now located at 361-363 Golden Gate Avenue, where a most comprehensive and instructive display room and studio has been installed.

Here will be found examples of antique and modern mantels in Caen stone and artificial stone in endless variety as well as an endless display of garden furniture.

The various schools of design in mantels are displayed with appropriate setting, each mantel being in a room of its own. Here the architect and the owner can readily see the finished article as it will appear when fully installed.

The products of the Sarsi Studios will be found in many of the finer homes in California, and builders have found that a Sarsi Studio Mantel is a distinct asset for the home; often being the means of selling the home for those who build to sell.

Mr. Sarsi has devoted a life time to his art, having studied abroad in the finest schools of Europe. There at the feet of the Masters of the ages he has drawn his inspiration. His service, experience, advice and are are at the disposal of those who seek for the finest in these lines.

Examples of Mr. Sarsi's decorative experience, advice and art are at the homes and grounds of our finest residences, and restricted residence tracts. Work has just been completed on four lions which are to guard the approaches to the Modesto Bridge now nearing completion of which Leonard and Day were the engineers.

A visit to these studios is well worth the time of our architects and owners.

HIGHWAY CONSTRUCTION IN PERU.

The National Congress of Peru at its last session passed highway law having for its purpose the encouragement of road construction throughout the country. The new law distributes the cost of new construction between the local and the national governments and provides both for new revenues for this purpose and for the payment of a road tax either in money or in labor.

As a result of this legislation there has of late been apparent a great deal of activity both in Lima and in the Provinces. The need for well-paved highways connecting Lima with the suburbs and with the port of Callao is making itself felt more and more, and in his annual report for 1916 the prefect devotes considerable discussion to this project.

In January a road was completed which connects the city of Tarma, on the eastern slope of the central Andes, with the railway at Tilarnioc, near the junction of the Cerro de Pasco Railway with the Central Railway of Peru. To celebrate the opening of this highway an automobile procession was organized, and the first motor cars ever seen in these regions made the trip over the entire length of the new road in spite of the fact that the rainy season was on.

Tarma lies at the entrance to the Peruvian montana, that great undeveloped land in which the Amazon River system has its source. This territory produces some of the finest coffee in the world, is rich in timber, has great areas on which an excellent variety of agave grows wild, and can be made to produce many of the crops known to tropical and semitropical agriculture. It is expected that much of the timber needed in the mines will eventually come from this region, and that the opening of the road will effect a reduction in the prices heretofore paid for food supplies in the Peruvian highlands, where the great mining enterprises are all located. From Tarma to a point where the navigation of the Amazon is possible a well-graded trail is open, the trip on horseback requiring about 10 days and leading through one of the most interesting tropical regions open to the tourist.

Building Industries Association

A New Central Organization of Building Crafts Employers Formed.

At a mass meeting of employers engaged in the building industry in San Francisco and vicinity, held at the headquarters of the General Contractors' Association, 110 Jessie street, yesterday afternoon a new organization to be known as the "Building Industries Association of San Francisco" was formally launched.

Chas. M. Gompertz called the meeting to order, which was addressed by H. L. Stow, D. Zelinsky and A. H. Bergstrom.

The meeting was well attended and the plan of the new organization heartily endorsed.

Application blanks were rapidly signed up. A book of Constitution and By-Laws previously prepared was given everybody present.

Under the plan of the new organization the Board of Governors, of about 30, will manage the affiairs of the new association. This governing body is to be composed of delegates selected by the various crafts holding membership, provided that there be at least five members of the craft.—Each craft selects its own delegate.—One representative for each craft, no matter how large the craft may be—5 being the minimum number to entitle the craft to representation.

The objects of the Association and fees are hereby quoted from the By-Laws:

Section 1. The objects of this Association shall be to promote the organization of the entire building business into one efficient institution for the various purposes as hereinafter set forth and to maintain suitable quarters for the use of its members; to adjudicate by arbitration or otherwise all differences among members, or between members and their employees; to foster the interests of those engaged in the building industry; to promote just and equitable principles in the the conduct of their business; to discourage ruinous competition and to promote harmony and justice in their business relations; to advocate the public opening of bids; to discourage the peddling of bids; to bring about the adoption of a standard form of bid and contract; to encourage mutual trading among members of the different crafts belonging to the Association; to discourage unfair and restrictive combinations, and finally to make a membership in this Association a guarantee of honesty, fairness and reliability.

Fees and Dues.

Section 1. The admission fee to this Association shall be $10.00 for a period of 90 days from the date of incorporation and $25.00 thereafter.

Sec. 2. The monthly dues of each member of this Association shall be $2.50 per month payable in advance. Where a co-partnership exists consisting of two or more persons, a membership in this Association shall entitle two members of such a co-partnership to the privileges of the Association. Where a corporation exists, a membership in this Association shall entitle one official and one representative of such corporation to the privileges of the Association. Individuals, co-partnerships, and corporations desiring extra representatives shall pay the sum of $1.00 per month for each extra representative.

ADVANCE CONSTRUCTION NEWS.

Classified According to Character of Work.

APARTMENT HOUSES.

SAN FRANCISCO—Apartment house and stores, 1 story and base, reinforced concrete, $30,000. Architect, C. O. Clausen, Hearst Bldg., S. F. Owners, J. B. Nuttman and W. J. Dowling. Location, east Valencia north 14th, covering an area of 65 by 141 feet. Will contain three stores and a total of 30 apartments. Plans complete and work to be done by Day Labor.

FRESNO, FRESNO CO., CAL.—Apartment house, 2 story and base, brick, $50,000. Architects, Coates & Traver, Rowell Bldg., Fresno. Owners, Damir Bros. and Chicago Furniture Co. Location, west J street between Kern and Inyo, covering an area of 66 by 125 feet. Will contain a store on the first floor and a number of two-room apartments above. Plans are being prepared.

SAN FRANCISCO—Apartment house, 5 story and base. Class C construction, $70,000. Architect, Benj. G. McDougall, Sheldon Bldg., S. F. Owners, Nightengale Estate. Location, Haight and Webster streets, covering an area of 65 by 110 feet. This is the first unit of a group of apartment houses to be erected on Haight street costing about $500,000.

NORTH YAKIMA, WASH. — Apartment house, 3 story and base, brick, $60,000. Architects, Charles H. Bebb and Carl Gould, Denny Bldg., Seattle. Owner, H. L. Calahan. Will cover an area of 100 by 130 feet. Stores on first floor. Plans are being prepared.

EVERETT, WASH. — Apartment house, 5 story and base, reinforced concrete, $150,000. Architect, A. B. Pracba, Post-Intelligencer Bldg., Seattle, and Warren W. Hastings, Everett. Owner, W. P. Bell. Location, Wall and Wetmore streets, covering an area of 120 by 125 feet. Will contain both single rooms and apartments of two and three rooms. Plans are being prepared.

SEATTLE, WASH. — Apartment house, 4 story and base, brick, $70,000. Architect, Warren M. Miller, Haight Bldg., Seattle. Owners, P. D. Ehle & Sons. Location, Boylston and Olive avenues, covering an area of 68 by 100 feet. Plans are complete and figures being taken.

Contract Awarded.

LOS ANGELES, CAL. — Apartment house, 3 story and base, brick, $40,000. Architects, Tifal Bros., South Park avenue, L. A. Owner, Henry Heilman. Contractor, Tifal Bros., South Park avenue, L. A. Contract price, $40,000.

SEATTLE, WASH.—Apartment house, 6 story and base, brick, $100,000. Architect, W. P. White, Northern Bank Bldg., Seattle. Owners, Seneca Improvement Co. Contractor, Fred Hallett, Seattle. Contract price, $100,000.

SEATTLE, WASH. — Apartment house, 3 story and base, brick, $85,000. Architect, none. Owner, H. E. Hudson, 7619 Aurora avenue, Seattle. Contractors, Hudson Bros., 7619 Aurora avenue, Seattle. Contract price, $85,000.

BANKS

OXNARD, VENTURA CO., CAL.—Bank and offices, 2 story and base. Class A construction, $75,000. Architect, Albert C. Martin, Higgins Bldg., L. A. Owners, First National Bank. Location, A and 5th streets. Will contain the bank and offices. Plans are being prepared.

ORLAND, GLENN CO., CAL.—Bank addition, 1 story, brick. Cost not stated. Architect's name not given. Owners, Bank of Orland. Location, Fifth and Orland streets, covering an area of 60 by 35 feet. Plans are being prepared.

BONDS.

REDDING, SHASTA CO., CAL.—The Supervisors have approved of the formation of the Inwood district, which will construct several miles of road in Shasta County. Funds will be raised by a bond issue.

LOS ANGELES, CAL.—At the request of the Board of Library Commissioners, the City Council will call an election June 5, 1917, to vote on the question of issuing bonds in the sum of $3,000,000 for a new public library building to be erected at Fifth and Olive streets. The question of issuing bonds in the sum of $5,000,000 for the erection of new school buildings will probably be voted upon at the same time.

FLAGSTAFF, ARIZ.—Bids will be received up to April 16th by the Board of Trustees for the purchase of $60,000 in sewer bonds. C. M. Brooks is City Engineer.

RIO VISTA, SOLANO CO., CAL.—The Rio Vista grammar school bond election has been postponed. The election was to be held March 28th. A defect in the law governing the issuance of bonds in a district situated in two counties has held up the election.

SAN DIEGO, SAN DIEGO CO., CAL.—Bids are being received up to April 16th by the City Council for the purchase of the $682,200 Lower Otay bonds. The bonds were issued for the purpose of rebuilding the Lower Otay dam.

PITTSBURG, CONTRA COSTA CO., CAL.—The Town Board has decided to call an election to vote bonds of $55,000 for the improvement of Railroad avenue and for a new Town Hall.

VICTORVILLE, SAN BERNARDINO CO., CAL.—A new bond election has been called by the school board for April 14th to vote bonds in the sum of $15,000 for the erection of a grammar school building. The bonds carried at the previous election but the proceedings were illegal.

SANTA BARBARA, SANTA BARA CO., CAL.—A bond election for $85,000 will be called within a few days. The money will be used for sewer construction work.

SANTA BARBARA, SANTA BARBARA CO., CAL. — The School Board has asked that a high school bond election for $250,000 be called. Architect J. J. Donovan of Oakland is preparing the plans for a group of buildings. Definite details have not been determined, but the buildings will be of brick construction and exterior finish.

BRIDGES AND DAMS.

SANTA ROSA, SONOMA CO., CAL.—Bridge, steel and concrete. Cost not stated. Engineer, Chief Engineer, Northwestern Pacific Co., Phelan Bldg., S. F. Owners, Northwestern Pacific Railroad Co. Announcement is made here that the Northwestern Pacific Railroad will construct a new 600-foot bridge across the Russian River at Duncans Mill. The structure will be of the deck girder type. Steel is now on the site but construction will not be started for sometime. Bids will probably be called for on the concrete work and steel erection.

SANTA CRUZ, SANTA CRUZ CO., CAL.—River improvements. Cost not stated. Engineer, County Surveyor, Santa Cruz. Owners, Santa Cruz County. The Santa Cruz County Supervisors have passed a resolution declaring their intention to form a protection district for the improvement and rectification of the channels and streams and water courses for the prevention of the overflow thereof, by widening, deepening and straightening and otherwise improving the same. It is the intention of the Board of Supervisors to make the following improvement: That a dirt levee or embankment be constructed along and near the bank of the Salsipuedes Creek and the Pajaro River in the said district to restrain the flood waters and protect the land in said district and the city of Watsonville from overflow, and also that all necessary underground pipes and conduits be constructed in and through said levee or embankment to carry the surface flood water in said district through the said levee or embankment to the said Pajaro River. H. H. Miller is County Clerk and from whom further information may be had.

CHURCHES.

VISALIA, TULARE CO., CAL. — Church, 1 and 2 story and base, brick, $20,000. Architect, J. J. Rankin, Visalia. Owners, Congregational Church. Will contain main auditorium, Sunday school rooms and social hall. Plans are being prepared.

LOS ANGELES, CAL. — Church, 1 story and base, brick, $25,000. Architect, Albert C. Martin, Higgins Bldg., L. A. Owner, Roman Catholic Church. Location, West Washington near 7th avenue. Auditorium will seat 600 per-

ple Sunday school room and social hall. Plans are being prepared.

Contract Awarded.

MERCED, MERCED CO., CAL.—Church, 1 and 2 story and base, concrete and frame, $12,000. Architects, Shea & Lofquist, Parkers' Investment Bldg., S. F. Owners, La Merced de Dios Parish. Contractor, James L. McLaughlin, 211 Kearny street, S. F. Contract price, $19,500.

FACTORIES AND WAREHOUSES.

OAKLAND, CAL.—Factory, 1 story, brick, $12,000. Architect, F. D. Voorhees, Central Bank Bldg., Oakland. Owner, Jules Abrahamson. Location, east Broadway between 26th and 28th streets, covering an area of 50 by 200 feet. Plans are being prepared.

SELAM, FRESNO CO., CAL.—Cannery addition, 1 and 2 story, brick. Cost not stated. Architect, none. Owners, Libby, McNeil & Libby Co., S. F. About 40,000 square feet of floor space will be added, concrete floors laid, sewer connections installed, etc. About 50,000 square feet of roof will be necessary.

MANTECA, SAN JOAQUIN CO., CAL.—Cottages, etc. Cost as follows. Architect, Ralph P. Morrell, Odd Fellows' Bldg., Stockton. Owners, Spreckels Sugar Co. J. A. Plecarpo, care of the architect, presented one of the lowest bids at $20,505, and will be awarded the contract. Following is a complete list of the bids received: E. W. Book, $24,605; Lamont & McDonald, $25,877; J. F. Shepperd, $22,897; G. N. Haws, $23,975; V. Grey, $20,423; J. A. Plecarpo, $20,505; Dan Baysinger, $23,997; F. K. Cheek, $23,270.

SEATTLE, WASH.—Grain elevator addition, reinforced concrete, $90,000. Engineer, Port of Seattle Commission, Seattle. Owners, City of Seattle. Bids are being received by the Port of Seattle Commission for the construction of an addition to the public grain elevator which is estimated to cost $90,000. Bids close April 4th. Plans may be had from the Commission, Bell Street Dock, Seattle.

Contract Awarded.

SELAH, WASH.—Cold storage plant, 3 story and base, reinforced concrete, $50,000. Architect, J. C. Corbin, American Bank Bldg., Seattle. Owners, Selah Fruit and Cold Storage Co. Contractors, Scenic Construction Co., Downs Block, Seattle. Contract price, $50,000.

MT. VERNON, WASH.—Condensary, 1 and 2 story and base, hollow tile, $150,000. Engineer, P. W. Schubert, Railway Exchange Bldg., Seattle. Owners, Dominion Commercial Co. Contractors, Finne & Gjarde, Northern Bank Bldg., Seattle. Contract price, $150,000.

FRESNO, FRESNO CO., CAL.—Packing plant, 4 story and base, reinforced concrete, $200,000. Architect, Eugene Mathewson, Cory Bldg., Fresno. Owners, Universal Packing Co. Contractors, Trewhitt & Shields, Fresno. Contract price, $200,000.

EMERYVILLE, ALAMEDA CO., CAL.—Factory, 1 and 2 story, steel, brick and concrete, $80,000. Architect, Hiram K. Lovell, Monadnock Bldg., S. F. Owners, Air Reduction Co. Contractors, P. J. Walker Co., Monadnock Bldg., S. F. Contract price, $80,000.

FIRE HOUSES AND JAILS

SACRAMENTO, CAL. — Jail alterations, $2,167. Architect's name not given. Owners, Sacramento County, Siller Bros., 1614 13th street, Sacramento, presented the lowest bid for this work and will be awarded the contract.

RICHMOND, CONTRA COSTA CO., CAL.—Fire house, 1 story, brick, $5,000. Architect, James T. Narbett, 9th and Macdonald avenues, Richmond. Owners, City of Richmond. Location, Pullman Tract. Will contain apparatus room and living apartments. Plans are being prepared.

FRESNO, FRESNO CO., CAL.—Firehouse, 2 story and base. Class C construction, $15,000. Architects, Coates & Traver, Rowell Bldg., Fresno. Owners, City of Fresno. Location, Van Ness avenue near Mono, covering an area of 38 by 100 feet. Plans are complete and figures being taken.

FLATS.

SAN FRANCISCO—Flats, 2, 2 story and base, frame, $5.000 each. Architect, none. Owners, Johnson & Johnson, 844 14th street, S. F. Location, west 25th avenue north Clement. Each building will contain two flats of five rooms and bath. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Flats and store, 1 story, frame, $2500. Architect, G. A. Applegarth, Claus Spreckels Bldg., S. F. Owners C. S. and A. Morbio. Location, north Ocean avenue west Miramar. Will contain store and living rooms. Plans complete and figures being taken.

GARAGES.

SAN FRANCISCO—Garage and machine shop, 1 story and base. Class C, $10,000. Architects, Rousseau & Rousseau, 110 Sutter street, S. F. Owner's name withheld. Location, north Pine west Polk, covering an area of 25 by 120 feet. Plans are being prepared.

SAN FRANCISCO—Garage and machine shop, 1 story and base. Class C construction, $13,000. Architects, Rousseau & Rousseau, 110 Sutter street, S. F. Owner's name withheld. Location, south Pine east Polk, covering an area of 25 by 120 feet. Plans complete and figures being taken.

OAKLAND, CAL.—Garage, 2 story and base, brick, $8,000. Architects, Richardson & Burrell, Albany Bldg., Oakland. Owner, G. W. Burroughs. Location, Brook and Orchard streets. Plans are complete and owner is taking segregated figures.

The following bids were received March 19, by the chief of the bureau of yards and docks, Navy Department, Washington, D. C., for repairs and additions to the fender piling and dolphines at the coaling wharf, U. S. Naval Coal Depot, San Diego, Cal.:

Item 1, work complete; 2, deduct from item 1 for each linear foot of cable now in place to be used in new work; 3, deduct from item 1 for each pound of bolts, staples and strap bands now in place to be used in new work.

Holland Construction Co., 210 Granger Building, San Diego, Cal., item 1, $5,857, 90 days. 2, 14c per foot. 3, 5c per pound.

Spreckles Bros., Commercial Co., San Diego, Cal., item 1, $7,586, 50 days; 2, 10c; 3, 4c.

Chas. Steffgen, San Diego, Cal, item 1, $6,797, 60 days; 2, 15c; 3, 5.5c for bolts, 10c for staples, and 8c for strap bands.

Fred W. Steffgen, San Diego, Cal., item 1, $7,987, 70 days.

Mercereau Bridge and Construction Co., 471 Pacific Electric Co. Building, Los Angeles, Cal., item 1, $8,581.

Contract Awarded.

The following awards have been made by the quartermaster general for furnishing building material under opening of January 26, for Schofield Barracks, H. T.:

Item 1. Rough Douglas fir, $40,538,-53, Bloedel-Donovan Lumber Mills, Seattle, Wash.

2. Dressed Douglas fir, $69,278, do.

3. Rough redwood, $2,089, Redwood Mfg. Co., San Francisco, Cal.

4. Dressed redwood, $598, do.

5. Cedar shingles, $105,730, Bloedel-Donovan Lumber Mills, Seattle, Wash.

6. Portland cement, $144,265, Henry Cowell iLme and Cement Co., San Francisco, Cal.

7. Metal lath, 25.54c, General Fireproofing Co., Youngstown O., on No. 27 Ga. BB, herringbone.

8. Reinforcing steel, $40,760, Southern California Iron and Steel Co., San Francisco, Cal.

9. Galvanized sheets. U. S. Steel Products Co., New York City, $48,387.-91.

10. Iron work for trusses, $1,137, Pacific Rolling Mill Co.

11. Plumbing material, $18,092, Crane Co., San Francisco, Cal.

12. Painting material, $20,919.05, H. Hackfeld Co., San Francisco, Cal.

13. Roofing material, $6,490, Theo. H. Davis & Co., San Francisco, Cal.

14. Cold storage doors, $3,121, Ward Refrigerator and Mfg. Co., Los Angeles, Cal.

14. Cork board only, Armstrong Cork and Iron Co., Pittsburgh, Pa., $2.-145.

15. Terra Cotta chimney flues, $737.-72, Steiger Terra Cotta and Pottery Works, San Francisco, Cal.

16. Miscellaneous materials for all of item 16 except asbestos, escutcheon pins and tacks, $7,769.86, Holbrook, Merrill & Stetson, San Francisco Cal.

16. Asbestos sheets only, $92, H. W. Johns-Manville Co., New York City.

HALLS AND SOCIETY BUILDINGS.

Contract Awarded.

PASADENA, LOS ANGELES CO., CAL.—Lodge hall, 3 story and base, brick, $50,000. Architect, Cyril Ben- [illegible] price, $50,000.

HOSPITALS

[illegible] CAL.—Hospital addition, [illegible] Construction. $[illegible] Architects E. M. Cooper and W. [illegible] Los Angeles Stock Exchange Bldg., L. A. [illegible] Hospital Association. The addition will be in the form of a [illegible] [illegible] area of [illegible] by [illegible] feet. Plans are being prepared.

LOS ANGELES, CAL.—Hospital, 3 story, brick or hollow tile, $75,000. Architect E. H. Gentry, [illegible] Bldg. L. A. Owners, Independent Order of Foresters. Will be [illegible] for [illegible] building and two two-story wards. Plans are being prepared.

HOTELS.

SAN DIEGO, SAN DIEGO CO., CAL.—Hotel alterations and additions, 4 story and base. Class A construction. $70,000. Architect, Eugene M. Hoffman, Spreckels Bldg., San Diego. Owners, Becker Bros. Location, 1048 4th street. The new addition will contain 60 rooms and baths. Plans are being prepared.

IRRIGATION PROJECTS.

The Southern California Edison Company of Los Angeles has applied to the State Water Commission for permission to appropriate 600 cubic feet per second of the waters of the North Fork of the Kern River and of Salmon Creek in Tulare County for the generation of electric energy. The application sets forth that on September 6th, 1901, the California Power Company appropriated waters of Kern River for power purposes by posting notices of appropriation, and on January 27, 1902, appropriated waters of Salmon Creek by like method, as was the law at that time; that applicant has since become vested with all the rights acquired by the California Power Company. The application then specified the work done since the making of the original appropriations, the amount expended being given at $881,-704.05. The estimated cost of completing the project, exclusive of transmission line, is given as $4,118,295.45.

The name of the works is Kern River Plant No. 3, and the following is a partial description given in the application: Diversion dam 60 feet high, 240 feet long an top and 200 feet at bottom, the top of the dam being 13 feet above the ordinary water surface. The construction is to be of concrete with headgates in steel guides. The conduit is 13.4 miles long. Under the heading of "Canal System" the application states that for 1,000 feet there is an open canal with concrete sidewalls with appliances for drawing off the sand from the water. At the [illegible] end of the said [illegible] tunnel system commences running to the fore-bay, except in certain places where a reinforced concrete flume will be used. All tunnels are to be lined with concrete on bottom and sides. At 11.9 miles below dam, the tunnel crosses a gulch with a [illegible] feet in diameter. From the [illegible]

to the power house. The water will be conducted in two [illegible] penstocks 7 feet in diameter at upper end and 5 feet at lower end. It is proposed to develop the power by two hydraulic turbines, direct connected to alternating current electric generators with a total capacity of [illegible] K. W. The total fall to be utilized is 800 feet between the forebay and the tail race, and the amount of power to be developed is given as [illegible] theoretical horsepower. The power house is to be of concrete. The application states that the proposed plant is to supplement the present plant of the company to meet the increasing demand for light and power, and that asks until July 1, 1922 to complete construction.

The Cardiff Irrigation District of Cardiff, San Diego County: One cubic foot average flow of Escondido Creek at Olivenhain for domestic and irrigation use. The water proposed to be appropriated is to be obtained from three wells 8 inches in diameter and from 58 to 61 feet deep. To convey the water there is proposed 22,418 feet of 12-inch pipe and 3,619 feet of 8-inch pipe. The application states that the wells are already completed and the other work will be completed by January 1, 1918. The estimated cost is given as $84,200.

The Blevino-Mallou Ditch Co., of Colusa, has applied for permission to appropriate 160 cubic feet per second of the waters of the Sacramento River for the irrigation of 4500 acres of land in the country. The diversion as proposed is to be at the northeast corner of the Clara Packard ranch. The application specifies a pumping plant of three units consisting of one 36-inch and two 18-inch centrifugal pumps driven by motors. The average lift is 17 feet, and the water is to be discharged into a concrete basin at the head of the main canal, which is to be 12½ miles in length. The estimated cost is given as $80,000.

The city of Los Angeles has filed three more applications asking for permission to appropriate waters at three different points for the purpose of generating electric power for the general power project outlined by that city. There are several other applications before the Commission for the same municipal enterprise of the southern city. Fifty-six cubic feet per second is asked on Rock Creek, tributary to Owens River in Inyo County. The only data given on this application is that there is proposed a canal six miles long. It is to be known as the Rock Creek Project.

Permision is also asked to appropriate 10 cubic feet per second of the waters of Sawmill Creek, also tributary to the Owens River. This is to be known as the Sawmill and Division Creek Project. Nineteen cubic feet per second is asked from the waters of Baker Creek, tributary to the Owens River, to be known as the Baker Creek Project. The submission of complete data will be required before the applications can be acted upon by the Commission.

Jas. R. McGinty of Davis Creek, Modoc County, has filed an application for permission to appropriate 252 acre feet per annum of the waters of Mud Creek drainage area in that country for irrigation purposes. The proposed work consists of an earth dam 15 feet high and 119 feet long and a main ditch about 4 miles in length, for the irrigation of 139 acres.

MERCED, MERCED CO., CAL.—Irrigation system, $100,000. Engineer's name not given. Owners, Atwater Irrigation District. Shattuck & Edinger, Underwood Bldg., S. F., will start work shortly on the construction of irrigation systems in the Atwater and Livingston Districts. The contracts amount to about $100,000, and have been held in abeyance for several months. Legal technicalities have been cleared up by a court decision.

EL CENTRO, IMPERIAL CO., CAL.—Irrigation. Cost as follows. Engineer's name not given. The $10,000,000 irrigation project headed by Col. W. H. Holabird, F. H. Merrill, O. E. Freeman and W. B. Baker, all of Los Angeles, proposes to utilize 109,000 acre feet of Whitewater River and streams tributary to Baldwin Lake, for irrigating 20,000 acres in the Coachella Valley and 40,000 acres in the northwest section of the Imperial Valley, in addition to furnishing a domestic water suply to Imperial Valley. The plans comprise the construction of a cement-lined open conduit 165 miles in length. Power plants to develop 80,000 H. P. are to be located, one at the south end of Morongo Valley and the other at Palm Springs.

RAILROAD CONSTRUCTION AND EQUIPMENT

PORTERVILLE, TULARE CO., CAL.—Railroad construction. Cost not stated. Enginer's name not given. Definite announcements have been made that the Porterville Northeastern Railroad will extend its lines from north of the Abode Station to serve two granite quarries and a number of orange groves to the east of Porterville. In connection with these plans it is also stated that surveys are being made for building another spur to the base of Magnesite Hill to serve the many new mines in that section. Appropriations have been made by the higher officials, rights of way secured and surveys completed for the branch line to the granite properties, and work will be started as soon as the necessary materials can be assembled.

FRESNO, FRESNO CO., CAL.—Round house, 1 and 2 story, brick or concrete, $200,000. Architect, Engineering Department Southern Pacific Co., Flood Bldg., S. F. Owners, Southern Pacific Co. Only preliminary sketches have been made and further mention will be made of this work.

Contract Awarded.

VISALIA, TULARE CO., CAL.—Railroad extension. Cost not stated. Engineer's name not stated. Owners, Visalia Electric R. R. Co. Contractor, Mayor Oscar Ford, Riverside. Contract covers six miles of extension. Cost not stated.

RESIDENCES.

SAN FRANCISCO — Residence, 2 story, attic and base, brick and frame, $30,000. Architect, Frederick H. Meyer, Bankers' Investment Bldg., S. F. Owner, George D. Cooper. Location, north Pacific east Steiner. Will contain fourteen rooms, three baths and sleeping porches. Separate garage. Plans are being prepared.

SAN FRANCISCO—Residences, 2, 2 story and base, frame, $3,000 each. Architect, none. Owners, Anderson & Johnson, 47-A Landers street, S. F. Location, east 15th avenue south Balboa. Each house will contain six rooms, bath and basement garage. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Residence, 2 story and base, frame, $4,000. Architects, Koenig & Christiansen, Humboldt Bank Bldg., S. F. Owner, Margaret J. Koenig. Location, east 13th avenue north Cabrillo. Will contain seven rooms, bath and basement garage. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Residences, 3, 2 story and base, frame and brick veneer, $14,000 each. Architects, Falch & Knoll, Hearst Bldg., S. F. Owners, Theodore A. Rulfs Building Co. Location, St. Francis Wood. Each house will contain eleven rooms, three baths and social room in basement. Separate garages. Plans are being prepared. Segregated figures will be taken.

SAN FRANCISCO — Residence, 1½ story and base, frame, $2,500. Architect, none. Owner, John E. McCarthy, 1340 13th avenue, S. F. Location, east San Gabriel south Capistrano. Will contain six rooms, bath and basement garage. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Residence, 2 story and base, frame, $9,000. Architect, Louis Mastropasqua, 580 Washington street, S. F. Owner's name withheld. Location, Richmond District. Will contain eight rooms, two baths and basement garage. Plans are being prepared.

SAN FRANCISCO—Residence, 2 story and base frame, $3,000. Architect, Louis Mastropasqua, 580 Washington street, S. F. Owner's name not given. Location, east Carr south Parr. Will contain six rooms and bath. Plans complete and figures being taken.

BERKELEY, ALAMEDA CO., CAL.—Residence, 1 story and base, frame, $4,500. Architect, John Hudson Thomas, First National Bank Bldg., Berkeley. Owner, C. G. Gillespie. Location, Northbrae. Will contain seven rooms, two baths and sleeping porch. Separate garage. Plans are being prepared.

OAKLAND, CAL.—Residence, 1 story and base, frame, $2,000. Architect, none. Owner, P. S. Walsh, 495 Rich street, Oakland. Location, north Rich street west Webster. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residences, 6, 1 story and base, frame, $2,250 each. Architect, Noble Newsom, San Rafael and Contra Costa avenues. Owner, Noble Newsom, San Rafael and Contra Costa avenues, Oakland. Location, Thousand Oaks Park. Each house will contain six rooms and bath. Separate garage. Plans complete and segregated contracts being awarded.

OAKLAND, CAL.—Residence 1 story and base, frame, $2,500. Architect, none. Owner, J. S. Mendenhall, 5025 Ygnacio avenue Oakland. Location, east 50th avenue south Ygnacio avenue. Will contain five rooms, bath and sleeping porch. Plans complete

and work to be done by Day Labor

PIEDMONT, ALAMEDA CO., CAL.—Residence, 1½ story and base, frame, $3,000. Architect, none. Owner, C. M. Blabon, 3424 Channing Way, Berkeley. Location, 272 Wildewood avenue. Will contain five rooms, bath and sleeping porch. Separate garage. Plans complete and work to be done by Day Labor.

BERKELEY, ALAMEDA CO. CAL.—Fraternity house, 2 story and base, frame and brick, $30,000. Architects, F. Holberg Reimers and E. G. Bangs, Acheson Bldg., Berkeley. Owners, Sigma Nu. Location, Le Conte and Le Roy avenues. Will contain sixteen rooms and several baths. Plans are being prepared.

PIEDMONT, ALAMEDA CO., CAL.—Residence, 1 story and base, frame, $3,500. Architect, Chester H. Miller, First Savings Bank Bldg., Oakland. Owner, Mrs. Arthur Proctor. Location, Piedmont. Will contain seven rooms, bath and sleeping porch. Separate garage. Plans complete and work to be done by Day Labor.

OAKVILLE, NAPA CO., CAL.—Residence, 2 story and base, frame and concrete, $100,000. Architect, Charles Peter Weeks, Phelan Bldg., S. F. Owner's name not given. Will contain fourteen rooms, three baths and conservatory. Separate garage and other buildings. Plans are being prepared.

RICHMOND, CONTRA COSTA CO., CAL.—Residence, 2 story and base, frame, $5,000. Architect, John Hudson Thomas, First National Bank Bldg., Berkeley. Owner, J. F. Brooks. Will contain seven rooms, bath and sleeping porch. Separate garage. Plans are being revised.

BENICIA, SOLANO CO., Cal.—Residences, 12, 1 story and base, frame. Cost not stated. Architect, none. Owner, D. A. Fowler, Richmond. Location, north East H street between 5th and 6th avenue. Each house will contain three rooms, bath and sleeping porch. Plans are complete and work will be done by Day Labor.

SANTA ROSA, SONOMA CO., CAL.—Residence, 2 story and base, frame, $4,000. Architect, none. Owner, L. W. Spaulding Santa Rosa. Location, 1414 4th street. Will contain eight rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

FRESNO, FRESNO CO., CAL.—Residence, 2 story and base, frame, $2,000. Architect, none. Owner, G. A. Walley, 135 Diana street. Fresno. Location, Arlington Heights. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

SACRAMENTO, CAL.—Residence, 2 story and base, frame, $17,000. Architect, E. C. Hemmings, 1203 J street, Sacramento. Owner, Mrs. G. W. Mills. Location, Yardley avenue near M street. Will contain ten rooms, three baths and sleeping porch. Separate garage. Plans complete and figures being taken.

MENLO PARK, SANTA CLARA CO., CAL.—Residence, 2 story and base, frame, $10,000. Architect, Henry C. Smith, Humboldt Bank Bldg., S. F. Owner, Mrs. Morris. Will contain ten rooms and three baths. Separate garage. Plans complete and figures to be taken at once.

PASADENA, LOS ANGELES CO., CAL.—Residence, 3 story and base, hollaw tile, $200,000, Architect, Frederick L. Roehrig, American Bank Bldg., L. A. Owner, E. J. Marshall. Location, South Grand avenue. Will contain thirty rooms and eight baths. Several out buildings are included. Plans complete and figures being taken.

BEVERLY HILLS, LOS ANGELES CO., CAL.—Residence, 2 story and base, brick and frame. Cost not stated. Architect, Frank L. Meline, 6778 Hollywood avenue, L. A. Owner, Mr. Weir. Location, Lexington, avenue west Beverly Hills road. Will contain fifteen rooms, five baths and separate garage. Plans complete and work to be done by Day Labor.

LOS ANGELES, CAL.—Residence, 2 story and base, hollow tile. Cost not stated. Architect, Frank L. Meline, 6778 Hollywood avenue, L. A. Owner's name withheld. Location Windsor Boulevard. Will contain sixteen rooms and five baths. Separate garage and conservatory. Plans are being prepared.

OAK KNOLL, LOS ANGELES CO., CAL.—Residence, 2 story and base, frame and hollow tile. Cost not stated. Architect, G. Lawrence Stimson Co., 1211 Avoca street, Pasadena. Owner, H. R. Lyon. Location, Hillcrest avenue. Will contain fourteen rooms and three baths. Separate garage. Plans complete and work to be done by Day Labor

PORTLAND, ORE. — Residence, 3 story and base, reinforced concrete, $100,000. Architect, A. E. Doyle Worcester Bldg., Portland. Owner, F. J. Cobb. Location Portland Heights. Will contain twenty rooms, six baths and conservatory. Plans are complete and figures being taken.

SAN FRANCISCO—Residence, 2 story and base, frame, $8,000. Architects, Ward & Blohme, Alaska Commercial Bldg., S. F. Owner, Mrs. T. Regensburger. Location, Broderick street. Will contain eight rooms, two baths and sleeping porch. Separate garage. Plans complete and figures being taken.

SAN FRANCISCO—Residence, 1 story and base, frame, $5,000. Architects, Heiman & Schwartz, 212 Stockton street, S. F. Owner, Mr. Ash. Location, Claremont Court. Will contain six rooms, bath and basement garage. Plans complete and figugres being taken.

SAN FRANCISCO—Residence, 2 story and base, frame, $3,000. Architect, none. Owners, Oscar Heyman & Bro., 749 Market street, S. F. Location, west 6th avenue south Geary. Will contain six rooms and bath. Basement garage. Plans complete and work to be done by Day Labor.

OAKLAND, CAL.—Residences, 6, 1 story and base, frame, $2,000 each. Architect, none. Owner, R. K. Larsen, 1415 27th avenue, Oakland. Location, east 27th avenue north East 14th St. Each house will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

ALAMEDA, ALAMEDA CO., CAL.—Residence, 2 story and base, frame. Cost not stated. Architect, Charles E. J. Rogers, Phelan Bldg., S. F. Owner, John Larson. Location, 1132 Broadway. Will contain seven rooms, bath [illegible] sleeping porch Separate garage [illegible] complete and work to be done by Day Labor

[illegible]LAND, CAL.—Residence, 2 story and base, frame, $[illegible],000. Architect, [illegible] Owner, E. L. Higgins, 4750 Miles [illegible] Oakland. Location east Wa[illegible] north Lake Shore. Will contain seven rooms, bath and sleeping porch Separate garage. Plans complete and work to be done by Day Labor.

RICHMOND, CONTRA COSTA CO., CAL.—Residence, 1 story and base, frame, $1,600. Architect, none. Owner, W. H. Conn, 152 South 5th street, Richmond. Location, 19th street near Virginia. Will contain four rooms and bath. Plans complete and work to be done by Day Labor.

RICHMOND, CONTRA COSTA CO., CAL.—Residence, 1 story and base, frame, $1,600. Architect, none. Owner, W. E. Anderson, 441 13th street, Richmond. Location, Barrett avenue near 6th street. Will contain five rooms and bath. Plans complete and work to be done by Day Labor.

RICHMOND, CONTRA COSTA CO., CAL.—Residence, 2 story and base, frame. Cost not stated. Architect, J. B. Ogborn, 821 Bissell street, Richmond. Owner, H. W. Clear. Location, 17th street south Macdonald. Will contain seven rooms, bath and sleeping porch. Plans complete and figures being taken.

RICHMOND, CONTRA COSTA CO., CAL.—Residence, 2 story and base, frame, $5,000. Architect, J. B. Ogborn, 821 Bissell street, Richmond. Owner, L. D. Spencer. Location, Burg Tract. Will contain seven rooms, bath and sleeping porch. Separate garage. Plans complete and figures being taken.

FRESNO, FRESNO CO., CAL.—Residence, 2 story and base, frame, $16,000. Architect, Henry F. Starbuck, Rowell Bldg., Fresno. Owner, Wylie M. Giffen. Will contain twelve rooms, three baths and sleeping porch. Separate garage. Plans are complete and construction has been started.

FRESNO, FRESNO CO., CAL.—Residence, 2 story and base frame, $4,000. Architect, none. Owner, K. C. Buwaldo, 901 Mono street, Fresno. Location, Iowa Addition. Will contain seven rooms, bath and sleeping porch. Separate garage. Plans complete and work to be done by Day Labor.

SACRAMENTO, CAL.—Residence, 1 story and base, frame, $2,000. Architect, none. Owner, W. P. Wright, 4818 48th street, Sacramento. Location, 4818 48th street. Will contain four rooms and bath. Plans complete and work to be done by Day Labor.

Contract Awarded.

REDWOOD CITY, SAN MATEO CO., CAL.—Residence, 2 story and base, frame, $7,785. Architect's name not given. Owner, Henry Martens. Contractor, Ludwig B. G. Koenig, 3525 19th street, S. F. Contract price, $7,785.

SCHOOLS.

RICHMOND, CONTRA COSTA CO., CAL.—School alterations, $2,500. Architect, James T. Narbett, 9th and Macdonald avenue, Richmond. Owners, [illegible] Richmond. This work will consist of building new sanitary building and alterations to the present plumbing. Plans are being prepared.

SUTTER CITY, SUTTER CO., CAL.—School addition, 1 story, frame, $9,000. Architect, Chester Cole, Waterland Bldg., Chico. Owners, Sutter Union High School. The building will be used as a gymnasium and auditorium. Plans are complete and figures will be called for shortly.

The Sarsi Studios

359-361-363 GOLDEN GATE AVE., S. F. Phone Market 2970

A Conservatory Erected By Us In One Of The Mansions In Alameda County.

The Sarsi Studios, formerly on Oak Street, San Francisco, is now located at 361-363 Golden Gate Avenue, where a most comprehensive and instructive display room and studio has been installed.

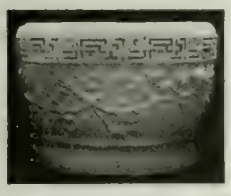
Here will be found exampies of antique and modern mantels in caen stone and artificial stone in endless variety as well as an endless display of garden furniture.

The various schools of design in mantels are displayed with appropriate setting, each mantel being in a room of its own. Here the Architect and the Owner can readily see the finished article as it will appear when fully installed.

The products of the Sarsi Studios will be found in many of the finer homes in California, and Builders have found that a Sarsi Studio Mantel is a distinct asset for the home; often being the means of selling the home for those who build to sell.

Mr. Sarsi has devoted a life time to his art, having studied abroad in the finest schools of Europe. There at the feet of the Masters of the ages he has drawn his inspiration. His service, experience, advice and art are at the disposal of those who seek for the finest in these lines.

Examples of Mr. Sarsis' decorative products will be found in most of the homes and grounds of our finest residences, and restricted residence tracts. Work has just been completed on four lions which are to guard the approaches to the Modesto Bridge now nearing completion of which Leonard and Day were the Engineers.



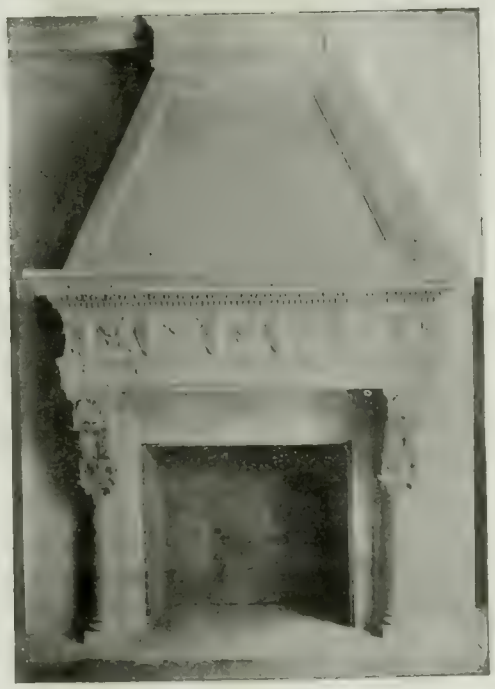
A visit to these studios is well worth the time of our Architects and Owners. The illustrations on these pages, give but a hint of what may be seen at Mr. Sarsi's Studios.

A Decorative Panel.

Garden and Hall Bench.

The Olive Leaf Pot.

Bench in Pompeian Stone



Bird Bath.

SAN JOSE AND THE SANTA CLARA VALLEY.

RESIDENCE — 2 story and base, frame, $10,000. Menlo Park, Santa Clara Co. Cal. Architect, Henry C. Smith, Humboldt Bank Bldg., S. F. Owner, Mrs. Morris. Will contain ten rooms and three baths. Separate garage. Plans complete and figures to be taken at once.

SEPTIC TANK, ETC.—Cost not stated. Redwood City, San Mateo Co., Cal. Engineer, County Surveyor, Redwood City. Owners, San Mateo County. Plans prepared by the County Engineer for the construction of a septic tank to take care of the sewage at the county farm and hospital were approved by the Supervisors at their last

meeting and the Clerk was instructed to call for bids. Further information may be had from the County Clerk.

RIVER IMPROVEMENTS—Cost not stated. Santa Cruz, Santa Cruz Co., Cal. Engineer, County Surveyor, Santa Cruz. Owners, Santa Cruz County. The Santa Cruz County Supervisors have passed a resolution declaring their intention to form a protection district for the improvement and rectification of the channels and streams and water courses for the prevention of the overflow thereof by widening, deepening and straightening and otherwise improving the same. It is the intention of the Board of Supervisors to make the following improvement: That a dirt levee or embankment be constructed along and near the bank of the Salsipuedes Creek and the Pajaro River in the said district to restrain the flood waters and protect the lands in said district and the city of Watsonville from overflow, and also that all necessary underground pipes and conduits be constructed in and through said levee or embankment to carry the surface flood water in said district through the said levee or embankment to the said Pajaro River. H. H. Miller is County Clerk and from whom further information may be had.

SEPTIC TANK, ETC.—Cost not stated. Redwood City, San Mateo Co., Cal. Engineer, County Surveyor, Redwood City. Owners, San Mateo County. Bids will be received until April 16th at 10 a. m. for the construction of a sewage disposal works, consistinng of a septic tank, sub-surface drainage system, etc., on the County Hospital property.

NOTICE OF NON-LIABILITY

FRESNO COUNTY.

Mar. 24, 1917—NW ¼ OF SW¼ SEC 32, 20-15, Fresno. Emil Kreyenhagen et al as to improvements on leased property .....

SACRAMENTO, STOCKTON AND NORTHERN CALIFORNIA.

RESIDENCE — 2 story and base, frame, $17,000. Sacramento, Cal. Architect, E. C. Hemmings, 1203 J street Sacramento. Owner, Mrs. G. W. Mills. Location, Yardley avenue near M St. Will contain ten rooms, three baths and sleeping porch. Separate garage. Plans complete and figures being taken.

STREET IMPROVEMENTS—Cost not stated. Eureka, Humboldt Co., Cal. Engineer, City Engineer, Eureka. Owners, City of Eureka. Bids will be opened on April 6th at 5 p. m. for street improvements authorized under the following resolution: That all of Buhme street, from Fairfield to O street, be graded; and that all of Garland street, from Buhne street to the north terminus of Garland street be graded.

STREET IMPROVEMENT—Cost not stated. Stockton, San Joaquin Co., Cal. Engineer, City Engineer, Stockton. Owners, City of Stockton. The City Council has adopted plans and specifications prepared by the City Engineer for the improvement of West street between Acacia and Vernal Way.

STREET IMPROVEMENTS—Cost not stated. Stockton, San Joaquin Co., Cal. Engineer County Surveyor, Stockton. Owners, San Joaquin County. The County Engineer has completed a survey of the principal street in Escalon and will at once start plans for the paving of that thoroughfare. The work will be paid for by the county.

HIGHWAY IMPROVEMENT—Cost not stated. Sacramento, Cal. Engineer, County Surveyor Sacramento. Owners, Sacramento County. No bids were received by the County Supervisors for the Winding Way road in Fairoaks and the Board has instructed County Surveyor Drury Butler and Supervisor John Russi to construct the road.

STREET IMPROVEMENTS—Cost as follows. Stockton San Joaquin Co., Cal. Engineer, City Engineer, Stockton. Owners, City of Stockton. The City Council has rejected all bids received for the improvement of streets in North Stockton, known as the McCloud Addition. Ehrhart & Greely of San Francisco were the low bidders for the work at $39,962.89. New bids for the work have been ordered received up to April 6th. Plans may be had from the City Clerk.

RESIDENCE — 1 story and base, frame, $2,000. Sacramento, Cal. Architect, none. Owner, W. P. Wright, 4818 48th street, Sacramento, Cal. Location, 4818 48th street. Will contain four rooms and bath. Plans complete and work to be done by Day Labor.

STREET PAVING—Cost as follows. Stockton, San Joaquin Co., Cal. Engineer, City Engineer, Stockton. Owners, City of Stockton. Within a few days the City Council will decide upon the material which will be used in the pavings of streets in South Stockton. The work will involve $300,000 or more. When bids are called, the work will be let under two contracts, according to reports.

STREET PAVING—Cost not stated. Stockton, San Joaquin Co., Cal. Engineer City Engineer, Stockton. Owners, City of Stockton. Supervisor Coates and County Surveyor F. E. Quail at a recent meeting with the City Council at Stockton decided that South street between Pilgrim and East streets, border streets of the city should be improved and plans for the work were ordered prepared. The expense will be borne by the county and city officials.

STREET IMPROVEMENTS — Cost not stated. Stockton, San Joaquin Co., Cal. Engineer, City Engineer, Stockton. Owners, City of Stockton. Bids will be opened on April 6th for street improvements authorized under the following resolution: That certain portions of West street be improved by grading; combined concrete curb gutters; concrete sidewalks 5 feet wide and 4 inches thick; paving the roadway with asphalt concrete 4 inches thick after rolling on a base of gravel of a cement nature 2 inches thick after rolling.

STREET IMPROVEMENTS—Cost as follows. Marysville, Yuba Co., Cal. Engineer, City Engineer, Marysville. Owners, City of Marysville. The Federal Construction Co., 323 Sharon Bldg., S. F., has been awarded a contract for paving in street districts 4 and 5. Their bids were 13.4 and 13.7 cents per square foot, respectively.

BANK ADDITION—1 story, brick. Cost not stated. Orland, Glenn Co., Cal. Architect's name not given. Owners, Bank of Orland. Location, Fifth and Orland streets, covering an area of 60 by 35 feet. Plans are being prepared.

JAIL ALTERATIONS $2,[illegible] Sacramento, Cal. Architect's name not given. Owners, Sacramento County. Siller Bros., 1614 13th street Sacramento, presented the lowest bid for this work and will be awarded the contract.

COTTAGES, ETC.- Cost as follows: Manteca, San Joaquin Co., Cal. Architect, Ralph P. Morrell, Odd Fellows' Bldg., Stockton. Owners, Spreckels Sugar Co. J. A. Plecarpo, care of the architect, presented one of the lowest bids at $20,505 and will be awarded the contract. Following is a complete list of the bids received: E. W. Book, $21,605; Lamont & McDonald, $25,377; J. F. Shepperd $22,997; G. N. Haws, $23,975; V. Grey, $20,123; J. A. Plecarpo, $20,505; Dan Baysinger, $23,997; F. K. Check, $23,270.

SCHOOL ADDITION—1 story, frame, $9,000. Sutter City, Sutter Co., Cal. Architect, Chester Cile, Waterland Bldg., Chico. Owners, Sutter Union High School. The building will be used for a gymnasium and auditorium. Plans are complete and figures will be called for shortly.

SCHOOL—1 story, frame. Cost not stated. Larkin School District, Glenn Co., Cal. Architect, W. H. Weeks, 75 Post street, S. F. Owners, Larkin School District. Will contain four class rooms and an assembly hall. Plans complete and bids to be opened on April 10th.

SCHOOL—2 story and base, brick and hollow tile, $80,000. Oroville, Butte Co., Cal. Architects, N. W. Sexton & Co., Merchants' National Bank Bldg., S. F. Owners, Oroville Union High School. Will contain 18 class rooms and auditorium. Preliminary plans are being prepared.

STORE—1 story and base, brick, $3,000. Sacramento, Cal. Architect, none. Owner, A. W. Morris. Location, 1615 21st street, covering an area of 25 by 60 feet. Plans complete and work to be done by Day Labor.

Metz, Auditor, at Colfax, up to April 16th for the grading and graveling of Permanent Highway No. 12, between La Crosse and Dusty. Plans may be had from County Engineer J. M. McCaw at Colfax.

APARTMENT HOUSE—4 story and base, brick, $70,000. Seattle, Wash. Architect, Warren M. Miller, Haight Bldg., Seattle. Owners, P. D. Ehle and Sons. Location, Boylston and Olive avenues, covering an area of 68 by 100 feet. Plans are complete and figures being taken.

APARTMENT HOUSE—5 story and base, reinforced concrete, $150,000. Everett, Wash. Architect, A. B. Pracba, Post-Intelligencer Bldg., Seattle, and Warren W. Hastings, Everett. Owner, W. P. Bell. Location, Wall and Wetmore streets, covering an area of 120 by 125 feet. Will contain both single rooms and apartments of two and three rooms. Plans are being prepared.

APARTMENT HOUSE—3 story and base, brick, $60,000. North Yakima, Wash. Architects, Charles H. Bebb and Carl Gould, Denny Bldg., Seattle. Owner H. L. Calahan. Will cover an area of 100 by 130 feet. Stores on first floor. Plans are being prepared.

COLD STORAGE PLANT—3 story and base, reinforced concrete, $50,000. Selah, Wash. Architect, J. C. Corbin, American Bank Bldg., Seattle. Owners, Selah Fruit and Cold Storage Co. Contractors, Secnic Construction Co., Downs Block, Seattle. Contract price, $50,000.

GRAIN ELEVATOR ADDITION—Reinforced concrete, $90,000. Seattle, Wash. Engineer, Port of Seattle Commission, Seattle. Owners, City of Seattle. Bids are being received by the Port of Seattle Commission for the construction of an addition to the public grain elevator which is estimated to cost $90,000. Bids close April 4th. Plans may be had from the Commission, Bell Street Dock, Seattle.

SCHOOL—1 story, brick, $35,000. Seattle, Wash. Architect, Edgar Blair, Central Bldg., Seattle. Owners, City of Seattle. Location, Fauntleroy School District. Will contain six rooms and an assembly hall. Plans are complete and figures being taken.

SCHOOL—2 story and base, brick and tile, $50,000. Aberdeen, Wash. Architect, C. E. Troutmann, Aberdeen. Owners, School District No. 5. Besides the usual class rooms and auditorium, the building will contain departments for manual training and domestic science. Plans complete and bids to be opened on April 28th.

SCHOOL—3 story and base, brick, $90,000. Seattle, Wash. Architect, Edgar Blair, Central Bldg., Seattle. Owners, City of Seattle. Location, Latoma School District. Will cover an

area of 14 by 200 feet. Plans are complete and bids will be called for shortly.

Contract Awarded.

APARTMENT HOUSE 5 story and base brick, $100,000. Seattle, Wash. Architect, W. P. White, Northern Bank Bldg., Seattle. Owners, Seneca Improvement Co. Contractor, Fred Hallett, Seattle. Contract price, $100,000.

APARTMENT HOUSE 3 story and base, brick, $85,000. Seattle, Wash. Architect, none. Owner, H. E. Hudson, 7619 Aurora avenue, Seattle. Contractors, Hudson Bros., 7619 Aurora avenue, Seattle. Contract price, $85,000.

CONDENSARY 1 and 2 story and base, hollow tile, $150,000. Mt. Vernon, Wash. Engineer, P. W. Schubert, Railway Exchange Bldg., Seattle. Owners, Dominion Commercial Co. Contractors, Fine & Gjarde, Northern Bank Bldg., Seattle. Contract price, $150,000.

WHAT IS A FLAT?

A flat is a place with no room for expansion, intellectual or chest.

It requires thin furniture and a narrow wife. The rooms are so small you have to walk sideways when you wear your winter clothing. And it's no place for a man with a stomach if you won't want the walls to bulge.

Newly initiated flat dwellers have to be carefully trained so they won't walk out in the back yard and fall off the fire escape.

When the fellow who said any old place he could hang his hat was home, sweet home to him went to live in a flat he kept his hat on and hung himself instead.

Life isn't much without a front porch and a back yard anyhow.

ALCOHOL NOT A STIMULANT.

"The tradition that alcohol was a stimulant and tonic and possessed some power to give new force and vigor to the cells and functional activity is a thing of the past. Studies of exact science in the laboratory show that alcohol is a depressant, anesthetic and narcotic; also that its first effects on the sensory centers are to diminish their acuteness and pervert their activity. In this way they delude the victim with a consciousness of vigor and strength that is contradicted when tested by instruments. The first effect of alcohol, increasing the heart's action and sending the blood to the brain with greater velocity, is simply irritation, preceding the anesthesia and diminution of power, which follows. The patient is deceived. His consciousness of mental clearness and strength is unverifiable, and yet he does not know it."—Dr. T. D. Crothers, Walnut Lodge Hospital.

TO AID ALASKA'S INDUSTRIES.

WASHINGTON, March 30.—With the object of quickening the industrial development of Alaska that is expected to follow the building of the Government railway there, the Interior Department, through its Bureau of Mines, has recently made a number of tests as to the quality of the mineral resources there with encouraging results.

A quantity of lignite, a type of low-grade coal that does not stand transportation because of its tendency to dry up and blow away, was shipped in water-tight sacks to the bureau from the Nenana field with the purpose of finding out whether or not it could be manufactured into briquets and made available for shipment.

According to a report made to Van H. Manning, Director of the Bureau of Mines, this lignite was not only briquetted successfully, but it was found to contain in this form nearly double the heating and steaming value of the original lignite.

"The bureau's experts also found," said Mr. Manning, "that these briquets have between 80 to 90 per cent the heating and steaming value of our highest grade bituminous coals. Where the price of coal is high and the difficulties and cost of transportation considerable, as in Alaska, it seems to me, from the results obtained, the briquetting of this coal deserves very careful and favorable consideration. In the making of these briquets, the gas has been extracted. If this gas could be used at the briquet plant, there would still be further economic advantage. The report indicates the possibilities in the development of the Nenana coal fields through the use of the briquets on the Government railway, for the steamboat trade and for power at the mines of Central Alaska.

"With the same object in view, the development fo Alaska industrially, the bureau recently analyzed a quantity of Alaska crude petroleum and found it to be a high grade, refinable product, containing over 30 per cent gasoline, considerable quantities of wax and lubricants and only a moderately small percentage of asphalt. The oil sampled was one of the most valuable crudes the bureau has received from any field except the Appalachian."

HOME LEAGUERS VOICE PATRIOTISM.

There was a sudden outburst of patriotism at the Home Industry League luncheon in the Palace Hotel Thursday noon. While no demonstration had been planned, and no flags of any kind were in evidence, the unusually large gathering rose to their feet instantly and almost drowned the voice of Prima Donna Aldrich when she started to sing, as on encore, "The Star Spangled Banner." Madame Aldrich had been singing old-fashioned ballads for the lunchers between the speeches.

California Bankers too Conservative.

Miner Chipman, the efficiency expert of Boston, told the factory-owners some straight truths. He insisted that California industries would never come into their own until the banks and trust companies doing business in California woke up to the need of their "financing" california enterprises, instead of compelling California business men to go East for money when they needed to enlarge their plants.

League to Sue City.

Mr. A. C. Rulofson, chairman of the executive committee, announced that the League's special attorney, John L. McNab, has rendered an opinion to the effect that the city's charter was violated when the Board of Supervisors awarded the contract for five city [illegible] to an Eastern firm when the California firm had submitted lower bids and filed regular bonds for fulfillment of contract. As a result the League will immediately begin injunction proceedings against the city to prevent its paying out the money for the Eastern concern's trucks when they arrive for delivery to the city engineer.

To Back Ad Club's Ball.

The League voted to co-operate with the San Francisco Ad Club in pulling off the big Ad Masque at the Civic Auditorium to raise funds for bringing to San Francisco the 1918 convention of the Associated Ad Clubs of the World.

STATE WATER COMMISSION.

Applications have been made to the State Water Commission for permission to appropriate water as follows:

The Plumas Grass Valley Mines Company, of San Francisco—2 cubic feet per second of the waters of the South Fork of the Feather River in Plumas county for the development of power to be used in mining. The total fall to be utilized is given as 250 feet, and it is proposed to develop 50 theoretical H. P. A ditch and pipe line 4000 feet in length are proposed to carry the water from the point of diversion to the place of use and the estimated cost is given at $4000.

C. Howard Merritt of Oakland—3 cubic feet per second of the waters of Loco Creek in Inyo county for irrigation purposes. Applicant proposes as part of his works a dam 49 feet high, 200 feet long on top and 10 feet at bottom of earth construction with concrete core and a ditch approximately one and one-half miles long. The application sets forth that the plan of applicant is to collect the water in the creek during the night for use in the day when the flow is low. It is intended to irrigate 80 acres.

R. E. Steele, incorporated, of Swanton and Pescadero—5 cubic feet per second of the waters of Green Oaks Creek in Santa Cruz county for the irrigation of 400 acres of land. The proposed works consist of a timber cribbing and earth dam 10 feet high, 40 feet long on top and 10 feet at bottom and a flume a mile long. The estimated cost is $2500.

H. G. Cannon of Sweetwater, Mineral county, Nevada—5 cubic feet per second of the waters of Green and Ferris Creeks, tributary to West Walker river in Mono county for mining purposes. The proposed diversions are to be made by means of two rock or concrete dams and two conduits, each two miles in length.

CONSTRUCTION WORK ABROAD

PANAMA.

Proposed Railroad in Consular District of Colon.

It is announced that an American citizen long resident in Panama has obtained a concession to build a narrow-gauge railroad from the old town of Chagres on the Chagres River, [illegible] 10 miles west of Colon to the new town of Almirante in the Province of Bocas del Toro, from which the United Fruit Co. makes large [illegible]

RATES REASONABLE

ments of bananas to the United States. The projected line, which is to be called the Chagres-Almirante Railroad, will run through the western half of the Province of Colon, the northern part of Veraguas, the northeastern part of Chiriqui, and the eastern half of Bocas del Toro. For the entire distance, estimated at 175 miles it will be in the consular district of Colon. For almost the whole distance the proposed road would pass through virgin territory, where there is much fertile land, a good deal of valuable hard timber, and probably valuable mineral deposits. The building of this road would certainly hasten the settlement of the country contiguous to it, which at present lacks any sort of roads and suffers the further disadvantage of having no good harbors between Colon and the town of Bocas del Toro, near Almirante, the only one worth mentioning, having only 14 feet of water. The profitable operation of the proposed line will depend upon the settlement and development of the country through which it is to run.

Estimated Cost of Railroad.

As this road would cross many rivers and run through hilly country for a considerable part of the way it will be rather expensive to build. The estimated cost of $6,000,000 to $7,000,000 is high for 175 miles of narrow-gauge railway. Only preliminary surveys of a part of the way have as yet been made and it is announced that it is expected that the complete plans may be ready to be made public within six months. It is also announced that an effort will be made to obtain a concession to extend the line from Chagres to the city of Colon. If the whole scheme can be carried into effect as proposed—within three years—the new road will be of great advantage to the city of Colon and the country through which it would pass and thus benefit the Republic of Panama.

[The name of the concessionaire can be obtained at the Bureau of Foreign and Domestic Commerce, Customhouse, San Francisco. Refer to file No. 85439.]

Street-Paving Work in Lima.

The annual report of the alcalde of Lima shows that during 1916 7,194 square meters (8,600 square yards) of street pavement were completed at a total expense of Lp. 5,374 ($26,150). The material used for this pavement was quartzite rock cut into Belgian blocks about 12 by 5 by 6 inches, laid on a sand foundation with a curb of rocks similar to that from which the Belgian blocks have been cut. The alcalde states that Belgian blocks, properly laid, have been found most satisfactory for Lima streets, in which the traffic is heavy; that asphalt blocks have proved both expensive and unsatisfactory; and that asphalt pavement or bituminous concrete will no doubt prove to be the surface best adapted to conditions in Lima. He also points out that creosoted wooden blocks have been used in repairing the streets formerly paved with asphalt block and that the wooden blocks are very satisfactory, though expensive. Commenting on this subject the alcalde says:

It is indispensable that the city undertake at once the paving of the Plaza de Armas and of Union Street. This can be done only by importing adequate machinery at a cost of Lp. 4,000 to Lp. 5,000 [between $20,000 and $25,000]; or as would be preferable, by awarding a contract for the paving of not less than 20,000 square meters [approximately 24,000 square yards], which would make it possible for the contractor to undertake the importation of the machinery required. If Congress approves the bill providing for the sanitation of Lima, which the board has submitted to it, the municipality will be able to provide all the funds required for the carrying out of such a project. Anticipating the favorable action of Congress, we have requested reports and other data on street pavement from the mayor of New York and of other cities, and have asked the Peruvian consul in New York and the commercial attache of the United States in Lima to cooperate with us in this matter.

Firms interested in the contract for paving of Lima streets should enter into communication at once with Dr. Luis Miro-Quesada, alcalde municipal, Lima, Peru; correspondence may be in English. The American commercial attache Wm. F. Montavon at Lima requests that persons interested in this projects forward their literature to his office for reference.

Consul General Alban G. Snyder, of Panama City, Panama, has transmitted a translation of the law authorizing the construction of railroads and highways in the Republic reference to which was made in Commerce Reports for January 29. This translation can be examined at the Bureau of Foreign and Domestic Commerce, Customhouse, San Francisco by referring to file No. 85767.

BUILDERS' EXCHANGE ELECTS OFFICERS.

The newly elected Board of Directors of the Builders' Exchange of San Francisco, held their first meeting yesterday at the Exchange headquarters, 180 Jessie Street, and re-elected the former officers as follows:

President, Harry Maundrell.
Vice President, E. J. Brandon.
Treasurer, C. W. Withington.
Secretary, R. J. H. Forbes.
Financial Secretary, S. A. D. Schenek.
Ass't. Secretary, Vaughn Mauck.
Door Keeper, Henry Thomas.

The Treasurer's report showed the Exchange to be in a very flourishing condition, there bing a balance in the treasury of $65,000. Many new applications for membership were received and others elected.

UNITED STATES CIVIL SERVICE EXAMINATION.

MECHANICAL DRAFTSMAN (MALE).

DEPARTMENT OF ORDNANCE, NAVY DEPARTMENT.

April 10, 1917.

The United States Civil Service Commission announces an open competitive examination for mechanical draftsman, for men only. Two vacancies at the Naval Torpedo Station Newport, R. I., one at $4.24 and the other at $3.52 per diem, and future vacancies requiring similar qualifications at any navy yard or other naval establishment of the United States or in the Navy Department at Washington, D. C., at salaries ranging from $3.52 to $6 per diem, will be filled from this examination, unless it is found in the interest of the service to fill any vacancy by reinstatement, transfer, or promotion.

This examination is open to all male citizens of the United States who meet the requirements.

Applicants should at once apply for Form 1312, stating the title of the examination desired, to the Civil Service Commission, Washington, D. C.; or the secretary of the United States Civil Service Board, Post Office, San Francisco.

GIFTS OF HALF A MILLION YEAR'S RECORD AT UNIVERSITY.

That gifts or bequests of more than half a million dollars have come to the University of California during the year ending March 23, 1917, was announced recently by President Benj. Ide Wheeler in the statement of gifts to the University made public, according to long-standing custom, at the yearly Charter Day Exercises in the Greek Theatre.

Announcement was made for the first time that a group of friends of the University have provided funds for the continuance for another five years of the D. O. Mills Expedition to the Southern Hemisphere, from the Lick Observatory, for study of the stars of the southern skies. Subscriptions of one thousand dollars a year each have been made to this fund, for five years, by Mr. Ogden Mills, Regent William H. Crocker, F. W. Bradley, A. B. Spreckels, and Mrs. William H. Crocker, and one thousand dollars each for 1917-18 by W. B. Bourn and Gordon Blanding.

It was announced also that Mrs. Timothy Guy Phelps has bequeathed a fund of $35,000, the income to be used for the purchase of scientific books for the Lick Observatory.

Among other gifts of the past year reported by President Wheeler were:

By the late George Holmes Howison, formerly Mills Professor of Philosophy, and Mrs. Howison, $70,000 to endow the Howison Foundation, for a graduate fellowship in philosophy, and the Anne Sampson Scholarships in English for women, the Lois Caswell Fund, for aid to deserving women students, and aid to the Infirmary and to the Department of Philosophy:

By the late Mrs. Elizabeth Josselyn Boalt, approximately $200,000 to endow instruction in the School of Jurisprudence, in memory of Judge John H. Boalt:

Various friends of the University, a fund for the equipment of the new University Hospital in San Francisco, (itself built through gifts of $586,000 from a number of benefactors) the donors of the equipment fund being: Wallace M. Alexander, $2000; an Alumnus, $10,000; F. W. Bradley, $5000; William H. Crocker, $2616.50; the children of Regent F. W. Dohrmann, $500; D. C. Jackling, $1000; Charles W. Merrill, $1000; Mrs. James Moffitt, $15,000; N. Ohlandt, $1500; a friend of the University, $2377, and another friend of the University $2500—total $43,493.61.

The anonymous Founder of the Edith Claypole Memorial Research Fund for Pathology, an additional $8000.

Mrs. A. F. Morrison, $1500 for an ophthalmological library for the Medical School.

The Hahnemann Medical College of the Pacific $5000 for the Clinical Professorship of Homoeopathic Materia Medica in the University of California Medical School.

Miss Ellen B. Scripps, a thousand-foot concrete pier a new library and museum building, and other improvements at the Scripps Institution for Biological Research, $80,000; and $10,000 Mr. E. W. Scripps giving $15,000 yearly for maintenance.

Miss Annie M. Alexander, $12,750 for the maintenance for 1917 of the University of California Museum of Vertebrate Zoology.

The Native Sons of the Golden West, $300 for Fellowship in Pacific Coast History.

Bernhard Nathan, $5000 for a scholarship endowment.

Levi Strauss and Company, $3500 for the Levi Strauss Scholarships.

Regent Phoebe Apperson Hearst, $2400 for the Hearst Scholarships for women students; additions to the equipment of the Hearst Memorial Mining Building which have brought her gifts for its equipment to $55,000; and numerous gifts to the Anthropological Museum, the architectural work of the University, etc.

F. W. Bradley, approximately $6000 toward the development of the equipment of the College of Mining.

Various donors, more than $5000 in prizes for a State Dairy Cow Competition.

The late Horace Davis, formerly President of the University, $10,000 as a library endowment.

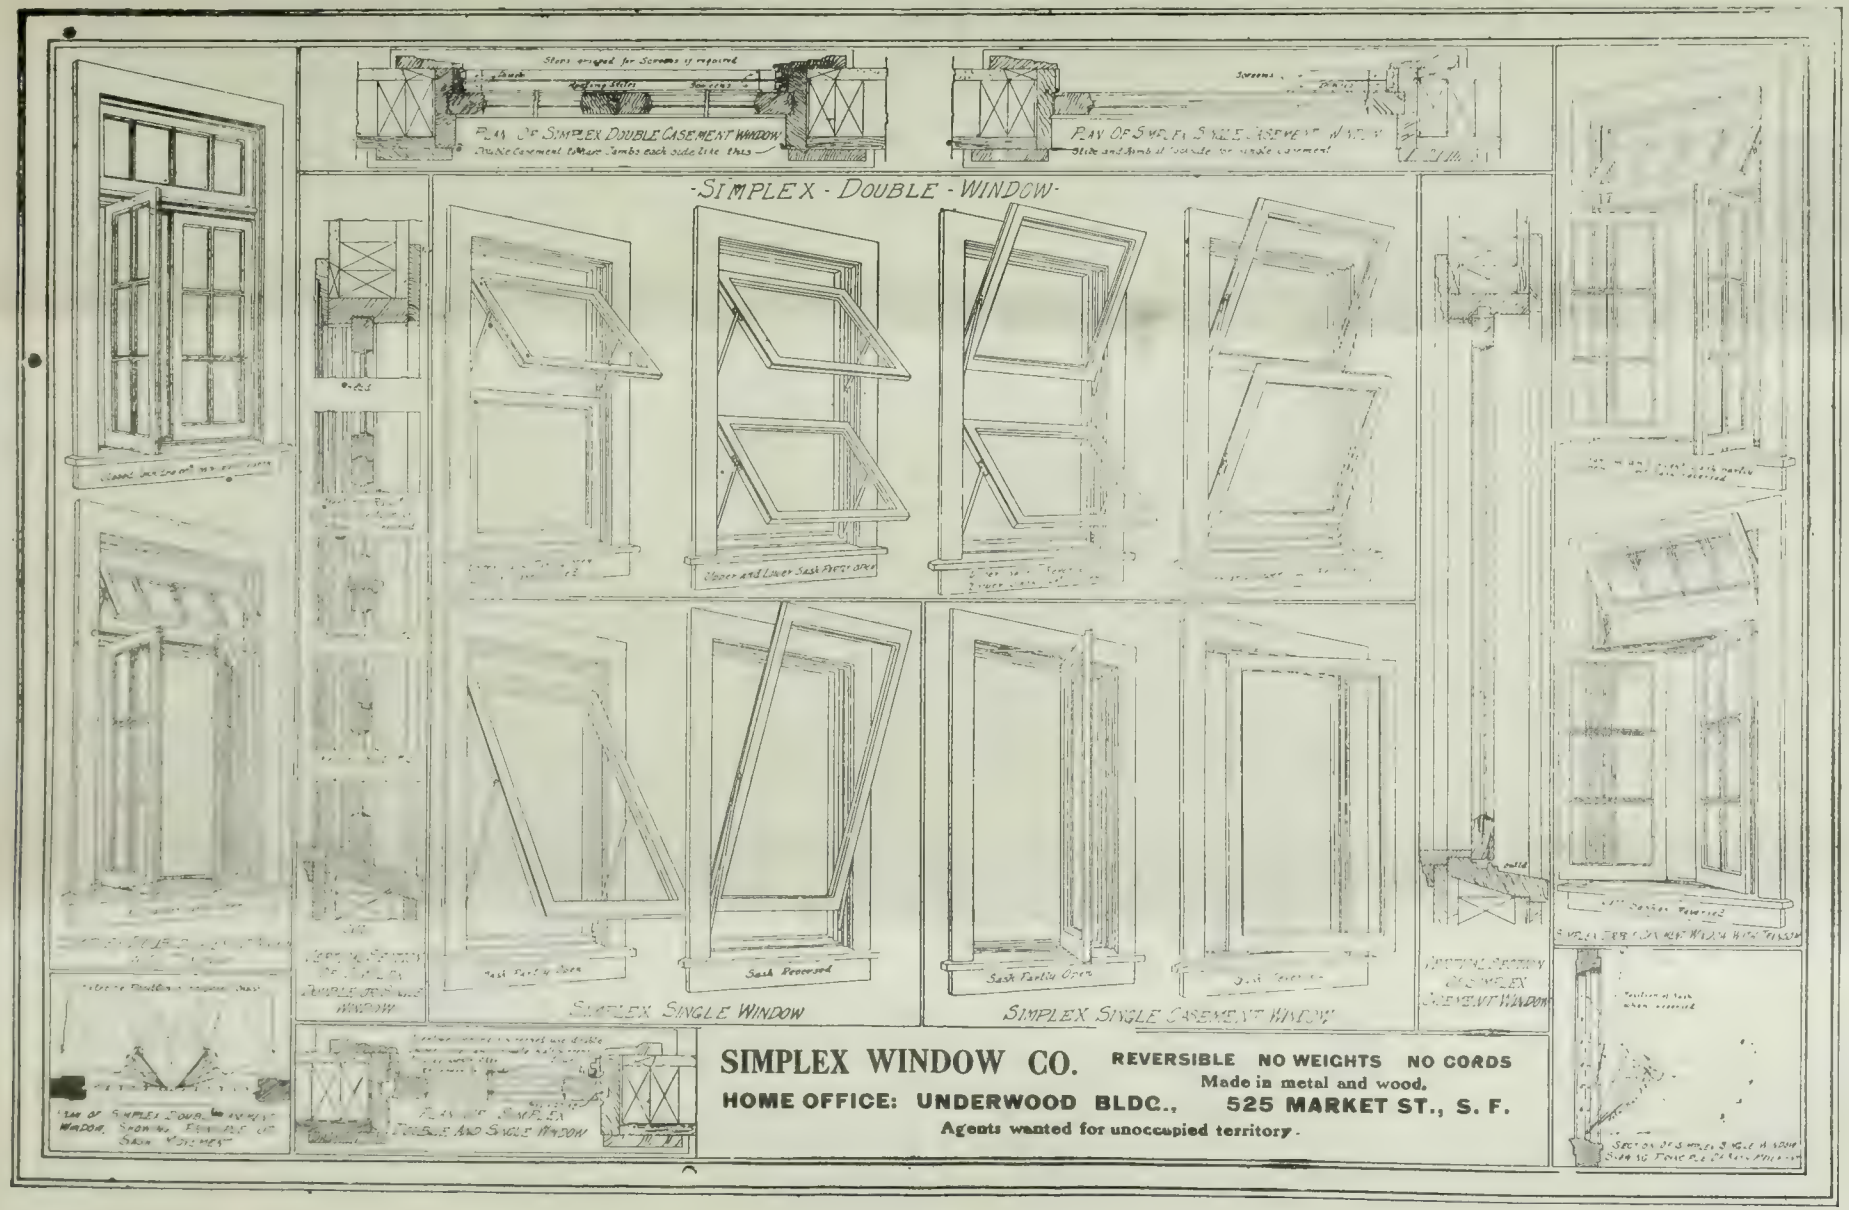
J. C. Cebrian, nearly two thousand volumes of Spanish books.

S. C. Kiang, some ten thousand Chinese books.

Wilmer Ethelston Furrey of Santa Cruz, approximately $3000 in money and real estate, to be used as the Regents may deem best.

A group of alumni, including F. W. Bradley, Charles W. Merrill, Dr. Harry East Miller, and Regent James K. Moffitt, gifts to aid in the research work of the Department of Biochemistry.

A large number of other gifts were received from various generous friends of the University of California during the twelve months since the previous Charter Day.



GRENADA RAILROAD SURVEY IN PROGRESS.

YREKA (Siskiyou Co., Cal.)—A report received here from Fort Jones says surveyors are at work making preliminary surveys in several of the gulches leading into Scott Valley from Shasta Valley for the proposed new railroad from Grenada to Scott Valley.

A crew of surveyors has been making surveys the past week in Scar Face and Schulmeyer's Gulches, and a survey has also been made through the Moffit Creek divide, to determine the most feasible route and best grade over the mountain.

Indications are that the capitalists behind the new townsite project at Grenada and the irrigation project immediately surrounding it are also to finance the proposed new railroad.

It is stated that one of the objects of the railroad will be to tap a vast body of timber in Scott Valley to [illegible] box factory to be erected at [illegible]

HOME LEAGUERS ENDORSE PRESIDENT WILSON.

With enthusiastic waving of flags and the singing of patriotic songs, the members of the Home Industry League of California at their weekly luncheon-meeting at the Palace Hotel Thursday unanimously passed resolutions endorsing whatever action may be recommended by President Wilson in the existing crisis with the German government.

The resolution, which was presented by Leon Roos, of Roos Bros., and A. D. McDonald, of the Standard Biscuit Company, follows:

WHEREAS, a state of war now exists between the United States and the government of Germany, be it, therefore,

RESOLVED, That the Home Industry League of California endorses and upholds any action which may be taken by the Honorable Woodrow Wilson, President of the United States, and that a telegram be sent to the President advising him of the action of the League.

Large Stars and Stripes were then unfurled by the League's flag committee as each member stood at attention, after which Fred Emerson Brooks California's world-famed poet, gave a thrilling reading of a number of his partiotic poems, among them the stirring "Pickett's Charge at Gettysburg," which he first described as the greatest battle in all history, reminding the Leaguers of the fact that BOTH of the armies involved were furnished by the same nation which is now about to embark on a world's war for democracy.

Wm. M. Bunker, President of the Civic Center Improvement Club, told of the foreign views of California industries, gleaned by him in a recent tour around the world, and suggested that there be opened up in the Civic Auditorium, at city expense, an industrial museum of the State's industries where visitors could go to learn in an entertaining manner what need the state has for new factories, and where the already established manufacturers could have attractive exhibits of a permanent nature to show residents what goods are really grown and manufactured in the State. Mr. Bunker stated that many European cities have already opened up such commercial museums for their respective industries.

Executive Secretary C. R. Thorburn reported that contracts for California marble and for California concrete mixers, amounting to $90,000 were secured for local dealers by the League recently, after bids had been asked on specifications which would have prevented local dealers from making any offers for the contracts.

ELECTRICITY FOR RURAL USE OBJECT OF CORRESPONDENCE COURSE.

Electricity will soon be as universally used on the American farm as water or fire. To aid California farmers to live in the electrical age, the University of California Extension Division has announced a new correspondence course on "electricity for rural use." In this course, which will be conducted by E. E. Schuck, himself an electrical engineer, farmers and country-dwellers and householders on general will be taught how to wire their houses for electricity and how to use electricity to the best advantage in lighting, ironing, cooking, and driving household and farm machinery, from the sewing machine and the electric fan to the cream separator. Farmers who live in regions not yet reached by the lines of the power companies will be taught how to generate electricity for themselves by water power or by the use of a gasoline engine.

STATE CORPORATION DEPARTMENT.

Valley Springs Lime Company has been permitted to sell 74,700 shares at par, $1 per share, contingent upon securing subscriptions for not less than 50,000 shares, and the payment of $10,000 on account of the purchase price on or before the 1st day of March, 1918. The proceeds are to be used for the purchase of limestone miles from Valley Springs, Calaveras County. The purchase price being $10,000 in money and 75,000 shares of the company's capital stock, to be issued to J. D. Fish and C. F. Tucker. Commissions are limited to 20%.

Lakeshore Highlands Company, Oakland, has been permitted to issue 3629 shares to Wickham Havens, Inc., in exchange for Oakland property, and to sell 366 shares at par, $100 per share, the proceeds to be used for improvements.

NEW WHARVES FOR PANAMA.

The National Assembly of Panama has authorized the Executive to give preference over other public works at this time to the dredging of the port of Chitre and the construction of a wharf there, to the installation of a lighthouse in the port of Guarare, and the construction of a wharf in the port of Mansabe.

PROPOSED WHARF FOR COSTA RICAN PORT.

The President of Costa Rica is authorized to arrange for the con-
[illegible] adapted for deep-draft vessels. To
[illegible] million dollars will be raised, to be guaranteed by a wharfage tax.

ADVANCE CONSTRUCTION NEWS.

Classified According to Character of Work.

APARTMENT HOUSES.

SAN FRANCISCO Apartment house, 3 story and base, frame, $18,000. Architect, J. F. Dunn, Phelan Bldg., S. F. Owner, Mrs. A. Wilson. Location, Pine near Mason, covering an area of 30 by 67 feet. Will contain twelve apartments of three and four rooms. Plans are being revised.

BONDS.

YREKA, SISKIYOU CO., CAL.—Bonds of $70,000 were voted last week for a new high school building for the Siskiyou High School District.

COTTONWOOD, SHASTA CO., CAL.—The $60,000 bond issue for a new school will not be called as the voters are against the issuance of such an amount. It is probable that an election for $40,000 will be called.

SAN MATEO, SAN MATEO CO., CAL.—April 28th is the date set to vote bonds of $30,000 for the erection and equipment of a manual training building for the high school.

BURBANK, SANTA CLARA CO., CAL.—The $10,000 bond issue of the Burbank School District has been sold by the County Supervisors and erection of a new school building will be started shortly.

ALHAMBRA, LOS ANGELES CO., CAL.—The Board of Education plans a $100,000 bond issue for a new auditorium building, plans for which are being prepared by Architects Norman F. Marsh and Herbert C. Howard, Broadway Central Bldg., Los Angeles. The erection of a new high school and improvements to the present building costing $75,000 is also planned by the Board. Bonds for these improvements will also be issued for this work.

PITTSBURG, CONTRA COSTA CO., CAL.—May 9th is set for a bond issue election to decide the issuance of $25,000 in bonds for a new city hall and $30,000 for street improvements.

REDWOOD CITY, SAN MATEO CO., CAL.—Discussion is being had on calling an election to vote bonds of $12,000 for the addition of an auditorium to the Central School. It is probable that an election will be held April 24th.

VENTURA, VENTURA CO., CAL.—The County Supervisors have sold the $350,000 county highway bonds and bids for highway construction to be carried under the sale will be invited immediately.

RICHMOND, CONTRA COSTA CO., CAL.—The City Council has decided to place the $25,000 public playground and municipal bath house bond issue on the May ballot when the city election will be held.

THE DALLES, ORE.—Bonds providing for $260,000 worth of street work have been sold and a call for bids for the paving to be undertaken will be issued shortly.

RICHMOND, CONTRA COSTA CO., CAL.—The proposition to vote bond for a new city hall building was defeated last week.

ESPARTO, YOLO CO., CAL.—Bonds of $20,000 have been voted and from plans prepared by Architect W. H. Weeks of San Francisco a new school building will be constructed.

PHOENIX, ARIZ. The Arizona Extension Railroad Company has asked the Corporation Commission for permission to issue capital stock of par value of $4,000,000 and 5 per cent bonds to the same amount. The funds derived are to be utilized in constructing a broad-gauge railroad from Mesa, fourteen miles east of Phoenix, to a point near Clarkdale, Yavapai County, a distance of 160 miles, especial mention being made also of a seven-mile branch to Jerome, and a five-mile branch to Clarkdale. The project is headed by James S. Douglas, of Douglas, Arizona.

OROVILLE, BUTTE CO., CAL.—The Supervisors have called for bids for the purchase of the $80,000 high school bond issue. Proceeds of the sale will finance construction of a new high school.

SANTA ROSA, SONOMA CO., CAL.—The Wilfred-Bellvue Drainage District is receiving bids for the purchase of bonds of $10,000 which will finance drainage improvements in its district. J. R. Cole is Secretary.

PARARDISE, BUTTE CO., CAL.—Mal 1st is the date set to open bids for the purchase of bonds of the Paradise Irrigation District.

GUERNEVILLE, SONOMA CO., CAL.—The Guerneville School District will hold an election May 12th to vote bonds of $12,500 for a new school building. The election held a few

months ago to issue bond. for the same purpose was defeated.

ALTURAS, MODOC CO., CAL. The Modoc County Supervisors at their last session seriously considered bonding the county for $300,000 for the purpose of building good roads.

It is held that the money now being spent on the county highways would more than pay the interest on the above proposed issue. The matter will probably take more definite form by the next regular meeting of the Board.

SAN LUIS OBISPO, SAN LUIS OBISPO CO., CAL. The $10,000 bond issue for construction of sewer improvements carried at the election held April 2nd.

BRIDGES AND DAMS.

BRIDGE BIDS OPENED.

SEATTLE, Wash.—Booker, Kiehl & Whipple, Central Bldg., Seattle, submitted the lowest bid for the construction of the Eastlake avenue bridge over the Lake Washington Canal, at $213,772 and it is probable that they will be awarded the contract. Other bidders were: Puget Sound Bridge & Dredging Co., $214,176; Erickson Construction Co., $217,474.

VISALIA, Tulare Co., Cal.—The Tulare County Supervisors have ordered bids received up to May 8th for the construction of nine concrete bridges over the route of the California State Highway between Visalia and the county line south. Plans may be had from the County Clerk at Visalia.

FRESNO, Fresno Co., Cal.—The City Trustees have announced that they will construct a bridge over Dry Creek. Bids will be called for on completion of plans.

(14950)

PAVING BIDS WANTED.

STOCKTON, San Joaquin Co., Cal.— Bids are being received by the City Clerk for the paving of the south one-half of Webster avenue from Monroe street to Edison. City Engineer's estimate $5,767.87; also for improvement of west half of West street from Acacia to Vernal Way. The City Engineer's estimate is $4,801.67. Bids on both jobs will be opened April 6th.
(14953 and 14790). 1st report Mar. 26; 2nd, Mar. 29, 1917.

STREET IMPROVEMENT CONTRACT AWARDED.

SAN FRANCISCO, Cal.—The Board of Supervisors has awarded a contract to V. Ellingwood for the improvement of Eastman street, between Green street and the S line of Russell street, produced by the construction of concrete curbs, and an asphalt pavement consisting of a 6" concrete foundation and a 2½" asphaltic wearing surface upon the roadway thereof. Cost, $254.70.
(14411) 1st report Mar. 8, 1917.

PAVING PLANNED.

FERNDALE, Humboldt Co., Cal.— The City Trustees have instructed Town Engineer Frank Kelly to prepare the necessary plans for paving Main street from the Pythian Castle to the town limits.
(14983)

DINUBA TO PAVE STREETS.

DINUBA, Tulare Co., Cal.—The Town Trustees have outlined plans providing for the paving of four main entrance streets of the town. It is the intention of the Board to have the work completed by the time the county highway reaches here.
(14987)

PAVING PLANNED.

TULARE, Tulare Co., Cal.—The City Trustees have decided to pave several streets to meet the state and county highway connections. About four streets will be paved. The method of financing the paving has not been definitely decided upon.
(14978)

BIDS WANTED FOR HIGHWAY.

EVERETT, Wash.—Bids will be received until April 23 by M. Weatherbee, County Auditor, for construction of ten miles of permanent highway.
(14981)

PAVING BIDS WANTED.

COLTON, Wash.—Bids will be received by L. F. Gibbs, City Clerk, P. O. Box 108, Colton, Wash., until April 16th for paving in L. I. D. 1 with either water bound macadam or one-course concrete approximately 12,000 square yards or 4,000 square yards of bituminous pavement. W. D. Barkhuff is city engineer.
(14982)

ROAD BIDS WANTED.

SEATTLE, Wash.—Bids have been ordered received up to April 23rd for the construction of the following highways: Permanent Highway No. 29, paving three miles between Arlington

and Cooper's Spur Permanent Highway No. 28, 3 miles of grading and graveling between Snohomish and Monroe, and for Bond Road Proposition No. 28, 3 miles paving.

W. C. Bickford, County Engineer. (14980)

PAVING PLANS ORDERED.

FRESNO, Fresno Co., Cal.—The City Trustees have instructed the City Engineer to prepare the necessary plans for the paving of H and Park Boulevard from El Dorado to the city limits.

STREET IMPROVEMENT PLANNED

RICHMOND, Contra Costa Co., Cal.—The City Council has passed a resolution calling for bids for the improvement of an alley in Block 2 of Richmond Park.

PAVING PLANS ORDERED.

RICHMOND, Contra Costa Co., Cal. The City Council has instructed City Engineer Chapman to prepare plans and specifications for the improvement of the following streets: Oil, Washoe, Wine, Florida, Main and Virginia, all in the Canal Subdivision, and of Garrard avenue. Bids for this work will be called for on adoption of plans.

SEWERS ORDERED IN MANY STREETS.

SACRAMENTO, Cal.—The City Commission passed resolutions ordering the installation of sewers in several sections of the annexed district. The districts to be improved follow: H. M. Goethe Subdivision G, Second Ave. from Twenty-fourth to Twenty-sixth Street, alley in Santa Ynez Way and Thirty-sixth Street from Folsom Boulevard to P Street, Third Avenue and Fourth Avenue from Fortieth to Forty-second Street, alley from Sacramento Boulevard and Thirty-ninth Street from Fifth to Seventh Avenue, San Jose Way from Fifth Avenue to point 118 feet southeasterly from Fourth Avenue, alley between Discovery Way and Forty-ninth Street, from alley first north of T street to R Street, Santa Clara Way from Third Avenue to point 101 feet southeasterly from the south line of Second Avenue, alley between Thirty-ninth Street and La Soledad Way from Fifth to Seventh Avenues.

The improvement of Marshall Way from Franklin Boulevard to Thirty-third Street with curbs, gutters, sidewalks and pavement also was ordered.

TO IMPROVE STREETS.

FRESNO, Fresno Co., Cal.—The Pacific Investment Co. of Fresno will spend about $30,000 for street work, including sidewalks and sewers, in the Alta Vista tract. Billings & Meyering are the agents.

(14918)

TO EXTEND RAILWAY.

SAN LUIS OBISPO, San Luis Obispo Co., Cal.—Four miles of track will be laid by the Pacific Coast Railway within the next few weeks to facilitate oil development on the Bell Ranch near Los Alamos.

BAKERSFIELD, Kern Co., Cal.—The City Council has instructed City Engineer Ray to proceed with plans and specifications for the paving of Eighteenth and Seventeenth streets from I to A street through eight blocks of residence and business section.

SEWER AND PAVING WORK PLANNED.

SANTA ROSA, Sonoma Co., Cal.—At the last meeting of the City Council plans and specifications for the storm drain on Fourth street were accepted, and the street committee ordered to provide for the completion of the storm drain on Fourth street.

Specifications for the improvement of Fourth street were received and adopted and a resolution adopted to authorize the work of improving the street between Mendocino avenue and the Northwestern Pacific depot.

CEMENT BID UNDER ADVISEMENT

SANTA ROSA, Sonoma Co., Cal.—The City Council has taken the bid of L. B. McGuire, 2nd and Railroad Ave., Santa Rosa, under advisement for furnishing the city with 450 barrels of cement to be delivered at Santa Rosa.

PAVING BIDS UNDER ADVISEMENT

MERCED, Merced Co., Cal.—The matter of awarding a contract for paving "K," "J," "O" and Twenty-second streets and a number of alleys has been laid over by the City Trustees. The lowest bid was submitted by J. H. Shafer, 220 W-23rd street, Los Angeles, at $54,039. The City Engineer's estimate is $49,500.

Other bidders were: E. Schilling, Fresno; A. Teichert & Son, Sacramento; G. R. Daley, San Diego, and the Worswick Company.

SEWAGE WORK PLANNED.

SANTA ROSA, Sonoma Co., Cal.—Milo B. Williams of the U. S. Department of Agriculture and W. W. Weir, a soil expert of Berkeley, were present at the last meeting of the City Council and presented plans for the disposal of the sewage on the sewer farm and for drainage of the land. The plan is the same as is used in many of the cities of the state and met with the instant approval of the council.

Blue prints were presented showing the farm would be piped with 14-inch mains and every few yards a hydrant or standpipe would be used to carry the sewage on to the land, which will have to be leveled before this can be done.

The seepage will be taken care of by means of irrigation pipes, which necessitates a separate system. Both systems and the cost of leveling the land are included in the estimate of $6,000 for the entire farm. Action will be taken at the next meeting of the

PAVING BIDS WANTED.

STOCKTON, San Joaquin Co., Cal.—The City Council has ordered bids received up to April 10th for the removal of the basalt blocks on Hunter, San Joaquin, Sutter and Washington streets and for the transportation of the blocks to the city pumping plant. Pavement similar to the rest of the street will be substituted. . The city engineer's estimate for the work is $3641.43.

PAVING BIDS WANTED.

STOCKTON, San Joaquin Co., Cal.—Bids are being received by City Clerk G. W. Pulich up to April 10th, 10:30 A. M. for the following work:

The improvement of portions of Hunter, San Joaquin, Sutter and Washington streets, by grading, which includes the removal of the present basalt blocks and hauling same to the yards at the sewer pumping station, and constructing new pavement, consisting of a Topeka wearing surface one and one-half inches thick on a concrete foundation five inches thick. Certified check of 10%, payable to City Clerk, must accompany each bid.

STREET WORK BIDS WANTED.

RICHMOND, Contra Costa Co., Cal.—Bids are being received by City Clerk A. C. Faris, up to April 16th, 8 P. M., for the following street work:

That the alley in Block 2, Richmond Park, from Barrett avenue to Ripley avenue excluding all intersections and terminations therein contained, be graded to the official lines and grades; paved with a 5-inch concrete base with a wearing surface consisting of asphalt and stone screenings; that redwood headers be constructed thereon. Certified check of 10% payable to City of Richmond must accompany each bid.

PAVING PLANS ORDERED.

RIVERSIDE, Riverside, Co.,. Cal—The Common Council has instructed the City Engineer to prepare plans for the proposed completion of the improvement of Magnolia avenue.

SEWER DISPOSAL SYSTEM PLANNED.

MADERA, Madera Co., Cal.—The engineering firm of Haviland & Tibbetts, Alaska Commercial Bldg., San Francisco, appeared before the Madera Trustees at their last session and offered to assist the City Engineer in preparing an estimate of cost on a sewer system that would taken care of the City's present needs and which could be added to at later dates, as the necessity arose. Haviland & Tibbetts offered plans for an Imhoff tank for sewer disposal. The matter was laid over until next meeting.

BIDS WANTED FOR CONCRETE POLES.

SAN FRANCISCO, Cal.—The Board of Public Works has approved specifications for the construction of concrete poles for the Church Street Municipal Railway and bids have been ordered received up to April 11th. Plans may be had from the City Engineer's office, 3rd Floor, City Hall.

FIRE MAIN MATERIAL CONTRACT AWARDED.

HANFORD, Kings Co., Cal.—The City Council has awarded a contract to the United States Cast Iron Pipe & Foundry Co., Monadnock Bldg., San Francisco, for furnishing material for the proposed fire main extension and repairs.

The bid was as follows: For 24,000 feet of 6-inch pipe, $69.20 per ton; for 2400 feet of 4-inch pipe, $63.20 per ton; standard special fittings, $95 per ton. Edward Lynch is City Engineer. (13152). 1st report Dec. 29, 1915; 4th Mar. 31, 1917.

BIDS WANTED FOR SACRAMENTO STREET AND SEWER WORK.

SACRAMENTO, Cal. City Clerk M. J. Desmond will receive bids up to April 17th, 11 A. M., for the following street and sewer work:

That the alley bet. Sacramento Blvd. and Thirty-ninth street be improved from 5th Ave. to 7th Ave. by excavating a trench and constructing therein an 8-inch vitrified ironstone pipe sewer from the manhole in place on 5th Ave. to the N line of 7th avenue; constructing one concrete manhole complete; placing 17 6-inch vitrified ironstone wye branches on 8-inch vitrified ironstone pipe sewer, and backfilling the trench.

That the alley bet. Thirty-ninth street and La Solidad Way be improved by excavating a trench and constructing therein an 8-inch vitrified ironstone pipe sewer from the manhole in place on Fifth avenue to the N line of Seventh avenue; constructing 1 concrete manhole; placing 14 6-inch vitrified ironstone wye branches on 8-inch pipe sewer and backfilling the trench.

That the alley bet. Santa Ynez Way and Thirty-sixth street be improved, by excavating a trench and constructing therein an 8-inch vitrified ironstone pipe sewer from the south line of Folsom Blvd. to a point 2 feet N from the N line of "P" street; constructing 2 concrete manholes complete; placing 30 6-inch vitrified ironstone wye branches on 8-inch pipe sewer and back filling the trench.

That Santa Clara Way, Catala Way and Forty-second street be improved, by excavating a trench and constructing therein an 8-inch vitrified ironstone pipe sewer on Santa Clara Way from the manhole in place on Third avenue to a point 101 feet S from the S line of Second avenue; constructing an 8-inch vitrified ironstone pipe sewer on the center line of Catala Way from the center line of Santa Clara Way to a point 190 feet easterly therefrom; constructing an 8-inch vitrified ironstone pipe sewer on Forty-second street from the manhole in place 50 feet northerly from the center line of Third avenue to a point 484 feet northerly therefrom; constructing 4 concrete manholes complete with cast iron curbs and covers; placing 53 6-inch vitrified ironstone wye branches on 8-inch sewer and backfilling the trenches.

That San Jose Way, be improved by excavating a trench and constructing therein an 8-inch vitrified ironstone pipe sewer from the manhole in place on Fifth avenue to a point 118 feet S from the S line of Fourth avenue; excavating a trench and constructing therein a 6-inch vitrified ironstone pipe sewer from the last named point to a point 58 feet S from the S line of Fourth avenue; constructing 1 concrete manhole complete; placing 16 6-inch vitrified ironstone wye branches on 8-inch pipe sewer; placing 4 6-inch vitrified ironstone wye branches on 6-inch pipe sewer and backfilling the trench.

That Second avenue in Boxler Tract, be improved, by excavating a trench and constructing therein an 8-inch vitrified ironstone pipe sewer in the sidewalk space between the concrete walk and curb on the N side of Second avenue from a point 344 feet W from the W line of Freeport Blvd to a point 20 feet E from the W line of Freeport Blvd.; thence SE to a manhole in place in the intersection of Second avenue with Freeport Blvd.; also

That Freeport Blvd.be improved, by excavating a trench and constructing therein a 6-inch vitrified ironstone pipe sewer on a line parallel to and 20 feet E from the W line of Freeport Blvd., from a point 6 feet S from the N line of Second avenue produced E to a point 10 feet N from the S line of Lot No. 4 in Block 2, Boxler Tract, produced E; placing 7 6-inch vitrified ironstone wye branches on 8-inch pipe sewer; placing 3 6-inch vitrified ironstone wye branches on 6-inch pipe sewer; constructing 2 concrete manholes complete, and backfilling the trenches.

That the easement in the block bet. Third and Fourth avenues and bet. Fortieth street and Forty-second St. be improved, by excavating a trench and constructing therein an 8-inch vitrified ironstone pipe sewer from the sewer in place on 40th street and 1½ feet S from the N line of Lot No. 31 in the aforesaid block produced W thence E and through the N 3 feet of Lots numbered 31 to 41, both inclusive, to a point 2 feet W from the E line of Lot No. 41; constructing a 6-inch vitrified ironstone pipe sewer from the last named point E through the N 3 feet of Lots numbers 42, 43 and 44, to the E line of Lot number 44; also constructing a 6-inch vitrified ironstone pipe sewer from the sewer to be constructed through the N 3 feet of Lot No. 43, N through the W 3 feet of Lots numbers 18 and 17 to the S line of Lot number 16; constructing 2 concrete manholes complete with cast iron curbs and covers; placing 25 6-inch vitrified ironstone wye branches on 8-inch sewer; placing 6 6-inch vitrified ironstone wye branches on 6-inch sewer, and backfilling the trenches.

That the easements in H. J. Goethe Co. Subdivision "G," be improved by excavating a trench and constructing therein an 8-inch vitrified ironstone pipe sewer from the sewer in place in the NW corner of Lot No. 4405, and thence S through the 3 foot easement and right of way on the W side of Lots 4405, 4406, 4407, 4408 and 4409 to a point 2 feet N of the S line of Lot 4409; constructing a 6-inch vitrified ironstone pipe sewer from the last-named point E to the NE corner of Lot 4412, all situated in H. J. Goethe Co. Subdivision "G;" constructing 1 concrete manhole complete; placing 7 6-inch vitrified ironstone wye branches on 8-inch sewer; placing 3 6-inch vitrified ironstone wye branches on 6-inch sewer, and backfilling the trench.

That the alley bet. Discovery Way and Forty-ninth street, Elmhurst, be improved by excavating a trench and constructing therein an 8 inch vitrified ironstone pipe sewer from the manhole in place in the alley first N of "T" street to the manhole in place on "R" street; constructing 1 concrete manhole complete; placing 22 6-inch vitrified ironstone wye branches on 8-inch sewer and backfilling the trench.

City Clerk Desmond will also receive bids up to April 12th, 11 A. M., for the following improvements:

That Marshall Way in Oak Grove, from the E line of Franklin Blvd. to the W line of Thirty-third street, be improved, by constructing concrete curb; concrete gutter; placing cast iron gutter drains with 6-inch vitrified ironstone sewer pipe elbows attached; 6 and 8-inch vitrified ironstone sewer pipe drains; constructing 1 concrete manhole; grading the sidewalk area, and constructing thereon concrete sidewalk; filling in behind the curbs with earth; grading the roadway and constructing thereon an asphaltic concrete pavement, consisting of a hydraulic concrete foundation 4 inches thick, an asphaltic cement flush coat, and an asphaltic concrete wearing surface 1½ inches thick.

BRIDGE BIDS WANTED.

BIDS WANTED FOR STREET WORK

FRESNO, Fresno Co., Cal.—Bids will be received by City Clerk W. H. Ryan up to April 16th, 5 P. M. for the following work:

That Madison avenue, from Fresno Avenue to North Ninth Street, be graded, curbed with cement concrete curb, oiled, and culverted with corrugated iron culverts.

Also that artificial stone sidewalks (where not already laid to the official grade) be laid on both sides of Madison Avenue, from Fresno Avenue to North Ninth Streets.

That Grant Ave. from North First St. to North Ninth St., be graded, curbed with cement concrete curb, oiled and culverted with corrugated iron culverts.

That an artificial stone sidewalk five (5) feet in width be constructed on and along each side of Inez Street, from Tulare to Kern Avenue

---

That Mariposa Street from "F" St. to "G" St. on both sides of said street be curbed and guttered with cement concrete curbs and gutters.

BIG SEWER PROJECT PLANNED.

RICHMOND, Contra Costa Co., Cal. —As soon as the consent of M. Emanuel, president of the Ellis Landing and Dock Company, can be secured for an easement through that company's property on South Tenth street, work will be started on a $95,000 storm sewer.

The sewer will be of construction large enough to warrant it being used for both storm and sanitary sewage.

When installed, according to the city engineer's office the sewer will drain all property between the Southern Pacific tracks and Santa Fe tracks on north Tenth street and from Sixteenth street to Sixth street in the district south of Macdonald avenue.

ENGINEER SELECTED FOR IRRIGATION WORK.

PARADISE, Butte Co., Cal.—C. D. Curry, engineering draftsman, 41 Carl street, San Francisco, has arrived from San Francisco and started work under Chief Engineer I. E. Goodner, of the Paradise Irrigation District. Curry will be employed on profile work, and cross sections, computing quantities to be excavated.

AUBURN PLANS PAVING.

AUBURN, Placer Co., Cal.—All former proceedings in regard to the paving work planned here have been annulled by the City Trustees and a new set of resolutions have been passed and adopted.

The streets to be paved are divided into three districts, and the cost will be assessed according to the width of the streets in the different districts.

STOCKTON AWARDS STREET PAVING CONTRACTS.

(By Special Wire)

STOCKTON, San Joaquin Co., Cal.—City Trustees have awarded contracts to Clark & Henery, 38 South Sutter street, Stockton, for street paving and other improvement sin the McCloud Addition, North Stockton, on their bid of $37,906.38 and for the improvement of West for $4,731.40 and $4,748.12. Bids for this work were opened before on March 23rd and rejected.

23, 1917.

TO IMPROVE STREETS UNDER PRIVATE CONTRACT.

Full information on application. (*)

JULES GODART DIES.

It is with deep regret that we learn of the death of Architect Jules Godart. The following letter written by Architect W. J. Cuthbertson expresses the kindly feeling in which Jules Godart's memory is held by his fellow architects:

"Editor of Pacific Builder,

Dear Sir:—

Mr. Jules Godart, The Architect, died on March 18th, aged 75 years. He was one of the most distinguished of the ante-earthquake architects—was the architect of the Metropolitan Temple on 5th street; the Windsor Hotel, 5th and Market; the Alameda Hall of Records in Oakland, and many other buildings in San Francisco and Portland, all worthy specimens of the best architecture.

Please eliminate his name from your Roster of Architects; although it will not be eliminated from the memories of those who knew him and from those of the younger members of the profession who received inspirations from his works and correction from his genial criticism.

Yours truly,

W. J. CUTHBERTSON."

POSTAGE STAMPS FOR SPECIAL SERVICES.

Consul General Alban G. Snyder reports from Panama City under date of March 1, that the President of Panama has issued a decree authorizing an extra charge of 1 cent in addition to the regular postage on all delayed letters, that is, letters posted after the hours fixed for the closing of the mails, and special stamps are authorized for this service as well as for registered letters and notices of receipt.

MINER CHIPMAN ON "CALIFORNIA FACTORIES."

Mr. Miner Chipman, the Boston expert on Efficiency, will tell the members of the Home Industry League of California the results of his observations, made during his six months' study of local conditions, on Thursday, March 29th, at the Palace Hotel. Organization, Production, Quality Standards, Efficiency and Industrial Regulation, appertaining to the factories of the State will be discussed by Expert Chipman.

As Mr. Chipman comes to San Francisco with a nationally made reputation for getting results for business houses, as well as for presenting his findings in an extraordinarily absorbing manner, many factory-owners outside the League membership have been invited to be guests of the League on this occasion.

The speech of Mr. Chipman will be repeated, in modified form, for the members of the Y. M. C. A. at their annual dinner to be held on Thursday evening at the Association Auditorium.

The general public is cordially invited to hear both talks.

RECENT WORK OF THE FOREST PRODUCTS LABORATORY.

(Continued from April 2nd Issue)

Preservation of Piling.

An inspection of the piling installed at Gulfport, Mississippi, and Pensacola, Florida, at various times since 1910, showed that the pieces treated with straight coal-tar creosote and high-boiling creosote fractions IV and V were still in excellent condition. Those treated with high-boiling water-gas-tar creosote were also in good condition, but those treated with the lighter water-gas-tar oils showed marked signs of failure. Piling treated with wood-tar-creosotes from both hard and soft woods was badly attacked. Specimens treated with an iron acetate solution were practically destroyed. Piling treated with creosote containing a metal, such as iron or copper in solution, was in better condition than that treated with creosote alone. Creosote to which crude naphthalene was added did not protect the specimens as well as the plain creosote oil. The addition of tar to the oil appeared to be of some slight benefit so far as the protection was concerned, but the penetrations were much more erratic and the result was localized attack where the wood was slightly penetrated. These studies are furnishing excellent fundamental data on proper methods of prolonging the life of piling against attack by marine borers.

Wood Block Paving Fillers.

Tests on paving block fillers showed that both asphaltic and coal-tar fillers are seriously affected by the absorption of creosote from the paving blocks. The melting point, specific gravity, and viscosity were all lowered. A filler has been prepared and is under test which is expected to be less objectionable than any now in use.

Wood Block Floors.

A survey has been completed of the use of wood blocks for flooring in factories, warehouses, and other places of heavy wear; and proper methods have been worked out for laying the blocks. The use of wood blocks for this purpose is increasing rapidly.

Tests completed on the treatment of wood blocks showed that to secure the best penetration of the preservative, the pressure applied should be comparatively low and held for a long period of time. This gave a more uniform penetration than was obtained by means of a higher pressure applied for shorter period. The proper application of this principle will undoubtedly result in substantially prolonging the life of wood blocks.

Preservation of Silos.

Creosoted wood staves were driven into one of the silos of the University of Wisconsin and analyses were made of the ensilage in contact with these staves. It was found that although the ensilage contained a certain amount of creosote it did not prove injurious to the appetite or health of the cattle. This confirms the results of previous studies.

PULP AND PAPER.

Utilization of Bark for Felts.

The Laboratory has discovered and thoroughly tested a new use for spent hemlock bark, which gives promise of being immensely important from an industrial standpoint. Over 200,000 tons of roofing felts are now made annually in this country, the basic fiber material used being rags. On account of the war and an increase in the business prosperity of the country, the price of rags rose to $72 per ton. The Laboratory then discovered a method whereby it was possible to substitute spent hemlock bark for as much as 30 per cent of the rag stock. The bark is now used chiefly for fuel, and for this purpose is worth about one-fifth as much as soft coal per ton. The tests were supplemented by mill trials, and roofing felts containing 30 per cent of bark are now being manufactured commercially. The mill with which the Laboratory co-operated in these tests is now utilizing 150 tons of bark per week and, as a result of this substitution, is saving $1,300 per week. This use of bark, if universally adopted, should cut the cost of manufacturing felts in this country probably $1,000,000 annually. At the same time, the value of the bark will be doubled.

Other New Uses for Bark.

Studies are now under way to find methods of substituting bark for other materials in the manufacture of wallboard, indurated pails, conduits, wall paper, etc. Most interesting and promising results have already been obtained.

A new method of producing tannin and fiber from hemlock bark has been tested. It consists in mechanically disintegrating shredded hamlock bark in an ordinary beating engine under proper temperature control. A short treatment in the beater removes a large amount of tannin from the bark, at the same time reducing the bark to a condition suitable for manufacture into paper products. This new process gives promise of successful commercial application.

STATE CORPORATION DEPARTMENT

SACRAMENTO, Cal. – During the month of February, Commissioner of Corporations H. L. Carnahan authorized the sale of 6,259,959 shares of stock and $885,000 bonds by 197 corporations. The proposed aggregate selling price of the stock was $16,192,018 and the minimum selling price of the bonds authorized was $883,000, a total of more than $17,000000. New applications for authority to issue securities

were filed by 181 companies having an aggregate authorized capital stock of $45,000,000.

Commissioner Carnahan has authorized the following companies to issue securities:

Cocotone Chemical Company, Los Angeles—To issue 62 shares to G. N. Wilson in exchange for the assets of his business, and to sell 35 shares at par, $100 per share, net to the company.

Art Concrete Works, Pasadena—To issue 190 shares to Leo. G. Haase, 20 shares each to Frank M. Brooks, M. H. Brooks and C. H. Jones and 10 shares to K. A. Haase in exchange for the assets of a business, and to sell 40 shares at par, $100 per share, net to the company.

Valley Concrete Pipe Company, Van Nuys—To issue 750 shares to F. J. Dettenthaler and 375 shares each to G. D. and J. G. Williamson in exchange for the assets of a business, and to sell 1000 shares at par, $10 per share, to net the company not less than 90.

Antelope Valley Lumber Co., Los Angeles—To sell 350 shares to its present stockholders at par, $100 per share, net to the company.

Echo-Brea Oil Company, Los Angeles—To issue 400,000 shares to Acquilla Oil & Mineral Company in exchange for approximately 1600 acres of unpatented claims in the Sespe District, Ventura County; 150,000 shares to A. C. Labrie, J. A. Brower and J. M. Buzzell in exchange for drilling equipment; to sell 35,000 shares at par, 10c per share, to net the company the full amount of the selling price, and 75,000 shares at 25c per share, to net not less than 80. It is estimated that approximately $10,000 will be needed to complete the first well which has been drilled to a depth of about 600 feet and $25,000 for each well subsequently drilled.

ELECTRIC ACTIVITY IN ORE DEPOSITS.

The marvelous accomplishments in electric science have far surpassed anything that men would have dared to predict in the early days of its development, yet certain prophecies in regard to it have remained unfulfilled. Among these are the suggestions of some geologists that electric phenomena might play an important part in the formation of ore deposits and that electric methods might be utilized in prospecting for ore bodies. Both these suggestions, in the light of the growing knowledge of ore deposits and of electricity, appear to be illusions. It is now clear that the great causes of ore deposition are not electric in the ordinary sense and that the electric currents generated in ore deposits are far too small to aid a prospector in discovering ore by their influence on a galvanometer or other electric apparatus held in his hands.

If however electricity is denied a leading part in the formation of ore deposits its action can not be excluded entirely. It is well known that many chemical reactions are capable of developing measurable electric currents, and it should therefore be expected that in places where chemical action is in progress in ore deposits today electric activity should also be detectable. This has indeed been shown to be the case by several experimenters, and miniature batteries can be formed with water for the battery fluid and certain metallic minerals common in ore deposits as the poles. A report entitled "Electric Activity in Ore Deposits," by Roger C. Wells, recently issued by the United States Geological Survey, records a series of careful measurements of the electric potentials developed when various metallic minerals common in ore deposits are in contact with water or with solutions of various salts. Mr. Wells concludes that the character of the solutions has fully as great an influence on the electric activity developed as the nature of the metallic minerals and that in general acid and oxidizing solutions give the highest potentials and alkaline and reducing solutions the lowest. Economic geologists have long recognized that the solutions in the upper oxidized portion of many ore deposits are acid and oxidizing, while farther down they become neutral or alkaline. Whether such variations and the electric differences dependent upon them are sufficient to cause an appreciable electric current to flow from the upper part of an ore deposit to a lower part or vice versa is still an open question. Surely such action, if it exists, is of relatively minor importance in controlling ore deposition, the main factor being the actual movement of metal-bearing solutions from one

place to another. Measurements of electric potential can, however, be quickly and easily made and may prove very useful in indicating the direction and intensity of the chemical reactions of which they are one expression.

Mr. Wells's report, which was issued as bulletin 548 of the United States Geological Survey, is technical in character and will be of interest mainly to chemists, physicists, and economic geologists. It may be obtained at a cost of 10c a copy from the Superintendent of Documents, Washington, D. C.

POST OFFICE TO ISSUE NEW 5-CENT ENVELOPE.

At a near date there will be available to the business public a new No. 8 amber-colored envelope bearing a 5-cent stamp. The United Seates Post Office Department plans to issue this in response to the requests of exporters and others carrying on correspondence with foreign countries who have found the No. 3 and No. 5 stamped envelopes (respectively 3⅜ by 5⅞ and 3½ by 6-5-16 inches) already issued so great a convenience that an appeal was made for one of larger size. The No. 8 envelope is 4⅛ by 9½ inches, high cut, and will be furnished either plain or with return card printed in the corner. The plain envelopes will cost $52.28 per thousand and may be obtained in any quantity; the printed envelopes will cost $52.72 per thousand and will be supplied only in lots of 500 or multiples thereof.

The movement leading to the issuance of the new 5-cent envelope was started by the foreign-trade department of the Cleveland Chamber of Commerce, the co-operating office of the Bureau of Foreign and Domestic Commerce in that city. The compliance of the Post Office Department with its request is but another step in the campaign to eliminate the short-paid-postage nuisance. Many plans to overcome this evil have been put forward from time to time, ranging from separate boxes for foreign mail to the use of distinctive styles and colors of stationery, all designed to fix the attention of the clerk having the stamping of the mail matter under his charge. The use of an envelope already stamped with the proper postage has proved a most effective check against the sending of letters to foreign countries short paid.

As stated, the new envelope will be made of amber-colored paper, to match the No. 3 and No. 5 five-cent envelopes already issued. All three may be obtained in pure white if desired, but the use of the distinctive color for foreign mail has received the indorsement of some of America's most important manufacturing and exporting interests, and the chief call will probably be for the colored envelope

ITEMS OF INTEREST.

SACRAMENTO, Cal.—The Engineers of Sacramento and Superior California met this week in their temporary quarters in the Forum Building, and formed an organization which will hereafter be known as the Engineers' Club of Sacramento. The membership embraces those actively engaged in civil, mechanical, electrical and mining engineering.

The object of the club will be the promotion of the social and business interests of its members, the advancement of engineering knowledge, and the maintenance of a high professional standard among its members.

Means to be employed by the club to promote the attainment of its objects shall be meetings for social and professional intercourse, reading and discussion of original papers, published articles pertaining to engineering, and allied subjects, and the maintenance of offices and quarters for the use of the club and the convenience of its members.

Major Paul M. Norboe is the new President, G. R. Winslow, Vice President, and Albert Givan, Secretary.

SACRAMENTO, Cal.—F. W. Kiesel, Vice President of the California State Life Insurance Company, announced to agents of the company, gathered in Sacramento from many states for a conference, that the company is planning the erection of a substantial structure in this city during the next two years. The lease on the present quarters in the Forum Building expires in about two years.

CLIO, Plumas Co., Cal.—Logging operations will begin here shortly. The Davies Mill & Lumber Company near Blairsden will be ready to grind out lumber shortly and will work a larger crew than ever before.

DEETH, Nev.—Stock to the amount of $50,000 has been subscribed for the building of a new hotel at Deeth to replace the one that was burned when fire wiped out the business section of the town a little more than a year ago.

The new hotel is to be a two-story brick building of 25 rooms, with the kitchen, dining room, office and bar on the first floor. Ben F. Arnold will have the management of the new institution. W. M. Weathers is president of the new hotel company, J. E. Enelsen is vice president and B. F. Arnold is secretary and treasurer.

RECENT WORK OF THE FOREST PRODUCTS LABORATORY.

(Continued from April 4th issue)

Sulphate Process.

A new method of cooking wood by the sulphate process has been developed and patents have been applied for. Wood cooked by this method has given larger yields of pulp, greater strength, in a shorter time, and with less consumption of chemicals than with the standard method now used. Cooks were made on thirteen different species of wood and excellent sheets were produced, particularly from spruce, Alpine fir, and western yellow pine. Paper made from western yellow pine tested 1.56 points per pound and had a silky sheen and color. From the standpoint of bursting strength and appearance it was superior to any kraft paper the Laboratory has yet produced.

A method for analyzing white and black liquors in the sulphate process was developed and published.

A study was completed in co-operation with a paper company to determine the loss in chemicals caused by cooking unbarked chips of yellow pipe. It was found that for every ton of wood carrying 4 per cent bark, 23 pounds of caustic soda and 8½ pounds of sodium sulphide were used simply to reduce the bark. Furthermore, practically no fibre was obtained from the bark.

Soda Process.

The introduction of moisture into the digester during the cooking period increased the yield of soda pulp 9 per cent. The modifications in the kraft process were also applied in the soda process with excellent results.

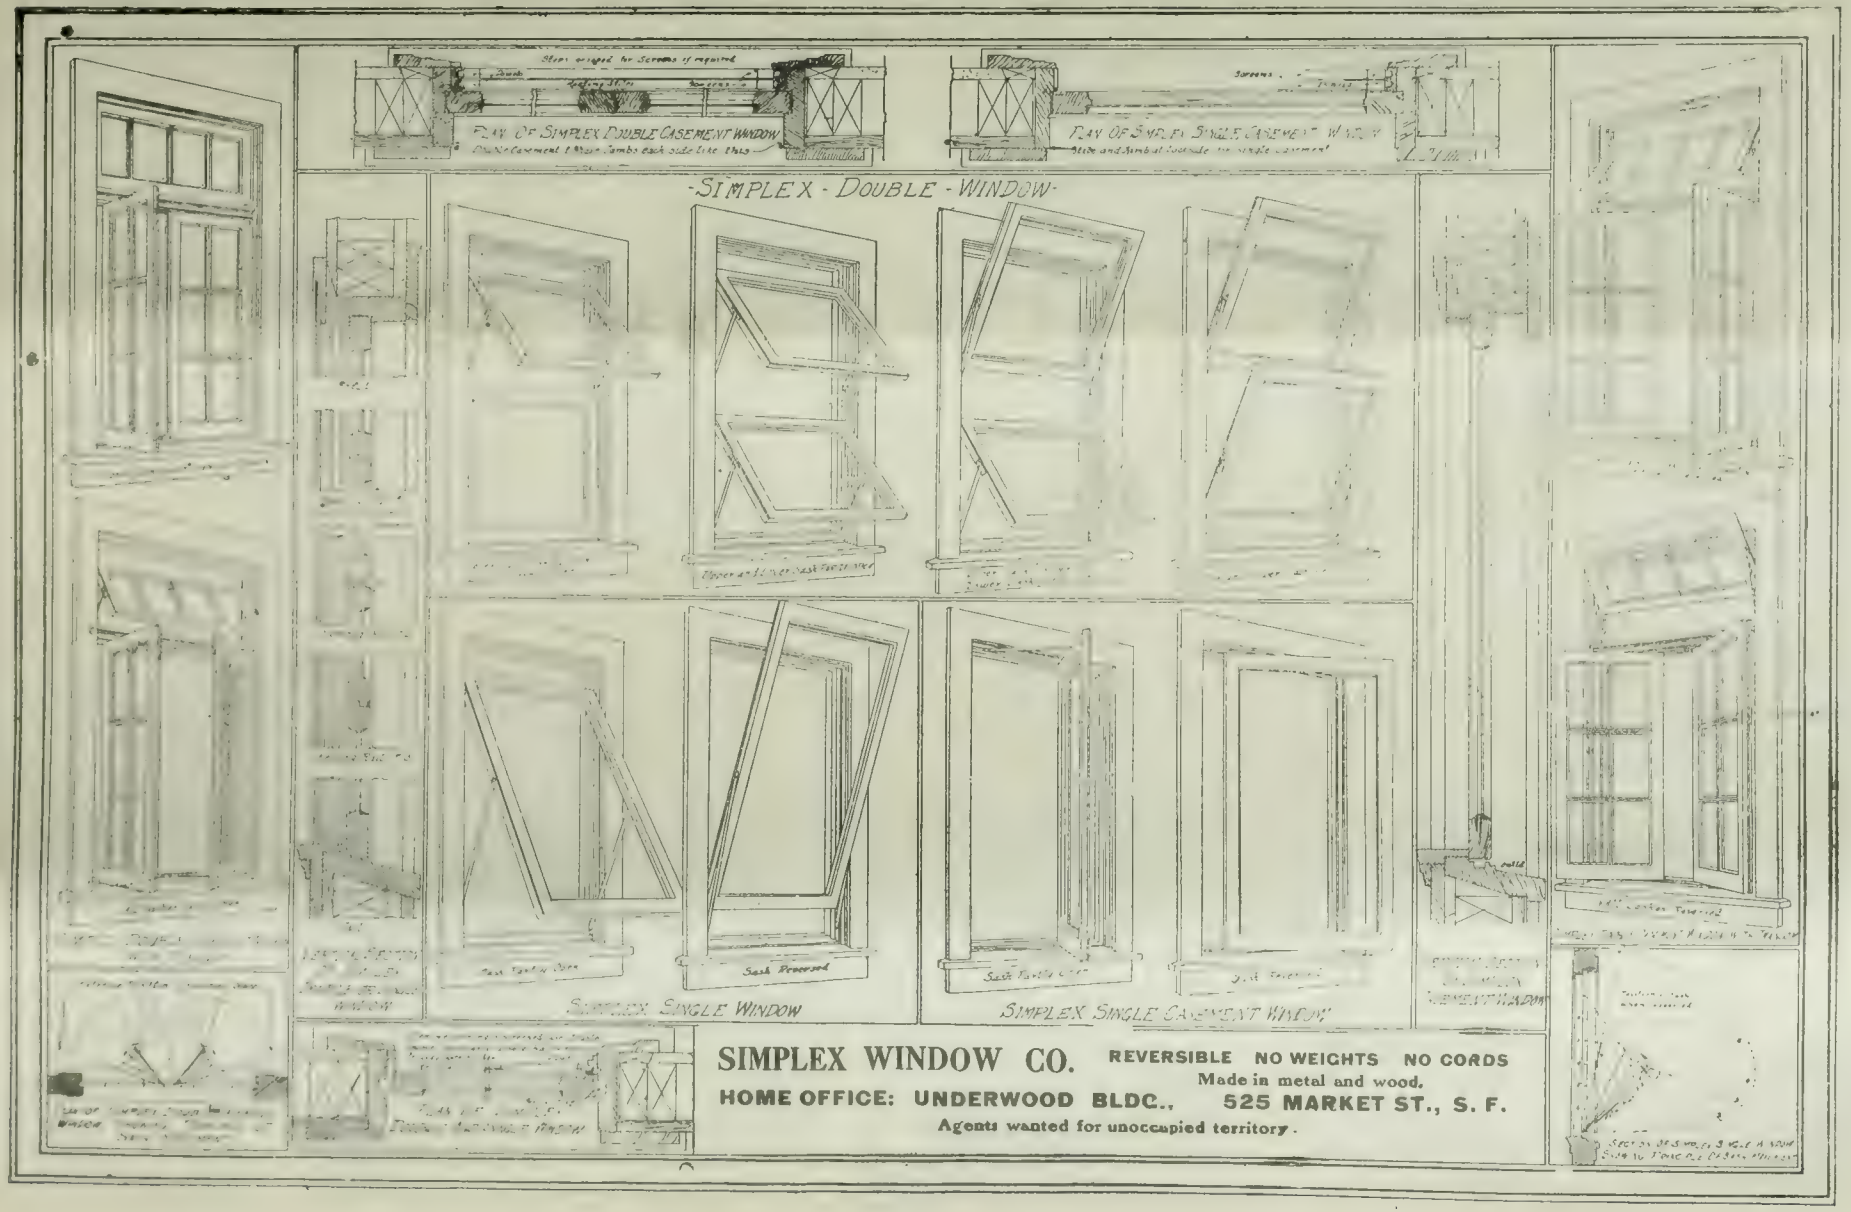
Effect of Color on Eye Fatigue.

In co-operation with the Department of Psychology of the University of Wisconsin, a study was made to determine the effect of color of paper and of glare upon eye fatigue. Some original and interesting methods of testing eye fatigue were developed. These studies showed that practically no difference in eye fatigue was produced by reading from newsprint paper manufactured from tamarack as compared with that from spruce. From the standpoint of ease of reading there is no valid objection to newsprint paper made from woods such as tamarack which produce darker colored papers.

Utilization of Mill Waste for Sulphite Chips.

The increasing cost of pulpwood is focalizing attention upon the possibility of utilizing sawmill waste for the manufacture of chips suitable for pulp. An exhaustive study has been completed showing the extent to which mill waste is now used in making pulp as well as methods of barking, chipping, screening, drying, and baling chips. This study indicates that there is likely to be an extensive utilization in the future of certain kinds of mill waste, particularly hemlock. Co-operation has been started with some paper mills in Wisconsin to test the utilization of such waste on a commercial scale.

BUSINESS OPPORTUNITY.



The name of a competent electrical and consulting engineer at San Jose, Costa Rica, may be obtained from the Bureau of Foreign and Domestic Commerce, Customhouse, San Francisco, by American firms desiring to make use of such serivce in that country. Refer to file No. 1134.

The following inquiries were received by the Industrial Department of the San Francisco Chamber of Commerce:

Joseph W. Doherty, 36 Mayfield St., Dorchester, Boston, Mass., desires to open accounts to represent San Francisco manufacturers in that market.

B. A. Vaughn, Corning, Cal., is seeking a market for a cooking range which he has patented.

Wm. Tomkins, San Diego Chamber of Commerce, San Diego, Cal., desires to get in touch with manufacturers or dealers in machinery for the manufacture of re-crystalization of salt.

Special Enducements In Engineers' Reserve Corps.

Skilled Mechanics Offered Exceptional Opportunities. Employers Asked to Display this Notice.

A request has been made of the employers of all kinds of skilled mechanics to call the attention of their men to the following mention of the Engineers' Reserve Corps now being recruited to full strength in the various cities about the bay district.

"All journeymen and master mechanics will receive special inducements in enlisting in the Engineers' Reserve Corps and will be graded according to their mechanical ability and experience. Pay in the service ranging from $15 to $75 per month including all sustenance, equipment, transportation and medical treatment. Special attention is called to the fact that the age limit in this branch of of the service has been raised from 35 years to 45 years. Enlistment is for four years, but in time of peace members will be required to give only 15 days in each year to active service or encampment."

This branch of the service is exceedingly short of men and therefore offers exceptional inducements to skilled mechanics in the following trades and professions: Surveyors, draughtsmen, photographers, litographers, blueprint men, masons, quarrymen, miners, bridge and other carpenters, blacksmiths, plumbers and pipefitters, electricians, machinists, enginemen and firemen, caulkers, riggers, boatmen, teamsters, packers, saddlers, horseshoers, cooks and clerks. Anyone interested should communicate with Captain Parks, Engineers' Officers, 204 Pine St., corner of Battery, San Francisco.

NOTICE:—EMPLOYERS PLEASE POST IN A CONSPICUOUS PLACE IN YOUR SHOP OR FACTORY.

NO RACE IMMUNE FROM TUBERCULOSIS.

No country, no race, no sex, no color is immune to tuberculosis. Similarly no tissue, no member, nor portion of the human body is immune to its inroads, both as to people and tissues brings about strange results. Tuberculosis of a bone or a joint is very different in its manifestations from tuberculosis of the lungs, the skin or the brain. When some of the internal organs are attacked, for example the suprarenal capsules, the consequences are even at wider variance from the commonly conceived picture of the devastations of that minute vegetable, the tubercle bacillus.

Thomas Addison, sprung from the English yeomanry of Cumberland, physician, teacher, student and diagnostic genius, carried on a series of observations for years before he found that tuberculosis was often at the root of the disease which now bears his name. Addison's disease, generally caused by tuberculosis of those little organs which lie just above the kidneys, is marked by extreme prostration, bloodlessness, a marked bronzing of the skin, and death. There may be other symptoms but the weakness, anaemia and skin pigmentation are the most prominent.

The dogged determination which marked Addison's attempt to track a disease to its original source is the ruling spirit of 20th century medicine. No half-discovered fact will satisfy the modern investigator. The ultimate object is sought in its entirety by an industry of search, a correlation of scientifically deducted facts and a concentration of effort. Addison was born in April, 1793, and died of brain disease June 29, 1860.

OIL USED BY RAILROADS.

A decided increase in the use of petroleum as locomotive fuel by the railroads of the United States in 1916 is shown by statistics compiled under the supervision of John D. Northrop and just published by the United States Geological Survey, Department of the Interior.

Reports submitted by 53 railroad companies, comprising all that operate oil-burning locomotives in the United States, show that the quantity of oil fuel so consumed last year was 42,126,417 barrels, a gain of 5,477,951 barrels, or 15 per cent. over the consumption in 1915.

This increase shows the steady expansion in the United States of the market for low-grade petroleum from Mexico rather than any appreciable increase in the use as fuel of low-gravity crude oils from domestic sources, whose value for refining is just beginning to be recognized.

The total distance covered by oil-burning engines in 1916 was 10,434,566 miles, and the average distance covered per barrel of fuel consumed was 3.33 miles. Oil-burning locomotives were operated in 1916 over 31,980 miles of track in 21 states.

LOYALTON, Sierra Co., Cal.—The newly organized Beckwith Peak Lumber Company of Portola is moving the Rees mill from its present location on Badanock Canyon, near here, to new mill site near Portola.

ADVANCE CONSTRUCTION NEWS.

Classified According to Character of Work.

APARTMENT HOUSES.

SAN FRANCISCO — Apartment house, 4 story and base, brick and steel, $60,000. Architect, none. Owner, John Dempniak, 1665 Washington street, S. F. Location, east Mason south Bush, covering an area of 50 by 84 feet. Will contain 27 apartments of two and three rooms. Plans complete and segregated figures being taken for all parts of the work.

SAN FRANCISCO — Apartment hause alterations, 2 story, frame, $15,000. Architects, Heiman & Schwartz, 212 Stockton street, S. F. Owners, Sara Mish Estate. Location, northwest corner Oak and Devisadero streets. The present building, containing five stores and a number of large flats will be altered for twelve apartments on the upper floor and the stores modernized and a full basement excavated. Plans are complete and figures being taken.

SAN FRANCISCO — Apartment house, 5 story and base, reinforced concrete, $80,000. Architect, Benj. G. McDougall, Sheldon Bldg., S. F. Owners, Nightingale Estate. Location Haight and Webster. Will contain 36 apartments of two and three rooms. Plans are complete and segregated figures being taken.

SAN FRANCISCO — Apartment house, 3 story and base, frame, $18,000. Architect, Theodore Lenzen, Humboldt Bank Bldg., S. F. Owner's name not given. Location, Eddy and Franklin streets. Will contain store on the first floor and a number of three and four room suites above. Plans complete and figures being taken.

SAN FRANCISCO — Apartment house, 3 story and base, frame, $25,000. Architect, none. Owner, J. V. Campbell, 1040 Bryant street, S. F. Location, southeast Pine and Larkin streets, covering an area of 50 by 47½ feet. Will contain 20 suites of two and three rooms. Plans complete and work to be done by Day Labor.

STOCKTON, SAN JOAQUIN CO., CAL.—Apartment house addition, 2 story, brick, $10,000. Location, Lindsay and California streets. Will contain a store on the first floor and a number of two room apartments above. Plans are being prepared.

VICTORVILLE, SAN BERNARDINO CO., CAL.—Bank, 1 story and base, reinforced concrete. Cost not stated. Architects, Kremple & Erkes, Henne Bldg., L. A. Owner, Carl Leonardt, H. W. Hellman Bldg., L. A., leased to First National Bank of Victorville. Will cover an area of 25 by 45 feet. Plans are complete and work to be done by the owner.

BONDS.

VISALIA, TULARE CO., CAL.—The First National Bank of Porterville has purchased the $1,000,000 bond issue of Tulare County. Proceeds will finance the construction of a permanent highway system. Bids for a portion of the work are now being taken.

MERCED, MERCED CO., CAL.—The Merced County Supervisors have decided to call a bond election to provide for a system of good roads.

SAN LUIS OBISPO, SAN LUIS OBISPO CO., CAL.—A $10,000 bond issue for constructing a sewer system has been voted.

SANTA BARBARA, SANTA BARBARA CO., CAL.—The State Board of Health has approved plans for the outfall sewer system, and an election to vote $85,000 bonds will probably soon be called. Olmsted & Gillelen, consulting engineers, 1112 Hollingsworth Bldg., Los Angeles, have estimated that disposal tanks will cost about $25,000 and that the following quantities of pipe will be required: 1500 feet 23-inch, 1000 feet 30-inch, 1500 feet 16-inch, 2500 feet 20-inch, 1000 feet 12-inch 1800 feet 10-inch, and 15 manholes.

FLORENCE, ARIZ.—A special election will be held April 14 to vote bonds in the amount of $150,000 for constructing and reconstructing roads, bridges and highways in Pinal County. Thos. N. Wills, chairman of the Board of Supervisors, and C. H. Niemeyer is clerk.

OAKDALE, SAN JOAQUIN CO., CAL.—The South San Joaquin Irrigation District has sold a block of $114,500 irrigation bonds to the San Joaquin Valley Savings Bank.

CLOVIS, FRESNO CO., CAL.—The $60,000 bond issue for a new high school was defeated last week.

MODESTO, STANISLAUS CO., CAL.—The bond issue held to vote bonds to finance the construction of a concrete swimming tank and other improvements has been defeated at an election held last week.

BRIDGES AND DAMS.

SEATTLE, WASH. — Dock and warehouse, 1 story, frame and concrete, $150,000. Engineer, none. Owners, Oregon-Washington Railway and Navigation Co., Portland, Ore. Location, foot of Railroad avenue, covering an area of 160 by 460 feet. Plans are complete and bids will be called for shortly.

SAN ANSELMO, Marin Co., Cal.—At the last meeting of the Trustees, Town Engineer Feusier reported the preparation of plans and specifications by the Northwestern Pacific Railroad for the new bridge to be constructed at Lansdale. Feusier reported that at the next session he would have a report on the proposed work giving costs, construction, etc.

HOLLISTER, San Benito Co., Cal.—The County Supervisors have ordered bids received up to April 20th, 2 P. M., for surfacing the Hollister-Bird Creek-Tres Pinos-Paicines and Pacheco Pass Bridges.

W. A. Winn is County Surveyor.

SAN ANDREAS, Calaveras Co., Cal.—County Surveyor W. S. Coulter has completed profiles of the bridges to be constructed over Black Creek, Six Mile Creek and Vallecita Creek, and presented same to the Supervisors. No action was taken.

WILLOWS, Glenn Co., Cal.—Bids are being received up to May 7th, 2 P. M., by County Clerk W. H. Sale for the construction of a reinforced concrete bridge over Angel Slough on the Butte-City-Chico road in Road District No. 5. Certified check of 10% payable to Chairman of the Board of Supervisors is required.

REDDING, Shasta Co., Cal. The County Surveyor has been instructed by the County Supervisors to prepare plans and specifications for a steel and concrete bridge over Churn Creek at the old Ragsdale place, four miles east of this city. The plans will be completed for adoption by the Board at its May meeting.

SEATTLE, Wash. Plans have been completed by County Engineer Samuel Humes and bids have been called for by the county commissioners for the construction of the proposed trestle over the Kenmore Slough at the north end of Lake Union to connect with the Julia Blinn road. The work under this call includes the construction of several hundred feet of approach.

The trestle will be eighteen hundred feet long and will cost about $20,000.

EUREKA, Humboldt Co., Cal.—The County Clerk will receive bids up to May 15th, 2 P. M., for the construction of a bridge at Carson's cut on the Elk River, also for the construction of a bridge across Mad River Slough west of Arcata.

Plans may be had from the County Clerk at Eureka.

Contract Awarded.

CHEHALIS, Wash.—C. G. Huber, Central Bldg., Seattle, Wash., has been awarded the contract for the construction of the Skookumchuck River Bridge at $14,730. J. D. Neville is County Engineerr.

FACTORIES AND WAREHOUSES.

SAN FRANCISCO — Factory and warehouse, 4 story and base, reinforced concrete. Cost not stated. Engineer, George Wagner, 251 Kearny street, S. F. Owners, Flieshacher Paper Box Co. Location, Harrison and Second streets. As soon as plans can be completed they will be turned over to the Clinton Construction Co., who will erect the building on the percentage basis.

MOUNTAIN VIEW, SANTA CLARA CO., CAL.—Packing house, 1 and 2 story, brick. Cost not stated. Architect, none. Owners, California Supply Co., 738 Folsom street, S. F. Will cover an area of 160 by 75 feet. Plans complete and figures have been taken.

FRESNO, FRESNO CO., CAL. — Packing house, 1 story, frame. Cost not stated. Architect, John C. Austin, Baker-Detwiller Bldg., L. A. Owners, Stewart Fruit Co. Will cover an area of 150 by 50 feet. Plans are being prepared and when complete the work will probably be done by Day Labor.

FRESNO, FRESNO CO., CAL. — Packing houses, 4, 1 and 2 story, brick and frame. Cost as follows. Architect's name not given. Owners, California Peach Growers' Association. Negotiations between the directors of the California Peach Growers, Inc., of Fresno, and O. E. Peterson, R. G. Smith and W. H. Kramling of Kingsbury, for the construction of a packing plant costing between $15,000 and $20,000, have been concluded. Four similar buildings are to be erected for the same owners in different cities as follows: Hanford, Kings County, and Selma and Parlier, Fresno County, each costing $15,000. Figures are now being taken for a similar building to be erected in Reedley, Fresno County, costing $25,000. Plans for this building were prepared by Architects, Glass & Butner, Rowell Bldg., Fresno. These architects will most probably prepare plans for the other buildings.

FRESNO, FRESNO CO., CAL. Warehouse, 1 story, frame, $2,000. Architect, none. Owners, Guggenhime Co., Santa Fe and Santa Clara avenues, Fresno. Location, lots 17 and 22, block 140. Plans complete and work to be done by Day Labor.

FRESNO, FRESNO CO., CAL. Packing house alterations, 1 story, frame, $5,000. Architect, none. Owners, Guggenhime Co., Santa Fe and Santa Clara avenue, Fresno. Location, Ventura and Santa Fe avenues. Plans complete and work to be done by Day Labor.

STOCKTON, SAN JOAQUIN CO., CAL.—Warehouse, 5 story and base, reinforced concrete. Cost not stated. Architect, Glenn Allen, Ritz Hotel, S. F. Owner, E. B. Brown. Only sketches of this building have been prepared and the architect declines to give details until plans are more advanced.

SEATTLE, WASH.—Grain elevator, 4 story, reinforced concrete, $114,000. Engineer, Port of Seattle Commission, Seattle. Owners, City of Seattle. P. A. Harrington, Oriental Bldg., Seattle, submitted the lowest bid for this work at $114,000 and will probably be awarded the contract.

SPOKANE, WASH.—Warehouse, 5 story and base, reinforced concrete. Cost not stated. Architects, Whitehouse & Price, Spokane. Owners, Graf Mfg. Co. Will cover an area of 50 by 100 feet. Plans are being prepared.

FIRE HOUSES AND JAILS.

APPLICATIONS TO STATE WATER COMMISSION.

Henry Fisher of Redlands has applied to the State Water Commission for permission to appropriate 10 miner's inches of the water of a storm water drain built by the City of Redlands and which carries sporadic quantities of water, for the purpose of irrigating property within the city limits. The point of diversion is given as being on San Mateo Street near Chestnut avenue.

Ed Fletcher of San Diego has applied for permission to appropriate 8 cubic feet per second of the waters of Escondido Creek in San Diego county for irrigation. The proposed works consists of a diversion and storage dam 140 feet high, 400 feet long on top and 200 at the bottom of concrete construction, capable of storing 12,011 acre feet of water, and two miles of main canal. The number of acres it is proposed to water is given as 3600 and the estimated cost as $250,000.

Mrs. Alexander Frakes of Elizabeth Lake, Los Angeles county, has applied for permission to appropriate two-fifths of a cubic foot per second of the waters of a spring for irrigation purposes. A pipe line a mile long is proposed to carry the water from the spring to place of use.

John E. Kniernan has applied for permission to appropriate 150 miner's inches of the waters of Soda Creek in Plumas county for placer mining purposes. The applicant proposes to divert the water by means of a ditch three-quarters of a mile long from a small earth dam, the water to be returned to the stream after use.

Benjamin F. Stetson of Napa has applied for permission to appropriate 5 cubic feet per second of the waters of Napa river for irrigation purposes. Applicant proposes to construct a low dam of logs and rocks creating a small reservoir from which to pump the water direct to the land. Applicant states that it is proposed to rebuild the dam each year.

George D. Meikeljohn of Omaha, has applied for permission to appropriate 10 miner's inches of the waters of a spring in San Bernardino county for mining purposes. It is proposed to construct a pipe line four miles long from the point of diversion to the mines at an estimated cost of $5,000.

Herbert L. Whiston of Hesperia has applied for permission to appropriate 12½ miner's inches of the waters of the south fork of Horsethief canyon in San Bernardino county for irrigation. Applicant proposes to build a small concrete dam and construct a pipe line five miles long at a cost of $12,000 for the watering of 160 acres. The Commission allowed until May 1 to file maps.

W. W. Bird has applied for permission to appropriate the waters of Deep Springs and others 28 in number on the border of a lake in Deep Springs Valley for the purpose of irrigation. It is intended to pump the water to a height of 60 feet for the irrigation of 1560 acres. The Commission has allowed applicant until May 1 to file maps. The same applicant has also filed another application for permission to appropriate thirty cubic feet per second of the waters of Wyman Creek and five cubic feet per second of the waters of Deer Creek, both of Inyo county for the irrigation of 7,000 acres. The Commission has allowed until May 1 to file maps.

R. G. Gillespie of Pittsburgh, Pa., has applied for permission to appropriate 55 cubic feet per second of the waters of the South Fork of the North Fork of Yuba river in Rens Ravine for the purpose of generating power for the operation of mining machinery. Applicant has asked for time in which to prepare maps and other data on account of inability to get on the ground by reason of the snow.

COMMISSIONED OFFICERS TO BE HONORED BY UNION LEAGUE CLUB.

A unique smoker will be tendered all Army and Navy Officers in the Bay cities by the Union League Club members on Saturday evening, April 21st.

Everyone who wears an officer's uniform that evening will be the honored and welcomed guest of the Club, the uniform being the only invitation-card required. This applies to officers in the Army Reserve Corps, Naval Reserve, National Guard, active and retired, but all will be expected to come in uniform.

FIXTURE CONTRACT AWARDED.

The Fink & Schindler Co. has been awarded a contract for furnishing and installing new front and interior Circassian walnut office fixtures for Wells-Fargo & Co.'s new offices at 116-118 O'Farrell street.. Mr. J. H. Humphreys, Architect. They have also been awarded a contract for alterations to building at the corner of California and Montgomery streets for the Jack Clunie Estate; and for the mahogany office fixtures for Chapman De Wolfe at California and Montgomery streets.

SEALED PROPOSALS.

PROPOSALS FOR EXCAVATORS.

EXCAVATORS—Department of the Interior, U. S. Reclamation Service, Washington, D. C.—Sealed proposals will be received by the United States Reclamation Service, Denver, Colo., until **2 o'clock p. m. May 10, 1917,** and will then be opened, for furnishing dragline excavators. For particulars address the United States Reclamation Service, Washington, D. C., or Denver, Colo. A. P. DAVIS, chief engineer.

PROPOSALS FOR RECLAMATION STRUCTURES.

RECLAMATION STRUCTURES — Department of the Interior, U. S. Reclamation Service, Washington, D. C.—Sealed proposals for the construction of lateral structures on the Shoshone project, Wyoming, involving about 57 cubic yards of reinforced concrete, 1,500 square yards of grouted paving and the placing in wooden structures of about 10,000 feet, B. M., of lumber will be received at the office of the United States Reclamation Service, Powell, Wyo., until 2 o'clock p. m. May 1, 1917, and will then be opened. The work is located near Garland on the C. B. & Q. Railroad. For information address the United States [illegible]

tion Service, Washington, D. C.; Denver, Colo., or Powell, Wyo. A. P. DAVIS, chief engineer

◆

PROPOSALS FOR BUILDING.

BUILDING Treasury Department, U. S. Coast Guard, Washington, D. C. Sealed proposals will be received at this office until **2 o'clock p. m. of Tuesday, May 15, 1917,** and then publicly opened, for constructing Coast Guard Station No. 321 and accessories at Bolinas Bay, Cal. Specifications and drawings, form of proposal, etc., and full information can be obtained upon application to the superintendent, thirteenth district, Coast Guard, San Francisco, Cal., or to this office. E. P. BERTHOLF, captain commandant.

◆

NOTICE TO CONTRACTORS. OF CANAL CONSTRUCTION.

Sealed proposals will be received by the undersigned at his office at the Hotel Crawford, Willows, Glenn Co., Cal., on or before 12 o'clock noon of the 25th day of April, 1917, for the construction of five and three-quarter miles of Main Canal.

Section 1. 3.25 miles 260,000 cubic yards embankment.

Section 2. 2.50 miles 135,000 cubic yards embankment.

Plans and profiles may be seen at the office of the engineer. Payments by monthly estimates.

GEORGE NELSON, C. E.
Engineer Central Jacinto Irrigation Project, Hotel Crawford, Willows, Cal.
April 4th, 1917.

Proposal For Constructing Tennis Court and Playground and Fencing.

Bids Close April 23rd, 8 P. M.

For furnishing and constructing tennis court and play ground fencing on Thrasher Park Playground in the City of San Leandro.

LOCATION—San Leandro, Alameda County, California.

OWNER—City of San Leandro.

Certified Check of $100 payable to City of San Leandro.

Plans on file at Office of City Clerk W. J. Gannon at San Leandro, Cal.

For further particulars address same.

NOTICE TO PUMP MANUFACTURERS.

Sealed proposals will be received by the undersigned at his office at the Hotel Crawford, Willows, Glenn County, Cal., on or before 12 o'clock noon of the 25th day of April, 1917, for furnishing and erecting four centrifugal pumps at the site of the proposed Main Pumping Station of the Central Jacinto Irrigation Project at Sidds Landing on the Sacramento River in Glenn County, Cal.

The pumps specified are to have a normal capacity of Fifty Thousand Gallons per minute, each, under a total head of thirty feet. The pumps are to operate at a normal speed of 345 revolutions per minute, and are to be direct connected to 500 h. p. motors.

It is desired to make the pumps absolutely interchangeable as far as all parts are concerned.

The pumps when delivering 50,000 G. P. M., against 30 ft. head will be expected to have an efficiency of at least 75 per cent, and when operating against heads as low as 23 ft. to develop such an efficiency as will not overload the motors more than 10 per cent.

A priming pump of suitable capacity for above installation with necessary piping and connections is also wanted. Proposals must state:

Price of pump delivered at Sidds Landing.

Price of erecting the same at site.

Time of delivery.

Terms of payment.

Bidders will also submit a statement showing in detail the construction of their particular make of pump and the guarantees they propose to give as to efficiency, workmanship and materials.

Specifications can be had by applying to the engineer in charge.

NO BIDS LIMITED TO TEN DAYS WILL BE CONSIDERED.

GEORGE NELSON, C. E.
Engineer Central Jacinto Irrigation Project, Hotel Crawford, Willows, Cal.
April 9, 1917.

NOTICE TO ELECTRIC MANUFACTURERS.

Sealed proposals will be received by the undersigned at his office at the Hotel Crawford, Willows, Glenn Co., Cal., on or before 12 o'clock noon of the 25th day of April, 1917, for furnishing the electric equipment for the Sidds Landing Substation, consisting of High-voltage Switches and Transformers, Switchboard (6 panel), 4-500 h. p. Motors, some Small Motors and Lighting Transformers.

Proposals must state:

Price of equipment delivered at Sidds Landing.

Time of delivery.

Terms of payment.

Bidders will also submit a statement showing in detail the construction of their particular make of equipment and the guaranties they propose to give as to efficiency, workmanship and materials.

Specifications can be had by applying to the engineer in charge.

GEORGE NELSON, C. E.
Engineer Central Jacinto Irrigation Project, Hotel Crawford, Willows, Cal.

PROPOSALS FOR HEATING.

HEATING — Treasury Department, Office of the Supervising Architect, Washington, D. C.—Sealed proposals will be opened in this office at **3 p. m. May 11, 1917,** for a new system of conduit and wiring and alterations in heating system in the United States assay office at Boise, Idaho, in accordance with drawings and specification, copies of which may be had at this office, or at the office of the custodian at Boise, Idaho, in the discretion of the supervising architect. JAMES A. WETMORE, acting supervising architect.

PROPOSALS FOR BUILDING.

BUILDING—Sealed proposals, indorsed "Proposals for Three Magazine Buildings, Kuahua, Hawaii," will be received at the bureau of yards and docks, Navy Department, Washington, D. C., until **3 o'clock p. m. May 7, 1917,** and then and there publicly opened, for one magazine building having concrete foundation walls, reinforced concrete floor, platform and steps, hollow terra cotta tile walls, wood framed roof covered with asbestos shingles, and wood floor on sleepers; one filling house of wood frame construction, built on concrete piers, having the walls and roof covered with corrugated steel; and one test house of wood frame construction built on concrete piers, the exterior walls covered with rustic siding, the roof covered with asbestos shingles, and the interior walls and ceilings sheathed at the navel ammunition depot, Pearl Harbor, Hawaii. Drawings and specifications (No. 2343) may be obtained on application to the bureau or to the commandant of the naval station, Pearl Harbor, Hawaii. Bids will also be received at the naval station, Pearl Harbor, Hawaii, until **9:30 a. m. May 7, 1917,** and then and there publicly opened. F. R. HARRIS, chief of bureau.

◆

PROPOSALS FOR BUILDING.

BUILDING—Sealed proposals indorsed "Proposals for One Magazine for War Heads, Puget Sound, Wash.," will be received at the bureau of yards and docks, Navy Department, Washington, D. C., until **11 o'clock a. m. April 23, 1917,** and then and there publicly opened, for one magazine for war heads, having concrete foundations, platform and floor base, wood floor, stuccoed hollow tile walls and steel roof trusses sheathed and covered with asbestos shingles at the Pacific Coast Torpedo Station, Keyport, Wash. Drawings and specifications (No. 2339) can be obtained on application to the bureau or to the commandant of the navy yard, Puget Sound, Wash. F. R. HARRIS, chief of bureau.

◆

PROPOSALS FOR FUEL.

FUEL—Sealed proposals will be opened by the light house inspector, Ketchikan, Alaska, at **2 o'clock p. m. May 28, 1917,** for furnishing approximately 500 tons steam coal for light house tenders at Cordova, Kodiak and Unalaska, Alaska, and 3,000 barrels fuel oil at Ketchikan and Juneau, Alaska, and recharging approximately 1,000 cylinders with acetylene gas. Information upon application to the above office.

◆

PROPOSALS FOR DREDGE.

DREDGE—Office of the General Purchasing Agent, Alaskan Engineering Commission, Washington, D. C.—Sealed proposals will be received here until **April 23, 1917,** under circular 258 for furnishing one steam-driven suction dredge. For further information address C. E. DOLE, general purchasing agent.

◆

PROPOSALS FOR EARTHWORK.

EARTHWORK—Department of the Interior, U. S. Reclamation Service, Washington, D. C. Sealed proposals will be received at the office of the

United States Reclamation Service, Malta, Mont., until **2 o'clock p. m. April 25, 1917,** for earthwork, Nelson Reservoir South Canal, Milk River project, involving about 7,500 cubic yards of excavation and 7,500 cubic yards of earth lining. The work is located about ten miles from Saco, Mont., on the Great Northern Railway. For particulars address the United States Reclamation Service, Malta, Mont.; Denver, Colo., or Washington, D. C. A. P. DAVIS, chief engineer.

NOTICE TO CONTRACTORS.

DREDGE FOR SALE.

BIDS will be received at the office of W. J. Roberts, Chief Engineer, Inter-County River Improvement, 401 Court House, Tacoma, Washington, **until noon April 22, 1917, for the purchase of a 20-inch hydraulic electric dredge with pontoons, pipe, derrick scow and other equipment.** Each bid must be accompanied by a certified check for 5% of amount bid, payable to the Treasurer of Pierce County, Washington. Full information on application. (*)

STREET WORK BIDS WANTED.

RICHMOND, Contra Costa Co., Cal.—City Clerk A. C. Faris will receive bids up to April 23rd, 8:30 P. M., for the following work:

That South street, from the SW line of Wall's Addition to the S line of Wall avenue; Wall avenue, from the extension S of the E line of Block 186 of said Wall's Addition to the Extension N of the W line of Block 196 of said Wall's Addition; and Forty-first street, from the extension W of the N line of said Block 196 to the N line of Cutting Boulevard, including all intersections and terminations therein contained, and including all that part of Thirty-seventh street bet. the N line of Wall avenue and a line drawn from the SE corner of Block 185, Wall's Addition to the most westerly corner of Lot 17, Block 184, Wall's Addition, be graded paved with a 5-inch concrete base with a paint top wearing surface consisting of asphalt and rock screenings; that cement concrete curbs with galvanized steel curb bars, cement concrete sidewalks, culverts of corrugated iron and concrete, with concrete wing walls and portals, and parkings with redwood curbs, be constructed thereon.

Certified check of 10% payable to City of Richmond.

PROPOSALS FOR STREET WORK.

STOCKTON, San Joaquin Co., Cal.—Sealed bids will be received by the City Council of the City of Stockton, San Joaquin County, California, up to and including 10:30 A. M. on April 20th for street improvements authorized under the following resolutions:

That A, B, D and E streets, each from the south line of East Market street to the north line of Fair Oaks avenue and that C street from the south line of East Market street to a line parallel to the south line of East Washington street and a portion of C street from East Washington to Fair Oaks avenue be improved as follows:

(1) By grading the full width thereof.

(2) By curbing and guttering both sides of the roadway of each of said streets with combined concrete curb and gutter, having the curb portion thereof six inches wide, and twelve inches deep, and the gutter portion thereof twenty-four inches wide, and six inches thick.

(3) By constructing concrete sidewalks five feet wide and four inches thick on both sides of each of said streets, including sidewalk intersections.

(4) By paving the roadway of each of said streets between the gutter lines thereof, with asphalt concrete four inches thick after rolling, on a base of gravel of a cementing nature, two inches thick after rolling.

The asphalt concrete shall consist of two layers, a base layer of two and one-half inches thickness after rolling, and a wearing surface of one and one-half inches thickness after rolling. The two and one-half inch layer shall be composed of asphaltic cement, sand, gravel or crushed rock and screenings proportioned in such quantities as will give a compact homogeneous concrete. The one and one-half inche layer shall be composed of asphaltic cement, sand, gravel or crushed rock and stone dust mixed according to the Topeka specifications.

That the alleys in blocks numbered 7, 9, 16, 20, 21, 22, for their full length and width in said blocks, and that portion of the alley in block numbered 17, from the west line of D street to a line drawn parallel to the west line of D street and distant 300 feet westerly be graded with 2-inch x 12-inch redwood curbs on both sides and paved between curbs with gravel of cementing nature four inches thick after rolling.

TO INSTALL GAS SERVICE.

BENECIA, Solano Co., Cal.—Seventy-five thousand dollars will be spent by the Pacific Gas & Electric Company installing a gas service in Benicia, if enough signers can be secured.

J. A. Royster is representing the company and says he expects no difficulty in getting the required number, which is 400. A pipe line will be run from Vallejo.

GYPSUM REPORT ISSUED.

The Geological Survey, Department of the Interior, now has available for distribution its annual statement on Gypsum for 1915, which states the quantity of crude gypsum mined in the United States during the year to be 2,447,611 short tons.

ARTIFICIAL SUNSHINE FOR AGRICULTURE.

Among numerous efforts toward intensive cultivation of land and increased productivity of crops in England, perhaps none is more interesting than the subsidized experiment in growing cereals and other field crops with the assistance of overhead electric current. The experiments with electrical discharge as affecting agriculture will be supervised and the results tabulated by Prof. V. H. Blackman, professor of plant physiology and pathology at South Kensington, a special grant having been made by the Development Commissioners for this research work, which is to be carried out at Huntington Court Farm, near Hereford.

Prof. Blackman is reported to have said that the purpose of the experiment "is to carry to a larger scale the successful work which has been done during the last few years near Dumfries, where in 1916 an increase of amout 50 per cent in grain and 85 per cent in straw was obtained on oats as a result from overhead electrical discharge. This was on a small scale—1 acre only. At Huntington Court Farm we shall experiment with 40 or 50 acres of cereal and other field crops."

The London Daily Mail for March 5, 1917, contained the following regarding the proposed experiment:

"One reason why Hereford was selected is that the electric main runs out rather far from the town, and some of the farmers in the neighborhood already use electricity for driving their machines. One milks his cows by an electric device.

The main has to be extended only another mile to reach the farm, and as soon as we can obtain a certain type of machine which we need we will get to work. That may be in a month or six weeks from now. The Hereford corporation are taking a great interest in the enterprise.

Associated with Prof. Blackman in the experiments will be Mr. I. Jorgensen, a Danish electrical engineer, who, becoming interested in the effect of electricity on crops, came to this country to see what was being done. For some time he worked with Prof. Priestley at Leeds University, but latterly has been with Prof. Blackman at South Kensington."

FOREST SERVICE ADDS A NEW OFFICE.

An office primarily for the handling of suggestions from the public has been added to the Forest Service organization in San Francisco, according to District Forester DuBois in a statement given out recently.

This office will be conducted along the same line as similar offices in railroad, telephone, street car companies, and other large public service corporations. It will be given special consideration and investigation to all suggestions for the betterment of the service rendered on the National Forests Suggestions, which are said to be gladly invited, will be referred to the proper officer and followed up. Campers and travelers within the National Forests who have suggestions for the betterment of the Forests as recreation grounds will, it is said, be given an attentive hearing. Stockmen, grazing permittees, and others interested in the grazing privileges on the National Forests, who have suggestions to make pertaining to the grazing industry are invited to communicate with this office. Those having suggestions for the betterment of the forest fire protective system of the Government are particularly invited, according to the officials, to present their views. In short, any suggestion for the improvement, admistration, protection, and development of the eighteen National Forests wholly or partly in California, will be carefully considered and, it is said, if found practicable, will be acted upon.

ADVANCE CONSTRUCTION NEWS.

Classified According to Location.

SAN FRANCISCO.

APARAMENT HOUSE—4 story and base, brick and steel, $60,000. San Francisco. Architect, none. Owner, John Dempniak, 1665 Washington St., S. F. Location, east Mason south Bush, covering an area of 50 by 84 feet. Will contnain 27 apartments of two and three rooms. Plans complete and segregated figures being taken for all parts of the work.

PARTMENT HOUSE ALTERATIONS—2 story, frame, $15,000. San Francisco. Architects, Heiman & Schwartz, 212 Stockton street, S. F. Owners, Sara Mish Estate. Location, northwest corner Oak and Devisadero streets. The present building containing five stores and a number of large flats will be altered for twelve apartments on the upper floor and the stores modernized and a full basement excavated. Plans are complete and figures being taken.

APARTMENT HOUSE—5 story and base, reinforced concrete, $80,000. San Francisco. Architect, Benj. G. McDougall, Sheldon Bldg., S. F. Owners, Nightingale Estate. Location, Haight and Webster streets. Will contain 36 apartments of two and three rooms. Plans are complete and segregated figures being taken.

APARTMENT HOUSE—3 story and base, frame, $18,000. San Francisco. Architect, Theodore Lenzen, Humboldt Bank Bldg., S. F. Owners name not given. Location, Eddy and Franklin streets. Will contain store on the first floor and a number of three and four room suites above. Plans complete and figures being taken.

APARTMENT HOUSE—3 story and base, frame, $25,000. San Francisco. Architect, none. Owner, J. V. Campbell, 1040 Bryant street, S. F. Location, southeast Pine and Larkin Sts., covering an area of 50 by 47½ feet. Will contain 20 suites of two and three rooms. Plans complete and work to be done by Day Labor.

FACTORY AND WAREHOUSE—4 story and base, reinforced concrete. Cost not stated. San Francisco. Engineer, George Wagner, 251 Kearny street, S. F. Owners, Fleischacher Paper Box Co. Location, Harrison and Second streets. As soon as plans can be completed they will be turned over to the Clinton Construction Co., who will erect the building on the percentage basis.

FLATS—2 story and base, frame, $5,000. San Francisco. Architects, Heiman & Schwartz, 212 Stockton St., S. F. Owner, Louis Friedman. Location, 25th near Mission. Will contain two stores on the first floor and an apartment of three rooms on the upper floor. Plans are being prepared.

FLATS—3 story and base, frame, $10,000. San Francisco. Architect, C. O. Clausen, Hearst Bldg., S. F. Owner, E. A. Janssen, Hearst Bldg. Location, northeast 15th avenue and Geary street, covering an area of 25 by 67½ feet. Will contain six apartment flats, each of four rooms and bath. Basement garage. Plans complete and work to be done by Day Labor.

RESIDENCE—1 story and base, frame, $2,000. San Francisco. Architect, none. Owner, Thomas Hamill, 4109 Balboa street, S. F. Location, east 42nd avenue south Balboa. Will contain six rooms and bath. Plans complete and work to be done by Day Labor.

RESIDENCE ALTERATION — 2 story, frame, $2,000. San Francisco. Architect, none. Owner, J. P. Rice, 1408 California street, S. F. Location, 1179 Oak street. Work will consist of interior decorations, etc. Plans complete and work to be done by Day Labor.

RESIDENCE—2 story and base, frame, $8,000. San Francisco. Architects, Ward & Blohme, Alaska-Commercial Bldg., S. F. Owner, Mrs. T. Regensburger. Location, Broderick street. Will contain ten rooms, two baths and basement garage. Plans complete and figures being taken.

SCHOOL PLUMBING, ETC. — Cost not stated. San Francisco. Architect, none. Owners, City and County of San Francisco. All bids received for additional plumbing and lavatories at the Francis Scott Key School have been rejected and the Superintendent of Buildings has been authorized to do the work by Day Labor.

STORE AND OFFICE—1 story, base and mezzanine floor. Class C construction, $18,000. San Francisco. Architects, Heiman & Schwartz, 212 Stockton street, S. F. Owner, L. A. Myers. Location, south Pine east Sansome. Will contain a large store and the office of the owner. Plans complete and figugres being taken.

LOFTS ADDITION—2 story. Class C construction. Cost not stated. San Francisco. Architects, Welsh & Carey, Merchants' National Bank Bldg., S. F. Owner, P. J. Whelan. Location, Howard and Tehama streets. Will contain light manufacturing lofts. Plans complete and figures being taken.

APARTMENT HOUSE—5 story and base. Class C construction, $85,000. San Francisco. Architects, Falch & Knoll, Hearst Bldg., S. F. Owner, Anton Rulfs. Location, north Geary west Leavenworth. Will contain 36 apartments of two and three rooms. Plans complete and segregated figures being taken.

RESIDENCE—2 story and base, brick veneer, $11,000. San Francisco. Architects, Rousseau & Rousseau, 110 Sutter street, S. F. Owner's name not given. Location, Westwood Park. Will contain seven rooms, two baths and basement garage. Plans complete and figures being taken.

RESIDENCES—2, 2 story and base, frame, $3,500 each. San Francisco. Architect, none. Owner, W. J. McKillop, 540 Cole street, S. F. Location, east 48th avenue south Balboa. Each house will contain seven rooms, bath and basement garage. Plans complete and work to be done by Day Labor.

STORE—1 story and base, brick. Cost not stated. San Francisco. Architects, Antonovich & Harris, 20 Montgomery street, S. F. Owner's name not given. Location, Howard and Fremont streets. Will contain a store, factory and office. Plans complete and contract to be awarded.

Contract Awarded.

RECEIVE FIGURES FOR OAKLAND SCHOOL JOB.

Bids for Small Work at Lakeview Unit No. 3 Are Referred to District Attorney's Office.

Bids were opened on April 9th by the Oakland Board of Education for constructing a pergola, grading and foundation work for unit No. 3 of the Lakeview School Annex, located at Perry and Van Buren streets. The following bids were received:

Lakeview Unit No. 3.

R. W. Littlefield	$6,990
Christensen & Son	7,260
J. C. Neilsen	7,562
George Armstrong	7,615

All bids were referred to the District Attorney.

WILD FLOWER FETE.

Two carloads of yellow pine trees from the Feather River country of the Plumas National Forest and a number of California juniper from the Santa Barbara National Forest will be supplied by the Forest Service for the California Forest and Wild Flower Fete to be held at the Fairmount Hotel April 24-28, according to a report given out by the Forest Service. The exhibition which is given annually for the benefit of the San Francisco Boy's Outing Farm, will be held in the ballroom of the Fairmont Hotel and will consist of woodland, lake, stream, and mountain scenes as a background and setting for a display of California wild flowers.

In addition to supplying trees and shrubbery from the National Forests, the Forest Service will install a model ranger camp equipped with government telephone, heliograph, and fire fighting tools. A forest officer will be in charge to distribute maps and information concerning the National Forests in California and to explain the ways in which the Government protects and administers its forests and watersheds.

PUTTING NATIONAL ELECTRICAL SAFETY CODE INTO EFFECT.

Many companies are voluntarily putting into effect the National Electrical Safety Code, in the preparation of which the United States Bureau of Standards co-operated with leading electrical engineers and representatives of light and power interests, electric railways, telephone and telegraph companies, and manufacturers of electrical goods. Besides those who have already adopted the code, many others are studying it. One thousand copies of the publication of the Bureau of Standards which contains the code have been distributed to commissions, State officials, inspectors, and persons who were interested in its preparation, and in addition nearly 10,000 copies have been sold. Some State commissions are considering it for official adoption.

The bureau mentioned has a large correspondence in connection with this work, and is preparing a supplementary publication upon the scope

and application of the code. It is expected that the new publication will be of considerable assistance to administrators as well as to officials of electrical operating companies and others.

◆

FIGHTING PARSON ROASTS "PACIFICISTS."

In a masterly speech delivered recently at the Palace Hotel before the members of the Home Industry League of California the "Slackers," the "anti-preparedness" leaders, "peace-at-any-price" people, and the "foreign-born" element of the population of the United States who opposed the entry of the United States into the European War were roasted, turned, skinned and done all over again by the Rev. James W. Kramer, D. D., of San Jose.

After prefacing his declarations with an explanation that all his own forefathers were of German extract and that he himself is a Southerner; after insisting that he hated war and considered most of them in the past as unnecessary and wars that could easily have been averted; and after stating that he had not voted for Wilson—the Doctor hailed Woodrow Wilson as the "Second Abraham Lincoln," as the man who has started in to put an end to political "slavery" in Europe; that the war of the United States against Germany is a truly "holy" war; that the raising of a great American navy and army at this time is as honorable and right and just, for the nation, as it has been honorable, just and right for cities, up to this time, to have an armed and clubbed police. He insisted that every church in the land is as much a factor in "preparedness" as will be the great army of trained men which America ought to have today.

Dr. Kramer, famous as the minister who "converted" Bob Fitzsimmons from a prize-fighter to a preacher, and who preaches every Sunday to the largest Protestant congregation in Northern California, flayed the clergymen who are arrayed against the present war, quoting the Bible at length to prove that the war is rightful.

"No man who is not a fighter has any business to be a clergyman;" "The broadest platform on which anyone in the country can stand today is —'I am an American citizen.'" "War as War is an outrage—and this will be the last of the wars; but unless America does her part now the world will become a re-incarnated hell."—were some of the speaker's sentiments that were accorded a tremendous reception by the large gathering of California manufacturers.

◆

BONDED INDEBTEDNESS CARRIES GREAT ANNUAL INTEREST BILL.

State Controller John S. Chambers in his forthcoming annual report as to the financial transactions of the counties and cities of California has a very interesting chapter on the bonded indebtedness of the State and its political subdivisions. The figures he gives only include bond issues outstanding as of June 30, 1916, the end of the fiscal period, and do not include such issues as the $15,000,000 voted for highway purposes and many other issues which run the grand total considerably higher than that shown in the report. The total in the report as of the date mentioned is $225,041,735.33. Of this amount the bonded indebtedness by the State totals $33,013,500; of the counties $56,461,189.94, and of the municipalities $135,567,045.39.

The interest paid last year on the bond issues of the cities and counties amounted to $8,627,462.74, while the total of the bonds redeemed was $7,568,410. In other words, the interest cost exceeded the redemption of bonds by $1,059,052.74. Including the interest paid by the State, the total bill was considerably in excess of $10,000,000.

Bond issues totaling $12,679,500 offered in various counties and cities were rejected by the people last year.

Controller Chambers repeats his warning of previous years to the effect that bond issues should be held to matters of the first importance which would impose too heavy a present burden if undertaken by direct taxation. And such bond issues, he states, should be short-term serials, the life thereof not exceeding, and preferably being under the estimated life of the proposed improvement.

◆

RECIPES FOR KILLING FLIES.

The United States Government makes the following suggestion for the destruction of house flies: Formaldehyde and sodium salicylate are the two best fly poisons. Both are superior to arsenic. They have their advantage for household use. They are not a poison to children; they are convenient to handle, their dilutions are simple and they attract the flies.

Preparation of Solutions.

A formaldehyde solution of approximately the correct strength may be made by adding 3 teaspoonfuls of the concentrated formaldehyde solution, commercially known as formalin, to a pint of water. Similarly, the proper concentration of sodium salicylate may be obtained by dissolving 3 teaspoonsful of the pure chemical (a powder) to a pint of water.

A simple container has been found convenient for automatically keeping the solution always available for flies to drink. An ordinary, thin-walled drinking glass is filled or partially filled with the solution. A saucer, or small plate, in which is placed a piece of WHITE blotting paper cut the size of the dish, is put bottom up over the glass. The whole is then quickly inverted, a match placed under the edge of the glass, and the container is ready for use. As the solution dries out of the saucer the liquid seal at the edge of the glass is broken and more liquid flows into the lower receptacle. Thus the paper is always kept moist.

Other Simple Preventives.

Any oder pleasing to man is offensive to the fly and vice versa, and will drive them away.

Take five cents' worth of oil of lavender, mix it with the same quantity of water, put it in a common glass atomizer and spray it around the rooms where flies are. In the dining room spray it lavishly even on the table linen. The odor is very disagreeable to flies but refreshing to most people.

Geranium, mignonette, heliotrope and white clover are offensive to flies. They especially dislike the odor of honeysuckle and hop blossoms.

According to a French scientist flies have intense hatred for the color blue. Rooms decorated in blue will help to keep out the flies.

Mix together one tablespoonful of cream, one of ground black pepper and one of brown sugar. This mixture is poisonous to flies. Put in a saucer, darken the room except one window and in that set the saucer.

To clear the house of flies, burn pyrethrum powder. This stupefies the flies, but they must be SWEPT UP and BURNED.

Recipes for Stables, Barns and Out-of-doors.

Borax is especially valuable around farms and out of doors. One pound of borax to twelve bushels of manure will be found desirable as a poison without injuring its manurial qualities or farm stock. Scatter the borax over the manure and sprinkle with water.

Lye, chloride of lime, or copperas (sulphate of iron) dissolved in water, crude carbolic acid, or any kind of disinfectant may be used in vaults.—Merchants' Ass'n. of New York.

◆

COST OF GOVERNMENT IN 1916 LESS THAN IN PREVIOUS YEAR.

State Controller John S. Chambers has just sent to the State Printer the copy of his annual publication as to the financial transactions of the counties and cities of California.

This particular issue is the most complete and interesting of any yet given to the public by the Controller's office. It shows for 1916 a total gross expenditure upon the part of the State, the counties and the cities of $175,868,482.94, as compared with a total gross in 1915 of $176,422,682.33. These gross expenditures are what are technically known as government "payments." They include agency transactions, which means where one form of government acts as an agent for another form, just as the State does with the counties and the counties do with the State, and also include the use of money derived from the sale of bonds. The proper time, of course, in which to charge bond money against a government is when the bonds are redeemed. If the money expended from the proceeds of bond sales is charged against the government, and later when the bonds are redeemed a like charge is made, a duplication ensues and the cost of government is made proportionately higher than it should be.

In 1916 the gross payments by the State government were $36,035,889.77, as compared with $36,529,953.04 in 1915; the gross payments by the counties ran $74,649,396.73, as compared with $69,970,496.88 in 1915, and the gross payments by the cities were $65,183,196.44, as against $69,922,592.41 in 1915.

Controller Chambers in the forthcoming report not only shows the gross expenditures and the receipts of the various forms of government, but he has segregated the disbursements by functions showing what the State, the counties and the cities expended

in 1916 along such lines of classification. This is the first time in the history of California that a table of this kind was ever compiled and the opportunity is offered, therefore, not only of comparing receipts and gross expenditures but also in detail the purposes for which the money was spent.

KILL FLIES AND SAVE LIVES.

Kill at once every fly you can find and burn his body.

Observers say that there are many reasons to believe there will be more flies this season than for a number of years.

The killing of just one fly NOW means there will be billions and trillions less next summer.

Clean up your own premises; see and insist that your neighbors do likewise.

Especially clean "out-of-the-way-places," and every nook nad cranny.

Flies will not go where there is nothing to eat, and their principal diet is too filthy to mention.

The Fly is the Tie That Binds the Unhealthy to the Healthy!

The fly has no equal as a germ "carrier;" as many as five hundred million germs have been found in and on the body of a single fly.

It is definitely known that the fly is the "carrier" of the germs of typhoid fever; it is widely believed that it is also the "carrier" of other diseases, including possibly infantile paralysis.

The very presence of a fly is a signal and notification that a housekeeper is uncleanly and inefficient.

Do not wait until the insects begin to pester; anticipate the annoyance.

April, May and June are the best months to conduct an anti-fly campaign.

The farming and suburban districts provide ideal breeding places, and the new born flies do not remain at their birth place but migrate, using railroads and other means of transportation, to towns and cities.

Kill flies and save lives!

COOK PORK THOROUGHLY.

Eating insufficiently cooked pork recently caused serious illnesses in every member of a Marin County family of thirteen persons, except a babe in arms. The cases were investigated by the Bureau of Communicable Diseases of the California State Board of Health and it was determined that the twleve patients were suffering from trichinosis, a disease that exists chiefly in rats, hogs and men.

Rats become infected through eating scraps of infected meat about slaughter houses and through eating each other. Hogs become infected through eating rats, and men become infected through eating hogs. If pork is thoroughly cooked before eating, however, there is no danger of contracting the disease. Trichinosis is without doubt more prevalent than is generally known, many cases being mistaken for other diseases. Housewives should always cook pork thoroughly in order to make certain that dangerous meat is not served on the family table.

CHANGE OF GEOGRAPHIC NAMES IN PANAMA.

The Government of Panama has decreed that all places in Panama shall bear Indian or Spanish names. Some of the places now bearing foreign names originally bore Indian or Spanish names, and in such cases the original names will be restored, while new Spanish names will be given to all other places now known under names originating in other countries. The law providing for these changes, which is published in the Gaceta Oficial of January 24, will be followed three months later by a Government decree announcing the official Indian or Spanish names of all places in Panama, and nine months later the post office will refuse to deliver letters addressed to foreign names of places in Panama. Advertisements and labels must be correctly spelled in Spanish, though the equivalent in another language may appear above or below the Spanish. The Department of Public Instruction will assist in the preparation of the list of geographic names, and will see that the new names are taught in all the schools of Panama.

GOVERNMENT PUBLICATIONS FOR SALE.

The following were among the publications received in stock for sale by the Superintendent of Documents at Washington:

Far Eastern Markets for American Hardware (Foreign and Domestic Commerce Bureau of Miscellaneous Series 50).—An account of the methods of doing business, the pitfalls to be avoided, and a description of hardware articles specially designed for occidental needs. Price, 25 cents.

AUTOMATIC BLOCK SIGNALS.

In only one case out of 89,000 operations have the automatic block signals of the Southern Pacific, on the average, failed to give proper indication to the engineer in the cab. By failure is not that the engineer was not warned of danger, but rather that he was held back when the track was clear.

This remarkable record is brought in a report just prepared by signal engineer W. E. Boland of the Company covering a period of one year.

Boland's report reads "so faithful are the automatic block signals in their operations that, during the last year, failures have averaged only one in eighty-nine thousand and practically in all cases the worst that happened was to delay a train. Automatic block signals work on the principle of 'When in doubt, take the safest course,' which, in the case, is to stop. Their action is positive, and if anything goes wrong they will give a stop indication."

There are almost seven thousand automatic block signals in use on the Southern Pacific representing an investment of about four and a half million dollars. In 1916, they protected about seventy one million train operations.

STIRLING CITY, Butte Co., Cal.—S. Anderson of Oakland, who purchased the L. Snow timber holdings below Doon, on the Siskiyou branch of the Southern Pacific, has a crew of men erecting a mill.

ORLAND, Glenn Co., Cal. The old Odd Fellows' Building, one of Orland's historic landmarks, will be razed within the next few weeks to be replaced by a modern concrete business building.

The owner of the structure, Dan Sturm, has made definite arrangements for the new building, actual work on which will start within the next few weeks.

The walls of the new building will be of sufficient strength to permit of additional stories being added should occasion later arise.

OROVILLE, Butte Co., Cal.—Officials of the Pacific Gas & Electric Comhae announced that within the next two weeks they will start reconstruction on a larger scale of their plant at the foot of Huntoon street. The amount of money that will be involved in the undertaking is not announced.

The company, within another month, also will start tearing down its lighting system in the business district, replacing the present arcs with those of more modern design.

CONSTRUCTION BILLS AS PASSED BY LEGISLATURE.

Improvements and New Construction Provided For Many State Institutions in Bills Passed.

The following bills appropriating money for state construction have been passed by the State Legislature and construction will be ordered as soon as plans can be prepared and approved:

Bills Passed.

Stockton State Hospital, cottages	$ 45,000
Norwalk State Hospital, building	50,000
Norwalk State Hospital, three cottages	135,000
Stockton State Hospital, repairs	8,000
Stockton State Hospital, kitchen and bakery	15,000
Whittier School, trades bldg.	20,000
Whittier School, repairs	20,000
California School for Girls, trades building	8,000
California School for Girls, gymnasium	30,000
California School for Girls, equipment for buildings	6,000
California School for Girls	30,000
Total of bills passed	$654,368

Bills Recommmended By Ways and Means Committee.

Napa State Hospital, laundry	$ 6,000
Napa State Hospital, power power house	6,000
Napa State Hospital, elevators	10,000
Napa State Hospital, sewer system	10,000
San Quentin Prison, re-wiring	32,000
Feeble Minded Home, new construction and site	250,000
State Fair Grounds, agriculture pavilion	300,000
Preston School, repairs, etc.	10,000
Total of bills recommended	$624,000

In order to determine its practicability as a forest fire fighting tool, the Forest Service in California will supply a number of its patrolmen this season with a combination detachable shovel and hoe made to fit one handle. This tool, which is easily portable, it is hoped, will take the place of two separate tools, both heretofore considered essential in forest fire fighting.

In its campaign to make the National Forests in California accessible and inviting as recreation regions, the Forest Service is planning to spend $6,000 this summer in clearing the grounds and establishing camping places on the most traveled roads within the National Forests. The improvements planned include suitable sanitation equipment, and signs along the highways that will call attention of the public to the camps.

CAPITOL SHEET METAL WORKS BRANCHES OUT.

The Capitol Sheet Metal Works begs to announce that a larger company has been organized to be known as the Capitol Art Metal Company, which company has absorbed the Capitol Sheet Metal Works. The factory, which comprises 45,000 square feet, will be located at Richmond, Contra Costa County, Cal., with main offices in San Francisco.

In addition to the lines heretofore manufactured, the new company will make a specialty of the metal furniture line and of steel library stacks and other products.

Mr. G. A. Wieland and Mr. W. F. Aldrich will assume the active management of the new company.

EL CENTRO, Cal.—Improvements the the Imperial Valley's irrigation system in Lower California which will approximate in cost $1,000,000 before late summer are under way along the line of the Alamo Channel. This work is being done in furtherance of the accepted report of Anderson & Grunsky, consulting engineers of the irrigation district.

LINDSAY, Cal.—According to a report made public here, a movement is on foot to consolidate many of the irrigation districts which now receive their water supply from the Kaweah river, and to construct a dam at Three Rivers, costing approximately $8,000,000, for the purpose of impounding sufficient water at all times for all the companies. The project would also include a part of the Lindsay-Stratbmore irrigation district. As yet the details have not been worked out to the entire satisfaction of all concerned.

SACRAMENTO, Cal.—Supervisor McCormick of Solano County was a visitor to District Attorney Hugh Bradford's office to obtain legal advice for the advertising of bids for the steel work on the proposed bridge, connecting Sacramento and Solano Counties at Rio Vista. The two Boards of Supervisors are planning to build the bridge together, and wish to advertise at the same time for the steel contracts.

TRUCKEE, Nevada Co., Cal.—Work has commenced on the new sawmill to be run by R. Gracey at Deep Creek this summer. The capacity of the plant will be approximately 4,000,000 feet for the season. He also intends to ship out in the neighborhood of 5,000 cords of pulp wood to Floriston.

GRASS VALLEY, Nevada Co., Cal.—Father M. Kiely, of this city, acting for the parish at Buena Vista, has awarded the contract for a church in that neighborhood. For a number of years services have been held at the school house.

FIXTURE CONTRACT AWARDED.

Messrs. Wood & Simpson, Architects, have awarded a contract to the Fink & Schindler Company for furnishing mahogany fixtures for the first floor of the Santa Fe Railroad Company Building, Second and Market streets.

C. D. Willard, Cottonwood, Ariz., is in the market for second-hand iron pipe and fittings.

J. D. Gates, Jerome, Ariz., is in the market for a small refrigerating plant.

W. J. Peters, Secretary Recreation League, 634 Prospect St., Petaluma, Cal., is seeking a market for a quantity of waste paper.

MEASLES SWEEPING OVER CALIFORNIA.

Measles is more prevalent now than it has ever been in the history of California. During the first three months of this year, 5565 cases of the disease have been reported to the California State Board of Health, twice as many as were reported during the whole year of 1916. The disease is not confined to any one section of the State. It is sweeping through the big cities and the rural districts, from Shasta to San Diego, from the mountains to the sea. There is not a single county from which cases have not been reported, with the exception of some of the snow-bound districts in the high mountains.

Measles has a way of appearing in wide-spread outbreaks with more or less regularity. The last big epidemic in California was in 1915, when 13,-114 cases were reported to the State Board of Health. In 1914 there were 8852 cases and last year there were 4268 cases. The cases reported by months during 1917 are as follows: January, 1606; February, 3305; March, 3594.

Since measels is one of the most highly communicable of all infectious diseases, it is difficult to control. It is most easily contracted before the eruption appears and before the nature of the disease is recognized. It is not air-borne, but is spread by discharges from the mouth and nose in the very early stages of the disease. If all school children were to be examined each morning before entering school, and if all of those showing symptoms of common colds were excluded from attendance, it might be possible to keep the schools open during epidemics.

Measles is often fatal in children under five years of age and on this account, special protection should be given to very young children. It is a mistake to expose a child to the disease so that he may "get 'em and have 'em over with." The after results may affect the heatlth of the individual all through his life.

While the quarantine of measles is not required under the law, health authorities may isolate cases; in fact, isolation of cases is the only available method for the control of the disease. If parents and teachers were always to report cases that may come to their attention, as the law requires, measles would be much more easy to control. Health officers cannot well fight a disease like measles unless they know where it exists. The co-operation of parents and teachers in reporting is absolutely necessary if the children are to escape this common, but nevertheless serious, disease.

UNITED STATES CIVIL SERVICE EXAMINATION.

Subinspector, Electrical (Male). May 2, 1917.

The United States Civil Service Commission announces an open competitive examination for subinspector, electrical, for men only, on May 2, 1917, at the places mentioned in the list printed hereon. Vancancies occurring in the office of Inspector of Engineering Material at Boston, Mass., Brooklyn, N. Y., Schnectady, N. Y., Philadelphia, Pa., and Pittsburgh, Pa., at entrance salaries ranging from $3.60 to $5.04 per diem, and in positions requiring similar qualifications at any navy yard or other naval establishment of the United States will be filled from this examination, unless it is found in the interest of the service to fill any vacancy by reinstatement, transfer, or promotion. Certification for filling higher-salaried positions will be made from those attaining the highest average percentages in the examination.

In filling vacancies in navy yards and other naval establishments certification will be made of the highest eligibles examined in the vicinity of the place at which the appointee is to be employed, except that upon request of the department certification will be made of the highest eligibles on the register for the entire country who have expressed willingness to accept appointment where the vacancy exists.

The duties of the position cover the shop inspection and testing of all types of generators, transformers, motors, motor generators up to 300 kilowatts capacity, together with their controlling apparatus, and the appointee must be capable of making all calculations and deductions connected therewith.

The work of the subinspector will require travel and temporary location at the various manufacturing plants where contracts for the Navy Department are being carried out.

Competitors will be examined in the following subjects, which will have the relative weights indicated:

Subjects.	Weights.
1. Theoretical and practical questions and calculations in electricity	60
2. Training and experience	40
Total	100

This examination is open to all male citizens of the United States who meet the requirements.

Applicants should at once apply for Form 1312, stating the title of the examination desired, to the Civil Service Commission, Washington, D. C., or to the secretary of the United States Civil Service Board, San Francisco, Sacramento, San Jose, etc. Applications should be properly executed, including the medical and county officer's certificates, and filed with the Commission at Washington in time to arrange for the examination at the place selected by the applicant. The exact title of the examination as given at the head of this announcement should be stated in the application form.

Issued April 3, 1917.

CARLILE P. WINSLOW APPOINTED DIRECTOR FOREST PRODUCTS LABORATORY.

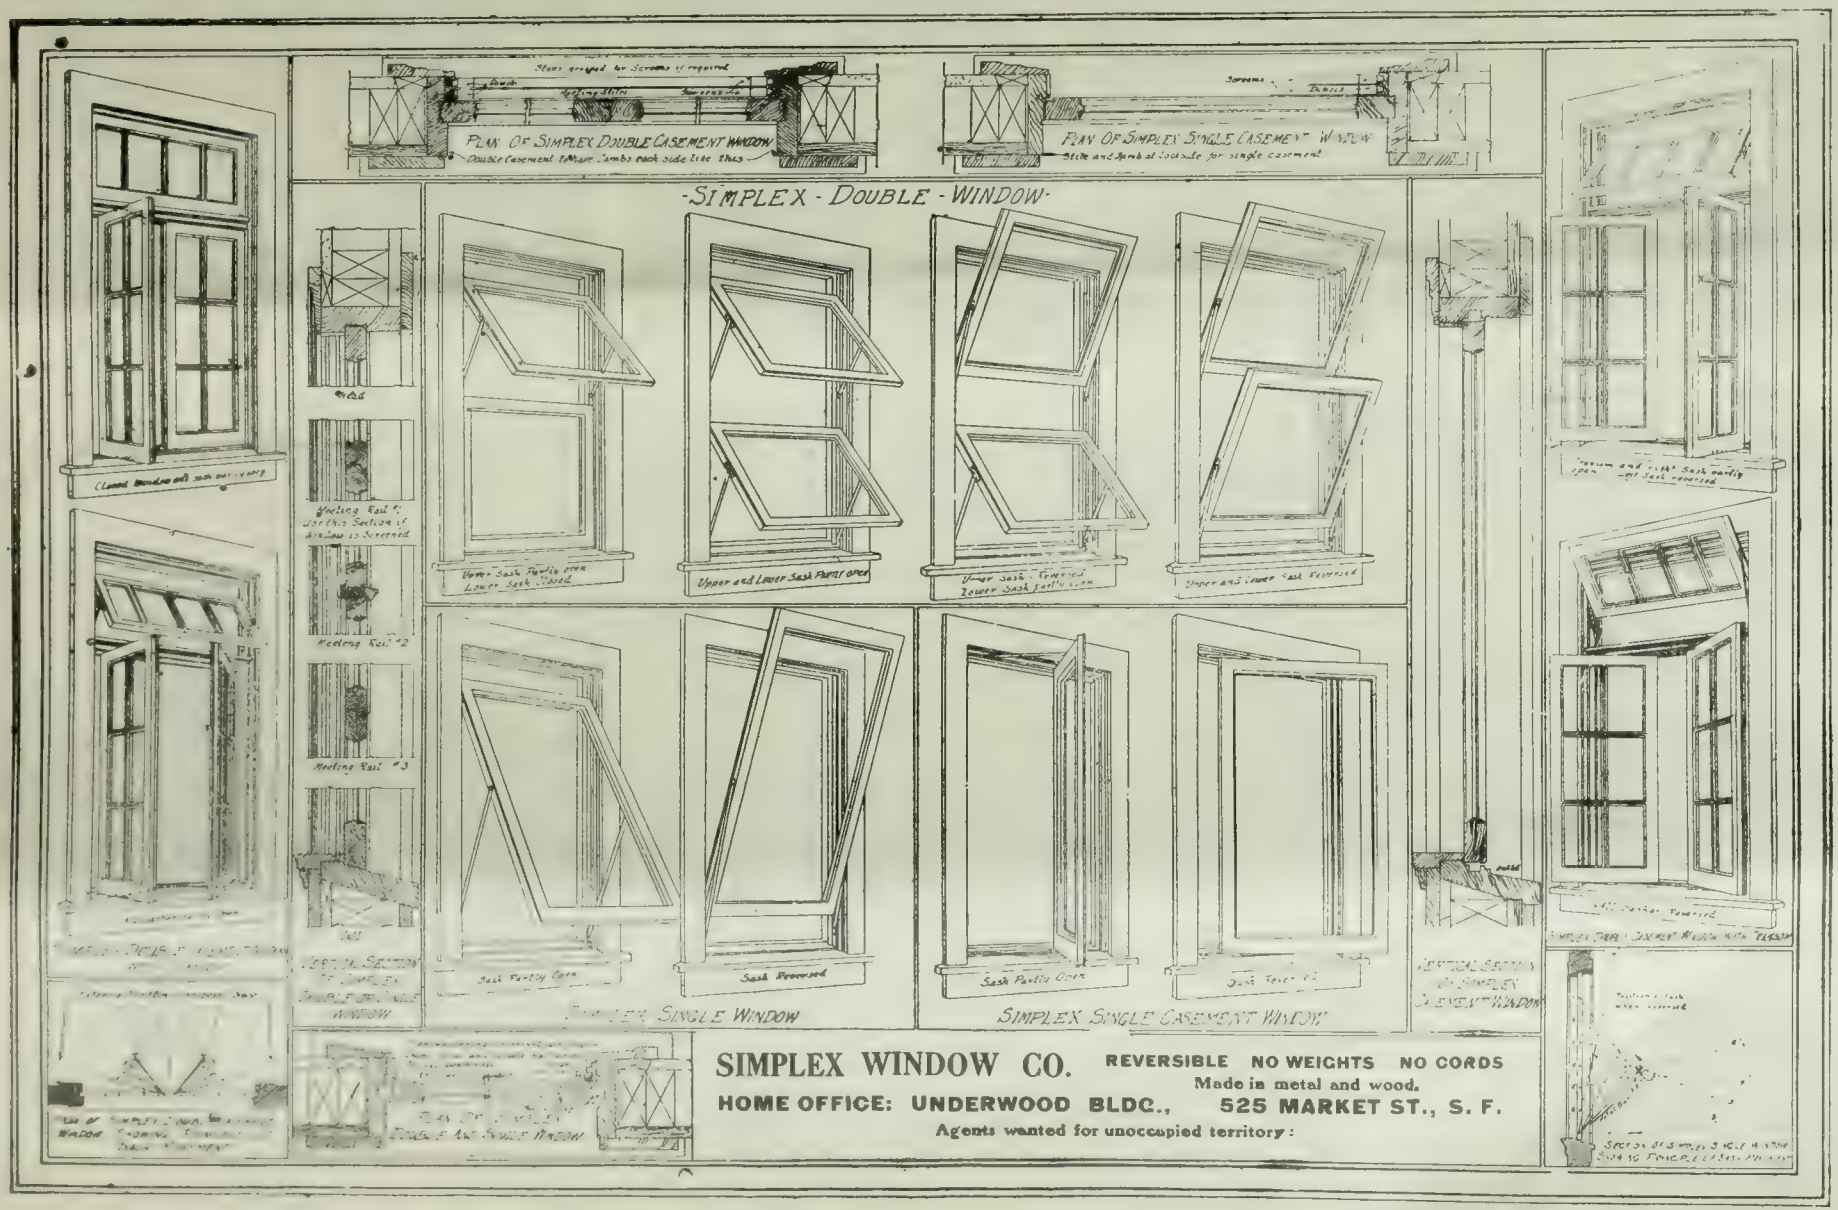
WASHINGTON, D. C. Announcement is made by the Forest Service of the appointment of Carlile P. Winslow as Director of the Forest Products Laboratory, at Madison, Wisconsin, to succeed Howard F. Weiss, whose resignation took place April 1.

Mr. Winslow was graduated from the Sheffield Scientific School of Yale University in 1905, and entered the Forest Service in 1908. Since that time he has been engaged in research work in forest products. For the past four years he has acted as assistant to the Director of the Laboratory. His familiarity with the work of the Labortary and his knowledge of the problems to be studied have led to his selection as the successor of Mr. Weiss.

Before entering the Forest Service, Mr. Winslow was employed in general construction and engineering work. He is an expert on wood preservatives and has done considerable research work on this and allied lines.

CONSTRUCTION WORK ABROAD

CHINA.



Public Improvements in Macao.

Public improvements on a rather extensive scale are being made in Macao, the Portuguese colony situated opposite Hongkong at the mouth of the Pearl River. It is contemplated to fill in extensive lowlands at the rear of the principal portion of the city with earth from near-by hills and to lay out such improved ground into roads and squares along modern lines. The original colony of Macao, the oldest of the sort in the Far East, was established much on the order of Chinese cities, with narrow, winding streets, many narrow and insanitary alleys, and little regard for the use of streets otherwise than by pedestrians, sedan chairs, or, on the level portions, jinrickshas. The Government is constructing the new portion of the city of Macao with comparatively wide, well-paved streets quite suitable for the use of motor cars.

The construction of a dry dock capable of taking medium-sized vessels was inaugurated some time ago, but has been delayed for lack of appropriations. Work has been resumed, and there is some promise of the enterprise being completed in the near future. Plans contemplated further dredging of the port for the accommodation of larger vessels and the safe passage of all vessels, some of which find it difficult at certain stages of water to enter and leave the port.

FOREST NOTES.

For the purpose of maintaining adequate supplies of fire fighting tools where most needed in the National Forests of California, the Forest Service recently placed orders for a supply of portable knockdown tool boxes or kiosks. These boxes, made of heavy galvanized iron, are practically indestructible. Each box is 6 feet long and 2 feet square and will hold 2 dozen or more tools, — such as shovels, axes, hoes, saws, rakes,— used in forest fire fighting. They will be placed at the cross roads and near towns and other strategic places in the Forests where fire fighting equipment may be needed at short notice. Each box is painted a conspicuous color and will be made noticeable by appropriate placards and signs.

UNIVERSAL MILITARY TRAINING.

By Chalmer Munday.

The present world war should teach the people of the United States many lessons. First of all that you must meet conditions as you find them and work out in practical life as far as possible the ideals which you hold, both as individuals and as governments.

Three years ago the average person in the United States did not believe a great war possible. No one in the world, perhaps, outside of the German general staff, thought it possible that all treaties would be absolutely disregarded and the worst practices of barbarism be deliberately planned. The average citizen here did not believe that the United States could become involved in a European war. Yet we have seen that the utmost forbearance of a patient people availed nothing, and the clever diplomacy of a great statesman could do nothing more than fix the burden of the blame.

Military men in all the allied governments, however, saw the inevitable trend of affairs. They saw the tremendous sacrifices that must one day be made on account of the unpreparedness of their countries and warned them against the impending disaster. Their warning fell on deaf ears. Thanks to the broad reaches of the seas and the preparedness of the British Navy this country has not been called upon to make the supreme sacrifice of her sons that has fallen upon the Fair land of France, nor to expend the tremendous supplies of the vital forces of the nation that have been exacted of the British people.

Poor little Belgium lies prostrate in the dust. Her quarrel was just, if ever there was a righteous cause, but even that did not suffice to supply her protection against the ruthless invader. When treaties are but scraps of paper and there is no law and no policeman, then the only protection to society in her fighting men and her organized industries to back them.

President Wilson has well expressed the ideals of this government in its international relations in his great war message. Equality and equal opportunity are likewise the ideals of its citizens. How best to obtain these is the practical end of statesmanship. And in the light of human history and recent events must the problem be solved if any nation would continue to work out its ideals and avert disaster.

Ever since the commencement of this war thinking people have advocated some sort of universal military training. Every thinking man knows that universal military service is the only just means of sharing the obligations of citizenship. Our forefathers fought for the equal burden of taxation. Military service should be part of the burden of every citizen so that he who is a patriot and gives of his blood and his fortune that the country may endure, may not be robbed of his birthright by the slacker and the traitor at heart.

We have all seen how unpreparedness invites disaster. The fair land of France is a desolation, sodden with the blood of her bravest sons, and Belgium is an object of pity for the world. The United States is yet unscathed by the ravages of war only because these nations were partly prepared, and because they had men capable of becoming officers such that an army was soon prepared. England held the breach by her great navy and we are allowed to wrangle over means and methods of meeting the emergency for a period of years. If we had been prepared it is doubtful if Germany would have provoked a war with us by her ruthless submarine warfare.

What the advocates of Universal military training seek is such training for the youth of the land that they will be efficient soldiers or defenders of the nation and of the rights of humanity when called upon. Some system similar to the Swiss republic, that will place an equal burden upon all citizens; that will take a minimum amount of the youth's time in actual service; that will not deprive him of his equal opportunity in business or in his chosen profession in life; a system that will teach him to take care of his body; a system that will train his mind and his body in an orderly manner; a system that is co-ordinated and unified throughout the nation and will make of every able-bodied man an efficient defender if he is ever called upon, and will prevent the tremendous waste that is incident to all abortive attempts to supply an army on short notice. This the the practical way to protect a democracy. Universal military service where all equally share the burden the same as in taxation. Uniform training in the schools such that it fits into the military requirements when the youth takes his place as a soldier or is assigned to some department of the organized industries. An equal and uniform requirement of all citizens in the matter of service, so each has an equal opportunity so far as it can be practically worked out. Under such conditions can we maintain our dignity and self respect and perform our common duty to the cause of humanity.

The nations of the world, its democracies, are now expending their blood and treasure to do away with despotism and its sole support, militarism. It is devoutly to be wished that the result will be soon obtained and that a concert of nations will be attained such that armaments will be practically unnecessary. It is probable that a military oligarchy like that of Germany will not soon arise. But the

trained nation, like the trained man, is at all times able to protect itself, and like the athlete also, is in better health and lives longer as a result of the training.

RECRUITS WANTED FOR ENGINEERING CORPS.

Men skilled in civil engineering and similar occupations wanted in the Engineer Enlisted Reserve Corps of the United States Army for war service. Skilled laborers, mechanics and artisans, miners, surveyors, draftsmen, lithographers, boatmen, electricians, and others engaged in engineering or mechanical lines in civil life wanted for enlistment in the Engineer Reserve Corps of U. S. Army. The War Department desires to secure immediately a large enrollment of enlisted men in this Corps, and suitable men are urged to make application either by mail or in person to one of the followings offices:

District Engineer Officer, 204 Pine St., San Francisco, Cal.

District Engineer Officer, Third District, 405 Custom House, Son Francisco, Cal.

It is vitally necessary that the Corps of Engineers for war service be recruited from the men who in civil life are skilled in engineering professions and trades. There is no time to train engineer soldiers after war has begun.

Very truly yours,
EDW. BURR,
Colonel, Corps of Engineers, Department Engineer, Western Department, U. S. A.

STATE TENEMENT HOUSE ACT KILLED.

SACRAMENTO, Cal., Apr. 20, 1917—That there are more ways than one to kill a bill was shown in the House in the fight over the Harry Wishard measure, amending the State building laws. The measure provides for public safety in buildings and had reached the House floor after a perilous trip through committees and conferences and had withstood considerable amendment operations.

When it came for third reading, Assemblyman Friedman of San Francisco tacked in an amendment to provide that the law would not apply to cities and counties having a building department. This would exclude every city in the State where permits are required to construct any building, and, of course, kill the bill.

Wishard voted against the amendment in a standing vote and when it was announced that the amendment was carried it was impossible for him to change his vote. Finally Henry Hawson gave notice he would move to reconsider the vote by which the amendment was adopted.

COURT CONFIRMS SALE.

SACRAMENTO, Cal., Apr. 20, 1917—J. M. Henderson's big purchase of the William Land Building at Seventh and K streets, for $225,000 has been confirmed by the Court, and the affairs of the large estate will be closed up within the next three weeks. With the distribution of the money, the citizens of this city will receive the $250,000 Land bequest which will be used for the establishment of a William Land Memorial Park.

J. M. Henderson will erect a large Class "A" bank and office building on the Land property at Seventh and K streets.

FAVOR STATE HOME IN SOUTH.

SACRAMENTO, Cal., Apr. 20, 1917—An appropriation of $250,000 to establish an institution in one of the Southern California counties for the care, training and instruction of feeble-minded and epileptic persons and for the study of mental deficiency has been approved by the Assembly. The bill carrying the appropriation was introduced by Assemblyman Ambrose of Los Angeles.

FAVOR HOME FOR INEBRIATES.

SACRAMENTO, Cal., Apr. 20, 1917—Senator Crowley's bill appropriating $100,000 for the construction of a special hospital for inebriates and drug fiends, came to the Senate with a favorable recommendation from the Finance Committee.

The measure by Crowley of San Francisco, is designed to provide a place where special treatment may be given inebriates or drug fiends.

Instead of sending them to an asylum the proponents feel more good can be done by placing them in a hospital where proper medical attention may reclaim them.

NEW USES FOR PORTLAND CEMENT.

A new and remarkable method for waterproofing and cement-finishing rough form concrete structures is being demonstrated on the building occupied by the American Auto Painting Co., located at the southwest corner of Van Ness avenue and Eddy street. Willis Polk & Co., architects.

In order to obtain a similar finish on a rough concrete wall under the old method, it is necessary to plaster the surface, while under the methods employed in this process, the cement is in liquid form and applied with a brush.

The Imperial Company, located at 183 Stevenson street, whose materials (Imperial Waterproofing and Likwid Sement) and method are being used in doing this work, is creating considerable stir in the various building fraternities.

It behooves everyone interested in construction work to examine this building within the next few days while the work is under way. It is a practical demonstration of the many uses to which Portland cement can be applied when in liquid form.

Another attractive building recently finished with these same materials and method is the new Casino Theatre, located at Ellis and Mason streets.

REPRINT PORTION OF MINUTES OF SAN FRANCISCO CHAPTER A. I. A., HELD MAR. 1, 1917.

The following resolution was passed:

In The Matter of The "Architect and Engineer."

A letter, a copy of one sent by Mr. F. W. Jones, editor of the Architect and Engineer, to the Southern California Chapter A. I. A. relative to various matters in which the San Francisco Chapter A. I. A. was interested and particularly to the State Building Competition, was read by Mr. W. B. Faville. The following resolution was offered by Mr. William Mooser and unanimously carried:

WHEREAS, Mr. F. W. Jones, editor of the Architect and Engineer, has sent a defamatory and threatening letter to the Southern California Chapter A. I. A., casting reflections on the integrity of the conduct of the State Building Competition and threatening reprisals on this San Francisco Chapter on account of its having made another publication its official organ; therefore be it

RESOLVED, That the conduct of Mr. F. W. Jones in sending said defamatory and threatening letter, be and is hereby severely condemned; and furthermore be it

RESOLVED, That copies of this resolution be sent to those interested in the building industry, also to the General Contractors' Association, Builders' Exchange and to all kindred associations and to the San Francisco branch of the American Society of Civil Engineers, and also to the Southern California Chapter, the Oregon Chapter and Washington State Chapter of the American Institute of Architects.

Reprint Portion of Minutes of Southern California Chapter A. I. A. Held March 13, 1917.

Communications were next read as follows:

From San Francisco Chapter A. I. A., a telegram with further reference to letter received from the Architect and Engineer by F. W. Jones; the following resolution was passed:

WHEREAS, A copy of resolution recently passed unanimously by the San Francisco Chapter condemning Mr. F. W. Jones, editor of the Architect and Engineer, for having written a letter to this Chapter in which certain defamatory and threatening statements were made regarding members of the San Francisco Chapter in their connection with the San Francisco State Building Competition, was received and read; be it

RESOLVED, That this Chapter unanimously and heartily concurs in the action taken by the San Francisco Chapter concerning the said communication; and furthermore be it

RESOLVED, That a copy of this resolution be sent to the San Francisco Chapter.

(SIGNED)
J. E. ALLISON, President.
A. R. WALKER, Secretary.

GOVERNMENT PUBLICATIONS FOR SALE.

The following were among the publications received in stock for sale by the superintendent of documents, at Washington, during the week ended April 7:

Manufacture and Properties of Sand-Lime Brick (Standards Bureau Technologic Papers 85).—Illustrated description of the essential steps in the process of making a common building material of general importance. Price, 10 cents.

ADVANCE CONSTRUCTION NEWS.

Classified According to Character of Work

APARTMENT HOUSES.

SAN FRANCISCO — Apartment house, 3 story and base, frame, $12,000. Architect, Ernest Hildebrand, Crocker Bldg., S. F. Owner's name withheld. Location not given. Will contain a number of two, three and four room apartments. Plans are being prepared.

OAKLAND, CAL.—Apartment house 3 story and base, frame, $30,000. Architect, A. W. Smith, 1010 Broadway, Oakland. Owner, Mr. Prenviille. Location, southeast East 12th street and First avenue. Will contain a number of three and four room suites. Plans complete and figures being taken.

SAN JOSE, SANTA CLARA CO., CAL.—Apartment house, 2 story and base, frame, $30,000. Architect, Chas. S. McKenzie, Bank of San Jose Bldg., San Jose. Owner, Mitchell Phillipis. Location, opposite St. James Park. Will contain sixteen apartments of two, three and four rooms. Plans complete and figfiures being taken.

VALLEJO, SOLANO CO., CAL. — Apartment house, 2 story and base, frame, $7,000. Architect, none. Owner, Wade H. Madren, Vallejo. Location, Carolina and Sutter streets. Will contain four apartments of three rooms and bath. Plans are being prepared and work will be done by Day Labor.

HANFORD, KINGS CO., CAL. — Apartment house, 3 story and base, brick, $50,000. Architect, James J. Donnellan, Albany Bldck, Oakland. Owner, A. Rutherford. Will cover an area of 75 by 150 feet and will be arranged for three stores and a number of two and three room apartments. Plans are being prepared.

BUTTE, MONT.—Apartment house, 5 story and base, reinforced concrete, $150,000. Architect, Jesse M. Warren, Daly Bank Bldg., Butte. Owner's name not given. Will contain a total of 53 apartments of four and five rooms. Plans complete and figures being taken.

PASADENA, LOS ANGELES CO., CAL.—Apartment house, 2 story and base, frame and plaster, $14,000. Architects, Merriman & Neighbors, Story Bldg., L. A. Owner, A. W. Hookstratten. Location, South Paso Robles near Center, covering an area of 53 by 90 feet. Will contain ten apartments of two rooms each. Plans are being prepared.

LANCASTER, LOS ANGELES CO., CAL.—Apartment house, 2 story and base, brick. Cost not stated. Architects, J. M. Cooper and W. Douglas Lee, Marsh-Strong Bldg., L. A. Owner's name not given. Will cover an are of 50 by 153 feet and contain stores on the first floor and a number of apartments above. Plans are being prepared.

LOS ANGELES, CAL.—Apartment house, 3 story and base. Class C construction. Cost not stated. Architect, E. C. Wiseman, Title Guarantee Bldg., L. A. Owner, Frank E. Ruben. Location, Lake near 11th street. Will contain a number of two, three and four room suites. Plans complete and work to be done by Day Labor.

SEATTLE, WASH. — Apartment house, 3 story and base, briick. Cost not stated. Architect, V. W. Voorhees, Eitel Bldg., Seattle. Owner, W. P. Rafter. Location, Second avenue north Prospect, covering an area of 42 by 140 feet. Will contain fourteen apartments of two and three rooms. Plans complete and figures being taken.

SAN JOSE, Santa Clara Co., Cal.—The County Supervisors will receive bids up to May 21st, 11 A. M., for the construction of a reinforced concrete bridge on Ross avenue over Ross creek in Supervisor District No. 4. Bids will close on the same date for the construction of a reinforced concrete bridge over Los Gatos Creek at Wright's Station.

Plans may be had from the County Clerk at San Jose.

(13831) 1st report Feb. 6, 1917 (14640) 2nd report Mar. 20, 1917.

EUREKA, Humboldt Co., Cal.—Chas. M. Taylor is in Eureka securing bids for the construction of a wharf and trestle for the Rolph Shipbuilding Co. of Eureka. The wharf will be 500 feet long and is estimated to cost $25,000.

RICHMOND, Contra Costa Co., Cal. —John Nicholl of Richmond heads an English syndicate known as the Nicholl Terminal Holding Co., which will expend $5,000,000 in the construction of docks on the Richmond harbor. Nicholl is President of the company with B. J. Dixon as Vice President and Attorney M. R. Jones as Secretary.

The holding company will lease to the syndicate for a long period 240 acres of Richmond water-front lands belonging to John Nicholl, W. G. Henshaw, A. S. Macdonald and the Crooks estate.

The British syndicate has established big docks at Havana and at other big ports.

SACRAMENTO, Cal.—Bids will be received by the California Highway Commission, 515 Forum Bldg., Sacramento, up to 2 P. M., May 14th, for the construction of three reinforced concrete bridges in Siskiyou County, across Little Castle Creek, Greenhorn Creek and Yreka Creek, being respectively 84 feet long, 60 feet long, and 42 feet long.

Also for the paving with Portland cement concrete in Solano County, the highway between the westerly boundary and Cordelia (III-Sol-8-A) the distance being about 3.5 miles.

For the paving with Portland cement concrete in Alameda County, the highway between Santa Rita and Dublin (IV-Ala-5-B) about 3.2 miles long.

For grading about 2.9 miles of highway in Santa Barbara County, between Las Cruces and Gaviota Pass (V-S. B.-2-E)

And for the paving with Portland cement concrete the highway in Los Angeles County between Castaic and Castaic School (VIII-L. A.-4-A) being about 4.1 miles in length..

Plans may be had from the Division Engineers, Rialto Bldg., San Francisco and at Los Angeles.

OLYMPIA, Wash.—Bids have been called for by the State Highway Commission, James Allen, commissioner, Olympia, to be opened on May 14th for the construction of 41 miles of state highway and five bridges.

The improvements included in the present notice call for the following:

Clearing, grading, draining and surfacing of 7 miles of the Olympic Highway from McCleary easterly in Grays Harbor and Thurston counties.

Clearing, grading and draining of 4 miles of the National Park Highway between Nema and Nasel river in Pacific county, 4 miles of the Pacific Highway from Bellingham south in Whatcom county.

Grading, draining and surfacing of 6 miles of the Inland Empire Highway from the east end of Permanent Highway No. 5 through Benton City and Kiona in Benton county.

Clearing and grubbing of 12 miles of the Olympic Highway northwest of Lake Quinault in Grays Harbor and Jefferson counties.

Surfacing with gravel or crushed rock about 8 miles of the Olympic Highway from Mud Bay westerly in Thurston county.

Bids will also be opened at the same time for the construction of a 160 foot steel or timber truss over the Coweman river in Cowlitz county; two 105 ft. and one 160 ft. steel or timber trusses over the Kalama river in Cowlitz county and two concrete arches 50 ft. long over Union Flat creek on the Inland Empire Highway in Whitman county.

SAN FRANCISCO—Reconstructing pier. Cost not stated. Engineer, Chief Engineer White, Ferry Bldg., S. F. Owners, State of California. Bids will be opened on April 26th at 11 a. m. for reconstructing Pier No. 46. Plans can be secured from the Secretary of the State Board of Harbor Commissioners, Ferry Bldg.

SAN FRANCISCO—Briidge. Cost not stated. Engineer, none. The War Department has refused permission to construct any type of a bridge over San Francisco Bay north of Hunter's Point. The department recommends a tunnel under the bay, but would permit the construction of a high level bridge with clear spans of 1,800 feet and a minimum height of 210 feet at any point south of Hunter's Point.

Contract Awarded.

SEATTLE, Wash.—Sub bids are being taken by Booker, Kiehl & Whipple, 507 Central Bldg. Seattle, for the erection of the sub-structure for the Eastlake bridge over the Lake Washington Canal for about 1,000,000 feet of lumber to be used in form work and between 15,000 and 20,000 cubic yards of sand and gravel.

The contract for the cement has been awarded to the Superior Portland Cement Co. and steel to the Trussed Concrete Steel Co.

(11154) 1st report Aug. 25, 1916; 4th

CHURCHES.

VALLEJO, SOLANO CO., CAL.—Church, 1 story and base, brick, $18,000. Architect, L. M. Turton, Napa. Owners, Methodist Church. Location, Virginia street. Will contain a large main auditorium, Sunday school rooms and social hall. Plans are being completed.

FERNDALE, HUMBOLDT CO., CAL.—Church, 2 story and base, frame, $10,000. Architect, W. J. Wythe, Central Bank Bldg., Oakland. Owners, Congregational Church. Will contain an auditorium and Sunday school rooms. Hot air heating system. Plans complete and figures being taken.

KINGSBURG, FRESNO CO., CAL.—Church, 1 story and base, brick, $10,000. Architect, Anton Johnson, Kingsburg. Owners, Swedish Lutheran Church. Location, Draper street. Main auditorium will seat 350 people. Sunday school room and social hall. Plans are being prepared.

Contract for the grading has been awarded to Fleming & Stitzer. Total cost, about $150,000.

MERCED, MERCED CO., CAL. — Passenger and freight depot, 1 story, brick, $7,500. Architect, none. Owners, Santa Fe System. Contractor, T. B. Goodwin, 2245 Filbert street, San Francisco. Contract price, $7,500.

SANTA ROSA, SONOMA CO., CAL. —Passenger station, 1 story and base, stone, $2,766.70. Architect, James H. Humphrey, Wells-Fargo Bldg., S. F. Owners, Wells-Fargo Co. Contractor, N. Forni, Santa Rosa. Contract price, $2,766.70.

RESIDENCES.

SAN FRANCISCO — Residence, 2 story and base, frame, $20,000. Architect, Julia Morgan, Merchants' Exchange Bldg., S. F. Owner, Abraham Rosenberg. Location, Jackson near Spruce street. Will contain fourteen rooms, several baths and separate garage. Plans are complete and figures being taken.

SAN FRANCISCO — Residence, 1½ story and base, frame, $3,000. Architect, none. Owner, A. Lobsien, 230 Upper Terrace, S. F. Location, Upper Terrace. Will contain seven rooms, bath and basement garage. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Residences, 4, 1 story and base, frame, $1,500 each. Architect, none. Owner, L. Depaoli, 3289 Mission street, S. F. Location, northeast Peru and Madrid. Each house will contain five rooms and bath. Plans complete and work to be done by Day Labor.

SAN FRANCISCO — Residence, 2 story and base, frame, $4,000. Architect, Edward E. Young, 251 Kearny street, S. F. Owner, Thomas Scoble, 5445 Geary street, S. F. Location, east 4th avenue south Cabrillo. Will contain seven rooms, two baths and basement garage. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Residences, 2, 1 story and base, frame, $3,000 each. Architects, Koenig & Christiansen, Humboldt Bank Bldg., S. F. Owner, William Koenig. Location, northeast 10th avenue and Morgan. Each house will contain seven rooms, bath and basement garage. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Residences, 3, 2 story and base, frame, $8,000 each. Architects, Heiman & Schwartz, 212 Stockton street, S. F. Owner, A. L. Meyerstein. Location, Forest Hill Extension. Each house will contain ten rooms, two baths and separate garages. Plans are being prepared and will be ready for figures in three weeks.

SAN FRANCISCO — Residence, 2 story and base, frame, $6,000. Architects, Heiman & Schwarts, 212 Stockton street, S. F. Owner, Henry Clift. Location, St. Francis Wood. Will contain seven rooms, three baths and sleeping porch. Separate garage. Plans being prepared.

SAN FRANCISCO — Residence, 2 story and base, frame $9,000. Architects, Heiman & Schwartz, 212 Stockton street, S. F. Owner, David Bienfield. Location, Claremont Court. Will contain ten rooms, several baths and separate garage. Plans being prepared.

SAN FRANCISCO — Residence, 2 story, attic and base, $12,500. Architect, August G. Headman, Call-Post Bldg., S. F. Owner, C. E. Cutter. Location, east 29th avenue south Lincoln Way. Will contain twelve rooms, three baths and sleeping porch. Separate garage. Plans complete and work to be done by F. Nelson & Son, 2701 Lincoln Way.

SAN FRANCISCO — Residence, 2 story and base, frame, $2,000. Architect, none. Owner, Joseph Koch, 4109 21st street, S. F. Location, south 21st west Diamond. Will contain five rooms and bath. Plans complete and work to be done by Day Labor.

OAKLAND, CAL. — Residence, 1 story and base, frame, $3,500. Architect, C. W. McCall, Central Bank Bldg., Oakland. Owner's name withheld. Location, Piedmont Heights. Will contain seven rooms, bath and sleeping porch. Separate garage. Plans are being prepared.

OAKLAND, CAL. — Residence, 1 story and base, frame, $2,000. Architect, none. Owner, H. H. Watkinson, 630 18th street, Oakland. Location, north East 8th street east 6th avenue. Will contain five rooms and bath. Plans complete and work to be done by Day Labor.

OAKLAND, CAL. — Residence, 2 story and base, frame, $3,500. Architect, none. Owner, H. S. Pratt, 1015 Glendora, Oakland. Location, north Fairbanks avenue east Crofton avenue. Will contain seven rooms, two baths and sleeping porch. Separate ga-

rage. Plans complete and work to be done by Day Labor.

OAKLAND, CAL. - Residence, 1 story and base, frame, $1,600. Architect, none. Owner, C. W. Glantz. Location, east 25th avenue east 29th street. Will contain five rooms and bath. Plans complete and work to be done by Day Labor.

PIEDMONT, ALAMEDA CO., CAL. —Residence, 2 story and base, frame, $18,000. Architects, Bliss & Faville, Balboa Bldg., S. F. Owner, William L. Wheeler. Will contain fourteen rooms, several baths and sleeping porches. Separate garage. Plans complete and figures being taken.

BERKELEY, ALAMEDA CO., CAL. —Residence, 2 story and base, frame, $5,000. Architect, none. Owner, C. E. Sinclair, 919 Fresno street, Berkeley. Location, south El Dorado west Hopkins. Will contain nine rooms and bath. Separate garage. Plans complete and work to be done by Day Labor.

BERKELEY, ALAMEDA CO., CAL. —Residence, 1 story and base, frame, $5,000. Architect, none. Owner, Geo. S. Risher, 1814 Hearst avenue, Berkeley. Location, 1801 Delaware street. Will contain seven rooms, two baths and sleeping porch. Separate garage. Plans complete and work to be done by Day Labor.

OAKLAND, CAL. — Residence, 1 story and base, frame, $1,500. Architect, none. Owner, C. J. Smith, 5222 East 14th street, Oakland. Location, west 54th avenue east 14th. Will contain five rooms and bath. Plans complete and work to be done by Day Labor.

BERKELEY, ALAMEDA CO., CAL. —Residence, 1 story and base, frame, $3,500. Architect, none. Owner, Al Kaufman. Location, north Spruce street west Park Boulevard. Will contain eight rooms, two baths and sleeping porch. Plans complete and work to be done by Day Labor.

OAKLAND, CAL. — Residence, 1 story and base, frame, $3,500. Architect, E. W. Cannon, Central Bank Bldg., Oakland. Owner, E. W. Rawlins, Location, Lakewood Park. Will contain seven rooms, bath and sleeping porch. Separate garage. Plans complete and work to be done by Day Labor.

RICHMOND, CONTRA COSTA CO., CAL.—Residence, 1 story and base, frame, $2,000. Architect, none. Owner, M. G. Humphreys, 431 12th street, Richmond. Location, Pennsylvania avenue. Will contain five rooms and bath. Plans complete and work to be done by Day Labor.

RICHMOND, CONTRA COSTA CO., CAL.—Residence, 1 story and base, frame, $1,300. Architect, none. Owner, A. J. Morrison, 305 Scenic avenue, Richmond. Location, Scenic avenue. Will contain five rooms and bath. Plans complete and work to be done by Day Labor.

MILL VALLEY, MARIN CO., CAL. —Residence, 1 story, frame, $2,000. Architects, Foulkes & Hildebrant, Crocker Bldg., S. F. Owner, Mr. Whitman. Will contain five rooms and bath. Plans complete and figures being taken.

LOS ALTOS, SANTA CLARA CO., CAL.—Residence, 2 story and base, frame, $5,000. Architect, H. C. Baumann, 251 Kearny street, S. F. Owner, Phillip Cook. Will contain eight rooms, two baths and sleeping porch. Separate garage. Plans complete and work to be done by Day Labor.

BURLINGAME, SAN MATEO CO., CAL.—Residences, 2, 1 story, frame, $3,000 each. Architect, none. Owner, Dr. C. P. Pond, 1520 Encinal avenue, Alameda. Each house will contain six rooms, bath and sleeping porch. These two houses are the first of a group of twenty dwellings to be erected for the same owner. Work will be done by Day Labor.

FRESNO, FRESNO CO., CAL.—Residence, 2 story and base, frame, $3,000.. Architect, none. Owner, L. Keller, 640 J street, Fresno. Location, Sunset Tract. Will contain six rooms, bath and sleeping porch. Separate garage. Plans complete and work to be done by Day Labor.

SCHOOLS.

OAKLAND, Cal.—The Board of Education, Dan W. Pratt, Secretary, will receive bids up to May 3rd, 5 P. M., for grading, cement work, fences, gates, planting, water system and fire protection for the Chabot Observatory, situated at Leona Heights, in the City of Oakland.

Certified check of 10% payable to Secretary of the Board of Education.

REDWOOD CITY, San Mateo Co., Cal.—Plans for a large playground for the Sequoia High School building have been submitted to the Board of Trustees by former City Engineer Porter. The work will cost about $16,000 and will consist of a macadam pavement, grand stands, athletic apparatus, etc. The plans have been approved by the School Directors and speedy action is awaited.

PLACERVILLE, EL DORADO CO., CAL.—Schools, 2, 1, 1 story and 1, 2 story, frame and hollow tile, $35,000. Architect, N. W. Sexton & Co., Merchants' National Bank Bldg., S. F. Owners, Placerville School District. These two buildings have been out for figures twice before. Plans have been revised and new bids are to be opened on April 28th.

AUBURN, PLACER CO., CAL. — School gymnasium, 1 story, frame, $8,000. Architect, Allen D. Fellows, East Auburn. Owners, Placer Union High School District. Will contain separate rooms for girls and boys. Plans complete and bids to be called for shortly.

SACRAMENTO, CAL. — School, 2 story and base, reinforced concrete. Cost not stated. Architects, Shea and Lofquist, Bankers' Investment Bldg., S. F. Owners, City of Sacramento. The lowest bid received for the Washington School was some $27,000 in excess of the amount available. Bids will probably be rejected and new figures called. A complete list of the bids received will be found under the heading of Bids Opened in this issue.

MOUNTAIN VIEW, KERN CO., CAL. School, 1 story, frame, $6,000. Architect, J. M. Saffel, Fiske Bldg., Bakersfield. Owners, Mountain View School District. Will contain two class rooms. Plans are being prepared.

Contract Awarded.

F. Gallagher has been awarded the contract by the San Francisco Board of Public Works for yard work at Junipero Serra School on his bid of $1,299.

SEWERS, STREET WORK & WATER SYSTEMS.

EVERETT, Wash.—Bids for construction of three miles of Scenic highway have been rejected and work will be done by day labor.

PORT ORCHARD, Wash.—Bids will be received until noon, May 8, by J. M. Peterson, County Auditor, for construction of part of highway No. 250.

EAGLE ROCK, Los Angeles Co., Cal. —The City Engineer has been instructed to prepare plans and specifications for improving Hill avenue from Colorado boulevard to Sumner avenue, making a new scenic drive along the foothills.

The City Engineer has also been instructed to make surveys of all streets running north and south from Colorado boulevard to Hill avenue, preliminary to the installation of ornamental lighting posts.

VISALIA, Tulare Co., Cal.—County Surveyor Byran O. Lovelace has completed the surveys of the first two stretches of county highway to be built under the $2,200,000 bond issue recently voted.

The two stretches now surveyed are from Visalia to Exeter and from Porterville to Lindsay, a distance of 18½ miles. The stretch on which the county engineer will be at work shortly is from Dinuba to Visalia, all being on the main artery from the north county line at Kingsburg through Visalia, Exeter, Lindsay, Porterville to the south county line at Richgrove.

DALY CITY, San Mateo Co., Cal.— The City Trustees have passed a resolution of intention to improve Hillcrest Drive, Guadalupe street, Los Olivos avenue, Los Angeles avenue, Santa Ana avenue, Santa Barbara avenue, San Carlos avenue, San Diego avenue, San Gabriel avenue, San Juan avenue, Niatntic avenue, Garden St., a portion of Mission Circle and a portion of Mission Road. Chas. L. Biebel is City Clerk.

TULARE, Tulare Co., Cal.—The City Engineer has been instructed to make a survey of the streets connecting the business section with the state and county highway systems. There will be about three miles of paving, costing about $35,000. Proceedings will be started shortly.

VALLEJO, Solano Co., Cal.—At a recent meeting of the Eastern Park Center Improvement Club, property owners voted to accept the offer of the Worswick Construction Co. to pave three blocks in Monterey street, two blocks in Florida and one in Kentucky street, under private contract.

Under the proposition submitted by the Worswick Company the streets will consist of a four-inch concrete base, on which will be laid one and

one half inch of Topeka surfacing. With the exception of Monterey street, between Carolina and Capitol streets, all of the streets will be 32 feet in width, Monterey street to be 40 feet in width. The work to be done will involve an expenditure of something like $20,000.

The San Francisco Board of Public Works has granted permission to M. A. Greely to pave, under prive contract, Anza street between 39th and 40th avenues.

SAN JOSE, Santa Clara Co. Cal.—The City Council has passed a resolution of intention providing for the following work:

The the roadway of Sixth street from Santa Clara street to San Fernando street and the roadway of Seventh street from Santa Clara street to San Fernando street, excepting that portion occupied by the concrete gutters, be re-graded; that the same be paved with an asphaltic concrete covering or wearing surface 1½-inches in thickness, laid upon a concrete foundation 4½-inches in thickness.

Russell B. Tripp is City Clerk and Elmer E. Chase is President of the Council.

The San Francisco Board of Public Works has passed resolutions of expediency and approved specifications for the following work:

TO PAVE—Leland avenue bet. Rutland and Delta; Leland avenue bet. Elliott and Sawyer; Raymond avenue bet. Delta and Elliott; Rutland bet. Leland and Visitacion; Rutland bet. Leland and Raymond; Cora bet. Leland and Visitacion; Delta bet. Leland and Visitacion; Desmond bet. Leland and Visitacion; Peabody bet. Leland and Visitacion; Schwerin bet. Leland and Visitacion; Visitacion bet. San Bruno and Schwerin; Raymond bet. San Bruno and Delta.

Jessie street will be improved bet. Seventh and Eighth by the construction of artificial stone sidewalks. Specifications were also approved by the Board for the construction of a sewer in Ingerson avenue bet. Railroad and Hawes.

MARTINEZ, Contra Costa Co., Cal.—Three bids were received by the County Supervisors for furnishing rock and gravel for road work in various parts of the county. The bidders were: Niles Sand & Gravel Co., Grant Gravel Co., and E. B. and A. L. Stone Co. It is probable that all bids will be rejected and the material purchased in the open market.

SHELTON, Wash.—Bids will be received by the Mason County Commissioners, Irene W. Richardson, County Auditor, until May 8th, for the construction of Permanent Highway No. 4, estimated to cost $13,684. Plans may be had of County Engineer A. V. Meyer.

COQUILLE, Ore.—Bids for the construction of two sections of highways, under the recent $362,000 bond issue, are being received by L. W. Oddy, County Clerk of Coos County, up to May 5th. They are; Glaskow-Haynes-North Inlet; Coquille-Coaledo and the Bandon-Curry road. G. S. McCulloch, Bandon, Ore., is County Surveyor.

SAN BRUNO, San Mateo Co., Cal.—The Board of Trustees has instructed City Engineer Kneese to proceed with plans and specifications for the construction of sidewalks on streets bordering on the State Highway through the City of San Bruno, so they can be submitted to the State Highway Commissioners for approval.

FERNDALE, Humboldt Co., Cal.—Town Engineer F. E. Kelly has submitted estimates to the Trustees providing for the paving of Main street from the Pythian Castle to the town limits. Estimates were given on various kinds of pavement which ranged from $8,000 to $32,150.

Action was laid over until a later meeting.

OROVILLE, Butte Co., Cal.—The County Supervisors will receive bids up to May 9th, 1:30 P. M., for furnishing and delivering gravel on the Lower Pratt Road in Road District No. 8. M. C. Polk is County Surveyor.

SAN JOSE, Santa Clara Co., Cal.—The City Council at its last meeting appropriated $1,787 for the construction of a concrete culvert for the Canos Creek at Pierce and Orchard streets.

FRESNO, Fresno Co., Cal.—At the last meeting of the City Council the first step for connecting Arlington Heights and Fresno Heights with the city sewer system was considered, but went over until the next regular meeting. Forty-eight blocks in Arlington Heights will be sewered, and twenty-four blocks in Fresno Heights Nos. 1 and 2. The estimated cost is between $23,000 and $25,000. The sewers, which will connect with the main sewer in Alta Vista, will range from 6 to 12 inches and will be vitrified iron stone.

FRESNO, Fresno Co., Cal.—At the last meeting of the City Council plans and specifications for the paving of White Bridge road from Trinity to Tehama were put over until the next meeting.

Plans and specifications and resolution of intention for the paving of H street from El Dorado to West and Park Boulevard to Belmont avenue wer adopted.

REDWOOD CITY, San Mateo Co., Cal.—The County Supervisors are receiving bids for the construction of the state highway so as to complete the missing link in front of Wellesley Park.

Plans may be had from the county Clerk Redwood City.

NAPA, Napa Co., Cal.—City Engineer Buckman has completed plans for the construction of sidewalks and curbs on Main street from Pearl to the stone bridge. It is the intention of property owners in this district to install an electrolier system so action on the plans has been laid over until some action is taken by the property owners.

A resolution of intention providing for the construction of sidewalks and curbs on Main street from the stone bridge to First street is being prepared by City Engineer Buckman.

LOS ANGELES, Los Angeles Co., Cal.—J. P. Hunter, 405 West Fifty-eighth street, Los Angeles, was the only bidder at $11,400 for the installation of a sewage disposal plant at the County Farm, at Downey, plans for which were prepared by Wm. Davidson, chief mechanical engineer. The pumping equipment was not included in the bid. The matter was taken under advisement.

MARTINEZ, Contra Costa Co., Cal.

The Supervisors have rejected bids received for the grading of 5,700 lineal feet of highway for Division No. 7 of the county highway between Oakley and Antioch and it is probable that the work will be undertaken by the county.

Bids for furnishing rock and gravel were also rejected. It is possible that this material will be purchased in the open market.

(14912) 1st report Mar. 30; 2nd Apr. 17, 1917.

(14913) 1st report Mar. 30; 2nd Apr. 17, 1917.

WOODLAND, Yolo Co., Cal.—The City Trustees have declared their intention to macadamize Court street. Warrenite pavement will be used.

REDWOOD CITY, San Mateo Co., Cal.—The City Trustees have instructed City Engineer Dimmitt to prepare plans for a storm water drainage system for the Redwood Highlands and Wellesley Park Districts.

REDWOOD CITY, San Mateo Co., Cal.—Bids opened by the County Supervisors for the construction of a septic tank in connection with the sewerage disposal works at the County Hospital were received from the folling: M. B. Wiggins, A. Mattson, P. Mathiesen and Frank Bryant.

Bids were also received from James O'Neill and A. Mattson for constructing a tunnel at the County Hospital.

In each case the bids were laid over until the meeting of May 7th.

(14431) 1st report Mar. 9; 2nd Mar. 30, 1917.

REDWOOD CITY, San Mateo Co., Cal.—The City Trustees have passed resolutions of intention providing for the improvement of Sequoia street and portions of Redwood avenue. The improvement will consist of the laying of sewers, the construction of concrete curbs and the paving of the roadways of the streets with macadam.

A resolution was also passed providing that the roadway of Broadway be improved by a surfacing of bitucrete.

STOCKTON, San Joaquin Co., Cal.—Bids have been ordered received by the City Council up to May 27th for the improvement of Washington, Church, Sutter and Sonora streets. The estimate for the work is $8,251.40.

(15195) 1st report April 11, 1917.

Plans and specifications have been adopted by the Council for the paving of Main street from Monroe to Lincoln street. The estimate for the work is $5659.

Plans may be had from the City Clerk.

SANTA ROSA, Sonoma Co., Cal.—The following estimates have been submitted to the City Council by Milo B. Williams, Irrigation Engineer, and W. W. Weir, Drainage Engineer, for draining the sewer farm:

Proposition No. 1, $8,400.

Proposition No. 2, $3,550.

Proposition No. 3, $1,650.

Action was laid over.

RICHMOND, Contra Costa Co., Cal.—City Clerk A. J. Faris will receive bids up to April 30th, 8 P. M., for the following improvements:

That a portion of Garrard Blvd. bet. the extension W of the S line of Ohio avenue and the extension SE of the SW line of Standard avenue, and a

portion of Standard avenue bet. the NW line of Garrard Blvd. and the extension NE of the SE line of Railroad avenue, including all intersections and terminations therein contained, be graded, paved with a 6-inch cement concrete base with a paint coat wearing surface of asphalt and stone screenings.

That portions of the existing gutters be removed, and that a concrete catch basin with a cast iron grate and rim, and an 8-inch corrugated iron pipe connection to the existing catch basin, be constructed at the W end of improvement and across Standard avenue, and that the existing wing walls at the culvert at Maine avenue, be reconstructed.

Certified check of 10% payable to City of Richmond.

RICHMOND, Contra Costa Co., Cal.—The City Council has passed resolutions of intention providing for the establishment of curb grades on Western Drive, Tenth street, Santa Fe avenue, Golden Gate avenue and Water street.

REDWOOD CITY, San Mateo Co., Cal.—County Clerk Jos. H. Nash is receiving bids up to May 7th, 10 A. M., for the construction of 0.264 of a mile of highway on El Camino Real, beginning at the northerly limits of Redwood City (Cordilleras Creek) and extending in a SE direction to Claremont avenue.

Certified check of 10% payable to County of San Mateo.

TAFT, Kern Co., Cal.—The City Trustees have instructed City Engineer Edward M. Lynch to proceed with the necessary plans and specifications for the paving of the streets in the city of Taft. The work will cost in the neighborhood of $100,000. The improvements will consist of the paving of the following streets:

Center street from E line of Second to W line of Sixth, full width.

Fourth street from N line of Main street to S line of North street, paved full width.

Center street from the city limits on the E to the easterly side of Third street, sixteen feet wide, in center of street.

Sixth street from N line of Center street to the N city limits, sixteen feet wide in center of street.

Center street from the W side of Sixth street to the W city limits, sixteen feet wide in center of street.

Every other street in the city limits dedicated to the city of Taft is to be torn up and put to grade and a surface given.

Every public street to be curbed and sidewalks laid with the exception of Main street from Second to Sixth streets, no sidewalks on south side of street.

On Main street on westerly line of Sixth street to the city boundary line no sidewalks.

All sidewalks on north side of Center street to be ten feet wide. Sidewalks on south side of Center street to be twelve feet wide. Sidewalks in the residence district to be five feet wide.

Alleys between Third and Sixth streets the main business alleys in the rear of the business houses are to be paved and light curbing placed.

The paving plan is for a 6-inch total thickness of paving with the exception of the alleys. Two course paving is to be laid on the streets and one course in the alleys.

MADERA, Madera Co., Cal.—A resolution of intention has been passed by the Madera Trustees and a conference will be had with the County Supervisors providing for the paving of "F" street.

WENATCHEE, Chelan Co., Wash.—County Auditor T. L. Ross will receive bids up to May 8th for the paving of Permanent Highway No. 9 with concrete pavement. Work will consist of one course concrete 6 inches thick, 16 feet wide and a distance of 6,200 feet. Plans may be had of County Engineer F. M. Berry..

TURLOCK, Stanislaus Co., Cal.—The City Council has ordered bids received for the improvement of North and South streets. Plans may be had from City Clerk at Turlock.

SAN RAFAEL, Marin Co., Cal.—The Directors of the Marin Municipal Water District are considering the purchase of pipe which will cost about $20,000. It is undecided whether to purchase the pipe in the open market or call for bids.

All work done for the Marin Municipal Water District is done under the direction of Engineer A. R. Baker.

VISALIA, Tulare Co., Cal.—The City Council will shortly order bids received for the paving of Northeast and Northwest Third avenues, about the Lincoln Primary School.

BAKERSFIELD, Kern Co., Cal.—The City Council has passed a resolution of intention ordering the grading and tamping of sub-base; construction of a cement concrete pavement with a sheet asphalt wearing surface; construction of cement concrete curbs and gutters, on First alley south of Nineteenth street lying bet. The westerly property line of G street and the easterly property line of Spruce street.

CALEXICO, Imperial Co., Cal.—Bids will be received up to May 1st, 7 o'clock P. M., by F. P. Green, City Clerk, for furnishing one oil-burning engine and fittings.

MONTESANO, Wash.—Bids will be received by the Grays Harbor County Commissioners, W. Campbell, Auditor, to be opened May 21st for the paving with one course concrete of Permanent Highway No. 14 between Aberdeen and Montesano, a distance of 11,666 lineal feet. The road will be 18 feet wide.

Bids will also be opened at the same time for the clearing, grading and surfacing with gravel 2¼ miles of the East Hoquiam Road Extension.

Geo. D. Robertson is County Engineer.

OAKLAND, Cal.—L. W. Cummings, City Clerk, will receive bids up to May 3rd, 12 M., for the following work:

That the following described portion of Avenal avenue be graded, curbed with redwood, guttered with a concrete gutter 3 feet wide, paved with oil-macadam and sidewalked with a cement sidewalk, six feet wide to-wit: beginning at the intersection of the SW line of Avenal avenue with the NW line of Seminary avenue; running thence along the NW line of Seminary avenue to a point distant 3 feet SW, measured at right angles, from the NE curb line of Avenal avenue; thence parallel to said NE curb line of Avenal avenue to a point distant 80 feet S, measured at right angles, from the N line of Bond street; thence parallel to the SW line of Avenal avenue; thence in a direct line to the point of beginning.

Contracts for the reinforced concrete viaduct and for the Ocean Boulevard at the Presidio have been awarded by the War Department. The bid of P. McCallahan of San Francisco has been forwarded to the Department at Washington, with the recommendation that he be awarded the contract for the Presidio Water Supply improvements with the exception of the pipe lines.

Owen McHugh, Russ Bldg., was awarded the contract for the Ocean Boulevard on his bid of $20,820 and Cahill & Vensano, 460 Montgomery street, the contract for the reinforced concrete viaduct. Their bid being $8,270.

MODESTO, Stanislaus Co., Cal.—County Clerk H. Benson will receive bids up to May 15th, 10 A. M., for the construction of approximately 2.882 miles of cement concrete road 16 feet in width, beginning at the T. I. D. Main Canal SE of Hickman and running on a NW direction to a point intersecting the section line between sections 20 and 21 T. 3 S., R. 11 E., M. D. B. & M.; also approximately 8.222 miles of cementa concrete road, a part of which is 12 feet in width and the remainder 16 feet in width, beginning at the S. P. R. R. at Waterford and running thence in an easterly direction to the Roberts Ferry Bridge; thus making a total of approximately 11.104 miles, said roads being known as the Hickman Thalheim and Waterford (Section C) roads, in the County of Stanislaus.

Contract Awarded.

FAIRFIELD, Solano Co., Cal.—A. H. Kopperud, 2030 High street, Oakland, submitted the lowest bid to the Town Trustees for resurfacing Texas street and he was awarded the contract at $3,400. The only other bid received was that of a Sacramento firm at $5,100.

SAMUEL McGOWAN, Paymaster-General of the Navy.

CALIFORNIA LUMBER CUT IN 1916.

The estimated lumber cut in California for 1916 was 1,420,000,000 feet b. m., according to a report given out by the Forest Service. This is thought to be the largest cut for any one year in the history of the State, and is 290,000,000 feet more than the estimated cut in 1915. One hundred eighty-two mills reported a cut for 1916 of 1,415,541,000 feet b . m. and the output of the 52 largest mills was 1,328,136,000 feet. Of the more important species western pine constituted 494,973,000 feet of the cut; redwood 490,828,000 feet; sugar pine 165,461,000; Douglas fir 141,200,000; white fir 85,918,000; cedar 16,587,000. The above figures were taken for the State as a whole. On the National Forests, which comprise about 19 million acres in California and contain a stand of about 109,000,000,000 feet of timber 60,293,000 feet, valued at $127,749.66, was cut in 1916 in commercial sales, which does not include timber given away or sold at cost to settlers on the Forests.

ADVANCE CONSTRUCTION NEWS.

Classified According to Location

SAN FRANCISCO.

APARTMENT HOUSE 3 story and base, frame, $12,000. San Francisco. Architect, Ernest Hildebrand, Crocker Bldg., S. F. Owner's name withheld. Location not given. Will contain a number of two, three and four room apartments. Plans are being prepared.

LOS ANGELES AND SOUTHERN CALIFORNIA.

APARTMENT HOUSE—2 story and base, frame and plaster, $14,000. Pasadena, Los Angeles Co., Cal. Architects, Merriman & Neighbors, Story Bldg., L. A. Owner, A. W. Hookstratten. Location, South Paso Robles near Center, covering an area of 53 by 90 feet. Will contain ten apartments of two rooms each. Plans are being prepared.

APARTMENT HOUSE—2 story and base, brick. Cost not stated. Lancaster, Los Angeles Co., Cal. Architects, J. M. Cooper and W. Douglas Lee, Marsh-Strong Bldg., L. A. Owner's name not given. Will cover an area of 50 by 153 feet and contain stores on the first floor and a number of apartments above. Plans are being prepared.

APARTMENT HOUSE—3 story and base. Class C construction. Cost not stated. Los Angeles, Cal. Architect, E. C. Wiseman, Title Guarantee Bldg., L. A. Owner, Frank E. Ruben. Location, Lake near 11th street. Will contain a number of two, three and four room suites. Plans complete and work to be done by Day Labor.

CHURCH—1 story and base, hollow tile, $10,000. Huntington Park, Los Angeles Co., Cal. Architect, G. A. Howard, Jr., Investment Bldg., L. A. Owners, Christian Science Church. Will cover an area of 86 by 90 feet and contain an auditorium and reading rooms. Plans are complete and figures being taken.

CHURCH ALTERATIONS—2 story brick. Cost not stated. San Bernardino, San Bernardino Co., Cal. Architect, H. M. Patterson, O. T. Johnson Bldg., L. A. Owners, First Methodist Church. Work will consist of interior and exterior alterations. Plans are complete and figures being taken.

FACTORY—2 and 3 story, brick or concrete, $75,000. Santa Barbara, Santa Barbara Co., Cal. Architect J. Corbley Pool, Bothin Bldg., Santa Barbara. Owners Santa Barbara Olive Association. Lo-

cation, Oak Park, covering areas of 80 by 100 and 60 by 40. Plans complete and figures to be taken on approval of plans.

FLATS—2, 2 story and base, frame, $17,000. Los Angeles, Cal. Architect, S. Gitelson, 225 East Hillcrest Blvd., Monrovia. Owner, Rachael Gitelson. Location, West 40th Place. Will contain eighteen rooms arranged for four flats. Plans are being prepared.

GARAGE—1 story and base, brick. Cost not stated. Los Angeles, Cal. Architect, none. Owner, George N. Hillwig, 3744 Viola street, L. A. Location, 2931 Stephenson avenue, covering an area of 50 by 130 feet. Plans complete and work to be done by Day Labor.

LODGE HALL—2 story and base, brick. Cost not stated. Hollywood, Los Angeles Co., Cal. Architect, H. W. Glidden, Wright and Callender Bldg., L. A. Owners, Hollywood Masonic Hall Association. Will contain store and lodge hall. Plans are being prepared.

STORES AND LOFTS—2 story and base, brick. Cost not stated. Los Angeles, Cal. Architects, Morgan, Walls & Morgan, Van Nuys Bldg., L. A. Owners, I. N. Van Nuys Estate. Location, Hill street near 8th, covering an area of 60 by 156 feet. Plans complete and figures being taken.

Contract Awarded.

FLATS—2, 2 story and base, frame, $20,000. Los Angeles, Cal. Architect, San Neighbors, Story Bldg., L. A. Owner, W. A. Geller. Contractor, H. L. Childs, Citizens National Bank Bldg., L. A. Contract price, $20,000.

GARAGE—1 and 2 story and base, brick and steel, $10,000. Los Angeles, Cal. Architect, F. E. Clayberg, 520 Brent street, L. A. Owner, Harry G. Pendell. Contractor, F. E. Clayberg. Contract price not stated.

STORES AND OFFICES—3 story and base, brick and steel, $50,000. Santa Ana, Orange Co., Cal. Architects, Elwing & Tedford, Trust and Savings Bldg., Santa Ana. Owner, Mrs. Susie Rutherford. Contractor, George Preble, 1704 North Main street, Santa Ana. Contract priice, $50,000.

SEATTLE AND WASHINGTON.

APARTMENT HOUSE—3 story and base, brick. Cost not stated. Seattle, Wash. Architect, V. W. Voorhees, Eitel Bldg., Seattle. Owner, W. P. Rafter. Location, Second avenue north Prospect, covering an area of 42 by 140 feet. Will contain fourteen apartments of two and three rooms. Plans complete and figures being taken.

LODGE HALL—4 story and base, brick and steel, $200,000. Spokane, Wash. Architects, Houghtaling and Dougan, Henry Bldg., Portland, Ore. Owners, Spokane Elks' Hall Association. Will cover an area of 75 by 100 feet. First floor arranged for stores and upper floors for lodge halls and offices. Plans are being prepared.

Contract Awarded.

FOUNDRY AND MACHINE SHOPS—1 and 2 story, brick and concrete. Cost not stated. Seattle, Wash. Architect, Karl H. Scheel, Normandie Apartments, Seattle. Owners, National Engineering and Equipment Co. Contractor, H. D. Stewart, American Bank Bldg., Seattle. Contract price not stated.

GARAGE—2 story and base, reinforced concrete. Cost not stated. Seattle, Wash. Architect, Charles Haynes, Mehlhorn Bldg., Seattle. Owner, A. Schlossmacher, leased to Central Agency Co. Contractors, MacRae Bros., Empire Bldg. Contract price not stated.

PORTLAND AND OREGON.

GARAGE—3 story and base, reinforced concrete, $40,000. Portland, Ore.. Architects, Sutton & Whitney, Lewis Bldg., Portland. Owners, Frazier and McLean. Location, 5th and Taylor streets, covering an area of 100 by 100 feet. Plans are being prepared.

HOSPITAL—3 story and base, brick and hollow tile, $125,000. Salem, Ore. Architect, Robert F. Tegen, Morgan Bldg., Portland. Owners, Salem Hospital Association. Will cover an area of 42 by 166 feet with a wing 42 feet by 52 feet. Plans are complete and bids will be called for shortly.

ARIZONA.

CHURCH—2 story and base, brick, $25,000. Tuscon, Ariz. Architect, Albert C. Martin, Higgins Bldg., L. A. Owners, Roman Catholic Church. Will contain main auditorium and Sunday school rooms. Plans are being prepared.

MONTANA.

APARTMENT HOUSE—2 story and base, reinforced concrete, $150,000. Butte, Montana. Architect, Jesse M. Warren, Daly Bank Bldg., Butte. Owner's name not given. Will contain a total of 53 apartments of four and five rooms. Plans complete and figures being taken.

FIGURES RECEIVED FOR SACRAMENTO SCHOOL

Board of Education Considering Two Projects. Bids will Probably Be Rejected.

(By Special Wire)

SACRAMENTO, Cal., April 20, 1917.—Four sets of figures were received today by the Board of Education for the construction of the Washington School, a two-story and basement reinforced concrete structure designed by Architects Shea & Lofquist, Bankers' Investment Bldg., San Francisco. Howard S. Williams, Hearst Bldg., San Francisco, presented the lowest figure at $227,216. This is approximately $27,000 more than the amount available for construction and the Board of Education is considering two plans: First to reject all bids and re-advertise with an alternate omitting the auditorium, and second of selling additional school property to raise funds to meet the increased cost of construction. Following is a complete list of the bids received:

Washington School.

Howard S. Williams	$227,216
C. L. Wold Co.	259,624
J. S. Hannah	237,773
James L. McLaughlin	235,000

BIDS ARE RECEIVED FOR RADIO STATION.

Local Firm Low on Work to be Done at Radio Station at Seward, Alaska.

The following bids were opened at the Mare Island Navy Yard on April 18th for new construction at the United States Radio Station at Seward, Alaska, and for moving the present steel masts and re-erecting:

Seward Radio Station.

Christopher Kuppler, 1309 7th avenue, North Seattle—(1) $31,250; (2) $33,750; (3) $6,325; (4) $960; (5) $3.50 per foot T. C. pipe, $6.00 per foot cast iron pipe; (6) $17,500. Time 180 days.

Nicholas Fleiness, 1310 1st avenue, Seattle—(1) $21,163; (2) $22,410; (3) $4,465; (4) $395; (5) $1.36 per foot T. C. pipe, $2.25 per foot cast iron pipe; (6) $11,917. Time 120 days.

Becker-Kiehl & Whipple, Seattle—(1) $33,940; (2) $34,168; (3) $7,888; (4) $490; (5) $1.25 per foot T. C. pipe, $2.50 per foot cast iron pipe; (6) $13,-239. Time 150 days.

Gutleben Bros., Call-Post Bldg., San Francisco—(1) $19,000; (2) $33,065; (3) $7,100; (4) $470; (5) $1.00 per foot T. C. pipe, manhole $100, $2.10 per foot cast iron pipe; (6) $7,646. Time 150 days.

ARCHITECT'S OFFICE AND EQUIPMENT FOR SALE.

Certificated Architect, established 3 years, is called to the Colors. Wishes to dispose of his equipment and location. Rent $35.00 in high class building on main street. Reception Hall, Private Office, and Drafting Room with space for five men. Equipment complete. Address BOX NO. 666, Daily Pacific Builder. Apr 18

LAKE SPAULDING DAM RANKS WITH GREATEST.

NEVADA CITY, Nevada Co., Cal.—Raising Lake Spaulding dam, twenty-five miles west of the crest of the Sierras in Nevada County, to a height of 260 feet places it, according to engineers, in a class with the greatest hydraulic structures of the world. Ultimately the height will be 305 feet.

The dam is located on the South Yuba River. It is built between two high bluffs and has a total crest length of 745 feet. It is shaped like a horseshoe, with the toe-calk upstream.

The natural fall is so great that by the use of several auxiliary reservoirs and penstocks enormous electrical power is developed. The bulk of the water is finally used for irrigating orchards in the foothills.

AGENTS WANTED.

The Wizard Electric Lamp Co., 147 New Montgomery street, are now marketing a new Door Hanger that is a wonderful labor saver. The company wants some live agents, acquainted in the building line.

THE SOUTHERN PACIFIC BUILDING.

A new Pacific Coast construction record is claimed for the huge Southern Pacific building which is already transforming the appearance of lower Market street. Ground was broken for this—the largest office structure in the West—September 1, 1916. With the first of May, 1917, the strructure will be approximately 70 per cent completed, with every prospect that the general contractors, Lindgren & Co., will turn over the building for occupancy one year after the first shovelful of dirt was removed.

The undertaking presents many unparalleled accomplishments, chief among which was the fact that sixty lineal miles of piling were used to establish the largest and deepest foundation on the Pacific Coast. Individual piles, some of which attained a length of 128 feet, were driven 130 feet below the pavement of Market street. To accomplish this the tallest pile drivers in the world were used. The results represent a new mark in modern construction records.

Three months after ground was broken, the great foundation had been completed and the first steel was erected. From then on, the allied building trades swung their men into line so fast, that during the month of January while a steam shovel and two pile drivers were still working at one corner, workmen in another were raising steel, pouring concrete, and laying brick all at the same time. Steel workers succeeded in keeping only one floor above the brickmasons most of the time. The Spear street wing of the gigantic structure, which today appears closed in, is only sixty days off the foundation. It is expected that the entire structure will be closed in by the first of next month.

Over 100,000 people pass the Southern Pacific Company's new home every day, and to this great army, the rapidity with which the massive structure has been unfolding, has been a source of interest and wonder. Under the daily spur of 200,000 eyes, the hundreds of artisans, representing almost every trade in the field of labor, have vied with each other in the race with Father Time.

In addition to being the West's largest home industry office structure, the Southern Pacific building possesses many unusual and striking features. The amount of material required, when reduced to figures that the average layman readily comprehends, are particularly astonishing.

Two million, four hundred and fifty eight thousand bricks are being used. Of this number, two million are the rough brick, 440,000 the pressed brick variety, and 18,000 arched brick. Roughly this constitutes 390 miles of brick, enough to reach from San Francisco into the heart of Mojave Desert. Of hollow tiles, 38,000 are being used, while the amount of cement in the job is represented by 40,000 barrels.

The glass provided for in the plans of the architects, Bliss & Faville, was one of the largest orders ever placed with California manufacturers. For the 1,736 windows, the transoms, elevator doors, glass partitions, etc., approximately 130,000 square feet, or three acres is required. Three miles of heavy flexible cable are required for the nine great elevators. There are six miles of pneumatic tubing, 15 miles of pipe for the automatic sprinkling system, 13½ miles of plumbing and soil pipe, 14 miles of steam-fitters piping, 2 miles of vacuum pipe, 50 miles of wire and 20 miles of conduit.

As an example of the unique problems successfully met in the construction of the building, one floor will include the largest business room in San Francisco with a floor surface of 36,000 square feet, and a length of 750 feet. This room will be used by Auditor of Freight Accounts and his enormous office staff. By reason of the difference in atmospheric pressure in a room of such size, special ventilating systems are provided at heavy expense, guaranteeing a constant circulation of fresh, clean air without resort to windows which, if opened wide would precipitate a small cyclone.

Other unusual features provide for the Company's own water supply, except for drinkiig purposes, a pneumatic tube dispatch service modeled along lines of a telephone exchange, an automatic fire extinguisher arrangement in every room, the most elaborate draughtsmen's quarters on the Coast, and many appliances for safety and commercial comfort.

J. Q. Barlow, assistant chief engineer of the Southern Pacific Company, is bending every energy toward the task of completing the big structure on time. G. B. Herington is the engineer in direct charge. W. S. Gilbert, Superintendent for Construction for Lindgren & Company, is the man who has kept the pot boiling.

San Francisco real estate men profess to see in the location of the new building an important era of development of Lower Market street. The establishment of over 2,000 employees, constituting the population of a small town, in this district will mean the quick establishment in the immediate vicinity of permanent stores, restaurants and other appurtenances to increased population. The new ten-story giant will lengthen the Market street skyline measurably and be a constant incentive to prospective builders between Third street and the Ferry.

The confidence shown by the Southern Pacific in the future of San Francisco—as represented by this permanent and elaborate home—will do much towards inspiring others to the accomplishment of a like testimonial.

BUILDS AN ELECTRIC TRACTOR TO HELP IN MARKET GARDENING.

The electric age has come to the farm. An electric tractor, believed to be the first in California, built by the Agricultural Engineering Division of the University of California, will be exhibited on Picnic Day, Saturday, April 28, at the University Farm at Davis. This electric tractor, which has proved very satisfactory in the preliminary trails, is not meant for heavy work, but to replace hand labor. While still in the developmental stage, it has proved that it can be run economically, and that it is especially valuable in gardening work.

A number of other type of tractors are to be demonstrated at the University Farm Picnic on April 28. Farmers will be shown how to operate and care for them to the best advantage. A demonstration is to be given, also, of the draft of different tractors in the use of the plow.

TO SHOW VARIED SILOS AT UNIVERSITY FARM PICNIC.

To raise food for livestock is declared by the College of Agriculture of the University of California one of the most patriotic services a California farmer can render to his country in the present emergency, and to aid in this campaign, a demonstration of how to build and use different types of silos will be made a special feature of the University Farm Picnic at Davis on Saturday, April 28. The construction will be explained and shown of six different types of silos. One silo, built of reinforced concrete, has been giving good service since 1910. The others are a resaw silo, a wooden-hoop silo, and three different types of stave silos. Experiments have been carried on in the use of these different silos, except the wooden-hoop silo, which has just been built.

UNITED STATES CIVIL SERVICE EXAMINATION.

MECHANICAL DRAFTSMAN (MALE)

Office of the Chief of Ordnance, War Department, Washington, D. C.

The United States Civil Service Commission announces an open competitive examination for mechanical draftsman, for men only. Vacancies occurring in the Office of the Chief of Ordnance, War Department, Washington, D. C., at entrance salaries ranging from $1,000 to $1,400 a year, will be filled form this examination, unless it is found in the interest of the service to fill any vacancy by reinstatement, transfer, or promotion.

Applicants should at once apply for Form 1312, stating the title of the examination desired, to the secretary of the United States Civil Service Board, Post Office, San Francisco, Cal.

Issued January 18, 1917. Reissued April 12, 1917.

SAN FRANCISCAN TO STUDY EUROPEAN NEEDS FOR AMERICAN LUMBER.

The Bureau of Foreign and Domestic Commerce has just announced the appointment of four special trade commissioners for the important work of estimating the amounts of American lumber that will be needed in Europe for reconstruction purposes.. These commissioners are: John R. Walker, of Washington, D. C.; Nelson C. Brown of Syracuse, N. Y.; Roger E. Simmons, of Hagertown, Md.; and A. H. Oxholm, of San Francisco. The investigation is to be financed jointly by the National Lumber Manufacturers' Association and the Bureau of Foreign and Domestic Commerce, the association pay-

ing the expenses of three of the commissioners.

The appointees are now preparing to visit every lumber-producing center in the United States, the object being to get in touch with all lumber concerns that are interested in foreign trade. They will study at first hand the districts in Europe that will be in greatest need of lumber after peace is restored, ascertain the kind of lumber that will be demanded, and they will estimate the nature of the competition that will be encountered. It is thought that the investigation will require two years.

Commissioner Walker, in addition to practical experience in the lumber industry and to considerable actual exporting experience, has appeared before the Interstate Commerce Commission in behalf of every branch of the lumber business. Commissioner Brown has the advantage of having taken part in a previous investigation of the lumber markets of Europe in a private capacity. He has been connected recently with Syracuse University and the United States Forest Service, and is chairman of the forest committee of the Empire State Forest Products Association, and chairman of the forest utilization committee of the New York State Forestry Association. Commissioner Simmons began in the lumber business as a partner in a Maryland lumber company. He was connected with the United States Forest Service for a number of years, and recently completed an investigation of the lumber markets of South America in behalf of the Bureau of Foreign and Domestic Commerce. Commissioner Oxholm is a native of Norway and had a thorough knowledge of the Baltic lumber industry before coming to this country. Especially valuable experience was gained as assistant manager of the largest lumber-importing concern in Spain. He has been in the lumber business since coming to this country and was employed by a well-known San Francisco firm at the time he accepted his new appointment.

NEW YORK FIRM TO REBUILD CITIES IN FRANCE.

NEW YORK, New York.—A contract providing for the reconstruction of important buildings in the destroyed cities of Northern France has been closed between the French government and Kennedy, Mitchell & Co., bankers of New York and London, it is learned here. Virtually all the material to be used will be purchased in this country.

RAISIN DAY.

The Ninth Annual California Raisin Day celebration will center at Fresno on April 30, and the festival this year is expected to set a new record for attendance and enthusiasm.

The Southern Pacific Company has made an attractive rate for Fresno from all points in Central California, and will observe the day with special "raisin delicacies" on the dining car menus and in its railroad restaurants.

On the morning of Raisin Day there will be a gorgeous street parade in which hundreds of floats and decorated automobiles will participate. W. F. Toomey, chairman of the parade committee, estimates that the procession will be four miles long.

Liberal appropriations for street decorations and the acquisition of ten bands assures that there will be plenty of color and life to the festival, and Fresno will uphold its reputation as an energetic city.

PLATINUM IN 1916.

Preliminary estimates based on practically complete returns made to the United States Geological Survey, Department of the Interior, by domestic refiners of platinum indicate that in 1916 approximately 488 ounces of domestic crude platinum (about 74 per cent metal) were refined, producing 172 ounces platinum, 84 ounces of iridium, and 113 ounces of iridosmine, and that 10,118 ounces of South American crude platinum, about 88 per cent pure, were refined.

The platinum metals produced by refining crude placer platinum, of both foreign and domestic origin, amounted to 8,943 ounces platinum, 235 ounces iridium, 199 ounces iridosmine, and 18 ounces palladium.

Refiners of copper matte and gold bullion report a production from foreign and domestic material of 2,556 ounces platinum, 100 ounces iridium, and 2,746 ounces palladium. About half of this output was produced from domestic materials.

The total production of new platinum metals in 1916 was about 11,500 ounces of platinum, 335 ounces iridium, 200 ounces iridosmine, and 2,765 ounces palladium.

The scrap platinum metals sold in the United States in 1916 amounted to approximately 49,400 ounces of platinum, 980 ounces iridium, and 2,000 ounces palladium.

UNITED STATES CIVIL SERVICE EXAMINATION.

RADIO DRAFTSMAN (MALE).

May 15, 1917.

The United States Civil Service Commission announces an open competitive examination for radio draftsman, for men only. Present and future vacancies in the Navy Department, Washington, D. C., and at any navy yard or other naval establishment of the United States, at entrance salaries ranging from $3.04 to $6 per diem, depending upon the qualifications of the appointee, will be filled from this examination, unless it is found in the interest of the service to fill any vacancy by reinstatement, transfer, or promotion. Certification for filling the higher-salaried positions will be made only from those attaining the highest average percentages in the examination.

Applicants should at once apply for Form 1312, stating the title of the examination desired, to the Civil Service Commission, Washington, D. C., or the secretary of the United States Civil Service Board, Post Office, San Francisco, Cal.

Issued April 7, 1917.

NEW FRESNO COUNCIL PLANS IMPROVEMENTS.

FRESNO, Cal. One hundred miles of paved streets, an electric power station to furnish electricity to light the streets of Fresno and a city purchasing agent are amount the improvements planned for Fresno in the near future by the new Board of Trustees.

WARREN PATENT DECISION.

A suit entitled Warren Brothers Company vs. W. C. Evans, for the threatened infringement of the Warren basic patent, under which the Bitulithic pavement is laid, was recently before the Circuit Court of Appeals for the Fourth Circuit sitting in Philadelphia, where in both the validity of the patent was attacked, and its threatened infringement denied.

Judge Buffington, in delivering the opinion of the Court stated: "This patent has been considered by the various Federal Courts and its validity established" and also that "The present case turns on the question of infringement."

The specifications under which the contract in suit was awarded, which it was claimed would necessarily require the construction of a pavement infringing the claims of the Warren basic patent, provided for the use of "Bitumen"; "Limestone dust or Portland Cement"; Stone, ¾" hard crushed"; and "Sand, coarse to fine."

The Court held that under these specifications the contractor was called upon to use stone of one grade only, viz., three-quarter inch stone, "which was not the run of the crusher," and that this was not the composition called for by the specifications and claims of the Warren patent.

After considering the several claims of the patent sued upon, all of which require the use of a graded mineral aggregate, and after referring to the several cases of Warren Brothers Company vs. Owosso, 166 Fed. Rep. 309, Warren Brothers Company vs. New York, 187 Fed. Rep. 831, and Warren Brothers Company vs. Grand Rapids, 216 Fed. Rep. 231, in all of which cases the validity of the patent in suit was sustained and injunctions issued to restrain its threatened infringement where the pavement had not already been laid before suit was commenced, the court pointed out that in the New York case the mineral aggregate "was the resultant run of the crusher, which would necessarily have smaller grades of stone." The court summarized its conclusion by saying: "It will thus be seen that in all these cases there was a series of graded stones. In the present case there is but a single grade of stone, namely, that which will pass through a three-quarter inch mesh and that which is caught on a one-half inch mesh."

As neither run "of the crusher" nor different sizes of stone were required to be used, the court said there could be no infringement in this case, and the suit was accordingly dismissed.

This decision raises the following questions:

1. The practicability of actually furnishing a stone in large commercial quantities of the uniform size which the court construes to be required by the specifications referred to, to-wit: Stone all of which "passes through a ¾" mesh and that which is caught on a ½" mesh." Certainly no such finely screened, uniformly sized product has ever been furnished by any crushing plant operating along commercial lines. Furthermore, stone about 1" size, that is, passing a 1¼" screen and retained on ordinary dust jackets in the crusher plant, is the size of stone most generally in demand for most purposes such as building construction, sidewalks, etc. The use exclusively of the intermediate portion ("which will pass a ¾" mesh and that which is caught on a ½" mesh" as defined by the court to be "three-quarter inch stone") of this ordinary crusher product in the quantities required for the wearing surface of a street pavement would evidently very greatly increase the cost of stone, and doubtless most stone producers would not agree to furnish stone of this limited size.

More particularly, approximately 50 per cent of the ordinary stone crusher product is of one inch and finer sizes. Of this total of 50 per cent finer than one inch, approximately 50 per cent, that is 25 per cent of the entire crusher product, is coarser than ¼" size. Of this 25 per cent, only 40 per cent or a total of 10 per cent of the product of the crusher is of the uniform size which the Court in this case decides is described by the specifications in suit, to-wit: that which "will pass a ¾" mesh and that which is retained on a ½" mesh." In other words, to comply with such specifications a contractor can use only 10 per cent of the product of his crusher or from the crusher from which he purchases his supply, and which are not commercially used, other disposition must be made of the other 90 per cent. For instance, given a paving contract to be laid at the rate of 1,000 square yards, requiring 75 cubic yards of crushed stone per day, and a crusher plant having a rated capacity of 150 cubic yards per day, that crusher would only furnish 15 cubic yards per day, or one-fifth of the daily requirements of stone for such a paving contract. In other words, it would take five such crushing plants to keep the paving plant in operation, and the person supplying the stone would have to find another market for 90 per cent of the product of his crushers. Aside from this, the production of such a stone would require additional intermediate separating screen and bin facilities, and which could be installed only at great expense and inconvenience. In other words, the Court has excluded from the scope of the patent in suit the use of a stone which has never been practically produced, and cannot be produced without such increased expense and inconvenience that at least most owners of crushing plants would not undertake to do so, and then, under that extreme construction of the specifications says the Warren's basic patent, No. 727,505, would not be infringed.

2. It is a self-evident fact that neither as high degree of stability nor freedom from voids can be produced by a mineral aggregate consisting of such a uniform sized stone and sand as is produced by the construction generally adopted, in which various sizes of crushed stone or gravel, sand and pulverized stone are used in such definite proportions as will produce the highest degree of stability, freedom from voids and utility.

3. Even though such a construction, using uniform sized stone (passing ¾" mesh and retained on ½" screen) and sand be held to come outside of the Warren Basic Patent No. 727,505, it is very clearly directly in the teeth of the Warren Patent No. 695,421, the single, very clear claim of which is as follows:

"A wearing layer of a street sheet pavement composed of a dense mineral body consisting only of relatively large elements, one-half inch and upward in diameter and relatively small elements, one-tenth of an inch in diameter and less, having predetermined proportions and intimately and uniformly associated throughout the body to eliminate voids, provide stability and a wearing surface and a uniting weatherproof, bituminous vehicle intimately associated with all the mineral elements serving to combine and unite them, fill the voids remaining unfilled and to form with the mineral body a solid, stable, homogeneous, tenacious, elastic, bituminous wearing layer."

As far as we know, this patent, No. 695,421, has never been infringed in any actual construction.

Yours very truly,
WARREN BROTHERS COMPANY,
By Geo. C. Warren, President.

UNITED STATES CIVIL SERVICE EXAMINATION.

MECHANICAL DRAFTSMAN (MALE)

Bureau of Yards and Docks, Navy Department.

May 8, 1917.

The United States Civil Service Commission announces an open competitive examination for mechanical draftsman, for men only. Vacancies occurring in the Bureau of Yards and Docks, Navy Department, Washington, D. C., and at any navy yard or other naval establishment of the United States, at entrance salaries ranging from $3.52 to $6 per diem, will be filled from this examination, unless it is found in the interest of the service to fill any vacancy by reinstatement, transfer, or promotion.

Applicants should at once apply for Form 1312, stating the title of the examination desired, to the Civil Service Commission, Washington, D. C., or the secretary of the United States Civil Service Board, Post Office, San Francisco.

Issued April 3, 1917.

VAST IRRIGATION PROJECT.

SANTIAGO, Chile.—A considerable impetus will be given to Chilean agriculture by the execution of the numerous irrigation works under consideration, among which the following bid fair to be realized in the near future: Bio Bio Canal, 40 miles long, estimated to cost $330,000 to $440,000, water to be taken from the Bio Bio River; River Maule Canal, 200 kilometers long, to supply water to 40,000 hectares, estimated to cost $8,943,942; Melado Canal, 70 kilometers long, to irrigate 27,000 hectares, estimates being prepared; El Laja Cananl, to irrigate 50,000 hectares. Studies have been made for the damming of the lake in the River Turbio Coquimbo, at a cost of $328,000, to hold 42,000,000 cubic meters of water, sufficient to irrigate the whole valley.

[1 kilometer equals 0.621 mile; 1 hectare equals 2.47 acres; 1 cubic meter of water equals 1,000 liters equals 264 gallons.]

POWER PLANT.

OROVILLE, Cal.—The Pacific Gas and Electric Co. are planning to enlarge their plant here.

ANNOUNCEMENT.

Announcement has just been made by the Publicity Bureau of the Associated Metal Lath Manufacturers that their offices have been moved from Chicago to Room 901 Swetland Bldg., Cleveland, Ohio, and that Zenas W. Carter, formerly of Boston, has been appointed Commissioner, to supervise all their publicity, promotion and investigation from the Cleveland Office.

Mr. Zenas W. Carter has been manager for manufacturers' associations for the past ten years, directing co-operative publicity and promotion work between manufacturers, distributors and consumers. He was the first General Secretary of the Electric Development Association when it was incorporated in New England, and he has managed the publicity and field promotion and investigation work of the Granite Paving Block Manufacturers' Association of the United States since their organization two and one-half years ago.

Among the plans of the Metal Lath Association which are yet in the embryo is a co-operative national campaign of publicity which will be developed by the Council of Advertising Managers of the member companies, which Council is an active part of the Publicity Bureau of the manufacturers' organization, although the Publicity Bureau proper includes officials and Sales Managers of the companies interested. Their plans cover a series of extensive and exhaustive tests of the fire resistance properities of Metal Lath, its use in fire retarding construction, the exploitation to architects and the public of the saving in space which can be effected through the use of this material, its vermin and rodent proofness; investigation and assistance in the revision of building codes of cities so that Metal Lath will receive its proper recognition by city officials and engineers, and a co-operative movement in the distributing centers of the United States seeking to develop co-operative promotion work on the part of the jobbers and large distributors of Metal Lath.

The Advertising Managers who comprise the Advertising Council of the

Publicity Bureau of the Associated Metal Lath Manufacturers are:

Mr. C. O. Powell(President) Northwestern Expanded Metal Company.

Mr. S. E. Fechheimer, Trussed Concrete Steel Company.

Mr. R. M. Nicholson, Berger Manufacturing Company.

Mr. C. M. Stewart, Consolidated Expanded Metal Companies.

Mr. L. E. Fisher, General Fireproofing Company.

Mr. L. J. Rouleau, Penn Metal Company.

Mr. F. E. Erickson, Milwaukee Corrugating Company.

Mr. Wm. Geo. Lane (Secretary), The Bostwick Steel Lath Company.

Mr. Zenas W. Carter, Commissioner.

The Julian Armstrong Bureau of Related Industries will continue its special work for the Associated Metal Lath Manufacturers, and Mr. Walter L. Weeden of Worcester, Mass., has succeeded Mr. Carter, as Field Secretary of the Granite Paving Block Manufacturers Association of Boston.

Oakland, Cal., April 13, 1917.

TO WHOM IT MAY CONCERN:

The Bricklayers Union, No. 8, California, having been misquoted on numerous occasions by irresponsible parties wish to inform any prospective user of brick in future construction, that we are in the market to perform the labor covered by our constitution in all classes of work named in same without regard to origination of said material, unless declared unfair by us, and for any party willing to observe the conditions as to hours and wages demanded by us.

"THE GEOLOGIC FORMATIONS OF CALIFORNIA."

The State Mining Bureau, under the direction of Fletcher Hamilton, State Mineralogist, has just issued Bulletin No. 72, with the above title. It was written by Prof. James Perrin Smith of Stanford University, and contains a complete bibliography and resume of all of our present knowledge relative to the geological formations occurring in California. It also contains much previously unpublished data, and covers 41 pages, and six tables showing geologic columns.

The Bulletin is published in conjunction with the Geologic Map of California, recently issued, and is sold separately,—price 25 cts., postage prepaid.

Address State Mining Bureau, Ferry Bldg., San Francisco, or State Mining Bureau, 520 Union League Bldg., Los Angeles.

ROAD LEGISLATION IN COLOMBIA.

Colombia is the latest South American country to work out a comprehensive road system intended to facilitate highway traffic and to connect interior points with railways, ports, and commercial centers. Much interest in road construction has been shown recently in the neighboring countries of Venezuela and Peru and there is a certain similarity between the completeness of the Peruvian plan and that of the project passed by the Colombian Congress and promulgated in the Diario Oficial of December 22. No provision has been overlooked for the extension of roads over practically the whole of Colombia, as well as for the selection of the best routes, and for the maintenance of the roads when completed. Important measures have been adopted for the financing of the project and for the execution of the plan in all its details.

Classification of National Roads.

Under the provision of the new law the national roads of Colombia are classified in three groups (1) those connecting Bogota with strategic points, with frontiers, or with sea or river ports; (2) those connecting colonization territories with the interior of the country; (3) other roads, of vital importance from a commercial or military point of view. A long list of specified roads is divided into the three groups named, and of these roads the following are named as being urgently needed. The great central highway of the north, the highway from Cucuta to the river Magdalena, the road that leads from Bogota through Ibague and Calarca to the frontier of Carchi with the branch that goes toward Tumaco, the road from Pasto to Puerto Asis, the northwest road from Bogota to Gamarra, the Sarare road, the Cravo road, the road from Villavicencio to Calamar (via Oriente), the road from Quibdo to Bolivar, the road from Guadalupe to Orteguasa and the extension of this road, and the road from Monteria to Yarumal, through Caceres.

An annual appropriation of $700,000 is to be included in the national budget for work on these most-needed roads and certain others, nearly one-third of the whole amount to be used for the great central highway of the north. Careful surveys of all proposed roads must be made and the most practicable routes selected, with the approval of the Ministry of Public Works, before construction is begun. The Government may authorize local boards to construct and maintain roads for which plans and estimates have been made by authorized engineers, undtr the direction of a bureau of national roads, created by this law.

New Tariff Surtax for Road Fund.

To provide a special fund for the construction of roads, a surtax of 5 per cent will be levied on all imports through the customhouses of Colombia. The General Treasury must keep the proceeds of this surtax separate from other customs receipts, so that it will be available at all times for the Ministry of Public Works. In addition to the fund provided by this surtax, the toll tax, which has been collected on certain roads, will continue and will be used for the maintenance of such roads. Other assistance may be granted by legislative bodies to petitioners for roads when requests are accompanied by detailed plans and estimates of the construction desired. The customs receipts of 15 per cent at the port of Tumaco will continue to be applied to the construction of the highway of the south until it is completed. In conclusion, the Colombian road law makes various provisions for its execution, with general specifications of the character of the roads and bridges to be constructed.

SURVEYING SHIP PLANT.

MARTINEZ, CAL.—A survey is being made on the water front here for a site for shipbuilding plant that it is said will employ 250 men. Four different companies are looking over the situation here with the idea of locating shipbuilding plants, the Martinez water front having been pronounced especially fitted for this industry.

119 CARS OF MAGNESITE.

PORTERVILLE According to figures which became available from the magnesite miners of this district, there were shipped from Porterville station during the month of March 119 cars of magnesite, the largest monthly business from these mines to date. The total value of the output for the month, f. o. b. Porterville, has been given at $87,000.

PETERSEN TO ENGAGE IN HEATING BUSINESS.

Former President of Petersen-James Co. Will Occupy Old Location and Take Over Equipment.

Chris Petersen, formerly president of the Petersen-James Co., has withdrawn from that organization and is now engaged in a general plumbing and heating business under the name of C. Petersen Co. He has taken over the entire equipment of the former company and is located at the old address, 710 Larkin street. C Petersen Co. will make a specialty of oil burning equipments and heating plants.

During the years that Mr. Petersen was connected with the Petersen-James Co., that firm did an exceptional business and was regarded as one of the representative business houses in their line. Mr. Petersen has a vast experience in the business and enjoys an enviable reputation. He regards present conditions as most favorable and already has five or six contracts signed which total about $10,000.

Among the larger buildings that have been equipped under the personal direction of Mr. Petersen are: The Inside Inn and Agriculture Buildings at the Exposition; the Flatiron Building; annex to the Mills Building; Chancellor Hotel and Levee Apartments at Vallejo.

HOME LEAGUERS APPEAL TO PUBLIC OF SAN FRANCISCO.

The co-operation and moral support of the general public in San Francisco will be sought, in a determined manner, by the Home Industry League of California in a crusade it is about to open up on the Board of Public Works of San Francisco to prevent the Board's buying auto trucks in the East when equally good trucks can be purchased in California, from three different factories who have offered bids lower than the price asked by the Eastern concern.

In San Francisco alone, the League has an active and auxiliary membership which totals some 40,000 voters. Legal proceedings will be begun at once by the League against the city. Mr. John L. McNab having been formally engaged to conduct the case. The exact nature of the court battle will be announced by Attorney McNab some day this week.

DINING ROOM SERVICE UNSURPASSED

RATES REASONABLE

have expressed willingness to accept appointment where the vacancy exists.

Competitors will not be required to report for examination at any place, but will be rated on the following subjects, which will have the relative weights indicated, on a scale of 100: (1) Education, 40; (2) experience, 60.

Competitors who fail to attain a rating of at least 70 per cent under the subject of experience will not be considered for appointment.

In rating the subject of experience the degree of difficulty and importance of the work performed, the length of experience, and the rating which an applicant has had as an inspector or workman will be considered.

Statements as to education, training, and experience are accepted subject to verification.

Applicants must have reached their twentieth birthday on the date of filing application.

Until further notice, owing to the lack of eligibles, the number of appointments to be made, and the urgent needs of the service, applications will be received at any time, and the papers will be rated immediately upon their receipt in order that appointments may be made with the least possible delay.

Class No. 1, $3.28 to $4.24 per diem.

Class No. 2, $4.48 to $5.52 per diem..

This examination is open to all male citizens of the United States who meet the requirements.

Applicants should at once apply for Form 1312, stating the title of the examination desired, to the Civil Service Commission, Washington, D. C.; or the secretary of the United States Civil Service Board, Post Office, San Francisco. Applications should be properly executed, excluding the medical and county officer's certificates, and filed with the Commission at Washington without delay. The exact title of the examination as given at the head of this announcement should be stated in the application form.

BOND ISSUES FOR WATERWORKS IN CHILE.

In pursuance of its policy to establish adequate systems of waterworks throughout Chile, the Chilean Government has authorized the issue of bonds for the following amounts and purposes: (1) 1,600,000 pesos (peso paper equal about 23 cents) for works to utilize the water of the Lagunas del Planchon and the river Teno near the city of Curico; (2) 3,000,000 pesos for works in the rivers Coquimbo and Turbio; (3) 1,000,000 pesos for works in the river Colina. The proposed installation will be executed in accordance with plans and estimates made by the department of Public Works, approved by the President, and accepted in writing by the owners of 70 per cent of the permanent water rights on the rivers mentioned. The property owners along these waterways shall form associations, which shall take charge of the distribution of water on the completion of the works, but the Government shall retain the ownership of the works until the funds invested in them shall have been wholly repaid. The conditions governing the issue of the bonds, as given in the Diario Oficial, are practically the same in all cases. These bonds will be of the same character as those issued by the Mortgage Credit Institution, and subject to the same terms of interest and amortization, with exemption from all taxes. The consumers of the water from the proposed works will pay a tax in proportion to the value received, the amount to be fixed by executive decree, and the proceeds of the tax will be used for the interest and amortization fund.

Government Purchase of Valparaiso Waterworks.

The President of Chile is authorized to acquire from the municipality of Valparaiso the rights held by the city on the waterworks at this port. The sum authorized is 1,962,842 pesos, and in addition certain lands and buildings are to be transferred from the Government to the city. The President is also authorized to increase up to 2,300,000 pesos, or its equivalent in foreign gold, the issue of Government bonds or Treasury warrants provided for by the law of April 29, 1916. The proceeds of these bonds or warrants will be used to pay the municipality for its water rights, and the remainder shall be considered an advance, to be repaid from the 3 per cent additional property tax, and the increase in the license tax on professions and industries. The vehicle tax, which was established in 1903 for the city of Santiago, is now to be extended to the city of Valparaiso.

URGE FARMERS TO PRODUCE MEAT AND FODDER FOR ANIMALS.

It is impossible to starve the American people. Where the pinch will come, however, is in the meat and fats.

Such are the facts reported to the Committee on Resources and Food Supply of the California State Council of Defense, of which President Benj. Ide Wheeler of the University of California is Chairman, and the other members Charles H. Bentley and John A. O'Connell of San Francisco, Miss Ethel Moore of Oakland, and B. B. Meek of Oroville, after a preliminary discussion of the food problem made at the request of the committee by the agricultural faculty of the University.

Here is the advice as to how the patriotic farmers of the Pacific Coast can best serve their country in the present war-time emergency, contained in a statement made to the Committee on Resources and Food Supply by Dean Thomas F. Hunt of the College of Agriculture of the University of California:

The farmer should produce as much meat, eggs, butter, and milk as he can.

What the public does not understand, and what most farmers do not realize, is that the special emergency need now is to grow much greater quantities of forage crops as food for domestic animals. Such crops as milo, feterita, Egyptian corn, brown durra, sorghum, and sudan grass should be extensively planted, for they give a maximum of results for a minimum of effort.

Most of the current talk about the food problem has been about growing potatoes in the back yard or eating rice instead of potatoes. As a matter of fact, the opportunity for saving here is almost nothing. Potatoes and rice together do not cost more than six per cent of the annual expenditure of an average family for food, while two-thirds of all the average Pacific Coast family spends for food goes for foods of animal origin—meat, eggs, milk, butter and fat. Hence the immense importance of producing the greatest possible quantity of fodder for meat and diary animals.

The disease known as "fear of starvation" need never affect the United States. Indian corn and cotton make the United State impregnable.

High prices to the producer are the most successful way of securing an abundant supply of food, and an abundant supply of food is more important than a cheap supply. Where saving to the public can be made, however, is in distribution. Of what the consumer pays for food, only one-third goes to the producer, one-third to the distributor, including the transportation companies and wholesalers, and one-third to the retailer. Never will it be necessary, Dean Hunt believes, to limit by legal or military action the amount of food to be consumed by the American people, but military necessity may make it desirable to reduce greatly the service now rendered by the retailer and to eliminate from that service for other national service a considerable number of citizens.

Moreover, it may be desirable for individual States to empower their governors to take over and store food products when this is deemed necessary, and to issue certificates of sale bearing four per cent interest against these products, the certificates to be redeemable at the option of the State.

Dean Hunt believes that it will be undesirable to attempt to control the production of foodstuffs by legal or military means, but that it may be well to authorize towns of more than two thousand inhabitants to promulgate rules concerning the receipt and distribution of foodstuffs.

It is important that the American people should not fall into the evil situation which has prevailed in Germany, where proper balance has not been maintained between the five great classes of foods—(1) Protein foods, such as meats, fish, fowl, eggs, beans, and nuts; (2) Fats, butter and oils; (3) Starchy foods, such as grains and potatoes; (4) Fruits and vegetables; and, (5) sugar, tea and coffee.

The ordinary family of five people ought to be able to get along comfortably on an expenditure per annum of from $435 to $650 for foods of the classes mentioned,—spending about 54% of this total on protein foods; about 12% on fats; 12% on starchy foods; 13% on fruits and vegetables, and the balance on sugar, tea, and coffee. These figures do not include dainties and extras.

Inter-planting of beans and grain sorghums in young irrigated orchards is strongly recommended for this emergency.

Every endeavor should be made to get all unoccupied land into condition to grow crops next year and the year after.

Possibly the States ought to aid in financing farmers who must wait two or more years for a return on such undertakings.

Weather and labor supply are the two great uncertainties. Farmers and farm laborers should realize that just as England has urged her skilled artisans to work in the munition factories rather than go to the trenches, so the men who feed the nation and the nation's soldiers are patriotically aiding their country.

CALIFORNIA'S MINERALS AN IMPORTANT WAR RESOURCE.

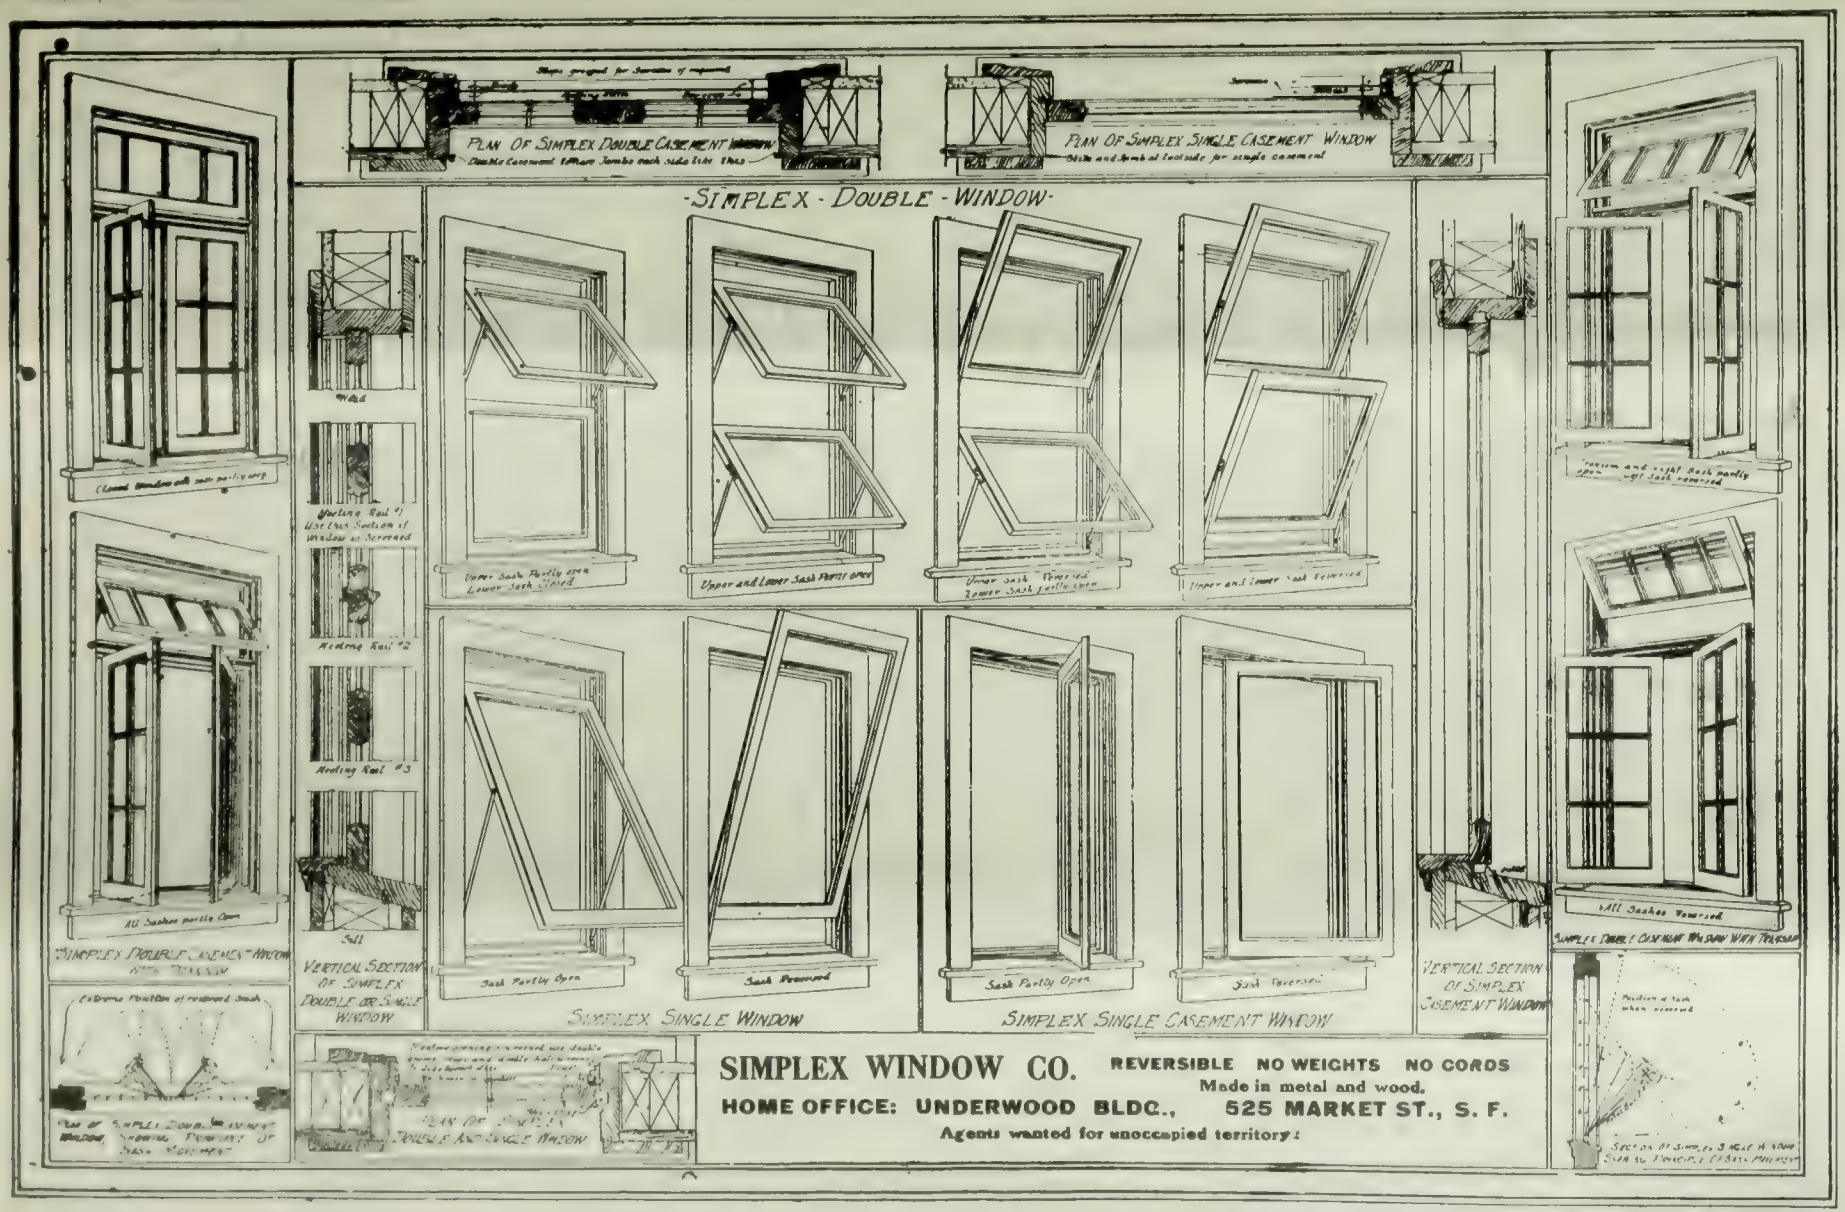
Survey to be Made by State Mining Bureau.

The State Mining Bureau, under the direction of Fletcher Hamilton, State Mineralogist, is starting a field campaign to report on the economic minerals of California, which have an important industrial and military bearing on the present war situation. For the past four years the Bureau has been working on a complete survey of the entire State's mineral resources of counties, field work for which is now practically completed and the results in part published. Particular interest and value attaches at the present moment to our available supplies of chrome, coal, iron, magnesite, manganese, molybdenum, quicksilver and tungsten.

The extent and availability of our petroleum resources, which are so important in modern naval operations, have already been thoroughly covered by the Bureau in its work of protecting the fields from damage by faulty operations. As data on the other minerals are already well in hand, trained geologists and engineers of the Bureau's staff are being sent out to bring the information down-to-the-minute with relation to the latest developments in the above-named items. The report will cover the location, size, accessibility to transportation, character, quality, and state of development of every known deposit throughout the entire state.

W. Burling Tucker, Chief Field Assistant, will visit the counties south of the Tehachapi; Clarence A. Waring, field assistant, the counties along the Sierra Nevada Mountains from Tulare northward; Emile Huguenin, filed assistant, the counties along the Coast Ranges from Monterey to Del Norte; Walter W. Bradley, Mining Statistician, Siskiyou and Shasta Counties also quicksilver and research work on the metallurgy of quicksilver. Advance notices will be sent to the local newspapers, from time to time, of the arrival of the engineers in the various districts, so that those interested in the mineral properties may be fully advised and co-operate to the fullest extent in this patriotic work.

The conservation and utilization of our mineral resources, while highly important at all times, are imperative in the pesent exigency. With the exception of a small tonnage of chrome from Oregon in 1916, and of magnesite from Washington in 1917, California has been the sole source of these two minerals in the United States. For many years California has been, and still is, producing from 70% to 80% of the quicksilver yield of the United States. This metal is absolutely essential from a military standpoint, as there has not yet been produced a commercial substitute for it in the manufacture of fulminating caps for explosives. California is one of the two main producing tungsten states of the Union. This metal is especially valuable in the manufacture of alloys for high-speed tool steels.



All persons interested in these minerals are earnestly urged to co-operate with the State Mining Bureau by meeting the field men while in their districts or by communicating direct with the State Mineralogist at his office in the Ferry Building, San Francisco.

UNITED STATES CIVIL SERVICE EXAMINATION.

SUBINSPECTOR OF CONSTRUCTION (MALE).

The United States Civil Service Commission announces an open competitive examination for subinspector of construction, for men only. A considerable number of vacancies at various navy yards and other naval establishments of the United States, at entrance salaries ranging from $3.28 to $5.52 per diem, will be filled from this examination.

In filling vacancies certification will be made of the highest eligibles residing in the vicinity of the place at which the appointee is to be employed, except that upon the request of the Navy Department certification will be made of the highest eligibles on the register for the entire country who

Satisfaction

There is nothing more desirable than a satisfied customer. The things he says about you, and the work you do are the deciding factors that will gain for you the work of his friends.

But no matter how high the quality of workmanship is--if the fixtures you install are unsatisfactory--your work has been wasted.

You are liable to lose the confidence of your customer.

We are always ready to co-operate with you and do our part. There never will be any question asked about an unsatisfactory fixture. It will be replaced immediately. All the "Pacific" line is guaranteed forever against any defects in workmanship or materials

Such co-operation helps you to build up your business.

Building Operations For March 1917.

Building operations throughout the country are satisfactory in volume from a rational viewpoint. The general impression among architects and contractors is that business is quiet; prospective work may not be specially insistent at this time.. But the statistics show that, as compared with a year ago, there is only a moderate decline. February showed a decrease as compared with February last year. The March figures show the same shrinkage, as compared with March, 1916. But the totals for last month are over 50 per cent greater than for February, which is the normal trend, as the active building season approaches.

Building operations in 118 principal cities of the United States during March, as compiled by the American Contractor, Chicago, California Development Board and Daily Pacific Builder, total $79,973,504 as compared with $83,434,570 for March, 1916.

It is noteworthy that a greater number of cities show gains than losses, 68 increasing over a year ago and 48 decreasing, two holding stationary. The larger cities make the more unfavorable showing, which is no doubt explained by the fact that in these cities a larger percentage of the buildings are of steel construction and that because of the great scarcity it is almost impossible to obtain structural shapes. There are some very notable gains, as will appear in the statement below:

City	Mar., 1917 Cost.	Mar., 1916 Cost.
Akron	$ 1,756,140	$ 524,715
Alameda, Cal.	45,314	47,323
Allentown	166,830	100,310
Altoona	29,066	21,999
Atlanta	499,213	458,401

TO CONSERVE THE FOOD SUPPLY.

The National City Bank of New York sends out the following timely appeal for the intensive cultivation of all available tracts of land. The urgent need of cultivating every available foot of land and of using every means to economize should be brought home to every citizen.

We quote from their circular the following:

"All of Europe—neutral as well as warring countrires—has been placed upon food rations to eke out supplies until the new crop is harvested. This country entered the present crop year last July with 164,000,000 bushels of wheat carried over from the crop of 1915, and in 1916 produced 482,000,000 bushels of winter wheat and 158,000,000 of spring wheat; total supply, 804,00,000. This year there will be practically no wheat carried over and the government's estimate upon the winter crop forecasts a yield of only 430,000,000. On this basis the spring wheat crop must be 214,000,000 bushels larger than last year in order to give us a wheat supply equal to what we will export and consume in the crop year now closing. This is an alarming outlook. The spring wheat crop is notoriously subject to weather conditions. More spring wheat should be sown, but it is doubtful if the wheat shortage can be made up. Other food crops must be grown to meet the deficiency.

This country is now at war, and our Allies, Belgium, Great Britain, France and Italy are dependent upon us for food. They will have no reserves and must have more from us in the coming year than in the part, or they will not be able to feed all their people. Added to the appeals of starving humanity will be military reasons making it impossible for us to put an embargo on the exportation of food. We must divide what we grow this year with these countries, and with the neutral countries—Holland, Denmark, Norway, Sweden, Switzerland and Spain—which are not self-sustaining in grain supplies. And not only must we supply enough to keep these people from starving, but enough to cover the heavy losses at sea which results from the submarine warfare. If we grow no more food than we did last year and so far the outlook is for less—there is danger of a food situation such as the world in modern times has not dreamed of. No other country has the resources in land and population to meet this emergency but the United States. There is no business upon which all other business depends as upon this of growing a big crop in America this year. And the work must be started immediately. There is no time to wait on organization from outside. The emergency can be met only by spontaneous action in every state, county and school district, forming local organizations.

Picture in your mind what conditions will be in our own cities next winter, and of the effect upon all industry, if food supplies are scarcer and dearer than they are now! It must be impressed upon everybody that no wage advances or regulation of prices can add one bushel of wheat or potatoes to the supply after the growing season is over.

The country is aroused, but mere alarm will not accomplish results. There must be organized personal work, headed in every locality by men of force and influence.

The Governor of Iowa has called for the enlistment of boys from 13 to 18 to work either in town gardens or upon the farms. President Wilson says that these boys will be "Soldiers of the Commissary." There are fine possibilities in this idea. The boys may be brought to feel that they are serving their country as truly as their older brothers who enlist in army or navy; and the girls should have a chance as well. They should have a medal to keep as lifelong evidence of their service in the last great war—let us hope—of the world's history.

Some of our correspondent banks are arranging for garden plots for all their clerks. Industrial employers are doing likewise, and will provide seeds and instruction. Organized work of this kind with suitable supervision will be most effective. Every employer in your locality should be waited upon by a committee, and invited to co-operate in this manner.

Although it is of course desirable to increase the farm crops, and especially the spring wheat crop, it may be that the best chance to increase the food supply is by the intensive cultivation of garden tracts in and adjacent to towns, where labor additional to the regular farm supply can be secured for growing potatoes, beans, onions, etc. Each community is able to go ahead upon this work without help from outside. The aggregate results will depend upon the efficiency of the local organizations.

We take the liberty of addressing not only our own Bank correspondents, but all bankers, believing that they will be quick to recognize the gravity of the situation, and that their relations with the business community are such as to enable them to secure general co-operation. We would appreciate advice as to what is being done in your locality."

Excerpts from a Letter received by an Officer of this Bank From Sir George Parish, of London, Dated March 21, 1917.

"I have been endeavoring to form some sort of notion of the world's supplies of food both this season and next, and have come to the conclusion that if the American people will continue to help the world to get through this time of great stress and strain by (one) growing as much food as possible and (two) themselves consuming no more than absolutely essential, the world will weather through, although the margin of safety will be very slender. Would it be possible for the ladies of America to start an economy campaign for the benefit of the women and children, not of Belgium only but practically of the entire world, for it is evident that many a poor family will not be able to buy food in the coming twelve or eighteen months in consequence of its dearness and scarcity unless those women who can afford to pay high prices voluntarily deny themselves and share the food which Providence provides with their poorer sisters? If they do this, then the heart of the world will beat with that mother-love which is all powerful for good and which will prevent the recurrence of such a disaster as that now threatening the human race.

"The need of humanity is great.

"The heart of America is also great."

PROFESSOR RICHARDS SUCCEEDS DEAN GOSS AT UNIVERSITY OF ILLINOIS.

Professor C. R. Richards, Professor of Mechanical Engineering and head of the department since 1911, has been appointed Dean of the College of Engineering and Director of the Engineering Experiment Station of the University of Illinois to succeed Dr. W. F. M. Goss who has resigned to become President of the Railway Car Manufacturer's Association of New York.

Dean Richards is a graduate of Purdue University, 1890, and has been successively instructor in Mechanical Engineering, Colorado Agricultural College; and Professor of Practical Mechanics, Professor of Mechanical Engineering, and Dean of the College of Engineering, University of Nebraska. Since entering the University of Illinois he served two years as acting Dean of the College of Engineering during an absence of Dean Goss. Dean Richards is a member of the American Society of Mechanical Engineers, Western Society of Engineers, Society for the Promotion of Engineering Education, Sigma Xi, Tau Beta Pi, Sigma Chi, and Sigma Tau.

CHILEAN ELECTRIC LIGHT AND POWER CONCESSION.

The Chilean Government has granted a concession to install electric light and power service in the towns of Guacarhue and La Vina and in Quinta de Caillona, to Daniel Ortuzar. The concession in the Diario Oficial specifies that the work shall be commenced within six months and completed a year later.

GALVANIZED PRODUCTS WANTED.

The Merrill Metallurgical Co., 121 Second St., San Francisco, is in the market for by-products from galvanizing plants. The company has requested the Chamber of Commerce to place them in touch with firms in that line.

ADVANCE CONSTRUCTION NEWS.

Classified According to Character of Work

APARTMENT HOUSES.

SAN FRANCISCO — Apartment house, 3 story and base, frame, $25,000. Architect, J. C. Hladik, Monadnock Bldg., S. F. Owner, Anna Hladik. Location, northeast Broadway and Jones streets, covering an area of 60 by 77½ feet.. Will contain 21 apartments of three and four rooms. Plans complete and bids to be called for shortly.

SEATTLE, WASH. — Apartment house, 5 story and base, brick and reinforced concrete, $75,000. Architect, Carl Siebrand, Northern Life Bldg., Seattle. Owner, Mrs. Virginia O. Godderis. Location, northeast Denny Way and Queen Anne avenue, covering an area of 60 by 120 feet. Will contain 37 suites of two, three and four rooms. Plans complete and figures being taken.

PORTLAND, ORE. — Apartment house, 3 story and base, frame. Cost not stated. Architect none. Owners, Oregon Home Builders, Northwestern Bank Bldg., Portland. Location, southeast 25th and Hawthorne avenues, covering an area of 95 by 64 feet. Will contain sixteen apartments of three and four rooms. Plans are being prepared.

VISALIA, TULARE CO., CAL.—Apartment house, 2 story and base, brick or hollow tile, $17,000. Architect, Morve L. Weaver, 113 North Willis street, Visalia. Owner, Dr. T. J. Wynne. Will contain a total of 16 apartments of two rooms and bath each. Plans are being prepared and figures will be called for shortly.

SAN FRANCISCO — Apartment house, 3 story and base, frame. Cost not stated. Architects, Rousseau & Rousseau, 110 Sutter street, S. F. Owner's name withheld. Location, southwest Washington and Leavenworth, covering an area of 30 by 120 feet. Will contain twelve apartments of three rooms and bath. Plans are complete and segregated figures being taken.

OAKLAND, CAL.—Apartment house, 1½ story and base, frame, $75,000. Architect, Walter H. Judson, Albany Block, Oakland. Owner, Henry J. Reeg. Location, Brookside Manor. Will contain a total of 37 apartments of three, fur and five rooms. Garage facilities on the premises. Plans complete and figures being taken.

OAKLAND, CAL.—Apartment house, 3 story and base, frame. Cost not stated. Architects, Rousseau & Rousseau, 110 Sutter street, S. F. Owner's name withheld. Location, East 15th street and Third avenue. Will contain a total of eighteen apartments of two and three rooms. Plans complete and figures being taken.

Contract Awarded.

SAN JOSE, SANTA CLARA CO., CAL.—Apartment house, 2 story and base, frame, $9,000. Architect, Charles S. McKenzie, San Jose Bank Bldg., San Jose. Owner, G. Allen. Contractor, Steve Pelton, San Jose. Contract price, $9,000.

SEATTLE, WASH. — Apartment house, 4 story and base, brick, $70,000. Architect, W. H. Milner, Haight Bldg., Seattle. Owner, P. D. Ehle & Son. Contractors, Walter & Brady, 4049 Latona avenue, Seattle. Contract price, $70,000.

BANKS.

ALAMEDA, ALAMEDA CO., CAL.—Bank, 1 story and base. Class C construction, $30,000. Architect, Edward T. Foulkes, Crocker Bldg., S. F. Owners, Alameda Savings Bank. Location, southeast Webster street and Santa Clara avenue. Will contain a large public room, offices and vault. Safe deposit boxes. Plans complete and figures being taken.

SAN JOSE, SANTA CLARA CO., CAL.—Bank alterations. Cost not stated. Architects, Binder & Curtis, Binder Bldg., San Jose. Owners, Garden City Bank. Work will consist of alterations to the first floor and will include marble and tile work and ornamental iron and bronze. Plans are complete and figures being taken.

Contract Awarded.

VICTORVILE, SAN BERNARDINO CO., CAL.—Bank, 1 story and base, reinforced concrete. Cost not stated. Architects, Krempel & Erkes, Henne Bldg., L. A. Owner, Carl Leonardt. Contractors, Leonardt & Peck, H. W. Hellman Bldg., L. A. Contract price not stated.

BONDS.

SANTA BARBARA, Cal.—Election has been called for June 26 to vote on bond issue of $85,000 for construction of outfall sewer.

SANTA BARBARA, Cal.—Election has been called for June 26 to vote on levy of special tax to raise $21,000 for repair of East Baulevard and seawall.

MESA, Auriz.—An election will be held May 15th to vote bonds of $125,000 for the construction of a municipal lighting system. W. A. MacDonald is City Clerk.

CLIFTON, Ariz.—An election will be held in Greenlee County, May 19, to vote on an issue of bonds in the sum of $200,000 for the construction of the Clifton-Springerville road.

BRIDGES AND DAMS.

VALLEJO, Solano Co., Cal.—The Worswick Construction Co. expects to secure the job of building a levee behind bulkhead No. 1 as a result of an inspection made by City Engineer T. D. Kilkenny. The levee is badly needed, especially as the Government authorities are figuring on pumping a large amount of mud onto the reclaimed land when the straits are deepened to a 35-foot depth.

The plans call for several parking spaces on the declaimed land between Georgia and Capitol streets.

RIVERSIDE, Riverside Co., Cal.—T. F. Flaherty, Chairman of the Board of Supervisors, will receive bids up to May 9th, 10 A. M., for the construction of a levee at Whitewater Point. Certified check of 5% payable to County of Riverside.

CONDON, Ore.—The Portland Bridge Co., of Portland, submitted the lowest bid for the construction of one of the many bridges to be constructed for Gilliam County. The bid was $18,960 and they will probably be awarded the contract.

MT. VERNON, Wash.—Plans have been completed by Bowerman & McCloy, consulting engineers, Mutual Life Bldg., Seattle, for the construction of a new steel bridge in Mt. Vernon, Wash., for Skagit County. The new structure will be 220 feet long with two reinforced concrete piers and will provide for a roadway and sidewalk.

The structure is estimated to cost between $30,000 and $35,000. Bids will be opened May 8th.

W. E. Costello is County Engineer.

LONG BEACH, Los Angeles Co., Cal.—J. G. Harrah, 510 Washington Bldg., Los Angeles, submitted the only bid at $54,476.70 for the construction of a combined sea wall and promenade at Long Beach. Mr. Harrah is an attorney and it is understood that he represents Henry W. Schleuter, 1225 Maryland street, whose system of interlocking concrete slab is to be used in the construction work. The bid was referred to the city engineer.
(14597) 1st report Mar. 19; 2nd Apr.

NOGALES, Ariz.—Bids will be received at the office of the Collector of Customs at Nogales, at 3 P. M. of May 10, for the construction of a United States bridge on the custom's reservation at Nogales. Plans and specifications may be obtained from the Collector of Customs, or at the office of the Supervising Architect, James A. Wetmore, Treasury Department, Washington, D. C.

SAN FRANCISCO—Pier and wharf, timber piles and concrete, $181,558 and $60,680. Engineer, Chief Engineer White, Ferry Bldg., S. F. Owners, State of California. A complete list of the bids opened by the State Board of Harbor Commissioners for constructing the Islais Creek wharf and for reconstructing Pier No. 46 will be found under the heading of Bids Opened in this issue.

Informal bids are now being taken by the State Board of Harbor Commissioners for the piling for the foundation of a United States Barge Office, which is to be located on Fisherman's Wharf.

SANTA BARBARA, Santa Barbara Co., Cal.—Bids will be received by the

City Clerk up to 12 o'clock, noon, of May 10, for the construction of a reinforced concrete bridge on Hollister avenue across Mission creek.

Separate bids will also be received at the same time for the construction of repairs to the bridge on Grand avenue in accordance with plans and specifications on file at the office of the City Engineer A. B. Cook. Certified check or bond for 10% required. A. Christine Hall is the City Clerk.

SAN FRANCISCO, Cal.—Plans have been sent to Washington for approval for alterations and additions to quarantine wharf at Angel Island, San Francisco Bay. New concrete piles will be set. It is expected that in 10 days bids will be advertised for. Watch these columns.

Contract Awarded.

SACRAMENTO, Cal. Western Pacific Railroad Co. has awarded the contract for the construction of the new railroad bridge over the American River at Sacramento to the Missouri Construction Co., Kansas City, Mo. Construction will be of steel and material is now enroute. Actual construction will be started by May 1st.

EUREKA, Humboldt Co., Cal.—The Rolph Shipbuilding Co., Eureka, has awarded a contract to Walter Selvage of Eureka for the construction of the wharf to be erected at the new ship yards recently purchased by Mayor Jas. Rolph Jr., of San Francisco. The contract price is $5,950.

CHURCHES.

BERKELEY, ALAMEDA CO., CAL.—Church, 2 story and base, frame, $16,000. Architect, John Hudson Thomas, First National Bank Bldg., Berkeley. Owners, Northbrae Presbyterian Church. Location, Northbrae. Will contain main auditorium, Sunday school rooms and social hall. Plans are being prepared.

TRACY, SAN JOAQUIN CO., CAL.—Church, 1 story and base, frame, $5,000. Architect, H. M. Patterson, O. T. Johnson Bldg., L. A. Owners, Presbyterian Church. Will contain an auditorium and Sunday school rooms. Plans are complete and figures being taken.

SEATTLE, WASH. — Cathedral, 1 and 4 story and base. Class A construction, $350,000. Architect, E. Frere Champney, Henry Bldg., Seattle. Owners, St. Mark's Church. Location, present site of St. Mark's Church. Other than the fact that this architect has been commissioned to prepare the plans and the amount of money to be expended no details have been given to the public. Further mention will be made.

HONOLULU, HAWAII—Church, 1 and 2 story and base, brick, $45,000. Architect, William Arthur Newman, Post Office Bldg., S. F. Owners, Christian Science Church. Plans complete and figures close May 7th.

FACTORIES AND WAREHOUSES.

SAN FRANCISCO—Shop building, 2 story, frame, $2,500. Architect, C. A. Meussdorffer, Humboldt Bank Bldg., S. F. Owner, George Wolters. Location, north Clementina west First, covering an area of 25 by 76 feet. Plans complete and work to be done by Day Labor.

SAN FRANCISCO Factory, 2 story, frame, $3,000. Architect, B. F. Baddeley, 1507 Folsom street, S. F. Owners, Reed Pickle Works. Location, 1507 Folsom street, covering an area of 36 by 75 feet. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Warehouse, 4 story and base, brick and steel. Cost not stated. Architect, Frederick H. Meyer, Bankers' Investment Bldg., S. F. Owners, Union Iron Works. Location, 20th and Illinois streets. Steel work has been awarded to the Western Iron Works and figures are being taken on the balance of the work.

SOUTH SAN FRANCISCO, SAN MATEO CO., CAL.—Packing plant, 4, 4 story, mill construction, $300,000. Engineer, Van Voorhies, Call-Post Bldg., S. F. Owners, Moran Packing Co. Bids are now being taken on materials and various parts of the work on the reinforced concrete and mill constructed packing houses to be erected in South San Francisco for the Moran Packing Company. The buildings will consist of shipping, warehouse, manufacturing, slaughter house, hog house, etc.

STOCKTON, SAN JOAQUIN CO., CAL.—Factory, 2 story and base, brick, $10,000. Architect, Joseph Losekann, San Joaquin Bldg., Stockton. Owners, Gloria Ice Cream Co. Location Oak and Aurora streets. Will contain plant and offices. Special ice making machinery not included in estimated cost. Plans complete and figures being taken.

VAN NUYS, LOS ANGELES CO., CAL.—Canning plant addition, 1 story brick. Cost not stated. Architect, E. R. Jeffery, Van Nuys Bldg., L. A. Owners, Van-O-Mar Producers' Association. Will cover an area of 68 by 300 feet. Plans are being prepared.

SEATTLE, WASH.—Steel plant, 3, 1 story, frame and steel. Cost not stated. Architect, none. Owners, Hofius Steel and Equipment Co., Seattle. Location, First and Spokane streets. Plans provide for a 50 by 300 structural shop, 30 by 300 warehouse and a 60 by 150 machine shop. The owners will furnish all materials. Plans are complete and figures being taken.

EUREKA, Humboldt Co., Cal.—The immediate construction of a four-way shipyard, to be located just south of the Samoa wharf, and to be operating from 60 to 90 days from date has been announced for the Hammond Lumber Company by General Manager George W. Fenwick. First vessels to be constructed will be by contract with the government, according to plans now in formation.

Exclusive of site and the electrical plant, the expenditure will amount to $60,000.

Machinery for the sawmill to be operated in conjunction with the plant was ordered some time ago, and immediate shipment will be made.

CROCKETT, CONTRA COSTA CO., CAL.—Sugar refinery additions, 6, 5, 7, and 9 story, brick, steel and concrete, $3,000,000. Architect, W. H. Crim, Jr., 425 Kearny street, S. F. Owners, California-Hawaii Sugar Co. Both the char house and refinery addition will be nine stories. Warehouses and other buildings will range from five to seven stories. Plans are being prepared.

TULARE, TULARE CO., CAL. — Packing plant, 1 story and base, brick, $10,000. Architect, none. Owners, Tulare Rochdale Co., leased to McCullough Provision Co. Will cover an area of 50 by 150 feet. Plans complete and work to be done by Day Labor. Lessees to install a refrigerating plant at a cost of $5,000.

Contract Awarded.

SEATTLE, WASH. Addition to grain elevator, reinforced concrete, $79,392. Engineers, Port of Seattle Commission, Bell Street Dock, Seattle. Owners, City of Seattle. Contractor, P. A. Harrington, Oriental Bldg., Seattle. Contract price, $79,392.

LOS ANGELES, CAL.—Laundry addition, 2 story and base, reinforced concrete. Cost not stated. Architect, none. Owners, Linen Laundry and Supply Co. Contractor, John F. Blee, Union League Bldg., L. A. Contract price not stated.

PORTLAND, ORE—6 grain elevators, reinforced concrete. Cost not stated. Engineer's name not given. Owner's name withheld. Contractors, Burrell Engineering Co., Lewis Bldg., Portland. Contract price not stated.

FIRE HOUSES AND JAILS.

OLYMPIA, WASH. — Prison repairs and additions. Cost as follows. Architect, Julius Zittel, Jamison Bldg., Spokane. Owners, State of Washington. The State Board of Control has commissioned Architect Julius Zittel to prepare plans for the following work: New steel roof to the cell wing and dining hall at the Walla Walla penitentiary; two annexes to the custodial building at the Medical Lake institution to cost $80,000, and new buildings at the Grand Mound School for Girls to cost $94,000. The steel roof work will cost $25,000. Dennis Nicholls of Vancouver, Wash., will be associated with Mr. Zittel on the Grand Mound work.

Contract Awarded.

RICHMOND, CONTRA COSTA CO., CAL.—Fire house, 1 story and base, brick, $4,220. Architect, James T. Narbett, 907 Macdonald avenue, Richmond. Owners, City of Richmond. Contractor, P. M. Sanford, Richmond. Contract price, $4,220. A complete list of these bids will be found under the heading of Bids Opened in this issue.

FLATS.

SAN FRANCISCO—Flats, 2 story and base, frame, $4,000. Architect, none. Owner, John J. Binet, 68 Ramona avenue, S. F. Location, west Linda south 18th street, covering an area of 25 by 51 feet. Will contain two flats of five rooms and bath. Plans complete and work to be done by Day Labor.

GARAGES.

SAN FRANCISCO—Garage, 1 and 2 story, reinforced concrete. Cost not stated. Architects, O'Brien Bros., 240 Montgomery street, S. F. Owner's name withheld. Location, California street, covering an area of 40 by 120 feet. Plans being prepared.

STOCKTON, SAN JOAQUIN CO., CAL. Garage, 1 story and base, brick, $8,000. Architect, W. B. Thomas, Yosemite Bldg., Stockton. Owners, Misses Mitros. Location, Eldorado and Lindsay streets. Designed for a commercial garage and will cover a considerable ground area. Plans complete and figures being taken.

LOS ANGELES, CAL. Garage and sales rooms, 2 story and base, brick. Architect, Frank L. Meline, 6778 Hollywood Boulevard, L. A. Owner, John Shell. Location, Hollywood Boulevard near Hudson, covering an area of 37 by 200 feet with a wing 70 by 100 feet. Plans are being prepared.

LOS ANGELES, CAL.—Garage, 2 story and base. Class C construction. Cost not stated. Architect, Frank Wilson Young, Lankershim Bldg., L. A. Owner, J. W. Park. Location, south Sixth street near Lucas. Designed for a commercial garage. Plans are being prepared.

LOS ANGELES, CAL.—Garage, 1 story and base, brick. Cost not stated. Architect, Albert C. Martin, Higgins Bldg., L. A. Owners, Roman Catholic Church, leased to Walter M. Brown, Stutz agent. Location, southwest Figueroa and Washington Sts., covering an area of 100 by 189 feet. Plans complete and figures being taken.

GOVERNMENT WORK & SUPPLIES.

New Army Construction.

Colonel I. W. Littell, of the quartermaster general's office, who has charge of Army construction, has completed elaborate plans for the "layout" of various organizations in anticipation of the construction of cantonments for the shelter of a large military force of 1,000,000 men. The location and size of these camps have not been determined. Therefore, contracts for the work cannot yet be made. It is a question whether the War Department will purchase the material and engage general construction companies to erect the buildings or award contracts for the complete work. In the meantime, the quartermaster general's office and the National Defense Council have been obtaining estimates to ascertain the cost of material and the sources of supply.

There will be erected at Fort Myer, Va., a series of sample buildings arranged in units of various types of construction, and the departmental designation of type will be governed, not only by price and availability of material, but by consideration of climate. One of the types will be of metal, another of concrete (which includes the roof), and a third of frame (of the "knock-down" variety). The buildings will be one story and of the simplest design. The "layouts" will be for brigade headquarters, a regiment, a battalion, and a company. The officers quarters for a regiment, for example, will be 84 feet in length and contain at one end the kitchen and mess room with offices at the other; between will be separate sleeping rooms for six officers. Each company unit will have two barrack buildings 112 feet in length. The mess building will be 77 feet long. A "layout" for a company will consist of quarters for officers, latrines, bath houses, barracks, mess buildings, and kitchen. In the cavalry command there will be shelter for animals designed specially for that purpose. It it desired that the buildings shall be readily put together, and in some instances it is proposed that the buildings shall be of the portable type so that the shelter may be easily transported in the event of a transfer of a command.

The estimated cost of providing temporary construction, etc., for this emergency force of 43,000 officers and 1,034,270 enlisted men, after deducting accommodations now available in the United States for 70,000 officers and enlisted men, amounts to $75,653,092. The item for the construction of temporary buildings described above will cost $40,290,800. Temporary hospitals are to be built to cost $2,014,540; water and sewer systems will cost $2,490,000; electric lighting systems, $604,000; roads, $5,036,000. Some idea of the extent of governmental expenditures for this purpose may be gained from the fact that $270,000 will be allotted for the purchase of ice boxes for the preservation of food in camps.

Boise, Idaho, Post Office.

As previously reported the contract for the construction complete of an extension to the U. S. post office at Boise, Idaho, was awarded to Welch Bros. & Hannimann, Kalispel, Mont. In the construction of the building fixtures and material manufactured by the following firms will be used: Plumbing fixtures, John Douglas Company; cast iron column radiators, U. S. Radiator Corporation; radiator valves, Kennedy Valve Manufacturing Company; air valves for end of steam mains, Jenkins Bros.; cabinet and tablet, Frank Adam Electric Company; conduit, Western Conduit Company; rubber-covered wire, Safety Insulated Wire and Cable Company; flush switches, Hart & Hegeman Manufacturing Company.

Cheyenne, Wyo., Plumbing, Etc.

The following bids were received by the supervising architect, Treasury Department, Washington, D. C., for plumbing, etc., in the U. S. post office building at Cheyenne, Wyo.:

J. L. Powers, Bennettsville, S. C., $1,390; 120 days.

George A. Kees Domestic Engineering Co., St. Paul, Minn., $1,394; time, 90 days.

Lander, Wyo., Roof.

J. H. Watson has the contract at $950 for making repairs to the roof of the U. S. post office at Lander, Wyo.

Olympia, Wash., Repairs and Painting.

HOTELS.

MANTECA, SAN JOAQUIN CO., CAL.—Hotel, 2 story and base, brick, $18,000. Architect, Joseph Losekann, San Joaquin Bldg., Stockton. Owner, A. V. Faight. Will cover an area of 50 by 125 feet and contain 35 rooms, office and lobby. Plans are being prepared.

SALINAS, MONTEREY CO., CAL.—Hotel, 3 story and base, reinforced concrete and hollow tile, $200,000. Architect, Theo Lenzen, Humboldt Bank Bldg., S. F. Owners, Salinas Hotel Co., Will contain in the neighborhood of 150 rooms, dining rooms, office, lobby and banquet room. Plans are nearly complete and figures will be called for shortly.

Contract Awarded.

SAN JOSE, SANTA CLARA CO., CAL.—Hotel addition, 2 story and base, reinforced concrete, $50,000. Architects, William Binder and Curtis, Binder Bldg., San Jose. Owners, Montgomery Hotel.. Contractors, Twoby Bros., care James F. Horan, Montgomery Hotel, San Jose. Contract price, $50,000.

WOODLAND, YOLO CO., CAL. — Hotel and stores, 4 story and base, reinforced concrete, $100,000. Architect, Walter H. Judson, Blake Block, Oakland. Owners, Hotel Woodland. Will cover a considerable ground area and contain over 100 rooms, dining room, office, lobby and stores. Plans are being prepared.

IRRIGATION PROJECTS.

O. M. Goldaracena of San Francisco has applied to the State Water Commission for permission to appropriate 2 cubic feet per second of the waters of Putah Creek, tributary to the Sacramento River in Lake County for the purpose of irrigating 125 acres. The water will be taken out of the creek by means of a pumping plant, according to applicant, and 2,000 feet of flume will be required to conduct same to lands to be irrigated.

W. F. Fowler of Willows has applied to the State Water Commission for permission to appropriate 100 cubic feet per second of the waters of the Sacramento river near Sidd's Landing in Glenn County for the irrigation of rice. The present application is a companion to a former application for 150 second feet, applicant stating that the additional water is required to extend the acreage being devoted to the culture of that cereal. The proposed works consists of four 36" centrifugal pumps each operated by 500 H. P. motors and discharging directly into the canal which is five miles in length. The number of acres to be irrigated is given as 14,123 and the estimated cost at $190,000.

The Little Rock Irrigation District of Little Rock, Los Angeles County, has applied to the State Water Commission for permission to appropriate all the flood waters and all the unappropriated waters of the Little Rock Creek for the purpose of increasing the present irrigation supply of the district. The application states that the point of diversion will be through the present canal intake. There is a proposed new storage reservoir with a dam to be 75 feet high, and 450 feet long on top and bottom of reinforced concrete the estimated cost of which is given at $75,000. The Commission has granted until October 1 to complete survey and file map.

B. F. Lynip of Alturas has applied to the State Water Commission for permission to appropriate 2,000 acre feet of the waters of Round Mountain Drainage area, tributary to North Fork of the Pit river in Modoc county, for irrigation purposes. The plan proposes a ditch six miles long. The Commission has given applicant until July 1 to complete the application by filing of map and other required data.

Geo. Z. Smith of Redlands has applied to the State Water Commission for permission to appropriate 2½ second feet of the waters of three springs tributary to Baldwin Lake in San Bernardino county for irrigation purposes. Cement basins in the springs and a pipe line a mile and a half long are the principal works of the proposed diversion.

WILLOWS, Glenn Co., California.—Engineer George Nelson, Willows, Cal., states that a number of figures were opened today for furnishing electric equipment, pumping machinery and for excavating in Sections Nos. 1 and 2 of the Central Jacinto Irrigation District in Glenn County. No bids will be made public until the awards are made, which will be sometime next week.

The Little Rock Irrigation District of Little Rock, Los Angeles County, has applied to the State Water Commission for permission to appropriate all the flood waters and all the unappropriated waters of the Little Rock Creek for the purpose of increasing the present irrigation supply of the district. The application states that the point of diversion will be through the present canal intake. There is a proposed new storage reservoir with a dam to be 75 feet high, and 450 feet long on top and bottom of reinforced concrete the estimated cost of which is given as $75,000. The Commission has granted until October 1 to complete survey and file map.

LIBRARIES.

INGLEWOOD, LOS ANGELES CO., CAL.—Library, 1 story and base, brick, $10,000. Architect, C. H. Russell, Story Bldg., L. A. Owners, City of Inglewood. Will contain two reading rooms, work space and offices. Plans are complete and figures being taken.

POWER PLANTS.

WOODLAND, Yolo Co., Cal.—Bids will be received until May 7 by Neal Chalmers, City Clerk, for furnishing a horizontal single-stage contrifugal pump, capacity 1200 gallons per minute against a 28-foot suction and a 50-foot head, direct-connected to a 40-hp. induction motor.

O. P. McFarlane, acting for L. W. and L. M. Munzinger, William Nourse and William H. Gibson, has applied to the State Water Commission for permission to appropriate 65 miner's inches of the waters of Curtin or McCormick Canyon in Inyo County for mining on the Buzzard claim in that county. A pipe line a mile long will be required to convey the water to the mine, the estimated cost being given as $4,000. The water is to be returned to the stream after use.

A. A. Codd of Alleghany has applied to the State Water Commission for permission to appropriate one-half second foot of the waters of Kanaka Creek in Sierra county for quartz milling purposes. The main works consist of a pipe line 1,000 feet in length. Applicant has been given until June 18 to file map.

HANFORD, Kings Co., Cal.—Four bids were received by the Hanford Trustees for furnishing fire hydrants to be used in connection with the fire main extension now under construction. The bids were referred to City Engineer Edw. Lynch.

The Hanford Manufacturing Company bid $40 each for four-inch hydrants and $46 each for six-inch hydrante; the Horlock-Clow Company bid $46 for four-inch and $48 for six-inch hydrants; the bid of the Water Works Supply Company of San Francisco was for a different style hydrant than that specified and was withdrawn; the C. Weisbaum Company of San Francisco bid $47.75 for four-inch hydrants and $49 for six-inch (double hydrants) .

SALEM, Ore.—A power plant which will cost $200,000 is proposed for Harney County, about 75 miles south of Burns and 40 miles southwest of Crane, according to an application for a permit filed in the office of the state engineer. The application was filed by Scott Catterson, who seeks to appropriate 40 second feet of water from the Donner and Blitzen river for the development of 2171 horsepower. It will be necessary, according to the plans, to construct a canal and pipe line nine miles long and construct a concrete dam 60 feet in length.

RAILROAD CONSTRUCTION AND EQUIPMENT

Contract Awarded.

KLAMATH FALLS, Ore. The City Council has formally accepted the bid of Robert E. Strahorn, of Portland and Spokane, of $300,000 for the construction of the Klamath Falls Municipal Railway to extend from Second street and Klamath avenue to Dairy, Ore., twenty miles east, and for certain equipment and rolling stock specified.

TORRANCE, LOS ANGELES CO., CAL.—Railroad shops, 30, 1 and 2 story, brick, concrete and steel. Cost as follows. Engineer, J. D. Isaacs, New York. Owners, Pacific Electric Railroad Co. Pacific Electric Railway officials announce that the company has made an appropriation of $1,000,000 for the construction of a group of shop buildings at Torrance. Actual construction work will be commenced as soon as the plans are received.

PORTLAND, ORE.—Car shop extension, 1 story, reinforced concrete and frame, $18,500. Architect, none. Owners, Southern Pacific Co., Flood Bldg., S. F. Location, east 20th avenue near Long street, covering an area of 50 by 400 feet. Plans are complete and a contract will be awarded shortly.

RESIDENCES.

SAN FRANCISCO — Residence, 1 story and base, frame, $4,000. Architect, Edward E. Young, 251 Kearny street, S. F. Owner, Thomas Scoble, 5443 Geary street, S. F. Location, east 4th avenue south Cabrillo. Will contain seven rooms, bath and basement garage. Plans complete and work to be done by Day Labor.

SAN FRANCISCO — Residence, 2 story and base, brick, $30,000. Architect, Frederick H. Meyer, Bankers' Investment Bldg., S. F. Owner, George D. Cooper. Location, Pacific avenue east Steiner. Will contain fourteen rooms, several baths and sleeping porch. Separate garage. Plans complete and figures being taken.

SACRAMENTO, Cal.—Plans and specifications are being prepared by County Engineer R. M. Morton for the "J" Street Road and the Marysville Highway, which will be the next roads under the $1,750,000 bond issue for which bids will be asked. Bids will be advertised May 22nd for these two stretches, which amount to twelve miles on the J-Street Road and six miles on the Marysville Road.

BAKERSFIELD, Kern Co., Cal.— City Clerk R. G. Ballagh will receive bids up to May 14th, 8 P. M. for the following work:

That First Alley south of Nineteenth street lying between the W property line of G street and the E property line of Spruce street, be graded and subabse tamped, and that cement concrete pavement with a sheet asphalt wearing surface; cement concrete curbs and gutters, be constructed thereon, between the points hereinbefore designated.

FRESNO, Fresno Co., Cal.—The City Council has passed a resolution of intention providing for the following work:

That "H" street from El Dorado street to Roosevelt avenue; also that Park Blvd. from Roosevelt avenue to a point 35 feet SW from the center line of Dry Creek, and from a point 35 feet NW from the center line of Dry Creek to the W city limits, etc., be graded, curbed and guttered with cement concrete curb and gutter, paved with a pavement consisting of a 4-inch cement concrete base and a 1½-inch Bitulithic wearing surface, and culverted with corrugated iron culverts.

W. H. Ryan is City Clerk.

SOUTH BEND, Wash.—Chas. B. B. Henry, County Engineer, will receive bids up to May 8th for the construction of the following roads: Clearing, grubbnig, grading and draining of 1¼ miles of State Road No. 20 near Raymond; same on ½ mile of Lilly-Wheaton Road and 1¾ miles of the National Park Highway between Menlo and Holcomb.

REDDING, Shasta Co., Cal.—The Redding City Trustees have ordered bids received up to May 7th for the paving of 8 blocks of streets in the business district. It is thought the work will cost about $40,000.

SAN FRANCISCO, Cal.—F. R. Ritchie, Chronicle Bldg., submitted the lowest bid to the San Francisco Board of Public Works for the construction of Section A of the Marina Boulevard at $39,600.

(14715) 1st report Mar. 22; 2nd Apirl

The San Francisco Board of Public Works has granted permits to improve streets under private contracts as follows:

Gates, Cortland to Eugenia to D. L. Bienfield.

Green between Jones and Taylor to Fay Improvement Co.

Fortieth avenue between Geary and Anza to M. A. Greely.

Anza between 38th and 39th avenues, to M. A. Greely.

Palou between Newhall and Phelps to Flinn and Treacy.

Crossing of Mariposa and Hampshire to Fay Improvement Co.

Twentieth street from Eureka to Douglass to Fay Improvement Co.

The following permits were granted for sidewalk construction:

Newcomb between Newhall and Phelps to Fay Improvement Co.

Twenty-fifth avenue between Anza and Balboa to Massagli & Vannucci.

Geary street between 25th and 27th avenues to Jas. Tobin.

Geary street between 24th and 25th avenues to C. C. Sayre.

F. Collins was granted a permit to construct a private sewer at Valley and Diamond streets.
(15607)

The Board passed resolutions of intention providing for the following work:

Construction of sidewalks in Jessie street, between 7th and 8th streets.

Improve crossing at 21st and Sanchez streets.

Curb and pave 21st street from Church to Chattanooga.

Curb and pave 21st street from Church to Sanchez.

Sewer Ingerson avenue from Railroad to Hawes.

Grade, sidewalk curb and pave Evans avenue from Lane to Ingalls, including crossings.

MERCED, Merced Co., Cal.—Mayor Fowler has received word from the J. H. Shafer Co. of Los Angeles, stating that they found it necessary to reject the contract for the street paving in Merced which was awarded to them a few weeks ago on their bid of $56,039. A technicality in the resolution of intention made the resolution illegal because of the failure to establish the grade on one alley, but the Board could not make any move to remedy the defect until the contractor rejected the bid.

New bids will be called for.

EUREKA, Humboldt Co., Cal.—Specifications for surfacing three miles of the road from Ferndale to Grizzly Bluff have been accepted by the County Commissioners. Bids will be called for submission at the regular May meeting.

The specifications call for a surfacing of Road-a-lite or other asphaltic material.

Contract Awarded.

AUBURN, Placer Co., Cal.—The City Trustees have adopted a resolution ordering the receipt of bids for the paving of one mile of the principal business streets. Bids close May 9th, 8 P. M. The work will be figured in three contracts.

The work is estimated to cost between $50,000 and $60,000 of which the city will pay $20,000. Work will be under the supervision of City Engineer Grover Conroy.

SOUTH SAN FRANCISCO, San Mateo Co., Cal.—A. P. Scott, South San Francisco, has been awarded the contract for grading the High School Park Subdivision.

The grading covers Spruce avenue, Park Way, Pine Terrace, Walnut avenue, Maple avenue and Lux avenue, and follows the hillside contours.

COLFAX, Wash. J. M. McCaw, County Engineer, report J. A. Fletcher & Co., of Seattle, as having been awarded the contract for the construction of Permanent Highway No. 12, on their bid of $53,300.

The improvement of Revere avenue bet. Jennings street and the E line of Railroad avenue, by the construction of concrete curbs; resetting the existing concrete curbs, and an asphalt pavement consisting of a 6-inch concrete foundation and a 2-inch asphaltic wearing surface on the roadway thereof. Awarded to The State Improvement Co., Crocker Bldg., for $2,492.

The improvement orf the intersection of Alabama street and Precita avenue, resetting the existing granite curbs; by the construction of grainte curbs; resetting the existing catchbasins; construction of one brick catchbasin, and 10-inch vitrified, salt-glazed ironstone pipe culvert; artificial stone sidewalks, and an asphalt pavement consisting of a 6-inch concrete foundation and a 2-inch asphaltic wearing surface on the roadway thereof. Awarded to The Fay Improvement Co., Phelan Bldg., for $3,155.83.

The improvement of Capitol avenue bet. Broad and Sadowa streets, by the construction of concrete curbs and an asphalt pavement consisting of a 6-inch concrete foundation and a 2-inch asphaltic wearing surface on the roadway thereof. Awarded to The State Improvement Co. for, $360.

The improvement of Oakdale avenue bet. Newhall and Quint streets, by the construction of concrete curbs and an asphalt pavement consisting of a 6-inch concrete foundation and a 2-inch asphaltic wearing surface on the roadway thereof. Awarded to Flinn & Treacy, 404 1st National Bank Bldg., for $704.

The improvement of Newcomb Ave. bet. Newhall and Phelps streets, by the construction of concrete curbs and an asphalt pavement consisting of a 6-inch concrete foundation and a 2-inch asphaltic wearing surface on the roadway thereof. Awarded to Flinn & Treacy for $537.50.

The improvement of Berlin street bet. Bacon and Silliman streets, by the construction of concrete curbs and an asphalt pavement consisting of a 6-inch concrete foundation and a 2-inch asphaltic wearing surface on the roadway thereof. Awarded to The Federal Construction Co., Sharon Bldg., for $1,485.

The improvement of Alabama street bet. Precita avenue and Norwich street produced, by the construction of artificial stone sidewalks; concrete curbs and 3 brick catchbasins with 10-inch vitrified, salt-glazed, ironstone pipe culverts; resetting the existing granite curbs and existing catchbasin and constructing a 10-inch vitrified, salt-glazed, ironstone pipe culvert; construction of a 7-foot and a 14-foot strip of vitrified brick pavement and an asphalt pavement consisting of a 6-inch concrete foundation and a 2-inch asphaltic wearing surface Awarded to The Fay Improvement Co for $ 287.53

The improvement of Girard street from Burrows street to Dwight street, by grading, construction of concrete curbs, artificial stone sidewalks; 16 brick catchbasins with gratings and trap and 10-inch vitrified, salt-glazed, ironstone pipe culverts, and construction of an asphalt pavement consisting of a 6-inch concrete foundation and a 2-inch asphaltic wearing surface on the roadway where not already constructed. Awarded to The Raisch Improvement Co., Underwood Bldg., for $19,434.92.

SACRAMENTO, Cal.—The City Commissioners have awarded contracts to J. W. Terrell, 1111 29th St., Sacramento, as follows:

That the alley bet. Santa Ynez Way and Thirty-sixth street be improved, by excavating a trench and constructing therein an 8-inch vitrified ironstone pipe sewer from the S line of Folsom Boulevard to a point 2 feet N from the N line of "P" street; constructing 2 concrete manholes; placing 30 6-inch vitrified ironstone wye branches on 8-inch pipe sewer and back filling the trench.

That Santa Clara Way, Catala Way and Forty-second street be improved, by excavating a trench and constructing therein an 8-inch vitrified ironstone pipe sewer on Santa Clara Way from the manhole in place on Third Avenue to a point 101 feet S from the S line of Second Avenue; constructing an 8-inch vitrified ironstone pipe sewer on the center line of Catala Way from Santa Clara Way to a point 190 feet E therefrom; constructing an 8-inch vitrified ironstone pipe sewer on Forty-second Street from the manhole in place 50 feet N from the center line of Third Avenue to a point 484 feet N therefrom; constructing 4 concrete manholes complete with cast iron curbs and covers; placing 53 6-inch vitrified ironstone wye branches on 8-inch sewer, and backfilling the trenches.

SAN DIEGO, San Diego Co., Cal.—The C. L. Hyde Construction Co., 954 Third street, San Diego, has been awarded the contract for the construction of 9.4 miles of Federal road beginning at the intersection of the state highway at the summit of the grade at Buckman's Springs and extending up the Laguna mountains to the Laguna lake.

STOCKTON, San Joaquin Co., Cal.—Contract for street paving, grading, sidewalks, etc., in Fair Oaks District has been awarded to Clark & Henery Construction Co., 38 S-Sutter St., Stockton, for $41,916.81. Federal Construction Co. bid $43,285.24.

The contract for improving Minor avenue has also been awarded to Clark & Henery Construction Co. for $6,571. Federal Construction Co. bid $7,052.85.

RICHMOND, Contra Costa Co., Cal. Geo. W. Cushing, 420 MacDonald Ave., Richmond, has been awarded a contract on his bid of $23,806.11 for the following street improvement, that a portion of South street, Wall avenue, 41st street and 37th street, be graded, paved with 5-inch concrete base with a paint top wearing surface consisting of asphalt and rock screenings; that cement concrete curbs with galvanized

steel curb bar, cement concrete sidewalks, culverts of corrugated iron and concrete, with concrete wing walls and portals, and parkings with redwood curbs, be constructed thereon.

FRESNO, Fresno Co., Cal.—Thompson Bros., 1514 "H" street, Fresno, have been awarded the contract at $15,490 for constructing artificial stone sidewalks, cement concrete curbs, and grading and oiling, corrugated iron culverts, etc., on Madison avenue, from Fresno avenue to North Ninth street.

OAKLAND, Cal.—The City Council has awarded a contract to J. Catucci, 1230 18th street, Oakland, for the following work:

That a vitrified-pipe sewer, having an internal diameter of 8 inches, be constructed along the center line, and its production, of Wilbur street from Whittle avenue to a point 155 feet SE therefrom, measured along said center line, and its production, of Wilbur street; also

That the following structures be built on said sewer, to-wit: a brick manhole; a vitrified-pipe lamphole, and enough vitrified pipe "Y" branches, having 5 inch openings, to provide one such branch for each 40 foot lot, and fractional lot remaining, into which the abutting property frontage is capable of being divided.

SAN FRANCISCO, Cal.—The Federal Construction Co., Sharon Bldg., has been awarded the contract by the Board of Public Works for the improvement of Beaver street between Castro and 25th streets, by grading; resetting existing granite curbs; constructing an 8-inch vitrified, salt-glazed, ironstone pipe sewer with 18 Y branches and 2 brick manholes; a brick drop manhole; concrete curbs and of artificial stone sidewalks; a vitrified brick pavement; and an asphalt pavement consisting of a 6-inch concrete foundation and a 2-inch asphaltic wearing surface on the remainder of the roadway. The contract price is $15,323.

SACRAMENTO, Cal.—The City Commissioners have awarded contracts for street improvements as follows to Heafy & Tobin of Sacramento:

That Second avenue in Boxler Tract, be improved, by excavating a trench and constructing therein an 8-inch vitrified ironstone pipe sewer in the sidewalk space between the concrete walk and curb on the N side of Second avenue from a point 344 feet W from the W line of Freeport Blvd to a point 20 feet E from the W line of Freeport Blvd.; etc., also

That Freeport Blvd. be improved, by excavating a trench and constructing therein . a 6-inch vitrified ironstone pipe sewer on a line parallel to and 20 feet E from the W line of Freeport Blvd., from a point 6 feet S from the N line of Second avenue produced E to a point 10 feet N from the S line of Lot No. 4 in Block 2, Boxler Tract, produced E; placing 7 6-inch vitrified ironstone wye branches on 8-inch pipe sewer; placing 3 6-inch vitrified ironstone wye branches on 6-inch pipe sewer; constructing 2 concrete manholes complete, and backfilling the trenches.

That San Jose Way, be improved by excavating a trench and constructing therein an 8-inch vitrified ironstone pipe sewer from the manhole in place on Fifth avenue to a point 118 feetS from the S line of Fourth avenue, etc.; excavating a trench and constructing therein a 6-inch vitrified ironstone pipe sewer; constructing 1 concrete manhole; placing 16 6-inch vitrified ironstone wye branches on 8-inch pipe sewer; placing 4 6-inch vitrified ironstone wye branches on 6-inch pipe sewer and backfilling the trench.

That the easements in H. J. Goethe Co. Subdivision "G," be improved by excavating a trench and constructing therein an 8-inch vitrified ironstone pipe sewer from the sewer in place in the NW corner of Lot No. 4405, and thence S through the 3 foot easement and right of way on the W side of Lots 4405, 4406, 4407, 4408 and 4409 to a point 2 feet N of the S line of Lot 4409, etc.; constructing a 6-in. vitrified ironstone pipe sewer;1 concrete manhole complete; placing 7 6-inch vitrified ironstone wye branches on 8-inch sewer; placing 3 6-inch vitrified ironstone wye branches on 6-inch sewer, and backfilling the trench.

That the easement in the block bet. Third and Fourth avenues and bet. Fortieth street and Forty-second St., be improved, by excavating a trench and constructing therein a 6 and 8-inch vitrified ironstone pipe sewer; constructing 2 concrete manholes complete with cast iron curbs and covers; placing 25 6-inch vitrified ironstone wye branches on 8-inch sewer; placing 6 6-inch vitrified ironstone wye branches on 6-inch sewer, and backfilling the trenches.

The following work was awarded to F. E. Frey 2526 "Q," St., Sacramento:

That the alley bet. Discovery Way and Forty-ninth street, Elmhurst, be improved by excavating a trench and constructing therein an 8-inch vitrified ironstone pipe sewer from the manhole in place in the alley first N of "T" street to the manhole in place on "R" street; constructing 1 concrete manhole complete; placing 22 6-inch vitrified ironstone wye branches on 8-inch sewer and backfilling the trench.

That the alley bet. Sacramento Blvd. and Thirty-ninth street be improved from 5th Ave. to 7th Ave. by excavating a trench and constructing therein an 8-inch vitrified ironstone pipe sewer; constructing one concrete manhole complete; placing 17 6-inch vitrified ironstone wye branches on 8-inch vitrified ironstone pipe sewer, and backfilling the trench.

That the alley bet. Thirty-ninth street and La Solidad Way be improved by excavating a trench and constructing therein an 8-inch vitrified ironstone pipe sewer from the manhole in place on Fifth avenue to the N line of Seventh avenue; constructing 1 concrete manhole; placing 14 6-inch vitrified ironstone wye branches on 8-inch pipe sewer and backfilling the trench.

CHEHALIS, Wash.—The following contracts for road work have been awarded by the County Commissioners:

Permanent Highway No. 2-D, 8,675 lin. ft. of one-course concrete road, 16 feet near Forest—To Jarvis & Burkheimer, Liberty Bldg., Seattle, at $23,517.

Permanent Highway No 6, 5,280 lin. ft. of one-course concrete, road 16 ft. near Centralia—To Hendricks & Ward of Centralia at $13,400.

Improvement No. 200, 5,280 lin ft. of one-course concrete road, 8 ft. wide to Albers & Son, Chehalis, Wash., at $8,500.

STORES AND OFFICES.

SAN FRANCISCO—Wholesale building, 5 story and base, reinforced concrete, $125,000. Architect, none. Owner, Blanch Thayer Heath. Location, southwest First and Jessie streets, covering an area of 76 by 155 feet. Has been leased to one concern. Construction will be carried out by H. P. Hoyt Co., Monadnock Bldg.

SAN FRANCISCO—Store alteration, 2 story, frame. Cost not stated. Architect, Henry Shermund, Mills Bldg., S. F. Owner, George Kammerer, leased to Dessells Pharmacy. Location, Ninth and Irwin streets. Work will include interior and exterior work, new store fronts, electric wiring, plumbing and marble work. Plans are complete and figures being taken.

OAKLAND, CAL.—Stores, 1 story and base, brick. Cost not stated. Architect, none. Owner, G. F. Quigley, 1421 Broadway, Oakland. Location, northwest Seventh and Clay streets, covering an area of 50 by 75 feet. Will contain two stores. Plans complete and segregated figures being taken by owner.

FRESNO, FRESNO CO., CAL. — Stores, 1 story and base, brick. Cost not stated. Architect, H. B. Hotchkin, Rowell Bldg., Fresno. Owner, L. M. Athenour. Location, Fresno and G streets, covering an area of 50 by 65 feet. Plans complete and figures being taken. .

LONG BEACH, LOS ANGELES CO., CAL.—Store and office completion. Class A construction, $300,000. Architect's name not given. Markwell Bros. have incorporated the Markwell Fireproof Building Co. for the purpose of financing and completing the Class A store and office building at the foot of Pine avenue, Long Beach. The building is to be a six-story structure and will contain a theatre to seat 1200 people, cafeteria, about 60 shops and stores, and 96 offices. It is expected that arrangements can be made to resume work in 60 days.

PHOENIX, ARIZ.—Stores and offices, 4 story and base. Class A construction, reinforced concrete, $150,000. Architects, Mayberry & Parker, Pacific Electric Bldg., L. A. Owner, Dwight B. Heard. Will occupy a corner site, covering an area of 70 by 146 feet and contain a number of stores on the first floor besides a total of 117 offices. Plans are being prepared.

SAN FRANCISCO—Store and offices, 2 story and base. Class C construction. Cost not stated. Architect, Benj. G. McDougall, Sheldon Bldg., S. F. Owner's name not given. Location, west Sansome between Pine and California, covering an area of 46½ by 120 feet. Plans complete and figures being taken.

SAN FRANCISCO—Office and factory, 4 story and base, reinforced concrete or mill construction. Cost not stated. Architect, George William Kelham, Sharon Bldg., S. F. Owners, Hills Bros. Co. Location, southeast Howard and Fremont streets, covering an area of 137½ by 137½ feet. Will contain the offices of the company,

factory and warehouse. Plans are being prepared.

RUSSIAN FIRM CONSIDERING THE ESTABLISHMENT OF A FACTORY IN THE UNITED STATES.

We are in receipt of the following from R. B. Freeman & Co. of 90 Wall St., New York, to which our readers' attention is carefully directed:

TO THE EDITOR,

Dear Sir:—We are writing to ask your help and advice. We have had some correspondence with a firm in Russia that own plants now devoted to the Government's service.

They want to start another plant and put up the building themselves according to the plans of an American firm that would contract to furnish and install complete equipment for the manufacture of lead sheets ½ to 6 millimeter thickness and also lead pipes of all sizes, lead seals and lead wire.

They want a modern plant with American machinery. They would like to receive a general outline of what could and would be done, the approximate time before work could be started after placing the order, the approximate time before completion, the approximate price and how payment should be made. Specific plans to be agreed upon later.

We know there are firms in this country that would be interested in this and other propositions that we have and we feel that you can give us more help because of the position you hold than anyone else we can approach. We will appreciate anything you can do for us.

Yours very truly,
R. B. FREEMAN & CO.

ITEMS OF INTEREST.

NEVADA CITY, Nevada Co., Cal.—The first work toward a new hospital was commenced recently when County Engineer Joseph O'Connor drove his stakes preparatory to making a survey and contour map for the architect. It is the intention of the Supervisors to build the hospital in units. Work on the first unit will start early next year.

REDDING, Shasta Co., Cal.—The Northern California Counties' Association reports surveying crews are at work in Trinity County on the Weaverville lateral and in Lassen County on the Susanville lateral. Work will be begun on the main highway between Redding and Dunsmuir as soon as the rights of way have been secured.

Grading on the highway between Weed and Yreka will probably be begun as money is available. A surveying crew will be placed on the Pit River within the next ten or fifteen days, provided the men can be secured. The road may be built up the canyon instead of over the mountain, if the extra money can be secured.

WOODLAND, Yolo Co., Cal.—H. Goodin of Woodland has patented a multiple driven auto truck, equipped with an armored body, constructed of sheet and structural steel, which ought to make a formidable war machine.

ALTURAS, Modoc Co., Cal.—Twenty-two carloads of steel rails and ties have been brought here by the Nevada-California-Oregon Railway for its "Y" to the Fitzgerald Tract, donated to the company by the citizens of Alturas.

VALLEJO, Solano Co., Cal.—Announcement has been made by the Vallejo Land and Improvement Company that it has sold sixty-five acres to the Terminal Ship Building Company of San Francisco on the water front between Vallejo and South Vallejo for the establishment of a ship yard.

The San Francisco builders will construct four ways and will begin the building of wooden freight ships within forty days. Ships up to 15,000-ton capacity will be launched.

LODI, San Joaquin Co., Cal.—M. L. Goreman will open a factory here in the near future in which he will manufacture home gas plants. He will make machines under a new invention recently patented by George Williamson of Petaluma. The plant is operated by a water pressure and gas is manufactured from gasoline under a cold process and is claimed to be made at a cost of 65 cents per 1000 feet. The generator is a small machine and only occupied a space of 15 inches square of floor space. The inventor claims the machine cannot be exploded under the cold process of gas making.

GRASS VALEY, Nevada Co., Cal.—The Grass Valley Hotel Corporation, which is about to build a $75,000 hostelry, will spend $3,500 for a piece of land 50 by 100 feet to add to its lawn. The City Trustees have voted to accept the company's offer of that sum for the firehouse and jail property on West Main street, and the deal was closed.

OROVILLE, Butte Co., Cal.—That the Great Western Power Company means business in regard to the construction of a $6,000,000 power plant here, was evidenced when R. S. Kitrict deeded to the company 160 acres of land in the Morris Ravine.

The land is to be a right-of-way for the proposed canal. The canal will be built from one mile south of Las Plumas to the power plant which is to be built two miles northeast of here on the banks of the Feather River.

AMERICAN HARDWARE GAINING GROUND IN AUSTRALIA.

Commercial Attache Philip B. Kennedy, at Melbourne, has informed the Bureau of Foreign and Domestic Commerce that American manufacturers of hardware are receiving excellent orders from Australia, including such staple lines as screws. Several large importers have recently told the attache that they are very much interested in placing orders in the United States and that they have been able to give good business to American concerns that previously had done very little in Australia. Besides placing orders, Australian firms are particularly interested in taking up the question of obtaining American agencies. The present would, therefore, seem to be an opportune time for American manufacturers to pay special attention to the Australian market.

In this connection it should be mentioned that the Bureau of Foreign and Domestic Commerce published in the fall of 1916 a monograph on "Australian Markets for American Hardware," which covered in a detailed and comprehensive manner all phases of the hardware situation in the Commonwealth. In the course of the investigation 587 samples were purchased, representing articles commonly used in Australia and obtained from other than American sources. There are now on exhibition at the commercial museum maintained by the Bureau at the United States Customhouse in New York City. The book containing the report of the investigators has 105 pages and is sold for 10 cents by the Superintendent of Documents, Government Printing Office, Washington, D. C., and by the district offices of the Bureau.

The Beverly Hills Utilities Company, which serves electricity to Beverly Hills, Los Angeles County, has filed with the Railroad Commission an application for authority to sell to the Southern California Edison Company the electric system and franchise to do business in Beverly Hills of the Beverly Hills company for $23,347.70. The Southern California Company has already applied to the commission for authority to purchase the system.

ADVANCE CONSTRUCTION NEWS.

Classified According to Location

SAN FRANCISCO.

APARTMENT HOUSE—3 story and base, frame, $25,000. San Francisco. Architect, J. C. Hladik, Monadnock Bldg., S. F. Owner, Anna Hladik. CHURCH—1 and 2 story and base, brick, $45,000. Honolulu, Hawaii. Architect, William Arthur Newman, Post Office Bldg., S. F. Owners, Christian Science Church. Plans complete and figures close May 7th.

CHUNGKING, China.—A large firm in West China has decided to establish a general hardware business at Chungking, opening with a stock valued at about 10,000 taels ($8,000 United States currency). Various kinds of hardware, building materials, and engineers' tools and supplies are to be carried. The firm desires to hear from large American supply houses or manufacturers furnishing these lines. Dealings with those who understand the Chinese market are sought. Generally speaking, the cheaper grades of merchandise will be preferred. This is the first move to establish such a business in Chungking. Six months to one year will elapse before it is opened. This firm has an agent in New York, and probably purchases will be made through the agency.

[The name of the firm may be obtained from the Bureau of Foreign and Domestic Commerce, its district or co-operative offices. Refer to file No. 86850.]

SAN FRANCISCO ASSURED NORMAL SCHOOL.

SACRAMENTO, Cal., April 23, 1917. — The Kehoe Bill appropriating $500,000 for the construction of a State Normal School at San Francisco passed the Senate by a vote of 24 to 7. The bill provides that the old California Building, located on the Exposition Site, must not be used for the selection of a site for the Normal School Trustees.

DEEDS SECURED FOR RAILROAD.

ALTURAS, Modoc Co., Cal., April 23, 1917.—C. S. Baldwin of the Citizens' Railroad Committee, has gone to Reno, carrying with him deeds for the necessary right of way and tract of land for the shops of the Nevada-California-Oregon Railroad Company.

The deeds will be delivered when the railroad company signs the agreement to make Alturas a division point and executes a $10,000 bond.

FUNDS FOR HIGHWAY.

SACRAMENTO, Cal., April 23, 1917. The only Assembly road appropriation bill which succeeded in passing the lower House is one by Assemblyman A. J. Mathews of Susanville, calling for $60 000 for State highway from Susanville, Lassen County, to the Nevada State line, connecting with a highway to Reno

NEW HOTEL FOR LYON.

In connection with the proposed construction after the war of a modern hotel at Lyon, France, to cost $2 000,000, Consul John E. Jones has transmitted a translation describing the project and a copy of the plans. These can be examined at the Bureau of Foreign and Domestic Commerce or its district or co-operative offices by referring to file No. 86509.

WAR-TIME ADVICE TO FARMERS FROM FACTORY-MEN.

How the wheat farmers of the State can best serve the State and the Nation, through co-operation with California factories, during this war-time crisis, will be the topic for discussion at the regular weekly luncheon of the Home Industry League to be held today at the Palace Hotel.

The principal talk will be delivered by Professor Bert D. Ingels, the chief chemist of the Sperry Flour Co., who will give the viewpoint of the State's flour makers.

Women are especially invited to the luncheon, as the moving pictures used to illustrate the talks will have particular appeal to housewives.

Nominations for vacancies in the Board of Directors will be received at this meeting.

J. H. KRUSE NOT INTERNED AND NOT IN TROUBLE.

Some mischief maker has been spreading a story to the effect that J. H. Kruse, the popular lumber dealer, mill man and hardware dealer of 23rd and Shotwell, has gotten in trouble with the Federal Authorities on account of the war, and was a prisoner.

The above yarn is a miserable lie. Mr. Kruse came to America when 17 years of age to get away from the Kaiser, was naturalized in 1874 (43 years ago) raised his family here and is a staunch citizen of the United States.

THOUSANDS AT WORK ON ALASKAN LINE.

Nearly 7,000 men are working on the new Government railroad which is being built by the Alaskan Engineering Commission, under the direction of Secretary of the Interior Lane, in Alaska this year, 1,000 more than were employed last season. A number of those whose applications were received too late have gone north anyway, many of them intending to apply for homesteads.

The new railroad passes through an extensive agricultural country, and between 500 and 1,000 homesteaders are now developing that region as it was never possible to develop it before the coming of the railroad.

Plenty of Room.

There is still room for a large number of homesteaders near the railroad, and the Government encourages farmers from the States who wish to make Alaska their home. Recently the Alaskan Engineering Commission contracted with the Matanuska farmers for 400 tons of potatoes or over 13,000 bushels.

Many of the homesteaders now located in various parts of the Territory are former miners and prospectors who came primarily for mining, but were so impressed with the farming and stock-raising possibilities that they ceased their pursuit of the elusive pay-streak, and chose to follow the more dependable plow instead.

Manager's Statement.

Manager Christensen of the Land and Industrial Department states in his report on the farm lands of the railroad country:

Since the advent of the railroad there has been an influx of several thousand people, and there is now a demand for more products than the farmer can supply. * * * Matanuska is located in the heart of the Matanuska Valley, and will be a distributing point for the farmers. Nearly all of these farmers devote their time exclusively to agriculture because they have always been assured of a market and of hight prices for their products.

CALIFORNIA WHEAT FIELDS TO REPLACE CALIFORNIA VINEYARDS.

The biggest opening for "home industry" in California today is one available to all who own small ranches, even if the ground is hilly, declared Prof. Bert D. Ingels, Chemist of the Sperry Flour Co., in a talk recently at the Palace Hotel before the members of the Home Industry League of California.

"New conditions in world markets make it certain that flour will never again be so cheap as $1,50 per 50. Today it is $3.30, and the price will go up tremendously still. There are many reasons why it will pay California farmers and ranchers to raise wheat better than it will pay ranchers or farmers elsewhere. And the big price which wheat will bring hereafter will make it well worth the while of the California rancher to plough up other crops, feed fertilizer to the soil in great quantities, and grow wheat annually instead of the various other things they are planting today."

The threatened ruin of the vineyards of the State does not seem to Prof. Ingels a real calamity, for the reason that all the ground now given to grapes can in future be more profitably given over to the raising of wheat. Nor is it necessary for a person to have a large tract of ground under cultivation to make future wheat crops profitable, according to Prof. Ingels, who states that the smallest rancher can share in California's coming prosperity.

HEAT-INSULATING EFFICIENCY OF MATERIALS.

WASHINGTON, D. C.—Study of the results of an investigation of the heat-insulating efficiency of various materials has been made by the United States Bureau of Standards, and although absolute statements would not be warranted at the present stage, certain preliminary conclusions have been started. In general, it appears that gypsum shows a greater efficiency as a fire-insulating material. Concrete and clay vary somewhat, depending upon their porosity. The denser clays conduct the heat a little more rapidly than concrete. The more porous clays, however, conduct heat somewhat less rapidly than the concrete. The effect of the aggregates on the concrete is not very marked in changing the relative conductivity. There is little difference in this respect between gravel, trap rock, slag, and soft-coal cinder aggregate. Limestone concretes, however, seem to stand out as giving a much lower conductivity. There was found to be but little difference between the behavior of the gypsum specimens furnished by different manufacturers. The dense high-plaster mixtures give much better results than the porous low-plaster, high-water mixtures.

UNITED STATES CIVIL SERVICE EXAMINATION.

MECHANICAL ENGINEERS (MALE).

The United States Civil Service Commission announces an open competitive examination for mechanical engineers, for men only. Present and future vacancies at the Frankford Arsenal, Philadelphia, Pa., at entrance salaries ranging from $3,600 to $2,200 a year, and in positions elsewhere requiring similar qualifications, will be filled from this examination.

Competitors will not be required to report for examination at any place, but will be rated on the following subjects, which will have the relative weights indicated, on a scale of 100: (1) Education and preliminary experience, 40; (2) Responsible experience, 60.

The compensation duties, and minimum requirements for the positions are as follows:

Mechanical Engineer, $3,000 to $3,600 (Artillery Ammunition).

The duties of this position consist in the superintendence of the filling of artillery munition shells, the assembling of fuses, grenades, etc., and the manufacture and utilization of detonators and primers.

The applicant should have had considerable experience in manufacturing plants, be capable of organizing a plant, of handling employees, of providing for the maximum production of a given equipment, and, in general, posses the qualifications of a factory superintendent.

The applicant must be a graduate of a college or university or recognized standing along mechanical, chemical, or electrical lines, and must have had at least two years' experience in a position similar to that described above.

Mechanical Engineer, $2,500 to $3,000 (Experimental Work).

The duties of this position consist in the conduct of experimental work in connection with the development of fuses, primers, grenades, incendiary and illuminating bombs, etc.

The applicant must be a graduate of a college or university of recognized standing along mechanical, chemical, or electrical lines, and must have had at least two years' experience in a position similar to that described above.

Mechanical Engineer, $2,200 to $2,600 (Optical Instruments, Etc.).

The duties of this position consist in the superintendence of the production, and the inspection of optical instruments, particularly gun sights, observing instruments, and range finders.

The applicant should be capable of filling the position of superintendent of plant; have a knowledge of planning and routing work, inspecting same, devising blank forms to meet factory conditions, and the procuring of the appropriate tools, fixtures, and gauges.

The applicant must have had at least a high-school education or four full years of study in a school offering a course equivalent to that of a high school, and have had not less than four years of responsible technical or executive experience in duties similar to those outlined above.

Applicants must have reached their fiftieth birthday on the date of the examination. .

Applications should be filed at the earliest possible date. They will be rated immediately upon receipt and appointments made promptly.

This examination is open to all male citizens of the United States who meet the requirements.

Applicants should at once apply for Form 1312, stating the title of the examination desired, to the Civil Service Commission, Washington, D. C., or the secretary of the United States Civil Service Board, Post Office, Seattle, Wash., or San Francisco, Cal.

STRENGTH OF HOLLOW TILES INVESTIGATED.

WASHINGTON, D. C.—A series of investigations of the strength of hollow tiles as developed in walls of varying thickness has been started at the United States Bureau of Standards by the construction of a number of these walls 5 feet long by 12 feet high. The walls so far constructed are of three thicknesses, 6, 8 and 12 inches. Those already laid up have been set with the tile on end. It is proposed to construct walls of similar size with the tiles placed on their sides. Other variables will enter into the work, and when the investigation is completed about 50 will have been built. Some of these will be tested by direct compression; others by applying a load across the middle of the side with the purpose of determining somewhat the ability of these walls to withstand wind pressure.

The investigation has been undertaken at the request of several manufacturers of this material. Some of the data will be made available for the American Society for Testing Materials, which is now engaged through one of its committees in adopting specifications for hollow building tile.

RAILROAD COMMISSION OF THE STATE OF CALIFORNIA.

The Fall River Mills Water Company, of Fall River Mills, Shasta County, has filed with the Railroad Commission an application for authority to increase its water rates to $1 a month minimum for residences and proportionately for other consumers.

The Pacific Improvement Company, which among other things furnishes Castle Crags resort with electricity during the summer months through the California-Oregon Power Company, has filed with the Railroad Commission a complaint against the latter company asking the commission to compel the California company to re establish the service at Castle Crags as it was from 1912 to November last, to complete its present contract with the Pacific Improvement Company, and to continue its service at the same rate that such service is given to the general public in Sacramento River Canyon, and that the cost of such re-establishment be not taken into account as a basis on which charges shall be made. A few days ago the California-Oregon Power Company filed an application with the Railroad Commission asking the commission to establish rates for such service, and also asking the commission to take into consideration that it would cost $1200 to construct a power transmission line to give the Improvement company the service.

Now that the awful horror of war has been brought home to us, it is certainly the part of wisdom to prepare for the future so that such a thing can never occur again. And in order that such a thing may not occur it is up to the free democarcies of the world to see to it that the laws of nations as well as the laws for the government of individuals are enforced. And the only way that this can be done is for the free democracies to have the power to enforce them. This can only be done when their citizens and their voters are also citizens and soldiers and capable of enforcing the obligations of solemn treaties.

The average man does not want to go to war. Neither does he want to be murdered. But if he would protect himself he must train to meet the emergencies that may arise.

The Declaration of Independence placed us among the powers of the earth and gave us our "separate and equal station." We can no longer live separate and apart. We must take our part in the making of the history of the world and that part is on the side of law, order and democracy. It is high time for us to prepare to meet any emergency, and when a concert of nations is reached then will our voice be that much more powerful to make the horrors of war impossible.

◆

TO STUDY RUSSIAN INVESTMENT OPPORTUNITIES.

Recent developments in Russia have emphasized the importance of the special study of investment opportunities in that country that has been undertaken by the Bureau of Foreign and Domestic Commerce. The Bureau has already announced the appointment of one representative for this foreign field, and it has now made a second appointment, selecting William A. Russell, of New York, as special agent to share with Augustin W. Ferrin, editor of Moody's Magazine, the important work that is to be done.

The opinion is generally held that Russia will need a great deal of American capital for the development that is sure to come in the near future, but definite information as to the nature of the opportunities now presented has been lacking. Mr. Russell is a native of Petrograd, received his education there, and gained a valuable experience as a consulting engineer in Russia, Siberia, and China before coming to this country. In New York he has been engaged as an advisory engineer and has devoted much of his time to analyzing investment propositions. He will consult with interested American firms before sailing for Russia. Messrs. Ferrin and Russell will travel together on the foreign tour and divide the work.

◆

THE TALE OF THE TUB.

The above is the title of a five reel Industrial Film produced for educational features by the Standard Sanitary Manufacturing Co. of Pittsburgh, Pa., which will be displayed at the Savoy Theatre on McAllister street near Market on Thursday April 26th at 3:30 and 8:15 P. M. Admission by card, which is free for the asking at 149 Bluxome street.

The film, aside from the educational value is full of wit and humor. Every body interested in building should make it a point to see this film.

WAR DEPARTMENT HEADQUARTERS WESTERN DEPARTMENT, S. F.

IMPORTANT NOTICE TO RESERVE OFFICERS, APPLICANTS THEREFOR AND OTHERS SEEKING INFORMATION REGARDING THE MILITARY SERVICE.

Notice has been given from above Headquarters that letters seeking information on military subjects should not be addressed by name to General J. Franklin Bell, who has recently been in command of the Department. He has gone to New York and if mail be addressed to him by name it will have to go to New York and be returned to San Francisco before it can be attended to.

All communications for California, Oregon, Washington, Idaho, Nevada, Utah and Montana, which States are in the Western Department, and, in addition, Arizona and New Mexico, should be addressed to the

COMMANDING GENERAL,
WESTERN DEPARTMENT,
SAN FRANCISCO CAL.

Such an address will bring a prompt reply to any one requesting information or corresponding concerning military matters.

SOUTHERN PACIFIC IN CAMPAIGN FOR FOOD CONSERVATION.

Southern Pacific agents all over the country have been directed to cooperate with State and Federal authorities in enlisting farmers and housewives in the campaign for food conservation and production. Not only is the railroad providing agricultural experts to travel along its lines and lecture to farmers, but station agents and representatives of the Southern Pacific Company have been asked to bring to the attention of those concerned, placards and bulletins which are now being issued by Dean Thomas F. Hunt of the Agricultural Experiment Station of the University of California, and the special committee on Resources and Food Supply appointed by the State Council of Defense.

The Southern Pacific Bulletin which reaches 45,000 employees semi-monthly urges that farmers be advised to plant grain sorghums immediately on any good average soil, and on irrigated soil up to June 25. Details may be obtained from the local Farm Adviser or by writing the University of California, Agricultural College, Berkeley, California.

The same railroad publication also points out the following seven ways in which money is wasted on food, and how to save this waste:

1 The use of needlessly expensive material providing little nutrition, often selected because of appearance. The most economical food is that which supplies the nutriment at the lowest cost.

2. Failure to select rightly according to season.

3 Poor preparation which reduces the food value.

4 A great deal is thrown away that might be used.

5 Ignorance of the proper care of food materials in the home and of preservation methods.

6 Expense of retail delivery to homes, which is often demanded for small orders twice a day, and duplication of delivery routes for the same product.

7 Waste in fuel. Plan menus to conserve it by proper care of stoves, and the use of the gas oven for most of the meal instead of for the meat alone much waste may be eliminated.

OUTLOOK BRIGHT IN ALL LINES.

Mr. White, of White Bros., dealers in hardwood lumber at 5th and Brannan streets, when asked by a representative of the "Builder" for his opinion as to what effect the war would have on business said that the state of uncertainty regarding the entry of this country into the war, disturbed conditions in the Hardwood Lumber business to a slight degree only. The very general healthy condition of business in all lines, which has existed for a considerable length of time, has apparently strengthened the commerce of the country to such an extent that it can withstand what under other circumstances would produce very uncomfortable results. The extraordinary development of our foreign trade has strengthened the financial condition of the country so that we need have no fear of any sudden slump in general business and particularly in the hardwood line. On the contrary the increased activity in preparing our Army and Navy for the war which we have now entered is drawing to a great degree upon the substantial stocks of hardwood in the hands of the Pacific Coast dealers.

The country at the present time is suffering from the worst freight congestion which has ever been experienced. However, the San Francisco hardwood yards in particular are well stocked and there is sufficient hardwood lumber on hand undoubtedly to supply the ordinary wants of the trade until the freight situation clears up. On this point, however, it is difficult to forsee the effects of the mobilization of the country for war, and it is therefore better to provide for hardwood requirements from stocks now on hand at Pacific Coast points, than to depend upon shipments from the East.

The general activity in building throughout the Pacific Coast is remarkable. Factory extensions constitute a great part of this activity, but the building of homes in the cities and towns shows a great increase, due for the most part for the increased earning power of the general workers.

Ocean freights have soared and tonnage is very difficult to obtain. This has had a direct effect on imported woods. Japanese oak as a factor in Pacific Coast trade has disappeared, for the time being at any rate.

The scarcity of tonnage is having a very salutary effect on the ship building industry, both in steel and wood. Wooden ships before the war were gradually being eliminated, but now old yards which were practically dismantled are humming with the sounds of adze and hammer, and new yards are continually being installed. All woods which go into the construction of a wooden ship are in great demand all over the United States and particularly on the Pacific Coast.

Summing up the hardwood situation as it relates to dealers and consumers on this Coast, all conditions point to a period of tremendous activity.

FOREST SERVICE TO INCREASE RANGE.

In co-operation with the Food Supply Committee of the State Council for Defense, the U. S. Forest Service is making plans to stock to their very fullest capacity the National Forest ranges. If the stock can be secured the money raised for necessary trails and water developments, an increase in number on the ranges equivalent to 80,000 head of cattle might be made.

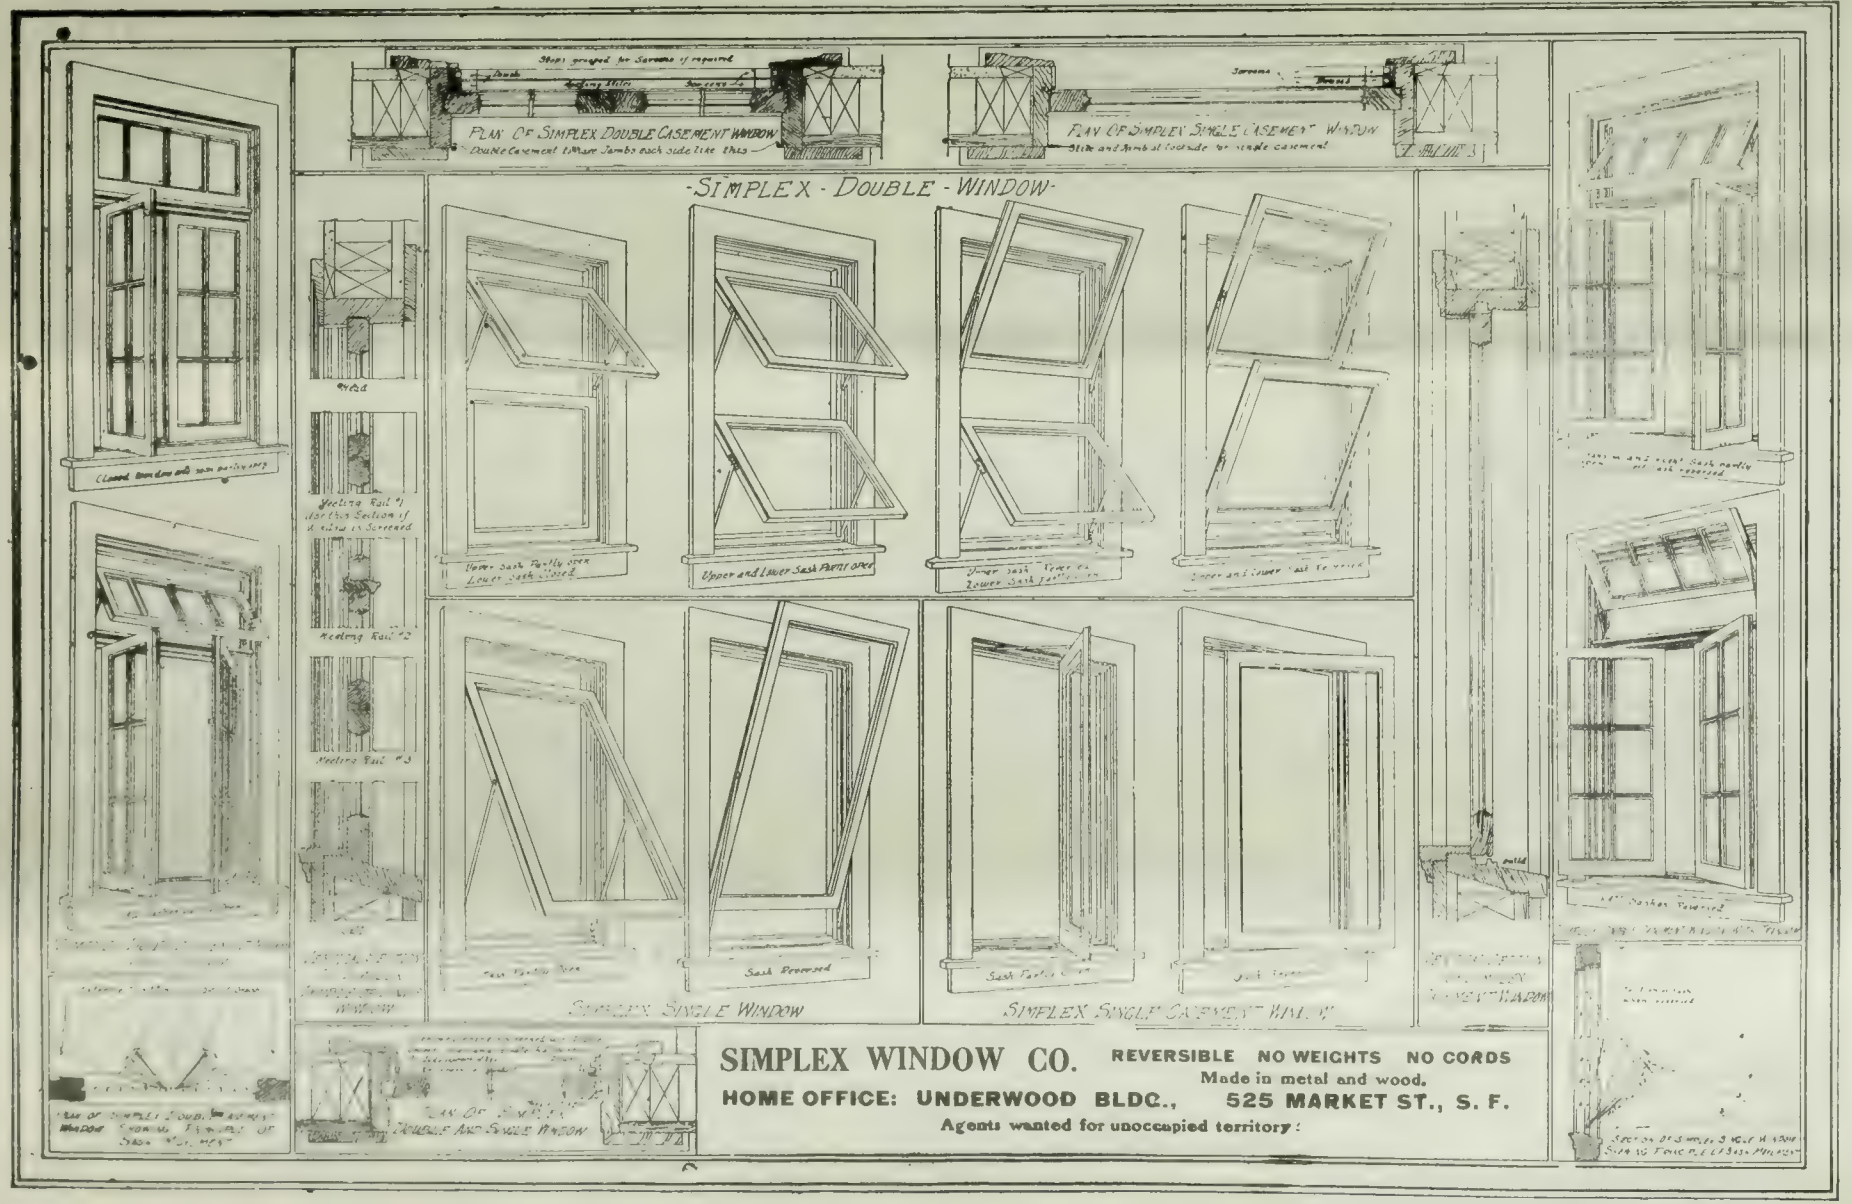
District Forester DuBois and Assistant District Forester Rachford left for the Sierra ranges recently. Their goal is to increase the number of stock on the National Forests by 80,000 head. This will involve joint use of some ranges by several owners, building of stock trails, division fences, and water troughs. It may mean government riders in some cases to help out the small owner who cannot afford to keep a puncher with his few head. It may mean the diversion of some funds the Forest Service had planned to spend for the benefit of the recreation seeker and it will certainly mean the utilization by meat animals of some ranges hitherto reserved for the saddle and pack horses of campers and recreationists. The Forest Service is working right squarely with the State Council of Defense and expects to enlist the hearty support of stockmen and recreation organizations throughout the State.

CONCERNING PREPAREDNESS.

By Chalmer Munday.

The current issue of the Saturday Evening Post contains an article by Irvin S. Cobb upon the world war that every citizen of the United States should read.

It is the personal narrative of an eye witness of the invasion of Belgium, the plain unvarnished tale of a trained observer, the cool, dispassionate story of the events that occurred at the time of the invasion of France. It is the story of a man who has witnessed the awful side of war, and one can gather from his narrative his conclusion as to the only means that such horrors can be prevented.



Too many of our congressmen and newspapers are favoring the volunteer system of military training. What delusion possesses them it is hard to understand. And others still advocate universal military service only for the period of this war.

After reading what war is as depicted by Cobb, certainly no sane person would ever want to see it recur. But if a frontier settlement, after seeing its neighbors massacred by a band of savages, refused to arm themselves or take any precaution to prevent the same thing happening to them, one would say that they invited their own destruction, if subsequently their homes were burned and their wives and children murdered.

Certainly trained military men should have something to say as to the best methods of putting the country in a state of defense, as well as women's clubs, corrupt newspapers, and congressmen. And it behooves the citizens generally to weigh well the words of those who speak from personal knowledge and have arrived at their conclusions after a thorough investigation.

Laws that are not enforced are so many idle words. What good is a law against burglary or against murder if those who commit burglary and murder are not punished? If the law is not vindicated then it is worse than a dead letter, it is an object of contempt and the whole superstructure of society will incontinently topple and fall from turret to foundation stone. There must be somewhere a means to enforce the law, both as to individuals and as to nations. And the only way that society or any nation can protect itself is to see to it that it has within itself such means of protection.

Switzerland has often been held up as an example of a democracy that is trained for the defense of its rights as a neutral. Certain it is that it has been able to maintain its position in this crisis, when a violation of its neutrality would certainly have given the central powers a great advantage if they had not figured the cost too high.

NATIONAL HOO-HOO DAY IN SAN FRANCISCO CONCATENATION. AT THE SAN FRANCISCO COMMERCIAL CLUB.

That California Hoo-Hoo have taken an interest in National Hoo-Hoo day, was evidenced by the concatenation staged at the San Francisco Commercial Club, Merchants' Exchange Building, San Francisco, on April 27th, in accordance with the program outlined, developed and exploited by Julius Seidel, Snark of the Universe, aided and abetted by the strenuous exertion of E. D. Tennant, secretary-treasurer of the order.

At 8:10 P. M. the officers, becomingly gowned, were at their several stations, namely:

Snark, G. A. Buell.
Senior Hoo-Hoo, R. O. Wilson.
Junior Hoo-Hoo, R. A. Hiscox.
Bojum, F. Paramino.
Scrivenoter, R. P. Buell.
Jabberwock, Jere Casey.
Custocatian, Chas. Rose.
Arcanoper, Jas. Smilie.
Gurdon, Oliver Olson.

As permission was granted to enter the pleasant gardens with a retinue of purblind kittens, L. A. Larsen, seated at the piano, manipulated the ivory keys drawing therefrom an inspirational march to the strains of which seven kittens, designated by Monaker as:

John Henry Kruse, Retail Lumber Dealer, San Francisco.

Peter Francis Noonan, P. F. Noonan & Company, San Francisco.

Hewitt Exposition Davenport, President, Pacific Mill & Timber Co., San Francisco.

Robert McKay Gardiner, Salesman, Trower Lumber Co., San Francisco.

Herbert Keeping Pelton, Manager, Milpitas Lumber Co., Milpitas, Cal.

Carroll Likes Foucette, Salesman, E. K. Wood Lumber Co., Oakland, Cal.

Chester Lewellyn Wolcott, Salesman, Booth-Kelly Lumber Co., San Francisco, and led by Jabberwock Jere Casey, of herculean figure and stentorian voice, hot-footed the devious paths until reaching the Snark's throne, they were admonished and started on their tour of enlightening delight.

The ritual was carried out in a most dignified manner and eventually the kittens reached Junior Hoo-Hoo, R. A. Hiscox, whose queries with the resultant replies were a scream and everyone was on tiptoe, in order not to miss a word of the Junior work, which old cats (one so ancient that his Hoo-Hoo name is 210) pronounced the best they had ever witnessed in any concatenation.

At 10:00 o'clock the ceremonies were concluded, the adjoining doors of the main dining room were thrown open, disclosing tables spread with a generous and tasty assortment of cold meat, salads and attendant relishes, with steaming coffee, fragrant chocolate and the necter which Jupiter sipped to wash it down.

After the ragged edge had been taken off from the sundry and various appetites, the Snark read the following telegram, signed by Julius Seidel and E. D. Tennant, respectively, Snark of the Universe and Secretary-Treasurer of the order:

"Greetings from St. Louis Hoo-Hoo. To their loyal brethern of the Golden Gate; with assurance of warm appreciation for your strong devotion and enthusiasm for Hoo-Hoo our order is gaining steadily with National Day an insured success, thereby strengthening our efforts to promote Health, Happiness, Long Life and True Fraternal Co-operation."

As previously announced the guest of honor at the session on the roof, was to be the one securing the largest number of kittens for the occasion; careful computation proved that F. W. Trower has hypnotized four of the class, resulting in an announcement of the fact, the placing of a halo on his classic brow and permission to hunt up five kittens for the next concatenation.

L. A. Larsen sang "My Own United States," in his very best manner and later in the evening again favored his brethern with the pleasure of hearing his magical voice tell why old friends should be remembered, likewise how he would stand pat "Till the Sands of the Desert Grew Cold."

D. A. Wilcox on (Number 210) told how they did things in Texas and Arkansas back in the nineties; J. H. Kruse related some of his early experiences in the lumber business; Ira Smith told some parlor stories; Rod Hendrickson related an embarrassing situation in the checkered career of R. A. Hiscox; Judge Hartman established an alibi relative to self and partner operating a blind pig, likewise mentioned some things happening to some Irish citizens of his bailiwick; Frank Paramino, in the choicest of Italian dialect, gave the history of a prize fight, while betwixt and between, the diners dined, the musickers musicked and things kept right on happening until sundry commuters anxiuosly consulted their watches, when the band played "Dixie" merging into "The Star Spangled Banner," with all hands singing and then the good old Hoo-Hoo yell, bringing to a happy climax, a most pleasing and enjoyable concatenation.

FOREST SERVICE CALLS FOR CLERICAL HELP.

SAN FRANCISCO, April 26. The U. S. Forest Service in California is experiencing great difficulty in securing clerical help, according to a statement given out at the District Office today. Men to fill clerical positions in several of the Forest Supervisors' offices in California are badly wanted, and there are excellent opportunities for young men in this work, according to the local officials. The entrance salary is now approximately $1,000 per annum with good chances for advancement for men of ability.

The office men of the Forest Service have certain advantages over the rangers and field men. Although not called upon to do the arduous work that often falls to the lot of the rangers, the stenographers and clerks are given opportunities to get into the mountains during the summer months and in times of emergency are often detailed to make trips of inspection, to fight forest fires, and perform other field work.

Positions in the Forest Service are all under the classified Civil Service, which means permanency of employment and absence of favoritism in any form. Examinations for stenographers are held frequently in all the cities and larger towns throughout California and Nevada, under direction of the Secretary of the Civil Service Commission, Post Office Building, San Francisco, who will gladly supply information and application blanks. The next examination is to be held May 12th.

ADVANCE NEWS

Official Proposals, Etc.

APARTMENT HOUSES.

SAN FRANCISCO — Apartment house, 4 story and base. Class C construction. Cost not stated. Architect, Frederick H. Meyer, Bankers' Investment Bldg., S. F. Owners, W. F. Perkins and J. C. McKinstry. Location, northeast Post and Polk streets, covering an area of 80 by 120 feet. First floor will probably contain stores. Plans to be prepared.

VALLEJO, SOLANO CO., CAL.—Apartment house, 2 story and base, frame. Cost not stated. Architect, O. R. Thayer, 443 Georgia street, Vallejo. Owner, Conrad Rump, Acme Garage, Garage, Vallejo. Location, Capitol and Napa streets. Will contain one, seven-room and three smaller apartments.. Plans complete and bids to be taken shortly.

OAKLAND, CAL.—Apartment house, 3 story and base, brick veneer, $26,000. Architect, M. L. Newsom, 1748 Broadway, Oakland. Owner, A. Werum. Location, 35th avenue and Foothill Boulevard. Will contain three stores on the ground floor and a total of 21 apartments of three rooms each on the upper floors. Plans are being prepared. .

BONDS.

TURLOCK, STANISLAUS CO., CAL.—Bids will be received by H. Benson, Clerk of the Board of Supervisors, up to May 15th, for the purchase of the $65,000 bond issue of the Turlock High School Diistrict. Proceeds will finance the construction of a new high school.

OAKLAND, CAL.—The Board of Supervisors has tentatively set August 14th at the date for the $2,000,000 bond election for a new county hospital and the county's share of the proposed bascule bridge to connect Oakland and Alameda at the foot of Webster street. The proposed bond issue provides $500,000, the county's share in the construction of the bascule bridge; $1,000,000 for a new county hospital, and $500,000 for improvement to the present county infirmary. It is proposed to have a fourth proposition on the ballot, which will allow the voters to decide whether or not they want the new hospital located in Oakland.

ANDERSON, SHASTA CO., CAL.—An election will be held May 26th to vote bonds of $40,000 for the erection of a new school for the Anderson Union High School District.

RIVERSIDE, RIVERSIDE CO., CAL.—Bonds of $43,000 for the Palo Verde Valley Union High School District will be sold by the County Supervisors on May 9th. The proceeds of the sale will finance the construction of a new school building.

RAYMOND, Wash.—An election will be held May 5th to vote bonds for $11,000 for the improvement and extension of the local municipal water system, including a reservoir.

BREMERTON, Wash.—The Kitsap County Commissioners have been requested to present to the voters a proposition to issue bonds in the sum of $300,000 for the construction of a trunk highway through the county from this city.
(15666 and 15667)

OAKLAND, Alameda Co., Cal.—The contract between the Southern Pacific Company and Alameda County for the joint construcaion of a bascule bridge from Fifth and Webster across the estuary, has been filed with County Clerk George Gross. The agreement is now in effect and a bond election will be called as soon as possible, probably August 8, for raising the $500,000 for the county's share of the cost of construction
(15672)

UPLAND, San Bernardino Co., Cal.—An election will be held June 5, to vote on an issue of bonds in the sum of $24,000, to provide funds for the construction of an outfall sewer system. The work will be done under the Vroman Act.

HAYWARD, ALAMEDA CO., CAL.—A resolution of intention has been adopted by the Trustees to build a new town hall costing $25,000. The funds will be raised through a bond election to be held in the future.

FLORENCE, Ariz.—The $150,000 county road bond issue was carried at the recent election. W. W. Lane is the County Engineer for Pinal county.
(15734)

ALTURAS, Modoc Co., Cal.—Preparations are being made to call a bond issue to vote $300,000 to finance the building of a permanent highway system. J. W. Cummings, a member of the Board of Supervisors, is taking an active part in the proceedings.

RICHMOND, Contra Costa Co., Cal.—An election will be called shortly by the City Council to decide the question of issuing and selling bonds of $125,000 with which to provide funds for the construction of a storm and sanitary sewer to be installed in Tenth street. H. B. Chapman is City Engineer.

EL CENTRO—The petition to call a bond election to vote on an issue of $2,500 000 for improvements to the canal system of the Imperial Irrigation District, has received approximately the required number of signatures, and a date for the election will probably be set very soon.

HOLBROOK, Ariz.—The $160,000 road bond issue in Navajo County carried at the election held recently.
(15824, 15825 and 15827)

BRIDGES AND DAMS.

SAN FRANCISCO—Pier construction, pile and concrete, $200,000. Engineer, Chief Engineer White, Ferry Bldg., S. F. Owners, State of California. All bids received on April 27th for the reconstruction of Pier No. 46 have been rejected. New bids will be called.

Contract Awarded.

SAN FRANCISCO Wharf construction, $60,680. Engineer, Chief Engineer White, Ferry Bldg., S. F. Owners, State of California. Contractors, Healy-Tibbitts Construction Co., 9 Main street, S. F. Contract price, $60,680.

HOLLISTER, San Benito Co., Cal.—The County Supervisors have ordered bids received for the construction of a concrete bridge on the McAbee place, in the canyon on the Rocks Road beyond San Juan.

SEATTLE, Wash.—J. A. McEachern Co., Inc., Bell Street Dock, Seattle, submitted the lowest bid to the City Council for the construction of the West Spokane street Bridge at $61,-606 and it is probable that they will be awarded the contract.
(13793) 1st report Feb. 5; 2nd Apr.

SPOKANE, Wash.—Plans have been completed by Morton Macartney for the construction of a new two steel truss bridge over the Spokane river at Post street to cost from $260,000 to $300,000 to replace the structure which recently collapsed and has submitted his designs to the city council for approval.

SPOKANE, Wash.—County Engineer Allan R. Scott is preparing plans for a bridge across the Spokane River at the point opposite Liberty Lake Junction. The structure will be 400 feet long and will cost about $30,000.

RIVERSIDE, Riverside Co., Cal.—The City Council is considering plans presented by two engineers for the proposd Victoria bridge. Edward T. Flaherty, Central Building, Los Angeles, submitted plans for several styles of concrete structures. He estimates the cost at about $50,000, and would have plans ready for bids in about two months. J. A. Sourwine, engineer for the bridge across the Colorado river at Needles, presented plans for a wide-arch bridge similar to the Colorado bridge, to be built of concrete instead of steel. The span of the proposed bridge according to his design would be 240 feet. Definite action will be taken on May 15.

Contract Awarded.

HOLLISTER, San Benito Co., Cal.—The County Supervisors have awarded a contract to the Granite Rock Co., Salinas, Cal., for surfacing the Bird Creek, the Tres Pinos and the Pacheco Creek bridges on their bid of $1,170.

SAN DIEGO, San Diego Co. Cal.—Bent Bros., 825 Central Bldg. , Los Angeles, submitted the lowest bids and were awarded the contracts to construct dams at Del Mar and San Dieguito, San Diego County. and for a concrete conduit to connect same. The work will involve the following quantities: five miles of 4-ft. concrete flume, 1450 ft. galvanized iron metal flume, 42-in. reinforced concrete pipe, reinforcing steel, and between 20,000 and 30,000 cubic yards of reinforced concrete reservoir and dam work. The bids in detail were: Bent Bros.: Carroll dam, (a) multiple dam, $141,230, (b) single dam, $139,810; San Dieguito dam, (o) Multible dam, $29,036; (e) Multible dam, alternate bid, $37,100. Carroll conduit, $91,696. Duncanson & Harrelson, (a) $169,815; (b) $151,-252; (c) rock fill dam, $351,037; (d) $35,505; (e) $48,790; conduit, $87,487. Sharp & Fellows, (a) $182,315; (b) $299,428; (c) $486,790; (d) $29,875; (e) $44,485; conduit —. J. E. Engebertson, (a) $256,780; (c) $397,285.

SEATTLE, Wash.—C. Geske & Co., Pacific Block, Seattle, has been awarded the contract for the construction of a 1700-foot pile trestle across the north end of Lake Washington on their bid of $15,188.

CHURCHES.

LIVERMORE, ALAMEDA CO., CAL.—Church, 2 story and base, reinforced concrete, $35,000. Architect, C. E. McCrea, First National Bank Bldg., Oakland. Owners, Roman Catholic Archbishop of San Francisco. Will contain a large main auditorium, Sunday school rooms and social hall. Plans have been revised and new figures will be called for in about a week or ten days.

BURLINGAME, SAN MATEO CO., CAL.—Church hall, 1 story, frame, $8,-000. Architect, C. E. McCrea, First National Bank Bldg., Oakland. Owner, Roman Catholic Archbishop of San Francisco. Designed for a social hall. Plans are being prepared.

FACTORIES AND WAREHOUSES.

SAN FRANCISCO Factory, 3 story and base, reinforced concrete. Cost not stated. Architect, Milton Lichenstein, 111 Ellis street, S. F. Owners, S. and G Gump. Location, southwest Pacific and Trenton streets, covering an area of 56 by 137½ feet. Designed to carry five stories. Plans complete and figures being taken.

CROCKETT, CONTRA COSTA CO., CAL.—Sugar refinery additions, 6, 5, 7 and 9 story and base. Class A construction, $3,000,000. Architect, William H. Crim, Jr., 425 Kearny street, S. F. Owners, California-Hawaii Sugar Refifinery. A warehouse and char house, each nine stories, are included in the first unit to be erected. Refinery buildings and warehouses of from 5 to 7 stories will follow. Construction will be of reinforced concrete, brick and steel. Bids will be called for shortly for the warehouse and char building. Further mention will be made of the work.

SAN JOSE, SANTA CLARA CO., CAL.—Packing house, 1 story, reinforced concrete. Cost not stated. Engineer, Phillip Bush, 120 Market St., S. F. Owners, California Packing Corporation. Will cover a ground area of 100 by 200 feet. Metal window sash and frames. Plans to go out for figures in about one week.

SAN FRANCISCO—Warehouse, 5 story and base reinforced concrete. Cost not stated. Architect, C. H. Skidmore, Call-Post Bldg., S. F. Owner's name withheld. Location, Fifth St., covering an area of 70 by 80 by 120 feet. Plans complete and figures to be called for in about a month.

SACRAMENTO, CAL.—Warehouse, 1 story, frame, $2,600. Architect, none. Owners, E. Clemens Horst Co. Location, Southern Pacific near Hopper Station. Plans complete and work to be done by Day Labor.

ATASCADERO, SAN LUIS OBISPO CO., CAL.—Printing office, 2 story and base, reinforced concrete. Cost not stated. Architect, none. Owner's Lewis's Atcasdero Colony. Will cover an area of 60 by 100 feet. Plans complete and work to be done Day Labor under the direction of John Tenneson.

HUENEME, VENTURA CO., CAL.—Cannery and jetties. Cost as follows. Architect, Paul C. Pape, Consolidated Realty Bldg., L. A. The McCroskey Packing Company of Wilmington is planning to erect a general cannery at Hueneme, which will cost approximately $250,000, including dredging and the construction of jetties. Two jetties are 1200-foot and one 800-foot long, and will be constructed at the entrance to a slough which will be dredged out to form an inner harbor. F. D. McCroskey is president of the company, and F. J. Cooper is superintendent of construction, and A. L. Sandrigger is engineer. Plans for the first unit, which will be 50 by 150 feet in size, of cement and concrete construction, have been prepared.

GLEED, WASH. — Cold storage warehouse, 2 story and base, hollow tile, $40,000. Architect, W. W. de Veaux, North Yakima. Owner, Naches Cold Storage Co. The plant, which will be the most modern cold storage plant in the district, will cover a considerable ground area. Besides the plant the building will contain offices

Special machinery will be installed. Plans are complete.

NORTH YAKIMA, WASH.—Packing and shipping plant, 1 story and base, frame, $10,000. Architect, W. W. de Veaux, North Yakima. Owners, H. M. Gilbert. Will cover a considerable ground area. Plans are being prepared.

SEATTLE, WASH.—Paper mill group of mill constructed buildings. Cost not stated. Engineer's name not given. H. O. Pond, of New York City, has asked the Utilities Committee of the City Council that action be taken by the city formally notifying the district forester at Portland, that the city has no intention of filing on or developing the Sultan River power project. The city of Seattle has first claim on this site but has announced its intention of giving it up and such formal notice to the district forester would leave the way open for action by the Sound Paper Co., represented by Mr. Pond, to file for power rights. It is the intention of the company to develop the Sultan project for power purposes to operate a paper mill to cost eventually $12,000,000, which includes the construction of a power plant, paper mills, and a logging railroad, together with saw mills, etc. The company has secured options on timber which would give it 400,000 feet of timber per day. Scott Calhoun former city corporation counsel, and S. P. Weston of Seattle the the Seattle men interested in the project. The Sultan basin lies in the government reserve in Snohomish County.

FRESNO, FRESNO CO., CAL.—Cannery, 1 story, frame, $12,000. Architect, none. Owners, Western Meat Co., 744 P street, Fresno. Has been designed for a cannery and poultry building. Plans complete and work to be done by Day Labor.

FRESNO, FRESNO CO., CAL.—Packing house, 1 story, frame, $10,000. Architect, none. Owners, Guggenhime & Co., Fresno. Location, Santa Fe tracks, covering an area of 60 by 100 feet. Plans complete and work to be done by Day Labor.

VERNON, LOS ANGELES CO., CAL.—Factory, 1 story, brick. Cost not stated. Architect, W. J. Saunders, Laughlin Bldg., L. A. Owners, Factory Site Co. Will cover an area of 150 by 197 feet. Plans complete and subfigures being taken.

STOCKTON, SAN JOAQUIN CO., CAL.—Factory, 2 story and base, brick, $10,000. Architect, Joseph Losekann, San Joaquin Bldg., Stockton. Owners, Gloria Ice Cream Co. Location, Oak and Aurora streets. Will contain office, factory and shipping room. Special ice making machinery not included. Plans complete and work to be done by Day Labor.

Contract Awarded.

...GLENDALE, LOS ANGELES CO., CAL.—Residence, 2 story and base, hollow tile, $40,000. Architects, Jeffery & Schafer, Van Nuys Bldg., L. A. Owner, Charles H. Allison. Contractor, Griffith Condron, 428 Lewis St., L. A. Contract price, $40,000. Will contain fifteen rooms and five baths.

FIRE HOUSES AND JAILS.

SAN FRANCISCO—Fire house, 1 story and base, brick. Cost not stated. Architects, Ward & Blohme, Alaska Commercial Bldg., S. F. Owners, City and County of San Francisco. Location, 25th and Vermont streets, covering an area of 75 by 100 feet. Plans complete and bids to be called for at once.

FLATS.

SAN FRANCISCO—Flats, 2 story and base, frame, $5,000 each. Architect, none. Owner, S. Traverso, 407 Lombard street, S. F. Location, south Lombard west Grant avenue, covering an area of 40 by 90 feet. Will contain two flats of five rooms each. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Flats, 2 story and base, frame, $5,000. Architect, none. Owner, C. A. Hall, 1318 5th avenue, S. F. Location, southwest 4th avenue and Irving street. Will contain two flats of five rooms and six rooms. Plans are complete and work will be done by Day Labor.

GARAGES.

SAN FRANCISCO—Garage, 1 story and base, reinforced concrete, $25,000. Architects, Rousseau & Rousseau, 110 Sutter street, S. F. Owner's name withheld. Location, Spencer street, between 15th and 16th streets, covering an area of 100 by 170 feet. Steel roof trusses. Plans complete and ready for figures.

OAKLAND, CAL.—Garage, 1 story and base, brick, $6,000. Architect, F. D. Voorhees, Central Bank Bldg., Oakland. Owner, Hugo A. Abrahamson. Location, 26th and Broadway. Designed for a commercial garage. Plans are being prepared.

Contract Awarded.

OAKLAND, CAL.—Auto sales rooms, 1 story and base, reinforced concrete, $80,000. Architects, Falch & Knoll, Hearst Bldg., S. F. Owners, Eisenbach Co. Contractors: P. Hurley, 578 Elizabeth street, S. F., excavating, plain and reinforced concrete; Hogberg & Ludwig, 180 Jessie street, S. F., brick work; Higginson Co., Humboldt Bank Bldg., S. F., carpentry work; Cantley Roofing Co., 1370 Green street, S. F. roofing; Guilfoy Cornice Works, 209 8th street, S. F., sheet metal work; Brouillet Electric Co., 492 Castro street, S. F., electric work; Morris Gibles, 2116 Fillmore stret, S. F., plumbing; Peerless Heating Co., heating.

PORTLAND, ORE.—Garage, 1 story and base, reinforced concrete. Cost not stated. Architects, Mac Naughton & Raymond, Title & Trust Bldg., Portland. Owner's name not given. Contractor, E. Gudhard, Portland. Contract price not stated.

PORTLAND, ORE. — Garage and sales rooms, 4 story and base, brick and steel. Cost not stated. Architects, Sutton & Whitney, Lewis Bldg., Portland. Owners, Frazier & Mc Lean. Contractors, Parker & Banfield, Portland. Contract price not stated.

BERKELEY, ALAMEDA CO., CAL.—Hotel and stores, 3 story and base, reinforced concrete, $40,000. Architect, James W. Plachek, Acheson Bldg., Berkeley. Owners, Williamson and Mason. Location, southwest University and Shattuck, covering an area of 50 by 100 feet. Will contain two stores and 40 rooms. Plans are being prepared

Contract Awarded.

LOS ANGELES, CAL—Hotel, 3 story and base, brick. Cost not stated. Architect, none. Owners, Harbolt Hotel Corporation. Contractors, Hetzel-Winget Co., California Bldg., L. A. Contract price not stated.

IRRIGATION PROJECTS.

IMPERIAL, Imperial Co., Cal.—The Imperial Valley Irrigation District is planning to raise the levee at Volcano Lake and expend about $250,000 for protection work along the Colorado river.

D. F. Foley of Pattiway has applied for permission to appropriate five miner's inches of the waters of Harvey Canyon tributary to Cuyoma river in Ventura county for agricultural purposes. The main works consist of a pipe line 10,070 feet in length from point of diversion to place where water is to be used.

Charles W. Landis of San Francisco has applied for permission to appropriate 3000 cubic feet per second of the waters of the Mokelumne river for irrigation purposes. The point of diversion is given as [illegible] of Rancha Plana, dam 85 feet high 1400 feet long on top and 1200 feet at the bottom of reinforced multiple arch type capable of forming a reservoir with a capacity of 20,000 acre feet storage, located on the Rancho Arroyo Seco. The cost of the proposed works is given at $600,000 and the number of acres to be watered as 150,000. Sixty days have been asked in which to file maps. The present application is a substitute for one which was filed some time ago in which the storage, the number of acres to be irrigated and the cost were less.

SAN BERNARDINO, Cal. The petition of the property owners on the west side of the Mojave river and Victor Valley district to form an irrigation district for the reclamation of 100,000 acres of land, will be presented to the Board of Supervisors on May 21. Frank M. Walton heads the project which includes the construction of dams in the east fork of the river, for which bonds will be voted. The west siders have an option on the $2,500,000 properties of the Arrowhead Reservoir and Power Company in Little Bear Valley.

LIBRARIES.

SAN FRANCISCO—Library shelving, $5,000. Architect, none. Owners, Mechanics' Libirary, Secretary, John H. Woods, Mechanics' Institute Bldg., S. F. Secretary Wood is now taking figures for a large amount of metal library shelving.

POST OFFICES.

CODY, WYOMING—Post office, 1 story and base, reinforced concrete and brick. Cost not stated. Architect, Supervising Architect James A. Wetmore, Washington, D. C. Owners, United States Government. Bids for this building will be opened on June 1st at 3 p. m. Plans can be secured from the office of the Supervising Architect or the custodian of the site at Cody.

POWER PLANTS.

VALLEJO, Solano Co., Cal.—Mayor James Rooney and Commissioner of Public Works Edward J. Blanco have made a tour of the Green and White Horse Valleys, with regard to the building of a reservoir for a larger water supply for Vallejo.

HANFORD, Kings Co., Cal.—The City Council has received a bid from the Water Works Supply Co. of Los Angeles offering to furnish gate valves to be used in connection with the fire main extensions..

The prices made were $11.50 for 4-inch valves and $20 for 6-inch. No instructions to place an order was given to the clerk as the prices made are guaranteed until the Board is ready to buy.

SANTA BARBARA, Santa Barbara Co., Cal.—Improvements amounting to $20,000 are planned for the water system of the Elwood ranch. F. H. Green of New York, is owner of the property. He will move to Santa Barbara immediately to manage the ranch

The Western States Gas & Electric Company of Stockton has filed an application asking permission to appropriate 5000 acre feet from Medley Lake and 7000 acre feet from Echo Lake, both in Eldorado county and 8000 acre feet from Twin Lakes in Alpine county for the purpose of developing 2500 theoretical horse-power at the existing plant of the American River Electric Company for a period of seven months in the year. There is a proposed main ditch 7.3 miles long and at Medley lake there is a series of three small dams for raising the water level. At Echo Lake it is proposed to drive a tunnel to draw the level of the lake forty feet below the natural outlet, said tunnel to be 5x6½ feet in cross-section and 2600 feet long. The total fall to be utilized is 610 feet from dam to water-wheel nozzle, the water to be returned to the south fork of the American river after use. The application states that the water is for the generation of electricity for power, light and general commercial purposes including agricultural, which in this instance would mean for pumping plants. An extension of time has been asked in which to file the necessary maps.

Contract Awarded.

HANFORD, Kings Co., Cal.—The Hanford Manufacturing Co., Hanford, has been awarded the contract for furnishing not less than 50 or more than 65 standard double hydrants for use in the fire main extensions now under construction in this city.

SEATTLE, Wash.—The contracts for the furnishing and installation of the equipment for the addition to the city auxiliary steam power plant on Lake Union has been awarded by Superintendent of Lighting J. D. Ross to the C. C. Moore Co., Mutual Life Bldg., Seattle, on its bid of $219,000. The company will also take bonds in payment.

(13745)) 1st report Feb. 1; 2d Apr.

SPIKES
U. S. Steel Products Co., $3,230.
A—Cast Washers; B—Cast Separators.
Peninsular Iron Works (a) $13,391.
Seattle Car & Foundry Co., (b) $1210
A—Castings; B—Tension Rods.
Peninsula Iron Works (a) $40,459.
Oliver Iron & Steel Co (b) $35,729.
CHANNELS
Northwest Steel Co., $6,664.
TIE PLATES (under Circular No. 267)
Seattle Car & Foundry Co, $21,743.
A—Frogs; B—Switch Stands; C—Switch Stands
Seattle Car & Foundry Co. (a)$4,906.
Seattle Car & Foundry Co. (b)$1,080
Seattle Car & Foundry Co (c)$1,584
(15138) 1st report Apr. 9, 1917.

SAN FRANCISCO—Two bids were received by the San Francisco Board of Public Works for furnishing wood ties for the Church street railroad, these being the Caspar Lumber Co. and A. F. Mahoney Lumber Co.

Mahoney submitted the lowest bid, but claiming a mistake, the Board rejected both bids and new bids will be opened Friday, May 4th, 1917.

The San Francisco Board of Public Works will receive bids up to May 11th for furnishing electrical conductors for use in the Church Street Municipal Railway.

Plans may be had from the City Engineer's office, 3rd Floor City Hall.

San Francisco, Napa and Calistago Electric Railway Company will shortly order the expenditure of a large sum to improve its roadbed in Sonoma street. It is the intention of the company to begin work on the roadbed from Georgia to Carolina street and that 50 carloads of gravel will be used in concreting between the rails. New ties will be installed and one-inch of bitumen will be laid between the rails and on either side of the tracks, this pavement to be constructed so that it cannot be broken by the flanges on the car wheels. Later the improvement will be continued north from Carolina street.

The Railroad has authorized San Joaquin County to build a crossing over the Southern Pacific Company's right of way in Peters, San Joaquin County. The crossing is on the extension of the north and south county road known as the Coggswell Road.

Contract Awarded.

GREAT FALLS, Mont.—Contracts have been awarded by Great Northern Railway Co. for construction of terminal facilities at the new division points at Bowdoin and Wolf Point, which will cost $300,000 at each point. Contract for all the work at Bowdoin has been awarded to Grant Smith & Co.; grading for yards at Wolf Point to A. Guthrie & Co., and for the structures to William Hill, of Superior.

RESIDENCES.

SAN FRANCISCO — Residence, 2 story and base, frame, $12,000. Architect, John H. Powers, 460 Montgomery street, S. F. Owner, John R. Cahill, 110 Sutter street. Location, east Lyon north Jackson. Will contain twelve rooms, three baths and sleeping porches. Separate garage. Plans complete and work underway by Day Labor.

OAKLAND, CAL.—Residences, 3, 1 story and base, frame, $2.000 each. Architect, A. W. Smith, 1010 Broadway, Oakland. Owner, Thomas Rutherford, 985 35th street, Oakland. Location, south Aileen street east Gaskill. Each house will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

RICHMOND, CONTRA COSTA CO., CAL.—Residences, 2, 1 story and base, frame, $1,500 each. Architect, none. Owner, C. W. Mentzer, 255 Second St., Richmond. Location, southwest Third and Ripley streets. Each house will contain four rooms and bath. Plans complete and work to be done by Day Labor.

SAN FRANCISCO — Residence, 1 story and base, frame, $2,500. Architect, none. Owner, Thomas Hamill, 4109 Balboa street, S. F. Location, north Balboa east 18th avenue. Will contain six rooms, bath and basement garage. Plans complete and work to be done by Day Labor.

SAN FRANCISCO — Residence, 2 story and base, frame, $2,500. Architect, none. Owners, F. Nelson & Sons, 2701 Lincoln Way, S. F. Location, north Irving east 28th avenue. Will contain seven rooms, bath and basement garage. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Residences, 4, 2 story and base, frame, $6,000 each. Architect, C. H. Skidmore, Call-Post Bldg., S. F. Owner's name withheld. Location, 15th avenue, Richmond District. Each dwelling will contain seven rooms, bath and basement garage. Plans complete and work to be done by Day Labor.

BERKELEY, ALAMEDA CO., CAL.—Residence, 1 story and base, frame, $2,500. Architect, none. Owner, W. E. Taylor, 1433 Ada street, Berkeley. Location, west Sacramento north Ada. Will contain four rooms and bath. Plans complete and work to be done by Day Labor.

BERKELEY, ALAMEDA CO., CAL.—Residence, 2 story and base, frame, $6,500. Architect, Alexander A. Cantin, Foxcroft Bldg., S. F. Owner, W. H. Hale. Will contain eight rooms, two baths and sleeping porch. Separate garage. Plans complete and figures being taken. . .

BERKELEY, ALAMEDA CO., CAL.—Residence, 2 story and base, frame, $7,500. Architect, William C. Hays, First National Bank Bldg., S. F. Owner, E. A. Blocklinger. Location, Hawthorne Terrace. Will contain eight rooms, two baths and sleeping porch. Separate garage. Plans complete and figures being taken.

BURLINGAME, SAN MATEO CO., CAL.—Residence, 2 story and base, frame, $12,000. Architect, Charles Peter Weeks, Phelan Bldg., S. F. Owner, W. J. Rand. Location, Burlingame Terrace. Will contain ten rooms, three baths and sleeping porch. Separate garage. Plans are being prepared.

SACRAMENTO, CAL.—Residence, 1 story and base, frame, $2,500. Architect, none. Owner, N. J. Nielson, 3015 O street, Sacramento. Location, 1547 36th street. Will contain siix rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

FRESNO, FRESNO CO., CAL.—Residence, 1 story and base, frame, $1,-800. Architect, none. Owner, O. D. Atkins, 5219 Kerckhoff street, Fresno. Location, Bartlett Heights. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

FRESNO, FRESNO CO., CAL.—Residence, 1 story and base, frame, $1,-500. Architect, none. Owner, C. A. Clark, 2366 Hill street, Fresno. Location, Arlington Heights. Will contain four rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Residences, 4, 2 story and base, frame, $4,000 each. Architects, Rousseau & Rousseau, 110 Sutter street, S. F. Owners, Dawson Co. Location, 47th avenue and Balboa street. Each house will contain seven rooms, bath and basement ga-

rage. Plans complete and work to be done by Day Labor.

SAN FRANCISCO Residence, 2 story and base, frame, $5,000. Architect, none. Owner, William E. Spink, 3009 Jackson street, S. F. Location, Chattanooga street. Will contain seven rooms, bath and sleeping porch. Separate garage and tool house. Plans complete and work to be done by Day Labor.

SAN FRANCISCO Residence, 1 story and base, frame, $3,000. Architect, none. Owner, Elmer E. Clark, 574 26th avenue, S. F. Location, east 25th avenue north Anza. Will contain seven rooms, bath and basement garage. Plans complete and work to be done by Day Labor.

OAKLAND, CAL—Residence, 2 story and base, frame, $5,000. Architects, Schirmer Bugbee Co., Dalziel Bldg., Oakland. Owner, Mr. Wurts. Location, Ray avenue. Will contain seven rooms, two baths and sleeping porch. Separate garage. Plans are being prepared.

BERKELEY, ALAMEDA CO., CAL. —Residence, 2 story and base, frame, $3,500. Architect, E. W. Cannon, Central Bank Bldg., Oakland. Owner, Westley Cannon. Location, Northbrae. Will contain seven rooms, bath and sleeping porch. Separate garage. Plans are being prepared.

MONTECITO, SANTA BARBARA CO., CAL.—Residence, 2 story and base, frame, $20,000. Architect, Reginald D. Johnson, Staats Bldg., Pasadena. Owner, G. C. Kendall. Location, Montecito near Santa Barbara. Will contain 13 rooms, several baths and sleeping porches. Separate garage. Plans are being prepared.

NORTH YAKIMA, WASH. — Residence, 1½ story and base, frame, $4,000. Architect, W. W. de Veaux, North Yakima. Owner, Mrs. Harry Andrews. Will contain seven rooms, bath and separate garage. Plans are being prepared.

SAN FRANCISCO — Residence, 2 story and base, frame, $13,000. Architect, Joseph A. Leonard, 85 Cerritos avenue, S. F. Owners, Urban Realty Co. Location, west Urbano Drive west Alviso. Will contain ten rooms, three baths and sleeping porch. Separate garage. Plans complete and work to be done by Day Labor..

SAN FRANCISCO — Residence, 2 story and base, frame, $7,500. Architects, Falch & Knoll, Hearst Bldg., S. F. Owner, Dr. George Poole. Location, St. Francis Wood. Will contain seven rooms, two baths and basement garage. Plans complete and contract to be awarded shortly.

BURLINGAME, SAN MATEO CO., CAL.—Residence, 2 story and base, frame, $12,000. Architect, G. A. Applegarth, Claus Spreckels Bldg., S. F. Owner, W. C. Graves, Jr. Location, Burlingame Heights. Will contain ten rooms, two baths and sleeping porches. Separate garage. Plans complete and figures being taken.

SACRAMENTO, CAL.—Residence, 2 story and base, frame, $10,000. Architect, Clarence C. Cuff, Ochsner Bldg., Sacramento. Owner, Mr. Bassett. Location, Yardley avenue. Will contain eight rooms, two baths and sleeping porch. Separate garage. Plans being prepared.

SEATTLE, WASH.—Residence, 2 story and base, brick, $45,000. Architects, Beezer Bros., Northern Bank Bldg., Seattle. Owner, T. J. Gorman. Location, southeast 17th avenue and Prospect street. Will contain twelve rooms, several baths and sleeping porch. Separate garage. Plans complete and figures to be called for shortly.

PLACERVILLE, EL DORADO CO., CAL.—Schools, 1, 2 and 1, 1 story, hollow tile and frame, $32,575. Architects, N. W. Sexton & Co., Merchants' National Bank Bldg., S. F. Owners, Placerville School District. Contractor, J. S. Hannah, Williams Bldg., S. F. Contract price, $32,575.

SEWERS, STREET WORK & WATER SYSTEMS.

SEATTLE, Wash.—County Engineer Sam Humes has completed plans for the construction of the county road between Renton and Renton Junction, which is estimated to cost $17,500.

The improvement consists mostly of re-grading.

FRESNO, Fresno Co., Cal.—At the last meeting of the City Council the first step for connecting Arlington Heights and Fresno Heights with the city sewer system was considered, but went over until the next regular meeting. Forty-eight blocks in Arlington Heights will be sewered, and twenty-four blocks in Fresno Heights Nos. 1 and 2. The estimated cost is between $23,000 and $25,000. The sewers, which will connect with the main sewer in Alta Vista, will range from 6 to 12 inches and will be vitrified iron stone.

SANTA PAULA, Ventura Co., Cal.—Bids will be received by the City Clerk up to 7:30 P. M., of May 14, for the construction of approximately 1040 feet of 8-inch vitrified sewer, together with manhole and appurtenances, in accordance with specifications on file at the office of the City Clerk. Certified check for 10% required. M. G. Demarest is the City Clerk.

ASTORIA, Ore.—The City Council has awarded a contract to the Arenz Construction Co. (Western Paving Co.) for the paving of streets in this city at $53,619.86. M. O'Reilly was also awarded a portion of the contract at $9,814.06.

G. T. McClean is City Engineer.

EVERETT, Wash.—Mae Weatherbee. Auditor of Snohomish County, reports all bids received for the construction of permanent Highway No. 29 and Bond Road No. 18, have been rejected because all were above the amount available for the cost of the work.

W. C. Bickford is County Engineer.

SAN FRANCISCO—The San Francisco Board of Public Works has passed resolutions of expediency for the following improvements:

Rutland between Wilde and Sunnydale, grade and curb.

Lisbon bet. Avalon and Silver, grade and curb.

Church bet. 20th and Liberty, artificial stone sidewalks.

Church bet. 21st and Liberty, artificial stone sidewalks (westerly).

Church bet. 21st and Liberty, artificial stone sidewalks (easterly ½)

Crossing 20th and Iowa, curb, sidewalks and pave.

Van Ness avenue bet. Olive and O'Farrell, artificial stone sidewalks.

19th bet. Texas and Pennsylvania, sewer and curb.

20th bet. 3rd and Tennessee, sewer, curb and pave.

STOCKTON, San Joaquin Co., Cal.—The City Council has adopted plans and specifications for the improvement of Harrison street from Worth to South street and Worth, Anderson, Jefferson, Jackson and Clay streets bet. Harrison and Lincoln streets.

Bids will be called shortly.

LONG BEACH, Los Angeles Co., Cal.—The City Commission ordered the construction of vitrified clay pipe sewers and appurtenances in portions of California avenue, Myrtle avenue, Chestnut avenue, Anaheim street, New York street, Fifteenth street, Sixteenth street, Seventeenth street, Esther street, alleys, etc. The work will be done in accordance with Ordinance No. B-302. Certified check or bond for 10% required. H. C. Waughop is the City Clerk.

VISALIA, Tulare Co., Cal.—County Surveyor Lovelace is rushing plans for the proposed highway work to be done under the $2,000,000 bond issue. On May 7, the Supervisors will call for bids for about 43 miles of this work, which will be on the line from the Alta district through Visalia, Exeter, Porterville, and Richgrove.

RICHMOND, Contra Costa Co., Cal.—The opening of bids for the improvement of Garrard Boulevard, has been laid over by the City Council for one week.

RICHMOND, Contra Costa Co., Cal.—City Engineer Chapman has completed plans and specifications for sewers in the Wenk Addition, Nissen's Addition and the Alta Punta Tract.

It is probable that the Council will approve the plans at the next meeting and bids called for.

FRESNO, Fresno Co., Cal.—Bids will be called for shortly for the improvement of Grant avenue from First street to Ninth street, a distance of 3900 feet, 36 feet wide. The work will consist of grading and oiling and constructing curbs and sidewalks. The approximate quantities are: 150,054 sq. ft. grading; 7127 lin. ft. cement curb; 37,829 sq. ft. cement sidewalk; 756 lin. ft. metal culverts. C. C. Van Valkenburgh, Jr., is the City Clerk.

SAN FRANCICSO—The following bids were received by the San Francisco Board of Public Works for dredging the Pierce street outfall sewer:

Healy-Tibbitts Co., 9 Main St.....$1,830
Tibbitts-Pacific Co., 16 California street 1,890
(15241) 1st report Apr. 12; 4 th Apr. 26, 1917.

SAN DIEGO, San Diego Co., Cal.—The City Council has arranged for $206,375 in the city budget for the paving of about twenty-four miles of highway between San Diego and Torrey Pines.. Paving will begin at the intersection of India and Winder streets, and will extend in a loop to Torrey Pines. A portion of it will be 24 feet wide, the remainder 16 feet. There are a little more than 16 miles via the Ocean Beach route and about 7 miles via the Old Town route. The estimated cost of the Ocean Beach road was set at $222,816 by the city engineer, and $93,958 for the Old Town route. The city will pay $150,000 on the former and $56,375 on the latter, the property owners the remainder. The work has been divided into eight sections and bids will be called for as soon as the money has been provided.

MILL VALLEY, Marin Co., Cal.—No bids were received by the Town Trustees for constructing considerable street paving on the streets for which Ransome-Crummey Co. refused to sign a contract several weeks ago. About $30,000 worth of work was envolved. New bids will be called for shortly.

SACRAMENTO, Cal.—The County Supervisors will receive bids up to May 16th, 10 A. M., for the construction of a portion of the improvements included in the report of the Sacramento county highway commission, county bonds for which were voted October 3, 1916, as follows: Highway No. 1, Marysville road; highway No. 2, "H" street road; highway No. 13, Sacramento-Freeport road; highway No. 15, Pocket road, in accordance with the requirements of highway commission specifications Nos. 8 and 9.

The specifications provide for bids being received on the bridges and culverts on any or all of the roads separately and for the awarding of separate contracts for the bridges and culverts. Bids will be received as follows: Highway No. 1 in one contract, highway No. 2 in one contract, or highways Nos. 1 and 2 in one contract, highway No. 13 in one contract, highway No. 15 in one contract, or highways Nos. 13 and 15 in one contract.

Certified check of 10% payable to Chairman of the Board df Supervisors. E. F. Pfund is County Clerk and Robt. E. Callahan, Chairman of the Board of Supervisors.

OLYMPIA, Wash.—Bids have been called for by the State Highway Commission, James Allen, Commissioner, to be opened on May 28th for the surfacing of two miles of the Pacific Highway between Orillia and Renton in King county. Bids will also be received at the same time for the surfacing of 7 miles of the Inland Empire Highway from the Yakima river bridge near Kiona in Benton county.

TACOMA, Wash.—New bids have been called for by the Pierce County Commissioners for the making of a fill on Eleventh street to cost approximately $75,000. Bids will be opened on May 21st.

The San Francisco Board of Public Works has passed resolutions of intention providing for the following work:

Sewer—Raymond avenue from San Bruno to Delta.

Pave Raymond avenue from Delta to Elliot.

Pave Leland avenue from Rutland to Delta.

Pave Leland avenue from Delta to Sawyer.

Pave Visitacion avenue from San Bruno to Schwerin.
(15778 to 15782)

BIDS OPENED FOR SACRAMENTO COUNTY HIGHWAY WORK.

SACRAMENTO, Cal. The following action has been taken by the Sacramento County Highway Commissioners relative to bids opened Wednesday, May 2d, for highway construction. All bids rejected for portion of River Road (No. 14) on Randall Island, reject bids and authorize re-advertisement of bids for Sacramento-Freeport Road (No. 13), and Pocket Road (No 15). Awards for construction were authorized as follows: Lower Stockton Road (No. 10) grading and paving awarded to Joe Lawrence for $31,966. Bridges and culverts on same awarded to F. E. Frey, 2526 "Q" street, Sacramento, for $4,787.78; Galt-News Hope Road (No. 11) grading and paving, awarded to A. Teichert & Son, Ochsner Bldg., Sacramento, for $31,589.20; bridges and culverts on same awarded to F. E. Frey, 2526 "Q" street, Sacramento, for $2,556.72.

No bids were received for the combined work of grading and paving of Roads Nos. 10, 11, 13 and 15. A combination bid of $19,939 for constructing bridges and culverts of Roads Nos. 10, 11, 13 and 15 was received from Jenkins & Wells. Following is a complete list of the bids as opened:

GRADING & PAVING ROAD NO. 10 (AWARDED)

No. 1 Joe Lawrence	$31,966.00
No. 2 A. Teichert & Son	32,165.50
No. 3 W. J. Schmidt	37,593.50
No. 4, Contra Costa Con. Co.	38,127.70
No. 5 Burns, Jacinto, & Da-Rosa	38,622.00
No. 6 A. W. & C. H. Gorrill	47,317.10

BRIDGES & CULVERTS ROAD NO. 10 (AWARDED)

No. 1 F. E. Frey	$ 4,787.78
No. 2 Jenkins & Wells	4,942.78
No. 3 A. Teichert & Son	5,067.78
No. 4 C. H. & A. W. Gorrill	5,104.54
No. 5 Contra Costa Con. Co.	5,182.41
No. 6 Joe Lawrence	6,131.30
No. 7 Burns, Jacinto & Da-Rosa	6,716.30

GRADING & PAVING ROAD NO. 11 (AWARDED)

No. 1 A. Teichert & Son	$31,589.20
No. 2 Burns, Jacinto & Da-Rosa	34,024.00
No. 3 Contra Costa Con. Co.	35,695.60
No. 4 W. J. Schmidt	36,998.00
No. 5 Whitlock & Gorrill	41,027.60

BRIDGES & CULVERTS ROAD NO. 11 (AWARDED)

No. 1 F. E. Frey	$ 2,556.72
No. 2 Whitlock & Gorrill	2,675.90
No. 3 A. Teichert & Son	2,726.72
No. 4 Jenkins & Wells	2,901.72
No. 5 Contra Costa Con. Co.	3,081.20
No. 6 Burns, Jacinto & Da-Rosa	3,456.20

GRADING AND PAVING ROADS 13 AND 15. (ORDERED RE-ADVERTISED.)

No. 1 Joe Lawrence	$46,590.63
No. 2 Burns, Jacinto & Da-Rosa	48,062.00
No. 3 A. Teichert & Son	50,503.80
No. 4 Contra Costa Con. Co.	51,266.45
No. 5 Whitlock & Gorrill	56,680.48
No. 6 C. H. & A. W. Gorrill	73,319.25

BRIDGES & CULVERTS ROADS 13 AND 15. (ORDERED RE-ADVERTISED)

No. 1 Whitlock & Gorrill	$11,207.38
No. 2. Contra Costa Con. Co.	11,394.35
No. 3 Jenkins & Wells	12,094.50
No. 4 A. Teichert & Son	12,598.57
No. 5 Joe Lawrence	13,933.50
No. 6 Burns, Jacinto & Da-Rosa	15,456.70
No. 7 C. H. & A. W. Gorrill	15,737.40

GRADING AND PAVING ROAD NO. 11 RANDALL ISLAND. (BIDS REJECTED.)

A. Teichert & Son (1st alternative)	$11,931.11
A. Teichert & Son (2nd alternative)	9,771.06

Contract Awarded.

LOS ANGELES, Los Angeles Co., Cal.—J. P. Hunter, 405 West Fifty-eighths street, Los Angeles, Cal., has been awarded a contract at $11,400 for constructing an addition to the sewer system at the County Farm near Downey. The work will include one Imhoff tank, three flushing manholes, one sump and pump chamber, one controlling chamber, one slush bed, eleven manholes, and cast iron or vitrified sewer pipe lines.

SAN FRANCISCO—To D. O. Church Co., 68 Post street, for the improvement of crossing of Mariposa and Florida streets at $1,360.98. R. W. Adams submitted the lowest bid for this work at $1,225.62, but was allowed to withdraw same claiming a mistake.

OAKLAND, Alameda Co., Cal.—A contract has been awarded to J. Catucci, 1230 18th avenue, Oakland, for the following street improvement:

That East 23rd street, from Fruitvale avenue to Peralta avenue, and all that portion of Hughes avenue that lies NE of the NE line of East 23rd street each, be graded, curbed with redwood, guttered with concrete gutters, three feet wide, and paved with oil macadam; also

That a cement sidewalk, 5′ wide; and a cast iron and concrete culvert having two granite header-blocks be constructed.

LOS ANGELES, Los Angeles Co., Cal.—The Fairchild-Gilmore-Wilton Company, Pacific Electric Bldg., Los Angeles, has been awarded a contract at $26.134.20 for the improvement of Palos Verdes street from Sixth street to Fourteenth street.

STOCKTON, San Joaquin Co., Cal.—At the last meeting of the City Council the Clark & Henery Construction Co., 38 S-Sutter street, Stockton, was formally awarded the contract to improve the center portion of Miner avenue between Hunter and California streets. The bid was $5,144.58.

STOCKTON, San Joaquin Co., Cal.—The Federal Construction Co., Sharon Bldg., San Francisco, has been awarded the contract for the completion of the old Eaton and Smith contract on Washington, Sonora, Church and Sutter Sts. The bids was $8,813.32, over $550 above the engineer's estimate of $8,251.40. Clark & Henery, the only other bidder put in a figure of $9,187.93.

OAKLAND, Cal. The City Council has awarded a contract to Hutchinson Co., 13th and Franklin Streets, Oakland, for the following work:

That 86th avenue from L street to G street, and G street from the E line produced of 86th avenue to the SW line produced of 84th avenue, all as it exists between Anchat and G streets, each, be graded curbed with redwood, guttered with concrete gutters, three feet wide, paved with oil-macadam, and sidewalked with cement sidewalks, six feet wide; also

That 85th avenue from G street to the NW line of the Right of Way of the Western Pacific Railway Co. be graded, curbed with redwood, guttered with concrete gutters, three feet wide, paved with oil macadam and sidewalked with cement sidewalk, five feet wide; also

That a vitrified pipe conduit be constructed; that four brick storm water inlets with tops of cast iron be constructed; five brick manholes; vitrified pipe conduit, having an internal diameter of 10 inches; a vitrified pipe sewer, having an internal diameter of 8 inches; that the following structures be built on said sewer: a brick manhole; a vitrified pipe lamphole, and enough "Y" branches, each having a 5-inch opening, to provide one such branch for each 40 foot lot, and fractional lot remaining, into which the abutting property frontage is capable of being divided.

OLYMPIA, Wash.—The following contracts have been awarded by the State Highway Commission:

Mile of Sunset Highway, east of North Bend to Sloan Bros., P. O. Box 348, Seattle. $11,846.

Elevent miles Sunset Highway, near Easton to Gallagher & Mead, Auburn, Wash., $16,494.

Mile of Pacific Highway, north of Kalama, to Allred & James, Centralia, Wash., $10.728.

Thirty-three miles of State Road No. 23, near Mead, to Spokane Bitumass Paving Co., Spokane, $17,484.

Mile of Inland Empire Highway, from Colfax north to Spokane, Asphalt Macadam Paving Co., Spokane, $18,282.

SAN FRANCISCO—The San Francisco Board of Public Works has awarded a contract to Healy Tibbitts Co., 9 Main street, for dredging the Pierce Street outfall sewer and has requested the Board of Supervisors to appropriate $2,000 to cover the cost of the contract.

POMEROY, Wash.—Harry St. George, City Clerk, reports that the contract for the paving of several streets has been awarded to Clifton Applegate & Toole Co., of Spokane at $35,235.

Balance of the work will go out for figures following awards of contract on the work now being figured.

LODI, SAN JOAQUIN CO., CAL.—Theatre and stores, 3 story and base, brick and steel, $50,000. Architects, Stone & Wright, San Joaquin Valley Bank Bldg., Stockton. Owners, Lodi Investment Co. Location, School stret. Will contain three stores besides a large motion picture theatre. Plans complete and figures being taken. Bids to be opened on May 10th.

SEALED PROPOSALS.

PROPOSALS FOR BUILDING.

BUILDING—Treasury Department, Supervising Architect's Office, Washington, D. C.—Sealed proposals will be opened in this office at **3 p. m. June 1, 1917,** for the construction, complete, of the United States post office at Cody, Wyo. Drawings and specifications may be obtained from the custodian of site at Cody, Wyo., or at this office, in the discretion of the supervising architect. JAS. A. WETMORE, Acting Supervising Architect.

PROPOSALS FOR CANAL WORK.

CANAL WORK—Department of the Interior, U. S. Reclamation Service, Washington, D. C.—Sealed proposals for the construction of canals on the Rio Grande Project involving about 196,000 cubic yards of excavation will be received at the office of the United States Reclamation Service, El Paso, Tex., until **2 o'clock p. m. May 23, 1917,** and will at that hour be opened. The work is located near Garfield, N. M. For particulars address the United States Reclamation Service, El Paso, Tex., Denver, Colo., or Washington, D. C. MORRIS BIEN, Acting Director.

NOTICE TO CONTRACTORS.

BIDS will be received by the Board of Capitol Commissioners, Carson City, Nevada, up to **12 o'clock, noon, on June 5th, 1917, for the furnishing** and setting of marble in corridors and vestibules of Capitol building according to official plans and specifications now on file.

Plans and specifications may be secured at the office of the Secretary of State, Carson City, Nevada, or at the office of F. J. De Longchamps, architect, Nixon Building, Reno, Nevada.

Each bid to be sealed and accompanied by a certified check amounting to at least five per cent of the amount of bid No. 1.

Bids are to be filed at the office of the Secretary of State.

The Board of Capitol Commissioners reserves the right to reject any or all bids.

Ordered by the Board of Capitol Commissioners, Carson City, Nevada on this 27th day of April, 1917.

EMMET. D. BOYLE,
Chairman.

Homer Mooney, Clerk.

NOTICE TO CONTRACTORS.

OFFICE Constructing Quartermaster, 1206 Pacific avenue, San Pedro, Cal.—Sealed proposals will be received here until **10:00 A. M., June 1, 1917,** and then opened, for furnishing and installing gas-fired heating systems in various buildings to be constructed at Fort MacArthur, Cal. Further information on application.

NOTICE TO CONTRACTORS.

SEALED PROPOSALS will be received at the Bureau of Yards and Docks, Navy Department, Washington, D. C., **until May 14, 1917,** for one brick building and one wood frame building, at the Naval Ammunition Depot, Mare Island, Cal. Drawings and specifications (No. 2354) may be had on application to the Bureau of Yards and Docks.

NOTICE TO CONTRACTORS.

SEALED PROPOSALS will be received at the Bureau of Yards and Docks, Navy Department, Washington, D. C., **until May 21, 1917,** for constructing a three-story and basement extension, equipped with plumbing, steam heating, and electric wiring, at the navy yard, Mare Island, Vallejo, Cal. Drawings and specifications (No. 2358) may be obtained on application to the Bureau of Yards and Docks, Washington.

NOTICE TO CONTRACTORS.

SEALED PROPOSALS will be received by the United States Coast Guard, Treasury Department, Washington, D. C., **until May 15, 1917,** for constructing Coast Guard Station No. 321 and accessories, at Bolinas Bay, Cal. Specifications and further information may be had on application to the superintendent, thirteenth district, Coast Guard, San Francisco, Cal., or to the above-named office (*)

GOVERNMENT BIDS WANTED.

CIRCULAR No. 282—Sealed proposals will be received at office of general purchasing agent, Alaskan Engineering Commission, Seattle, Wash., not later than 11 A. M., May 15, 1917, for furnishing crowbars, lining bars, drag scrapers, Fresno scrapers, shovels, picks, wheelbarrows, mattocks, plows, peavies, drills, hammers, auger bits, chisels, handles, planes, pliers, rules, crosscut and hand saws, screws, squares, tapes, grindstones and saw tools Copies of circular may be obtained upon application at this office; Alaskan Engineering Commission, 102 Customhouse, Portland, Ore.; 514 Kohl Bldg., San Francisco, Cal. Alaskan Engineering Commission, Washington, D. C. C. E. DOLE, General Purchasing Agent.

PROPOSALS will be received at the Bureau of Supplies and Accounts, Navy Department, Washington, D. C., until 11 o'clock A. M., May 22, 1917, for delivering burlap, electrical supplies, window glass, glue, hardware, etc., white lead, lenses, engraving ma-

chine, fiber magaphones, monel metal, blue and brown print paper, California white and sugar pine, cleaning and polishing soap, tallow, and cotton mattress ticking at the navy yard, Mare Island, Cal. Apply for proposals to the navy purchasing offices, San Francisco, Cal., or to the Bureau of Supplies and Accounts. SAMUEL McGOWAN, Paymaster General of the Navy.

THE WAR CRY ALONG THE APACHE TRAIL.

White men have heard the war cry along the mystic shadows of the Apache Trail. Time was when this would have caused a thrill of apprehension throughout the land, but now the Indians are allied with their "little Father at Washington" and eager only to fight in his behalf.

Word has reached E. O. McCormick, vice-president in charge of traffic of the Southern Pacific Company, that the Apaches of Roosevelt Dam, Arizona, have summoned members of the tribe for a great Devil Dance. That the United States is now at war has just spread among the Indians, and they are eager to offer their services to their "white brothers." Many of the Apaches are skilled in modern warfare, having been effectively used in quelling border disturbances. They are conceded to be among the finest horsemen and trailers in the world.

The Devil Dance will take the form of a "Preparedness Demonstration," the Apaches vowing allegiance to the Government, endeavoring to drive out the devils from the country, and pleading with the Great Spirit to grant an abundance of crops.

Hundreds of tourists from California hit the "Apache Trail" to witness the spectacle.

ALAMEDA CONTRACTORS PLAN ANNUAL BANQUET

Hotel Oakland Selected as Annual Gathering Place for Alameda County General Contractors' Association on May 10th.

The General Contractors' Association of Alameda County will hold their annual banquet on the evening of May 10th at the Hotel Oakland. A fine and varied program is promised. A committee consisting of the following have been working hard to make the affair a huge success:

Chairman, Geo. Armstrong; T. D. Sexton; A. M. Poulson; L. C. Fraser, Jr., and F. T. Kennedy.

Tickets may be obtained from the Secretary, P. F. Bradhoff, who is authority for the statement that anyone attending who does not feel that he got his money's worth will have the purchase price of his ticket refunded.

BIDS OPENED FOR WORK AT CHABOT OBSERVATORY.

OAKLAND, Cal.—The following bids were received by Dan W. Pratt, Secretary of the Oakland Board of Education, for grading, cement work, fences, gates, planting, water system and fire protection at the Chabot Observatory. All bids were referred to the District Attorney:

MARKET IN SINGAPORE FOR CRUDE-OIL ENGINES.

SINGAPORE, Straits Settlements.—Inquiry elicits the fact that there is apparently a good demand in the Singapore market for crude-oil engines of about 10 horsepower for operating rubber mangles. An agency representing American manufacturers of this kind, with facilities for a proper demonstration of their merits, would undoubtedly do a profitable business in this district, where rubber production is of great magnitude and is rapidly increasing in volume.

IRRIGATION COMPANY IS SUED.

The Midland Counties Land and Irrigation Company is defendant in two suits filed in the Superior Court. R. M. Hardin alleges he served as general manager of the company from January 1, 1[illegible] until April 1, 1917, and that it was agreed his salary should be $5000 a year, but that he has received no salary. He sues for $21,500.

Attorney William C. Crittenden sues for $12,500 alleged to be due for legal services.

SUPERVISORS TO EXPLAIN.

Many members of the Board of Supervisors, including Messrs. Edw. I. Wolfe, James E. Power, and J. Emmet Hayden, will occupy seats at the speakers' table at the luncheon of the Home Industry League of California to be held today at the Palace Hotel. The Supervisors will give informal explanations of the attitude of each in the matter of buying "home-made" goods, and will be prepared to answer questions put them by the members of the League regarding future policy of the Board of Supervisors.

Final nominations will be made at this meeting for candidates to be selected as Directors of the League for two years. The nominations are open to the entire membership.

Several women members are already in the field.

The Oakland factory-owners, and those of Los Angeles are putting up candidates from their respective localities, and it is generally believed their candidates will be elected.

Spring gardening has lengthened many lives?

Today is the best time to begin to build for health?

OAKLAND COMMONWEAL COMMITTEE PLANS INDUSTRIAL AMITY.

OAKLAND, CAL.—No more strikes or lockouts, an end of boycotting and blacklisting by the establishment of industrial amity between employer and employed is the aim of the Commonweal Committee of the Oakland Chamber of Commerce, which has just been organized.

Its membership consists of four union leaders and five members of the Chamber of Commerce as representatives of the employers. The union men insisted that they should be in the minority on the committee so that there should be no ground for the charge that they were attempting to dictate. The committee's make up is as follows:

Representing labor—W. A. Spooner, secretary of the Central Labor Council; S. W. Lore, a delegate to the Council; S. J. Donohue, secretary of the Building Trades Council, and John F. Kerns, delegate of the Plasterers' Union to the same council.

Representing the Chamber of Commerce — Arthur Arlett, contractor, Progressive party leader, president of the State Board of Harbor Commissioners; Joseph R. Knowland, former Congressman, now publisher of a leading Oakland newspaper; James Traverse, factory manager; H. C. Capwell, department store proprietor, and James P. Maxwell, hardware man.

The committee immediately went to work, its first task being to arrange working conditions among the ship carpenters, the house carpenters and the bridge carpenters. This move was made following the offer of Oakland to lay down 100 wooden vessels in the government's shipbuilding program and the acceptance of the offer of co-operation by William Denman, chairman of the United States Shipping Board.

The Commonweal Committee has been in the process of formation for the last six months and therefore can not be considered in any way as a war measure. Its main purpose is to try to get back to first principles in industrialism—that is, revert to the days when the employer and employe were so close together that grievances could be threshed out man to man.

How the committee and its aims is regarded is indicated by the following expressions by those concerned:

Joseph H. King, president of the Chamber of Commerce—"I consider this one of the biggest things the Chamber of Commerce and labor have done in common. It makes Oakland the first city to stand for industrial peace and progress and will do much to heal the breach between capital and labor."

Secretary Spooner of the Labor Council—"Organized labor welcomes the opportunity to confer and collaborate with organized employers. We are satisfied that much, if not all, of the industrial turmoil of today might be avoided. The honest, conscientious workman does not possess the prejudice against the upright employer he is so often given credit for."

James Traverse, factory manager—"It strikes me as the only way employers and employes can co-operate for the best interests of the country. This committee is the best solution of labor troubles."

S. W. Lore delegate to the Labor Council—"Organized labor's position in the community in relation to all labor is precisely the same as the Chamber of Commerce's relation to all business. When representatives of the two visible heads that speak for and control the destinies of the city get together, their meeting means much to the community."

John P. Maxwell, hardware merchant—"The appointment of this committee will tend to obviate any future labor troubles."

President King of the Chamber of Commerce has received many messages of congratulation on the appointment of the Commonweal Committee.

CALIFORNIA WATERWAYS TO GET $1,850,000.

WASHINGTON.—The annual waterways appropriation bill, carrying $1,850,000 for California waterways came before the House Rivers and Harbors Committee for consideration May 2. Oregon gets, $1,517,000 of which $1,285,000 is for the improvement and maintenance of Columbia and lower Willamette rivers. Washington gets $315,000, Alaska $150,000 and Hawaii $200,000. California appropriations include: Improvement Los Angeles harbor, $50,000; completing improvements San Diego harbor, $85,000; maintenance San Diego, Los Angeles and San Luis Obispo harbors, $45,000; maintenance San Francisco, Oakland, Richmond, Monterey and Humboldt harbors, Redwood, San Rafael and Petaluma creeks, Napa River, San Pablo Bay and Suisun Channel, $287,500; continuing improvement Oakland, $92,000; improvement Richmond, $100,000; continuing improvement Humboldt harbor and bay, $190,500.

TO PERMIT SCHOOL CLOSING.

SACRAMENTO, Cal.—Under the terms of an emergency war measure, introduced in the Senate by Senator E. J. Gates of Los Angeles, chairman of the upper house of education committee, the State Board of Education will have power to suspend school sessions in rural districts at any time, as long as the suspension of the sessions meets with the approval of Governor Wm. D. Stephens. The bill, as Gates explained it, is designed to assist in the harvesting of crops in California during the period of the war with Germany.

LAY OF THE HOBO.

Under the bridge where I used to lie
There's a sentry stationed with eagle eye,
There's another standing with loaded gun
Where in the tunnel I used to run.
E'en in the car where I slept at night
They are carrying powder and dynamite,
With every soldier seeking a spy
The railroad's no place for a tattered guy.

Gone into the war refuse is another American institution—the railroad hobo. "Weary Willie" has forsaken the "side-door Pullman" as a means of transportation. His camp-fire no longer burns by the creek bed under the railroad bridge, nor does the tunnel entrance any longer constitute his rendezvous.

The fact that all approaches to railroad bridges, tunnels and terminals are now guarded by soldiers with instructions to challenge suspicious characters, has made the hobo's profession an unhealthy occupation. He faces the possibility of being shot, jailed, put to work or made to enlist, and none of these alternatives appeals to his fancy.

In this connection, P. J. Kindelon, chief special agent of the Southern Pacific Company, is seeking to safeguard thoughtless pedestrians who carelessly trespass upon railroad property. Southern Pacific agents are being urged to call to everyone's attention the fact that it is now more dangerous than ever to ignore warning signs.

As the movement of troop and ammunition trains increases, greater vigilance will be exercised by military authorities, and it will be dangerous for unauthorized persons to venture within the boundary lines.

DO YOU KNOW THAT

A good water supply in the spring may save an undertaker's bill in the fall?

It's the spring fly which makes the summer pest?

GOVERNMENT APPOINTS LOCAL ARCHITECTS.

San Francisco Chapter Offers Services of Its Members to Government For Important Work.

The announcement of the appointment of a committee of three San Francisco architects, who, through the American Institute of Architects, have offered their professional services to the government gratis in connection with the preparation of plans for federal buildings on the Pacific Coast has just reached this city.

Walter A. Bliss has been appointed chairman of the committee with William Mooser and George William Kelham as the other two members. Plans for all buildings to be erected under the direction of the Navy Department, and including a large portion of the emergency appropriation of ninety million dollars, will be prepared by the committee. Work at the various navy yards, coaling stations, radio stations, and naval training stations, including those located at Puget Sound, Mare Island, Goat Island, San Diego, Pearl Harbor, Hawaii, and in the Philippines will come under the control of this committee. No definite information is as yet available as to the nature of improvements to be undertaken by the Navy Department.

The government is extremely fortunate in securing the services of such representative members of the architectural profession and the action of the American Institute of Architects, as well as the local Chapter, and the individuals in offering their services at this time is highly commendable.

In the past all of the large government building construction projects in the Western States have been designed by Eastern architects, with the possible exception of the public buildings for which competitions were held. The appointment of a committee of San Francisco men of accepted ability and thoroughly familiar with local conditions should result in better and more satisfactory conditions in all government construction.

KEEP BUSINESS GOING

For Our Country's Sake

Our country prosperous can pay our war costs, as they come, and have enough left over to aid our Allies.

Our country unprosperous, with business halting, money hoarded, through fear or false economy, will be hard pressed to keep food on the table and clothing on the back.

Keep Business Going

is a partiotic slogan. Keep money in circulation. Keep money in circulation. Keep employment for everybody. Keep wages good. Keep on making money that we may have money to spend for war sacrifiecs.

The worst thing that could happen to the world these days would be a business depression in our United States.

War in itself does not cause business depression.

The billions of dollars of money to be expended in war preparations will be put into circulation in our country, and this in itself will create new wealth for use in the world-struggle for humanity.

The one thing that might halt business now is an unpartiotic psychological feeling of panic and a false idea of patriotic economy.

Patriotic Economy

Patriotic economy means the elimination of waste and extravagance. It means the conservation of our food products, our natural wealth, our health, our energies, our labor, our very lives. It means putting more efficiency in everything we do so that each unit of money, energy and intelligence may accomplish the utmost.

Patriotic economy does not mean the lowering of America's standard of living, which would make us less efficient physically and mentally, nationally and individually, and would kill the spirit and the will to do the truly self-sacrificing things to be done.

Cities and communities must go on with their civic improvements. Road building and public works must proceed. Railroads must renew their equipment. Factories must be kept going to their full capacity. Labor must be employed. Homes must be kept up. Merchandise must be produced, distributed and used.

War duties and war expenditures must be in addition to peace duties and peace expenditures. The more we do the more we can do. The more money we spend the more we will have in our pockets to spend. Money creates money.

In a word. **The natural sane life of the country must proceed as though we were not at war, in order that we may have the necessary prosperity to promote the war to a quick and successful conclusion.**

President Wilson sounds the keynote in this sentence: "It is evident to every thinking man that our industries, on the farm, in the shipyards, in the mines, in the factories, must be made more prolific and more efficient."

Our industries can be made more prolific only if the people buy and use the merchandise produced by our industries. Manufacturing slackens when business slackens. Manufacturing grows in a prolific way when business grows. And business can grow and remain healthful only when the people buy and keep money in circulation.

Business IS Going Strong

Business is going in the East, the West, the North, the South. The country is prosperous. Last month's increase in business was very large. Banks may wait in their operations until the government bonds are assimilated. People may pause temporarily in their outfitting to arrange to meet the new conditions. But the unloosing of billions of dollars will unloose a flow of prosperity absolutely necessary to sustain the world's burden.

Government set the pace in their expenditures.

Individuals must not lag behind. Seven billions of dollars to pay is only $70 per capita in the United States. Yet seven billions of dollars, put into work at 6 per cent—a fair estimate of the producing power of money—will create 420 millions of new wealth.

The income tax we pay will not be a tax on prosperity, but a spur to prosperity. Every dollar the individual pays out will come back to him with interest in the general prosperity of the people.

Keep Business going for our country's sake. War cannot be waged and won without the sinews of war.

BONDS.

SACRAMENTO, CAL. — The City Board of Education has decided to postpone the bond election which was to be held in the near future to decide the question of issuing and selling bonds for increasing school facilities. It is thought that the issue would not carry at this time owing to the nation being at war.

HUNTINGTON PARK, LOS ANGELES CO., CAL.—An election will be held May 28th in the Huntington Park School District to vote an issue of bonds amounting to $78,000 for erecting a new school building.

OROVILLE, BUTTE CO., CAL. — The Oroville Union High School Bond issue has been sold to the National City Company of San Francisco. The bonds amounted to $80,000 and will finance the construction of a new two-story and basement, concrete and hollow tile school. N. W. Sexton & Co., Merchants' National Bank Bldg., S. F., are the architects. Plans will be completed in about two weeks.

RIVERSIDE, RIVERSIDE CO., CAL. —The City Council has passed a resolution providing for an election to be held June 30th, when it will be decided whether or not bonds of $40,000 will be issued for the construction of an addition to the present library building.

YUBA CITY, SUTTER CO., CAL.—County Clerk Alvin Weis has been instructed by the Board of Supervisors to advertise for sale the $20,000 issue of County Hospital bonds voted in 1916. Three sets of plans have been drawn for the new hospital building, which will be erected on the site of the present frame structure.

YREKA, SISKIYOU CO., CAL.—The Supervisors have authorized Clerk Neilon to call for bids for the sale of the Siskiyou Union High School bonds in the amount of $70,000. The bids will be opened June 4th. Of the above amount $45,000 is for the main school building at Yreka, and $5,000 each for the branch high schools at McCloud, Sisson, Weed, Dorris and Fort Jones. Plans and specifications have already been tentatively accepted by the High School Trustees.

NAPA, NAPA CO., CAL.—The Trustees of Brown's Valley School District are discussing the proposed calling of an $8,000 bond election for a new school buidling.

FRESNO, FRESNO CO., CAL. — Bids will be received by the Board of Supervisors up to 2 p. m. of May 24th for the purchase of 25 bonds of the Clovis School District, of denominations of $1,000 each, 7 per cent, to be dated May 7, 1917. Certified check for 10 per cent required. D. M. Barnwell is the cleark.

SAN JOSE, Santa Clara Co., Cal.—County Clerk Henry A. Pfister has been instructed to receive bids up to May 21st, for the purchase of $190,000 State highway bonds. Proceeds will finance the construction of highways throughout Santa Clara County.

BRIDGES AND DAMS.

OAKLAND, CAL.—Pier and wharf shed, timber piles and frame, $100,000. Engineers, Cattell, Howard & Ashton, Foxcroft Bldg., S. F. Owners, Howard Co. Location, Oakland waterfront. Pier will be 110 by 550 feet and the wharf shed 65 by 450 feet. Plans complete and figures taken under advisement.

FRESNO, Fresno Co., Cal.—The City Council has instructed the City Engineer to report the probable cost of widening the Belmont avenue bridge, and submit same at the next meeting.

FRESNO, Fresno Co. Cal.—The Fresno City Council has appropriated

$3,800 which will provide for the construction of the Park Boulevard Bridge to be constructed in connection with the paving of H street.

YUBA CITY, Sutter Co., Cal.—The Supervisors have instructed County Surveyor L. M. Bunce to engage an engineer to prepare plans and specifications for construction of a combined wood and steel bridge to be erected over the Feather River at Nicolaus. The bridge is to have an asphalt floor.

The Chairman of the Board was authorized to enter into a contract for the bridge construction. No specification was made as to the cost.

MONTESANO, Wash.—County Auditor W. D. Campbell of Grays Harbor County, will receive bids up to May 28th for the following bridge work: Combination highway bridge and approaches over the Humptulips River, near Burrows Station, on the N. P. Railway, span to be 180-feet; pile piers; pile trestle approaches about 323 lin. feet, also a standard pile trestle bridge 57 feet long over a slough near the proposed bridge; also combination highway bridge and approaches over North River on Thomas Lund County Road, span to be 100 feet; pile piers; pile trestle approaches about 400-lin. ft.; there is also included a standard pile trestle bridge 100 feet long on same road. Plans and specifications from County Engineer Geo. Robertson.

MARYSVILLE, Yuba Co., Cal.—County Surveyor Crook has been instructed to prepare plans and specifications for five concrete bridges to take the place of the wooden structures at the following points: Plumas Lake on the old Marysville-Sacramento road; Shriner place over Dry Creek on the Marysville-Wheatland road; and three near the Creps place on the Spenceville road. It is estimated that these improvements will cost in the neighborhood of $22,000.

FLORENCE, Pinal Co., Ariz.—Engineer H. V. Clotts and his assistants, who are making final surveys for the diversion dam and main canal, for which Congress has appropriated $250,000, will have temporary quarters in Keating Hall. Plans for the work will be ready about July 1.

OLYMPIA, Wash.—The State Highway Commission will receive bids up to June 4th for the construction of a reinforced concrete viaduct over the Northern Pacific Railroad tracks at Nisqually in Pierce County, proposed last year, to cost about $35,000, and for the construction of 10 miles of state highway, as follows:

concrete paving of 3½ miles of the Pacific Highway between Olympia and St. Clair in Thurston County, cost $60,000; clearing, grading and draining and surfacing of 4 miles of the Pacific Highway between Toledo and the end of Permanent Highway No. 2B in Thurston County; clearing, grading and draining of 1.5 miles of the Pacific Highway near Forest in Lewis County; and grading and draining and surfacing of 1 mile of the same highway between Orillia and Renton in King County.

RIVERSIDE, Riverside Co., Cal.—The City Council has entered into a contract with E. T. Flaherty, 3984 Dalton street, Los Angeles, to prepare plans and specifications for the new Victoria avenue bridge. Flaherty will receive 5% commission on the contract price.

A. P. Campbell is City Engineer of Riverside.

MT. VERNON, Wash.—J. R. Wood of Seattle submitted the lowest bid to the County Commissioners for the construction of a 220 foot steel span bridge over the Skagit River, at $43,808, but this being above the estimate, bids were rejected. It is probable that a wooden structure will be erected. W. E. Costello is County Engineer..

Contract Awarded.

FAIRFIELD, Solano Co., Cal.—A contract for furnishing the steel for the intercounty bridge to be erected over the Sacramento River at Rio Vista by Sacramento and Solano Counties, was awarded to the United States Steel Products Co. on their bid of $58,333. Two other bids were received at Sacramento. .

SEATTLE, Wash.—The Board of Public Works has awarded a contract to the J. A. McEachern Co., at $61,609.49 for the construction of the wooden drawbridge over West Spokane street.

VISALIA, Tulare Co., Cal.—S. G. Smartt, Bakersfield, Cal., at $23,185 was awarded the contract by the Tulare County Supervisors for the construction of all the concrete bridges on the State Highway route between Visalia and Delano.

MERCED, Merced Co., Cal.—At the last meeting of the County Supervisors a contract was let to E. K. Angle for the erection of bridge No. 57 in District No. 5. The cost to be $7,940.

Contract for culvert No. 54 was awarded to David McElroy for $160 and for building bulkheads on bridge No. 58 to R. H. Montgomery for $398.

CHURCHES.

COALINGA, FRESNO CO., CAL.—Church, 1 and 2 story, frame and concrete. Cost not stated. Architect's name not given. Owners, First Methodist Episcopal Church. Will contain large main auditorium, Sunday school rooms, social hall and study. Plans complete and in the hands of the pastor, Rev. D. A. Allen, 120 West C street, who is now taking figures. Bids will be opened on June 4th.

FRESNO, FRESNO CO., CAL. — Mausoleum, 1 story and base reinforced concrete, $100,000. Architect's name not given. Owner, Fresno Lodge of Odd Fellows. Location, Mountain View Cemetery. Will contain 160 nitches. Plans complete. R. C. Palmer, Fresno, is representing the owners.

LOS ANGELES, CAL.—Church, 1 and 2 story, reinforced concrete and steel, $125,000. Architect's name not given. Owners, St. Paul's Pro Cathedral Church. Location, west Olive between 5th and 6th streets. Funds are now available for this construction and bids will be called for as soon as plans can be completed. An architect's name will be given in our next issue.

COURT HOUSES.

OROVILLE, BUTTE CO., CAL.—City hall vault, reinforced concrete. Cost not stated. Architect, none. Owners, City of Oroville. Bids are now being taken for furnishing and installing a fireproof vault in the City Hall. Plans can be secured from the City Clerk's office.

FACTORIES AND WAREHOUSES.

SAN FRANCISCO--Factory, 1 story, frame and corrugated iron. Cost not stated. Architect, Haase, 431 Folsom street, S. F. Owners, Jewel Steel and Malleable Co. Location, 25th and Potrero streets, covering an area of 114 by 200 feet. Plans complete and work to be done by Day Labor.

SAN FRANCISCO — Warehouse, 2 story and base. Class C brick, $16,000. Architects, Ward & Blohme, Alaska-Commercial Bldg. Owners, Cudahy Packing Co. Location, Union street near Battery. Will be in the nature of an addition to the present plant. Plans are being prepared.

OAKLAND, CAL.—Flour mill and dock warehouse, 6 story and 2 story, reinforced concrete and frame. Cost not stated. Engineer, R. M. Henningsen, Security Bank Bldg., Oakland. Owners, Albers Bros. Milling Co. Location, foot of Seventh street, Key Route Fill. Mill will cover an area of 62 by 180 feet, a nest of 32 reinforced concrete wheat bins 70 by 32 feet. The dock building will cover an area of 170 by 418 feet. Plans are complete and figures being taken. Bids will be opened on May 19th at 10 a. m. in the offices of the owners, 332 Pine street.

IRRIGATION PROJECTS.

TAFT, Kern Co., Cal.—A party who may be addressed Box 98, Taft, Cal., is in the market to purchase one million feet of second-hand pipe of all sizes.

STATE WATER COMMISSION GRANTS PERMITS.

The State Water Commission, Call-Post Bldg., San Francisco, has granted permits for the use of water from the sources named, as follows:

California Highways Commission of Los Angeles, 10 miner's inches of Salt Creek tributary to Castiac Creek in Los Angeles county for highway construction and irrigation of trees. The main portion of the work is a pipe line 18 miles long and the cost of the work is given as $30,000.

Oakdale Irrigation District, 20 cubic feet per second of Stanislaus River as auxiliary to its regular gravity system, by means of a pumping plant. Estimated cost, $8,000.

Atascadero Mutual Water Company of Atascadero, 7 cubic feet per second of the waters of Salinas river for municipal and irrigation purposes. The water is to be drawn from wells in the bottom of the river by pumping plants and conducted to a reservoir capable of storing 60,000 acre feet. It is intended to water 23,000 acres and the cost of the project is estimated at $750,000.

Samuel L. Miller of Mojave, 2 cubic feet per second of the waters of Barrel Springs in Kern county. By means of a pipe line ½ mile long and a dam of rock and cement, the water will be carried to 760 acres of land at a cost of $4,500.

Natomas Company of San Francisco, 50 cubic feet per second of the Sacramento river in Sacramento county for the irrigation of 6,600 acres by means of pumping plant, a main ditch 5½ miles long and 17 miles of laterals at a cost of $120,000.

The Farm Lands Investment Company of San Francisco, 100 cubic feet per second of the waters of the Yuba and Feather rivers for rice irrigation, by means of a series of three pumping plants and seven miles of ditches conducting the water to 7,152 acres at a cost of $31,000. The same company, 150 second feet of Feather river and Plumas and Messick lakes in Yuba county, by means of three pumping plants and six miles of main canals for the irrigation of 6,463 acres at a like expenditure.

T. M. O'Keefe of Palo Cedro, 14.42 cubic feet per second of Main Cow Creek tributary to Sacramento river in Shasta county, for the irrigation of 1,442 acres. There is a rock and timber dam four feet high and 200 feet long and a main canal and branch canals 8 miles in length. The estimated cost is given as $10,000.

R. L. Peirson and James Diamond of Tuolumne, 1.60 miner's inches of springs in that county for use at Pine Crest resort at Strawberry Lake, by means of 5,000 feet of pipe line.

Henry Pattison of Crescent City, 3 cubic feet of Hayden Gulch tributary to Hurdy Gurdy Creek in Del Norte county for mining purposes, by means of a dam 20 feet high, 30 feet long on top and 16 feet at the bottom of timber, rock and brush.

Louisa S. Paulsen of Lewiston, 30 cubic feet per second for one diversion and 20 cubic feet per second for another diversion of Rush Creek tributary to Trinity river in that county for hydraulic mining. The main portion of the works is a ditch six and a half miles long. The estimated cost of both diversions is $7,000.

Eugene Rutherford of Gridley, 10 cubic feet per second of an unnamed slough tributary to Hamilton Slough in Butte county for the irrigation of rice. A main ditch 2.4 miles long carries the water to 560 acres the estimated cost of the works being $2000.

Contract Awarded.

PARADISE, Butte Co., Cal.—W. A. Krammer, Rialto Bldg., San Francisco, has been awarded the contract for all work in the Paradise Irrigation District, Butte County, Cal., with the exception of the hydraulic dam construction which will be done by the district under his direction. Mr. Krammer's contract envolves about 35 miles of trenching, the same amount of wood stave pipe in dimentions of from 4" to 36", about 20,000 cubic yards of excavation aside from the above mentioned trenches and 2,000 cubic yards of concrete. The hydraulic dam will be 100 feet high and 900 feet on top. The entire work is estimated to cost in the neighborhood of $285,000.

LIBRARIES.

HANFORD, KINGS CO., CAL.—Libraries, 1 story, frame. Cost as follows. Architects, none. Owners, Kings County. The County Supervisors have adopted resolutions covering the construction of library buildings at Armona and Stratford to cost $4,000 each. The buildings are to be constructed by the Carnegie Corporation, the county to bear the expense of maintenance.

CORVALLIS, ORE.—Library, 2 story and base, reinforced concrete, $100,000. Architect, John V. Bennes, Chamber of Commerce Bldg., Portland. Owners, Oregon Agriculture College. Will contain the college library and study rooms. Plans complete and figures being taken. Bids will be opened on May 21st.

POWER PLANTS.

According to President John A. Britton of the Pacific Gas & Electric Co. that corporation will expend in the next three years the sum of $17,500,000 in construction of what is to

be the largest hydro-electric plant in the world.

The company has purchased all water rights of the Mount Shasta Power Co., located on the Pit River in Shasta County and plan the construction of a central power plant at Big Bend, about 60 miles northeast of Redding. Besides the power plant the plans include a large amount of other construction.

FRESNO, Fresno Co., Cal.—The San Joaquin Light & Power Corporation has been authorized to expend $2,362,942.44 on improvements to its system. They will consist of the completion of Power House No. 2, now under construction; remodeling and rebuilding of the Kern River Canyon power house; the erection of three new substations costing $60,521.95, at Chowchilla, near Hanford, and at Alpaugh. One battery of boilers and a new circulating water cooling system will be constructed at the plant in Bakersfield. The sum of $1,052,000 will be expended on the extension of distributing lines, transformers and meters. A total of $269,885 will be the estimated cost of line as follows: A 60,000 volt line from Raymond to Merced Falls, 33 miles, $72,600; a 60,000 volt line from Corcoran to Alpaugh, 25 miles, $53,255; a line from Alpaugh to Famosa, 35 miles, $77,000; Merced to Los Banos, $55,000. The rebuilding of the old plant in Kern River Canyon will cost about $31,000 A. G. Wishon, Fresno, is general manager.

RAILROAD CONSTRUCTION AND EQUIPMENT.

The Railroad Commission has authorized the purchase by the Western Pacific of that portion of the Nevada-California and Oregon Railroad between Reno, Nev., and Hackstaff, Cal., and a branch line 39 miles in length between Plumas Junction and Davies Mill. The total milage is 103 miles, which is now a narrow gauge road and is to be reconstructed for a standard gauge by the new owners.

The San Francisco Board of Public Works has awarded a contract to A. F. Mahony, 1 Drumm street, San Francisco, for furnishing and delivering wood ties for use in the Municipal Railway. The Works Board has requested the Supervisors to appropriate $18,480 to cover the cost of the contract.

Contract Awarded.

SEATTLE, Wash.—Steel rods for bridge construction, tie rods, iron castings and other steel and iron products to the total value of $131,991.32 were purchased by C. E. Dole, general purchasing agent of the Alaskan Engineering Commission, for use on the Anchorage division of the Alaskan railroad. The bulk of the orders were placed with Portland firms, the Northwest Steel Co., of Portland, getting a single order of $61,201 for steel rods, while the Peninsula Iron Works, also of Portland, secured the contract for iron castings to a total of $47,405.37. The other items on circular No. 262 were distributed as follows: Pacific Coast Steel Co., steel rods, $15,192.51; South Seattle Foundry Co., iron castings, $4,240, and Seattle Car & Foundry Co., tie rods, $3,952. The three last named firms are all of Seattle.

RESIDENCES.

SAN FRANCISCO—Residence, 1½ story and base, frame, $2,500. Architect, none. Owner, F. Nelson & Sons, 2701 Lincoln Way, S. F. Location, east 30th avenue north Irving. Will contain six rooms, bath and basement garage. Plans complete and work to be done b Day Labor.

BERKELEY, ALAMEDA CO., CAL—Residences, 10, 1 story and base, frame, $2,000 each. Architect, none. Owner, R. C. Hillen, 430 Haight street Alameda. Location, southwest Channing Way and Byron street. Each dwelling will contain six rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

ALAMEDA, ALAMEDA CO., CAL.—Residences, 2, 1 story and base, frame, $2,000. Architect, none. Owner, G. H. Noble, 2205 Santa Clara avenue, Alameda. Location, 2528 Broadway and 1220 Pearl street. Each house will contain six rooms and bath. Sleeping porches. Plans complete and work to be done by Day Labor.

BERKELEY, ALAMEDA CO., CAL—Residence, 2 story and base, frame, $2,000. Architect, none. Owner, Thomas N. Badger, 2946 Linden avenue Berkeley. Location, north Dowling Place east Telegraph avenue. Will contain six rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

BERKELEY, ALAMEDA CO., CAL—Residence, 1 story and base, frame, $1,400. Architect, none. Owner, Thomas N. Badger, 2946 Linden avenue, Berkeley. Location north Dowling Place east Telegraph avenue. Will contain four rooms and bath. Plans complete and work to be done by Day Labor.

OAKLAND, CAL—Residence, 2 story and base, frame, $3,500. Architect, none. Owner, H. S. Pratt, 1015 Glendora street, Oakland. Location, north Fairbanks avenue east Crofton avenue. Will contain eight rooms, bath and sleeping porch. Separate garage. Plans complete and work to be done by Day Labor.

BERKELEY, ALAMEDA CO., CAL.—Residence, 1 story and base, frame, $2,500. Architect, none. Owners, Richards and Hopper, 1769 Pleasant Valley avenue, Oakland. Location, east Josephine north Berryman. Will contain six rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

ROSS VALLEY, MARIN CO., CAL.—Residence, 1½ story and base, frame, $2,500. Architects, O'Brien Bros., 240 Montgomery street, S. F. Owner, A. Gunzendorfer. Location, Winship Park. Will contain five rooms, bath and sleeping porch. Plans are being prepared.

LOS ANGELES, CAL.—Residence, 2 story and base, frame. Cost not stated. Architect, A. B. Benton, 114 North Broadway, L. A. Owner, George P. Thresher. Location, Blue Snake Ranch near San Fernando. Will contain fourteen rooms, three baths and sleeping porches. Separate garage and other outbuildings. Plans are being prepared.

BERKELEY, ALAMEDA CO., CAL. Residence, 1 story and base, frame, $2,000. Architect, none. Owner, George S. Risher, 1914 Hearst avenue, Berkeley. Location, east Grant avenue north Delaware. Will contain six rooms, bath and sleeping porch. Separate garage. Plans complete and work to be done by Day Labor.

BERKELEY, ALAMEDA CO., CAL.—Residence, 2 story and base, frame, $4,500. Architect, John Hudson Thomas, First National Bank Bldg., Berkeley. Owner, C. D. Gillispie. Location, Berkeley Square. Will contain seven rooms, two baths and sleeping porch. Separate garage. Plans complete and figures being taken.

ALBANY, ALAMEDA CO., CAL.—Residences, 4, 1 story and base, frame, $1,500 each. Architect, none. Owner, C. M. MacGregor, 470 13th street, Oakland. Location, west Ventura north Posen. Each dwelling will contain five rooms and bath. Plans complete and work to be done by Day Labor.

OAKLAND, CAL. — Residence, 1 story annd base, frame, $2,000. Architect, none. Owner, Ernest Anderson, 226 Joaquin avenue, San Leandro. Location, east 35th avenue south East 17th street. Will contain five rooms, bath and sleeping porch. Separate garage. Plans complete and work to be done by Day Labor.

BERKELEY, ALAMEDA CO., CAL.—Residence, 2 story and base, frame, $4,000. Architect, Harris Allen, Central Bank Bldg., Oakland. Owner, Mrs. Alys Cornwall. Location, Claremont. Will contain seven rooms, bath and sleeping porch. Separate garage. Plans are being prepared.

Two bids were submitted for the improvement of 15th street SE from Powell Valley road to Division street as follows:

Oregon Hassam Paving Co., "A" Hassam, $1.45 sq. yd., $28,550.65.

Warren Construction Co., bitulithic in roadway, $1.85 sq. yd.; concrete in tracks, $1.35 sq. yd., $31,788.77.

DAYTON, Wash.—An ordinance has been passed by the City Council providing for street work which is estimated to cost $303,000.

SEATTLE, Wash.—Bids opened by the Port of Seattle, Bell Street Dock, for filling a portion of Salmon Bay shows the Puget Sound Bridge & Dredging Co., Central Bldg., Seattle, low at 22 cents per cubic yard or $28 600.

SAN LEANDRO, Alameda Co., Cal.—The City Trustees will receive bids up to May 21st, 8 P. M., for the following work:

For constructing a bituminous-concrete pavement and concrete curbs and gutters on that portion of Washington avenue bounded as follows, to-wit:

On the NE by the SW line of East Fourteenth street; on the S by a line drawn at right angles to the E line of Washington avenue, distant thereon, 159 feet N from the N line of Ward street; and on the W by the center line of said Washington avenue.

W. J. Gannon is City Clerk.

VALLEJO, Solano Co., Cal.—City Engineer T. D. Kennedy is considering the petition of property owners for the paving of Carolina street, bet. Sacramento and Santa Clara streets. The petition asks that the street be paved its full width, the pavement to consist of a concrete foundation and bituminous rock wearing surface crowned in the center.

FRESNO, Fresno Co., Cal.—A petition has been filed with the City Council asking the construction of a sewer in Block No. 3 of the Belmont Addition. The city will pay one-half and the property owners the other, according to the petition.

SPRAGUE, Wash.—Bids are being received by City Clerk J. F. Hall up to May 22nd for the paving of approximately thirteen blocks. Plans were prepared by Engineers Sawyer Bros., Lindelle Block, Spokane, Wash.

OAKLAND, Alameda Co., Cal.—County Clerk Geo. E. Gross will receive bids up to May 28th, 10 A. M., for the oiling and screening of County Road No. 2568 or Tassajara Road, in Murray Road District, Murray Township, Alameda County.

MARTINEZ, Contra Costa Co., Cal.—Bids have been received from S. R. Barney, Harris & Riggs and Tony Albi for the cement walks, retaining wall and steps to the City Hall Park beautification scheme under the W. A. Doctor plans, but all were taken under advisement.

City Engineer Brown is working in conjunction with Doctor

STOCKTON, San Joaquin Co., Cal. The following bids were received by the City Council for the improvement of American street, between Market and Channel streets:

Clark & Henery, Stockton	$5,183.05
Paul & Caldwell, Stockton	5,340.80
Federal Constr. Co., S. F.....	5,356.83

All bids were taken under advisement. The City Engineer's estimate was $4,475.42.

FRESNO, Fresno Co., Cal.—Clarence C. Murray has been appointed City Engineer by the City Council. Murray will succeed J. J. Van Valkenburgh, Jr.

VISALIA, Tulare Co., Cal.—The County Supervisors have rejected all bids for furnishing cement, rock, sand and gravel to be used in the construction of the county highway system and have decided to call for new bids. All bids were considered too high.

LOS ANGELES, Los Angeles Co., Cal.—John Sutalo, 911 Sunset Blvd., Los Angeles, was the lowest bidder at $29,300 for the construction of a sewer in Avenue 50 and Buchanan street from Pasadena avenue to York boulevard and on portions of other streets. The other bids were: Mike Chutuk, $29,818; R. A. Wattson, $41,500; Leo Miletich, $92,842.50.

SAN RAFAEL, Marin Co., Cal.—The Supervisors have instructed the County Surveyor to make a survey for the building of a lateral highway from Belvedere to join the State Highway at Alto Station.

FRESNO, Fresno Co., Cal.—The Fresno County Supervisors have appropriated $7,000 with which to build the $14,000 road north of Huntington Lake. Half of the cost will be borne by the County and the remainder by the Government. The proposed road will be about six miles long.

BAKERSFIELD, Kern Co., Cal.—The Bakersfield City Council will receive bids up to May 22nd for the construction of a sewer in Sewer District No. 36.

FAIRFIELD, Solano Co., Cal.—The Board of Supervisors has officially approved Supervisor Connelly's plan of building fifty miles of concrete highway in the western portion of the Third Road District and has ordered posted and published a notice of intention to proceed with the work.

This plan constitutes a method of permanent road building at a cost of $500,000, the money to be obtained by a bond issue on seven districts, including Suisun and Green Valley and the Benicia section. Action is being taken under the Act of 1907.

May 21st is the date set for a hearing and final action on the proposed work. The proposed concrete highways will be twelve feet wide.

STOCKTON, San Joaquin Co., Cal.—Considerable street paving will be done at Escalon this summer, according to action taken by the Board of Supervisors. The exact extent of the work has not yet been determined, but it will mean the expenditure of several thousand dollars. Bids will be called at the Board meeting, June 5th. The plans and specifications call for work on First, Main and Second streets.

REDWOOD CITY, San Mateo Co., Cal.—The County Supervisors have rejected all bids submitted for the driving of a tunnel for water supply at the County Hospital Grounds. New bids will be received on June 4th.

REDWOOD CITY, San Mateo Co., Cal.—At the last meeting of the County Supervisors action in awarding the contract for the building of the septic tanks at the county farm and hospital bids for which had been opened at the meeting of April 16th, was postponed for two weeks.

NAPA, Napa Co., Cal.—County Clerk N. W. Collins will receive bids up to June 13th, 10 A. M., for crushing fifteen hundred cubic yards of rock, at the Harris Quarry on the Sonoma Road. Rock to be crushed during the month of July, 1917, and placed in bunkers. County to accept the same in bunkers and take delivery at the rate of Sixty (60) Yards or more per day.

County to furnish rock, power, crusher and bunkers. Rock to be crushed from two (2) inches to fine.

MERCED, Merced Co., Cal.—The City Trustees have passed resolutions of intention preparatory to undertaking anew the street paving program which was recently ordered and then nullified by a technical flaw. The streets and alleys to be paved are the same as those included in the former plan, save for the alley of the one block having no established grade, which was the flaw in the previous plan. The following streets and alleys are included in the plan:

Streets—O from 16th to 22nd, K from 19th to 23rd, 22nd from O to M, J from 20th to 22nd.

Alleys in the following blocks—Nos. 73, 75, 85, 86, 87, 88, 108, 109, 110, 123, 124, 125, 126, 143, 144, 145, 146, 147, 165, 187, A and B.

J. H. Shafer of Los Angeles submitted the lowest bid for this work when bids were opened by the Trustees some time ago.

FRESNO, Fresno Co., Cal.—City Clerk W. H. Ryan will receive bids up to May 21st, 5 P. M., for the following work:

That Ventura avenue from "R" street to Angus street be graded, curbed and guttered with cement concrete curb and gutter, and paved with a pavement consisting of a 4-inch cement concrete ½ base and a 1½-inch Bitulithic wearing surface, and culverted with corrugated iron culverts.

Certified check of 10% payable to Mayor and City Clerk.

VISALIA, Tulare Co., Cal.—The Tulare County Supervisors will shortly call for bids for furnishing the county with three big auto trucks, which will be used in the construction of the county highway system.

EUREKA, Humboldt Co., Cal.—City Clerk J. P. Wunderlich will receive bids up to May 22nd, 8 P. M., for the following work:

That all of Buhne street, Fairfield street to O street, be graded.

That all of Garland street from Buhne street to the northern terminus of said Garland street, be graded.

That a concrete pipe culvert, 30 inches in diameter, 2½ inches thick, and 184 feet long, free from cracks and manufactured of first class material, one part cement and three parts sand, to be a first class concrete pipe in all respects, be placed in the bottom of the gulch, crossing Buhne street between "L" and "M" streets.

Contract Awarded.

MONTESANO, Wash.—The County Commissioners have let contracts for highway work as follows:

To Keasel & Co., Tacoma, for the Cosmopolis-North River Relocation at $21,551.

The construction of Highway No. 15 to Nels Johnson of Hoquiam, Wash., at $24,715.

Geo. D. Robertson is County Engineer.

YUMA, Ariz.—The O. & C. Construction Company, Fullerton, Cal., was the only bidder and will be awarded the contract at about $84,000 for paving Second avenue and First street, by grading, paving, curbing, etc. Work will start within a few days.

REDWOOD CITY, San Mateo Co., Cal.—The contract for the construction of the State highway on El Camino Real fronting Wellesley Park, in Redwood City, has been awarded by the San Mateo County Supervisors to the Federal Construction Co., Sharon Bldg., San Francisco, on their bid of $5,964.38. Four bids were received, the others being:

Tieslau Bros., $7,431.75.
Frank Bryant, $7,332.02.
Blanchard, Brown & Co., $7,169.62.
Jas. V. Neuman is County Surveyor.

COQUILLE, Ore.—The Coos County Highway Commissioners have awarded a contract to E. G. Perham for the construction of the Coquille-Marshfield section on his bid of $80,030.

The contract for the construction of the Bandon-Curry Section was awarded to Hagpuist & Bjorkquist of Marshfield, Ore., on their bid of $49,665.

EVERETT, Wash.—The H. J. Kaiser Paving Co., of Everett, has been awarded the contract for paving with concrete that section of the Snohomish County Highway, between Hartford and Granite Falls, on their bid of $64,300.

W. C. Bickford is County Engineer.

OAKLAND, Alameda Co., Cal.—The City Council has awarded a contract to Bernard Ransome, 28th and Poplar Sts., Oakland, for the following work:

That the following described portion of Avenal avenue be graded, curbed with redwood, guttered with a concrete gutter 3 feet wide, paved with oil-macadam and sidewalked with a cement sidewalk, six feet wide to-wit: beginning at the intersection of the SW line of Avenal avenue with the NW line of Seminary avenue; running thence along the NW line of Seminary aveue to a point distant 3 feet SW, measured at right angles, from the NE curb line of Avenal avenue; thence parallel to said NE curb line of Avenal avenue to a point distant 80 feet S, measured at right angles, from the N line of Bond street; thence parallel to the SW line of Avenal avenue; thence in a direct line to the point of beginning.

TUCSON, Ariz.—The Aubrey Investment Company was the lowest bidder and was awarded the contract for constructing Section B, Nogales road, in Pima county, a length of approximately 18¼ miles. R. Toohey & Sons, of Tuscon, were the only other bidders.

BAKERSFIELD, Kern Co., Cal.—At the last meeting of the Kern County Supervisors bids were opened as follows:

For the construction of Division No. 8 of Section No. 2 of the Old River-Maricopa road.

John D. Marsh, Los Angeles..$58,859.10
Rogers Bros. & Co., L. A..... 72,067.90
Geo. S. Benson & Sons, L. A.. 63,633.65

Contract awarded to John D. Marsh, Wilson Block, Los Angeles, or Box 211, Bakersfield, Cal.

TURLOCK, Stanislaus Co., Cal.—The California Paving Co., of Modesto, has been awarded a contract for the improvement of North First street and Geer avenue.

REDDING, Shasta Co., Cal.—The Chico Construction Co., 408 Broadway, Chico, has been awarded the contract by the Trustees for the paving of eight blocks. The company's bid was as follows:

Asphalting pavement, complete, 24½ cents per square foot; curb 41 cents a linear foot; gutters, 21 cents per square foot; culverts, $2.10 per linear foot.

The entire job will cost close to $50,000.

AUBURN, Placer Co., Cal.—At last night's meeting of the City Council Tibbitts Pacific Co., 16 California St., San Francisco, was awarded a contract for paving all the streets in the business section of the city. The contract price is $40,891.05.

MT. VERNON, Wash.—The County Commissioners have awarded a contract to the Skagit Construction Company, of Mt. Vernon, for the paving of Permanent Highway No. 3B with concrete, on its bid of $34,120. W. E. Costello is County Engineer.

STORES AND OFFICES.

SAN FRANCISCO—Store and lofts addition, 1 story. Class C construction, $6,000. Architect, William Wilde 46 Kearny street, S. F. Owner J. B. Reite, 110 Jessie street. Location, south Bush betwen Polk and Van Ness avenue. Plans complete and in the hands of the owner who will take sub-figures.

SAN FRANCISCO—Lofts, 2 story and base, brick or reinforced concrete. Cost not stated. Architect, Edward T. Foulkes, Crocker Bldg., S. F. Owner, George A. Webster. Location, north Sacramento between Drumm and Davis, covering an area of 60 by 120 feet. Plans are complete and figures are now being taken for both brick and reinforced concrete types of construction.

SAN FRANCISCO—Stores and lofts, 7 story and base, reinforced concrete. Cost not stated. Architects, Willis Polk & Co., Hobart Bldg., S. F. Owners, Regents of the University of California. Location, north Sutter street east of Kearny, covering an area of 103 by 137¼ feet. Plans are being prepared and when complete segregated figures will be taken.

SAN FRANCISCO—Stores, halls and offices, 3, 2 story and base, brick and steel, $60,000. Architect, none. Owners, Commercial Center Realty Co. Superintendent, R. W. Moller, Call-Post Bldg., S. F. Location, northeast Stockton and Green streets, covering an area of 87½ by 137½ feet. The first unit of this work is now under construction and the balance of the work will be started as soon as the first unit is completed.

SAN FRANCISCO — Stores alteration, 1 story, frame, $1,700. Architect, Bernard J. Joseph, Call-Post Bldg., S. F. Owner, B. Schapiro. Location, 1350 Polk street. Contract Awarded.

LOS ANGELES, CAL.—Theatre and stores, 2 story and base, reinforced concrete, $78,000. Architects, W. J. Dodd and William Richards, Brockman Bldg., L. A. Owners, Shirley Ward et al. Contractors, Winter & Nicholson, Marsh-Strong Bldg., L. A. Contract price, $78,000.

SEALED PROPOSALS.

NOTICE TO CONTRACTORS.

TREASURY DEPARTMENT, Supervising Architect's Office, Washington, D. C., May 4, 1917.—Sealed proposals will be opened in this office **at 3 p. m. June 13, 1917,** for the construction of the United States post office at Raton, N. Mex. Drawings and specifications may be obtained from the custodian of the site at Raton, N. Mex., or at this office in the discretion of the Supervising Architect. JAS. A. WETMORE, Acting Supervising Architect.

PROPOSALS FOR CEMENT.

CEMENT—Department of the Interior, U. S. Reclamation Service, Denver, Colo.—Sealed proposals will be received at the office of the United States Reclamation Service, Tramway Building, Denver, Colo., until **2 o'clock p. m. May 23, 1917,** and will at that hour be opened for furnishing 75,000 barrels of Portland cement, f. o. b. cars at the works of the bidder. For particulars address the U. S. Reclamation Service, Washington D. C., or Denver, Colo. R. F. WALTER, acting chief of construction.

PROPOSALS FOR CANAL SUPPLIES.

PANAMA CIRCULAR 1142 — Proposals for Gasoline and Kerosene.—Sealed proposals will be received at the office of the general purchasing officer, the Panama Canal, Washington D. C., until **10:30 a. m. May 21.**

1917, at which time they will be opened in public, for furnishing the above mentioned articles. Blanks and general information relating to this circular (No. 1142) may be obtained from the office or the offices of the assistant purchasing agent, Fort Mason, San Francisco, Cal.; also from the U. S. engineer offices in the principal cities. EARL I. BROWN, major, corps of engineers, U. S. army, general purchasing officer.

PROPOSALS FOR CRANES.

CRANES—Sealed proposals indorsed "Proposals for Shipbuilding Cranes" will be received at the bureau of yards and docks, Navy Department, Washington, D. C., until **11 o'clock a. m. May 28, 1917,** and then and there publicly opened, for furnishing four 15-ton traveling, revolving, hammerhead, shipbuilding cranes at the navy yard, Puget Sound, Wash. Specification (No. 2374) can be obtained on application to the bureau or to the commandant of the navy yard, Puget Sound, Wash. F. R. HARRIS, chief of bureau.

PROPOSALS FOR CANAL SUPPLIES.

PANAMA CIRCULAR 1144 — Proposals for Steel, Steel Rail, Steel Ties and Fittings, Steel Reinforcing Bars, Cast Iron Bollards, Mooring Rings, Spur Pinions, Manganese Steel Tumblers, Wire Rope, Chain, Steel Pipe, Bronze Doors, Paint and Putty Mixers, Electric Motor, Storage Batteries, Forges, Dishwashing Machine, Files, Saucepans, Drinking Glasses, Window Glass, Hose, Cheesecloth, Bond Paper, Sal Soda, Caustic Soda, White Zinc, White Lead, Red Lead, Turpentine, Varnish, Ochre, Creosoted Lumber and Untreated Piles.—Sealed proposals will be received at the office of the general purchasing officer, the Panama Canal, Washington, D. C., until **10:30 a. m. May 25, 1917,** at which time they will be opened in public, for furnishing the above mentioned articles. Blanks and information relating to this circular (No. 1144) may be obtained from this office or the office of the assistant purchasing agent, Fort Mason, San Francisco, Cal.; also from the United States engineer offices in the principal cities throughout the United States. EARL I. BROWN, major, corps of engineers, U. S. army, general purchasing officer.

PROPOSALS FOR AIR COMPRESSORS.

AIR COMPRESSORS—Sealed proposals indorsed "Proposals for Air Compressors at Various Navy Yards" will be received at the bureau of yards and docks, Navy Department, Washington, D. C., until **11 o'clock a. m. May 21, 1917,** and then and there publicly opened, for steam turbine-driven turbo and engine-driven reciprocating air compressors of capacities varying from 2,500 to 8,000 cubic feet per minute. Specifications (No. 2380) can be obtained on application to the bureau. F. R. HARRIS, chief of bureau.

PROPOSALS FOR GENERATORS.

GENERATORS—Sealed proposals indorsed "Proposals for Turbo-Generators for Various Yards" will be received at the bureau of yards and docks, Navy Department, Washington, D. C., until **11 o'clock a. m. May 21, 1917,** and then and there publicly opened, for furnishing and installing 500 and 750 k. w. turbo-generators and 2 500, 3,125, 3,750 and 4,375 k. v. a. turbo-alternators for the various navy yards. Specifications (No. 2379) can be obtained on application to the bureau. F. R. HARRIS, chief of bureau.

PROPOSALS FOR ELEVATOR.

ELEVATOR—Sealed proposals indorsed "Proposals for Hydropneumatic Freight Elevator for Pearl Harbor" will be received at the bureau of yards and docks, Navy Department, Washington, D. C., until **11 o'clock a. m. May 28, 1917,** and then and there publicly opened, for furnishing and delivering one hydropneumatic freight elevator, structural frame work and wire mesh inclosure complete at the naval station, Pearl Harbor, Hawaii. Drawing and specification (No. 2320) can be obtained on application to the bureau or to the commandant of the naval station named. F. R. HARRIS, chief of bureau.

NOTICE TO CONTRACTORS.

SEALED bids will be received at the office of Albers Bros. Milling Co., 332 Pine street, San Francisco, Cal., on or before **10 o'clock a. m. May 19th, 1917,** for the construction of a 6-story reinforced concrete Mill Building with Wheat Tanks 182′ 0″ by 62′ 0″, and Dock Building, located at the west end of Seventh street, Key Route Basin, City of Oakland, Cal., for Albers Bros. Milling Co.

Plans and specifications may be obtained at the office of the Engineer in charge of the work, R. M. Henningsen, on and after May 5th, at 311 Security Bank Bldg., Oakland, California.

The right is reserved by Albers Bros. Milling Co. to reject any and all bids. R. M. HENNINGSEN, Engineer in Charge of Construction.

STATE OF CALIFORNIA. DEPARTMENT OF ENGINEERING.

CALIFORNIA HIGHWAY COMMISSION

NOTICE TO CONTRACTORS.

SEALED PROPOSALS will be received at the office of **the California Highway Commission, 515 Forum Building, Sacramento, Cal., until 2 o'clock P. M. on May 28, 1917,** at which time they will be publicly opened and read for construction in accordance with the specifications therefor, to which special reference is made, portions of State highway as follows:

Yolo County, at Davis (III-Yol-6-A), an undergrade crossing with the Southern Pacific Railroad, including substructure for subway and about 1200 feet of Portland cement concrete pavement.

Solano County, between Batavia and Putah Creek (III-Sol-7-E), about 8.4 miles in length to be paved with Portland cement concrete.

Santa Barbara County, between Zaca Station and Los Alamos (V-S.B-2-C), about 9 miles in length to be paved with Portland cement concrete.

Tulare County, between ¼ mile west of Visalia and Tulare (VI-Tul-4-C), about 9 miles in length to be paved with Portland cement concrete.

Ventura County, between Santa Clara River and Ventura (VII-Ven-2-C), about 4 miles in length to be paved with Portland cement concrete.

Plans may be seen, and forms of proposals, bonds, contracts, and specifications may be obtained, at the said office, and they may be seen at the office of the Division Engineers at Los Angeles and San Francisco, and at the office of the Division Engineer of the division in which the work is situated. The Division Engineers offices are located at Willits, Dunsmuir, Sacramento, San Francisco, San Luis Obispo, Fresno, and Los Angeles.

No bid will be received unless it is made on a blank form furnished by the Commission. The special attention of prospective bidders is called to the "Notice to Contractors" annexed to the blank form of proposal, for full directions as to bidding, quantities of work to be done, etc.

The department of Engineering reserves the right to reject any or all bids or to accept the bid deemed for the best interests of the State.

NEWELL D. DARLINGTON,
CHARLES F. STERN,
HENRY J. WIDENMANN,
California Highway Commission.
AUSTIN B. FLETCHER,
Highway Engineer.
WILSON R. ELLIS,
Secretary. (*)

ALTURAS, Modoc Co., Cal.—The Nevada - California - Oregon Railroad Company, it is announced here, has signed a contract and a bond closing a deal with the citizens of Alturas for the establishment of general headquarters and machine shops of the company in this city.

In return the city has delivered to the company deeds to tracts of land desired by the latter, together with a $10,000 cash bonds promised by Alturas citizens.

The railroad company, it is understood, intends to begin construction work at once.

WASHINGTON, Yolo Co., Cal.—The school trustees have planned to open the bids for the new $30,000 school at a public meeting to be held at the town hall on Wednesday evening, May 9, at 8 p. m. Bids for the school furniture will be opened at another public meeting at the town hall at 2:30 p. m. on Friday, May 11.

Figures on wrecking the old school building were opened last Saturday by the school board. The best offer was a little more than $200 for the materials. The bid was held up pending a decision on the moving of the primary room to the town hall to be used as a storeroom.

CITY BIDS OPENED.

The following bids were received by the San Francisco Board of Public Works for furnishing and installing kitchen equipment in the northwest wing of the San Francisco Hospital:

	Prop. 1	Prop. 2
John G. Ills Co	$5,992.00	$5,542.00
Nathan, Dohrman Co.	5,870.15	5,398.15

Jas. Rankin & Sons	7,236	9,599
R. W. Littlefield	7,428	10,777

STOCKING MOUNTAIN RANGES TO THE LIMIT.

As part of the systematic campaign of the United States Department of Agriculture to increase the country's food supply the National Forest stock ranges are being gone over with a fine tooth comb to discover every acre available for summer grazing and the sheep and cattle to stock them.

For the last two years the Forest Service has devoted much time and money to promoting and developing the recreation use of the Forests. It was planned to continue this work aggressively this season, to improve camp grounds and to issue more maps. This will be postponed, however, until the successful termination of the war with Germany.

In many cases range areas hitherto reserved for campers' horses will be used to produce beef, mutton, and wool. The time of the Forest Rangers will be spent in aiding the stockmen to so develop the ranges that more stock can be carried. By means of co-operative work with the Live Stock Associations and the University of California, the Department hopes to have many thousand more cattle on the Forest ranges this season than last.

In the opinion of the Forest officers meat and men are more needed this season than vacations, and while travel for pleasure in the mountains will in no way be discouraged, the Forest officers agree that the camper will meet more cows than deer in the National Forests.

ALTURAS, Modoc Co., Cal.—Considerable interest is being taken here in the proposal to bond Modoc County for $300,000 to finance the building of a system of permanent county highways.

J. W. Cummings, a member of the Board of Supervisors, is taking an active part in furthering the proposed bond issue. A number of other well known citizens are also interested in the move.

Court Decision Rendered In Favor Of Architect.

A decision, rendered several months ago in the lower court, in the case of C. O. Clausen vs Mary Stein and T. Fett for the collection of architectural fees has been reversed by Judge Hunt's Court and Architect C. O. Clausen awarded judgment amounting to $275, the balance due him for furnishing plans and specifications on a three-story frame apartment house.

HYDROELECTRIC POSSIBILITIES IN INDIA.

MADRAS, INDIA.—Electrical authorities in India have often asserted that there are great difficulties in the way of developing large hydroelectric schemes here because of limited water-power facilities, but the Madras Times states that these claims are refuted by the testimony of a prominent engineer who declares that vast quantities of water could be stored in the Nilgiri Hills in Madras Presidency, where there is abundant rainfall for six months of the year, and that these storage lakes could be utilized for hydroelectric purposes. The following is an extract from the newspaper article referred to:

"Mr. B. B. Joyner, C. I. E., an engineer of wide experience in India, who designed and constructed the Tata Hydroelectric Works, was to have given evidence to the Industrial Commission at Bombay, but as the commissioners instead of going to Bombay, have 'gone into recess,' Mr. Joyner has obtained permission to give to the public the written evidence that he was going to present to the commissioners. It is very important, indeed. It is a declaration of the mighty water power that is available in India for the production of electric current, and a call to the Government to lead the way by starting a small establishment to encourage and develop the business, and also to undertake larger pioneer works.

"With its various mountains and ghats and its heavy rainfall, India is very favorably conditioned; and it must be remembered that water that is utilized for the production of electric power is not used up in the process, and could be further utilized for irrigation. Mr. Joyner writes:

Combined Power and Irrigation Projects.

"'As a practical instance of Indian possibilities I may mention the Nilgiri Hills, which present all the advantages and possibilities of a successful combined power and irrigation self-contained project. Here we have a hilly plateau 6,000 feet above the plains, with capacious water-tight valleys and a reliable rainfall extending over a period of about six months of the year, where storage lakes can be cheaply constructed, from which at least a 4,000-foot fall can be made available, thus requiring a comparatively small quantity of water to be stored, and so at a very small cost. One valley I estimate could give up to 70,000 horsepower, and there are other valleys from which combined an equal amount of power could be obtained. The power from these hills must be as cheap as, or probably much cheaper than, any other site in India known to me. There is a main line of railway at the foot of these hills with a branch to the top. The main line connects with harbors on the coast, about 120 miles off, and with Madras and the rest of India. There are extensive fertile plains at the foot, on which the rainfall is somewhat capricious and which would much benefit by irrigation. There is an important town not far off. Such a proposal, if carried out, must prove a source of prosperity to the promoters and greatly increase the welfare of the country. And there are most likely other such favorable sites in the south of India, where labor is cheap and coal impossible for power.'

"On the Western Ghats, on the Himalayas, and in all the other mountainous parts of India the water is merely waiting to be harnessed, and the Indian possibilities for every kind of industry are immense. It is an experienced engineer who writes all this; the prospects he holds out are golden indeed, and there is no reason for supposing that the gold is mere glitter."

Electricity for State of Cochin.

An earlier issue of the Madras Times contained the following item relative to the generation of electrical current from the waterfalls of the State of Cochin, in Madras Presidency:

"Some four or five years ago, when Mr. Bannerji, I. C. S., was Dewan of Cochin, it was thought possible that advantage could be taken of some waterfalls in the Cochin State for electrical purposes, and investigations were begun. The waterfalls are not absolutely perennial but they are in action for a number of months in the year, and it was thought that with a suitable storage the current could be maintained. The State's mechanical engineer, Mr. Wynyard Wright, who was working up the scheme, secured a commission shortly after the outbreak of the war, and the scheme was for a time hung up. We now learn that the Darbar have again got the scheme well in hand. The falls occur in the Chalakudi River some 20 miles from the Chalakudi railway station. The scheme is estimated to cost $650,000 to $800,000, and it is calculated that the power obtained would be sufficient for running the Shoranur-Ernakulam State Railway, for lighting the town of Trichur, and also for supplying power for the working of one or two mills. Mr. Bhore, I. C. S., the Dawan, has discussed the subject with Mr. Innes, the Director of Industries, and through the Madras Industrial Department he is now negotiating with Sir Dorab Tata for the loan of the services of an electric adviser who will advise the Darbar on the feasibility or otherwise of the scheme.

WAR SALARY ADJUSTMENTS AWAIT CONGRESS.

National Chamber Committee Advises Employers to Hold off Permanent Compensation Basis until Pending Legislation Has Been Voted Upon.

WASHINGTON, D. C.—It was the unanimous opinion of the National Chamber Committee which met here that employers should await the result of legislation now pending in Congress before making arrangements for the dependents of employees who enlist. Secretary Baker, as chairman of the Council of National Defense, had asked the Chamber of Commerce of the United States to ascertain the sentiment of the business men of the country in the matter of voluntary civilian assistance in the care of dependent families of men enlisting in the military and naval forces.

New Law Would Reduce Number of Dependents.

Secretary Goodwin said if the plan proposed in pending legislation for eliminating from all branches of the service married men and others who have persons dependent upon them, is carried out in law, the problem would be reduced to a minimum. The committee therefore decided that it should adjourn subject to the call of the chairman until legislation is enacted. In the meantime the suggestion is offered to all employers that no commitments to employees be made except of a temporary nature.

The meeting was of a preliminary nature to ascertain the views of members, to consider the magnitude of the problem, and to familiarize the committeemen with the experience of belligerent countries, upon which subject a careful memorandum or summary had been prepared.

The chairman of the committee is F. A. Seiberling, of Akron, Ohio. Mr. Sieberling is president of the Goodyear Tire and Rubber Company. The

members are: Charles L. Allen, of Worcester, Mass., general manager of the Norton Grinding Company; A. C. Bedford, president of the Standard Oil Company of New Jersey; George B. Foster, of Chicago, of the Commonwealth Edison Company; P. H. Gadsden, of Charleston, S. C., president of the Consolidated Railway and Lighting Company; Paul J. Kruesi, of Chattanooga, Tenn, treasurer and manager of the American Lava Company; Robert S. Lovett, of New York City, chairman of the executive committee, Union Pacific Railway Company; John L. Powell, of Wichita, Kan., president of the Johnston and Larimer Dry Goods Company; Eliot Wadsworth, of Washington, D. C., vice chairman, American Red Cross; and H. H. Westinghouse, of New York City, president of the Westinghouse Air Brake Company.

Following action by Congress, it is expected some uniform system for providing for dependents can be devised which will adequately take care of the situation. Such steps will be taken without delay.

TO URGE ALL HIGH SCHOOL BOYS TO HELP SOLVE THE FOOD PROBLEM.

To organize an agricultural army of all the boys between Oregon and Mexico, under the banner of National Defense, is the plan now taken up by the University of California.

There are twenty thousand boys in California who can plant a crop of immediate value during the present year as food supply for the nation and its friends abroad.

Already the University has enrolled two thousand bays in its crop-growing clubs, but within the next two weeks representatives from the University will visit every high school in California to enroll more boys in the National Agricultural Clubs for the growing of food for animals and men.

The plan is that every boy in California shall be encouraged to find a piece of land which would otherwise lie idle. The University will furnish instruction to any group of boys, organized for this purpose of growing crops, as to how to raise beans, potatoes, and sorghums. One boy on a single acre can grow enough beans to furnish all the beans needed for eighty average American families.

All planting for the present season should be done within the next few weeks.

Every boy who grows and markets his crop and turns in a certified statement to the University at the end of the season will receive a certificate showing his patriotic contribution to the welfare of the nation.

Moreover he can make money besides.

PRODUCTION OF ROCK PHOSPHATE INCREASING.

U. S. Geological Survey Gives Figures.

The production of rock phosphate in the United States, which was curtailed in 1914 and nearly cut in half in 1915, made a partial recovery in 1916. According to figures just compiled by the United States Geological Survey, Department of the Interior, from reports received from all active producers in the country, the total quantity of phosphate rock sold in the United States in 1916 was 1,982,385 long tons, valued at $5,896,993, as compared with 1,835,667 long tons, valued at $5,413,449, in 1915. This is only about two-thirds the normal production of the country.

The quantity of domestic rock phosphate exported in 1916 was 242,989 long tons, valued at $1,150,026, only 9,000 tons less than in 1915, but only about one-fifth of the quantity exported in 1913.

Florida produced 47,087 tons of hardrock phosphate (including several thousand tons of soft phosphate), valued at $295,755, and 1,468,758 tons of land-pebble phosphate, valued at $3,874,410, making a total of 1,515,845 tons, valued at $4,170,165. This was a decrease of 3,000 tons of hard-rock phosphate from the production of 1915, but the increase in price per ton made a gain of $30,000 over the total value of hard rock in 1915. There was a distinct increase in the quantity and value of land-pebble phosphate over the previous year.

South Carolina produced 53,047 tons, valued at $211,125, as compared with 83,460 tons, valued at $310,850, in 1915. This is less than one-half the quantity and value of the production of 1913.

Tennessee produced 364,108 tons of brown-rock phosphate, valued at $1,357,888, and 47,682 tons of blue-rock phosphate, valued at $152,465, making a total of 411,790 tons, valued at $1,510,353. These figures include a small quantity of brown-rock phosphate from Kentucky. This is an increase of about 22,000 tons over the production of 1915.

In the Western States there was a production of rock phosphate from Utah and Wyoming only, Idaho having dropped out of the list of producing States. The quantity produced in these two States in 1916 was 1,703 tons, valued at $5 350, or less than one-half the quantity and value of the output in 1915.

The advance in the price of phosphate in fertilizers so far in excess of the advance in the price of the raw phosphate rock is explained by fertilizer manufacturers as due to increased cost of sulphuric acid used in the treatment of the raw ground rock.

The country has just entered on a war the end of which can not be seen. Farmers will "do their bit" by trying to "grow two ears of corn where one grew before," and this means the application of great quantities of carefully chosen fertilizer to the soil. It is predicted that the partial recovery of the rock phosphate industry in 1916 will be followed by a greater gain in 1917.

HOW Can you expect to make money in the contracting business, unless you help to readjust existing conditions?

HOW Can you expect to have bids opened in public, unless you do something to bring it about?

HOW Can you expect to stop the peddling of bids, by simply talking about it?

HOW Can you expect your competitors to treat you right, if you don't treat them right?

RECEIVE FIGURES FOR MARE ISLAND WORK.

Frank Gallagher of S. F. Presented Lowest Bid for Laboratory Building At Mare Island Hospital.

(By Special Wire)

WASHINGTON, D. C., May 14, 1917—Ten sets of figures were opened today in the office of the Bureau of Yards and Docks for the construction of a one-story frame and concrete laboratory building at the Mare Island Hospital. Frank Gallagher, 180 Jessie street, San Francisco, presented the lowest bid for this work, but no contract has been awarded.

Laboratory Building.

MONEY PROVIDED FOR PHILIPPINE PUBLIC WORKS.

MANILA, P. I. The Secretary of Commerce and Communications, under the authority vested in him by Act 2704 of the Philippine Legislature which is the bill making appropriations for public works, has allotted $529,750 of the total appropriated in that measure to projects to be undertaken immediately. The funds are to be spent largely in road and bridge construction. The projects named in the allotment are:

Construction of a road in the Province of Pangasinan	$ 2,500
Maintenance of the Bauang-Ripsuan road, Province of La Union	5,000
Maintenance and reconstruction of the Aroroy mining road	3,500
Construction of first class road, bridges, and culverts, Novaleta-Cavite, in the Province of Cavite	25 750
Construction of first class road, bridges, and culverts, Pilli-Tigano, Province of Ambos Camarines	37,500
Construction of first class road, bridges, and culverts, Camp One-Aringay, Province of La Union	37,500
Construction of first class road, bridges, and culverts, Sambat-Nagcarlang, Province of La Laguna	37,500
Construction of first class road, bridges, and culverts, Bolbok railroad feeder, Provinces of Batangas and Tayabas	30,000
Construction of first class road, bridges, and culverts, Province of Occidental Negros	25,000
Construction of the Santa Maria Bridge, Province of Bulacan	17,500
Construction of first class road, bridges, and culverts, Concepcion-Mexico, Province of Tarlac	12,500
Construction of that part of the Concepcion-Mexico first class road, bridges, and culverts lying in the Province of Pampanga	12,500
Construction of a first class road, bridges, and culverts, Province of Zambales	7,500
Operation of a steamship launch for the Province of Palawan	4,000
Construction of a first class road, bridges, and culverts from Guimba, Province of Nueva Ecija, to Rosales, Province of Pangasinan	7,500
Construction of an interprovincial road, bridges, and culverts between Bangui, Province of Ilocos Norte, and Claveria, Province of Cagayan	12,500
Construction of an interprovincial road, bridges, and culverts between San Joaquin, Province of Iloilo, and San Jose, Province of Antique	25,000
Construction of an interprovincial road, bridges, and culverts between Arayat, Province of Pampanga, and Cabiao, Province of Nueva Ecija	15,000
Construction of an interprovincial road, bridges, and culverts, San Jose, Province of Neuva Ecija, and Imugen, Province of Nueva Vizcaya	50,000
Improvement of the port of Tacloban, Province of Leyte	37,500
Construction of a fender-pile system at the quarantine station, Mariveles, Province of Bataan	9,000
Completion of the Coron Wharf, Province of Palawan	2,500
Control of the Ango River, Hermosa, Province of Pangasinan	11,000
Construction of retaining walls for the Binondo Canal, city of Manila	37,500
Continuation of the port improvements of Iloilo	25,000
Improvements of the port of Cebu	37,500
Completion of retaining walls in the harbor of Vigan, Province of Ilocos Sur	1,500
Total	$529,750

The remainder of the appropriation will be made available later in the year. Work on the projects mentioned will be begun immediately. This construction will be carried on administratively under the direction of the Bureau of Public Works, with head offices in Manila.

LARGE PUMPING PLANTS PLANNED.

Natomas Company Will Spend $120,000 on Irrigation System.

Among the recent applications to appropriate water granted by the State Water Commission the most important is that allowing the Natomas Company of San Francisco to appropriate 50 cubic fet per second of the waters of the Sacramento River at a point in Sacramento county for the irrigation of 6,600 acres, by means of a pumping plant, a main ditch five and a half miles long and 17 miles of laterals. The cost of the irrigation system is placed at $120,000.

The water commission also granted the following permits for appropriations of water in northern California:

The Farm Lands Investment Company of San Francisco, 100 cubic feet per second of the waters of the Yuba and Feather rivers for rice irrigation by means of a series of three pumping plants and seven miles of ditches conducting the water to 7152 acres at a cost of $31,000. The same company, 150 second feet of Feather River and Plumas and Messick lakes, in Yuba county, by means of three pumping plants and six miles of main canals for the irrigation of 6163 acres at a like expenditure.

J. R. Catlett of Pleasant Grove, 7½ cubic feet per second of the east bypass of reclamation district No. 1001 at the crossing at Auburn ravine in Sutter county. The works consist of a removable dam and a canal 1½ miles in length for irrigation of 960 acres.

Eugene Rutherford of Gridley, 10 cubic feet per second of an unnamed slough tributary to Hamilton slough in Butte county for the irrigation of rice. A main ditch 2.4 miles long carries the water to 560 acres; the estimated cost of the works being $2000.

Margaret J. Pullen of Sacramento 1¼ cubic feet per second of Secret ravine in Placer county for the irrigation of 65 acres by means of a pumping plant.

T. M. O'Keefe of Palo Cedro, 14.42 cubic feet per second of Main Cow creek tributary to Sacramento river in Shasta county, for the irrigation of 1442 acres. There is a rock and timber dam four feet high and 200 feet long and a main canal and branch canal eight miles in length. The estimated cost is given as $10,000.

ADVANCE NEWS

Official Proposals, Etc.

APARTMENT HOUSES.

SAN FRANCISCO — Apartment house, 7 story and base, reinforced concrete, $150,000. Architects, Heiman & Schwartz, 212 Stockton street, S. F. Owners, Lafayette Realty Co. Location, southwest Sacramento and Gough streets, covering an area of 100 by 120 feet. Will contain fourteen apartments of six rooms. Plans revised and segregated figures being taken.

SAN FRANCISCO — Apartment house, 3 story and base, frame, $30,000. Architects, Rousseau & Rousseau, 110 Sutter street, S. F. Owner, William G. Gilmour, 110 Sutter street. Location, southwest Washington and Leavenworth, covering an area of 60 by 61 feet. Will contain 17 apartments of three and four rooms. Plans complete and work to be done by Day Labor.

SAN FRANCISCO — Apartment house, 6 story and base, reinforced concrete, $150,000. Architects, Rousseau & Rousseau, 110 Sutter street, S. F. Owner, Mr. Brandt. Location, northwest Sutter and Octavia streets. Will contain a large number of two, three and four room apartments. Plans complete and segregated figures being taken.

SAN FRANCISCO — Apartment house, 4 story and base, Class C construction. Cost not stated. Architect, John Powers, 460 Montgomery street, S. F. Owner's name not given. Location Hyde street. Will contain a number of two, three and four room apartments. Plans are being prepared.

OAKLAND, CAL.—Apartment house and stores, 2 story and base, frame, $8,000. Architect, none. Owner, H. S. Pratt, 1015 Glendora avenue, Oakland. Location, southeast corner 40th and Shafter. Will contain one store and eleven apartments. Plans complete and work to be done by Day Labor..

PASADENA, LOS ANGELES CO., CAL.—Apartment house, 2 story and base, frame, $25,000. Architect, Alfred W. Hookway. Location, South Los Robles avenue, covering an area of 43 by 70 feet. Plans complete and work to be done by Day Labor.

NORTH YAKIMA, WASH.—Apartment house 3 story and base, brick, $70,000. Architects, Charles Bebb and Carl Gould, Securities Bldg., Seattle. Owners, Callahan Bros. Details of construction have not been given out. Plans are to be prepared and turned over to the owners who will let all contracts.

BANKS.

FRESNO, FRESNO CO., CAL.—Bank alterations. Cost not stated. Architect's name not given. The Union National Bank has purchased from C. R. Puckhaber, vice president of the bank, the building on Mariposa street between I and J streets. The building, which is two stories, 50 by 96 feet, will be remodeled and the banking quarters enlarged. Plans have been prepared.

PLACER CO., CAL.—Bank, 1 story and base, reinforced concrete, $10,000. Architect, Frank S. Holland, Call-Post Bldg., S. F. Owner's name not given. Will contain banking rooms, offices and safe deposit vaults. Exterior cement plaster. Plans are being prepared.

BONDS.

LUGO, LOS ANGELES CO., CAL.—A special election will be held in the Lugo School District, near Lynwood, on May 27, 1917, for the purpose of voting bonds in the sum of $30,000 for erection of a new grammar school building. It will contain about six rooms and an auditorium.

GUERNEVILLE, SONOMA CO., CAL—For the second time the election held to vote $12,500 for a new school failed to carry.

FRESNO, FRESNO CO., CAL.—The $35,000 bond issue of the Manning School District has been sold to the Bank of Italy at a premium of $110.35.

RIVERSIDE, RIVERSIDE CO., CAL.—The $43,000 bond issue of the Palo Verde Union High School District, was purchased by the Security Savings Bank of Riverside at par, accrued interest, and a premium of $125.

LEMON COVE SCHOOL DISTRICT FRESNO CO., CAL.—Bonds of $13,500 have been voted and proceeds will finance the construction of a new grammar school.

ROBLA SCHOOL DISTRICT, SACRAMENTO CO., CAL.—An election will be held June 2nd in the Robla School District to vote bonds of $6,000 with which to raise funds for a new school building.

LORENA SCHOOL DISTRICT, FRESNO CO., CAL.—An election will be held in the Lorena School District May 26th to vote bonds of $12,000 with which to finance the construction of a new school building.

RICHMOND, CONTRA COSTA CO., CAL.—The playground and bath house bond issues have been turned down by the voters. The issue provided $250,000—$70 000 of which was for a bath house and $180,000 for the purchase of playgrounds and equipment.

TURLOCK, STANISLAUS CO., CAL.—The Supervisors have sold the $65,000 bond issue of the Turlock Union High School District and construction on the new building to be erected will be ordered shortly. Plans were prepared by Stone & Wright of Stockton.

RIVERSIDE, RIVERSIDE CO., CAL.—The School Board has voted to call an election to vote bonds of $50,000 for the erection of a new Arlington School and for the completion of the Fremont and Longfellow School additions. Architects, Lester S. Moore and G. Stanley Wilson, 598 Blaine St., Riverside, have presented plans for the proposed Arlington structure.

LOS ANGELES, CAL.—Bids will be received by the Board of Supervisors up to 2 p. m. of May 21, for the purchase of $30,000 bonds of the Hyde Park School District. The issue is dated May 1, 1917 and bear interest at 5 per cent. Certified or cashier's check for 3 per cent required. A. M. McPherron is clerk.

FRESNO, FRESNO CO., CAL.—Bids will be received by the Board of Supervisors up to 10 a. m. of June 4, for the purchase of $6,000 bonds of the Bowerbank School District. D. M. Barnwell is clerk of the Board.

MODESTO, Stanislaus Co., Cal.—Four bond propositions for municipal improvement, which failed by a technicality to carry at the regular election April 10, will be placed before the voters at a special election to be called in the near future. This was decided upon at a meeting of the city Council recently. The four proposals are: $40,000 for paving street intersections; $30,000 for storm sewer; $15,000 for extension of the sanitary sewer system, and $5,000 for extension of the water system. The proposal of $10,000 for a municipal swimming pool was obviously opposed by a majority of the voters at the last election, and will not again be submitted.

TOMBSTONE, Ariz.—Cochise County will hold a bond election soon to vote on an issue of $1,000,000 for county highway work. The proposed work will include the paving of a road between Bisbee and Douglas, and from Bisbee through Tombstone to the Pima County line.

SOUTH BEND, Wash.—The County Commissioners have decided to place the proposition before the voters on June 12th at a special election of issuing bonds in the sum of $280,000 for the construction of permanent highways throughout the county. C. S. B. Henry is County Engineer and will have charge of the construction details.

ANDERSON, Shasta Co., Cal.—The election held by the Anderson-Cottonwood Irrigation District to vote bonds of $575,000 with which to complete work on the District carried.

MERCED, Merced Co., Cal.—The Supervisors of Merced County are planning to call an election to vote on an issue of $1,000,000 bonds to provide a system of roads.

KINGMAN, Mohave Co., Ariz.—An election will be held within a short

time to vote on a bond issue of $200,000 constructing roads, bridges, and culverts, in Mohave County.

SUSANVILLE, Lassen Co., Cal. — Bonds of $310,000 have been voted by the Baxter Creek Irrigation District.

The District comprises 8,000 acres ten miles from this city.

The $310,000 is to be used in constructing canals, acquiring rights of way and water rights.

BRIDGES AND DAMS.

WILLOWS, Glenn Co., Cal.—T. H. Polk of Chico submitted the lowest bid for the construction of the Sprague Bridge in Glenn County and it is probable that he will be awarded the contract. Polk's bid was $3,474.

RICHVALE, Butte Co., Cal.—Bids will be received by the Directors of Drainage District No. 100 of Butte County, at their office in Richvale, up to May 30th, 7.30 P. M., for the construction of 11 concrete abutments, wood floor bridge and for furnishing other materials for use in the District.

J. G. Rystrom is President and Clay B. Harris, Secretary of the District.

WILLOWS, Glenn Co., Cal.—The County Supervisors have rejected all bids submitted for the construction of the Sprague Bridge and County Surveyor Bayard Knock has been instructed to call for new bids.

FAIRFIELD, Solano Co., Cal. — County Clerk G. G. Halliday will receive bids up to June 4th, 11 A. M., for the construction of a reinforced concrete arch bridge over Pleasant Valley Creek on Road No. 293, Vacaville Township, Road District No. 4 in Solano County.

Certified check of 10% payable to D. M. Fleming, Chairman of the Board of Supervisors.

NEWPORT BEACH, Orange Co., Cal. —Bids will be received by the Board of Trustees of Newport Beach up to 7:30 P. M. on June 4, 1917, for furnishing all labor and material for the construction of a stone jetty at Newport Harbor in accordance with plans and specifications which may be obtained at the office of Leeds& Barnard, Consulting Engineers, 1103 Central Bldg., Los Angeles. The work will require about 45,000 to 50,000 tons of stone ranging from small rocks up to stones of six tons each. There is about $80 000 available for the work. The jetty will be about 1,800 feet long and average about 13 feet in height.

MT. VERNON, Wash. — Will R. Arges, County Auditor, will receive bids up to June 5th for the construction of concrete piers, retimbering and rebuilding wooden spans and approaches of a draw span bridge over the Skagit River at Mt. Vernon, Wash. Plans may be had of the County Engineer, W. E. Costello, or of Bowerman & McCloy, Mutual Life Bldg., Seattle Consulting Engineer.

SAN ANDREAS, Calaveras Co., Cal. —A. W. Poe, County Clerk, San Andreas, will receive bids up to June 4th, 1 P. M., for furnishing all material and labor for the construction complete of a Reinforced Concrete Bridge over Six Mile Creek, on the main county road leading from Angels Camp to the town of Vallecito; a reinforced concrete bridge over Vallecito Creek in the town of Vallecito, and a reinforced concrete bridge over Black Creek on the main county road leading from the town of Copperopolis to O'Byrnes Ferry.

EUGENE, Ore.—Stacy M. Russell, Clerk of Lane County, will receive bids up to May 31st, 1 P. M., for the construction of the following bridges, in accordance with plans and specifications on file in office of the county clerk. Each bid must name a lump sum and be accompanied by a check for 5 per cent of bid.

Gallagher bridge, in sec. 1, tp. 17, S. R. 4 W., W. M., a 45-foot wood span with concrete piers.

Stafford bridge, in sec. 3, tp. 17 S., R. 2 W., W. M., an 85-foot wood span with concrete piers and 165 feet of approaches.

Paschelke bridge, in sec. 8, tp. 16 S., R. 1 W., W. M., a 64-foot wood span with concrete piers and 45 feet of approach.

Shortridge bridge, in sec. 28, tp. 21 S., R. 3 W., W. M., a 100-foot wood span with concrete piers and 135 feet of aproaches.

Culvert over millrace in sec. 32, tp. 20 S., R. 3 W., W. M., a reinforced concrete culvert of four-foot span.

FRESNO, Fresno Co., Cal.—The Supervisors of Madera and Fresno Counties will co-operate in rebuilding the Old Lane's Bridge. The cost will probably range from $3,000 to $5.000.

RED BLUFF, Tehama Co., Cal.—The Supervisors will shortly call for bids for paving the Kauffman causeway its entire length. The work will cost about $9,000.

Two kinds of specifications are to be bid on. One is known as the Gridley pavement, similar in some respects to the Main street pavement and the other as the Topeka pavement, recommended by the state highway commission.

EUREKA, Humboldt Co., Cal.—Plans for a $65,000 steel bridge which will span the Eel River at Alderpoint on the main traveled county road leading south, have been ordered prepared by the County Supervisors. The bridge will be 650 feet long, the main span being about 450 feet in length and two shorter spans will complete the gap at each end. A. J. Logan is County Engineer.

Contract Awarded.

SEATTLE, Wash.—The Puget Sound Bridge & Dredging Co., Central Bldg., Seattle, has been awarded the contract for dredging and making a fill in Salmon Bay for the Port of Seattle Commission on their bid of $28,600. (15510) 1st report Apr. 23; 2nd May

LOS ANGELES, CAL. — Garage, 1 story and base, brick, $21,000. Architect, A. C. Martin, Higgins Bldg., L. A. Owners, Roman Catholic Church. Contractor, J. V. McNeill, Wesley Roberts Bldg., L. A. Contract price, $21,000.

GOVERNMENT WORK & SUPPLIES.

Wooden Vessels.

Official announcement is made that the Government will build an enormous number of wooden ships within the next eighteen months and that Gen. Goethals will sign contracts for them as soon as the shipping bill becomes a law.

This disposes of the persistent story that Gen. Goethals so violently opposed the wooden ship plan of the shipping board for thwarting Germany's submarine campaign that he would effect an abandonment of the scheme.

William Denman, chairman of the shipping board, authorized the following statement:

"The wooden ship scheme being definitely underway and satisfactorily progressing, the board and Gen. Goethals have turned to the stimulation of steel ship building. Undoubtedly the stories concerning the abandonment of the wooden ship plan arose from the fact that having nothing more to say about the wooden ships we have talked nothing but steel.

"The wooden ship plan will be carried on as originally conceived. The board never at any time has given out a statement in which it anticipated the number of wooden ships it would be possible to build. It is confidently expected, however, that in eighteen months there will be turned out an enormous wooden tonnage. We hope in the same period to turn out an even larger steel tonnage.

"Many experts believe that if we do not do this Germany will win the war.

"The board welcomes intelligent criticism, but it considers unpatriotic a statement concerning its policy which is untrue and about which the person making it has not had the candor to ask the board whether or not it is true."

Pauwala Point Light Station, Repairs.

The bid of Allen & Robinson, Ltd., Honolulu, H. T., $800 in amount, has been accepted for making repairs to the Pauwala Point light station.

San Diego, Cal., Painting.

Bids for painting at the U. S. quarantine station, San Diego, Cal., were received recently by the custodian, as follows:

IRRIGATION PROJECTS.

STOCKTON, San Joaquin Co., Cal.—The Board of Directors of the South San Joaquin Irrigation District has instructed Chief Engineer Griffin to call for bids to close June 12th, 10 A. M., for the construction of auxiliary dams at the Woodward reservoir.

APPLICATIONS TO STATE WATER COMMISSION.

Applications have been filed with the State Water Commission for permission to use water as follows:

C. E. Reische of Meridian, 3300 gallons per minute of waters of Sacramento river for the irrigation of 63 acres by means of a electrically driven pump. A ditch ¾ of a mile long is proposed to conduct the water to the land.

City of Montague, 2 cubic feet per second of the waters of Shasta River in that county for municipal supply.

W. N. Walker of Likeley, Modoc county, 30 miner's inches of south fork of Pit river for the irrigation of 38 acres. Applicant proposes to conduct the water through a ditch some five miles long to a lateral 6400 feet long and through the same main ditch two miles further into another lateral 2200 feet in length.

Horne Development Company of Auburn, 20 second feet or 11000 acre feet of the waters of Painter Creek and Buckhorn Creek in Lassen county for the irrigation of 9055 acres. A reservoir is planned on each stream. On Buckhorn Creek the proposed dam is 45 feet high, 360 feet long on top and 120 feet at bottom; on Painter Creek the proposed dam is 50 feet high, 492 feet on top and 160 feet at bottom, both to be earth fill type of local black adobe. The estimated cost of the project is given as $71,000.

Fred Laux, Jr. of Stonyford, four cubic feet per second of Stony Creek tributary to Sacramento river in Colusa county for the irrigation of 123 acres by means of a pumping plant and main ditch a mile long at a cost of $2000.

POWER PLANTS.

REDDING, Shasta Co., Cal.—F. G. Baum, chief engineer of the Pacific Gas and Electric, and Grover Green, resident engineer, left here with a party of surveyors for the Big Bend of the Pit River to begin at once surveys and prepare detail work for the company's power plant project, on which $17,500,000 is to be spent.

McMINNVILLE, Ore.—Bids will be received by the Water & Lighting Commission, until June 4th for the construction of the pipe line and head works for the Haskins Creek water supply to be constructed here for which bonds in the sum of $90,000 were recently voted.

The work will include the furnishing of labor and materials for the construction of approximately ten miles of 12-inch water pipe line, together with a small concrete diversion dam to be built for the headworks.

R. W. Jones is City Engineer.

RAILROAD CONSTRUCTION AND EQUIPMENT.

ALTURAS, MODOC CO., CAL.—Railroad terminal, 5, 1 and 3 story, brick and concrete, $125,000. Architect not selected. Owners, Nevada-California-Oregon Railroad Co., R. M. Cox, General Manager, Reno. The work will include administration building, car shop, round house, blacksmith shop and car repair shop. Bliss & Faville, Carl Werner, and F. J. De Longchamps have submitted plans.

LOS ANGELES, CAL.—Freight terminal. Cost as follows. Engineer's name not given. The Salt Lake Railway Company has acquired a site of 20 acres between Hunter and Eighth streets, and Alameda and Lemon Sts., upon which it proposes to establish a new and commodious freight terminal if a franchise for a steam railroad can be secured from the city council. It is estimated that the railway company will expend about $3,000,000 in the construction of new trackage and the erection of fireproof concrete buildings.

SAN FRANCISCO—H. S. Tittle, 245 Minna street, San Francisco, submitted the lowest bid to the San Francisco Board of Public Works for furnishing electrical conductors for use in the Municipal Railway System (Church Street Line) and it is probable that he will be awarded the contract on his bid of $6,876.

HELENA, Montana The Montanan Southern Railway, to be built from Divide in Silver Bow County, up the Wise and Big Hole rivers to Wisdom and Ralston in the Beaver Head County, at a cost of one million dollars, has been incorporated here by citizens of Butte.

The Kings Lake Shore Railroad Company, which was incorporated a week ago to build a standard gauge railroad from a junction with the Santa Fe railroad line at Corcoran, Kings County, 21 miles to Kings Lake, has filed with the Railroad Commission an application for authority to issue $298,500 capital stock, $22,000 for rights of way, and $264,000 stock for grading and building the road and purchasing materials and equipment for it, including rolling stock; $10,000 stock to Charles King for promotion and supervision services, as also five shares to directors.

The company was incorporated on May 7 last for $500,000, and the stock divided into 5,000 shares of a par value of $100 each, of which $22,000 has been actually subscribed. Charles King, who is president of the company, lives in Hardwick, Kings county, and J. L. C. Irwin is secretary. The application does not state the purpose of the road, but it is understood that it intends to develop an agricultural country.

RESIDENCES.

SAN FRANCISCO — Residence, 2 story and base, frame, $5 000. Architect, Charles F. Strothoff, 2276 15th street, S. F. Owner, Paul C. Butte, 3701 Clay street. PORTLAND, Ore.—The Warren Construction Co., Portland, submitted the lowest bid for the improvement of Powell street as a district and they will probably be awarded the contract. The bid follows: Bitulithic, $1.85 sq. yd., basalt blocks in track, $2.75 sq. yd., and concrete, $1.40 sq. yd., $26,-352.18.

SEATTLE, Wash.—The King County Commissioners will receive bids up to June 11th, for the paving of approximately five miles of highway between Houghton, Medina and Bellevue, to cost between $75,000 and $115,000, according to the class of surfacing selected.

Specifications will call for brick block, monotithic brick or standard concrete paving. The road will be twenty feet wide.

MODESTO, Stanislaus Co., Cal.—No bids were received by the Board of Supervisors on May 15th for the construction of the Hickman Road, approximately 2.882 miles, or for constructing approximately 8.222 miles of road known as the Waterford Road.

County Clerk Benson could not say what action would be taken by the Board of Supervisors.

MARTINEZ, Contra Costa Co., Cal. The Supervisors have instructed County Surveyor to prepare plans and specifications for the county highway to be constructed by way of Bay Point, beginning at the Town of Concord and running by the way of Bay Point to the City of Pittsburg. Bids for this section will be called shortly.

STOCKTON, San Joaquin Co., Cal.—The City Council has approved plans and specifications for the improvement of the streets and sidewalks in the Villa Addition.

The streets to be improved are Hazel, Laurel and Ash streets, from Mormon avenue to Lafayette street, inclusive, and Mormon avenue, Hazelton avenue, Church, Sonora and Lafayette streets from Hazel to Ash streets, inclusive. The pavement will be bitulithic. The estimated cost of the work is $40,619.74.

CALIPATRIA, Imperial Co., Cal. Bids will be received by the Northend Water Company up to 12 o'clock, noon, of May 28, for the construction of a spillway and intake complete, with piers, bridging and operating machinery for the Northend dam, about three miles southwest of Calipatria. The work will involve excavation, furnishing and driving piles and sheet piles, constructing concrete foundations, timber floors, gate, machinery, etc. Specifications may be obtained from the office of the company or from A. L. Sondregger, 600 Central Bldg., Los Angeles. Deposit of $10 for each set of plans and specifications required. Certified check for $5000 must accompany each bid. Victor R. Sterling is secretary of the company.

TAFT, Kern Co., Cal.—The City Trustees are receiving bids for furnishing vitrified pipe for use in extending the sewers of the city.

The pipe to be used in the fire lines is to stand a high pressure. It is to be used in extending the lines to protect the new $60,000 high school.

The sewer lines are to be extended also to connect with the high school sewer system. In the neighborhood of 5000 feet of 4-inch pipe is needed for the fire lines and about 2,500 feet of vitrified pipe for the sewer connections.

LOS ANGELES, Cal.—New bids will be received by the Board of Supervisors up to 2 P. M. of June 11, 1917, for furnishing all labor and material for the construction of a sewer system at the county farm near Downey. The contract was previously awarded to J. P. Hunter, who withdrew his bid of $11,400 because the appropriation for the work would not be available for several months.

MODESTO, Stanislaus Co., Cal.—County Clerk Benson states that bids will be re-advertised for on the construction of approximately 11.288 miles of county highway and will be opened on June 12th at 10 A. M. This work includes the Waterford Road and the Hickman Road. No bids for this work were received on May 15th. (14677) 1st report Mar. 21; 4th May

OAKLAND, Cal.—The City Engineer has been instructed to prepare plans and specifications for the various street improvements to be undertaken before the close of the year, the cost of which is estimated at $200,000. The following streets are included in the work:

Fallon, from Seventh to Tenth; Madison, from Tenth to Twelfth; Twenty-third avenue, south of the Southern Pacific right of way to the tidal canal; Twenty-seventh, from Telegraph to Grove; Fourteenth street, from Market to Peralta; Tenth street, from Jefferson to Market; Twenty-fifth street, from San Pablo avenue to Grove street and Twenty-ninth avenue from the Southern Pacific right of way to East Fourteenth street.

The specifications will call for standard paving on all the streets except Twenty-ninth avenue, which will be done with oil macadam.

NAPA, Napa Co., Cal.—City Clerk David C. Scribner, will receive bids up to 7:30 P. M., May 28th, for the following work:

That cement concrete curbs and sidewalks be laid down on both sides of Main street from the southerly curb line of Pearl street to a point 243 feet southerly from the southerly line of said Pearl street.

Also that a cement concrete round corner be constructed on the SE corner of the intersection of said Main and Pearl streets.

NAPA, Napa Co., Cal.—The County Supervisors have ordered bids received for the construction of the Napa County highway between Greenwood Hill and the Solano County line. The estimate of County Engineer O. H. Buckman is $68,000. Plans provide for a concrete road 18 feet wide, and for the building of bridges, culverts, etc.

RED BLUFF, Tehama Co., Cal.—The Supervisors will shortly call for bids for the installation of a lighting system for the Kauffman causeway. Specifications provide for a system of 12 electroliers each to carry 600 C. P. The estimate cost is placed at $2,000.

EUREKA, Humboldt Co., Cal.—The Western Motor Draying Co., 373 Noe street, San Francisco, submitted the only bid to the County Supervisors for surfacing the Ferndale-Waddington road with Western Roadalite. The bid, which was taken under advisement, was 3½ cents a square foot for surfacing, 50 cents a cubic yard for excavations, $2.25 a cubic yard for gravelling and 75 cents a cubic yard for excavating for culverts.

STOCKTON, San Joaquin Co., Cal.—The City Clerk will receive bids up to May 25th, 10 A. M., for the construction of a vitrified concrete sewer on El Dorado street, between Worth and South streets, and on Grant street between Miner avenue and Oak street.

SAN FRANCISCO, Cal.—W. J. and E. Schmidt of Berkeley submitted the lowest bid to the Board of Public Works for the construction of Section "A" of the Marina Boulevard, at $36,-488.34, but the certified check accompanying the bid did not equal 10% and it is now probable that the contract will go to the second lowest bidder, F. R. Ritchie, whose bid was $36,-762.56.

AUBURN, Placer Co., Cal.—The Tibbitts-Pacific Co., 16 California St., San Francisco, has lost the contract for paving the business streets of Auburn, because of a flaw in the specifications. The company's bid was $41,891. New proceedings will have to be started which will mean a delay of sixty days.

(11157) 1st report Feb. 23, 4th May

PORT ANGELES, Wash.—Bids will be received by City Clerk J. L. Beam, up to May 29th, for paving 2nd and 3rd streets, et al, with concrete.

The work involves the following:

Second street et al., concrete paving, 5175 sq. yds., 16,000 ft. bridge timber, 5,000 cu. yds. of earthwork and 8 and 18-inch sewer pipe; 3rd street et al., concrete pavement, 6,600 sq. yds., 2,500 ft. concrete curb, 1,200 ft. sewer pipe, 11,000 ft. wood walks, 9,000 ft. form lumber, 1,200 cu. yds. earth work, 400 sq. yds. triangle reinforcing mesh.

F. E. Semon is City Engineer.

RICHMOND, Contra Costa Co., Cal.—City Clerk A. C. Faris will receive bids up to May 28th, 8 P. M., for the following work: That a portion of Garrard Boulevard bet. the extension westerly of the southerly line of Ohio avenue and the extension southeasterly of the southwesterly line of Standard avenue, and a portion of Standard avenue between the northwesterly line of Garrard Boulevard and the extension northeasterly of the southeasterly line of Railroad avenue, be graded, paved with six-inch cement concrete base with a paint coat wearing surface of asphalt and stone screen ngs.

That portions of the existing gutters be removed, and that a concrete catch basin be constructed, and that the existing wing walls at the culvert at Maine avenue, be reconstructed.

PASADENA, Los Angeles Co., Cal.—Bids will be received by the City Clerk up to 10 A. M., May 25, 1917, for furnishing the city one 2½-ton 4-cylinder motor truck per the following specifications: Standard chassis; loading space back of seat 12 feet; motor 4 cylinder enclosed type, water cooled, equipped with centrifugal pump; ignition, Bosch high tension, or its equivalent; worm drive; tires of the pressed-on type, front, single 34"x4", rear dual 34"x4"; brake, band 3"; Miller carburetor, or its equivalent, equipped for burning distillate; radiator, spring suspension; body, size 5'x12'x30" with 10" flare board, and otherwise to be similar to the motor truck now in use by the City of Pasadena, bearing State License No. E-753, which motor truck will be subject to inspection any day between 1 and 5 o'clock P. M. at the Municipal incinerator on South Raymond avenue in the City of Pasadena.

SAN JOSE, Santa Clara Co., Cal.—The Supervisors are considering the construction of a road to be known as the "'Bodfish Canyon Road." This road, when constructed, will shorten the distance between Gilroy and Watsonville by six miles.

OLYMPIA, Wash.—The State Highway Commission has rejected bids for the following highway improvements:

Bridge over Coweeman River, Cowlitz County.

Bridge over Kalama River, Cowlitz County.

Clearing and grubing, Olympic Highway, twelve miles from Lake Quinault northwest.

HIGHWAY BIDS OPENED.

(By Special Wire)

SACRAMENTO, Cal.—The following is a list of the lowest bidders on highway work opened by the State Highway Commission, Monday. No awards were made:

Alameda County from Santa Rita to Dublin (IV-Ala-5-B), about 3.2 miles in length, to be paved with Portland cement concrete.

Bates, Borland & Ayer, Oakland Bank of Savings Bldg., Oakland, $29,306.

Engineer's estimate, $36,154.85.

Solano County, from westerly boundary to Cordelia (III-Sol-8-A), about 3.46 miles in length, to be paved with Portland cement concrete.

Harlan & Harlan of Williams, Cal., $26,976.75.

Engineer's estimate, $35,624.13.

Siskiyou County, three reinforced concrete bridges, across Little Castle Creek, Greenhorn Creek, and Yreka Creek (I-Sis-3-A & B), being respectively 84 feet, long, 6 feet long, and 42 feet long.

John H. May of Napa, $6,525.

Engineer's estimate, $7,979.62.

Santa Barbara County, from Las Cruces to Gaviota Pass (V-S.B.-2-E), about 2.9 miles in length, to be graded.

Ira Hopson of San Luis Obispo, Cal., $59,949.83.

Engineer's estimate, $68,146.76.

Los Angeles County, from Castaic to Castaic School (VII-L.A.-4-A), about 4.1 miles in length, to be paved with Portland cement concrete.

Brashear-Burns Co., of Hollywood, Cal., $28,093.30.

Engineer's estimate, $34,323.13.

(15401) 1st report Apr. 19, 1917.

Contract Awarded.

WENATCHEE, Wash.—The County Commissioners have awarded a contract to C. M. Payne of Spokane, Wash., for the paving of 12,423 yards of Permanent Highway No. 9, between Wenatchee and Monitor, with one course concrete, on a bid of $19,600.

STOCKTON, San Joaquin Co., Cal.—Clark & Henery, 38 S-Sutter St., Stockton, have been awarded a contract to improve Aurora street, between Weber avenue and Lindsay stret, on their bid of $6015.08.

NAPA, Napa Co., Cal.—The City Council has awarded a contract to the Gildersleeve Contracting Co., Napa, for the paving of Main street from Pearl to the bridge over Napa Creek, on its bid of $1,700.

STOCKTON, San Joaquin Co., Cal.—The City Council has awarded a contract to Paul & Caldwell of Stockton, for the improvement of Scotts Levee and South Madison street on their bid of $2,376.75.

SAN FRANCISCO—The Board of Public Works has awarded a contract ta T. A. Clark, 68 Post street, for $7,948.65 for the following work:

The De Montford avenue bet. Jules avenue and Miramar avenue be improved by grading; construction of concrete curbs; and 8-inch vitrified, salt-glazed, ironstone pipe sewer with 16 Y branches and 2 side sewers and 1 brick manhole, and by the construction of an asphalt pavement consisting of a 6-inch concrete foundation and a 2-inch asphaltic wearing surface on the roadway thereof.

SOUTH SAN FRANCISCO, San Mateo Co., Cal.—The South San Francisco Land & Improvement Co., South San Francisco, has awarded a contract to the Western Sand & Rock Co. for street work, grading, etc., in the High School Park Subdivision. The work will cost approximately $7,000. (16112)

LONG BEACH, Las Angeles Co., Cal.—B. Z. Wucetich, 309 West Jefferson St., Los Angeles, has been awarded the contract at $29,984 for constructing sewers in California avenue, and in certain other streets and alleys. (15732) 1st report May 2; 2nd May

OLYMPIA, Wash.—The State Highway Commission has awarded contracts as follows: Clearing, grading and draining of the Pacific Highway from Bellingham south four miles, to Barbo Bros., Bellingham, Wash., at $18,150. Clearing, grading and draining, National Parks Highway between Nemah and the Nasel River, Pacific County, to Geo. A. Banderett, Seattle, at $25,023; two 50-foot concrete arches over Union Flat Creek, Whatcom County, to H. C. Mallott, Seattle, at $13,200. Contracts for other portions are pending.

OAKLAND, Cal.—The City Commissioners have awarded street contracts as follows:

To J. Catucci, 1230 18th Ave., Oakland, that a vitrified pipe sewer, having an internal diameter of 8 inches, be constructed as follows: beginning at a point on the existing sewer that crosses Yerba Buena avenue bt. 40th street and the eastern boundary line of the Town of Emeryville, distant 59 feet S measured at right angles, from the N line of Yerba Buena avenue and running thence E parallel to said N line of Yerba Buena avenue 174 feet to a point; also

That two vitrified pipe lampholes with tops of brick and cast iron, be constructed on said proposed sewer; also

That vitrifiefid pipe "Y" branches, having 5 inch openings, be constructed on said proposed sewer so as to provide one such branch for each 40 foot lot, and fractional lot remaining, into which the abutting property frontage on the S side of Yerba Buena avenue is capable of being divided.

To Bernard Ransome, 1st National Bank Bldg., Oakland:

For the grading, curbing with granite, guttering with a brick gutter, 14 inches wide, and paving with asphalt of the N half of Second street bet. lines parallel to and distant, respectively, 25 feet and 50 feet E from the E line of Brush street. (15560 & 61) 1st report Apr. 30, 1917.

STORES AND OFFICES.

SAN FRANCISCO—Stores, 1 story and base, brick. Cost not stated. Architects, Cunningham & Politeo, First National Bank Bldg., S. F. Owner, D. L. Randolph. Location, north O'Farrell west Mason, covering an area of 50 by 50 feet. Plans complete and figures being taken.

SAN FRANCISCO Market alteration, 1 story, frame. Cost not stated. Architects, Foulkes & Hildebrand, Crocker Bldg., S. F. Owner's name not given. Location, Polk and Broadway. Will will consist of interior and exterior work, plastering, painting, plumbing and electric work. Plans are being prepared.

MODESTO, STANISLAUS CO. CAL. Stores and offices, 2 story and base. Class C construction, $30,000 Architect, Henry C. Smith, Humboldt Bank Bldg., S. F. Owner represented by G. H. Umbsen Co., 20 Montgomery St., S. F. Location, northwest 11th and J streets, covering an area of 50 by 140 feet. Will contain eight stores. Plans complete and figures being taken.

SAN JOSE, SANTA CLARA CO., CAL.—Store, 1 story, mezzanine and base, brick and steel, $20,000. Architect, William Binder, Binder Bldg., San Jose. Owners, Prune and Apricot Growers' Association. Location, southeast San Antonio and Market streets, covering an area of 40 by 137½ feet. Plans complete and figures to be taken at once.

LOS ANGELES, CAL. Stores and offices, 2 story and base, brick. Cost not stated. Architect, Arthur S. Heineman, San Fernando Bldg., L. A. Owner, T. Hagaman. Location, La Brea and Hollywood Boulevards covering an area of 65 by 140 feet. Plans are being prepared.

Contract Awarded.

LOS ANGELES, CAL.—Stores and lofts, 2 story and base, brick. Cost not stated. Architects, Morgan, Walls & Morgan, Van Nuys Bldg., L. A. Owner, Mrs. Susanna N. Van Nuys. Contractors, Alpeter, Hall & Alpeter, Ferguson Bldg., L. A. Contract price not stated.

THEATRES.

RICHMOND, CONTRA COSTA CO., CAL.—Theatre, 2 story and base, reinforced concrete, $75,000. Architect A. W. Cornelius, Merchants' National Bank Bldg., S. F. Owners, Turner & Dahnken. Location, Ninth and Macdonald. Will seat 2,000 people. Excavating started. Bids to be called for in about one month.

LOS ANGELES, CAL. Theatre 3 story and base, Class A, reinforced concrete, $400,000. Architect, A. B. Rosenthal, Lankershim Bldg., L. A. Owner, Col. J. B. Lankershim, leased to Fred Miller. Location, east Main south Eighth, rovering an area of 90 by 183 feet. Plans are nearly complete.

BREMERTON, WASH.—Theatre, 2 story and base, reinforced concrete $75,000. Architect, Max Umbrecht, Arcade Bldg., Seattle. Owners, Osran Amusement Co. Will cover an area of 60 by 105 feet. Plans are being prepared.

Contract Awarded.

LODI, SAN JOAQUIN CO., CAL.—Theatre, 2 story and base, brick or reinforced concrete, $25,000. Architects, Stone & Wright, Stockton. Owners, Lodi Investment Co. Contractor, A. L. Philbrick, Oakland. Contract price, $25,000.

SEALED PROPOSALS

PROPOSALS FOR CANAL SUPPLIES.

PANAMA CIRCULAR 1145 Office General Purchasing Officer, Panama Canal, Washington, D. C. Sealed bids are wanted until **June 2, 1917,** under circular 1145 for furnishing the following: School equipment, including desks, chairs, tables, clocks, etc.; 144 oval marine brushes, 15,000 feet plow-steel cable, 100 gross crayons, 24 panes glass, 191 pieces window glass, 72 pairs buckskin gloves, 1,000 feet rubber air hose, 500 feet rubber suction hose, 2,000 feet rubber water hose, 15,000 pounds concentrated lye, 575 pounds flax packing, 1,400 pounds rubber sheet packing, 1,000 pounds steam packing, 4,000 pounds metal polish, 20,000 pounds soap powder, 20,00 pounds salt-water soap, 102 steel tapes, 12 tarpaulins, 500 feet brass tubing, 400 feet copper tubing, 10,000 pounds flax twine, 6 angle valves, 132 valves, 3,000 feet plow steel flexible cable, 5,000 cross ties (No. 1), 12,000 yards crash toweling, 6 kettles, 42 stock pots, 3,000 pounds furnace cement, 144 water coolers, 1,000,000 paper cups, 500 link pine, 2,800 pounds rivets, 60 gross machine screws, and 10,000 pounds plate washers. For further information address EARL I. BROWN, maj., corps engrs., U. S. A., general purchasing officer.

PROPOSALS FOR EXCAVATING.

EXCAVATING—Department of the Interior, U. S. Reclamation Service, Washington, D. C.—Sealed proposals for the construction of 5.7 miles of main canal on the Fort Laramie unit, North Platte project, Nebraska-Wyoming, involving about 336,500 cubic yards of excavation, will be received at the office of the United States Reclamation Service, Fort Laramie, Wyo., until **2 o'clock p. m. June 6, 1917,** and will at that hour be opened. The work is located near the Bridgeport-Guernsey line of the C. B. & Q. Railway in the vicinity of Torrington, Wyo. For particulars address the United States Reclamation Service, Washington, D. C.; Denver, Colo., or Fort Laramie Wyo. MORRIS BIEN, acting director.

PROPOSALS FOR CONSTRUCTION.

CONSTRUCTION — Proposals will be received by the Navy Department at U. S. Coast Guard headquarters, Washington, D. C., until **2 p. m. June 6, 1917,** and publicly opened immediately thereafter, for constructing Coast Guard Station No. 324 and accessories at Golden Gate Cal. Blank proposals, specifications and other information will be furnished upon application to the superintendent, thirteenth district, U. S. Coast Guard, custom house, San Francisco, Cal.; keeper, U. S. Coast Guard Station No. 324, San Francisco, Cal., or to U. S. Coast Guard headquarters, E. P. BERTHOLF, captain, commandant.

PROPOSALS FOR BRIDGE.

BRIDGE- Department of the Interior, National Park Service, Washington, D. C.,—Sealed proposals will be received in the office of the director of national parks until **2 p. m. Thursday, June 14, 1917,** and then opened, for the furnishing of all labor and material and performing of all work required to install complete and ready for service one cantilever truss timber bridge over Marble Fork of Kaweah River in Sequoia National Park, Cal., in accordance with plans and specifications, of which copies can be secured on application to the director or to Walter Fry, supervisor of said park, Three Rivers, Cal. The right is reserved to reject any or all bids, to waive technical defects or to accept one part and reject the other, as the interest of the government may require. Proposals must be securely enveloped, marked "Proposals for Bridge, Sequoia National Park," and be addressed to the director of national parks, Washington, D. C. BO SWEENEY, assistant secretary.

PROPOSAL FOR BIDS.

SEALED BIDS will be received at the office of the Comptroller, 220 California Hall, University of California, Berkeley, California, **at or before 10:00 A. M., May 26th, 1917,** for furnishing and installing shades for the University Hospital, Fourth and Parnassus Avenues, San Francisco, Cal.

Plans and specifications may be obtained at the Cashier's window at the Comptroller's Office on payment of a deposit of $10.00 for each set of plans and specifications taken out, which deposit will be refunded on return of said plans and specifications accompanied by regular bid of the work. No bids will be received unless accompanied by a certified check or bond in favor of the undersigned, equal to ten per cent of the bid, to secure execution of the contract by the successful bidder.

The right is reserved to reject any or all bids.

REGENTS OF THE UNIVERSITY OF CALIFORNIA. (*)

PROPOSAL FOR TRUSS TIMBER BRIDGE.

BIDS CLOSE JUNE 14 AT 2 P. M.

Construction complete of a cantilever truss timber bridge.

LOCATION, Over Marble Fork of Kaweah River in Sequoia National Park, California.

Owner, United States Government.

Engineer, Walter Frye Three Rivers, Cal.

Plans on file Walter Frye Three Rivers, Co.

(150(16)

GOVERNMENT BIDS WANTED.

SEALED PROPOSALS will be opened by the Lighthouse Inspector, San Francisco, Cal., at 2 o'clock P. M., June 12, 1917, for sale by the Lighthouse Service of scrap brass and iron, junk, machinery, electric motors, etc. Information upon applications to the above office.

Circular No. 289 Sealed proposals will be received at office of General Purchasing Agent Alaskan Engineering Commission, Seattle, Wash., not later than 11 A. M. May 28 1917 for furnishing one portable coal elevator and unloader. Copies of circular may be obtained upon application at the office Alaskan Engineering Co.

sion, 203 U. S. Custom-house, San Francisco, Cal. C. E. Dole, General Purchasing Agent.
(16026 and 16026-A)

**STATE OF CALIFORNIA.
DEPARTMENT OF ENGINEERING.**

CALIFORNIA HIGHWAY COMMISSION

NOTICE TO CONTRACTORS.

SEALED PROPOSALS will be received at the office of **the California Highway Commission, 515 Forum Building, Sacramento, Cal., until 2 o'clock P. M. on May 28, 1917,** at which time they will be publicly opened and read for construction in accordance with the specifications therefor, to which special reference is made, portions of State highway as follows:

Yolo County, at Davis (III-Yol-6-A), an undergrade crossing with the Southern Pacific Railroad, including substructure for subway and about 1200 feet of Portland cement concrete pavement.

Solano County, between Batavia and Putah Creek (III-Sol-7-E), about 8.4 miles in length to be paved with Portland cement concrete.

Santa Barbara County, between Zaca Station and Los Alamos (V-S.B-2-C) about 9 miles in length to be paved with Portland cement concrete.

Tulare County, between ¼ mile west of Visalia and Tulare (VI-Tul-4-C), about 9 miles in length to be paved with Portland cement concrete.

Ventura County, between Santa Clara River and Ventura (VII-Ven-2-C), about 4 miles in length to be paved with Portland cement concrete.

Plans may be seen, and forms of proposals, bonds, contracts, and specifications may be obtained, at the said office, and they may be seen at the office of the Division Engineers at Los Angeles and San Francisco, and at the office of the Division Engineer of the division in which the work is situated. The Division Engineers offices are located at Willits, Dunsmuir, Sacramento, San Francisco, San Luis Obispo, Fresno, and Los Angeles.

No bid will be received unless it is made on a blank form furnished by the Commission. The special attention of prospective bidders is called to the "Notice to Contractors" annexed to the blank form of proposal, for full directions as to bidding, quantities of work to be done, etc.

The department of Engineering reserves the right to reject any or all bids or to accept the bid deemed for the best interests of the State.

NOTICE TO CONTRACTORS.

OFFICE Constructing Quartermaster, 1206 Pacific avenue, San Pedro, Cal.—Sealed proposals will be received here until **10:00 A. M., June 1, 1917,** and then opened, for furnishing and installing gas-fired heating systems in various buildings to be constructed at Fort MacArthur, Cal. Further information on application.

PROPOSALS FOR CRANES.

CRANES — Sealed proposals indorsed "Proposals for Shipbuilding Cranes" will be received at the bureau of yards and docks, Navy Department, Washington, D. C., until **11 o'clock a. m. May 28, 1917,** and then and there publicly opened, for furnishing four 15-ton traveling, revolving, hammerhead, shipbuilding cranes at the navy yard, Puget Sound, Wash. Specification (No. 2374) can be obtained on application to the bureau or to the commandant of the navy yard, Puget Sound, Wash. F. R. HARRIS, chief of bureau.

PROPOSALS FOR ELEVATOR.

ELEVATOR—Sealed proposals indorsed "Proposals for Hydropneumatic Freight Elevator for Pearl Harbor" will be received at the bureau of yards and docks, Navy Department, Washington, D. C., until **11 o'clock a. m. May 28, 1917,** and then and there publicly opened, for furnishing and delivering one hydropneumatic freight elevator, structural frame work and wire mesh inclosure complete at the naval station, Pearl Harbor, Hawaii. Drawing and specification (No. 2320) can be obtained on application to the bureau or to the commandant of the naval station named. F. R. HARRIS, chief of bureau.

MARTINEZ, Cal.—The Milliff Refining Company, which has been operating the old Warren Brothers' Refinery at Rodeo for several months past, has filed articles of incorporation here. The company is capitalized for $100,000, the president and general manager of the company being Frank A. Milliff of this city.

The other directors are John A. Milliff, Herman Hermansen, Edwin R. Sheldon and Sydney S. Lawrence.

Milliff for years was connected with the Associated Oil Company as superintendent of the Nevada docks station and later operated an independent refinery in the Lost Hills district. He is an oil man of many years experience and while making all of the by-products of oil will specialize in a number of brands of lubricants and greases which he has experimented with and which have been found by test to be of a high grade. The plant now employs upwards of 50 men, being entirely remodeled and rebuilt.

BIDS RECEIVED FOR MARE ISLAND WORK.

Lange & Bergstrom Present Low Bid For Navy Yard Hospital Extension At $17,774.

WASHINGTON, D. C., May 21st, 1917—Six sets of bids were opened today in the office of the Bureau of Yards & Docks for constructing a three-story frame extension to the present hospital building at Mare Island Navy Yard. The extension will cover an area of 50 by 40 feet. Lange & Bergstrom, Sharon Bldg., San Francisco, submitted the lowest bid at $17,774 and will probably be awarded the contract. Following is a complete list of the bids received:

MEET TO CONSIDER WAR PROGRAM.

WASHINGTON, D. C., May 18.—After being in session three days the Executive Committee of the Chamber of Commerce of the United States adjourned to meet at the capital again the middle of next week. The purpose of the gathering is to consider the program of the National Chamber in the war, and the committee will continue to sit as long as necessary to work this out. In the meantime there will be conferences with various government officials to ascertain exactly how the business men of the county may be of the most assistance at this time.

Joseph H. Defress, former president of the Chicago Association of Commerce, is the chairman of the committee. The members are R. Goodwyn Rhett, of Charleston, S. C., president of the National Chamber; John Joy Edson, of Washington, D. C.; R. T. Cunningham, of Fairmont, W. V., a glass manufacturer, A. I. Esberg, of San Francisco, vice president of the General Cigar Company; Homer L. Ferguson, president of the Newport News Shipbuilding and Dry Dock Co.; Edward A. Filene, of Boston, president of William A. Filene's Sons Company; L. S. Gillette, of Minneapolis, largest shareholder in the Minnesota Steel & Machinery Plant; E. T. Meredith, of Des Moines, publisher of Successful Farming; Lewis E. Pierson, of New York, chairman of the Board of Directors of the Irving National Bank; and F. A. Seiberling, of Akron, president of the Goodyear Tire & Rubber Company.

WYBRO-BOARD.

An Oregon Pine Board Which Will Not Split.

White Bros., Fifth and Brannan streets, San Francisco, have developed a Wybro-Board for all uses, and it is claimed for it that you can cut it, saw it, and sand it, like any ordinary piece of lumber, but you cannot split it. You can cut it, hew it, hack it drop it; use the largest nail, put the nails close to the edge—you cannot split Wybro-Board.

Wybro-Board cannot split because it is cross plied. Three layers of Oregon pine glued together with the grain running in opposite directions.

Consider a box or case made from Wybro-Board—no pilfering, or broaching on the cars or in the hold of a vessel. You will have to pull every nail in the cover before you can get it off—it will not split.

Wybro-Board comes rough like any other pine or redwood board. It can be sawed or sanded the same as any pine or redwood board, but it cannot be split.

Wybro-Board is made of three thicknesses of Oregon pine, the inner-ply running crosswise and is adapted to a great variety of uses on account of its strength, durability, economy and lightness.

Wybro-Board is especially effective in the manufacture of drawer bottoms, boxes, cases, show cards, photographic and advertising panels, factory trays, mounting boards, mirror backs, trunk bodies, bulletin boards, transfer files, cores for making panels, parcel hampers, refreshment boxes, novelties, patterns, chair backs for upholstered furniture, cheaper wall boards, wainscoting, especially where it is to be painted or enameled over and in every case where a strong light wood is desired.

These panels are rough and must be sanded to be used as wall panels or wainscoting. The charge for sanding is ½c per square foot per side. Sizes carried in stock are as follows:

	Price	Code Word
24x60", ¼", 3-ply	6 c.	Boryat
24x72", ¼", 3-ply	6 c.	Bordea
24x84", ¼", 3-ply	6 c.	Boresan
36x60", ¼", 3-ply	7 c.	Borsee
36x72", ¼", 3-ply	7 c.	Borung
36x84", ¼", 3-ply	7 c.	Borluk
24x60", 5-16", 3-ply	6½c.	Borchsato
24x72", 5-16", 3-ply	6½c.	Boarba
24x84", 5-16", 3-ply	6½c.	Borkow
36x60", 5-16", 3-ply	7½c.	Borsup
36x72", 5-16", 3-ply	7½c.	Borichi
36x84", 5-16", 3-ply	7½c.	Borstot

Crossing of grain gives great strength and durability. Thinness gives lightness. Large surfaces give economy.

Special sizes made to order.

Compare these prices with those of wide Poplar panels, which do not equal Wybro-Board in strength and toughness.

Compare these with the prices of Sugar Pine or White Pine, which woods Wybro-Board surpasses in toughness and durability.

Compare these prices with those of various wallboards which do not even possess a partial number of qualities which Wybro-Board has. Or compare these prices with those of Clear Pine Lumber.

No matter for what purpose, you will find Wybro-Board by far superior to any other lumber. **And the price is right.**

COAST AND CREST HIGHWAY STARTS.

A project which stands out as one of the greatest and most important yet undertaken in the development of

placed another order with the same manufacturer in the United States, instead of shipping this second lot of goods, the manufacturer wrote to the consulate general, complaining that he could not see his way clear to make a second shipment until the original one had been paid for, and that although he had approached his forwarding agents in New York on the subject he was able to get little or no satisfaction from them.

Agent at Fault Prices on Cartons.

The case seems clearly to establish that the fault was not with the Brazilian buyer in failing to meet his obligations promptly, but with the New York forwarding agent who apparently has neglected to turn over the proceeds of the draft to the manufacturer. Fortunately, the buyer here was fairminded enough to perceive the honest motives of the manufacturer in this particular case; but in other similar instances the neglect to comply with a second order might have meant the loss of future business and been just cause for complaint against American methods of doing business in general. The case illustrates the necessity of employing responsible and qualified forwarding agents, where the inland manufacturer finds it expedient to use such intermediaries.

The Brazilian buyer in the case above cited took occasion to suggest that the habit which some American manufacturers (the articles in this case were small accessories for automobiles) have of employing the same paper cartons in their foreign trade as in their domestic business proves disastrous when these containers have visibly marked upon them the retail price of the goods in the United States. Shipments have been known to be delayed here in the custom house for the payment of duties on the basis of the marked prices, rather than on the invoice value, even though such practice may seem illogical, and although it should be matter of common knowledge that wholesalers and foreign customers are invariably given large discounts.

MAHOGANY PRODUCTION IN GUATEMALA.

[Consul S. C. Reat, Guatemala City.]

Exact statistics as to the mahogany resources of Guatemala are not available, but it is known that the timber exists in practically unlimited quantities in the northern part of the Republic, known as the Peten country, while another defined zone or belt is found in the western or Pacific coast region. The outbreak of the European war caused a sharp curtailment in the export movement of mahogany, shipments for a time being practically suspended. The country, however, has in a measure recovered from the depression due to the war and mahogany is again beginning to move, shipments being confined principally to the United States.

The Usumacinta River, forming part of the Guatemala-Mexico border, is largely employed in rafting mahogany logs to the Mexican port of Frontera, where shipments are made to the United States. The timber is also rafted from the Peten region via the Belize River to Belize, British Honduras, where exports are made principally to England. Timber in smaller quantities is found along the Gulf coast in the vicinity of Sarstoon and Livingston, the logs from this section going chiefly to the United States.

Transportation Facilities—Sawmills.

A well-defined timber belt parallels the Pacific coast of Guatemala at distances varying from 5 to 25 miles from the ocean and extending from Coatepeque to the Salvador boundary on the south. San Jose and Champerico are the principal exporting points for this territory. According to the timber men now engaged in shipping from this territory much of the timber accessible to transportation facilities has already been cut, and it is estimated that not more than 15,000,000 to 20,000,000 feet remain that would be commercially profitable to export.

Fully 90 per cent of the mahogany in this region is found within 25 miles of the coast. The timber is scattered and is said not to average more than one tree to 5 acres. The timber is hewn and hauled in ox carts to shipping points along the Occidente Railway and the division of the International Railways of Central America extending from Guatemala City to San Jose. The construction of additional railways and the completion of the proposed intracostal canal, known as the Chiquimulilla Canal, would give impetus and encouragement to the mahogany industry of the west coast. There are many rivers, nearly all of which are navigable for rafting purposes, including the Michitoya, Guacalate, La Gomera, El Naranjo, Coyolate, and several others, which are not utilized at this time for the reason that San Jose and Champerico are the only licensed ports for the Pacific coast.

Prices and Freight Rates—Exports.

First class mahogany f. o. b. San Jose is worth $80 gold per thousand feet, of which total cost $12 represents the loading charge and the export duty of $2 per ton, and $5 to $15 represents the railway transportation.

The ocean rate on mahogany lumber Puerto Barrios to New York or Boston is $15 per thousand feet, and on logs $20. The rate san Jose to San Francisco or Seattle is about the same.

Producers of mahogany operate under a Government concession granting them the right to cut and remove timber from a prescribed area.

Mahogany is not separately listed in the customs record of Guatemala, but it forms the bulk of all export shipments both of timber and lumber. The report of the Minister of Finance and Public Credit for 1915 shows that lumber to the amount of 3,524,623 quintals (metric quintal equals 220.46 pounds), valued at $176,231 United States gold, was exported via San Jose and the frontier customhouse of Peten. For 1916 the total exportation amounted to 2,339,276 quintals valued at $116,964 the entire exportation going to the United States.

[The addresses of several Guatemalan exporters of mahogany logs and lumber may be obtained from the Bureau of Foreign and Domestic Commerce, Customhouse, San Francisco, upon referring to file No. 86389.]

LUMBER EXPERTS HERE IN JUNE.

Commissioners to Foreign Countries to Spend Two Days in San Francisco.

The bureau of foreign and domestic commerce of the United States Department of Commerce will shortly send lumber trade commissioners to foreign countries to thoroughly investigate trade conditions affecting American lumber exports. This commission will visit Great Britain, France, the Netherlands, Norway, Sweden, Denmark, Finland, Russia, Siberia and the countries of Southern Europe as well as those of Northern Africa.

Prior to this trip of investigation the commission has arranged an itinerary of about two months' duration in this country for the purpose of holding conferences with lumber manufacturers at various ports and centers. They will visit San Francisco on June 21 and 23 for the purpose of conference with the lumber manufacturers' associations at this point.

E. E. Meyers, secretary of the California Redwood Manufacturers' Association, has received a notice from Nelson G. Brown, trade commissioner and secretary of the commission, outlining the subjects which the commission is especially desirous of informing themselves. These are export trade methods, export grading, complaints of importers abroad, obstacles to greater export trade, current prices, etc. The San Francisco Chamber of Commerce, through the foreign trade department, will co-operate with the Lumber Manufacturers' Association in facilitating the work of the commission during its stay in this city.

GIVE NEARLY 1200 DEGREES AT UNIVERSITY COMMENCEMENT.

The remarkable growth of the University of California is shown by the fact that approximately 1164 degrees were voted for conferment at the Commencement Exercises in the Greek Theatre at ten o'clock Wednesday morning, May 16, as compared with 482 degrees in 1907.

This means that the alumni gathering on Wednesday, May 16, for the annual Alumni Luncheon and the afternoon ceremonies of farewell to North Hall and the dedication of Wheeler Hall, marks a welcome to a graduating class nearly three times as large as that of ten years ago. Commencement of this year, as compared with Commencement ten years ago, sees nearly two-and-a-half times as many Bachelor's degrees conferred as in 1907, when there were 347; four-and-a-half times as many Master's degrees—approximately 138 as compared with 29; six-and-a-half times as many degrees of Doctor of Philosophy—33 as compared with 5; and ten times as many degrees of Juris Doctor—29 as compared with 3. The degrees conferred upon the graduates in Medicine, Dentistry, and Pharmacy and on graduates of the Hastings College of the Law number 117 as compared with 98 ten years ago. One candidate each receives the degree of Graduate in Architecture, Graduate in Public Health, and Graduate in Education. Of these degrees, the first two

San Francisco and the peninsula is to come to a head at San Jose next Saturday morning.

Spurred on by the military authorities of the United States and encouraged by a large State appropriation the highway down the coast, along the skyline of hills and mountains, is to be brought to the time of actual building.

This boulevard will extend from the downtown district of San Francisco through the northern section and into and through the Presidio over a roadway now being constructed by government contract.

From the Presidio it will extend toward the south, being approachable either over Sloat Boulevard or the Ocean Beach esplanade.

From the city line it will run through San Mateo County, skirt Half Moon Bay and climb the grades into the Santa Cruz Mountains, keeping at nearly all points within view of the ocean. Its military and scenic value cannot be too highly estimated.

Supervisor Richard J. Welch of San Francisco, chairman of the Peninsular Highway Conference, has called a meeting of the committees of this conference, representatives of the State Highway Commission, military officers and others interested in the project to be held at San Jose next Saturday, May 5, at 10:30 a. m., at chambers of the Board of Supervisors.

The purpose of the meeting is to take the initial steps to form a joint highway district as provided by a recent act of the Legislature. The proposed district will be composed of the counties of San Francisco, San Mateo, Santa Clara and Santa Cruz.

The military authorities have declared the proposed road to be of primary importance and the Legislature has appropriated a quarter of a million dollars for this and other like important highways.

SCHOOL BOARD TO ASK 3 MILLIONS IN BUDGET.

A revised estimate of the school needs of San Francisco, in view of the proposed school bond issue, was submitted to Mayor Rolph yesterday by the Board of Education. On this estimate, totaling $3,553,562, the administration will stand in the controversy which is expected at the Supervisors' meeting Next Monday.

For the purchase of land and the erection of new elementary schools the Education Board wants $1,694,462; for additions to high schools and the erection of one new high school, the Galileo, $1,604,000; for equipment, $200,000; for Columbus School, $55,100.

In addition, the Education Board will ask for a yearly tax levy of 10 cents on the $100 valuation to keep pace with the city's growth and to provide for the reconstruction work omitted from the first bond estimate.

The original proposal, which was cut in two when opposition developed in the Board of Supervisors, was for a $7,500,000 issue of school bonds.

LATERAL SURVEYS BEGUN BY STATE.

SACRAMENTO, CAL.—Preliminary surveys for the eight cross tie highways which will connect the coast highways with the valley highways of the State's system are in progress, and according to State Highway Engineer Austin B. Fletcher, the surveys will be completed early in July, when a portion of the $15,000,000 voted in 1915 will be available.

"There is no way," said Fletcher, "of knowing when actual construction work will commence. None of the bonds can be sold until after July 3, and there may be no market for bonds at that time.

"The preliminary survey of the proposed new road routes will determine how much the highways will cost and what portion—perhaps all of them—can be built.

Of the $15,000,000 that will be available, $3,000,000 will be used in the construction of the cross tie roads. The remaining $12,000 000 will be used in completing the old system. The counties involved put up dollar for dollar in the laterals.

There will be as little delay as possible in the construction of the new highways as they are expected to be important factors in military preparedness.

The eight highways provided connect the interior and coast trunk lines through Humboldt and Trinity counties and in three places in San Joaquin Valley, along the coast route at Gilroy, in Monterey County, and at San Luis Obispo, extend the Mariposa lateral to El Portal, Yosemite, and provide for three Southern California extensions.

HARDWOOD FLOORING TRADE.

May Items.

There has been a steady demand for Oak and Maple flooring (principally for Oak) during the past month, sufficient to completely absorb the local production.

Walnut, one of the most costly American woods, is being used more than ever in fine work.

The residences of Mr. C. Frederick Kohl, Mr. J Ralston Hamilton, Mr. W. B. Bourn, and the St. Francis Hotel contain some fine examples of floor work in this beautiful wood, done by the Inlaid Floor Company.

All materials, besides lumber and finished flooring have advanced heavily during the past year; the prices for nails, glue, sandpaper, shellac and wax being now more than double the cost of these commodities before the war, with indications of a further advance.

Yet the estimates for floor work are but a little above the lowest limit in 1914. Now is the time to order for residences, flats or apartments.

AUTOCAR ANNOUNCEMENT.

TO USERS OF MOTOR TRUCKS IN SAN FRANCISCO TERRITORY:

Owing to the very widespread and rapidly increasing use of Autocar Delivery Vehicles by the business houses of the Pacific Coast, The Autocar Company of Ardmore, Pennsylvania, has decided to establish direct factory branches in San Francisco, San Diego and Los Angeles.

These Pacific Coast branches will now do business under the name of "Autocar Sales and Service Company of California," recently incorporated. The Autocar Company thus assumes the undivided responsibility for complete after sales service, and Autocar users will therefore now be dealing directly with the manufacturer.

This step enables Mr. M. S. Bulkley, who for years has been the California representative of The Autocar, to assume charge of The Pacific Coast as direct factory representative, and as a Director in the new Company will aid and strengthen his well known and long established policy of close cooperation between customer and manufacturer.

THE AUTOCAR COMPANY,
Ardmore, Pa.

San Francisco, Factory Branch; Autocar Sales & Service Co., 561 Golden Gate Avenue.

SUGGESTIONS TO AMERICAN EXPORTERS.

RIO DE JANEIRO, BRAZIL, March 8,—The following points in a case brought to the attention of the Rio de Janeiro consulate general in a transaction between an American inland manufacturer and a local merchant should prove of interest to American manufacturers and exporters:

The manufacturer shipped his goods through a forwarding agent at the American port of shipment, the agent drawing on the Brazilian buyer at sight. The consignee here promptly paid the sight draft in order to withdraw the goods from the customhouse. This happened more than eight months ago.

In the meantime the local house here, well satisfied with the shipment,

J. Eric Johanson Presents Low Bid for New Buildings and Steel Signal Mast on Marin Coast.

(By Special Wire.)

WASHINGTON, D. C., May 15, 1917 - Thirteen sets of figures were opened today in the offices of the United States Coast Guard Service for the construction of a new station at Bolinas Bay, California. The work consists of new company quarters of frame and concrete and the construction of a signal mast of steel. Following is a complete list of the bids received:

Bolinas Bay Coast Guard Station.

A. H. Vogt	$11,480
Frank Gallagher	10,190
Cuneo	10,604
Peter Hamilton	14,700
Tibbitts	13,364
J. Eric Johanson, 110 Jessie St. (low)	9,988
Fred L. Hansen	10,650
George Wagner	12,500
George W. Boxton	10,394
Grace & Bernieri	11,162
Neil A. McLean	11,250
Anderson & Ringrose	12,700
McSheehy Bros.	12,329

BIDS RECEIVED FOR PARK AUTO TRUCK.

The following bids were opened today for furnishing one five-ton auto truck for the use of the San Francisco Park Commission.

Five-Ton Auto Truck.

Sterling Auto Co.	$3,650	
Garford Motor Truck Co.	4,775	
Moreland Motor Truck Co.	4,250	$3,650
Kelly-Springfield M T Co.	4,210	
Locomobile Co.	4,380	
Signal, Bethelem & Koehler Co.	3,930	

Award of contract will depend upon demonstration which is to be held Friday.

AWARD BIG CONTRACT FOR TEMPORARY CONSTRUCTION.

First of Large Contracts for Temporary Work at Presidio Goes to G. M. Gest Co. of New York.

Two contracts for temporary construction at the Presidio of San Francisco, approximating one million dollars, have been awarded under authority of the Supply Department of the Committee of National Defense to G. M. Gest & Co. of New York and the Barrett Roofing Co. of Boston. The work was not advertised and the award of contracts was practically the first intimation given local contracting firms that immediate temporary construction was to be started at the Presidio. G. M. Gest & Co. are represented locally by F. R. Lewis, 503 Market street, while the Barrett Roofing Co. has no local representative.

G. M. Gest & Co.'s contract covers the construction of all buildings required to house three regiments, each of twelve companies of 150 men. At least thirty-six barrack buildings and perhaps forty-eight, will be required besides an administration building for each regiment, officers' quarters, storage houses and stables. The Gest Co.'s contract includes all plumbing and electric work. While detailed information is still lacking it is estimated that fully 200 buildings are included in this contract. Each of the barracks buildings will be at least two hundred feet long and the administration buildings and several of the warehouses equally large. All construction will be of frame.

The Barrett Roofing Co.'s contract covers the construction of roads, sidewalks, lighting systems and possibly water mains for the three regiments. The approximate amount of this contract is not known locally.

All construction will be under the direction of Major Fredendall in charge of the Constructing Quartermaster's Office at Fort Mason. It is understood that the contracts were awarded on a basis of cost plus ten per cent. Neither firm of contractors has a local organization.

Under a recent ruling of Secretary of War Baker the customary proceeding of advertising for bids has been done away with and authority granted to enter into contracts without this formality for Army construction and supplies. It is stated in Washington that when time permits information will be given of orders for supplies and construction otherwise the various departments will enter into contracts on their own initiative.

San Francisco contractors and supply firms are urged to bring pressure to bear with California's representatives in Washington so that in the future due notice may be given local men of intended construction and purchase of materials. It has been learned upon good authority that still more temporary construction is to be undertaken at the army posts in the vicinity of San Francisco on which local firms should be given an equal opportunity with eastern firms.

NEW CONTRACTING FIRM ORGANIZED

W. W. Hayes and H. J. Oser have joined forces as the Hayes-Oser Company, Contractors and Engineers, with offices at 424 New Call Bldg.

As a starter the firm secured the contract for the erection of the Alameda Savings Bank to be erected at Webster street and Santa Clara avenue, Alameda, from plans by Architect E. T. Foulkes, Crocker Bldg., San Francisco. Contract price, $27,441.

The building will be a one-story brick and terra cotta. Interior finish cast travertine.

Constructing Q. M. Office Plans Much Work.

No Authority Received From War Department to Award Contracts Without First Advertising Work.

Much interest is expressed in the report that a large amount of temporary construction is to be undertaken at once at the various army posts about San Francisco and that this work will not be advertised as is all of the ordinary government construction. Such a report has been circulated by an Indemnity Company, but can not be verified at the office of the Constructing Quartermaster at Fort Mason, under which all work will be done.

A large amount of such temporary construction will be undertaken as soon as possible but how it is to be handled has not been fully determined. At the office of the Constructing Quartermaster it was stated that no authority had been received from the War Department to enter into contracts without the customary advertising for bids. At the present time, however, this office has under construction two temporary frame warehouses, each 60 by 200 feet, and a three-inch pipe line 9,000 feet in length, the work being done under the day labor system.

A notice to contractors will shortly be published in these columns calling for bids for the construction of the most modern X-Ray laboratory in the West. Plans have already been prepared in the office of the Constructing Quartermaster at Fort Mason and call for a reinforced concrete or hollow tile building, 101 by 31½ feet, equipped with under ground conduit, the most up-to-date dark-room equipment and special electric fixtures. Steam heat will be supplied from the central plant. Roof will be of tile. The building will be erected at the Letterman General Hospital.

Plans have also been practically completed for Ward K, a two-story reinforced concrete structure which will be erected at the Letterman General Hospital. This building will cover a ground area of 78 by 25 feet and will have maple floors, electric ranges, special plumbing, steam tables and other modern equipment. A clay tile roof will be used.

The Constructing Quartermaster's Office is now preparing plans for an insane ward which is to be erected at the Letterman General Hospital. Plans provide for a three-story reinforced concrete ward covering an area of 74 by 93 feet and includes all the latest devices for treatment of the insane, such as hydrotherapeutic features, gymnasium, etc. All of the work described above will be mentioned again when bids are called.

GRASS VALLEY, Nevada Co., Cal.—Bids for erecting the proposed four-story hotel at Main and Church streets were opened Wednesday by the Directors of the Grass Valley Hotel Corporation. Eight bids were submitted, but the awarding of a contract was deferred.

STATE LAWS AFFECT INTERSTATE RATES.

Renewed attempts by the legislatures of the various states to enact additional legislation further increasing operating expenses of the railroads, such as "full" crew laws, will no doubt serve to direct the attention of the federal government to the fact that inasmuch as it increases cost of operation such state legislation has a direct relationship and a direct bearing on interstate rates and commerce.

The so-called "full" crew laws enacted by the various states for no other purpose than to create more jobs, coupled with other needless state legislation, have increased operating expenses in an enormous amount. Even in the face of this, bills were introduced at the recent session of the legislatures of the various states amending existing laws and making them more burdensome.

In Oregon and Utah among the bills introduced were bills limiting the number of freight cars in a train-measures which struck at the very vitals of the carriers and would if enacted have seriously crippled both state and interstate service.

In Nevada bills were introduced requiring "standard" cabooses on all freight trains, requiring telepragh and telephone offices in town of over 1,000 population to be kept open day and night, and requiring the posting of notices on bulletin boards at all stations concerning all passenger trains over one hour late on schedule.

In California, where the legislature is still in session and where as in most states having so-called "full" crew laws trains are already overmanned, among the bill introduced is one requiring an additional flagman on all trains "that load or unload freight or pick up or set out cars at two or more stations enroute," regardless of the fact that these trains already have a competent flagman, and requiring an additional man on gasoline cars and electric locomotives.

As approximately 225,000 trains carrying freight are run on the railroads in California during the year this bill would compel the railroads either to place an additional and entirely useless man on practically all freight trains at an increased annual expense of about $500,000, or to deprive the public of much accommodating service by discontinuing the present practice of picking up important carload freight by through fast trains and confine the work of picking up and setting out cars and unloading freight to local trains as fas as possible.

In the past the federal government has paid little or no attention to the effect or relationship of so-called "full" crew laws and other needless state legislation on or to interstate rates, but now that the railroads have been compelled by accumulating burdens to appeal to the government for an increase in interstate rates it is altogether probable that Congress will more easily and fully appreciate the economic importance of exclusive federal control of such utilities.

FORESTRY REGIMENT TO BE ORGANIZED.

WASHINGTON, D. C.—A "forestry regiment," made up of foresters, practical woodsmen, loggers, portable sawmill operators, and others experienced in lumbering operations, for service in France, will, it is announced, be raised immediately. The Forest Service, at the request of the War Department, will prepare plans for the organization and equipment of the force and will aid in securing suitable men. The regiment will form a unit of the Engineer Corps now being recruited to be sent abroad as soon as it can be organized and equipped.

The organization of this regiment is the result of a suggestion made by the British Commission. Similar forces have been raised in Canada and are rendering valuable services. The object of the American forestry regiment, it is said, will be to convert available timber into material suitable for bridges, railroads, trenches, and other construction work with the least possible waste. At the same time the cutting will be done under the supervision of technical experts in co-operation with the French foresters. In this way the permanent damage to the forests incident to furnishing the imperatively needed timber, it is hoped, will be kept as small as possible.

The regiment will be organized in units capable of handling all kinds of woods work and will include a number of portable sawmill outfits. It will be officered by trained foresters and expert lumbermen who are thoroughly familiar with producing and delivering lumber. It will carry complete equipment for all kinds of woods work. The clases of men resired comprise axemen, teamsters, tie-cutters, millwrights, saw-filers, sawyers, portable sawmill men, farriers, blacksmiths, lumberjacks, cooks, and carpenters, as well as motorcycle and motor truck operators.

As rapidly as enlistments are secured, the men will be assembled at six central points, which have already been designated.

RIGHT OF ALIENS TO COMPENSATION.

The attitude of the Industrial Accident Commission to certain alien claimants of compensation has been misinterpreted in the press. The Commission has not denied compensation to any injured worker on the ground of being a subject of a country with which our country is at war. The information from other States, as well as from the United States Employees' Compensation Commission, is that no such discrimination has taken place, and none is contemplated, when considering such claims.

The Industrial Accident Commission of the State of California will not raise the question. It hopes it will not be raised. Citizens will, it is believed, approve the assertion that public policy requires recognition of the rights to compensation of thousands of unnaturalized workers born in Germany who are worthy residents of California. The situation in which these workers find themselves will not be improved by harsh measures.

Advice from the Department of Justice at Washington, D. C., is to the effect that a bill has been drafted, which it is expected will shortly be introduced into Congress, and which has for its object the regulation of all trading with alien enemies, so-called, including the right to receive workmen's compensation. The whole question is essentially one for Federal control.

LAS Cruces, New Mexico, Post Office.

The supervising architect, Treasury Department, Washington, D. C., has awarded the contract for the construction complete, of the U. S. post office and courthouse and post office at Opelousa, to Latimer & Benning, Masachusetts Bldg., Kansas City, Mo., at $88,743, time to complete, 14 months.

AVIATION BUILDING.

BERKELEY, ALAMEDA CO., CAL. —The Regents of the University of California will shortly start construction by Day Labor of a temporary building, 60 by 160 feet to house a course in aviation. The building will be erected on the campus in front of the mechanical building. Construction will be of frame.

BONDS.

ALHAMBRA, Los Angeles Co., Cal. —The $15,000 bond issue for a new grammar school building was defeated at the election held May 15.

RIVERSIDE, Riverside Co., Cal.— An election will be held in the Riverside City School District on June 12 to vote on an issue of $50,000 for the erection of one or more school buildings, the purchase of sites, apparatus, etc. J. M. Davison, Marie S. Brown, John I. Esgate, Charles G. Rouse and Walter C. Davison are the trustees.

HEALDSBURG, Sonoma Co., Cal.— The Healdsburg Union High School District will hold an election June 18th to decide the question of issuing bonds of $100,000 with which to erect and equip new school buildings.

FAIRFAX, Marin Co., Cal.—An election to vote $12,250 for a new school building will be held in the Fairfax School District on June 16th. W. O. Miller, H. Nelson and P. H. Davis are the Trustees.

HOLBROOK, Ariz.—Bids will be received by the Board of Supervisors up to 10 A. M. of June 11 for the purchase of $160,000 bonds, $1000 each, the proceeds to be used for constructing new roads and rebuilding present ones. R. S. Teeple is the Clerk.

SANTA BARBARA, Santa Barbara Co., Cal.—An election will be held June 26 for the purpose of voting on an issue of bonds in the sum of $590,000 for the completion of the Gibraltar dam, and $85,000 for sewer construction. In addition to these there will be provision made for $21,000 bonds for the completion of the east boulevard.

(15475 and 15529) 1st reports. Apr.

BRIDGES AND DAMS.

RICHMOND, CONTRA COSTA CO., CAL.—The Nicholl Terminal Land Co., developing a large terminal and factory site at Richmond, announce the completion of plans and state that construction will be underway by September. The plans given out provide, as the ultimate scope of the project, for seven concrete piers, with double story concrete sheds; seven large fireproof storage warehouses, a fruit and cold storage warehouse, coal handling facilities, and grain elevators; twelve seven-story concrete factories with 6,000,000 square feet of floor space.

SANTA ROSA, Sonoma Co., Cal.— The Supervisors of Marin and Sonoma Counties have decided to call for bids for the construction of a bridge across San Antonio Creek. Bids close June 14th. Malcolm Youker is County Engineer of Sonoma County.

SAN JOSE, Santa Clara Co., Cal.— The bid of A. Mattson, Chapman, South San Francisco, at $7,700 has been taken under advisement by the County Supervisors, for the construction of a reinforced concrete bridge over the Los Gatos Creek at Wright's Station. Other bidders on the work were:

R. H. Jamison.....$9,618
J. Doyle 8,762

The County Surveyor's estimate was $7,415.

LONG BEACH, Los Angeles Co., Cal. —The construction of the bulkhead and sea wall will not be started for four or five months. New proceedings will be started and bids called for later. The contract was first awarded to Henry W. Schlueter of Los Angeles, who could not sign the contract, and later was awarded to John G. Harrah of Los Angeles on his bid of $54,476.70, who found legal flaws in the proceedings and withdrew his bid. The grade will have to be established before the work will be ready for bids.

SANTA BARBARA, Santa Barbara Co., Cal.—Bids will be received by the Board of Supervisors up to 10 A. M. of June 4 for constructing five wooden

bridges in Road District No. 4, in Fifth township, Santa Barbara county, in accordance with plans and specifications on file at the office of C. A. Hunt, County Clerk. Certified check for 10% required.

Bids close June 18th.

Constructing 60-foot timber bridge with concrete abutments and asphalt roadway.

LOCATION—Over Walnut Creek, Contra Costa Co., Cal.

OWNER—Contra Costa County.

ENGINER—County Surveyor Ralph Arnold, Martinez.

Certified check of 10% payable to the Clerk of Board of Supervisors.

Plans on file at County Surveyor's Office, Martinez.

SANTA BARBARA, Santa Barbara Co., Cal.—Plans have been completed by the City Engineer and by the Southern Pacific Engineering Department for the overhead bridge near the city limits at Montecito, which will eliminate two grade crossings. The plans call for an overhead bridge with deck girder of 30-ft, span with clearance of 14 ft. The abutments will parallel the highway. Work will be started within two months.

Contract Awarded.

SAN JOSE, Santa Clara Co., Cal.—The Supervisors have awarded a contract to S. Scarrino at $1,495 for the construction of a reinforced concrete bridge on Ross avenue over Ross creek. The Surveyor's estimate was $1,650. Other bidders were:

R. H. Jamison	$2,099
Wm. Martin	1,519
F. Bryan	1,632
S. Lambrette	2,240
A. Mattson	1,600

CHURCHES.

SAN FRANCISCO—Church, 2 story and base, reinforced concrete, $50,000. Architect, Smith O'Brien, Humboldt Bank Bldg., S. F. Owners, St. Edwards Parish. Location, north California near Laurel. Will contain a large auditorium, Sunday school rooms and social hall. Plans are complete and figures being taken.

SAN FRANCISCO—Church, 1 and 2 story and base, Class C construction, $50,000. Arcihtect, Charles A. Haber, Monadnock Bldg., S. F. Owners, Fitzgerald Memorial Church. Location, South Bush east Taylor. Will contain a main auditorium, Sunday school rooms, pastor's study and social hall. Plans are complete and bids will be called for within a week.

FACTORIES AND WAREHOUSES.

SAN FRANCISCO—Machine shop, 2 story, steel and brick. Cost not stated. Architect, none. Owners, Union Iron Works. Location, 20th and Illinois. Announcement has been made that construction will be started at once on the construction of a large machine shop building and several other important structures at the Union Iron Works plant owing to the award of a contract for building twelve new submarines for the government.

SAN FRANCISCO—Foundry, 1 story mill construction. Cost not stated. Architects, Koenig & Christiansen, Humboldt Bank Bldg., S. F. Owners, Jewell Steel and Malleable Co. Location, 25th and Potrero, covering an are of 148 by 108 feet. Plans complete and owners taking subfigures. A second unit of this plant will be started at once.

SAN FRANCISCO—Shop building additional story, frame, $4,000. Architect, William Wilde, 46 Kearny street, S. F. Owner, J. B. Reite, 110 Jessie street. Location, 1445 Bush street. Work will consist of raising the present roof and adding one story. Plans are complete and work will be done by Day Labor.

OAKLAND, CAL.—Plant extension, 6, 1 and 2 story, frame, $12,000. Archietct, none. Owners, Pacfiic Tank and Pipe Co., 318 Market street, S. F. Location, Tidal Canal east High street. Work will include the following buildings: One-story saw mill, $1,000; two-story dry kiln, $5,000; one-story two-room power house, $3,000; one-story two-room wood dust bin, $1,200; two-story sawdust bin, $300; two-story barn, $1,200.

WALNUT CREEK, CONTRA COSTA CO., CAL.—Factory and dwellings, 2 story, reinforced concrete or brick, $100,000. Architect, A. B. Benton, 114 North Spring street, L. A. Owners, Pacific Glove Co., represented by E. B. Bull, 15th and Broadway, Oakland. Only preliminary plans for the factory have been drawn, but these show a building covering a large ground area. Construction will be either of brick or concrete. Some 25 or 30 dwellings will also be erected.

EL CENTRO, IMPERIAL CO., CAL.—Warehouse, 1 story, brick, $20,000. Architect, none. Owner, E. N. Smith, Redlands. Location Main street and S. P. right of way, covering an area of 120 by 150 feet. Plans complete and work to be done by Day Labor.

PORTLAND, ORE.—Wagon sheds and stables, 2 story, brick. Cost not stated. Architect, James H. Humphreys, Wells-Fargo Bldg., S. F. Owners, Wells-Fargo Co. Location, 17th and Overton streets, covering an area of 100 by 200 feet. Plans complete and work to be let at once.

MARE ISLAND, CAL.—Hospital addition, 3 story, frame, $17,774. Architect, Bureau of Yards and Docks, Washington, D. C. Owners, United States Government. Lange & Bergstrom, Sharon Bldg., S. F., presented the lowest bid for this work at $17,774. and will probably be awarded the contract. A complete list of these bids appears under the heading of Bids Opened in this issue.

IRRIGATION PROJECTS.

WATER COMMISSION PERMITS.

The State Water Commission, Call-Post Bldg., San Francisco, has granted permits to appropriate water from the sources named as follows:

B. N. Russell of Weed, 3 cubic feet per second of Dutch Creek tributary to Bear Creek in Siskiyou county for placer mining. The works consists of a dam 15 feet high, 50 feet long on top and 10 feet at bottom of loose rock and timber and a main ditch 3½ miles in length. The division is near Gottiville.

The Sespe Light & Power Company of Los Angeles has been granted a permit to appropriate 88 cubic feet of water per second of the waters of Sespe river, tributary to the Santa Clara river in Ventura county for the generation of electric power. The works consist of a diversion and storage dam 175 feet righ, 2,200 feet long on top and 75 feet at bottom of loose rock, concrete masonry, rip-rap, etc., the reservoir formed being capable of impounding 57,000 acre feet of water. The total fall to be utilized is 1,000 feet and it is proposed to generate 960 theoretical horse-power. The main canal and flume is to be nine miles in length and the total estimated cost is given at $2,000,000. The water is to be returned to the Sespe river after use.

The Paradise Irrigation District of Paradise, Butte County, has been granted a permit to appropriate 9500 acre feet per annum of the waters of Little Butte Creek in Butte county to be used on the lands of this newly-formed district comprising some 11,000 acres. The main works consist of a dam 134 feet high, 1250 feet on top and 710 feet at bottom, with a width of 20 feet on top the construction to be of earth hydr. fill, rock rip-rapped face, loose rock or asphaltic concrete back, concrete cut-off wall. The main conduit is to be 7600 feet long. The estimated cost is $350,000, there being three units, the whole to be completed and the water applied within 10 years from time of commencement of construction.

SAN FRANCISCO, Cal.—The Western Gas Engine Co., Rialto Bldg., submitted the lowest bid to the United States Reclamation Service for supplying pumping equipment for the Yuma Valley drainage work at Yuma, Ariz. Their bids was $9,295 with an alternative of $5,993.

SCOTT VALLEY, Siskiyou Co., Cal.—State Engineer W. F. McClure and Assistant State Engineer Major Paul M. Narboe state the proposed Scott Valley Irrigation District of 5,558 acres, is feasible and will be approved by the State Department of Engineering. The water is to be secured from thhe Scott river.

The State Water Commission, Call-Post Bldg., San Francisco, has granted permits to appropriate water from the sources named:

The Potter-Hoffman Land Company of Alturas, 1408 acre feet per annum of Janes Flat Drainage area tributary to Willow Creek in Modoc County for irrigation on 526 acres. There is a low division and storage dam and a main ditch 3¼ miles long, the estimated cost of the division being given as $3000.

The West Side Irrigation District, with headquarters at Tracy, San Joaquin county, has been granted a permit to use 220 cubic feet per second of the waters of Old River, tributary to the San Joaquin river, to be diverted at a point near Bethany for the irrigation of 11,377 acres of land within that newly formed district. The main works consist of the following equipment: three sets of pumps connected to 150 H. P. motors lifting the water to the 52-foot contour main canal and four other pumps connected to 300 H. P. motors lifting to the 105 foot contour main canal. From these two main canals, the water will be distributed over the lands. All pumps are 15 inch and the pipe lines conducting the water to the main canals total over 3 miles in length.

Contract Awarded.

The formal award of contracts fo construction of all work in the Paradise Irrigation District, Butte County, has been awarded W. A Kraner & Son, Rialto Bldg., San Francisco, has secured practically all of the work

Kraner's contracts were awarded on the following basis:

Main canal, dam to head of pipe system, $11,375.

Redwood stave steel banded pipe, 33 miles, $129,962.

Balancing reservoirs, pumping station, pressure, controls, valves and fittings, $31,625.

The 90-ft. hydraulic dam at Magalia, with outlet tunnel, spillway and control works, will be built by the District Engineer, Ivan E. Goodner, who has contracted the furnishing of materials and labor to W. A. Kraner, on a basis of cost plus a flat sum of $9,000.

MUSEUM.

SAN FRANCISCO—Museum granite coping and pedestal, $40,000. Architect, Herbert Schmidt, Lick Bldg., S. F. Owners, City and County of San Francisco. Funds from the Maria Becker gift have been formerly accepted and construction will be started as soon as plans have been formally approved by the Park Commissioners.

MAUSOLEUM.

OAKLAND, ALAMEDA CO., CAL.—The Orange County Engineering & Construction Company of Anaheim has been awarded the contract on a percentage basis to erect a $100,000 mausoleum at the Evergreen Cemetery on Foothill Boulevard, Oakland, for the Pacific Mausoleum Company, 504 Union Savings Bank Bldg., Oakland. The building will be of reinforced concrete with marble and bronze trim and will contain from 600 to 700 crypts. H. Clay Kellogg of Santa Ana is the construction company's chief engineer and is in Oakland with the Pacific Mausoleum Co. Plans were prepared by B. J. S. Cahill, Union Savings Bank Bldg., Oakland.

POWER PLANTS.

Contract Awarded For Tunnel.

JEROME, Ariz.—Potter Construction Company has been awarded the contract to construct a 13,500-foot tunnel for the Verde Extension. It will connect with the 13th level of the mine, will accommodate 30-ton cars, and cost approximately $500,000. The rock to be cut will be diorite, quartz-porhyry, and limestone. Dan J. O'Rourke, formerly with the Sullivan Machinery Company of Chicago, will have charge of the work.

SEATTLE, Wash.—Plans for a $3,000,000 addition to the city power system have been completed by Superintendent of Lighting J. D. Ross and bids for construction will be called for in July.

YUMA, Ariz.—F. E. Trask, C. E., Union Oil Bldg., Los Angeles, has presented his report to the City Council on the proposed acquisition or construction of water system and gas plant. He estimates that it will cost approximately $162,420 to purchase the [illegible] and gas plant now owned by the [illegible] Water, Gas & Power Company, and $129,460 for makers needed improvements, including $25,000 for

water pipe lines, $12,430 for reservoir, $6000 for settling basin, $5000 for machinery, $2000 for hydrants, $2000 for service connections, $8000 for fire engine and house and $10,000 for improvements to the gas plant. The construction of new plants will cost about $363,987.

SAN BERNARDINO, San Bernardino Co., Cal.—Bids will be received by the Board of Water Commissioners up to 4 P. M. of June 4, for furnishing the following material:

Starter, 22 feet long, 16-inches in diameter, No. 10 Red steel, the first 12 ft. to be made 3-ply, the remaining 10 ft., 2-ply.

Starter ring, 16x12x1-in.; ⅛-in., Vulcan bit steel, punched.

Casing: 1600 ft. of sections 16-in. diameter No. 10 Red steel in either 2, 3, or 4-ft. lengths, riveted.

Casing: 200 ft. 16-in. No. 10 double Red steel, in 2, 3, or 4 ft. lengths, riveted.

Certified check for 10% payable to the president of the board, required. Ralph E. Swing is president of the board.

SEATTLE, Wash.—The Board of Public Works will receive bids up to July 20th for the construction of the proposed addition to the city hyrdo-electric power system. It is expected that at least three proposals will be received. Construction is estimated to cost $3,000,000. Plans were prepared by City Superintendent of Lighting J. D. Ross.

PASADENA, Los Angeles Co., Cal.—Bids will be received by the City Clerk up to 10 A. M., June 8th, 1917, for the construction of an electric ornamental lighting system on Lester avenue from Orange Grove avenue to Rosella Drive. Check for 10% to accompany all bids. Herman Dyer is City Clerk. The work will require twenty-nine cast iron and copper posts, transformers, conduits, lamps, wires and other material per specifications in intention ordinance No. 3979.

RAILROAD CONSTRUCTION AND EQUIPMENT.

SAN FRANCISCO, Cal.—The Board of Public Works has awarded a contract to H. S. Tittle, 245 Minna St., for conductors for the Church Street line and has requested the Board of Supervisors to appropriate $7,476 to cover the cost of the contract.

RESIDENCES.

SAN FRANCISCO — Residence, 2 story and base, frame, $2,000. Architect, none. Owner, W. J. McKillop, 640 Cole street. Location, east 48th avenue south Balboa. Will contain five rooms, bath and basement garage. Plans complete and work to be done by Day Labor.

SAN FRANCISCO — Residence, 2 story and base, frame, $5,000. Architects, Heiman & Schwartz, 212 Stockton street, S. F. Owner, Henry Clift. Location, St. Francis Wood. Will contain seven rooms and bath. Separate garage. Plans complete and new figures being taken.

SAN FRANCISCO — Residence, 2 story and base, frame, $8,000. Architects, Koenig & Christiansen, Humboldt Bank Bldg., S. F. Owner, Mrs. M. Koenig. Location, 14th avenue and Clement street. Will contain eight rooms, two baths and separate garage. Plans being prepared.

SAN FRANCISCO — Residence, 2 story and base, frame, $10,500. Architect, none. Owners, Allen & Co., 125 Sutter street, S. F. Location, north El Camino Del Mar east 32nd avenue. Will contain ten rooms, three baths and garage. Plans complete and work to be done by Day Labor.

SAN FRANCISCO — Residence, 2 story and base, frame, $4,000. Architect, none. Owners, Leigh & Schultz, 739 34th avenue, S. F. Location, west 19th avenue north Cabrillo. Will contain seven rooms and bath. Basement garage. Plans complete and work to be done by Day Labor.

SAN FRANCISCO—Residence, 1½ story and base, frame, $2,500. Architect, none. Owners, F. Nelson & Sons, 2701 Lincoln Way, S. F. Location, northeast Portola Drive and 14th avenue. Will contain five rooms, bath and basement garage. Plans complete and work to be done by Day Labor.

OAKLAND, CAL—Residence, 1 story and base, frame, $1,500. Architect, none. Owner, Joe St. Mary, 2228 Auseon avenue, Oakland. Location, north Peach east 69th avenue. Will contain five rooms and bath. Plans complete and work to be done by Day Labor.

PIEDMONT, ALAMEDA CO., CAL.—Residence, 2 story and base, frame, $15,000. Architect, William E. Milwain, Albany Bldg., Oakland. Owner, A. W. Clark. Location, Sierra avenue. Will contain twelve rooms and three baths. Sleeping porches and separate garage. Plans are being prepared.

BERKELEY, ALAMEDA CO., CAL.—Residence, 1 story and base, frame, $1,200. Architect, none. Owner, Ira E. Fountain, 4322A 22nd street, San Francisco. Location, north Derby west Mabel. Will contain five rooms and bath. Plans complete and work to be done by Day Labor.

OAKLAND, CAL. — Residence, 2 story and base, frame, $4,500. Architect, none. Owner, Thomas White, 414 36th street, Oakland. Location, southwest 42nd and Emerald streets. Will contain nine rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

OAKLAND, CAL. — Residence, 1 story and base, frame, $2,000. Architect, none. Owner, M. Hollsted, 1009 East 14th street, Oakland. Location, south Valla Vista avenue east Santa Clara. Will contain five rooms and bath. Plans complete and work to be done by Day Labor.

OAKLAND, CAL. — Residence, 1 story and base, frame, $2,000. Architect, none. Owner, A. K. Harmon, Jr., 1842 12th avenue, Oakland. Location, east Derby north East 12th street. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

OAKLAND, CAL. — Residence, 2 story and base, frame, $4,000. Architect, W. E. Schirmer, Dalziel Bldg., Oakland. Owner, F. R. Jordan. Location east Harvard Road north Annerly. Will contain six rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

OAKLAND, CAL. — Residence, 1 story and base, frame, $1,500. Architect, none. Owner, E. M. Marquis, 2827 Russell street, Berkeley. Location, west 54th avenue south East 14th street. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

OAKLAND, CAL. — Residence, 1 story and base, frame, $2,500. Architect, none. Owner, M. C. Vaughn, 5883 Ayala street, Oakland. Location, west 18th avenue north East 14th street. Will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

BERKELEY, ALAMEDA CO., CAL.—Residence, 1 story and base, frame, $1,200. Architect, none. Owner, A. Virzi, 2414 Bryon street, Berkeley. Location, east Bryon south Channing Way. Will contain four rooms and bath. Plans complete and work to be done by Day Labor.

ALBANY, ALAMEDA CO., CAL. — Residences, 46, 1 story and base, frame, $1,500 each. Architect, none. Owner, C. M. MacGregor, 470 13th St., Oakland. Each house will contain five rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

PIEDMONT, ALAMEDA CO., CAL.—Residence, 2 story and base, frame, $15,000. Architect, John Hudson Thomas, First National Bank Bldg., Berkeley. Owner, Mrs. I. H. Crosby. Will contain ten rooms, three baths and sleping porches. Separate garage. Plans complete and figures being taken.

OAKLAND, CAL. — Residence, 1 story and base, frame, $1,500. Architect, none. Owner, W. H. Wheeler, 3105 Woodbine avenue, Oakland. Location, south Woodbine avenue west Fruitvale. Will contain five rooms, bath and sleping porch. Plans complete and work to be done by Day Labor.

ROSS VALEY, MARIN CO., CAL.—Residence, 1½ story and base, frame, $2,500. Architects, O'Brien Bros., 240 Montgomery street, S. F. Owner, A. Gunzendorfer. Will contain six rooms, bath and sleeping porch. Plans complete and figures being taken.

FRESNO, FRESNO CO. CAL.—Residence, 1 story and base, frame, $3,000. Architect, none. Owners, Alta Vista Homes Co., Fresno. Location, Alta Vista Tract. Will contain eight rooms, bath and sleeping porch. Plans complete and work to be done by Day Labor.

FRESNO, FRESNO CO., CAL.—Residence, 2 story and base, frame, $3,800. Architect, none. Owner, N. C. Buwalds, 901 Mono street, Fresno. Location, Iowa Addition. Will contain seven rooms, bath and sleeping porch. Separate garage. Plans complete and work to be done by Day Labor.

HOLLYWOOD, LOS ANGELES CO., CAL.—Residence, 2 story and base, hollow tile. Cost not stated. Architect, Frank L. Meline, 6778 Hollywood Boulevard, L. A. Owner, Mr. Graham. Location, Laughlin Park. Will contain fourteen rooms and four baths. Separate garage. Plans are being prepared.

SAN FRANCISCO — Residence, 2 story and base frame, $7,500. Architect, August Nordin, Mills Bldg., S. F. Owner's name withheld. Location,

Ocean avenue. Will contain eight rooms, two baths and basement garages. Plans complete and figures being taken.

SAN FRANCISCO — Residence, 1 story and base, frame, $2,500. Architect, none. Owner, John T. Trainor, 6315 Geary street, S. F. Location, east 22nd avenue north Anza. Will contain six rooms and bath. Basement garage. Plans complete and work to be done by Day Labor.

SAN FRANCISCO — Residence, 3 story and base, frame, $35,000. Architect, Frederick H. Meyer, Bankers' Investment Bldg., S. F. Owner, George B. Cooper. Location, north Pacific east Steiner. Will contains fourteen rooms, three baths and conservatory. Separate garage. Plans complete and figures being taken.

SAN FRANCISCO—Residences, 2, 2 story and base, frame, $7,000 each. Architect, Edward E. Young, 251 Kearny street, S. F. Owner, Georgiana M. Perkins. Location, north Washington west Buchanan. Each house will contani eight rooms and two baths. Basement garages. Plans complete and work to be done by Day Labor.

Contracts Awarded.

OXNARD, VENTURA CO., CAL. — Residence, 2 story and base, hollow tile, $15,348. Architect, Alfred F. Priest, Fay Bldg., L. A. Owner, Louis Maulhardt. Contractor, Thomas Carroll, Oxnard. Contract price, $15,348.

PENDLETON, ORE.—Residence, 2 story and base, frame, $20,000. Architec,t Raymond W. Hatch, Pendleton. Owner, L. L. Rogers. Contractor, O. Koeppen, Portland. Contract price, $20,000.

SEWERS, STREET WORK & WATER SYSTEMS.

DALY CITY, San Mateo Co., Cal.—Bids will be received until June 11, 1917, 8 P. M., for the improvement of Sections A, B, C, D, E, F, G and H, by grading, construction of combination cement gutters and armored cement concrete curbs and cement concrete sidewalks; 4,6 and 12-inch vitrified, salt-glazed, iron stone pipe, lateral sewers, with wyes of same material; storm water sewers together with laterals, brick catch basins and brick manholes; an asphaltic concrete pavement consisting of a 4-inch cement concrete base and 1½-inch asphaltic concrete surface be constructed in the roadway; a vitrified brick pavement, laid upon a 4-inch cement concrete base, 10-feet wide, etc.

RED BLUFF, Tehama Co., Cal.—County Clerk H. G. Kuhn will receive bids up to June 12th, 10 A. M., for paving the Kauffman causeway, in road district No. 3, in accordance with specifications namely: Specifications for paving of the Gridley design and specifications for the Topeka design.

Blanks and information relating to this circular (No. 1146) may be obtained from this office or the office of the Assistant Purchasing Agent Fort Mason, San Francisco, Cal.; also from the United States Engineer Offices in the principal cities throughout the United States.—Earl I. Brown, Major, Corps of Engineers, U. S. A., General Purchasing Officer.

STATE OF CALIFORNIA. DEPARTMENT OF ENGINEERING.

CALIFORNIA HIGHWAY COMMISSION NOTICE TO CONTRACTORS.

SEALED PROPOSALS will be received at the office of **the California Highway Commission, 515 Forum Building, Sacramento, Cal., until 2 o'clock P. M. on June 4, 1917,** at which time they will be publicly opened and read for construction in accordance with the specifications therefor, to which special reference is made, portions of State highway as follows:

Shasta County, between Northerly boundary and Hazel Creek (II-Sha-3-D) about 11.2 miles in length to be graded.

Tulare County between Southerly boundary and Earlimart (VI-Tul-4-A), about 6.6 miles in length to be paved with Portland cement concrete.

Tulare County, between Earlimart and Pixley (VI-Tul-4-A), about 5.9 miles in length to be paved with Portland cement concrete.

Los Angeles County, between Seeley's Ranch and a point near Acton (VII-L. A-23-D), about 10.6 miles in length to be paved with Portland cement concrete.

Plans may be seen, and forms of proposals, bonds, contract, and specifications may be obtained, at the said office, and they may be seen at the office of the Division Engineers at Los Angeles and San Francisco, and at the office of the Division Engineer of the division in which the work is situated. The Division Engineers offices are located at Willits, Dunsmuir, Sacramento, San Francisco, San Luis Obispo, Fresno, and Los Angeles.

No bid will be received unless it is made on a blank form furnished by the Commission. The special attention of prospective bidders is called to the "Notice to Contractors" annexed to the blank form of proposal, for full directions as to bidding, quantities of work to be done, etc.

The Department of Engineering reserves the right to reject any or all bids or to accept the bid deemed for the best interests of the State.

NEWELL D. DARLINGTON,
CHARLES F. STERN,
HENRY J. WIDENMANN,
California Highway Commission
AUSTIN B. FLETCHER,
Highway Engineer.
WILSON R. ELLIS,
Secretary. (*)

Dated, May 8, 1917.

BAKER-HANSEN

POSITIVE DISPLACEMENT

VACUUM CLEANERS AND BLOWING MACHINES

In offering the Baker-Hansen line of positive displacement Vacuum Cleaning and Blowing Machines we have maintained the highest point of efficiency and simplicity which is the result of years of experience, study and development, all fully protected by patents. The Architect that specifies Baker-Hansen products makes no mistake and is assured of giving his clients the most satisfactory equipment possible to install.

Model A ½ HP Residence size Baker-Hansen Vacuum Cleaner Positive Displacement

Baker-Hansen Vacuum Pumps and Blowers

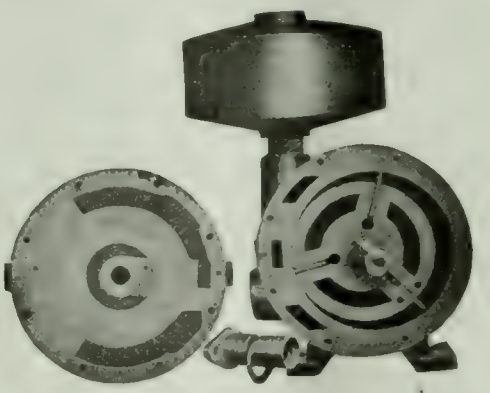
have been used by Vacuum Cleaner Manufacturers for the past four years giving the best of satisfactory service on hundreds of installations. Realizing the field and necessity for a positive vacuum cleaner that will meet every demand, being simple in construction, easy to operate at a minimum expense, we have taken over many patents in addition to the patents owned and controlled and since adding this line we have been working to develop and add the minor refinements to make the line most complete.

Great care has been taken in bearing construction, to have same as simple as the construction of the Electric Motor bearing, thus the oiling and care to be given the Baker-Hansen Positive Displacement Vacuum Cleaners is reduced to the minimum.

Main Office and Factory

744-758 Twenty-Third Ave., Oakland, Cal.

All Baker-Hansen Positive Displacement Vacuum Cleaning and Blowing Machines



are of the same construction and general appearance as the Model A residence size shown in the large cut.

NO BUILDING TOO LARGE BUILT IN ALL SIZES

ANY NUMBER OF SWEEPERS

PRICES

Model A ½ HP Vacuum Cleaner with set of tools, 25 ft. vacuum hose, residence or apartment .....1 Sweeper	$185.00

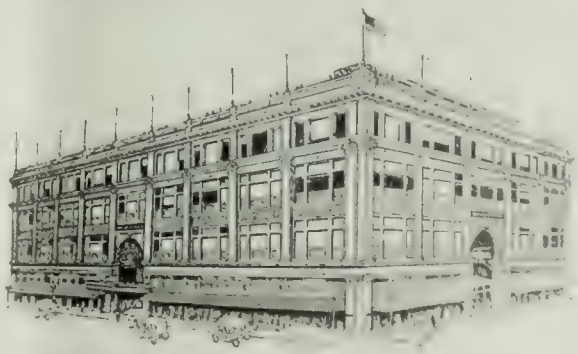
Model F 10 HP Vacuum Cleaner and Blower for Office Buildings, Schools, Apartment Houses, Hotels, etc..4 or 6 Large Sweepers	

The HEART of the Vacuum Cleaner. Blower and Vacuum Pump with cover removed.
Simple, Positive, Efficient.
Gold Medal P. C. I. E. 1916.
Extra hose furnished when desired.
Also Flexible Metal Hose.

We can furnish machines for a dozen sweepers or more if necessary for the job.



The above prices are f. o. b. Factory. We do not list the prices on Models C, D, E, F, etc., for the reason that power available and specifications vary, all of which govern the prices of the larger sizes.

Reasons why your cleaner should be a

BAKER-HANSEN

1. It cleans.
2. Simple and easy to operate.
3. Minimum of expense to maintain.
4. Positive in action.
5. No dust; cleans walls, furniture, etc.
6. Will last a life time.

Architect.....Ralph P. Morrell, I. O. O. F. Bldg., Stockton, Cal.
Contractor....Thomas Lewis, Stockton.
COST, $25,000

STOCKTON, San Joaquin Co., Cal., May 23, 1917—Members of the city council and a few interested citizens, including a number of architects, held an informal meeting Wednesday afternoon, during which a discussion of the proposed building ordinance took place.

A few objections were made, but nothing definite regarding the matter was done.

Later on a number of night meetings will be held so that contractors, painters and in fact all of the building trades interests in the community will be invited to attend and examine the provisions of the proposed law.

Aviation and sub-marine bases, we are told, are to be established at five Pacific Coast points from Washington to the southern California line. The submarine bases at Mare Island will cost $490,000 and the aviation bases at the same place $375,000, according to reports. Of this amount a very considerable will be expended in construction. Will local bidders be informed that these contracts are to be let?

In this connection it is both interesting and pleasing to read the latest order issued by Paymaster General McGowan of the Navy Department relating to the purchase of supplies, etc.:

Competition for Navy Contracts

Paymaster General Samuel McGowan, U. S. Navy, has issued an order which will prevent the waiving of competition except in extraordinary cases. He says that it is undesirable to indorse requirements with recommendation that competition be waived "in favor of" one or another firm or person; he adds that the sole consideration should be the exigencies of the service "competition being waived, if at all, 'in favor of' the United States." It is further pointed out that it is not difficult under the most pressing circumstances to obtain competitive quotations and thus the established practice of the bureau of supplies and accounts of the Navy Department will be adhered to with exceedingly few exceptions. Paymaster General McGowan adds:

"In view of all these facts, the paymaster general is convinced that nothing much more demoralizing and more completely destructive of the integrity of the navy's entire supply system could possibly occur than for this department to once start in conferring on anybody blanket authority to waive competition."

Word comes from Washington stating that a contract will be awarded very shortly to James A. Stewart Construction Co. of Chicago, for the construction of the six Army and Navy aviation camps provided for by an emergency appropriation totaling $185,000,000. While the major portion of the appropriation will be expended for equipment and maintainence, the item of construction involves an immense expenditure.

At least one of these aviation camps will be erected in California. This fact is shown by the recent purchase of North Island, near San Diego, from John D. Spreckels at a cost of $1,800,000. This island, containing a total of 1,200 acres, has been placed under the control of the Army and Navy Aviation Corps. This camp will probably be the only aviation center in the Department of the West, although a smaller camp has been considered and may possibly be located either near San Francisco or in Oregon or Washington.

Some insight into the method of awarding contracts for temporary construction for the army and navy is gained from the following portion of a letter received from our correspondent in Washington, D. C., and which is his reply to our request that we be informed by wire whenever the letting of contracts on this coast is being considered.

"Contracts for emergency construction for the regular army, the conscripted army, National Guard, Army Aviation Corps, Hospitals and for navy construction under the Bureau of Yards & Docks, are, in most cases, closed by verbal agreement. The fact that a particular firm will receive a contract for the construction of temporary buildings at any point becomes a matter of general gossip sometimes before the contract is closed. It is impossible to secure authentic information regarding these verbal agreements and therefore I don't believe that I could be of material assistance to you."

In this connection the attention of those interested in building activities in San Francisco is again called to the beneficial results recently obtained by the Western shipbuilders in taking up the matter of awarding Eastern firms exclusive contracts for building wooden vessels. A delegation of representative men engaged in this line of construction has recently returned from Washington bringing with them contracts for more than one hundred vessels to be built on the Pacific Coast. Their action was not criticised, and why should local contractors and material men allow the foolish fear that they may be considered unpatriotic, stop them in protesting awards of such contracts to Eastern firms?

The Railroad Commission will hear on June 21 the applications of the railroads and steamship companies of the State for an increase of 15 per cent in freight rates, or more than $8,000,000 a year. The entire membership of the Railroad Commission will sit in these important cases, and evidence will be presented on behalf of nearly a half hundred transportation concerns. The commission will hold hearings both in San Francisco and in Los Angeles. The railroads will first present their evidence at the hearings in San Francisco, which are expected to last several days, and after a period for preparation shippers and all other interested parties will be heard by the commission. Shippers of the south will have an opportunity to appear before the commission in Los Angeles.

The railroads of the entire country are now appearing before the Interstate Commerce Commission in Washington on similar pleas. Generally speaking they base their claim for a horizontal raise of 15 per cent in freight rates on the increased cost of operation through higher wages and dearer materials. The railroads of California made a joint application which was presented to the commission by F. W. Gomph, as their agent, and the steamship companies filed separate applications.

The railroads of the entire country have estimated that their expenses for the current year over the previous year, owing to increased cost of labor and material, will be more than $447,000,000 for the eight principal items of expenditure. Wages, raised by the Adamson Act are set down in this estimate as $60,000,000 higher in 1916, and other employes' wages, not affected by the eight hour law enacted by Congress and upheld by the supreme court, total $40,000,000 more than in the past 12 months.

After a very brief illness Wm. Foote Aldrich of the Capital Sheet Metal Works, of San Francisco, died last Saturday and was buried last Tuesday. Mr. Aldrich was one of the most prominent nembers of the building community. His sudden demise will be regretted by his host of friends.

WASHINGTON A $500,000 hospital for the Pacific branch of the National Home for Disabled Volunteer Soldiers probably will be allowed by this Congress. A bill appropriating this sum for the hospital, with indorsement of the War Department, was introduced recently by Representative Osborne.

Architect—Newsom & Newsom, 1748 Broadway, Oakland.

BANKS.

SAN FRANCISCO—The first definite announcement that the Anglo & London Paris National Bank, new owners of the property on the south line of Market street east of the Hobart Building, will improve this property was made Saturday.

An official speaking for the bank stated that while no architect had been selected preliminary sketches had been submitted. He further stated that a high class office structure would be erected covering the entire lot and extending through to Sutter street. The number of stories and type of construction is yet to be determined.

BONDS.

SOUTH BEND, Wash.—The question of issuing bonds of $275,000 for the construction of roads and bridges will be voted upon here June 12th. C. S. B. Henry is County Engineer.

REDONDO BEACH, Los Angeles, Co., Cal.—An election will be called shortly to vote on an issue of $300,000 for harbor improvements. An ordinance of intention has been adopted. The work proposed will provide for the improvement of the water front by building and constructing a breakwater, jetty, sea-wall and wharf, including the acquisition of the necessary land, rights of way, machinery, apparatus and other property necessary.

GUINDA, Yolo Co., Cal.—The $10,000 school bond issue with which to erect a new grammar school building, has been sold and work will be started shortly.

SANTA BARBARA, Santa Barbara Co., Cal.—The proposed bond issue in the sum of $275,000 for the erection of a new high school at Santa Barbara, failed to carry at the special election held last Friday. Architect John J. Donovan of Oakland has prepared preliminary plans for the buildings.

HAYWARD, Alameda Co., Cal.—The City Attorney will be asked to prepare proceedings to call a bond election to vote $10,000 for the construction of two new ward schools. Some time ago $20,000 were voted to erect two new schools in the south and north ends of town.

ANDERSON, Shasta Co., Cal.—The $40,000 school bond issue held recently was defeated. The issue was to provide for a new high school.

FRESNO, Fresno Co., Cal.—The Fortuna School District is considering an issue of bonds in the sum of $8,000 to erect a new school building.

WOODLAND, Yolo Co., Cal.—The Supervisors have sold the $20,000 grammar school bond issue for the Esparto School District and a new building will be under construction within the next few weeks. W. H. Weeks, 75 Post Street, San Francisco, is the architect, and bids are being called for to close sometime in June.

LYNWOOD, Los Angeles Co., Cal.—Bonds in the sum of $30,000 have been voted for the erection of a new school building in the Lugo school district near Lynwood.

PASO ROBLES, San Luis Obispo Co., Cal.—The City of Paso Robles has purchased through a bond issue the water

system of the Midlands County Public Service Corporation for $33,170.85.

BRIDGES AND DAMS.

OLYMPIA, Wash. The State Highway Commission has rejected all bids submitted for the construction of the Coweman River bridge. The lowest bid being $20,165, also for the Olympic Highway between Mud Bay and McCleary, lowest bid being $22,524, and for the Kalama River bridge and, Olmypic Highway in Thurston and Grays Harbor Counties the bids being too high.

SAN DIEGO, San Diego Co., Cal.—Bids will be received by the Board of Supervisors up to 2 P. M. of June 18, for the construction of a wood pile trestle bridge across Viegas creek on state highway, San Diego to Imperial, Div. VII S. D. County Route 12, Sec. D., at Sta. 193 plus 0 0. Also for a reinforced concrete bridge over Pine Valley creek on state highway, San Diego to Imperial, Div. VII S. D. County, Route 12, Sec. D, between Station 825 plus 51 to Station 826 plus 96, in accordance with the plans and specifications on file in the office of the Board of Supervisors. Certified check for 5% required. J. B. McLees is clerk.

CLIFTON, Ariz.—Bids will be received by the Town Clerk up to 8 P. M. of June 25, for constructing a reinforced concrete bridge over the San Francisco river. Plans ond specifications may be obtained from A. J. Kerr, engineer, upon deposit of $5. Certified check for $2,000 required. Matt Danenhauer is the Clerk.

NOGALES, Ariz.—No bids were received by the Treasury Department, Washington, D. C., for the construction of a bridge on the Customs Reservation, near Nogales

MARYSVILLE, Yuba Co., Cal.—The County Supervisors have engaged Engineer Erle L. Cope, 1st National Bank Bldg., San Francisco, to prepare plans and specifications for the proposed steel and wood bridge to be erected over the Feather River at Nicolaus. Cope will superintend the construction of the bridge which is estimated to cost $120,000 and for which funds will be paid by a direct tax.

VANCOUVER, Wash.—Bids are being received by Clark and Cowlitz Counties for the construction of the proposed Yacolt-Yale bridge to be constructed twelve miles north of Yacolt, in Clark County.

Plans may be had from County Engineer B. L. Dorman of Clarke County.

Plans provide for a wood arch bridge and a combination wood and steel suspension bridge to be 360 feet long.

OAKLAND, Alameda Co., Cal.

A protest has been filed with the Oakland City Council objecting to further extension of time being granted to the Southern Pacific Co. in the matter of maintaining the Oakland Long wharf. The original agreement called for the removal of the wharf by the fall of 1918.

CHURCHES.

Plans Being Figured. Bids Close June 8th, 6 P. M.
BRICK CHURCH. COST, $10,000
FRESNO, Fresno Co., Cal. Coast and Summer Avenues.
Brick church.
Owner—Danish Lutheran Church.
Architect—Henry F. Starbuck, 2550 Merced St., Fresno, Cal.

FACTORIES AND WAREHOUSES.

SPOKANE, Wash.—Plans are being prepared by a Tacoma, Washington, firm of engineers for a reinforced concrete flour mill to be erected in Spokane, Washington, by the Sperry Flour Co., 332 Pine street, San Francisco. The first unit will have a capacity of 750 barrels per day, and this output will be increased later to 1,500 barrels.

OAKLAND, Alameda Co., Cal.—Masow & Morrison, Monadnock Bldg., San Francisco, have been awarded the contract for the balance of the construction at Albers Bros. new plant in Oakland on a bid of about $250,000.

A six-story reinforced concrete mill building, 62x182 feet, with 32 reinforced concrete tanks, 70x30 feet, and a two-story mill constructed warehouse, 170x418 feet and a dock is included in a contract taken for about $177,000. Additional work not before mentioned brings the total up to $250,000.

Plans were prepared by Engineer R. M. Henningsen, Security Bank Bldg., Oakland. The contractors will sublet portions of the work.

BAKERSFIELD, Kern Co., Cal.—Construction of a beet sugar factory, to cost, including machinery, $800,000, will start in July. E. U. Combs of the San Joaquin Valley Sugar Company, at Visalia, is authority for this information. The factory, which will have a capacity of 1000 tons a day, is being promoted by James Pingree, president of the Pingree Sugar Company, at Corcoran; Job Pingree, and E. A. Nickerson, San Francisco, president of the San Joaquin Valley Sugar Company.

LOS ANGELES, Cal.—The Los Angeles Shipbuilding & Drydock Company has commenced work on the first of the buildings to be erected at Los Angeles Harbor. The buildings to be erected at this time are an office and store house. The dredging to construct four ship ways and reclaim the land on which other buildings are to be erected will be started at once. The officers of the company are Fred L. Baker, S. L. Naphthaly, Fred A. Gardner, general superintendent and chief engineer; and Stoddard Jess, J. F. Sartori and Dan Murphy.

The four ship ways will each be 500 feet long by 60 feet wide. There will be over 900 piles in each. Three more ways will be built when the second unit of the plant is added.

The largest structure of those to be built this summer will be the "laying-out" building, 600x100 feet and two stories high; machine shops, 400x100 feet; foundry, 300x100 feet and the carpenter shops of like dimensions. The office building will cover a ground area of 200x100 feet; boiler shop, 200 x100 feet; general warehouse, 350x100 feet; a storagehouse and rivet shop, 300x75 feet; air compressor; electrical shop, 150x100 feet; a pipe shop, 200x 100 feet. There will also be a wharf, 500 feet long by 60 feet wide, equipped with "sheer legs" and other lifting machinery

SAN DIEGO, San Diego Co., Cal.—The Tracy Engineering & Ship Building Company has been organized by Theron H. Tracey of Los Angeles, and will locate a shipbuilding plant on a 20-acre tract of land a few miles south of San Diego. The company has purchased nine buildings and the machinery of the Tracy Brick & Art Stone Company, and will add other buildings to the plant and install additional machinery. A contract for the dredging of a channel will be let within thirty days. The organization is capitalized at $250,000 and the officers are: Theron H. Tracy, Chas. A. A. McGee, Samuel A. Parnell, general manager; William E. Provost, assistant general manager; and H. M. Barstow of Los Angeles.

GOVERNMENT WORK & SUPPLIES.

SAN DIEGO Co., Cal.—The United States Army Department has selected 8,000 acres near Linda Vista, San Diego county, as the site for a training camp for the new army to be raised. Construction work will be started as soon as the formalities of executing a lease with the government have been completed. The City of San Diego is to construct roadways to the site and provide water, gas and electricity. The Santa Fe Railway Company will construct a spur track to the camp.

It is estimated that approximately 200 buildings will be erected at the camp which is to accommodate 30,000 soldiers. About 30,000,000 feet of lumber will be required and the labor will amount to $200,000. Colonel O'Neil at San Diego, states that he expects to receive orders to commence construction work at once and bids on lumber and other materials will be called for immediately..

SEALED PROPOSALS for furnishing one new or second-hand double effect or triple effect vacuum pans and vacuum crystalizing pan, all with salt pots and circulation systems, of a capacity of not less than four thousand gallons per day of 16 hours, to the Department of Agriculture at Summerland, Cal., will be received until noon Friday, June 15. Envelopes containing proposals should be endorsed: "Proposals for furnishing vacuum pans," and mailed to DR. J. W. TURRENTINE, Arlington Hotel, Santa Barbara, Cal., from whom blank forms and additional information may be obtained.

Word comes from Washington, D. C., that a contract covering the complete construction of the six aviation camps, authorized by the Army and Navy, will be awarded to James A. Stewart Co. of Chicago. At least one of these camps, that on North Island near San Diego, will be in California. It is possible that two smaller camps maybe constructed, one near San Francisco and the other in either Oregon or Washington. The camp at North Island comprises a large amount of temporary construction which will cost well over $1,000,000. North Island was recently purchased from John D. Spreckels at a cost of $1,800,000.

Laguna, N. Mex., Laundry Building.

The following bids were received by the commissioner of Indian affairs, Washington, D. C., for constructing a laundry building, including equipment at the Laguna Sanitorium, Laguna, N. Mex.:

American Laundry Machinery Co., Chicago, Ill., $28,287.

Troy Laundry Machinery Co., 133 Center street, New York city, for laundry machine, f. o. b. Chicago, $1,-749; do, machine, f. o. b. Laguna, $1,-972.95; laundry machine as specified, millwright fitting, $2,036.85; to erect machinery, add $256; to cart machinery, $50.

Coast Guard Station No. 2.

The bid of J. Eric Johanson, San Francisco, Cal., $9,988 in amount, has been accepted for constructing Coast Guard Station No. 2 at Bolinas Bay, Cal. The work will be completed within 100 days.

Excavation, Etc.

The Secretary of the Interior has authorized the award of contract for excavation and earth lining on Nelson Reservoir, South Canal, Milk River irrigation project, Montana, to Rolla Barnes, of Malta, Mont. The contract price is $8,750.

Mare Island, Shell House.

Contract for the construction of a shell house and laboratory at the navy yard, Mare Island, Cal., has been awarded to Lange & Bergstrom at $21,934.

Nogales, Ariz., Bridge.

The supervising architect, Treasury Department, Washington, D. C., has awarded the contract for constructing a bridge at Nogales, Ariz., to Lown & Woods, Nogales, Ariz., at $7,000. Time to complete, 3 months.

SEATTLE, Wash.—Word has been received here from Col. Isaac Littell, of the Construction Quartermaster's Department, War Department, Washington, D. C., that no bids for improvements at American Lake will be called.

An award will be made to a contractor who will be selected by the Building Committee of the U. S. Munitions Board without competition.

Santa Fe, N. Mex., Heating, Etc.

The following bid was received by the supervising architect, Treasury Department, Washington, D. C., for repairs to heating, plumbing, wiring, lighting fixtures, etc., in the U. S. court house at Santa Fe, N. Mex.:

Noland-Clifford Co., Newport News, Va., $3,384, 100 days.

Boise, Idaho, Post Office.

In the construction of an extension to the U. S. post office at Boise, Idaho, the contract for which was awarded to Welch Bros. & Hannaman, Kalispell, Mont., nonconducting coverings manufactured by the Gillen-Chambers Company and air valves for radiators and hot water tank manufactured by the American Radiator Company will be used.

Pueblo, Colo., Heating.

No bids were received by the supervising architect, Treasury Department, Washington, D. C., in response to an advertisement for bids for making repairs to heating system in the U. S. post office at Pueblo, Colo.

Contract Awarded

AWARDS OF TWO GOVERNMENT CONTRACTS APPROVED.

Lange & Bergstrom, Sharon Bldg., San Francisco, have been formerly awarded the contract for constructing the shell house at Mare Island on their bid of $21,934.

J. Eric Johanson, 1832 Franklin St., San Francisco, has been awarded the contract for constructing Coast Guard Station No. 2 at Bolinas Bay on his bid of $9,988.

(13514) 1st report Jan. 18; 3rd May 14, 1917 and (15201) 1st report Apr. 11; 2nd May 15, 1917.

SEWERS, STREET WORK & WATER SYSTEMS.

SACRAMENTO, Cal.—The County of Sacramento, through Purchasing Agent George Vice, has placed an order for 40,000 barrels of cement to be used in the construction of the county highway system. Bids were received for cement by the county several weeks ago, but declaring a combine existed all bids were rejected.

WATTS, Los Angeles Co., Cal.—T. H. Heinauer, Watts, was the lowest bidder at $22,809.86 for improving Main street. The approximate quantities are 94,288 sq. ft. Topeka paving; 4012 lin. ft. curb, 12,167 sq. ft. sidewalk; 2,042 lin. ft. 8-inch vitrified pipe sewer; 2,940 lin. ft. 6-inch vitrified pipe sewer; 3 manholes; 2 flush tanks and 44 one-light ornamental concrete lighting standards. G. R. Curtis bid $22,760.60 but omitted a figure on 6-inch pipe. The bids were taken under advisement until May 29.

FAIRFIELD, Solano Co., Cal.—The Solano County Board of Supervisors have passed a resolution of intention providing for road work in the Third District. The district being divided into Suisun No. 1, 2 and 3, and Green Valley No. 1. Plans now on file in the office of the County Recorder, call for grading, paving and macadamizing for roads 20 feet wide.

The mileage and estimated cost of the work in each district is as follows:

Suisun No. 1—Five miles; estimated expense, $49,000.

Suisun No. 2—Nine miles; estimated aggregate expense, $115,500.

Suisun No. 3—Six miles; estimated aggregate expense, $59,500.

Green Valley No. 1—Five miles; estimated aggregate expense, $60,000.

YUMA, Ariz. New bids will be received by the City Clerk up to 5 P. M. of June 12, 1917, for constructing bitulithic paving, etc., on Second avenue and other streets. The cost will be about $80,000. E. W. Dahl is the City Clerk.

SACRAMENTO, Cal. The following is a list of the lowest bidders on highway work as opened by the State Highway Commission, May 28th:

Yolo County, at Davis (III-Yol-6-A), an undergrade crossing with the Southern Pacific Railroad, including sub-structure for subway and about 1200 feet of Portland cement concrete pavement.

T. M. Olney, 358 Vernon St., Oakland, $13,600.

Engineer's Estimate, $11,874,56.

Solano County, between Batavia and Putah Creek (III-Sol-7-E), about 8.4 miles in length to be paved with Portland cement concrete.

T. M. Olney, Oakland, $48,591.50.

Engineer's Estimate, $50,451.65.

Santa Barbara County, between Zaca Station and Los Almos (V-S.B-2-C), about 9 miles in length to be paved with Portland cement concrete.

W. A. Dontanville, Salmas, $63 084.

Engineer's Estimate, $70,498.74.

Ventura County, between Santa Clara River and Ventura (VII-Ven-2-C), about 4 miles in length to be paved with Portland cement concrete.

Conner Contracting Co., Los Angeles, $27,461.

Engineer's Estimate, $27,482.82.

Tulare County, between ¼ mile west of Visalia and Tulare (VI-Tul-4-C), about 9 miles in length to be paved with Portland cement concrete.

J. H. Shafer, Los Angeles, $46,265.50.

Engineer's Estimate, $47,613.45.

SAN FRANCISCO, Cal.—The San Francisco Board of Public Works will receive bids up to June 8th for excavating, paving and fencing work about the Fairmount and Daniel Webster Schools.

Plans may be had from the Bureau of Architecture, 2nd Floor, City Hall.

STOCKTON, San Joaquin Co., Cal.—Bids opened by the City Council for the construction of a vitrified pipe sewer in El Dorado street, between Worth and South streets and in Grant street from Miner avenue to Oak street, have been taken under advisement. The bids follow:

Chambers & Heafey, Bacon Bldg., Oakland, $3,495.68; Frank C. McIntire, 215 E-Weber St., Stockton, $3,879.63; W. F. Edwards, 675 31st St., Oakland $4,453.70; Tibbetts-Pacific Co., 16 California St., San Francisco, $6,441.22.

VISALIA ,Tulare Co., Cal.—County Engineer Lovelace has completed plans and specifications for consideration by the Board of Supervisors, for about 17 miles of additional Tulare county highway extending from Lindsay to Exeter and from Porterville to a point south of Terra Bella.

WOODBURN, Ore.—Plans for an improved sewage system have been completed by L. B. Wickersham, City Engineer of Woodburn, and are now in the hands of the State Engineer for approval. The system will cost about $30,000.

SACRAMENTO, Cal. — The State Highway Commission, Forum Bldg., Sacramento, will receive bids until June 25, 1917, 2 P. M., for the following

Yolo County between Blacks and Hershey (III-Yol-7-C), about 10.8 miles in length, to be paved with Portland cement concrete.

Alameda County, between Altamont and Greenville (IV-Ala-5-A), about 3.7 miles in length, to be paved with Portland cement concrete.

Napa County, between Napa and the easterly county boundary (IV-Nap-8-B), about 8.6 miles in length, to be paved with Portland cement concrete.

Monterey County, between Camphora and Chualar (V-Mon-2-C), about 11 miles in length, to be paved with Portland cement concrete.

Tulare County, between Pixley and Tipton (VI-Tul-4-A & B), about 6.4 miles in length, to be paved with Portland cement concrete.

Tulare County, between Tipton and Tulare (VI-Tul-4-B), about 9.2 miles in length, to be paved with Portland cement conrrete.

Plans may be seen, and forms of proposals, bonds, contract, and specifications may be obtained, at the said office, and they may be seen at the office of the Division Engineers at Los Angeles and San Francisco, and at the office of the Division Engineer of the division in which the work is situated. The Division Engineers offices are located at Willits, Dunsmuir, Sacramento, San Francisco, San Luis Obispo, Fresno, and Los Angeles.
(16398)

RICHMOND, Contra Costa Co., Cal.—Bids are being received by City Clerk A. C. Faris up to June 11th, 8 P. M., for the following work:

That a portion of Garrard Boulevard bet. the entension westerly of the southerly line of Ohio avenue and the extension southeasterly of the southwesterly line of Standard avenue, and a portion of Standard avenue between the northwesterly line of Garrard Boulevard and the extension northeasterly of the southeasterly line of Railroad avenue, be graded, paved with 6-inch cement concrete base with a paint coat wearing surface of asphalt and stone screenings.

That portions of the existing gutters be removed, and that a conrrete catch basin be constructed and that the existing wing walls at the culvert at Maine avenue, be reconstructed.

LOS ANGELES, Los Angeles Co., Cal.—Bids will be received by the Board of Public Works up to 10 A. M. of June 11, for improving St. Andrews Place from Temple street to Third street, and portions of First street, Second street, and Third street, by the construction of asphalt pavement, granite block gutters, concrete gutters, and other work. Ord. 36,581.

BERKELEY, Alameda Co,, Cal.—City Clerk A. G. Briggs will receive separate bids up to June 12th, 10 A. M., for the following work:

That portions of Euclid Avenue and Vine street be graded, concrete curbs and gutters 2 feet wide be constructed; storm water inlets with castiron frames and gratings; a vitrified pipe culvert; cast iron concrete culverts with branches and manholes; concrete steps with end walls and posts, be constructed of the sizes, in the manner and at the places indicated on the plans and specifications hereinafter referred to; a concrete sidewalk 5 feet wide, an 18-inch vitrified iron stone pipe sewer, galvanized iron conduot pipe be laid of the sizes, in the manner and at the places indicated on the plans and specifications hereinafter referred to; portions of the roadway be paved with brick pavement laid on a 4-inch concrete base; be macadamized and to be paved with a 2-inch asphaltic wearing surface, laid on a 5-inch concrete base.

That a 6-inch vitrified ironstone pipe sewer be constructed on Dwight Way in the vicinity of Sacramento street; brick manholes 4 feet in diameter be constructed along the line of said sewer.

VISALIA, Tulare Co., Cal.—The following bids were received by the Tulare County Supervisors for the construction of 9.14 miles of county highway from a point west of Visalia to the city limits of Tulare, past Mooney Park:

Shafer Bros., 1614 West Temple St., Los Angeles, $46,265.

Lee Garnsey, 514 Central Bldg., Los Angeles, $63,366.

Rogers Bros., Hibernian Bldg., Los Angeles, $60,583.

The engineer's estimate was $47,613.

Contract Awarded.

SACRAMENTO, Cal. — Purchasing Agent George Vice of Sacramento County has placed an order for 4,100 barrels of cement with Henry Cowell Lime & Cement Co., for $2.10 per barrel. Sacramento County will buy a total of 175,000 barrels of cement and the balance of this order maybe placed with Henry Cowell Lime & Cement Co. if the Purchasing Agent so desires and without the formality of advertising for bids.

SANTA PAULA, Ventura Co., Cal.—The Fairchild-Gilmore-Wilton Company, Pacific Electric Bldg., Los Angeles, was the lowest bidder and was awarded the contract at approximately $53,000 for improving portions of Santa Paula street, Mill street, Tenth and Sixth streets. Edw. Lynch of Glendale, is the engineer. The bid was 1.2c per sq. ft. for grading; 11c and 12.5c paving; 12c sidewalk, and 35c curb. The work will include 58-000 sq. ft. 4-inch concrete base with 1½-inch asphalt wearing surface and 300,000 sq. ft. of 4-inch asphalt concrete pavement.

SANTA BARBARA, Santa Barbara Co., Cal.—The Fairchild-Gilmore- Wilton Company,, Pacific Electric Bldg., Los Angeles, was the lowest bidder and was awarded a contract at $23,421 for improving De la Vina street between Montecito street and Carrillo street. The work will include grading and paving with 4-inch concrete base and 2-inch asphalt wearing surface, and constructing stone and cement curb and gutter, catch basins, lampholes, etc. The other bids received were as follows: E. Schelling, $24,405; L. A. Paving Co., $24,441; O. A. Nichols $25,747, and Municipal Improvement Co., $26,295.

SANTA BARBARA, Santa Barbara Co., Cal.—The Fairchild-Gilmore-Wilton Company, Pacific Electric Bldg., Los Angeles, was awarded a contract at $61,095 for Warrenite paving and constructing cement sidewalk, curb and gutter in Bath street and other streets.

SAN LEANDRO, Alameda Co., Cal. The Johnson Shea Co., Central Bank Bldg., Oakland, have been awarded the contract by the Trustees for the street work on the apex to the plaze. The company bid .9 per sq. ft. for grading; 20½ cents per sq. ft. for bituminous-concrete paving and 90 cents per lineal ft. for combined concrete curbs and gutters.

BELLINGHAM, Wash. The Washington Paving Co., L. C. Smith Bldg., Seattle, has been awarded the contract for concrete paving on twelve miles of the Northeast Diagonal Road near Bellingham on a bid of $192,009 by the Board of County Commissioners. This figure is $15,000 above the County Engineer's estimate.

SACRAMENTO, Cal.—The City Commissioners have awarded contracts for street improvements as follows:

That P street from Second street to Seventh street, be improved, by constructing concrete curb and concrete gutter. Awarded to F. C. Cretser, Sacramento.

NAPA, Napa Co., Cal.—The City Council has awarded a contract to G. Gaggero, Napa, for the construction of sidewalks and curbs on Main street from Pearl to First, he being low bidder at 32½ cents per lineal foot for curbs and 11½ cents per square foot for sidewalks. The only other bidder was the Gildersleeve Construction Co., at 32½ cents for curbs and 12¼ cents for sidewalks.

OAKLAND, Cal.—The City Council has awarded a contract to Bernard Ransome, 1st National Bank Bldg., Oakland, for the following work:

That Maybelle avenue, bet. lines drawn at right angles to the NW line of Maybelle avenue at points distant thereon, respectively, 525 feet and 1,025 feet NE from the NE line of Bayo street, be graded, curbed with redwood, guttered with concrete gutters, three feet wide, paved with oil-macadam, and sidewalked with cement sidewalks, six feet wide; also

That a vitrified pipe sewer having an internal diameter of 8 inches, be constructed along the center line of Maybelle avenue from the NE end of the existing sewer in Maybelle avenue to a point 196 feet NE therefrom; also

That the following structures be built on said proposed sewer, to-wit: a brick manhole and enough "Y" branches, having 5-inch openings, to provide one such branch for each 40 foot lot, and fractional lot remaining, into which the abutting property frontage is capable of being divided.

SUNNYSIDE, Wash.—The City Council has awarded a contract to the Warren Construction Co., of Portland, for paving certain streets with bitulithic pavement at $62,260.

That Fourteenth street from Q street to X street be improved by constructing concrete curb; concrete gutter; 6-inch vitrified ironstone sewer pipe drains; 8-inch vitrified ironstone sewer pipe drains; placing 16 cast iron gutter drains with 6-inch vitrified ironstone sewer pipe elbows attached; constructing 7 concrete manholes complete, and constructing thereon concrete sidewalk; filling in behind the curbs for a distance of 8 feet with earth. Awarded to F. C. Cretser.

That Forty-eighth street in Elmhurst, in the City of Sacramento, be improved from "T" street to "V" street, by excavating a trench and constructing therein 8 and 10-inch vitrified ironstone pipe sewer; 2 concrete manholes complete; placing 2 8-inch vitrifiefid ironstone inlets in concrete manholes, and backfilling the trenches. Awarded to J. W. Terrell, 1111 29th street, Sacramento.

That Forty-third street, be improved by excavating a trench and constructing therein an 8-inch vitrified ironstone pipe sewer from Eighth avenue to a point 19 feet N from the S line of Rose Avenue Tract; constructing 1 concrete manhole complete; placing 24 6-inch vitrified ironstone wye branches on 8-inch sewer, and backfilling the trench. Awarded to J. W. Terrell.

STORES AND OFFICES.

SAN FRANCISCO, Cal.

Mr. Davis, General Manager of the White House, states that Architect Morris M. Bruce, Flood Bldg., is preparing plans for alterations to be made by The White House in the Hastings Building, a four-story and basement structure at the northeast corner of Post and Grant avenue just leased for a period of 20 years.

Over $100,000 will be expended by the White House in altering this building for their purposes. Each of the four floors and basement contain approximately 8,000 square feet. Alterations will consist of elevator work, installation of an automatic sprinkler system, which will require tearing out the present ceilings, plastering, electric work, plumbing, interior trim of pine and hardwood, painting and a large amount of fixture work. Some extensive alterations are also planned for the present building occupied by the White House.

Preliminary Plans Prepared.

Owner—C. J. Heeseman.
Architect—Carl Werner, Phelan Bldg., San Francisco.

SEALED PROPOSALS

NOTICE TO CONTRACTORS.

STATE OF CALIFORNIA.

DEPARTMENT OF ENGINEERING

CALIFORNIA HIGHWAY COMMISSION

SEALED PROPOSALS will be received at the office of **the California Highway Commission, 515 Forum Building, Sacramento, Cal., until 2 o'clock P. M. on June 25, 1917,** at which time they will be publicly opened and read for construction in accordance with the specifications therefore, to which special reference is made, portions of State highway as follows;

Yolo County, between Blacks and Hershey (III-Yol-7-C) about 10.8 miles in length, to be paved with Portland cement concrete.

Alameda County, between Altamont and Greenville (IV-Ala-5-A), about 3.7 miles in length, to be paved with Portland cement concrete.

Napa County, between Napa and the easterly county boundary (IV-Nap-8-B), about 8.6 miles in length, to be paved with Portland cement concrete.

Monterey County, between Camphora and Chualar (V-Mon-2-C), about 11 miles in length, to be paved with Portland cement concrete.

Tulare County, between Pixley and Tipton (VI-Tul-1-A & B) about 6.4 miles in length to be paved with Portland cement concrete.

Tulare County, between Tipton and Tulare (VI-Tul-4-B), about 9.2 miles in length, to be paved with Portland cement concrete.

Plans may be seen, and forms of proposals, bonds, contract, and specifications may be obtained, at the said office, and they may be seen at the office of the Division Engineers at Los Angeles and San Francisco, and at the office of the Division Engineer of the division in which the work is situated. The Division Engineers offices are located at Willits, Dunsmuir, Sacramento, San Francisco, San Luis Obispo, Fresno and Los Angeles.

No bid will be received unless it is made on a blank form furnished by the Commission. The special attention of prospective bidders is called to the "Notice to Contractors" annexed to the blank form of proposal, for full directions as to bidding, quantities of work to be done, etc.

The Department of Engineering reserves the right to reject any or all bids or to accept the bid deemed for the best interests of the State.

NEWELL D. DARLINGTON,
CHARLES F. STERN,
HENRY J. WIDENMANN
California Highway Commission.
AUSTIN B. FLETCHER,
Highway Engineer.
WILSON R. ELLIS,
Secretary,
Dated; May 28, 1917. (*)
(June 2-10-17.)

BIDS WANTED FOR PURCHASE OF SCHOOL.

CLOVIS, Fresno Co., Cal.—Bids will be received by the Board of Trustees of the Clovis School District up to 8 P. M. of June 12, for the purchase of the Clovis grammar school building, a two-story structure, except the brick and furniture, and removing the same from premises. Certified check for 10% required. Requests for all papers can not be granted. Publications should be ordered by number and title. Applications should be addressed to the Director of the Bureau of Mines, Washington, D. C.

State Improvements Authorized.

SACRAMENTO, Cal.—The expenditure of $11,000 under the direction of the Architectural Division of the State Department of Engineering, for the installation of a sewerage disposal plant at Folsom Prison, has been aproved by the Advisory Board of the Department.

The Board has also approved expenditures of $3.500 for electrical work at San Quentin Prison, $8.000 for additions to the mechanical equipment of the Stockton State Hospital, $1,000 for painting buildings of the Humboldt State Normal School at Arcata, $1,500 for electrical work for the Agnews State Hospital at Agnew and $1,547 for work on cottage 12 at the Whittier State School.

OBEY EIGHT HOUR LAW.

MARYSVILLE, Yuba Co., Cal.—Complaint having been made to the City Council that the Federal Construction Company is working its employes on the street improvement contracts in Marysville nine hours a day, that body instructed the City Clerk to notify the contractors that they must live up to the terms of their agreement, which provides that eight hours shall constitute a day's work.

An extension of sixty days has been granted the company.

CITY BIDS OPENED.

An Unusual Large Number of Bids Received by Board of Public Works for Engine House No. 37.

An exceptionally large number of bids were opened by the San Francisco Board of Public Works for the construction of Engine House No. 37, a one-story and basement brick and hollow tile structure to be erected at the corner of Vermont and 25th streets from plans by Architects Ward & Blohme, Alaska Commercial Bldg. Following is a complete list of the bids opened for the various part of the work:

H. A. Klyce	$18,490
John Spelio	18,990
C. L. Wold Co.	19,488
O. Monson	18,925
F. Carlson (low)	17,840
Wright & Kohn	18,237
John Grace	18,778
E. S. Mulford	19,714
B. O. Wells	18,994
Hayes-Oser Co.	19,927
Anderson & Ringrose	20,920
F. L. Hansen	19,430
O. C. Holt	19,930
W. H. Hennings	18,588
J. H. Johnson	19,997
T. W. McClenahan	18,470

Brick and Hollow Tile Work.

Anderson & Ringrose, Prop. 1, $10,260; Prop. 2, $10,400; Prop. 3, $9,350.

J. M. Lettich (low)	5,747	5,780
Thos. Skelly	6,400	6,437

Electric Work.

F. E. Newberry	$3,600
W. T. Morris	3,610
M. Flattland	3,591
Rex Elec. Co. (low)	3,585

BIDS RECEIVED FOR SACRAMENTO SCHOOL.

Bids for Washington School Again Exceed Amount Available. No Action Taken By Board.

(By Special Wire)

SACRAMENTO, Cal.—Only two bids were opened for the erection of the new two-story and basement reinforced concrete Washington School at Sacramento yesterday afternoon.

H. S. Williams of San Francisco bid $238,216 for erection of the school as a whole and $196,816 for erection with one wing cut.

C. L. Wold & Co., of San Francisco bid $255,000.85 for complete building and $199,172.85 with one wing cut.

The bids of A. L. Peterson and the Mathews Construction Co. were not opened because they were not in proper form, as their bids were on proposed alterations only and not on the buildings as a whole as well.

The Board has not decided whether these will be received or not.

This is the second time bids were opened on this job. The first time bids ran over the appropriation of $200,000.

Williams' second bid is $11,216 higher than former bid of $227,000.

GENERAL CONTRACTORS SUBSCRIBE TO LIBERTY BONDS.

At yesterday's meeting of the Board of Directors of the General Contractors' Association held in their rooms, 110 Jessie street, $12,750 worth of Liberty Bonds were subscribed for.

OBJECT TO LONG WHARF.

Objection was filed with the City council of Oakland recently by the Albers Milling Company against the municipality granting the request of the Southern Pacific Company for an extension of five years time in which to remove Long wharf. When the Southern Pacific was granted a franchise lease on the waterfront of Oakland, according to the Albers protest, one of the conditions accepted by all concerned, including the Albers Company, was that the Long wharf should be removed by the autumn of 1918.

It is understood that the Merchants' Exchange will register objection to any extension of time at a special meeting called next Tuesday evening. The Exchange, at its meeting last Tuesday, indicated that it would oppose the proposal, but wanted more members of the body present to take official action.

OAKLAND MUNICIPAL WAREHOUSE.

Whether Oakland's municipal warehouse at the foot of Clay street shall be rented for $150 a month for June and July in accordance with the recommendation of the Oakland port commission, rests with Mayor John L. Davie. The city council of Oakland recently put it up to the executive.

The contract with the Lawrence Warehouse Company, which has occupied the warehouse for nearly two years at a free rental, expires today. It is understood that the company is willing to pay $300 for the next two months, and until the council, with its two newly-elected members taking their seats July 1, shall establish a new and more definite policy.

"As conditions now exist," recommends the port commission, of which Harrison Robinson is chairman, "the port commission believes it will be advantageous to the city to continue renting this warehouse for ten months after July 31 next at a rental not greatly differing from that above suggested."

DISCUSS ALAMEDA HOSPITAL SITE.

At a meeting of the Alameda County Board of Supervisors recently Supervisor Charles Heyer, chairman of the hospital committee, reaffirmed his intention of introducing a resolution next Monday providing for the building of a new hospital on the old California College site in Oakland. Heyer, together with Supervisors Fred W. Foss and John F. Mullins, promised the Citizens' Hospital Committeee at Hotel Oakland Tuesday evening his vote to secure the more central location of the county institution. There being but five members of the Board, the sponsorship of the three is interpreted to mean success for the project Oaklanders have been working for.

OFFER SITE FOR STATE PRINTING OFFICE.

SACRAMENTO, Cal., May 31, 1917—Supervisors R. E. Callahan and C. E. Mahoney, Commissioner Thomas Coulter and Dan W. Carmichael representing the chamber of commerce, went to the Capitol yesterday afternoon, where they had an audience with Governor William D. Stephens over the proposed site for the state printing office at Eighth and V streets. The city owns this property, but the county and city are willing to jointly donate it to the state for a printing office site, but Governor Stephens is opposed to accepting it on the ground that it is too far from the State Capitol.

The committee thinks the site an ideal location for the state printery, but they could not convince Governor Stephens to look at the matter in the light they viewed it, and the determination of the site is no nearer a solution now than it has been for months past.

SOUTHERN PACIFIC COMPANY BUILDING CARS.

SACRAMENTO, Cal., May 31, 1917—Construction of 5,900 freight cars by the Southern Pacific Company, according to an announcement made by General Manager W. R. Scott, will commence early in August.

The local shops have received orders for 1,000 of the cars, says Superintendent Neff. Work will commence as soon as the material arrives which Neff expects in August. When the 1,000 cars are completed, additional orders are expected. The Los Angeles shops will also work upon the order.

SHASTA PACKING PLANT TO TREBLE CAPACITY.

Cal., May 31, 1917—The Fall River Mills packing house is to be trebled in capacity. The plant already has cost over $20,000 and has afforded a good market for hogs and cattle.

Since the establishment of the packing plant farmers and stockraisers have gone more extensively into the hog business.

POPULARITY OF MAUERENE LIKWID SEMENT.

The First National Bank Building, located at the corner of Post and Montgomery streets, is being treated under The Imperial Company's method of waterproofing and preserving buildings.

The concrete wall on the north side of the building, including the plastered surface in the light court, is being waterproofed with Mauerene Waterproofing and cement finished with Mauerene Likwid Sement.

This will add materially to the life and appearance of another one of the City's most attractive and substantial buildings, designed by Willis Polk & Co., Architects.

It is unusual for architects, builders and owners to take hold of a new product as readily as they are doing with Mauerene Likwid Sement. This is the best evidence of the exceptional merits of this product.

The problem of obtaining efficient and lasting results from the use of wood laths for plastering often presents itself to the builder. We take pleasure in reproducing a letter from an architect who has solved this problem to his entire satisfaction.

Hanford, Cal., April 26, 1917.

The Imperial Company,
San Francisco, Cal.

Gentlemen:—In reply to your favor of April 25 as to my experience in the use of Imperial Waterproofing, would say that, while I appreciate its value as a general waterproofing medium, I have used it in a general way so little that I fear my experience would be of little use to you.

I have, however, used Imperial Waterproofing as a waterproofing for redwood grooved lath for stucco buildings for nearly seven years, and after exhaustive tests of every other material on the market which was recommended for this purpose, found that Imperial was the only material which would uniformly produce the desired result, viz: the complete waterproofing of the wood lath so that it would not absorb moisture, either from the stucco coats or thereafter.

Inasmuch as cement stucco on a wood base or lath is one of the least expensive exterior coverings yet discovered, and at the same time requiring the minimum of expenditure for maintenance, this form of building, particularly for residence work, is bound to meet with general favor—always provided that an efficient waterproofing material for the lath is used.

I have found by experiments covering nearly one hundred stucco buildings that Imperial is the one and only material which will give permanently satisfactory results in this respect. It is less expensive per square foot of area treated than even the cheapest of tar products, with none of the defects and shortcomings of the latter, such as staining of stucco by resorbtion and the various difficulties of application.

My method of application of Imperial to this use is, I believe, original with me, and I shall be pleased to answer any inquiries on the subject which may be addressed to me.

Yours very truly,

(Signed) A. MERRILL BOWSER.

THE IMPORTANCE OF OIL RESOURCES OF CALIFORNIA.

Report of Railroad Commission of The State of California.

The importance of the oil resources of California in the war emergency is signified by the appointment by Governor William D. Stephens of a committee on Petroleum Oil Production to advise the State Council of Defense. Max Thelen, President of the State Railroad Commission, has been named chairman of this committee, which is to consist of three members. Professor David M. Folsom, of Stanford University, has also been appointed to the committee. The third member has not yet been chosen, but so important do Chairman Thelen and Professor Folsom consider their task, that they have plunged into it already, and cleared the way for a thorough probing of the actual conditions of the petroleum industry throughout California.

The field of inquiry of the committee is concisely stated by Governor Stephens in a letter to Chairman Thelen in which he says that it is "to obtain facts relating to the production, distribution and utilization of petroleum, and to make recommendations.

"(1) As to measures to be taken to met anl emergency arising from the present war;

"(2) The increased production and highest utilization of the petroleum resources of this State as an integral part of the United States, having regard both to industrial development and the needs of the national government.'

Governor Stephens further says: "As the matter is one of urgent interest to the State and Nation, I would appreciate early efforts on behalf of yourself and colleagues, and as prompt a report as possible to me of the results of your findings."

The committee will report directly to Governor Stephens as soon as it has in hand statistics from which the facts of the oil supply may be gained.

Experts both of the Railroad Commission and of the State Mining Bureau will assist the committee, which will hold conferences in San Francisco and Los Angeles with the officials of the various oil companies of the state, and representatives of the federal government, including the United States Bureau of Mines. These meetings will be so scheduled as to give opportunity to all the various oil interests to lay before the committee all figures in their possession.

The critical aspect of the oil situation is emphasized by the oil companies' statement that in 1916 there was a daily decrease in the storage of oil of 35,800 barrels, and that in 1916 and the first three months of this year the decrease of crude oil stocks stored in this state over last year was 15,900,000 barrels.

The Southern Pacific Company, which controls large oil fields, says that at the present rate the stock of stored fuel oil held by the company will be depleted in 60 days, and that within five months they will have consumed all of the oil they have purchased for future delivery.

The average production of oil in the state at present is set down at 8,000,000 barrels a month.

Oil is of increasing necessity to many of the public utilities of California, which are regulated by the the Railroad Commission. It is used in enormous quantities by the railroads and steamship companies, the gas and electric companies, and, of course, by manufacturing in general.

Chairman Thelen said recently that he and Professor Folsom would spare not a day in going thoroughly into the oil conditions, and hoped to be able to report to Governor Stephens in the very near furture. The invited, he said, the aid of all interested parties.

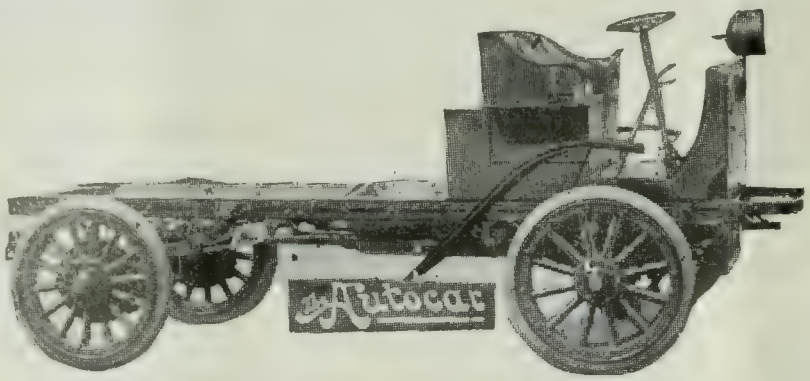
CHEMISTS & MINING ENGINEERS REGISTERING.

WASHINGTON, May 14.—A great patriotic response is being made by the chemists, metallurgists, and mining engineers to the plan of the Bureau of Mines, Department of the Interior, for their mobilization in defense of the country. Already more than 10,000 blanks, properly filled in, stating the qualifications of these technical men and their preferences as to the part they are willing to play in the war, have been received by the bureau and are being tabulated for the use of the Council of National Defense and for the Army and Navy.

Several thousand chemists, skilled in the making of explosives, have already registered; also many men expert in the making of iron and steel. It is likely that these two classifications will be needed first and will be called upon to assist in creating a big supply of explosives and big guns.

The bureau, in addition, is receiving applications from many men skilled along different lines offering, as one stated it, "my knowledge, experience and time to the Federal Government."

An unexpected feature of this effort to mobilize the technical men of the country has been the additional offer of the men to turn over their complete laboratories, together with the working staffs, to the Government for whatever research work that may be needed. Among the state and college laboratories placed at the disposal of the Government are, Minnesota School of Mines, Minnesota Mines Experiment Station; Clark University, Worcester, Mass.; New York Sstate School of Clay Working and Ceramics. Alfred University, Alfred, N. Y.; Department of Chemistry, University of Texas, Austin, Texas; University of Cincinnati, Cincinnati, Ohio; Department of Chemistry, Louisville University, Louisville, Ky.; State Board of Health Laboratory, Ohio State University, Columbus, Ohio; and the John Hopkins Uuiversity, Baltimore, Md.



Commercial and other laboratories have also offered their services, among them being the Mellon Institute for Industrial Research, Pittsburgh, Pa.; Rockefeller Institute for Medical Research, New York; the General Electric Co., Schenectady, N. Y.; W. J. Rattle & Son, chemists and mining engineers, Cleveland, Ohio; Dielectric Manufacturing Co., St. Louis, Mo.; Central Testing Laboratory, New York; Fuel Engineering Society, New York; J. S. Young Co., Baltimore Md.; Mine Safety Appliance Co., Pittsburgh,

Autocar Sales and Service Company

of California

DIRECT FACTORY BRANCH

138 Fremont St. Phone Sutter 1730

The Autocar Sales and Service Company of California, now of 561 Golden Gate Avenue, have leased the entire building at 138 Fremont Street (a floor space of 24,000 square feet) affording the owners of their machines the opportunity of storing their cars with them. The Company will operate a first-class machine shop, thus giving the owners of Autocar the best possible service.

Mr. Fitts, the Vice-President of the Company, has recently been here from the Eastern Factory, visiting the Pacific Coast Branches.

Among the late sales of the Autocar were 21 cars to the Adams Express Co. for San Francisco and Oakland; 3 to McNab & Smith of this city; 5 additional cars to the Overland Freight and Transfer Co. of this city (making a total of 10 cars for that concern), and numerous others, a list of which you will find on the following page.

Mr. Coal Dealer, if you are thinking of buying a car be sure and inquire about the Autocar before you buy.

PACIFIC GAS & ELECTRIC COMPANY COMPLETES BUSY YEAR.

Some interesting data upon "Pacific Service" activities during the past year were brought out in the report of Vice-President and General Manager John A. Britton to the annual meeting of the Pacific Gas and Electric Company's stockholders April 10th.

Constructional activities during the year represented a net expenditure of $3,658,745.89. This included the raising of Lake Spaulding dam to a height of 260 feet and the completion of Halsey and Wise power developments. The addition of 35 feet to the Spaulding dam cost $185,000 and enabled the impounding of an additional 23,000 acre feet of water. "Cost about $8 per acre foot — a hitherto unknown economical price," stated the report. The expenditure on the Halsey-Wise development was $1,683,510 and as the plants have a combined installed capacity of 33,500 horsepower their cost represents only $50 per horsepower. The entire Drum-Halsey-Wise development is estimated to have cost $141 per horsepower. Later, as occasion demands, it is proposed to complete this South Yuba-Bear River development by the addition of approximatelw 40,000 horsepower in installed capacity to the Drum powerplant and the construction of an intermediate plant at a point between Drum and Halsey of about 40 000 horsepower capacity. So that, when fully completed, this development will contribute approximately 150,000 horsepower to the "Pacific Service" system, which at the present time consists of eleven hydro-electric plants and three steam plants with an aggregate installed capacity of 261,595 horsepower. From these there was delivered on the system during 1916 a total of 768,304,907 horsepower, an increase of 42,589,387 over 1915. Of this 55.1 per cent was delivered from the hyrdo-electric plants, 21.2 per cent from the steam plants and 23.7 per cent from purchased power.

The diversity of "load" in the electric department is shown by the following figures in round numbers: mining, 35,000 horsepower; agricultural, 63,000 horsepower; railways, 55,000 horsepower; manufacturing, 139 000 horsepower; miscellaneous service, 50,000 horsepower; total, 342,000 horsepower. The balance between that and the company's total connected load on the system of 559,343 horsepower is represented by the consumption of electricity for lighting purposes, 287,580 horsepower.

The company acquired during the year the properties of the Oro Electric Corporation. It expects to derive considerable revenue from these, and there is a potential hydro- electric development which promises to be of great value when the time comes for exploiting it.

In the Gas Department 134 miles of street mains were added to the system, which now has a total of 2,779 miles, supplying 196,818 services and 245,829 meters. From the various plants there was sold a total of 8,174,000,000 cubic feet of gas during the year—an average of 2,982 cubic feet per month per consumer. New construction work was done, notably in San Jose and Oakland, and the total expenditure during 1916 for plant extensions in the Gas Department was $1,113,653. There are now 49 gasholders in use, having a capacity of 20,886,000 cubic feet, and on the distribution system there are 471 miles of high-pressure mains.

The electric generating department used 745,954 barrels of oil during 1916, and the gas department 1,773,087 barrels. With the increased price of oil it is estimated that this item on the company's list of operating expenses for 1917 will be $1,000,000 in excess of what it was last year. The company hopes to offset this as well as the increased cost of materials used in operation, maintenance and construction by strict economy and the acquisition of new business.

The Sacramento Street Railway system showed a decided improvement during the year, the number of passengers carried and the revenue showing approximately 10½ per cent increase. The total number of passengers carried during the year was 10,044,428.

The Water Department system possesses in addition to the supply from the various hydro-electric developments, 4 pumping stations, with 115 miles of main, supplying 2,000,000,000 gallons of water per annum. The total storage capacity in water on the entire system is 6,372,398,950 cubic feet, or 47,792,992,125 gallons, an amount sufficient to supply the city of San Francisco at her present rate of consumption for a period of 950 days.

The annual report of Treasurer A. F. Hockenbeamer contained certain features that invite attention. The company's net income for 1916, after charging up all operating expenses, taxes, depreciation and other reserves, was $8,316,000, or more than twice the amount necessary to pay our bond interest; after payment of bond interest and the annual amortization of bond discount there was left $4,298,000 for the payment of preferred stock dividends amounting to $1,374,000; out of the $2,924,000 remaining there was paid $1,708,000 in dividends on the common stock, being a balance of $1,216,000 to be carried to reserve accounts. The report shows that during the eleven years of the company's corporate history it has expended more than $12,000,000 for maintenance and has appropriated more than $16,000,000 for depreciation. In this eleven year period the company has earned over and above its bond interest $37,371,000, while it has expended for new construction and the acquisition of other properties $60,153,000. It has sold, either directly or through its bankers, securities of the aggregate par value of $83,444,000 and has expended, the greater portion of the proceeds in enlargement and improvements of service and the remainder in payment or refunding of capital obligations.

Mr. Hockenbeamer's report comments upon the fact that the cost of practically everything entering into the manufacture and distribution of the company's products has advanced materially and is still advancing; while, unlike other manufacturers and merchants, the company may not increase its prices. "As a matter of fact," states the report, "the purchasing power of a dollar with respect to the bulk of the materials entering into our maintenance, replacements, construction and operations has been cut in two, and at present prices it requires about two dollars to do the work formerly performed for one. Our business is increasing at a normal rate, and we are prepared to make the necessary investment to provide the additional facilities to meet this growth. It is obvious, however, that we must be permitted to earn a reasonable marking of profit if the company's credit is to be sustained so as to permit it to give good and adequate service and to continue contributing its share to the development and future prosperity of the State."

◆

CORROSION OF TINNED SHEET COPPER.

The United States Bureau of Standards has recently investigated a rather unusual and interesting case of corrosion, namely, that of the roofing material of the Library of Congress. The roof of this building has been covered since about 1893 by tinned sheet copper, which has become covered within the last 10 or 15 years with small pits; in many cases these pits have extended completely through the sheet. Such a condition is interesting, particularly in view of the fact that Washington is uncommonly free from smoke, etc., which is ordinarily understood to be a strong accelerating factor in corrosion.

The investigation has shown that the corrosion was due to no accidental inferiority of the material, but that it is to be considered as characteristic of all material of this type. It, therefore, appears that tinned copper is not superior in any way to tin plate for rooofing material and in view of its greater cost can no longer compete with it.

Tinned sheet copper is used also for containing vessels such as milk cans, and for fittings such as troughs, etc., for soda fountains and breweries. It is probable that such articles would also be subject to pitting corrosion of the same type if they are not worn out by actual abrasion before the corrosion proceeds far.

Technologic Paper No. 90, describing this investigation, may be procured from the Superintendent of Documents, Washington, D. C., at 5 cents per copy.

Building Operations For April, 1917.

The records of building operations for the month of April, as shown by the permits issued in 117 principal cities of the United States, reveals the extent of the initial chill to this great industry by reason of the entrance of our country into the European war. In the light of all circumstances the decrease may be regarded as quite moderate. These permits, as compiled by the Daily Pacific Builder, California Development Board and the American Contractor, Chicago, total $86,780,286, as compared with $94,029,948 for April 1916. The January statement this year showed an increase of 11 per cent. For February, and a gain for March, the totals shrank 5 per cent, when compared with the corresponding month last year. There would naturally be some withholding of applications for building permits with the uncertainties of war effects and the significant feature about the April statement is that the decrease was not greater than 8 per cent.

Of the 117 cities represented in the aggregate 69, or 60 per cent, record losses, while 46, or 40 per cent, show comparative gains.

City	Apr., 1917 Cost.	Apr., 1916 Cost.

MANTECA, San Joaquin Co., Cal. Cor. Yosemite Ave. and Hogan Road.
One-story reinforced concrete bank, 30x70.
Owner—First State Bank of Manteca, E. Powers, President.
Designers—Sweetser & Baldwin Safe Co., Marsh-Strong Bldg., Los Angeles, Cal.

BONDS.

SACRAMENTO, Cal.—Bonds of $1,000,000 for the completion of levees has been voted in Reclamation District No. 1000 ond bids for construction will be called for shortly.

PLACERVILE, El Dorado Co., Cal.—At a recent election the voters defeated a proposal to levy a special tax of 70 cents in order that an auditorium might be included in the building of a new grammar school, construction on which will start soon. A $35,000 bond issue was voted for the new building but the high price of building materials caused the elimination of the auditorium.

ANDERSON, Shasta Co., Cal.—The School Trustees will ask the Supervisors to make a direct tax with which to secure funds for the erection of a new high school building. Two elections held to vote $40,000 for a new school were defeated.

LOS ANGELES, Cal.—Bids will be received by the Board of Supervisors up to 2 P. M. of June 18, for the purchase of 50 bonds of the Azusa City school district, $1000 each; dated June 1, at 5% interest Certified or cashier's check of 3% required. H. J. Lelande is the clerk. Plans were prepared by Architects Allison & Allison, Hibernian Bank Bldg., Los Angeles.

SAN BERNARDINO, Cal.—Bids will be received by the Board of Supervisors up to 11 A. M. of June 18, for the purchase of ten bonds of the Waterman School District, $1000 each, at 6%. Certified check or cash deposit for $500 required. L. R. Patty is the Clerk.

LONG BEACH, Los Angeles Co., Cal.—The Board of Education is preparing to submit for consideration, a $100,000 bond issue. The proposed work is contained in the following estimate: Additional unit for Daisy avenue school, including at least four rooms and an auditorium, $30,000; purchase of an additional ground at Linden avenue and Fifteenth street, where the school district owns half a block at present, $7500; suitable grammar school building at Fifteenth and Linden, $50,000; erection of additional unit at Temple avenue, $10,000; appropriation for furnace improvements in eight grammar schools of city, $2500.

PORTERVILE, Tulare Co., Cal.—A general bond issue is being considered by the City Trustees, and will provide for various public improvement, including the construction of new fire station to be located at some point south of Olive street.

JEFFERSON SCHOOL DISTRICT, San Mateo Co., Cal.—The $75,000 bond issue for a new school building has carried and the preparation of plans will be commenced immediately.

BIGGS, Buttet Co., Cal.—The election held to vote bonds of $25,000 for a new school building failed to carry at a recent election.

PORTLAND, Ore.—A bond issue totaling $6,000,000 carried in the State of Oregon on June 5th. The proceeds will be used in constructing highways throughout the State. Construction extending over a period of five years.

YREKA, Siskiyou Co., Cal.—The $70,000 bond issue of the Siskiyou Union High School District has been sold and will provide for the following improvements: $45,000 for a main building at Yreka, $5,000 each for branch high school buildings at McCloud, Sisson, Weed, Dorris and Fort Jones. Henry C. Smith, Humboldt Bank Bldg., San Francisco, is the architect.

BRIDGES AND DAMS.

SEATTLE, Wash.—Bids are being received by the Board of King County Commissioners up to June 26th, for the construction of a riveted steel span or wooden Howe Truss over the Snoqualmie River at Duval. The bridge will have a span of 180 feet, will be 20 feet wide and have 1125 feet of timber approach.

If constructed of timber it will cost about $30,000 and if of steel about $35,000. In either case it will have concrete piers.

SEATTLE, Wash.—City Engineer A. H. Dimock has commenced the preparation of plans for the construction of a concrete seawall along the western front of Railroad Ave. extending from Madison Street to Pike, estimated to cost, together with a necessary fill and plank surface on Railroad Ave., a little over $250,000.

The improvement is the second unit of the project to bulkhead the entire waterfront between Jackson and Bell Streets.

The seawall will be of reinforced concrete, fifteen feet high, two feet wide at the top and three feet at the bottom.

Contract Awarded.

FAIRFIELD, Solano Co., Cal.—Gildersleeve Construction Co. of Napa have been awarded a contract on their bid of $3,885 for the construction of a reinforced concrete arch bridge over Pleasant Valley Creek on Road No. 293, Vacaville Township, Road District No. 4.

Bentley & Gates of Vacaville submitted the only other bid at $4,294.40.

FACTORIES AND WAREHOUSES.

Plans Being Figured.
BRICK AND FRAME STABLES. Cost, $25,000.
PORTLAND, Ore., 17th and Overton.
One and 2 story brick and frame stables, 200 by 100 feet.
Owners—Wells-Fargo Express Co.
Architect—J. H. Humphrey, Wells-Fargo Bldg., S. F.

STOCKTON, San Joaquin Co., Cal.—John M. Kroyer, head of the Samson Sieve-Grip Tractor Co., Stockton, has left for the East where he will confer with W. C. Durant and others representing the General Motors Corporation, which recently purchased the Samson works, relative to plans for the immediate enlargement of their plant at Stockton. Ground for the addition has already been purchased.

Plans Being Prepared

GOVERNMENT WORK & SUPPLIES.

Reclamation Work.

The Secretary of the Interior has authorized the reclamation service to award contract to Ball & Jaffe, of Seattle, Wash., for schedules, 1, 2, 3, and 4, for earthwork on the Camas division laterals B. C. and D, Flathead Irrigation Project, Mont. The amount of contract is $48,197. Also contract has been awarded to Mendenhall & Bird, of Springfield, Utah, for schedules A and C, Flathead Project. The amount of contract is $10,127.

Lateral Structures.

The Secretary of the Interior has authorized the U. S. reclamation service to award contract to Threat Brothers, of Lovell, Wyo., for constructing structures on lateral 67-F of Garland division, Shoshone irrigation project, Wyoming, for $6,992.

Construction for Navy.

The need of new quarters at Mellet for the increased number of enlisted men of the Navy will be met by the construction of temporary buildings at navy yards. It was intended to have special camps established, but lack of funds for the purpose has made it necessary to have the recruits sent first to the regular training stations and later to concentration camps which, as already stated, will be located at existing navy yards.

Mare Island Mess Hall.

The contract for constructing an extension to the mess hall at Mare Island, Cal., has been awarded to William Knowles at $14,202.

Emergency Fleet Awards.

The following awards for the construction of vessels have been made by the emergency fleet corporation:

Merrill Stevens Co., Jacksonville, Fla., 12 wooden cargo carrying steamers and 4 steel cargo carrying steamers.

Los Angeles Shipbuilding & Dry Dock Co., Long Beach, Cal., 8 cargo carrying all steel ships.

G. M. Standifer Construction Corp., Northwestern Bank Bldg., Portland, Ore., 10 wooden cargo carrying steamers.

Sloan Shipyard Corporation, Seattle, Wash., 16 wooden cargo carrying steamers, first vessel January 31, 1918, two in February, four in March, two in April, two in May, two in June and two in July, 1918.

Gray's Harbor Motor Ship Corporation, Aberdeen, Wash., 4 wooden hull, first hull to be delivered January 15, 1918, second February 15, third March 15 and fourth April 15, 1918.

Coast Shipbuilding Co., Portland, Ore., 4 woden hulls, first hull January 1, 1918, second in March, third in May and fourth in July, 1918.

Edw. F. Terry & Henry L. Brittain, 60 Broadway, New York, N. Y., works at Moss Point, Miss., 20 composite cargo carrying steamers complete, first February 1, 1918, and the balance in 10 months thereafter.

Skinner & Eddy Corporation, Seattle, Wash., 6 cargo carrying steamers complete, first two within five months after arrival of keel plates and of the remaining nuuber of steamers the building of the second two shall be commenced immediately after the completion of the first two and delivered 5 months after laying of keel. The remaining two will be commenced immediately after the completion of the second two and delivered 5 months after laying of keel.

LOW BIDDER FOR FORT MacARTHUR HEATING.

SAN PEDRO, Los Angeles Co., Cal.—Barnes & Larrance, Oklahoma, were the lowest bidders at 16,404 for installing gas-fired steam heating system in the new buildings to be erected at Fort MacArthur, San Pedro, for the U. S. Government. The bids were taken under advisement for recommendation to Washington

Mare Island Contract Awarded.

William Knowles Calt Bldg., San Francisco, has been officially awarded the contract for constructing the three story extension to the hospital mess hall at the Mare Island Navy Yard. His bid for the work was $14,202.

PROPOSAL FOR FURNISHING LUMBER.

Bids close June 16th

For furnishing 297,000 feet of lumber.

Location—Fort Mason, Cal.

Owner—United States Government.

Engineer—Depot Quartermaster, Fort Mason, Cal.

Plans on File at Depot Quartermaster.

Contract Awarded.

TACOMA, Wash. The first contract to be awarded in connection with the establishment of the huge army camp at American Lake has been secured by the Barrett Co., of Boston, who will lay out and construct all roads at the new training quarters near Tacoma. The company is now in the market for large quantities of road machinery including scrapers, drags, rollers, etc., and approximately 30,000 tons of crushed rock.

Until the arrival from headquarters of the engineer to be placed in charge of the work, G. S. Turner, local manager of the plant, Seattle, Wash., is making arrangements for starting the work.

HALLS AND SOCIETY BUILDINGS.

Plans Being Prepared.

ALTER LODGE HALL, $10,000.

HANFORD, Kings Co., Cal.

Alter two-story brick lodge hall.

Owners—Masonic Temple Association, Hanford.

Architect—None.

Contract Awarded.

REINFORCED CONCRETE CITY HALL, $9,700.

YREKA, Siskiyou Co., Cal.

One-story and base, reinforced concrete City Hall.

Owners—City of Yreka.

BIDS RECEIVED FOR COAST GUARD STATION.

(By Special Wire)

WASHINGTON, D. C., June 6th, 1917—Ten sets of figures were opened in the offices of the United States Coast Guard Service for the construction of a frame building known as Station No. 324, located on the Ocean Boulevard at San Francisco. Schroder Bros., 765 Folsom street, San Francisco, presented the lowest bid at $5,800 and will probably be awarded the contract. Following is a complete list of the bids received:

Coast Guard Station.

William Martin	$7,100
Frank Gallagher	7,350
Cederborg & Anderson	7,692
Terranova & Dioguardi	6,595
Schroder Bros.	5,800
Grace & Bernieri	6,814
Harold Johnson	6,098
Fred L. Hansen	6,880
Daniel O'Neill	7,200
Wolf Co.	7,333

BIDS OPENED FOR COUNTY HIGHWAY.

NAPA, Napa Co., Cal., June 7th, 1917.—Three sets of figures were opened by the Board of Supervisors for constructing approximately 4.76 miles of highway connecting at Greenwood Hill with the State Highway and continuing on to the Napa and Solano County lines. The bid of W. J. Schmidt, Cedar and Sacramento Sts., Berkeley, was taken under advisement until Tuesday, June 12th, at 10 A. M. He will probably be awarded the contract. A list of the bids follow:

A. Teichert & Son, Sacramento	$86,000
Worswick Constr. Co., Vallejo	85,000
W. J. Schmidt, Berkeley	68,000

LOW MEN FOR STATE HIGHWAY CONSTRUCTION.

(By Special Wire)

SACRAMENTO, Cal., June 4th, 1917.—Bids opened for highway construction in the following counties show the lowest bidders as follows:

Tulare County, from , southerly boundary to Earlimart (VI-Tul-4-A), about 6.6 miles in length to be paved with Portland cement concrete. M. & R. Co., Inc., Los Angeles, $34,565.70. Engineer's estimate, $30,100.68.

Tulare County, from Earlimart to Pixley (VI-Tul-4-A), about 5.9 miles in length, to be paved with Portland cement concrete. George S. Benson & Sons, Los Angeles, $34,352.20. Engineer's estimate, $29,669.48.

Los Angeles County, from Seeley's Ranch to near Acton (VII-LA-23-D), about 10.6 miles in length, to be paved with Portland cement concrete. Tryon & Brain, Los Angeles, $123,836.45. Engineer's estimate, $102,531.99.

Shasta County from northerly boundary to Hazel Creek (II-Sha-3-D), about 11.2 miles in length, to be graded. Connors-Green & Co., Eureka, $141,001.10. Engineer's estimate, $141,093.96.

AWARDS CONTRACTS FOR EMERGENCY FLEET.

WASHINGTON, D. C.—Awards for constructing vessels for the emergency fleet have been made to the following Pacific Coast Builders:

Los Angeles Shipbuilding & Drydock Co., Long Beach, Cal., eight cargo carrying, all steel ships.

VALUE OF FARM WOODLOTS EMPHASIZED.

Contrary to general opinion the farm woodlots of the country not only furnish immense amounts of material for local use, but are important sources of supply for timber for the general market, says an expert of the Forest Service in a new publication of the Department of Agriculture, on "The Status and Value of Farm Woodlots in The Eastern United States." Much of the choice hickory, ash, and white oak now in use comes from farm woodlots. Many woodlots contain timber every bit as good as that in the larger tracts and fully as capable of yielding high-grade lumber, if properly sawed and seasoned. Others have large quantities of pulpwood suitable for paper making, low-grade lumber for boxes, bolts for slack and

tight cooperage, and excellent material for veneer.

In 1909, it is stated, the farmers of the Eastern States alone received from the sale of their woodlot products an average of $81 for each reporting farm, or nearly $170,000,000. This was more than the value of the entire potato crop, nearly double that of the tobacco crop, and more than twice that of the combined barley and rye crops. In that year there were more than 143 million acres of farm woodlots in the Eastern and Central States. This amount was a decrease of about 15 per cent from the figures reported in 1880.

Where agriculture is in the pioneering state, it is pointed out, the sale of wood very often enables the farmer to tide over the first years during which he has not enough land in cultivation to support him. In later years the woodlot furnishes material for use on the farm and if taken care of may prove a valuable source of revenue. As settlement becomes intensive and the value of land advances, there is a tendency for the area devoted to woodlots to decrease. At the same time woodlot products increase in price and the value of the woodlots themselves is more generally recognized.

Because it is a convenient source of firewood and other material, the highest direct value of the woodlot, it is stated, is to the local communities. The farmers use more of the woodlot products than they sell. Much of the material which is sold is consumed in the neighborhood and many small veneer, cooperage, and other woodworking plants derive their entire supply from local woodlots.

It is pointed out that there is every incentive for communities to encourage the development of local woodlots and thereby protect themselves from future timber scarcity and high prices. With proper treatment woodlots can be made to yield a revenue to individual owners, but the nature of the crop is such that ownership of relatively large areas is necessary to insure annual supplies of the various kinds of timber required for local consumption. Community ownership of woodlots, as already practiced by about sixty cities in the country, will oftentimes make available the necessary land. In Europe community forests have long been established and yield good returns on the investment they represent. The Swiss city of Zurich, for example, derives about $20,000 per year from a woodlot of 2,500 acres.

In addition to the actual money returns the trees on the farm have a value for protection and shelter which will often justify their preservation and care. Both livestock and crops benefit by the protection from hot, drying winds afforded by a woodlot, while in winter even a small woodlot will do much toward increasing the comfort of farm life by breaking the force of cold winds and storms.

SAVE THE COAL.

WASHINGTON, D. C. The pound of coal that you, Mr. Citizen, may save today may contain the last gasp of energy necessary to drive a shell home true to the enemy, and spell victory instead of defeat.

The pounds of coal many Mr. Citizens may save today may forge the shells that may decide the war in favor of a world's democracy.

The pounds of coal many Mr. Citizens may save on many days may hasten the end of the war and save thousands of lives.

This is the statement of Francis S. Peabody, Chairman of the National Coal Board, Council of National Defense, in an appeal issued recently to all of the people of the country in an effort to have them conserve in the use of fuel so that there may at all times be a sufficient quantity available for battleships, the munition factories, the railroads, and all enterprises that are making materials for use in the war.

"It is not that we do not have the coal in this country," continued Mr. Peabody. "Perhaps no country in the world is so blessed with such a superabundance, but it is a question of digging it out of the ground fast enough and having prompt deliveries by the railroads at the places where it is most needed.

"The less coal the householder uses, therefore, the more there will be for the essential industries, the men of which in this industrial war are all soldiers as much as the man who wears a uniform and marches to the front.

"But the householder asks where he comes in. In the first place, in many homes throughout the country he can maintain less number of coal fires. He can even shorten the number of hours they are in operation. He can see that gas stoves are turned off as soon as the cooking is over. When the weather is cool, he can carry lower temperatures in his home than he has been accustomed to, unless there is illness in the house. A temperature of sixty degrees instead of seventy is sufficient. Then he can operate fewer gas and electric lights and see that they are turned off when not needed or when he leaves the room.

"And this leads to the suggestion that, if ever there were need for the introduction of the proposed daylight-saving act throughout the country, it is now. Begin work an hour earlier and quit an hour earlier That immediately would take an hour's burden from the street railways, the electric light companies and the electric power companies The 'owl' car would be an hour earlier. People would be sleeping instead of using lights generated by coal. In compact little England, with daylight saving, they have saved 300,000 tons of coal in a year's time.

"In time of war the coal wasted in this manner is 'luxury' coal, and that leads to the thought that Americans are the greatest advertisers in the world with their brilliantly lighted downtown sections of great cities; the mammoth electric advertising signs blazing for miles, and their elaborate 'White Cities,' their Coney Islands and their 'Dreamlands' It is all very well to be up and doing and pushing your product is a big way in peace times, reflecting much enterprise upon American methods of doing business. But in war times doesn't all this tremendous expenditure of energy from coal mean the use of 'luxury' coal which ought to be stopped from a pure spirit of patriotism?

"For the time being, let's save this 'luxury' coal that goes into amusements and extravagances and frivolities. Some American merchants may call this sacrifice, but to my mind it isn't sacrifice at all when we think of the Washington widow whose brave son, member of a United States Navy crew, gave up his life when his vessel was torpedoed by the Germans, the first navy victim of the war. Anyhow, we all have to make sacrifices in times like these, and as soon as the country fully realizes this spirit, that moment we go forward to decisive and prompt victory.

"The largest anthracite operator in the United States expressed himself as entirely puzzled at the present situation of soaring prices in anthracite coal. He knows that the production is as great as it has ever been and can only explain the present situation by saying that it is probably due to the national extravagance of the American householder. Coal, he says, is being stored by over-anxious and selfish people, disturbing the natural movement of this necessary commodity and unduly increasing the price. Not only does it do this, but it is taking the necessary supply away from the industries that need the coal in the manufacture of material essential to the successful prosecution of the war. In this, too, we must be patriotic and unselfish, with the reward that prices will reach a lower level and we will have enough coal for the proper conduct of the war.

"To the manufacturer I would say that it is the time to pay a little more attention to your boiler room and see what your firemen are doing with the coal. Time was in this country that coal was so cheap and entered so little into the cost of manufacture that few cared how the coal was burned. Since that time we have made tremendous progress in the science of combustion, until today, black smoke pouring out of a factory chimney is not a badge of prosperity but a badge of inefficiency and of waste. To get power out of coal you have to burn it, and letting it go up the stack in smoke is not burning it. Any mechanical engineer today can show how."

BONDS AS LIFE INSURANCE.

A. F. Hockenbeamer, Chairman of the Publicity Executive Committee of the Liberty Loan Committee for Twelfth Federal Reserve District, has sent the following statement to the local committee:

"Although I do not wish to belittle the appeal to patriotism, I think we ought also to emphasize the investment and business features of this bond, and it suggestes to me that we should use some of the arguments the life insurance companies use."

"For instance, on the death of a partner you have got to have cash to liquidate the partnership. In the event of a man's death his estate has to have money to settle inheritance taxes. They can sell Government bonds without question, whereas in the case of other securities they might

have to sell them at a loss. A man dies and leaves his family. That is the time when they want money."

"The insurance companies have the point that statistics show that about 80% of the benefits paid to the widow are gone within a couple of years. Why not leave her a good investment? Take my own case. I have some investments in the back of the safe deposit box. They are good, but not so good as a Government bond. I am going to take these bonds out and put Government bonds in their place. I think we ought to drive home this investment feature."

CHAIR BIDS WANTED.

SACRAMENTO, Cal.—City Clerk M. J. Desmond will receive bids up to June 19th, 11 A. M., for furnishing and installing chairs in the Police Court Room of the New Hall of Justice Building in Sacramento. Certified check of 10% payable to City Clerk must accompany each bid. Address City Clerk for blanks and further particulars.

FINAL LEGAL BARRIER TO MUCH NEEDED IMPROVEMENT NOW REMOVED.

By the entry of the order discontinuing the action instituted three years ago to restrain the city of Rochester from awarding the contract for repaving Culver road from East avenue to the Erie Canal bridge **with bitulithic pavement manufactured by Warren Brothers of Boston,** the patentees, the final barrier to the prosecution of this much needed improvement has been removed.

In June of 1914 the Common Council, on the petition of a majority of the property owners residing on Culver road, designated bitulithic as the kind of pavement to be used in repaving that street and directed the publication of a notice asking for bids for laying that type of pavement. A number of bids were received, the lowest of which complied with the specifications being that submitted by Thomas Holahan.

The contract was awarded to Holahan by the Board of Contract and Supply, but before it had been signed Whitmore, Rauber ¾ Vicinus, local contractors, brought a taxpayer's action in the Supreme Court to enjoin the city from executing the contract for the laying of a bitulithic pavement, on the ground that the city authorities had no power under the charter to lay a patented pavement.

The action was tried at Equality Term before Justice Clark, who rendered a decision against the plaintiffs and dismissed their complaint.

The plaintiffs appealed to the Appellate Division and that court after exhaustive argument upheld Justice Clark's decision in favor of the city's right to lay bitulithic pavement. From the order of the Appellate Division the plaintiffs appealed to the Court of Appeals, but before the case could be argued in that court the appeal was on stipulation of all the parties dismissed.

Warren Brothers have expressed to the property owners on Culver road their appreciation of the patience displayed during the protracted litigation and have assured them that they will exercise every care to see that the bitulithic pavement supplied for the work is laid to their satisfaction.

ARE PRICES HIGH?

At prices of a year ago it would have taken 50 bushels of wheat to buy a Liberty Bond; today one can be bought for 25 bushels.

Last year a farmer could build a silo for the price of 800 bushels of corn; today he can build the same one for the price of 400 bushels.

Last year it cost a community the price of 16,000 bushels of wheat to build a mile of permanent highway; today a mile can be built for 8,000 bushels.

Last year a farmer had to raise a thousand bushels of wheat to buy the tractor with which to till his field; this year he can buy two tractors for the same amount.

Everybody should buy a Liberty Bond.

Was there ever a more favorable time to build a silo, to buy a tractor, to build permanent highways?

Now is the time to exchange your farm produce for these necessities.

By doing this capital will be created and placed in circulation. Prosperity will be stimulated, labor kept employed at good wages. The dollar will be kept rolling and more of our citizens enabled to perform their patriotic duty to BUY LIBERTY BONDS.

LET'S BUILD WHILE WE FIGHT.

Americans have a habit of quitting work and crowding around when an accident occurs. The case in point is the world's "accident" in Europe.

We are in danger of losing our heads and stopping work while the conflict is on. This would be a serious happening but, happily, every American can help to prevent it without adding to the noise and confusion of going to war.

The only thing necessary is to go quitely on in attending to our own business.

While our naval and military forces are hastening to the front to destroy agencies and obstacles that seek to impede our growth, it is essential that we redouble our constructive efforts at home.

We can both build and fight and we ought to sieze upon this advantage as the greatest opportunity created by the war.

Let both public and private useful building construction proceed. Production and handling of building materials and public and private construction work are fundamental industries of the country. Any tendency to suspend or postpone building projects is inconsistent with maintaining our prosperity. The country is prosperous. Building investors should not hesitate to go ahead with their plans. Railroads should parc no effort to supply the building industry with the cars needed to transport materials. Government, state, county, and municipal authorities should encourage the continuance of all kinds of building. Road and street improvements in particular should go on unabated. Bad roads and streets are factors of first importance in the present high cost of foodstuffs. Never before was the improvement of highways so essential.

The lumber, brick, cement, lime, sand, gravel, stone, and other building materials industries are basic. Neither Government regulations nor railroad restrictions should be unnecessarily imposed to interfere with them. If any action is taken which results in the prostration of so fundamentally important industries, there is real danger of a surplus of unemployed labor, a surplus of railroad cars and a crippling of business that will seriously embarrass the Government in financing the war.

Let us build while we fight!

Urbana, Illinois, May 28, 1917

In certain districts where feed water for boilers contains sodium hydroxide many boiler troubles have appeared which have given no little concern to boiler users and makers. Such water is found in the central eastern part of Illinois, in the Fox River valley in the northern part of the same state, and in portions of other states.

The Engineering Experiment Station of the University of Illinois has just completed an investigation of this source of boiler distress, and the results are published in Bulletin 94 by S. W. Parr.

It was noted that boilers using feed water containing sodium hydroxide often developed fine cracks radiating from rivet holes or extending from hole to hole. The experiment showed that the effect upon the metal is to cause brittleness which makes it less capable of withstanding steam pressure and temperature changes. Among the remedies suggested is the addition of a salt having properties which cause it to react with the alkali and yield a harmless product.

Copies of Bulletin No. 94 may be obtained gratis by addressing C. R. Richards, Director, Urbana, Illinois.

BETTER SANITATION NEEDED IN RURAL SCHOOLS.

In the interests of efficiency and health there is increasing necessity for the application of scientific medical and sanitary knowledge to the administration of the public schools, in the opinion of the Public Health Service.

In general, the faults observed in rural schools, the annual report of the Service declares, are due to a lack of skilled advice, especially in regard to the location, construction and equipment of school buildings and disregard of sanitary principals governing water supplies, the disposal of sewage, ventilation, temperature, illumination and the arrangement of school desks and blackboards. During the past fiscal year surveys have been made in rural districts of several states and many thousand school children have been examined. These examinations have included thorough testing of the eyes by competent oculists, tests of mental capacity, and the effect of

sanitary environment on school progress, as well as inspections for the customary physical defects.

The conclusion is reached that there is great need for improvement in rural schools and that communities themselves will benefit if conditions are bettered, the schools serving as object lessons for surrounding sections. Conditions in country districts have been found below those in the cities and it is apparent that organized health work has largely been confined to the latter. Considered from a sanitary standpoint alone the Public Health Service is in favor of the consolidation of rural schools, since it must eventually result in the providing of better buildings and the organization of systems of efficient sanitary inspections.

CEMENT FINISHING CONCRETE BUILDINGS.

It is no doubt of great interest to the cement industries to keep pace with the unusual fast development of a comparatively new product known as Mauerene Likwid Sement.

The County of Napa is one of its latest converts. The Hall of Records at Napa, Cal., Corlett & Corlett, Architects, Oakland, is being cement finished on the exterior, directly on the rough concrete walls with Mauerene Likwid Sement.

There are a great many advantages gained by substituting this material for plaster in as much as it is applied over a sprayed application of Mauerene Waterproofing. This insures a perfect waterproorf job, as well as a non-checking, non-cracking and non-staining cement surface.

Mauerene Likwid Sement is a home product. It is manufactured by The Imperial Company of this City and we heartily recommend full investigation of this material by anyone interested in cement finishing buildings.

SACRAMENTO COUNTY PLACES BIG CEMENT CONTRACT.

SACRAMENTO, Cal., May 31st, 1917. — County Purchasing Agent George Vice has placed an order for approximately 4,100 barrels of cement with the Henry Cowell Lime & Cement Co. of San Francisco at $2.10 per barrel. The balance of an order of 175,000 barrels may be given the same firm, the purchasing agent having been authorized to place this contract without the formality of advertising.

KEEP ON BUILDING.

About that improvement you.. are planning,

Why not go ahead with it?

Every reason in the world says you should.

At no period in our history have we been so sure of the future. The eastern world's stomach is feeling the pinch of hunger, and its demands on the products of America's broad acres and American industries are growing with every passing hour. A great market is opening wider and wider. Honest and fair profits in all lines of legitimate effort are certain.

There should be no curtailment in building and road construction. Let both public and private useful construction proceed. Production and handling of building materials and public and private construction work are fundamental industries of the country. Any tendency to suspend or postpone building projects is inconsistent with maintaining our prosperity. The country is prosperous. Building investors should not hesitate to go ahead with their plans. Railroads should spare no effeort to supply the building industry with the cars needed to transport materials. Government, state, county, and municipal authorities should encourage the continuance of all kinds of building. Road and street improvements in particular should go unabated. Bad roads and streets are factors of first importance in the present high cost of foodstuffs. Never before was the improvement of highways so essential.

The lumber, brick, cement, lime, gravel, stone, and other building materials industries are basic. Neither Government regulations nor railroad restrictions should be imposed unnecessarily to interfere with them. If any action is taken which results in the prostration of so fundamentally important industries, there is real danger of a surplus of unemployed labor, a surplus of railroad cars and a crippling of business that will seriously embarrass the Government in financing the war.

The right thing to do is to keep building.

NEW BIDS WANTED AND AWARDS MADE.

At the regular Wednesday meeting of the San Francisco Board of Public Works bids for the electric work on Engine House No. 37, located at 25th and Vermont streets, were rejected. New bids were ordered advertised for and will be opened on June 13th.

At the same meeting contracts on the same building were awarded as follows: Elmer Carlson, general construction, $17,840; E. S. Mulford was allowed to withdraw his bid of $7,102 for the brick and hollow tile work and the contract was awarded to Thomas J. Campbell on his bid of $7,690. J. M. Lettich was awarded the plumbing at $5,747.

Plans for a large amount of street and sewer work were pproved and bids were ordered received.

THERE MUST BE MORE BUSINESS THAN USUAL.

Howard E. Coffin, of the Advisory Commission of the Council of National Defense, says: "No radically new condition confronts us. State activities, road building, public works, private industries, all must go on as before. Business must be increased, labor employed and the country kept going strongly ahead as a successfully economic machine. We must have successful industries if successful tax levies are to be raised."

There should be no curtailment in building and road construction. Let both public and private useful construction proceed. Production and handling of building materials and public and private construction work are fundamental industries of the country. Any tendency to suspend or postpone building projects is inconsistent with maintaining our prosperity. The country is prosperous. Building investors should not hesitate to go ahead with their plans. Railroads should spare no effort to supply the building industry with the cars needed to transport materials. Government, state, county and municipal authorities should encourage the continuance of all kinds of building. Road and street improvements in particular should go on unabated. Bad roads and streets are factors of first importance in the present high cost of foodstuffs. Never before was the improvement of highways so essential.

The lumber, brick, cement, lime, sand, gravel, stone and other building materials industries are basic. Neither government regulations nor railroad restrictions should be imposed unnecessarily to interfere with them. If any action is taken which results in the prostration of so fundamentally important industries, there is real danger of a surplus of unemployed labor, a surplus of railroad cars and a crippling of business that will seriously embarrass the Government in financing the war.

Keep on building.

LIBERTY LOAN FACTS NO. III.

The Safest Security in the World.

The United States offers you an opportunity to invest in the safest security in the world, and will pay you 3½ per cent interest on your money.

The estimated wealth of the United States is about 250 billion dollars. Our national debt was a little more than one billion dollars before the break with Germany. Adding to this the two billion dollars, now offered as the Liberty Loan, gives a total national debt of a little over 1 per cent of the total wealth of the country.

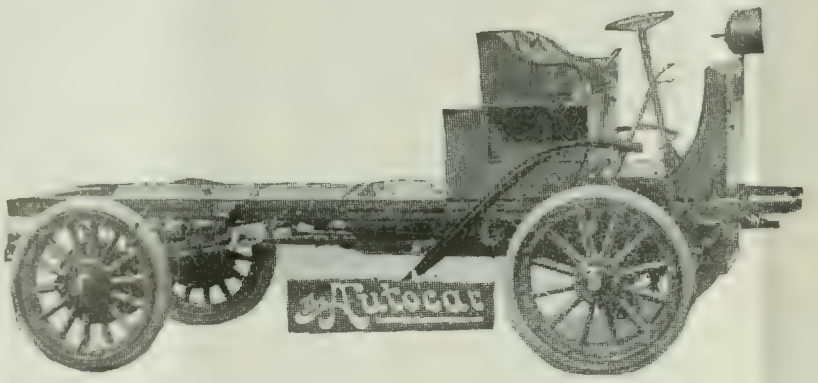
The yearly incomes in the United States are estimated at about 40 billion dollars, or over 13 times the total national debt (including the present issue) and about 400 times the annual interest charges on our total debt.

If a man should come to you and want you to lend him $1,000 and you knew he owned property worth $60,000; if you knew that his yearly income was $13,000, and he gave you his note, would you lend him the $1,000?

Will you lend your money to the United States on such a basis?

Subscribe for the Liberty Loan today.

Pile-Driving Tests at Shanghai.



SHANGHAI, China.—For certain definite purposes of bunding investigation, the Hwangpu Conservancy Board at Shanghai, during the past year, has carried out a series of pile-driving tests in the foreshore of the Hwangpu River, thereby obtaining valuable data regarding the supporting capacity of Shanghai ground. The tests were made for one of the customary types

DIRECT FACTORY BRANCH

138 Fremont St. Phone Sutter 1730

The Autocar Sales and Service Company of California, now of 561 Golden Gate Avenue, have leased the entire building at 138 Fremont Street (a floor space of 24,000 square feet) affording the owners of their machines the opportunity of storing their cars with them. The Company will operate a first-class machine shop, thus giving the owners of Autocar the best possible service.

Mr. Fitts, the Vice-President of the Company, has recently been here from the Eastern Factory, visiting the Pacific Coast Branches.

Among the late sales of the Autocar were 21 cars to the Adams Express Co. for San Francisco and Oakland; 3 to McNab & Smith of this city; 5 additional cars to the Overland Freight and Transfer Co. of this city (making a total of 10 cars for that concern), and numerous others, a list of which you will find on the following page.

Mr. Coal Dealer, if you are thinking of buying a car be sure and inquire about the Autocar before you buy.

of foundation for harbor work, especially in connection with the construction of wharves. This was concrete piling supported by friction.

The consistency of Shanghai ground is fairly homogeneous for large areas without sudden changes of soil. For that reason the tests may be used as standards on which to base construction figures for projects in Shanghai with foundations of concrete piling.

For other kinds of foundation it will not be necessary to make similarly complete series of tests. A comparison with other types of foundation at only one or two of the test places would give sufficiently reliable figures as to the supporting capacity, settlement, etc.

Tests of Small Structures Too Expensive.

In big building construction it is advisable and advantageous to make loading tests with regard to the foundation, but with smaller structures it is often too burdensome and expensive to make them, and the test work of the Hwangpu board has rendered it unnecessary.

A comparison of the results obtained by the conservancy board with those of other tests that have been made from time to time in Shanghai shows close agreement in regard to the safe loads determined.

Formulas for calculation of the supporting capacity of piles, whether theoretically deduced or empirically formed, seem to nave no exact application to Shanghai soil. The engineer in charge of the conservancy tests tried the three formulas in most common use, and found results deviating by more than 50 cents from the figures found in his loading tests. This enhances the usefulness as standards of the tests made

HOW TO SELL A BUILDING

—or the output of a planing mill—now to sell cement, lime, asphalt shingles, building brick—in short, the most successful selling methods used in the distribution of building materials and their use in construction will be discussed at the World's Salesmanship Congress in Detriot, June 10-14. Every reader of The Daily Pacific Builder ought to know more about selling. We are all good manufacturers or good architects or good builders' but a great many of us are mighty poor salesmen. The selling end if our business is too often overlooked. Here is an opportunity to sit at the feet of the greatest salesmen of America from every department of commerce and industry. And for the special benefit of the readers of this journal there has been organized a

Special Departmental Session on "Salesmanship in the Building Field"

The contractor and builder, the dealer in lime, clay pipe, brick, cement, plaster, etc., the manufacture of concrete blocks, the engineer and the architect—all these will profit by the special session which will be packed full of definite, peppery, inspiring selling ideas. A partial list of the speakers follows:

J. P. Beck, General Manager, Portland Cement Association.

E. K. Cormack, National Councilor, National Builders & Supply Assn.

Leonard C. Watson, President, Aberthaw Construction Co., Bsoton.

Charles Warner, President, Charles Warner Co., Wilmington, Del.

H. P. Bope, Vice-President and General Manager of Sales, Mgr. of Sales, Carnegie Steel Co.

J. P. H. Perry, Vice-President, Turner Construction Co., New York City.

W. P. Anderson, President, Ferro-Concrete Construction Co., Cincinnati.

R. A. Plumb, General Director, Trus-Con Laboratories, Detroit.

W. M. Kinney, Engineer, Promotion Dept., Universal Portland Cement Co.

Send in the coupon so we'll know you are coming. Additional information will then be sent to you.

World's Salesmanship Congress, Detroit, June 10-14.

BUILDING OPERATIONS FOR MAY.

The building permits, issued in 113 principal cities of the United States for May, were about two-thirds the aggregate estimated cost of those issued in May, 1916. The official figures as received by the "Daily Pacific Builder," the California Development Board and the "American Contractor," total $75,478,731, against $114,636,431 for May last year, a decrease of 34 per cent.

It looks like a distressing shrinkage of building operations. In a sense, it is. But there are "mitigating circumstances." There is hope for the future. In groping about for comparisons, it is peculiarly appropriate to compare present conditions with those which followed the opening of the war, nearly three years ago. There was then the same drop in new construction work. The comparative loss was small in August, 1914, but increased to 32 per cent in September, and reached a maximum of 41 per cent in December, 1914. Then the tide turned, and in December, 1915, the building permits increased 84 per cent over those of the previous December. Increases in volume, accompanied by climbing costs of materials, continued the rule from that time on until the United States entered the war. The prospective builder who held up his plans when the war broke out discovered a year later that he would have been much better off if he had gone right on with the work. In other words, God hates a quitter, and usually gives material evidence of his displeasure.

The future is no clearer, so far as conditions to develop in the construction world are concerned, than they were nearly three years ago, but if comparisons are valuable the deduction to be made now is so obvious that any one can make it.

There is another point that deserves attention in this connection. It is that the actual construction work of the present has not decreased. The figures of building and engineering work for May, based on contracts actually closed, published in last week's issue of the "American Contractor," showed an increase of 20 per cent over May, 1916. The building permits, as tabulated in the present article, relate partly to future business. There is abundance of opportunity for the wise ones to change the prospective trend. The detailed statement follows:

City	May, 1917 Cost.	May, 1916 Cost.

BONDS.

SAUSALITO, Marin Co., Cal.—A bond election will be called shortly by the Trustees to vote bonds of $10,000 with which to finance construction of a town hall.

FILLMORE, Ventura Co., Cal.—An election will be held in the Bardsdale school district, Ventura County, to vote on an issue of bonds in the sum of $15,000 for the building of a school structure and providing equipment for same. D. H. Bartels, Omar Hudson, and J. D. Baldeschweiter are the Trustees.

SAN DIEGO, Cal.—The firm of Spitze, Rorick & Co., of Toledo, Ohio, the successful bidders for the $682,000 Lower Otay dam bonds, has rejected the issue on the grounds of irregularities.

BRIDGES AND DAMS.

SANTA ANA, Orange Co., Cal.—The Board of Supervisors has instructed the county purchasing agent to proceed with the purchase of lumber, steel and hardware to be used in the reconstruction of the bridge at Yorba, washed out in January. The bridge will be 440 feet long, with 40-ft. spans, and will be built on concrete piers. The county surveyor prepared the plans.

NEWPORT BEACH, Orange Co., Cal.—If the recommendation of the consulting engineers, Leeds & Barnard, is adopted by the Board of Trustees of Newport Beach, the contract for the construction of a rubble mound jetty at Newport Harbor will be awarded to Ledbetter & Co., 651 Pacific Electric Bldg., Los Angeles, at approximately $107,000.

TACOMA, Wash.—Bids will be received by the Pierce County Commissioners until June 30th, for the construction of a Strauss Trunnion Bascale bridge or a Scherzer Rolling Lift Bridge with trestle approaches, piers and fenders on Lincoln avenue over Hylebos Creek Waterway.

BIDS CLOSE JUNE 23RD, 11 A. M.
For furnishing materials and reconstructing Pier No. 46, on the waterfront of the City and County of San Francisco.

The materials to be used in this work shall consist of the requisite quantities of rails and creosoted piles, Douglas fir lumber, redwood lumber, cedar lumber, castings, structural steel, rods, bolts, and spikes, all of which will be furnished to the contractor by the Board.

Location—San Francisco waterfront.
Owner—State of California.
Chief Engineer—Frank G. White of the State Board of Harbor Commissioners, Ferry Bldg., S. F.
Certified check of 5% payable to Secretary of the State Board of Harbor Commissioners.
Plans on file at Office of Chief Engineer, Ferry Bldg., San Francisco.

RICHMOND, Contra Costa Co., Cal.—City Clerk A. C. Faris will receive bids up to June 25th, 8 P. M., for the construction of riprap on the Clay Bulkhead on the northern arm of the Inner Harbor of the City of Richmond.

Plans for the work were prepared by Engineer P. A. Haviland of the engineering firm of Haviland & Tibbetts, Alaska Commercial Bldg., San Francisco, and from which office contractors may secure plans upon a deposit of $5.00.

MADERA, Madera Co., Cal.—The Trustees of Madera have asked the Supervisors to co-operate with them in repairing the Lane's Bridge. At present the structure is in need of immediate repairs. The matter was laid over by the Supervisors until June 21st when a decision will be given.

SOUTH BEND, Wash.—Bids will be received by the Pacific County Commissioners, Chas. S. B. Henry, county engineer, until July 6th for the clearing, grading, draining and paving a mile of the National Park Highway from Frances westerly and for the construction of two Howe Truss spans, one 80 feet long with approaches

across the Salmon River east of Nasel and one 60 feet long across the same river four miles east of Nasel.

MERCED, Merced Co., Cal. The County Surveyor has been instructed to prepare plans for the construction of a bridge over the Merced River to replace the old Chedister bridge and which will be known as the Milliken bridge. Plans were also ordered for a new bridge on the Le Grand-Cathey valley road.

SALEM, Ore. Bids for the proposed $200,000 inter county bridge to be built between Salem and Polk counties have been completed and bids will be called shortly. Plans, which were prepared under the direction of the department, of which C. H. Purcell is engineer and L. W. Metzger designing engineer, provide for a high level steel structure.

There will be three contracts; substructure, superstructure and approaches and will be awarded separate. The Pratt trusses will be four in number each to be 152 feet, together with one 111-ft. and one 155-ft. span.

There will be six river piers. Plans provide for 260 ft. of concrete approach on the east end and 780 ft. of trestle approach on the west end. The timber deck will be paved and provides for a 24-ft. roadway with two 5-ft. sidewalks.

WILLOWS, Glenn Co., Cal.—Bids will be received by County Clerk W. H. Sale up to July 2nd, 2 P. M., for the construction of a reinforced concrete bridge to be known as the Sprague Bridge on the Butte City-Chico Road in Road District No. 5. Bids were received on this work some time ago but were rejected. Plans have been revised since that time.

Certified check of 10% payable to Chairman of the Board of Supervisors.

Plans Being Figured. Bids Close July 2 at 11 A. M.
BRIDGE. Cost not stated.
RIO VISTA, Solano and Sacramento Counties.
Steel bascule bridge.
Owners—Sacramento and Solano Counties.

One-story brick garage.
Owner—Withheld.
Architect G. L. Rosebrook, No. 4 Bacon Bldg., Oakland.

GOVERNMENT WORK & SUPPLIES.

SAN FRANCISCO, Cal.—A war contract has been awarded to the Pacific Porcelain Ware Co., 67 New Montgomery street, for the manufacture of 4,200 pieces of earthenware. The contract consists of 2,100 toilets and 2,100 tanks. The destination of shipment is kept secret upon government orders.

SAN FRANCISCO—Neils Schultz, 419 21st Ave., has been awarded contracts for constructing latrines at Fort Winfield Scott and at Fort Berry. The work is underway at the present time. The same contractor has also secured contracts for six barracks buildings at Fort Scott and Fort Berry. The Turner Co. is doing the plumbing on these buildings.

Under the direction of Quartermaster Major Grant, general headquarters, Fort Scott, several additional frame barracks will be erected at once. Construction will be of frame. Some of the work will be done by soldier labor.

WASHINGTON, D. C.—The Hurley-Mason Co. of Tacoma, has been awarded the contract for the construction of the National Army Cantonment at American Lake, Washington. The work will be done on a percentage basis adopted for all Cantonments.

New Navy Bonding Schedule.

The paymaster general of the Navy has issued the following notice in connection with bonds required on Navy Department contracts:

The future policy with reference to the requirements of bonds from contractors will be as follows:

Contracts up to $50,000	25%
Contracts from $50,000 to $100,000	20%
Contracts from $100,00 to $150,000	15%
Contracts over $150,000	10%

This is a departure from the past requirement of 25 per cent in each case; but, owing to the large contracts now being made and the fact that such contracts are generally with firms of known reputation and standing, it is not considered necessary to require bonds for such contracts is excess of the newly adopted schedule.

This does not apply in the case of checks, as the law specifically provided that when proposals are accompanied by certified check such check shall be 25 per cent of the amount of the bid.

Mare Island Riprap Work.

The contract for riprapping at the naval station, Mare Island, Cal., has been awarded to M. I. Daniel Construction Co., of San Francisco.

Cody, Wyo., Post Office.

The following bids were received by the supervising architect, Treasury Department, Washington, D. C., for the construction complete of the U. S. post office at Cody, Wyo.:

Charles Weitz Sons, Des Moines, Iowa, $49,950.

Johnson Construction Co., Fargo, N. D., limestone, $67,750; sandstone, $67,990.

J. H. Weise, Omaha, Neb., $56,760.

Army Signal Corps, Tent Hangars.

The following awards have been made by the chief signal officer, U. S. Army, Washington, D. C., for furnishing airplane canvas tent hangars under proposal 975:

Carnie-Goudie Mfg. Co., Kansas City, Mo., for 77 tent hangars at $553 ea; delivery July 2.

W. H. Hoegee & Co. (Inc.), Los Angeles, Cal., for 12 tent hangars at $550 each.

Muehleisin Tent and Awning Co., San Diego, Cal., for 20 hangars at $691 each.

There will probably be more awards made under this circular within a few weeks.

Shipbuilding Cranes, Puget Sound.

The bid of the McMyler Interstate Co., $230,727, in amount, has been accepted for furnishing shipbuilding cranes at the navy yard, Puget Sound, Wash.

U. S. Coast Guard Cutters.

The only bid received by the captain commandant, U. S. Coast Guard, Washington, D. C., for from two to five steel single screw vessels, 240 feet long, was that of the California Shipbuilding Company, Long Beach, Cal., at cost of labor and material plus 15 per cent for three vessels. Time to complete, 18 months.

Cody, Wyo., Post Office.

All bids received by the supervising architect, Washington, D. C., recently for constructing the U. S. post office at Cody, Wyo., have been rejected as excessive.

HALLS AND SOCIETY BUILDINGS.

Plans Being Figured.
BRICK LODGE HALL Cost, $25,000
MODESTO, Stanislaus Co., Cal. SE "J" and 15th Streets.
Two-story and basement brick Lodge Hall, 50x108.
Owner—Modesto Masonic Hall Ass'n.
Architect—John Davis Hatch, Associated with Wm. A. Newman, David Hewes Bldg., San Francisco

Construction to Start Shortly.
ALTERATIONS Cost, $10,000
HANFORD, Kings Co., Cal.
Alterations and additions to Lodge Hall.
Owner—Masonic Hall Association of Hanford, Cal.
Architect—A. Merrill Bowser, Hanford, Cal.
The work will consist of re-plastering, a hydraulic elevator, low pressure heating system, enlarging banquet hall, etc.

Architect—James W. Plachek, Acheson Bldg., Berkeley.

IRRIGATION PROJECTS

SANTA ROSA, Sonoma Co., Cal.—The Directors of the Bellevue-Wilfred Drainage District have asked the Supervisors to co-operate with them in the construction of a drainage system by assisting in the placing of roadways into shape. Bonds of $20,000 were recently voted by the District to finance the necessary improvements.

MARYSVILLE, Yuba Co., Cal.—After a conference with landowners in Districts 1500 and 1660 at Sacramento, the Reclamation Board decided to go ahead with the work of building the east levee of the east by-pass from Nelson bend to the south levee of District 1 and from the west levee of District 1, at the mouth of Gilzauser slough to the Wadsworth slough drainage canal and a levee from this latter point northerly along the east side of the Wadsworth drainage canal to high ground.

At the same time District 1660 was asked to decide definitely whether it wanted reclamation or not and if it did want reclamation then to prepare its plans for levees and submit the same to the board at an early date for the board's approval.

OROVILLE, Butte Co., Cal.—H. A. Kluegel has been selected engineer to make a preliminary report upon the proposed irrigation district to include the foothill lands of Wyandotte, Bangor and Oroville areas. The appointment was made by the Organization Committee, which has directed Kluegel to make an investigation of all available sources of water supply for the district.

Kluegel is a member of the American Society of Civil Engineers, and has been in charge of a number of important projects.

SAN BERNARDINO, Cal.—Bids will be received by the Board of Water Commissioners, 438 Court street, up to 4 P. M. of June 25, for furnishing one deep well Turbine pump having a maximum capacity of 300 miner's inches and a minimum capacity of 250 miner's inches. Also bids for a similar pump having a maximum capacity of 250 miner's inches and a minimum capacity of 200 miner's inches. Pump to be installed complete, together with sufficient shafting, shaft tubing, shaft bearings, shaft couplings, and discharge pipe to place the bowls of the pump 125 feet below the surface of the ground with thirty-five feet of suction pipe, discharge head, discharge tee, discharge ell, thrust bearings, etc. Well upon which this machinery is to be installed is what is known as the Lytle Creek Reservoir Tract, diameter of the well being 18 inches, depth 975 feet, same having an 8-ft. diameter concrete pit, to a depth of fifty-seven feet. Bidders are to submit plans and specifications, etc. Certified check for 10% required. Ralph E. Swing is president.

LIBRARIES.

Plans Being Prepared
LIBRARY Cost, $8,000
NEWMAN, Stanislaus Co., Cal.
One-story and basement brick or reinforced concrete library.
Owner—County of Stanislaus.
Architect—Hugh Y. Davis, Rowell Bldg., Fresno, Cal.

POWER PLANTS AND WATER SYSTEMS.

SAN RAFAEL, Marin Co., Cal.

A contract for constructing the Alpine Dam for the Marin Municipal Water District was awarded to Leonard & Hansen, Phelan Bldg., San Francisco, at a meeting of the Directors held Saturday night. The contract price is $211,626.25. The lowest bid, that presented by Harvey A. Klyce, for $172,890 was withdrawn. Construction will be of reinforced concrete. Plans were prepared by Chief Engineer Baker of San Rafael.

McMINNVILLE, Ore.—Bids submitted for the construction of the proposed water system for McMinnville have been returned unopened.

This action was taken because the water supply was contaminated and that the construction of the project would not be undertaken until the conditions were remedied.

RAILROAD CONSTRUCTION AND EQUIPMENT.

SAN DIEGO, Cal. The City Council has granted to J. Burris Mitchell and Leon Fighiera, of Los Angeles, a lease on fifty acres of tidelands between Twenty-eighth and Thirtieth streets, for a shipbuilding plant. The corporation recently organized by these men plan to expend about $1,500,000 on buildings for the plant and equipment.

To Be Done by Day Labor.
CAR REPAIR SHOP. Cost, $45,000
SACRAMENTO, Cal., Southern Pacific Co.'s right-of-way.
Two-story brick and timber car repair shop No. 3.
Owners—Central Pacific Co.
Engineers—Engineering Dept. Southern Pacific Co., Flood Bldg., San Francisco.

Plans Being Prepared.
STORE HOUSE. Cost not stated.
VISITACION, San Mateo Co., Cal.

SEWERS, STREET WORK & WATER SYSTEMS.

SAN FRANCISCO, The San Francisco Board of Public Works has approved plans and specifications for the construction of the Municipal Railway under Contract No. 95 through the Twin Peaks tunnel. The bids have been ordered received up to June 20, 1917. The work is estimated to cost between $90,000 and $100,000, and will commence at Market and Castro streets thence running through the tunnel to Junipero Serra Boulevard. The bond for the work has been fixed at $45,000.

Plans may be had from the City Engineer's Office, Third Floor, City Hall.

SOUTH SAN FRANCISCO, San Matea Co., Cal.—The Board of Trustees have approved plans and specifications prepared by the City Engineer and bids will be ordered shortly for the improvement of the following streets:

Lux avenue, between Spruce avenue and Maple avenue; Walnut avenue, between the alley north of Miller avenue and Maple avenue; Parkway for full length thereof; Pine Terrace for the full length thereof; the entire portion

of Spruce avenue north of the alley north of Miller avenue; Maple avenue, from Miller avenue to Aspen avenue, and the High street for the full length thereof.

ALAMEDA, Alameda Co., Cal.—The Engineering Departments has prepared plans and specifications for the improvement of Santa Clara avenue from East Park street to High street.

The improvement will consist of reguttering, re-surfacing and sacr'fying and is a continuation of the improvement of the same avenue west of Park street, recently completed.

SAN LEANDRO, Alameda Co., Cal.—The Trustees have ordered bids received up to July 2nd, for furnishing the city with gravel, rock and screenings and all for a term of one year to June 30, 1918.

SAN LEANDRO, Alameda Co., Cal.—The City Trustees have ordered bids rece'ved up to July 2nd for the improvement of Hepburn street and Washington avenue.

Plans may be had from the City Clerk.

WATSONVILLE, Santa Cruz Co., Cal.—The Board of Alderman have passed a resolution of intention and adopted plans for the following work:

That the roadway of Third street from Rodriguez street to Walker street, be graded, macadamized and oiled with asphaltic oil; also that concrete gutters be constructed.

M. M. Swisher is City Clerk.

OROVILLE, Butte Co., Cal.—The County Supervisors have decided to pave the section of road leading from the Northern Electric depot in East Gridley to Gridley with an asphalt covering over the present macadam.

The estimated cost of the improvement is $2,500 a mile.

Supervisor Holmes will also build a half mile of the paved road on one of the highways in his district leading out of Chico.

VISALIA, Tulare Co., Cal.—The County Supervisors have rejected all bids received recently for the construction of the following highway and ordered new bids to be opened on July 2nd:

The Ducor-Richgrove division Lindsay Exeter and Terra Bella-Porterville divisions. These sections are 10.48, 8 and 10 miles respectfully.

MESA, Ariz.—Bids will be received by the Common Council up to June 30, for the purchase of bonds in the sum of $125,000 (5½%) voted for the purpose of raising funds to supply the town of Mesa with artificial light. W. A. Macdonald is Clerk.

ASTORIA, Ore.—Bids will be received at Astoria by J. C. Clinton, Clatsop County Clerk, until June 28, for the surfacing of roads through the city of Warrenton. The estimated cost of the improvements is placed at $16,500.

OLYMPIA, Wash.—The Independent Asphalt Paving Co., Northern Bank Bldg., Seattle, submitted the low bid for the paving of the Pacific Highway in Thurston County at $62,581.

SAN BRUNO, San Mateo Co., Cal.—City Clerk H. A. Bewley will receive bids up to June 27th, 8 P. M., for the following work:

That portions of Walnut, Pine, Elm streets, 1st, 2nd 3rd, 4th, 5th, 6th, 7th, San Mateo, Angus, Mastic, Hunt'ington, Montgomery, Pacific, Atlantic, Buena Vista, Hermosa and Euclid avenues, Diamond, Scott and Herman streets, Bay Shore Circle South and Bay Shore Circle North, etc., be improved by grading, constructing artificial stone sidewalks and comb'nation cement concrete curbs and gutters; a concrete retaining wall, reinforced concrete drainage canals, reinforced cement concrete bridges, 8-inch vitrified ironstone pipe storm sewers with catchbasins, brick manholes, vitrified ironstone pipe sanitary sewer, vitrified ironstone drain pipes and 4-inch vitrified ironstone pipe laterals.

For further particulars address the City Clerk.

STOCKTON, San Joaquin Co., Cal.—City Clerk G. W. Pulich will receive bids up to June 22nd, 10:30 A. M., for the following work:

That the following avenues and streets as designated on the map "Plat of Villa Addition to the City of Stockton": Hazel Ave., Laurel St., Ash St., East Lafayette St., East Sonora St., East Church St., East Mormon Ave., be improved by grading, constructing combined concrete curb and gutter, concrete sidewalks, paving the roadway with Bitulithic pavement, and that the alleys running E and W through blocks numbered 6, 7, 10, 11 12, 13, 14, and 15, be graded, curbed with 2"x12" redwood curbs and paved.

MODESTO, Stanislaus Co., Cal.—M. Blumenkranz of Stockton submitted the only bid for grading at 58 cents per cubic yard for 16.673 miles of highway in Stanislaus County. No bids wer received for the paving of same. What action will be taken by the Board is not decided as this is the second time bids were called on this work and no bids were received.

BIDS CLOSE JUNE 25TH, 11 A. M.

For Constructing 220,000 square feet of oil macadam and asphaltic roads and paths.

Location—University Campus, Berkeley, Cal.

Owner—Regents of University of Califfornia, Berkeley.

Certified check of 10% payable to Regents of University of California.

Plans on file at Comptroller's Office, Berkeley.

RICHMOND, Contra Costa Co., Cal.—City Clerk A. C. Faris will receive bids up to June 25th, 8 P. M., for the following work:

That Portola avenue, bet. Barrett avenue and the SW line of Block 120, and that Fifteenth street, from Portola avenue to Clinton avenue, be graded; paved with a cement concrete base with a paint top wearing surface consisting of asphalt and rock screenings; that cement concrete curbs and sidewalks and culverts of corrugated iron and concrete, with concrete w'ng walls and portals, be constructed thereon.

That Burbeck avenue, from Twenty-third street, to Twentieth street, be graded; paved with cement concrete base, with a wearing surface consisting of asphalt and petrolastic cement; and that cement concrete curbs, gutters, sidewalks and open drains; culverts of corrugated iron and cement concrete with cement concrete wing walls and portals, be constructed thereon.

That Oil, W ne, Washoe and Central street from Cutting Boulevard, to their northerly termination, and Florida, Maine and Virginia avenues from Garrard Boulevard to a point near Central street in the Canal Subdivision, be graded, paved with concrete base with a paint top wearing surface consisting of asphalt and rock screenings; that cement concrete curbs with galvanized steel curb bars, cement concrete sidewalks, and culverts of corrugated iron and concrete, with concrete wing walls and portals, be constructed.

STOCKTON, San Joaquin Co., Cal.—City Clerk G. W. Pulich will receive bids up to June 22nd, 10:30 A. M., for the following work:

That an 8-inch vitrified clay pipe sewer be constructed along East street from Park street to Oak street;

That 6-inch vitrified clay p'pe sewers be constructed as follows: in East street from Oak to Fremont and a portion of Fremont, also branch sewers of 4 and 6-inch vitrified clay pipe, "Y" and "curved branches," and brick manholes be constructed.

RED BLUFF, Tehama Co., Cal.—County Surveyor Luning has submitted to the Board of Supervisors a report on all roads in Tehama County, this procedure being required under the workings of the new charter.

According to the report there are 127.80 miles in Supervisor District No. 1; 164.66 in No. 2; 214.81 in No. 3; 218.91 in No. 4, and 106.14 in No. 5, making a total of 832 32 miles to be cared for by the county. There are forty-two miles of State highway, making a total for the county of 874.32 miles.

Under the new charter each stretch of road must be advertised for repair. This was ordered done by the Supervisors.

SAN FRANCISCO, Cal.—The Board of Public Works has rescinded its order authorizing the call for new bids on Section "A" of the Marina Baulevard.

EUREKA, Humboldt Co., Cal.—County Engineer Logan has been instructed to prepare plans for surfacing a portion of the county highway between Eureka and Arcata with Road-a-lite. The work will cover about six or seven miles.

Supervisor Frost will pave three miles of the road east from the intersection of supervisorial districts four and five toward Eureka, while Supervisor Anderson will pave from the intersection three miles and possibly the entire distance to Arcata.

SALINAS, Monterey Co., Cal.—The City of Salinas is asking for bids on a system of street lighting and plans and specifications can be obtained from John J. Kelly, City Clerk. The plans were prepared by Charles T. Phillips, Consulting Engineer, Pacific Bldg., San Francisco. Bids will be opened June 29th, at 8 P. M.

SACRAMENTO, Cal.—City Clerk M. J. Desmond will receive bids up to June 26th, 10 A. M., for the improvement of Tenth street from "G" street to "I" street, by repairing the present water-bound macadam foundation and constructing thereon an asphaltic macadam wearing surface.

LOS ANGELES, Cal.—Sealed bids willl be received by the Board of Supervisors until 2 P. M., July 2, 1917, for grading, concrete paving with

bituminous wearing surface, culverts, etc., in Road Improvement District No. 103 (Lexington and Gallatin Road). The quantities involved include 6594 cubic yards excavating; 14,241 lin. ft. shaping road bed, 3200 sq. yds. concrete paving, 64 cu. yds. concrete culvert; 32 lin. ft. 24-inch corrugated metal pipe; 3698 lbs. reinforcing steel; 11,420 lin. ft. expansion joints; 2043 tons sand. The county will furnish 6807 bbls. cement, 5414 tons gravel, 667 tons screenings, 381 bbls. oil. The estimated cost to the contractor is $15,215.

VENTURA, Ventura Co., Cal.—Bids will be received by the Board of Supervisors up to July 10, for the paving of the county highway through Oxnard. The work comprises 2.2 miles or roadway.

Bids will be received by the Board of Supervisors up to July 5, for the construction of pavement on the county highway as follows:

Moorpark to the county line.

Oceanview road, Hueneme to Wood road.

Bids will also be received by the Board of Supervisors up to July 6, for constructing the following portions of the county highway: Piru to the county line, and La Crosse to Ojai.

Plans Completed. Bids to be Called For This Week.

WATER TOWER CASING Cost, $ -
SAN FRANCISCO. Fort Miley.
Reinforced concrete casing for water tower.
Owner—United States Government.
Engineer Constructing Quartermaster, Fort Mason, Cal.

This work will consist of constructing a reinforced concrete casing for a large steel water tower now erect.

OAKLAND, Alameda Co., Cal.—L. W. Cummings, City Clerk, will receive bids up to June 28th, 12 M., for the grading, curbing and guttering with concrete gutters, three feet wide, and paving with oil-macadam portions of 40th avenue in the vicinity of E-12th and Wattling and E-10th streets.

RICHMOND, Contra Costa Co., Cal.—The City Council will receive bids up to June 25th for the improvement of Burbank and Portola avenues. Plans may be had from the City Clerk.

RICHMOND, Contra Costa Co., Cal.—Overruling all protests, the City Council has instructed the City Attorney to proceed with a condemnation suit for acquiring of land on Tenth street for the proposed $105,000 storm and sanitary sewer system.

The proceedings for the work will be performed under the Act of 1903 whereby the value of the land is fixed in advance of the assessment. There were 26 protestants to the work.

VALLEJO, Solano Co., Cal.—Upon the guarantee of T. Park Jacobs, representing the Worswick Construction Company of Fresno, that the cost of constructing bithulitic pavement will not be more than 15 cents per square foot as against 14 cents for Topeka pavement, the City Council has adopted the bithulitic type of pavement as the kind to be constructed in the south central paving district. The plans for the improvement of the streets in the district were adopted as were the amended specifications substituting bithulitic for Topeka pavement.

T. D. Kilkenny is City Engineer.

OROVILLE, Butte Co., Cal.—C. F. Belding, County Clerk, will receive bids up to July 5th, 2:30 P. M., for surfacing the road beginning at the city limits of Gridley and extending as far east as the Northern Electric Railroad and known as the East Gridley road in Road District No. 12. Separate proposals will be received for surfacing the Nord avenue road in Road District No. 2 beginning at the north line of the city limits of Chico, and thence running about one-half mile, more or less.

SOUTH BEND, Wash.—K. L. Goulter, Seaview, Wash., submitted the low bid for the construction of Permanent Highway No. 3-B at $19,812, and will be awarded the contract.

OAKLAND, Cal.—The City Council has awarded a contract to Hutchinson Co., 13th and Franklin streets, Oakland, for the grading, curbing with redwood, guttering with concrete gutters, paving with oil-macadam and sidewalking with cement sidewalks, portions of Vesta street in the vicinity of 57th avenue. The Hutchinson Co. was also awarded a contract for the grading, curbing with concrete, guttering with concrete gutters, and paving with oil-macadam portions of 39th avenue in the vicinity of E-10th street.

MODESTO, Stanislaus Co., Cal.—M. Blumenkranz of Stockton, has been awarded the contract for the construction of 17.1 miles of grading by the County Supervisors on his bid of 59 cents per yard.

The sections of road covered by the contract are the Hickman-Thalheim road, Waterford, section C, and Oakdale-Waterford, section B. No bids were received for the concrete base work.

LOS ANGELES, Los Angeles Co., Cal.—George H. Oswald, 405 O. T. Johnson Bldg., Los Angeles, has been awarded a contract at $20,515.44 for the improvement of Hoover street from Vernon avenue to Fifty-second street and in portions of other streets.

Contract Awarded.

VISALIA, Tulare Co., Cal.—The Board of Supervisors have awarded the following contracts for highway in Tulare County.

The North Dinuba, Sultana and Orosi-Cutler division running from the north county line to Sharp's corner south of Cutler, a distance of 14.04 miles this being awarded to Roger Bros., Hibernian Bldg., Los Angeles, for $154,319.25.

The North Visalia division from Sharp's corner to Visalia, a distance of 7.79 miles let to O. & C. Construction Co., of Los Angeles, for $85,768.91.

Visalia-Exeter division, a distance of 8.17 miles, let to the Tibbetts Pacific Co., 16 California street, San Francisco, for $90,477.85.

Lindsay-Porterville division, a distance of 9.9 miles was let to the Concrete Pipe & Construction Co. of Porterville for $104,553.90.

FRESNO, Fresno Co., Cal.—Kaulfield & Tompkins, Fresno, were awarded the contract for improving Grant avenue from North First street to North Ninth street. The length of the work is 3900 feet, and the pavement will be 36 feet wide and consist of oiling and grading, curbing and sidewalks.

The California Road & Street Improvement Co., Holland Bldg., Fresno, has been awarded the contract for improving H street from El Dodaro street to Roosevelt avenue, and a portion of Park Boulevard, by grading, and paving with bitulithic and constructing cement concrete curb and gutters, and corrugated iron culverts.

DALY CITY, San Mateo Co., Cal.—A contract for extensive street improvements, consisting of combination cement gutters, armored concrete curbs, cement sidewalks, 4, 6 and 12-inch vitrified salt-glazed ironstone pipe sewers, brick manholes and asphaltic and vitrified brick pavement, was awarded to J. G. Harney, Pacific Bldg., San Francisco, on his bid of $95,506.26½. Other bids received were as follows:

Raisch Improvement Co.	$114,397.81
Tibbitts Pacific Co.	118,704.98
H. Crummey, Inc. (Bond defective and bid rejected)	91,890.61

BELLINGHAM, Wash.—The Washington Paving Co., L. C. Smith Bldg., Seattle, will start immediately on the construction of 12¼ miles of concrete road. The work will cost about $192,000. The work will commence from the end of the present Northeast Diagonal pavement to Deming. Geo. A. Gauntlette will be Superintendent on the job.

SPOKANE, Wash.—C. M. Payne, Spokane, has been awarded the contract for the construction of 4 miles of the Appleway highway between Dishman and Greenacres at $56,270 by the Spokane County Commissioners. Concrete paving will be used.

A. R. Scott is County Engineer.

OLYMPIA, Wash.—The Independent Asphalt Paving Co., Northern Bank Bldg., Seattle, has been awarded the contract for the paving of the Pacific Highway in Thurston County at $62,581.

NAPA, Napa Co., Cal.—W. J. & E. Schmidt, Cedar and Sacramento Sts., Berkeley, have been awarded the contract for the construction of the concrete highway from Greenwood Hill to the Solano County line. The Schmidt bid was $68,000.

OLYMPIA, Wash.—The contract for the construction of the Pacific Highway north from Junction, in Jefferson County, has been awarded to Erickson Construction Co., Downs Block, Seattle, at $46,130.

The improvement involves: 123,000 cubic yards of excavation work, 24 acres of clearing, 9 acres of grubbing and 24,000 lbs. of reinforcing steel.

SEATTLE, Wash.—The County Commissioners have awarded a contract to J. L. Smith, 1475 20th Ave., N. Seattle, for the paving of five miles of the Bellevue-Medina - Houghton highway with concrete surface at $96,000.

RED BLUFF, Tehama Co., Cal.—The County Supervisors have awarded a contract to the Chico Construction Co., 408 Broadway, Chico, for paving the Kauffman causeway and to the Northern California Power Co., 327 3rd St., Chico, for the lighting system for same.

The entire cost of both contracts will total $12,000.

SAN FRANCISCO—The Board of Public Works has awarded a contract to D. L. Bienfield, Phelan Bldg., for the construction of sewers in Seventh

avenue and Dewey Boulevard on a bid of $8,558.

NOTICE TO CONTRACTORS.

STATE OF CALIFORNIA.

DEPARTMENT OF ENGINEERING

CALIFORNIA HIGHWAY COMMISSION

SEALED PROPOSALS will be received at the office of **the California Highway Commission, 515 Forum Building, Sacramento, Cal., until 2 o'clock P. M. on June 25, 1917,** at which time they will be publicly opened and read for construction in accordance with the specifications therefore, to which special reference is made, portions of State highway as follows;

Yolo County, between Blacks and Hershey (III-Yol-7-C) about 10.8 miles in length, to be paved with Portland cement concrete.

Alameda County, between Altamont and Greenville (IV-Ala-5-A), about 3.7 miles in length, to be paved with Portland cement concrete.

Napa County, between Napa and the easterly county boundary (IV-Nap-8-B), about 8.6 miles in length, to be paved with Portland cement concrete.

Monterey County between Camphora and Chualar (V-Mon-2-C), about 11 miles in length, to be paved with Portland cement concrete.

Tulare County, between Pixley and Tipton (VI-Tul-4-A & B) about 6.1 miles in length to be paved with Portland cement concrete.

Tulare County, between Tipton and Tulare (VI-Tul-4-B), about 9.2 miles in length, to be paved with Portland cement concrete.

Plans may be seen and forms of proposals, bonds, contract, and specifications may be obtained, at the said office, and they may be seen at the office of the Division Engineers at Los Angeles and San Francisco, and at the office of the Division Engineer of the division in which the work is situated. The Division Engineers offices are located at Willits, Dunsmuir, Sacramento, San Francisco, San Luis Obispo, Fresno and Los Angeles.

No bid will be received unless it is made on a blank form furnished by the Commission. The special attention of prospective bidders is called to the "Notice to Contractors" annexed to the blank form of proposal, for full directions as to bidding, quantities of work to be done, etc.

The Department of Engineering reserves the right to reject any or all bids or to accept the bid deemed for the best interests of the State.

NEWELL D. DARLINGTON,
CHARLES E. STERN,
HENRY J. WIDENMANN
California Highway Commission.
AUSTIN B. FLETCHER,
Highway Engineer.
WILSON R. ELLIS,
Secretary,
Dated; May 28, 1917. (*)

◆

PHOTOSTAT EQUIPMENT IS NOW AVAILABLE.

New Process is of Great Value to Contractors and Others Requiring Rapidity and Accuracy.

Architects, engineers and contractors will be particularly interested in the announcement of the installation of a complete Photostat equipment by the Standard Photoprint Service, 370-371 Russ Bldg., 235 Montgomery St. The Photostat process is specially adapted for the copying of blue prints, drawings, plans, specifications containing sketches, legal papers, letters, etc. A few of the larger corporations of San Francisco have been using the Photostat for their own copying, and the new firm has installed a plant to do work for the public.

Contractors wanting copies of blue prints or plans temporarily in their possession will find the process most convenient. Copies may be made without the originals leaving the possession of the contractor, the work being done in his presence and the Photostat prints ready for delivery a few hours later. The scale of any map or tracing may be enlarged or reduced and perfect legibility retained in either case. Architects and engineers will find this feature a great saver of time and expense where copies are desired to include in a report or for office filing.

The Photostat prints are made in any desired size up to 18x22 inches; larger sizes may be mounted as one piece. The prints are on good bromide paper that will neither fade nor decay. Charles A. Love and Lee L. Stopple are the proprietors of the firm. Their telephone number is Sutter 1675.

PREPARING BILL OF QUANTITIES.

The Constructors Estimating Board, 110 Jessie street, C. E. Wetherell, is preparing a detailed bill of quantities and engineer's estimate of cost of the new $60,000 Union High School to be erected at Oroville, Butte County.

The same Board is also preparing a bill of quantities for a frame residence to be erected on the west side of 46th avenue 90 feet north of Cabrillo street. These quantities may be obtained on application to the manager.

S. F. PUBLICITY IN AUTOMOBILE SALES JOURNAL.

"The Messenger" Carries Illustrated Article on Local Business Houses.

San Francisco and other coast cities and towns received considerable publicity in the current number of "The Messenger," a monthly publication issued by the Autocar Company of Ardmore, Pa., manufacturers of the Autocar, which is distributed in this territory by the Autocar Sales and Service Corporation.

"Several pages are devoted to coast business houses and industries that are prominent users of the Autocar and the accompanying illustrations are excellent," said E. P. Anderson, general manager for the Autocar Sales and Service Corporation.

"From a small beginning made about eight years ago, the work of distributing Autocars here has grown to be one of the most important industries in this district and the same condition exists in the southern part of the State.

"The tremendouse growth of our business on the coast was the main reason for the factory establishing a branch here to succeed M. S. Bulkeley & Co. We are now better equipped than ever before to serve the public and we are assured from the factory that the output there will be equal to the demand no matter how great the increase in orders may be. This means that there will be no undue delay in the making of deliveries.

"One fact that is doing much to win an ever increasing number of orders and satisfy present Autocar users is our after sales service policy. The establishment of an Autocar service station in every California city and town from San Diego to Eureka means that every Autocar owner is assured of being within reach of such a service station no matter in what part of the State he may be. An ever increasing number of prominent industries are finding that the Autocar is the most suitable for their work and that the service policy is one that assures them of the best to be had in the service line."

If you are figuring on buying a truck, be sure and see the Autocar.

DO YOU KNOW THAT

Peace hath her health problems no less than war?

Half the blindness in the world could have been prevented by prompt and proper care?

Constant vigilence is the price of freedom from flies?

The physical vigor of its citizens is the Nations greatest asset?

Idleness is the thief of health?

Infected towels spread eye disease?

PROGRESS REPORT OF VARIOUS STATE BUILDING PROJECTS.

Through the courtesy of the State Department of Engineering and State Architect George B. McDougall we are enabled to give our subscribers the first authoritative report of progress being made on plans and specifications for buildings to be erected from the funds appropriated at the last session of the legislature. In this report is given the character of work to be undertaken, type of construction wherever possible, amount allotted for each building, condition of plans at present and approximate date when bids will be advertised.

Norwalk State Hospital.

Three cottages are to be erected for patients from an appropriation of $132,000. One cottage will be two stories and basement of reinforced concrete and brick. The other two structures will each be one story and basement and constructed of brick and frame. Preliminary sketches are about to be started in the State Architects office. Bids will be called for by the middle of September or early in October.

California School for Girls.

This institution will be located in Ventura County and has been granted an appropriation of $220,000. Of the buildings outlined in a very preliminary study, the most important are three cottages, each two stories and of concrete and frame, $60,000; a two or three story trades building and gymnasium of similar construction, $30,000; development of water system, $10,000, and a one-story ice plant, $20,000. Architecture plans have not been started. Bids will probably be called for during October or November.

Improvements at Folsom Prison.

About $73,000 is available, or will be shortly, for new construction and repairs at the Folsom State Prison. Under a general head of repairs and improvements the sum of $25,000 has been allowed. A frame and concrete boiler plant and distributing system will cost $15,000. Seven frame cottages for the guards will be erected at a cost of $12,500. The sum of $11,000 has been allowed for a sewerage disposal system. A one or two story prison school building will be erected at a cost of $10,000. This later building will be of granite. Considerable of the work will be done by prison labor, and some of the construction on the sewage disposal system has already been started. Bids for other parts of the work will be called for during August and September.

Santa Barbara State Normal.

A frame gymnasium building of two stories will be erected at this institution. An approximate cost of $20,000 is placed on the construction. No plans have as yet been started and no date can be given when bids will be called.

San Jose State Normal.

An assembly hall and its equipment has been provided for in an appropriation of $80,000. Other than the fact that construction will be of reinforced concrete no details are known at this time. Construction will probably not be undertaken before the spring of 1918.

Office of Secretary of State.

A new fireproof vault costing $4,000 will be installed in the office of the Secretary of State at Sacramento. Bids will be called for in October.

Mendocino State Hospital.

Work amounting to about $100,000 will be undertaken in October or November at the Mendocino State Hospital. This construction is divided as follows: Reconstruction of Ward No. 5, $20,000; installing two new boilers, $18,000; laundry and bakery building, $28,000; reconstructing of Ward No. 7, $5,000; installing a water softening plant, $7,500, and increasing present water supply system, $5,000. Building construction will be of brick and frame.

Agnews State Hospital.

A two-story reinforced concrete workers cottage for males will be erected. The sum of $45,000 is now available. Preliminary plans have been started and bids will be called for during the fall.

Fresno State Normal.

A fund off $20,600 has been provided for school equipment and improvements to the school grounds. Bids will be called for in September or October.

PASSING OF THE OLD COACH.

Visitors to Yellowstone National Park Hereafter Will Travel in Speedy and Comfortable Touring Cars.

The old-fashioned stage coach has passed from its "last stand" in the Yellowstone National Park. In 1915 Secretary Lane admitted private automobiles to the park, but retained the horse-drawn stages. This necessitated special motaor schedules to avoid accidents. The situation remained the same last season under an enormous increase of motor travel. This season, however, the old stages are replaced by a fleet of seven and ten passenger cars, and the restrictions to general automobile travel are largely removed. The work begun in 1915 is completed. The Yellowstone is motorized.

This change was not accomplished wholly without opposition. Many persons held that the old stages should be retained for sentimental and historical reasons. But, while the Department of the Interior shared their regrets in the passing of so picturesque an institution, there was no withstanding the march of progress. Visitors were increasing rapidly and were demanding a faster passage between scenic spots than horse-drawn vehicles permitted. Those with limited time complained that more than half their visit was spent in passage through uninteresting lodgepole forests—time which they wanted in the geyser basins, at the Canyon, and at the greater lakes. Others complained that the stage rides were so exhausting that they could not appreciate the great spectacles when they reached them. And the demand of touring motorists for greater freedom grew even louder and more insistent.

So progress had its way and this year we have a new Yellowstone.

The automobile service will be adequate and rapid. Those who have at their disposal only the six days which was the necessary minimum of a Yellowstone visit under the old transportation system will now be able to spend nearly all of it at points of special scienic interest or in seeing wilderness features never seen by former visitors of limited stay.

As for the motorist, he will now be able to use the park's more than two hundred miles of road with almost the same freedom as roads anywhere else in America.

NATIONAL PARKS ORGANIZED.

The National Park Service, Which Congress Created Last August, Begins Work Under April Appropriations.

The National Park Service which was created by act of Congress in August ,1916, to administer the national parks under one correlated system has been organized under appropriations made in April. Secretary Lane has appointed as Director Mr. Stephen T. Mather who, to accept the place, resigned the office of Assistant to the Secretary of the Interior. Horace M. Albright becomes Assistant Director, and Frank W. Griffith Chief Clerk of the new bureau.

Secretary Lane began the work of national park development, the success of which is insured by the organization of this new bureau, two years and a half ago. During this preliminary period much has been accomplished of importance to the cause. All national parks have been opened to automobiles. New roads have been projected of which many have been built and many improved. Co-operation in the public interest has been promoted between railroads and the Government, between concessioners and park managements, and between parks. Large private capital has been induced to enter several national parks for the enlargement and improvement of hotel and transportation service. Prices to the public have been decreased wherever possible.

New concessions have been made on a basis destined to make national parks self-supporting under conditions of increased patronage, and several parks already have become self-supporting. Larger appropriations have been secured from Congress for road building and the perfecting of sanitary and other conditions. An extensive

educational campaign has been inaugurated for the information of the people concerning the hitherto unknown quality and extent of their scenic and recreational possessions, under which public interest in our national parks is growing with unanticipated speed; and public realization, interest and practical use is the condition as well as the object of national parks development. Public patronage of the parks has increased rapidly and steadily.

These and many other beginnings point the way toward the system which it will be the object of the new Service to build and perfect.

NEW ROCKY MOUNTAIN TRAIL.

Two lakes of supreme beauty in the Rocky Mountain National Park which have been inaccessible heretofore will be opened up by trail this season. They are Lake Nanita and Lake Nakoni on the west side of the Continental Divide near the headwaters of North Inlet. They lie in deep gorges surrounded by lofty mountains. Lake Nanita, at the foot of Andrews Peak, is one of the most romantic in the Rockies.

The new trail will strike into these lakes from the Flattop Trail, which crosses the Continental Divide and joins Estes Park on the east with Grand Lake on the west; so it is accessible to all Rocky Mountain National Park visitors

TRUCK SERVICE WINS APPROVAL.

Makers of One Machine Stand Back of Car During Entire Life.

The question of the motor truck and its relation to business is one constantly holding the attention of an increasing number of alert men who realize that modern business requires efficient and time saving methods if profits are expected to result on the investment of capital.

"When a business man buys a truck he is employing a transportation expert at so much per year and must be sure above all else that the expert is reliable," says E. P. Anderson, general manager of the Auto Car Sales and Service Corporation in discussing the motor truck problem.

Service Needed.

"Reliable and continuous motor truck transportation is dependent on purchasing from a truck manufacturer ready to stand back of the purchaser with reliable and continuous after-sale service. And this is the service that is guaranteed by the Autocar Company. In fact, it was for the purpose of being able to guarantee just this brand of reliable after-sales service that the Auotcar Company established factory branches in all of the big cities of the country.

"The service policy, thus established, is the manufacturer's pledge of support that every Autocar sold has the unceasing interest of the company back of it, during its whole period in service.

"Furthermore, we find that the great majority of Autocars sales are made by men who have seen them in service and have been impressed with the service rendered.

Seeing Is Believing.

"A man sees a demonstration of Autocar possibilities right in his everyday work and the word of its success of operation spreads from one line of business to another.

"The motor truck has infinite possibilities in the business world, there is practically no limit to the field. When one fully realizes this situation," continues Anderson, "it is easy to understand why the Autocar plays such a big part in the motorizing of business. It is adapted to light or heavy work and it keeps everlastingly at any job that it has to do. In fact, the investment in an Autocar is the soundest kind of a step in business preparedness for it can be used in regular delivery service and the chances are that it will only be a short time before other uses are found for it."

EXHIBITS WANTED FOR CHINESE COLLEGE MUSEUM.

SHANGHAI—The president of the Shanghai Baptist College has asked for the co-operation of this consulate general in obtaining for the museum of that college sets of the products of American manufacturers and of raw materials used by them. The president states that exhibits of this nature would be used as object lessons in various courses of instruction; and that, situated as the institution is in a commercial, cosmopolitan, and educational center, the utility of its museum for the display of catalogues ought to appeal to American firms desirous of pushing their business in the Far East.

QUANTITY ESTIMATES READY.

The Construction Estimators Board is preparing estimates of quantities for several school buildings which are to be erected in Siskiyou County at an early date. These buildings include both frame and concrete construction. A high school will be erected at Yreka; a grade and high school at Fort Jones and grade schools at Sissons, Doris, McCloud and Weed.

Estimates are also being prepared for a new Masonic Temple to be erected at Yreka. Plans for the above mentioned buildings were prepared by Architect Henry C. Smith, Humboldt Bank Bldg.

Contractors, sub-contractors and material men can secure quantity estimates on application to the Manager Charles E. Wetherell, 110 Jessie street or Room 810 Nevada Bank Bldg.

EVERY MAN ON HIS JOB.

Every man's duty is the same. Your job is your duty. My job is mine. Each of us can do his part most effectively by redoubling present endeavors at whatever his regular occupation may be.

There should be no curtailment in building and road construction. Let both public and private useful construction proceed. Production and

handling of building materials and public and private construction work are fundamental industries of the country. Any tendency to suspend or postpone building projects is inconsistent with maintaining our prosperity. The country is prosperous. Building investors should not hesitate to go ahead with their plans. Railroads should spare no effort to supply the building industry with the cars needed to transport materials. Government, state, county, and municipal authorities should encourage the continuance of all kinds of building. Road and street improvements in particular should go on unabated. Bad roads and streets are factors of first importance in the present high cost of foodstuffs. Never before was the improvement of highways so essential.

The lumber, brick, cement, lime, sand, gravel, stone, and other building materials industries are basic. Neither Government regulations nor railroad restrictions should be imposed unnecessarily to interfere with them. If any action is taken which results in the prostration of so fundamentally important industries, there is real danger of a surplus of unemployed labor, a surplus of railroad cars and a crippling of business that will seriously embarrass the Government in financing the war.

If we are railroading, let us railroad for all we are worth. If we are farmers, put the same speed in our farming. If we are mining, let us mine as never before. Let us do the same with making shoes, making clothes, building houses, building factories, warehouses, skyscrapers, roads, or whatever it may be.

Keep on building.

RED CROSS WAR RELIEF FUND.

Red Cross Week, from June 18th to 25th, has been set aside by President Wilson in formal proclamation as the period in which the nation will devote itself to raising $100,000,000 for the comfort and relief of the country's fighting men, the sick and wounded, as well as dependent families of enlisted men and destitute non-combatants.

Despite the many calls upon the patriotic for financial assistance, this campaign for the Red Cross is already assured the magnificent support it will need to carry. Brisk preliminary work on the part of the Western Campaign committee has enlisted the most powerful and influential men in all the large centers. Secretary Joseph Tumulty, in behalf of President Wilson, has wired to hundreds of prominent men throughout the West and has received from them enthusiastic assurance of support.

Inspired by the appeal of the nation's chief executive and head of the national Red Cross, workers in every city in the union are being organized to make the campaign week an effective money-raising event. Teams are being trained to handle the details of this stupendous canvass for the hundred million. West of the Mississippi, it is expected to raise at least fifteen millions of dollars, and, already, signatures have been secured to substantial checks which will give the campaign a powerful stimulus when it opens on June 18th.

NEW VACUUM PUMP PRODUCED.

A simple high vacuum pump, recently developed at the United States Bureau of Standards, has some very useful applications. This pump can be built entirely of glass by a reasonably skillful glass blower and requires for its operation only a Bunsen burner and a water aspirator, although it is capable of giving vacua down to better than 0.001 millimeter pressure.

TO THE PUBLIC:

At this serious time every patriotic citizen has two distinct responsibilities—the prevention of waste and a contribution to the increase in the food supply. Here is a way in which everyone can help meet both:

Fires in the forests, the grass and brush lands, and the grain fields, such as occur annually in our California dry season, cause a loss of grain, of forage for cattle and sheep, and of wood and timber. We have become used to such fires and take them too much for granted. This year any fire burning uncontrolled means a loss in resources, money, and labor that are needed for building ships, feeding people and live stock, and planting and harvesting our crops.

The co-operation of every loyal citizen is urgently requested, both in the matter of scrupulous care with fire in the open and in urging care on others.

It is reported today that Secretary of War Baker has ordered an immediate investigation of conditions surrounding the construction of a large army cantonment in Georgia, where, it is claimed, that contractors awarded this work on a cost plus basis have gone into the market and purchased lumber at double its present market price and have paid from two to three dollars more per day for carpenters and other labor than the local wage. The investigation will be conducted by Major General Wood, commander of the Southern Department.

The seriousness of such a charge can be easily understood when one realizes that an emergency appropriation totaling $77,000,000 has been made for such construction. With unscrupulous contractors receiving from seven to ten per cent of the total cost for this work and by such methods practically doubling the cost to the government and thereby their profits, the graft total runs into the millions and recalls the scandal of the Civil and Spanish War days.

A cantonment of large proportions is nearing completion in the Presidio of San Francisco, but fortunately no such charges can be brought against those charged with the management of its construction. While a cost plus contract was awarded by the Supply Department of the Committee for National Defense, practically all materials were purchased by the Constructing Quartermaster at Fort Mason before the arrival of a representative of the contracting company from New York. Representative San Francisco lumber men were called together and a price per thousand feet was secured and this submitted to the Supply Department at Washington, D. C., where it was approved and a contract entered into. Fully four million feet of lumber was involved and the price was practically that of the open market. Contracts for other materials have also been entered into through the Constructing Quartermaster at Fort Mason and at local market prices.

A total of two hundred and twenty-five buildings are now nearly complete in the local cantonment and these have been erected since May 23rd and will be ready for occupancy by June 15th. A crew of 250 carpenters has been employed and these at the regular wage scale. The cantonment at the Presidio of San Francisco will be the first large army cantonment completed and its construction sets a high record in time of construction.

Since the award of this contract the "Builder" has maintained that it was unwise, unpatriotic and unjust to award such construction without the formality of advertising for figures, and the investigation started over the Georgia scandal proves the "Builder's" contention was right and proper. This contention is further borne out by the stand recently taken by the highest officer in the Navy Purchasing Department, who has gone on record as being strongly against awards without due advertising.

As searching an investigation of the Supply Department of the Committee of National Defense should be made as that directed against the authorities involved in the construction work at the Georgia cantonment. The present system of awarding contracts without advertising and on a cost plus basis was originated by the Supply Department, the opportunity for graft grew out of this system and this department of the Committee of National Defense should shoulder the blame for its own fallacy.

Senator Phelan has been assured by officials of the Council of National Defense and by Colonel Isaac W. Little of the Quartermaster Corps of the Army, who is in charge of practically all cantonment construction, that in the future, local contractors will be favored as far as is possible.

The information is pleasing and is gratefully received even if practically all of such construction in this territory has been awarded. Additional camps for mobilization have been approved at the following locations: Fort Worth, Waco and Houston, Texas; Fort Sill, Oklahoma; Deming, New Mexico, and Linda Vista, California. Cantonment sites for the new army have been approved at the following sites: Little Rock, Arkansas; Louisville, Kentucky; Battle Creek, Michigan, and San Antonio, Texas.

The action of considering local contractors was taken by the Council of National Defense only after scores of protests were received from contractors and material men throughout the United States. Local building organizations should not consider their work in this connection as complete, however, for the Council has stated that their action is taken with regard to cantonment construction, but do not mention other vast enterprises. Senator Phelan, Senator Johnson and other representatives in Washington should be advised that while cantonment construction has been practically completed in California, there is a large amount of other government construction, both army and navy, to follow and that local firms should be considered in connection with such work.

Urbana, Illinois, June 11, 1917.

The Engineering Experiment Station of the University of Illinois has just completed another series of experiments to determine the magnetic and allied properties of alloys of iron and other metals. In 1915 experiments with iron-silicon alloys disclosed some remarkable properties which make it superior to any other material for use in certain electromagnetic machinery. These experiments were followed by others dealing with iron-aluminum alloys melted in vacuo, which have shown that aluminum like silicon greatly improves the magnetic properties of the metal, and also that aluminum imparts to the metal a greater toughness than silicon.

The investigations were conducted by T. D. Yensen and W. A. Gatward. The results are presented in detail in Bulletin No. 95 of the Illinois Engineering Experiment Station, copies of which may be obtained by addressing C. R. Richards, Director, Urbana, Illinois.

SAN JOSE, Cal.—A device for forming a groove in asphalt paving along the inside of the ordinary T rail where the flange of the car wheel operates, has been invented by James H. Quinby, manager of the Raisch Improvement Co. Quinby made application for a patent and has already received the preliminary papers.

AUCKLAND—The use of concrete by the farmers of New Zealand is increasing rapidly. It is used in making drinking troughs, dairy houses, cow sheds, fence posts, pigsties, and practically everything that was formerly constructed of wood or even stone, and found very satisfactory. The local cement works are able to supply the demand with a very good product, and but a small amount of special brands is imported.

ADVANCE NEWS

Official Proposals, Etc.

APARTMENT HOUSES.

Plans Being Figured.
APARTMENT HOUSE. Cost, $18,000
SAN FRANCISCO, Pacific and Burgoyne streets.
Three-story and basement, frame, 12 apartments of 3 rooms.
Owner—P. F. Rathjens.
Architect—Edward T. Foulkes, Crocker Bldg., S. F.

Plans Being Figured.
APARTMENT HOUSE. Cost, $30,000
OAKLAND, 60th street.
Two-story and basement, frame, 24 apartments, 2 and 3 rooms.
Owner—Name withheld.
Architect—G. L. Rosebrook, Bacon Bldg., Oakland.

Plans Being Figured.
BRICK APARTMENTS Cost, $30,000
SEATTLE, Wash. SW Queen Anne Ave. and Roy Street.
Three-story and basement brick (22) apartments, 44x90.
Owner—John James.
Architect—W. R. Kelley, Boston Blk., Seattle, Wash.

Segregated Figures Being Taken.
FRAME APARTMENTS Cost, $35,000
OAKLAND, Alameda Co., Cal. NW 15th and Brush Sts.
Three-story frame apartments (29 2-room apartments).
Owner—R. J. Pavert.
Architect—Chas. J. Rousseau, 46 Kearny St., San Francisco.

BANKS.

Plans Being Figured.
BANK AND OFFICE BLDG.
COST, $25,000
CONCORD, Cal.
Two-story reinforced concrete bank and office building.
Owner—Bank of Concord.
Architect—Reed & Corlett, Oakland Bank of Savings Bldg., Okd.

BONDS.

RIVERSIDE, Riverside Co., Cal.—The $50 000 school bond issue carried at the election held June 12. Of this sum $40 000 will be expended on the Arlington grammar school, for which three Riverside architects submitted plans. Preceedings will be started for the sale of the bonds.

MARICOPA, Kern Co., Cal.—Bids will be received by the County Supervisors up to July 3rd for the purchase of the $15,000 bond issue of the Maricopa High School District and which, when sold, will finance construction of a new school.

Plans are being prepared by Architects Thos. Wiseman and Chas. H. Biggar, Producers' National Bank Bldg., Bakersfield.

REDDING, Shasta Co., Cal.—July 28th is the date set to vote on the question of issuing and selling bonds of $35,000 with which to erect a new school building.

LOS ANGELES, Cal—The following bids were received by the Board of Supervisors for an issue of $50,000 grade school bonds for Azusa School District: Torrance - Marshall Co., premium of $758; National City Co., $635; R. H. Moulton & Co., $505.50; E. H. Rollins & Sons, $468; Frank & Lewis, $452; Blankenhorn-Hunter Co., $415.50; Wm. R. Staats Co., $328. The bids were taken under advisement.

REDDING, Shasta Co., Cal.—Proceedings are under way to call an election to vote bonds of $60,000 to build a system of permanent roads. The Supervisors have instructed the District Attorney to draw up the necessary papers.

SOUTH BEND, Wash.—Bonds of $250,000 have been voted in Pacific County and will provide for the construction of 45 miles of hardsurfaced highways and three bridges.

Chas. S. B. Henry is County Engineer of Pacific County.

SANTA BARBARA, Santa Barbara Co., Cal.—An election will be held June 26 for the purpose of voting on an issue of bonds in the sum of $590,000 for the completion of the Gibraltar dam, and $85,000 for sewer construction. In addition to these there will be provision made for $21,000 bonds for the completion of the east boulevard. The completion of the dam will include the construction of a reservoir on Mission Ridge and a pipe line in Mission Canyon.

FRESNO, Fresno Co., Cal.—Bids will be opened July 3, for the purchase of $100,000 bonds of the Coalinga Union High School District, and on the same date bids will be opened for the purchase of $4200 bonds of the Mount Olive School District. D. M. Barnwell is clerk.

PROSSER, Wash.—Bonds of $18,000,000 have been voted in the Horse Heaven Irrigation District, made up of citizens of Benton and Yakima Counties. The sale of the bonds will finance the completion of the present system.

Some of the items of construction are as follows: 150 miles of main canal, $8,000,000; two power and pumping plants, $500,000; six laterals, $1,979,000.

The engineers on the work are R. H. Thomson, Alaska Bldg., Seattle; Olof Lourgaard, Railway Exchange Bldg., Portland, and A. J. Wiley, Butte, Mont.

REDDING, Shasta Co., Cal.—July 6th is the date set to sell $368,000 worth of bonds of the Anderson-Cottonwood Irrigation District. Bonds of $575,000 were voted some time ago to complete the system now under construction. Subsequent sales will be made as the money is needed.

SEATTLE, Wash.—The City Council will consider, at its next meeting, the calling of a bond election to vote $4,000,000 for the construction of a third water pipe line and other structures.

The acquisition of Swan Lake and its conversion into a reservoir of 4,500,000,000 gallons would cost $800,000; the pipe line from Swan Lake to the city, which would be of concrete, reinforced concrete and wood stave, would cost $1,000,000; two reservoirs in West Seattle would cost $500,000 and the enlargement of the Volunteer Park reservoir would cost $250,000. L. B. Youngs, is Superintendent of Water.

HOLBROOK, Ariz.—The $160,000 road bond issue has been sold by the Board of Supervisors to Powell, Gerard & Co., of Chicago.

BRIDGES AND DAMS.

SONOMA, Sonoma Co., Cal.—Bids will be received by City Clerk H. W. Gottenberg, up to July 5th, 8 P. M., for the construction of a steel and concrete bridge over Nathanson Creek at Washington street.

RED BLUFF, Tehama Co., Cal.—Bids will be received by County Clerk H. G. Kuhn up to July 10th, 10 A. M., for furnishing plans and specifications for a concrete and girder subway (and an estimated cost of said subway) under the tracks of the Southern Pacific Company, about one-half mile south of Red Bluff on the route of the State highway.

Also for a reinforced concrete bridge (and an estimated cost of said bridge) over Red Bank creek on the route of the State highway.

The plans and specifications shall meet with the approval of the California State Highway Commission.

MODESTO, Stanislaus Co., Cal.—County Clerk H. Benson will receive bids up to July 10th, 10 A. M., for the construction of four reinforced concrete bridges on the Oakdale-Waterford road located at Station 110 plus 14, Station 164 plus 12, Station 216 plus 31, and Station 274 plus 28.

OAKLAND, Cal.—P. A. Haviland, County Engineer, and engineers of the Southern Pacific Company announce the completion of plans for the proposed $1,500,000 bridge to be constructed across the estuary between Oakland and Alameda.

SANTA BARBARA, Santa Barbara Co., Cal.—Bids will be received by the Board of Supervisors up to 10 A. M. of July 2, for the construction of a pile and timber trestle bridge over the slough on the road petitioned for by B. F. Pettis, et al., in the Third Road District, in accordance with plans and specifications on file at the office of the County Clerk. Plans and specifications, etc., may be obtained at the office of the County Surveyor. Certified check for 10% required. C. A. Hunt is the clerk.

VISALIA, Tulare Co., Cal.—Bids will be received by the Board of Su-

pervisors up to 2 P. M. of July 2, for the construction of a reinforced concrete bridge of the girder type, 64 ft. long and consisting of two 32 foot spans with a clear roadway of 21 ft. between the inside of the girders, to be located on the state highway in Section 12, Township 19 South, Range 24 East, M. D. B. and M., over Packwood creek.

Separate bids will also be received at the same meeting for the construction of a reinforced concrete bridge 42 feet long and consisting of three 14-ft. spans with a clear roadway of 21 feet, located on the state highway in Section 13, Township 19 South, Range 24 East, M. D. B. and M., over Cameron creek, according to plans and specifications on file at the office of the clerk of the Board. Certified check for 5% required. Geo. R. Prestidge is clerk.

OLYMPIA, Wash. An ordinance has been passed by the City Council providing for the construction of the proposed high concrete bridge over the Des Chutes River on West Fourth street, and the paving of the highway to the city limits, at a total cost of $129,476. W. D. Wood is City Engineer.

SEATTLE, Wash.—Bids will be received by the State Highway Commission, Olympia, Wash., until July 9th, for the construction of a timber bridge over the Kalama River on the Pacific Highway in Cowlitz County consisting of two 170-ft. spans and approaches.

FAIRFIELD, Solano Co., Cal.—Bids will be received up to July 2nd, 11 A. M., by County Clerk G. G. Halliday, for the repairing of the McKinstry Bridge on Sweeney Creek, Elmira Township, Road District No. 5. The said bridge is located on Road No. 101, near the Zimmerman Ranch. (16560) 1st report June 8. 1917.

EUREKA, Humboldt Co., Cal.—The Supervisors have instructed the County Clerk to advertise for bids for the proposed bridge across the Trinity River at Willow Creek, when the plans are completed by the County Engineer.

Fred M. Kay is County Clerk.

PLACERVILLE, El Dorado Co., Cal. —According to H. R. Bennett, local manager of the Western States Gas & Electric Company, a camp will be established fifty miles east of this city to begin construction of the Echo Lake Dam, which burst recently causing considerable damage and permitting the escape of a large amount of storage water.

Bennett states conditions are favorable to an early repair of the dam and the rushing of other construction work which the corporation planned some months ago. The new system when completed will represent the expenditure of over $1,000,000.

BIDS CLOSE JULY 9TH, 10 A. M.

For the construction of a one-story frame building at each of the drawbridges over Old and Middle Rivers on the I. L. Borden Road for use of bridge tenders at said bridges.

Location—San Joaquin County, Cal.
Owner—County of San Joaquin.
Architect Ralph P. Morse [illegible] ton, Cal.

Certified check of 10% payable to Chairman of the Board of Supervisors

Plans on file at office County Clerk.
Eugene D. Graham, Stockton, Cal.

SAN FRANCISCO, Cal. -The Board of Public Works has awarded a contract to F. B. Hill, 763 McAllister St., San Francisco, for the construction of a timber seawall on the Lower Cherry power development of the Hetch-Hetchy project.

Contract Awarded.

MARTINEZ, Contra Costa Co., Cal. —The Supervisors have awarded a contract to the Cotton Co., 544 32nd St., Oakland, for the construction of a concrete bridge over Walnut Creek at Hookston, they being low bidders at $7,278. Other bidders were:

Michael Heafy, $7942; C. H. Gorrill, $7790; C. A. Bruce, $7489.

PORTOLA, San Mateo Co., Cal.—A contract has been awarded by the Ormondale Company to Harry B. Morey & Sons, Menlo Park, for construction of a concrete dam, spillway, mug-wall, etc., on the Ormondale Ranch near Portola for $2179.60. Punnett & Parez, 333 Kearny street, San Francisco, are the engineers.

HEALDSBURG, Sonoma Co., Cal.—The Chamber of Commerce and Healdsburg Business Men's Association have awarded the contract for the building of a dam across the Russian river to B. Isia. The dam will be constructed below the county bridge.

GOVERNMENT WORK & SUPPLIES.

SAN PEDRO, Los Angeles Co., Cal. J. F. Atkinson, 1118 Story Building, Los Angeles, has been awarded the general contract at $249,000 for the erection of the barracks buildings at Fort MacArthur, San Pedro. The plumbing, heating, electric wiring and fixture contracts are excepted from the general contract. The barracks will comprise twenty-eight buildings and will house four companies. They will be of hollow tile construction with either tile or slate roofs, plastered exterior finish. Included in this group are four 2-story barracks buildings, 158x46 feet; two-story hospital, 70x40 feet; post exchange, 50x95 feet; guardhouse, 44x95 feet; headquarters of administration building, two story, 55x33 feet; four two-story double officers' quarters, 57x31 feet; two two-story field officers' quarters, 35x38 feet; two-story bachelors' quarters, 80x31 feet; one-story bakery, 63x33 feet. The following buildings will be of frame construction, with either tile or slate roofing and plastered exterior: double set of two-story non-commission officers' barracks, 31x34 feet; triple set of 2-story non-commissioned officers' barracks, 46x34 feet; hospital steward, 1-story, 34x24 feet. There will also be a wagon shed, 100x30 feet; ordnance shop, 72x20 feet; ordnance storehouse, 50x20 feet; artillery engineers' storehouse, 30x20 feet; quartermaster's shop, 70x20 feet, all of frame construction with redwood siding.

SAN FRANCISCO, Cal.—Construction has just been started by day labor on two or more one-story frame store houses at Fort Mason. Each building will cover an area of 200 by 60 feet, and has been estimated to cost $9,000.

Bids will be called for shortly for the construction of a Hospital Corps Barracks at the Letterman General Hospital. The building will contain a completely equipped gymnasium. Separate bids for the heating, plumbing, electric wiring and fixtures will be asked.

TACOMA, Wash.—C. F. Pilat, Government Architect and Engineer for the American Lake Training Camp near Tacoma, has arrived with plans for the proposed buildings, which show about 1,300 buildings all of which will be of two stories and semi-fireproof, also 64 buildings for each of the 12 regiments, making 768; 192 buildings for the field artillery, 192 buildings for the aero squadron, balloon companies and telegraph service, 40 buildings for the hospital corps, and seven for the Y. M. C. A.

The Hurley-Mason Co., Hoge Bldg., Seattle, and Perkins Bldg., Tacoma, have the contract. Connell Bros., and the Tacoma Dredging Co., will be associated with them on the general work.

Roseburg, Ore., Light Fixtures.
The bid of the Beardslee Chandelier Co., 216 South Jefferson street, Chicago, Ill., $2,022.55 in amount, has been accepted for installing lighting fixtures in the U. S. post office at Roseburg, Ore. The work will be complete September 1.

Kalispell, Mont., Lighting Fixtures.
The contract for installing lighting fixtures in the U. S. post office at Kalispell, Mont., has been awarded to F. Storsberg Co., 20 Atlantic avenue, Newark, N. J., at $2,557.57. The work will be completed by August 1.

Lagunna, N. Mex., Laundry Building.
The Commissioner of Indian Affairs, Washington, D. C., has rejected all bids received on May 17, for constructing a laundry building at the Lagunna Sanatorium, Lagunna, N. Mex.

San Diego, Painting.
The contract for exterior painnting in the quarantine station, San Diego, Cal., has been awarded to Newell J. Jones at $1,417.

HALLS AND SOCIETY BUILDINGS.

Plans Being Figured.

Contract Awarded.

SAN FRANCISCO- Flinn & Treacy, 404 1st National Bank Bldg., have been awarded the contract for the asphalt pavement at the Fairmount School.

SEWERS, STREET WORK & WATER SYSTEMS.

HANFORD, Kings Co:, Cal.—The Federal Construction Co., Sharon Bldg., San Francisco, has asked to be relieved from their contract providing for the paving of 63 blocks in Hanford, the cost of which is about $200,000.

The company in answering the petition of L. Y. Dollenmayer, who seeks to have the company and the city enjoined from doing the work, admits the allegations of the plaintiff, namely that the mixture agreement is not in accordance with the resolution passed by the board and that the resolution was not properly advertised.

AUBURN, Placer Co., Cal.—The City Trustees have rejected all bids submitted for the paving of streets. Bids received were 15% higher than those opened a month ago. In advertising the first time the city specified a certain kind of cement which made this bids invalid.

VISALIA, Tulare Co., Cal.—Separate bids will be received by the Board of Supervisors up to 2 P. M. of July 2, for constructing the Porterville-Terra Bella division of the Tulare county highway system.

SANTA BARBARA, Santa Barbara Co., Cal.—Because of omissions in the specifications for the De la Vina and Bath street paving work, the two contracts for this work awarded the firm of Fairchild, Gilmore & Wilton of Los Angeles, will not be accepted by that company, and City Attorney W. P. Butcher announces that proceedings for the improvement will be started over again. The two contracts amounted to $85,516.

CHINO, San Bernardino Co., Cal.—Bids will be received by the City Clerk up to 8 P. M. of July 3, for furnishing one revolving broom street sweeper. Prices to be f. o. b Chino on standard revolving broom sweeper, with and without broom housing and on standard sweeper equipped with broom housing, two speed broom, sprinkling tank and all necessary piping, etc., complete. Length of broom and price for refilling broom to be stated in bid; also terms of payment. E. L. P. Wetmore is the City Clerk.

SAN DIEGO, San Diego Co., Cal.—City Engineer Cromwell and County Surveyor Butler are preparing plans and specifications for a concrete highway 20 feet wide and 5 inches thick, leading to the Linda Vista cantonment. The city's portion is about four miles long and commences near Old Town and runs to the city limits, where it will connect with the county's road, which is about 6½ miles long. The city will call for bids in about two weeks and the county work will follow shortly after.

SAN BRUNO, San Mateo Co., Cal.—The Trustees have directed the City Engineer to prepare plans and specifications for the construction of sidewalks, curbs and streets in Huntington Park. Bids will probably be called at the next meeting.

STOCKTON, San Joaquin Co., Cal.

Ansel S. Williams, Secretary of the Board of Education, will receive bids up to June 30th, 8 P. M., for furnishing work, labor and materials for grading, curbing and guttering, constructing sidewalks and paving around Block 17 bounded by C street and East Lafayette and alley off C street.

PENDLETON, Ore.—Bids will be received by the State Highway Commission up to June 29, for the surfacing of ten miles of highway east from Pendleton. The surfacing will be laid on an old macadam base. (16731)

KALAMA, Wash.—Bids will be received up to July 2nd by the County Auditor B. O. Olson for the construction of Permanent Highway No. 3, near Castle Rock, Wash., by clearing, grading, drain'ng and surfacing with gravel and construction of overhead crossings and bridges. F. C. Cramer, county engineer.

Sealed Proposals will be received at the office of the California Highway Commission, 515 Forum Building, Sacramento, Cal., until 2 oclock P. M. on July 16, 1917, at which time they will be publicly opened and read for construction in accordance with the specifications therefor, to which special reference is made, portions of State highway as follows:

Mendocino County, between Willits and Arnold (I-Men-1-F), about 8.2 miles in length to be graded.

Los Angeles County, between Seeley's Ranch and a point near Acton (VII-L. A.-23-D), about 10.6 miles in length to be paved with Portland cement concrete.

Los Angeles County, between a point near Acton and Palmdale (VII-L. A.-23-E), about 8.7 miles in length to be paved with Portland cement concrete.

Plans may be seen, and forms of proposals, bonds, contract, and specifications may be obtained, at the said office, and they may be seen at the office of the Division Engineers at Los Angeles and San Francisco, and at the office of the Division Engineer of the division in which the work is situated. The Division Engineers officers are located at Willits, Dunsmuir, Sacramento, San Francisco, San Luis Obispo, Fresno, and Los Angeles.

BELLINGHAM, Wash.—Riddle & Hawkins, Bellingham, submitted the low bid to the County Commissioners for the Geneva Road Improvement (one-course concrete) at $54,235. The bid of Ledington & Cooper, Vancouver, B. C., at $123,566 for the Blaine-Ferndale road, was also taken under advisement by the Commissioners. C. A. Lindberry is County Engineer.

STOCKTON, San Joaquin Co., Cal.—The City Council has taken all bids under advisement for the improvement of streets in South Stockton. The bids received were as follows:

Resolution 557

Engineer's estimate	$172,974.83
Paul & Caldwell, Stockton	185,916.86
Clark & Henery, 38 S-Sutter St., Stockton	186,258.04
Johnson-Shea, Central Bank Bldg., Oakland	194,195.62

Resolution 558

Engineers estimate	$231,703.06
Clark & Henery	247,694.89
Johnson-Shea	260,345.27

SACRAMENTO, Cal.—The County Highway Commission will receive bids up to July 2nd, 2 P. M., for testing of 170,000 barrels, more or less, of hydraulic Portland cement, in accordance with the requirements of Highway Commission Specifications No. 16.

Each bid must be accompanied by a certified check in an amount equal to 10% of the amount of the bid, based on the testing of 170,000 barrels of cement, payable to the Chairman of the Board of Supervisors of Sacramento County, as a guarantee of good faith.

Robt. E. Callahan is Cha'rman of the Board of Supervisors and E. P. Pfund, County Clerk.

AUBURN, Placer Co., Cal.—The City Trustees have adopted a resolution provid'ng for a vote on the proposal to paving a sixteen foot strip through the city connecting up the State Highway. June 26 is the date of the election.

Bids have been called for twice but the contract was not let because the bids were considered exorbitant.

SANTA BARBARA, Santa Barbara Co., Cal.—An election will be held June 28 in the Montecito road district to vote on a special tax of $18,000 to build and equip a firehouse for the protection of the Montecito valley. Otto Niedermuller is one of the fire commissioners of the d'strict.

RICHMOND, Contra Costa Co., Cal.—The City Council has adopted plans and specifications for the improvement of Nineteenth street from Clinton avenue to Burbeck avenue, by the grading, and paving with Richmond macadam pavement. A. C. Far's is City Clerk.

SANTA CRUZ, Santa Cruz Co., Cal.—Plans have been approved by the City Council for the paving, grading, sewering and curb'ng of Ocean View avenue its entire length. Bids will be called for shortly

SANTA CRUZ, Santa Cruz Co., Cal.—The City Council has rejected the bid of Brady & Flynn for the resurfacing of Soquel avenue from Ocean View avenue to Ocean street at $1,170. The City Engineer's estimate was $900.

VISALIA, Tulare Co., Cal.—The Supervisors were promised that if they would revoke a previous decision to lay Tulare county's highway system without a top and readvertise for both the Topeka and Warrenite inch and a half surfacing he would "wreck the eight cent bid offered before" the supervisors of Tulare county decided to take advantage of this offer of a well known contractor and ordered new bids, which will be opened at 2 P. M. Friday, July 6th, on the Topeka and the Warrenite top on the follow'ng divisions: Dinuba-Sultana, Orosi-Cutler, Visalia-Exeter, Visalia north, and Lindsay-Porterville.

SEATTLE, Wash.—City Engineer A. H. Dimock is preparing plans for the construction of a sewerage purification plant and a complete sewerage system south of Hillman City to serve the Rainier Valley at a cost of $1,025,000. The estimates for the main and trunk lines are placed at $400,000 and the laterals at $625,000. The improvement would have to be financed under a bond plan.

TURLOCK, Stanislaus Co., Cal. City Clerk A. P. Ferguson will receive bids up to July 3rd, 8 P. M., for the following work:

That South First street from "A" to "D" be graded, cement concrete curbs, American ingot iron culverts and a cement concrete base and a Bithulithic wearing surface 5½ inches thick, and a foundation course of cement concrete 4 inches thick and a wearing surface of Bithulithic 1½ inch thick be constructed.

BIDS CLOSE JUNE 27, 1917 BET. 2 AND 3 P. M.

The improvement of De Wolfe street from Lawrence avenue to the bridge over the right of way of the Ocean Shore Railway Company, and the improvement of the intersection of Lawrence avenue and De Wolfe street, by the construction of granite curbs and artificial stone sidewalks and two brick catchbas'ns with cast-iron frames, gratings and traps and 10-inch vitrified, salt-glazed, ironstone pipe culverts and an asphalt pavement.

For further particulars address The Board of Public Works, City Hall.

FRESNO, Fresno Co., Cal.—Bids will be received by City Clerk W. H. Ryan up to July 2nd, 5 P. M., for the following work:

That the alley in Block No. 335 be graded, curbed with redwood curbing, and paved with a 4-inch cement concrete base, and a 1½-inch Bithulithic wearing surface.

That Iowa avenue from First street to Ninth street, be graded, cement concrete curb, oiled and culverted with corrugated iron culverts.

Also that artificial stone sidewalks be constructed.

That White's Bridge avenue and "B" street, from Tehama street to Amador street, be graded, cement concrete curb and gutter, paved with a pavement consisting of a 4-inch crushed rock base and a 2-inch Bitulithic wearing surface, and culverted with corrugated iron culverts.

That a 6-inch sewer be constructed in Fresno avenue opposite the alley in Block 3, Belmont Addition, etc., a 4-inch and 6-inch Y for each twenty-five feet frontage and a manhole be constructed.

Certified check of 10% payable to City of Fresno.

FRESNO, Fresno Co., Cal.—City Clerk W. H. Ryan of Fresno will receive bids until July 2, 1917, at 5 o'clock P. M., for the following work:

That portions of First street, Third street, Fourth, Seventh, Eighth and alleys in Blocks 5, 43, 44, 45, 46, etc., be improved by constructing 6 8, 10 and 12-inch vitrified ironstone sanitary and lateral sewers; 4 and 6-inch "Y's" 48 manholes and 3 drop manholes.

COQUILLE, Ore.—The Grant Smith Co., of Portland, will build three or four road projects in Coos county, the cost of which will be approximately $150,000. The work will be done by force account because no proposals were received.

An effort was made to have this firm submit a proposal but they refused because of the uncertain labor market.

R. B. Murdock is Roadmaster of Coos County.

SACRAMENTO, Cal.—The City Commissioners have awarded a contract to J. W. Terrell, 1111 29th St., Sacramento, for the following work:

That the alley between Forty-eighth street and Forty-ninth street, be im-

proved by excavating a trench and constructing therein an 8-inch vitrified ironstone pipe sewer; 1 concrete manhole; placing 30 6-inch vitrified ironstone wye branches on 8-inch sewer; placiig 1 6-inch vitrified ironstone flusher branch complete, and backfilling the trench.

Contract Awarded

NAPA, Napa Co., Cal.—The Supervisors have accepted the bid of J. Heir., the only bidder, for crushing 1500 cubic yards of rock at the Harris quarry in the Carneros District, at 65 cents per cubic yard. The county will build the bunker.

RIO VISTA, Solano Co., Cal.—The Johnson-Shea Co., Central Bank Bldg., Oakland, Cal., has been awarded the contract for the improvement of Third and Fourth streets between Montezuma and California streets, on their bid as follows:

Grading per square foot, 2½ cents; paving per square foot, 13½ cents; curb and gutter per lineal foot, 60 cents; curb only per lineal foot, 40 cents.

STOCKTON, San Joaquin Co., Cal.—Jake Meyer announces the award of a contract to Cyrus Moreing & Sons, Commercial & Savings Bank Bldg., Stockton, for the paving of streets of College Park.

The streets will be paved with asphalt, and concrete sidewalks, gutters and curbs will be installed. The sidewalks and curbs will be of red cement.

SEALED PROPOSALS

STATE OF CALIFORNIA.

DEPARTMENT OF ENGINEERING.

CALIFORNIA HIGHWAY COMMISSION

NOTICE TO CONTRACTORS.

SEALED PROPOSALS will be received at the office of **the California Highway Commission, 515 Forum Building, Sacramento, Cal., until 2 o'clock P. M. on July 16, 1917,** at which time they will be publicly opened and read for construction in accordance with the specifications therefor, to which special reference is made, portions of State highway as follows:

Mendocino County, between Willits and Arnold (I-Men-1-F), about 8.2 miles in length to be graded.

Los Angeles County, between Seeley's Ranch and a point near Acton (VII-LA.-23-D), about 10.6 miles in length to be paved with Portland cement concrete.

Los Angeles County, between a point near Acton and Palmdale (VII-LA.-23-E), about 8.7 miles in length to be paved with Portland cement concrete.

Plans may be seen and forms of proposals, bonds, contract, and specifications may be obtained, at the said office, and they may be seen at the office of the Division Engineers at Los Angeles and San Francisco, and at the office of the Division Engineer of the division in which the work is situated. The Division Engineers offices are located at Willits, Dunsmuir, Sacramento, San Francisco, San Luis Obispo, Fresno, and Los Angeles.

No bid will be received unless it is made on a blank form furnished by the Commission. The special attention of prospective bidders is called to the "Notice to Contractors" annexed to the blank form of proposal, for full directions as to bidding, quantities of work to be done, etc.

The Department of Enginering reserves the right to reject any or all bids or to accept the bid deemed for the best interests of the State.

NEWELL D. DABLINGTON,
CHARLES F. STERN,
HENRY J. WIDENMANN,
California Highway Commission.
AUSTIN B. FLETCHER,
Highway Engineer,
WILSON R. ELLIS,
Secretary. (*)

Dated: June 11, 1917.
June 21-28-July 5-16

BIDS WANTED FOR MISCELLANEOUS COUNTY SUPPLIES.

RED BLUFF, Tehama Co., Cal.—County Clerk H. G. Kuhn will receive bids up to July 10th, 10 A. M., for the following materials:

Supervisor District No. 1.
10 long handle shovels.
10 slip scraper.
20 000 feet 3x12 lumber.
10 picks.
10 kegs 60 p. nails.
5 Austin grader blades.
100 barrels of cement.
6 rakes.

Supervisor District No. 2.
12,000 feet lumber.
5000 feet 3x12x16.
3000 feet 3x12x20.

REPORT OF RAILROAD COMMISSION OF THE STATE OF CALIFORNIA.

The Railroad Commission has extended until June 30, 1919, the time within which the San Diego and South Eastern Railway Company may reconstruct its system so as to comply with the provisions of Chapter 499, laws of 1911, as amended by Chapter 600, laws of 1915, on condition that one-half of the reconstruction work shall be completed before June 30, 1918, and the entire work before June 30, 1919.

The Pacific Electric Railway Company has filed with the Railroad Commission an application for permission to construct connecting tracks with the tracks of the Covina branch of the Southern Pacific Railroad Company at Baldwin Park, Los Angeles county, and to operate them with the Southern Pacific for a distance of 600 feet.

The Railroad Commission has authorized the Atchison Topeka and Santa Fe Railway Company to construct its Fallbrook branch line at grade across 13 public highways in San Diego county

The Railroad Commission has extended until June 30 1919, the time within which the San Diego Electric Railway Company may reconstruct its system so as to comply with the provisions of Chapter 499, laws of 1911, as amended by Chapter 600 laws of 1915, provided at least one-half of the reconstruction work is completed before June 30, 1918.

The Railroad Commission has issued an order authorizing the Southern Sierras Power Company to construct an electric light generating plant and distribution system in the city of Blythe, Riverside county. The company proposes at this time to construct a steam generating plant, and as soon as the business will warrant, construct a transmission line so as to connect the system with its hydro electric generating plant. The estimated cost of the steam generating plant is reported at $20,000, of which $10,200 has been expended.

CITY BIDS OPENED.

Three sets of figures were opened at the regular Wednesday meeting of the San Francisco Board of Public Works for constructing the Municipal Railway Extension through Twin Peaks Tunnel. The work was subdivided into the following items:

(1) Three tracks in tunnel; (2) track west of Station "O," 2400 ft.; (3) girder rail construction, 513 ft.; (4) crossover in west portal, 1; (5) double track branch off, 1; (6) excavation west of Station "O," 3000 cb. yds.; (7) asphalt pavement, 10,950 sq. ft.; (8) basalt header blocks, 2500 sq. ft.; (9) asphalt conform pavement, 2000 sq. ft. (10) concrete curb right of way, 4950 ft.; (11) concrete curb around platform, 750 ft.; (12) sidewalks, 1440 sq. ft.; (13) 8" drain in tunnel, 3350 ft.; (14) concrete strain poles 6 ft.; (15) concrete poles in yielding ground, 10 ft.; (16) concrete poles in firm ground, 4 ft.; (17) concrete center poles, 12 ft.; (18) cable work; (19) trolley work (20) overhead trolley crossover; (21) E. T. 4-o joint bonds, 720; (22) E. C. 4-o joint bonds, 30; (23) E. T. 300,000 C. M. bonds, 420; (24) E. T. 1-o bonds, 410; (25) 5-ft. cross bonds 30; (26) 7-ft. cross bonds, 37; (27) 11-ft. cross bonds, 5; (28) 4-o bond wire, 2400 ft.

Eaton & Smith (1) $44,000; (2) $3.00 (3) $4.00; (4) $400; (5) $250; (6) .40; (7) .20; (8) .45; (9) .10; (10) .60; (11) .60; (12) .10; (13) .60; (14) $75; (15) $100; (16) $90; (17) $80; (18) $1,800; (19) $8,000; (20) $40; (21) $1.50; (22) $1.60; (23) $1.70; (24) .75; (25) $3.25; (26) $3.75; (27) $6.50; (28) .52.

R. C. Storrie Co. (1) $53,200; (2) $3.60; (3) $4.75; (4) $325; (5) $400; (6) $1.00; (7) .22; (8) .60; (9) .10; (10) .90; (11) .95; (12) .13; (13) .50; (14) $200; (15) $160; (16) $160; (17) $150; (18) $1,500; (19) $11,000; (20) $150; (21) $1.70; (22) $1.80; (23) $2.00 (24) .85; (25) $3.50; (26) $4.00; (27) $7.00; (28) .60.

Western Motor Draying Co. (1) $51,730; (2) $3.20; (3) $5.00; (4) $300; (5) $350; (6) .80; (7) .20; (8) .56; (9) .11¼ (10) .08; (11) .90; (12) .15; (13) .44; (14) $99; (15) $142. (16) $132; (17) $114; (18) $1,906; (19) $8,604; (20) $37; (21) $1.65; (22) $1.76; (23) $1.90; (24) .83; (25) $3.60; (26) $4.00. (27) $7.00; (28) .57.

The following list of figures, which appeared in the "Builder" issued on Saturday, June 23rd, was submitted for the construction of the ungraded school to be erected on Union street, between Kearny and Montgomery streets. Plans for this building were prepared by Architect John Reed, Jr., First National Bank Bldg.

General Construction.

H. A. Klyce	$11,490

King Elec. Co.	1,300

Sub Knob & Tube System for Conduit.

Butte Eng. & Elec. Co.	$158
King Elec. Co.	174

LASSEN NATIONAL PARK.

Many persons who desire to see volcanic phenomena will visit the new Lassen Volcanic National Park this season. A month after Congress made it a national park last summer the volcano broke into eruption, and the region is still actively disturbed.

Lassen Peak is in northern California. It is one of the celebrated peaks of the Cascade Range, which include Mount Baber, Mount Hood, Mount Shasta, and what was once Mount Mazama but is now Crater Lake. Few of the ice-plated volcanoes of this range are extinct in a geological sense of the word; several of them have areas on their sides where snow melts, or have hot springs in their neighborhoods; Lassen Peak is the only one actually active within history

NATIONAL PARKS AUTOMOBILE MAPS.

The National Park Service now has ready new automobile maps in two colors of the Glacier, Rocky Mountain, Carter Lake, Sequoia, and Mount Rainier National Parks. They are similar in design and purpose to the automobile maps issued last year of the Yosemite and Yellowstone National Parks.

The maps distinguish between good and poor automobile roads, and show all trails. Distances are indicated and many places pointed out where gasoline and water may be had. Other information useful not only to motorists but general tourists is given.

These maps may be had each in its own national park, or upon application to the Department of the Interior.

THE ROCKY MOUNTAIN SEASON.

Notwithstanding the war, a larger patronage of the Rocky Mountain National Park is expected this year even than last, when 86,000 persons visited it and its beautiful valley gateway, Estes Park. The hotels, boarding houses, and public camps which then were crowded have all been enlarged. Even with an increase of many times in patronage, there will be no sense of crowding in the parks 400 square miles of valley and mountain fastness.

During the winter Congress has enlarged the boundaries of the Rocky Mountain National Park by adding more than 40 square miles of area upon the Estes Park side. The Twin Sides and Gem Lake are now in the national park.

With the purpose of encouraging summer vacations in California, the Southern Pacific Company has just issued for general distribution a booklet in condensed form descrirptions of California resorts. The booklet is a revelation to the average Californian for it shows him the wonderful variety of scenery and climate available within from an hour's to a night's run of San Francisco or Los Angeles.

All information as to names, localities, rates, facilities for sports and amusements, etc., can be readily found in the new publication.

DOUGLAS FIR ADVOCATED FOR "TREENAILS" FOR SHIPS.

Dense Douglas fir, such as is found in butt logs of this tree, which is very abundant on the Pacific Coast, is advocated for "treenails" for ships by Professor M. M. Pratt of the Division of Forestry of the University of California, in an article in the June issue of "The Timberman." The prospective activity in building wooden ships makes the question timely.

"Treenails," or "trunnels," as they are commonly called, are cylindrical wooden pins, used in fastening the parts of wooden ships together. Since it requires about thirty thousand of these pins for an average sized ship, it is a matter of much concern to secure a sufficient supply, especially since the use is very exacting. In the past, black locust has men the demand for denseness, durability, seasoning ability, strength, and elasticity, but there is a shortage of this wood at present, and there is danger of inferior woods being substituted.

"Stringy bark," a species of eucalyptus imported from Australia, has given satisfaction when properly seasoned, but the supply is limited, and it is impossible to get further stock at this time on account of lack of bottoms. California-grown eucalyptus has not proved satisfactory for "treenails" on account of its porosity, lack of durability, and poor seasoning qualities. Tests made by the Engineering Department at the University showed that hickory, as well as California eucalyptus, was exceedingly porous as compared with black locust or "stringy bark."

The best available substitute for black locust seems to be Douglas fir, cut from carefully selected butt logs. Such wood is hard, strong, elastic, dense, straight-grained, and seasons well. It is also non-porous, which obviates all danger of seepage. The treenails, being of dense selected stock, should be at least as durable as the Douglas fir wood which they hold together. Treenails of such wood were used by one of the early shipbuilders on the Pacific Coast and when taken out of a ship at the end of twenty years service were found to be in good condition.

APPEAL TO SHIPPERS.

The following appeal is being sent to all shippers and receivers of freight by the San Francisco committee of the Car Service Commission at Washington:

"With our country at war, the railroads are being called upon to handle unprecedented quantities of all kinds of materials and supplies, and have pledged to the Government and the people their united efforts to produce maximum disturbance to commercial interests, we earnestly appeal to all shippers and receivers of freight to assist in the conservation of freight cars, the most important factors of which are the following:"

Shippers: Order direct, in writing, from local representatives at point of loading only the number and kind of cars suitable for your needs together with the amount or weight of shipments.

Load and furnish shipping instructions in one day; the earlier in the day the better the opportunity to get car moving.

In accepting orders for shipments, secure sufficient tonnage to fill completely a 60, 80 or 100 thousand pounds capacity car, including the ten per cent which cars may be loaded above market capacity.

Receivers: Place your cars in quantities to provide a full car load as above described.

In placing your orders, designate track on which cars will be loaded and bill cars accordingly.

Unload cars the day received. Quick release increases supply available for yourself and others.

The net shortage on all roads in the United States on May 1st was 145,449 which is the largest in the history of the country, with every prospect for increased demands. With two and a half million cars in service this shortage can be wiped out by increasing the loading per car. Loss of car space and capacity is the most serious factor today causing the so-called car shortage. Recent check of 65,219 cars shows 58 per cent of capacity utilized.

Will each and every shipper and receiver of freight "do his bit" in the existing emergency?

Respectfully submitted,
COMMISSION ON CAR SERVICE,
San Francisco Committee.

RULES AFFECTING BOILER PLATE AMENDED.

On account of the contention of manufacturers of boiler plate that the requirements of the rules of the Board of Supervising Inspectors, United States Steamboat-Inspection Service, governing the manufacture of steel boiler plate are stringent, resulting in a cost of from 5 to 6 cents a pound for steel boiler plate manufactured under the rules of the Steamboat-Inspection Service over steel boiler plate subject to the rules of Lloyds Bureau, the executive committee of the Board of Supervising Inspectors, at a meeting held from May 16 to 19, inclusive, 1917, adopted the following rule for physical qualities of steel plates:

Physical Properties, Steel Plates. The tensile strength determined by the tests shall be not less than 58,000 pounds per square inch of section, nor more than 73,000

pounds per square inch of section, and the elongation measured in a gauge length of 8 inches shall be not less than 20 per cent.

Guide Holes for Drills and Cutters May Be Punched.

The rules reading "All holes for tubes shall be drilled and no part punched" and "All holes for stays shall be drilled and no part punched" were struck out, and the following new rule was adopted:

> Centers or guide holes not to exceed 75 per cent of the diameter of the full size finished hole for tubes and stays may be punched. The remainder shall be cleanly cut, drilled, or reamed to full size.

These amendments received the approval of the Secretary of Commerce on May 19, 1917, under the provisions of Section 4405, Revised Statutes.

The Steamboat-Inspection Service has issued a circular letter dated May 22, 1917, which contains these amendments in full. The circular letter will be issued to manufacturers of boiler plate, boiler manufacturers, and to all persons on mailing lists to receive the general rules and regulations of the board of supervising inspectors. Copies of the circular letter may be obtained on application to any board of local inspectors, Steamboat-Inspection Service.

THE MONSTER OF MOUNTAINS.

Mount McKinley, Our Newest National Park, an Amazing Spectacle.

The national park in Alaska which Congress created last spring is one of the monster spectacles of the world. To say that it rises 20,300 feet above sea level and that it is the loftiest peak in America is to convey no idea whatever of its grandeur. There are several mountains in the Himalyas which materially exceed its height, one which rises 25,000 above sea level; and yet Mount McKinley, to the observer, is loftier than any of these.

The reason is that the greatest Himalyas are seen from valleys seven to ten thousand feet in altitude, while Mount McKinley rises abruptly from valleys three thousand feet and even less in altitude. The visitor to the Mount McKinley National Park will look up more than seventeen thousand feet to the double peak, the upper fourteen thousand feet of which are covered with perpetual snow.

This enormous mass is the climax of the great Alaskan Range which extends roughly east and west across southeast central Alaska, separating the vast northern inland from the more populated country whose shores are the Gulf of Alaska. The range parallels the mighty Yukon many miles to its south.

Titanic Alpine Scenery.

The reservation contains 2,200 square miles. Its northern slopes, which overlook the Tanana watershed with its gold mining industry, are broad valleys, inhabited by enormous herds of caribou. Its southern plateau is a perpetual winter wilderness through which glaciers of great length and enormous bulk flow into the valleys of the south. In this national park, which the railroad now building by Government into the Alaskan interior will open presently to the public, America possesses Alpine scenery upon a titanic scale.

From the stormy south, Mount McKinley is wholly inaccessible. But from the plains of the north, valleys of easy grade lead one from another to its foot.

"It is an awe-inspiring region of massive mountains and ice-capped peaks," Belmore Browne of the Camp Fire Club, testified before the Senate Committee on Territories. "The Piedmont Plateau that follows the range affords a beautiful roadway direct to Mount McKinley, and when you reach the plateau all difficulties vanish and you see a view that is unique on this earth. You see the huge mountain line of perpetual snow, rising like a great wall on the southeast. You can ride a pony to where Mount McKinley rises seventeen thousand feet above you in a glittering wall of snow and ice. It is flanked by stupendous mountains which make a wonderful setting for the monster."

Enormous Herds of Caribou.

North of the vast mountain, however, is a rolling country dotted with beautiful lakes and forests and inhabited by enormous herds of caribou. In fact the special reason why Congress set apart the region at this time was to conserve the wild animal life in advance of the invasion of hunters whilch the new Government railroad will bring into Alaska, the road as projected running within twenty miles of this greatest of natures spectacles.

Charles Sheldon, of the Boone and Crockett Club, told the Senate Committee that several times he has counted as many as five hundred mountain sheep in a single day of ordinary travel, and that herds of caribou numbering from twelve to fifteen hundred are frequently seen.

As a game refuge and breeding ground, the new national park conserves Alaskan game which elsewhere is rapidly disappearing. As in the case of the Yellowstone National Park, the reservation serves as a perpetual center of game supply for large neighboring areas.

These animals do not greatly fear man, because they have never been hunted. One can approach the great herds of caribou. There also many Alaskan bear of great size.

EQUIPMENT OF NEW CEMENT FACTORY IN ARGENTINA.

BUENOS AIRES, May 3.—A description of the new Portland cement factory established in the Province of Buenos Aires, being a company formed by United States capitalists, reference to which was made in "Commerce Reports" for October 11, 1916, was recently published in the Review of the River Plate. Some of the details are given below:

"This plant will have a capacity of about 3,000 barrels per day, will be fully equipped with the most modern machinery, and will manufacture a highest grade Portland cement, equal to that manufactured in any part of the world. The buildings of the plant will cover about 5 hectares (12.36 acres) and will be entirely composed of steel and concrete.

"Some of the machinery required is so large that the Southern Railway is building special cars to handle the same. The raw material required for the manufacture of cement is located in large quantities on the company's property. Portland cement is made from a mixture of limestone and clay, which will be loaded into cars at the company's quarries by steam shovels, taken to the plant, and crushed in large crushers.

The company is installing a complete cooper shop, which manufactures by machinery the barrels required for shipment of the cement, although the company believes that before long its customers will appreciate the economy and convenience arising through having their cement shipped to them in bags. The company has built a large number of houses for its employees (about 500 men) now working on the construction of this plant. Some of the factory buildings are completed and work on the foundation for the power house, kilns, and other buildings is progressing rapidly and they expect to have the plant finished and be manufacturing cement about the 1st of January. This company is the first to attempt the manufacture of a high grade Portland cement in Argentina and is financed by American capitalists who believe that Portland cement is one of the articles which Argentina can manufacture for its own use to better advantage than it can purchase same from foreign countries. A school and hospital, the erection of which is at present under contemplation, will provide for the mental and physical welfare of the workmen and their families, and the company has also under advisement the provision of amusements of various sorts for nonworking hours."

DON'T LOSE YOUR HEAD.

In every crowd there is always somebody who is ready to yell "fire!" Then the panic starts. When order is restored, everybody wonders why everybody lost his head.

When President Wilson issued his war proclamation and called upon the people of the United States to conserve their resources for the struggle ahead, he did not mean that they should stop spending money. He did mean that useless expenditures should stop, but that was nothing new. Business consists of buying and selling. Certain kinds of business are fundamental. The building business is one of them.

There need be no curtailment in building or road construction. Let both public and private useful building construction proceed. Production and handling of building materials and public and private construction work are fundamental industries of the country. Any tendency to suspend or postpone building projects is inconsistent with maintaining our prosperity. The country is prosperous. Building investors should not hesitate to go ahead with their plans. Railroads should spare no effort to supply the building industry with the cars needed to transport materials. Government, state, county, and municipal authorities should encourage the continuance of all kinds of building. Road and street improvements in particular should go on unabated. Bad roads and streets are factors of first importance in the present high cost of food stuffs. Never before was the improvement of highways so essential.

The lumber, brick, cement, lime, sand, gravel, stone, and other building materials industries are basic. Neither government regulations nor railroad restrictions should be imposed unnecessarily to interfere with them. If any action is taken which results in the prostration of so fundamentally important industries, there is real danger of a surplus of unemployed labor, a surplus of railroad cars and a crippling of business that will seriously embarrass the Government in financing the war.

Grains Used For Liquors Would Feed Ten Million Hogs.

Ten million hogs could be raised in the United States every year with the grain and cereals used in making distilled liquors and beers, according to Prof. M. E. Jaffa, Consulting Nutrition Expert of the State Board of Health. If these products were used for feeding cattle or dairy cows, they would satisfy about one and one-half million animals for one year. The by-products from the manufacture of these liquors and beer, will feed about 5,000,000 hogs, but since the residue alone is not relished by pigs, grains or mill by-products must be supplemented.

Prof. Jaffa says further:—"The total amount of grain used for the manufacture of alcohol is 2,183,775,852 pounds. About 500 pounds of grain, supplemented by pasture, is necessary to raise an eight months hog weighing about 200 pounds. If this were devoted to pork production it would satisfy the requirements of upwards of 4,000,000 hogs. If the cereals used for beer were similarly applied, over 6,000,000 hogs could be raised. If the grains now used for the production of distilled spirits were used for human food, there would be rendered available about 800,000 tons of edible meal, the remainder—bran, etc.—being used for cattle, hog and poultry feeds. The corresponding estimated figure for the cereals now used for beer would be approximately 1,200,000 tons. In other words, if the total amount of grains now used in the manufacture of distilled spirits and beer were used as human food, there would be produced about 2,000,000 tons of edible meal. If this were all wheat flour, it would correspond to 3,000,000 tons of bread or 6,000,000,000 one pound loaves of bread—one loaf per capita per day for two months for the entire United States."

SPRUCE IN DEMAND.

WASHINGTON—Ten million feet of high grade spruce lumber is desired for the construction of aeroplanes, in addition to 3,000,000 feet now in stock or in transit, the War Department states in a letter to Congressman Sinnott. This stock is not in the hands of the Government, and the Government itself is doing no purchasing, except in an insignificant way. It is estimated the needs of the aviation service, however, and the material likely to be called for by private builders is to be arranged for in reserve. The spruce on hand will construct 2,000 air ships and 10,000,000 feet additional will be enough for 10,000 more. The lumber is carefully picked, with two and three-inch planks of clear wood as favorite thicknesses.
